U.S. imports of women's, misses', and children's suits decreased from 408,000 dozen in 1976 to 384,000 dozen in 1977. Imports increased from 62,000 dozen in the first quarter of 1977 to 104,000 dozen in the same period in 1978. The ratio of imports to domestic production decreased from 11.4 percent in 1976 to 10.5 percent in 1977.

During the period under investigation Loyal Cloak Co. produced for one manufacturer. This manufacturer increased purchases of imported ladies' coats and suits and increased purchases from Loyal Cloak in 1977 compared to 1976. This manufacturer reduced purchases from Loyal Cloak Co. and increased purchases of imports in the first half of 1978 compared to the first half of 1977.

CONCLUSION

After a careful review of the facts obtained in the investigation, I conclude that increased imports of articles like or directly competitive with the ladies' coats and suits produced at Loyal Cloak Co., Lakewood, N.J. contributed importantly to the decline in sales and to the separation of workers at that plant. In accordance with the provisions of the act, I make the following certification:

All workers of Loyal Cloak Co., Lakewood, N.J. who became totally or partially separated from employment on or after October 1, 1977 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 12th day of October, 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-4005]

MEYER DANIEL PRODUCTS CORP., BROOKLYN, N.Y.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4005: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on July 31, 1978 in response to a worker petition received July 18, 1978 which was filed on behalf of workers and former workers producing lampshades at Meyer Daniel Products Corp., Brooklyn, N.Y.

The Notice of Investigation was published in the FEDERAL REGISTER on August 8, 1978 (43 FR 35130-1). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Meyer Daniel Products Corp., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

Industry sources state that imports of lampshades are negligible. A survey of some of Meyer Daniel's customers was conducted. Most of the respon-

dents indicated that they did not purchase imported lampshades. Those respondents that purchase imports indicated that they decreased purchases

in 1977 and continued to increase from 3.0 percent in the first quarter of 1977 to 3.3 percent in the first quarter of 1978. With specific regard to imports

worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on

Signed at Washington, D.C. this 12th day of October, 1978.

JAMES F. TAYLOR,
Director, Office of Management,

V 43/204 OCT 78

dents indicated that they did not purchase imported lampshades. Those respondents that purchase imports indicated that they decreased purchases of imported lampshades from 1976 to 1977 and in the first half of 1978 compared to the same period of 1977.

CONCLUSION

After careful review I determine that all workers of Meyer Daniel Products Corp., Brooklyn. N.Y. are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 16th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration, and Planning.

[TA-W-3721]

NORTH BERGAN LEATHER PRODUCTS CO., NORTH BERGEN, N.J.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3721: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on May 16, 1978 in response to a worker petition received on May 8, 1978 which was filed by the International Leather Goods, Plastics and Novelty Workers Union on behalf of workers and former workers producing ladies' handbags at the North Bergen Leather Products Co., North Bergen, N.J.

The Notice of Investigation was published in the FEDERAL REGISTER on June 27, 1978 (43 FR 27923-4). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the North Bergen Leather Products Co., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, the National Handbag Association, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of section 222 of the act must be met. The Department's investigation revealed that all of the requirements have been met.

U.S. imports of handbags increased from 90.2 million units in 1976 to 92.8 million units in 1977. Imports increased from 22.1 million units in the first quarter of 1977 to 34 million units in the first quarter of 1978. The ratio of imports to domestic production increased from 111.1 percent in 1976 to 116.6 percent in 1977.

A survey of a sample of the North Bergen Leather Products Co.'s customers representing a significant portion of sales in 1976 and 1977 indicated that they either import handbags directly or purchase imported handbags from domestic sources. These customers' purchases of both types of imported handbags increased in 1977 compared to 1976 while their purchases from the subject firm decreased during the same period.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increased imports of articles like or directly competitive with the handbags produced at the North Bergen Leather Products Co., North Bergen, N.J. contributed importantly to the decline in sales and to the separation of workers at that plant. In accordance with the provisions of the act, I make the following certification:

All workers at the North Bergen Leather Products Company, North Bergen, New Jersey who became totally or partially separated from employment on or after May 5, 1977 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 10th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3624]

NOVELLE FASHIONS, INC., HOBOKEN, N.J.

Termination of Investigation

Pursuant to section 221 of the Trade Act of 1974, an investigation was initiated on May 8, 1978 in response to a worker petition received on April 28, 1978 which was filed by the International Ladies' Garment Workers Union on behalf of workers and former workers producing ladies' coats at Novelle Fashions, Inc., Hoboken, N.J.

The Notice of Investigation was published in the FEDERAL REGISTER on May 26, 1978 (43 FR 22793). No public hearing was requested and none was held.

Due to the short term of operation of Novelle Fashions, Inc. and to the seasonality of the ladies' coat industry, there is not sufficient information in this case upon which to base a determination. In addition, worker qualifying requirements in section 231 of the act may not be met at this time. Consequently, the investigation has been terminated.

Signed at Washington, D.C. this 13th day of October 1978.

MARVIN M. FOOKS,
Director, Office of Trade Adjustment Assistance.

[TA-W-4001]

PACECO, INC., ALAMEDA, CALIF.

Certification Regarding Eligibility To Apply For Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974, the Department of Labor herein presents the results of TA-W-4001: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on July 26, 1978 in response to a worker petition received on July 24, 1978 which was filed by the International Brotherhood of Boilermakers, Iron Ship Builders, Blacksmiths, Forgers and Helpers on behalf of workers and former workers engaged in employment related to the production of fabricated steel which is produced in the form of cranes at the Alameda, Calif. plant of Paceco, Inc.

The Notice of Investigation was published in the FEDERAL REGISTER on August 4, 1978 (43 FR 34562). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Paceco, Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met. It is concluded that all of the criteria have been met.

Imports of dockside container cranes are not separately identifiable in the TSUSA import schedules but are reflected in the category, "fabricated structural steel". Imports of fabricated structural steel increased from 94,400 tons in 1976 to 142,100 tons in 1977 before declining from 24,800 tons in the first quarter of 1977 to 24,600 tons in the first quarter of 1978. The ratio of imports to the domestic shipments of fabricated structural steel increased from 2.5 percent in 1976 to 4.1 percent in 1977 and continued to increase from 3.0 percent in the first quarter of 1977 to 3.3 percent in the first quarter of 1978. With specific regard to imports of dockside container cranes, industry sources have stated that the ratio of imports to the domestic production of dockside container cranes has increased from approximately 0 percent in 1974 to almost 100 percent in 1978.

All of the company's business is obtained through competitive bid. The Department conducted a survey of some of the firms offering contracts on which Paceco bid. The percentage of work awarded to foreign fabricators increased in 1976 compared to 1975 while the percentage of work awarded to Paceco declined in the same period. Due to the nature of the product, the actual production on a contact will be completed 12 to 24 months after the award date of the contract. Therefore, contracts lost in 1976 will adversely affect employment and production in 1977 and 1978. None of the respondents awarded any contracts to Paceco in 1976 or 1977 and most of the contracts awarded by the respondents in 1976 and 1977 were awarded to foreign fabricators.

CONCLUSION

It is concluded that increased imports of articles like or directly competitive with the dockside container cranes produced at the Alameda, Calif. plant of Paceco, Inc., have contributed importantly to the total or partial separation and to the decline in sales and production at the plant as required for certification under the Trade Act of 1974. In accordance with the provisions of the act, I make the following certification:

All employees of the Alameda, Calif. plant of Paceco, Inc., who became totally or partially separated from employment on or after July 20, 1977 are eligible to apply for adjustment assistance benefits under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 12th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[FR Doc. 78-29652 Filed 10-19-78; 8:45 am]

[4510-28-M]

[TA-W-3657]

REGAL SPORTOGS, INC., HACKENSACK, N.J.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3657: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on May 8, 1978 in response to a worker petition received on April 28, 1978, which was filed by the International Ladies' Garment Workers' Union on behalf of workers and former workers producing ladies' and children's coats at Regal Sportogs, Inc., Hackensack, N.J.

The notice of investigation was published in the FEDERAL REGISTER on May 26, 1978 (43 FR 22793). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Regal Sportogs, Inc., the U.S. Department of Commerce, the U.S. International Trade Commission, the National Cotton Council of America, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or subdivision have contributed importantly to the total or partial separation, or threat thereof, and to the absolute decline in sales or production.

Average employment at Regal Sportogs remained constant from 1976 to 1977 and increased in the first 5 months of 1978 compared to the first 5 months of 1977. Average employment increased in the third and fourth quarters of 1977 compared to the like period of 1976. The ladies' and children's coat industry is typically a seasonal operation. In most years, contractors suffer a period of negligible orders during the first quarter of the year, before winter production begins. Although employment declines took place in the form of layoffs at Regal Sportogs during the period under investigation, these employment declines are seasonal declines. Regal Sportogs, Inc. has been closed for 5 months during each spring season since 1975.

CONCLUSION

After careful review I determine that all workers of Regal Sportogs, Inc., Hackensack, N.J. are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 12th day of October, 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3470]

REPUBLIC STEEL CORP. (ENDURO DIVISION), MASSILLON, OHIO

Negative Determination Regarding Eligibility to Apply for Worker adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3470: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on April 4, 1978 in response to a worker petition received on March 24, 1978 which was filed by the United Steel Workers of America on behalf of workers and former workers producing stainless and specialty steel products at the Massillon, Ohio plant of Republic Steel Corp. The investigation revealed that the petition was to cover workers in the Enduro Division of Republic Steel Corp.

In a determination signed on May 25, 1976, all workers producing stainless steel at the Massillon, Ohio plant were certified as eligible to apply for adjustment assistance. (See TA-W-666.) The certification expired on May 25, 1978.

The Notice of Investigation was published in the FEDERAL REGISTER on April 28, 1978 (43 FR 18360-61). No public hearing was requested an none was held.

The determination was based upon information obtained principally from officials of Republic Steel Corp., the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligivility requirements of section 222 of the act must be met. Without regard to whether any of the other critieria have been met, the following criterion has not been met:

That a significant number of proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated.

Average employment for the Enduro Division increased from 1976 to 1977 and in the first nine months of 1978

V 4 3 / 2 0 4 0 0 C 2 0 7 8

compared to the same period in 1977. From May 25, 1978, the earliest possible impact date, to the present there have been no significant declines in employment, and no reduced work weeks have occurred. There is no immediate threat of separation to workers of the Enduro Division.

CONCLUSION

After careful review, I determine that all workers at the Massillon, Ohio plant (Enduro Division) of Republic Steel Corp. are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 17th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3769]

RIVER STREET SPORTSWEAR CORP., LOWELL, MASS.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3769: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on May 24, 1978 in response to a worker petition received on May 22, 1978 which was filed on behalf of workers and former workers producing women's dresses and sportswear at River Street Sportswear Corp., Lowell, Mass.

During the course of the Department's investigation it was revealed that River Street Sportswear no longer manufactures dresses. Sportswear production consists of skirts, slacks, jackets and shirts.

The Notice of investigation was published in the FEDERAL REGISTER on June 6, 1978 (43 FR 24634-35). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of River Street Sportswear Corp., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, the National Cotton Council of America, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of section 222 of the act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threats thereof, and to the absolute decline in sales or production.

A survey of manufacturers for whom River Street Sportswear did contract work revealed that all of the manufacturers responding to the Department's survey reported increasing sales. Respondents indicated that most manufacturers did not purchase imports, those that did purchase imports indicated that the imported articles were different from those contracted for with River Street Sportswear.

CONCLUSION

After careful review, I determine that all workers of River Street Sportswear Corp., Lowell, Mass. are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 16th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3482]

SPUN STEEL CO. CANTON, OHIO

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3482: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on April 6, 1978 in response to a worker petition received on March 27, 1978 which was filed by the United Automobile, Aircraft and Agricultural Implement Workers on behalf of workers and former workers producting automotive pulleys at the Canton, Ohio plant of the Spun Steel Co., which is a division of Aspro, Inc.

The Notice of Investigation was published in the FEDERAL REGISTER on April 25, 1978 (43 FR 17550 and 17551). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Aspro, Inc., Spun Steel Co., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the act must be met. The investigation revealed that all of the criteria have been met.

U.S. imports of automotive pulleys increased from 2.4 million units in 1976 to 4.5 million units in 1977. The ratio of imports to domestic production increased from 4.7 percent in 1976 to 8.3 percent in 1977.

A survey conducted with customers of the Spun Steel Company revealed that most customers increased purchases of imported automotive pulleys from 1976 to 1977, while decreasing their purchases from the Canton, Ohio, plant.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increased imports of articles like or directly competitive with the automotive pulleys produced at the Canton, Ohio, plant of the Spun Steel Co., a division of Aspro, Inc., contributed importantly to the decline in sales and to the separation of workers at that plant. In accordance with the provisions of the act, I make the following certification:

All workers of the Spun Steel Co., Canton, Ohio, who became totally or partially separated from employment on or after March 22, 1977, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 12th day of October, 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[4510-28-M]

[TA-W-3629]

STAR COAT MANUFACTURING CO, INC., HOBOKEN, N.J.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3629: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on May 8, 1978 in response to a worker petition received on April 28, 1978 which was filed by the International Ladies' Garment Workers' Union on behalf of workers and former workers producing ladies' coats and raincoats at Star Coat Manufacturing Co., Inc., Hoboken, N.J.

The Notice of Investigation was published in the FEDERAL REGISTER on May 26, 1978 (43 FR 22793). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Star Coat Manufacturing Co., its customers (manufacturers), the U.S. Department of Commerce, the U.S. International Trade Commission, the National Cotton Council of America, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of section 222 of the act must be met. It is concluded that all of the requirements have been met.

U.S. imports of Women's, Misses', and Children's Coats and Jackets increased from 2252 thousand dozen in 1976 to 2723 thousand dozen in 1977. Imports declined from 590 thousand dozen in the first quarter of 1977 to 572 thousand dozen in the first quarter of 1978. The ratio of imports to domestic production increased from 48.3 percent in 1976 to 54.9 percent in 1977.

U.S. imports of Women's, Misses', and Children's Raincoats decreased from 261 thousand dozen in 1976 to 242 thousand dozen in 1977. Imports increased from 84 thousand dozen in the first quarter of 1977 to 129 thousand dozen in the first quarter of 1978. The ratio of imports to domestic production decreased from 45.0 percent in 1976 to 40.3 percent in 1977.

The Department conducted a survey of the principal manufacturers for which Star Coat Manufacturing Co. worked in 1976 and 1977. Manufacturers that accounted for a majority of sales in 1976 reduced purchases from Star Coat Manufacturing Co. and increased purchases of imported coats and rainwear in 1977 compared to 1976. Manufacturers that accounted for a majority of sales in 1977 reported that they reduced purchases from Star Coat Manufacturing Co. and increased purchases of imports in the first quarter of 1978 compared to the first quarter of 1977.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increased imports of articles like or directly competitive with the ladies' coats and raincoats produced at Star Coat Manufacturing Co., Hoboken, N.J. contributed importantly to the decline in sales and to the separation of workers at that plant. In accordance with the provisions of the act, I make the following certification:

All workers of Star Coat Manufacturing Co., Inc., Hoboken, N.J. who became totally or partially separated from employment on or after March 28, 1977 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 12th day of October, 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[4510-28-M]

[TA-W-3917]

STEVEN KNITTING MILLS, NEW YORK, N.Y.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3917: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on June 27, 1978 in response to a worker petition received on June 26, 1978 which was filed on behalf of workers and former workers producing knit fabrics at Steven Knitting Mills, New York, N.Y.

The Notice of Investigation was published in the FEDERAL REGISTER on July 7, 1978 (43 FR 29364). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Steven Knitting Mills, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of section 222 of the act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

Imported wearing apparel cannot be considered to be like or directly competitive with finished or unfinished fabric. Imports of fabric must be considered in determining import injury to workers producing fabric.

The Department surveyed a sample of Steven Knitting Mills' major customers (apparel manufacturers) who had reduced their purchases of fabrics from that firm. Most respondents indicated that they did not purchase imported fabric.

CONCLUSION

After careful review I determine that all workers of Steven Knitting Mills, New York, N.Y. are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 10th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3501]

TIMA, INC., GREENSBORO, N.C.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974, the Department of Labor herein presents the results of TA-W-3501: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on April 11, 1978, in response to a worker petition received on March 27, 1978, which was filed on behalf of workers and former knitting polyester and cotton yarn into fabrics for the garment industry at Tima, Inc., Greensboro, N.C.

The Notice of Investigation was published in the FEDERAL REGISTER on May 2, 1978 (43 FR 18790). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from Tima, Inc., its customers, the American Textile Manufacturers Institute, the U.S. Department of Commerce, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

The petitioners allege that increased imports of finished apparel contributed importantly to the decline in sales

V 4 3 / 2 0 4 0 OCT 20 78

or production and to the separation of workers producing knitted fabric at Tima, Inc., Greensboro, N.C. Imported wearing appared cannot be considered to be like or directly competitive with knitted fabric. Imports of all types of finished fabric must be considerd in determining import injury to workers producing knitted fabric at Tima, Inc.

Aggregate imports of all finished fabric (bleached, dyed, and printed) both woven and knitted, declined absolutely from 1976 to 1977 and then increased in the first quarter of 1978 compared to the same period in 1977. The ratios of imports to domestic production and consumption remained less than 2 percent from 1974 through 1977.

Customers who contracted with Tima for the knitting of fabric were surveyed. The survey revealed that none of the customers who responded purchased imported fabric or used foreign contractors during 1976 or 1977. Furthermore, the customers' sales increased from 1976 to 1977.

CONCLUSION

After careful review I determine that all workers of Tima, Inc., Greensboro, N.C., are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., the 12th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management Administration and Planning.

[TA-W-3958]

TRENT TUBE DIVISION OF COLT INDUSTRIES, CARROLLTON, GA.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974, the Department of Labor herein presents the results of TA-W-3958: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on July 11, 1978, in response to a worker petition received on July 6, 1978, which was filed by the United Steelworkers of America on behalf of workers and former workers producing stainless steel pipe and tubing at the Carrollton, Ga., plant of Trent Tube Division of Colt Industries.

The Notice of Investigation was published in the FEDERAL REGISTER on July 25, 1978 (43 FR 32199). No public hearing was requested and none was held.

On May 28, 1976, the Department issued a certification of eligibility to apply for adjustment assistance benefits to all workers of the Carrollton, Ga., plant of Trent Tube division of Colt Industries. This certification expired May 28, 1978—2 years from the date of issuance.

The information upon which the determination was made was obtained principally from officials of Trent Tube Division, its customers, the Iron and Steel Institute, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Act must be met. It is concluded that all of the requirements have been met.

United States imports of stainless steel pipe and tubing increased from 12.5 thousand short tons in the first half of 1977 to 12.8 thousand short tons in the first half of 1978.

A survey of customer of Trent Tube's Carrollton plant revealed that several major customers decreased purchases of stainless steel pipe and tubing from the subject firm while increasing purchases of imports in the first half of 1978 compared to the first half of 1977.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with stainless steel pipe and tubing produced at the Carrollton, Ga., plant of the Trent Tube Division of Colt Industries contributed importantly to the total or partial separation of that plant. In accordance with the provisions of the Act, I make the following certification:

All workers of the Carrollton, Ga., plant of Trent Tube Division of Colt Industries who became totally or partially separated from employment on or after May 28, 1978, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 12th day of October, 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3747]

TRW CRESCENT WIRE CABLE CO., TRENTON, N.J.

Notice of Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3747: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on May 23, 1978, in response to a worker petition received on May 18, 1978, which was filed by the International Association of Machinists on behalf of workers and former workers producing building wire at the Trenton, N.J., plant of TRW Crescent Wire & Cable Co. The investigation revealed that industrial wire, power cable, and instrument and control products are manufactured at the plant.

The Notice of Investigation was published in the FEDERAL REGISTER on June 6, 1978 (43 FR 24633). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the TRW Crescent Wire & Cable Co., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Act must be met. Without regard to whether any of the other criteria have been met the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threats thereof, and to the absolute decline in sales or production.

The Department contacted a representative sample of the customers of TRW Crescent Wire & Cable Co., Trenton, N.J. None of the customers reported increasing purchases of imports and reducing purchases from TRW Crescent in 1977 compared to 1976 and in the first quarter of 1978 compared to the same period in 1977.

CONCLUSION

After careful review, I determine that all workers of TRW Crescent Wire & Cable Company, Trenton, N.J., are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 12th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3472]

UNITED MERCHANTS AND MANUFACTURERS, SHELBY MILLS, SHELBY, N.C.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974, the Department of Labor herein presents the results of TA-W-3472: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on April 4, 1978, in response to a worker petition received on March 23, 1978, which was filed on behalf of workers and former workers producing spun type material for apparel at the Shelby, N.C., plant of United Merchants and Manufacturers.

During the course of the investigation it was established that the plant produces greige fabric for apparel.

The investigation was expanded to include the Buffalo, Clearwater, and Bath, S.C., plants of United Merchants.

The notice of investigation was published in the FEDERAL REGISTER on April 28, 1978 (43 FR 18360-18361). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of United Merchants and Manufacturers, Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analyst, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the act must be met. It is concluded that all of the requirements have been met.

The Department's investigation revealed that U.S. imports of greige woven polyester fabric increased from 19.9 million square yards in 1976 to 27.6 million square yards in 1977. Imports decreased from 6.6 million square yards in the first quarter of 1977 to 4.6 million square yards in the first quarter of 1978. The ratio of imports to domestic production increased from .38 percent in 1976 to .55 percent in 1977.

Imports of greige woven non-industrial cotton fabric decreased from 613 million square yards in 1976 to 445 million square yards in 1977. Imports increased from 92 million square yards in the first quarter of 1977 to 128 million square yards in the first quarter of 1978. The ratio of imports to domestic production decreased from 15.1 percent in 1976 to 9.9 percent in 1977.

Imports of greige woven woolen fabric increased from 17.2 million square yards in 1976 to 22.7 million square yards in 1977. Imports increased from 5.7 million square yards in the first quarter of 1977 to 7.6 million square yards in the first quarter of 1978.

A survey of customers of United Merchants' sales division indicated that customers accounting for a significant proportion of the total sales of Shelby, Buffalo, Seminole, and Bath mills decreased purchases of fabric from these mills and increased purchases of imported fabric in 1977 compared to 1976 and in the first quarter of 1978 compared to the same period of 1977. Another division of United Merchants and Manufacturers imports greige fabric.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with the greige fabric for apparel produced by the Shelby, N.C., plant of United Merchants contributed importantly to the total or partial separation of workers at that plant. In accordance with the provisions of the act, I make the following certification:

All workers of the Shelby, N.C., plant of United Merchants and Manufacturers, Inc., who became totally or partially separated from employment on or after March 20, 1977, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 16th day of October, 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3472a, 3472b, 3472c]

UNITED MERCHANTS & MANUFACTURERS, INC., BUFFALO MILLS, BUFFALO, S.C., SEMINOLE MILLS, CLEARWATER, S.C.; BATH MILLS, BATH, S.C.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974, the Department of Labor herein presents the results of TA-W-3472a, 3472b, 3472c: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on April 4, 1978, in response to a worker petition received on March 23, 1978, which was filed on behalf of workers and former workers producing spun type material for apparel at the Shelby, N.C., plant of United Merchants & Manufactures, Inc. During the course of the investigation it was established that the plant produces greige woven fabric for apparel.

The investigation was expanded to include the Buffalo, Clearwater, and Bath, S.C. plants of United Merchants.

The notice of investigation was published in the FEDERAL REGISTER on April 28, 1978 (43 FR 18360-18361). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of United Merchants & Manufactures, Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the act must be met. It is concluded that all of the requirements have been met.

The Department's investigation revealed that U.S. imports of greige woven polyester fabric increased from 19.9 million square yards in 1976 and increased to 27.6 million square yards in 1977. Imports decreased from 6.6 million square yards in the first quarter of 1977 to 4.6 million yards in the first quarter of 1978. The ratio of imports to domestic production increased from 0.38 percent in 1976 to 0.55 percent in 1977.

Imports of greige woven non-industrial cotton fabric decreased from 613 million square yards in 1976 to 445 million square yards in 1977. Imports increased from 92 million square yards in the first quarter of 1977 to 128 mil-

V 4 3 / 2 0 4 0 0 C 2 0 7 8

lion square yards in the first quarter of 1978. The ratio of imports to domestic production increased from 15.1 percent in 1976 to 9.9 percent in 1977.

Imports of greige woven woolen fabric increased from 17.2 million square yards in 1976 22.7 million square yards in 1977. Imports increased from 5.7 million square yards in the first quarter of 1977 to 7.6 million square yards in the first quarter of 1978.

A survey of customers of United Merchants' sales division indicated that customers accounting for a significant proportion of the total sales of Shelby, Buffalo, Seminole, and Bath Mills decreased purchases of fabric from these mills and increased purchases of imported fabric in 1977 compared to 1976 and in the first quarter of 1978 compared to the same period of 1977. Another division of United Merchants & Manufactures imports greige fabric.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with the greige fabric for apparel produced by the Buffalo, Clearwater, and Bath, S.C., plants of United Merchants & Manufactures contributed importantly to the decline in sales and production and to the separation of workers at those plants. In accordance with the provisions of the act, I make the following certification:

All workers of the plants, listed below, of United Merchants & Manufactures, Inc., who became totally or partially separated from employment on or after March 20, 1977, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Plant names and locations:
Buffalo Mills—Buffalo, S.C.
Seminole Mills—Clearwater, S.C.
Bath Mills—Bath, S.C.

Signed at Washington, D.C., this 16th day of October 1978.

[4510-28-M]

[TA-W-2588A]

UNITED STATES STEEL CORP., FAIRLESS WORKS, TRENTON, N.J.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974, the Department of Labor herein presents the results of TA-W-2588A: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on November 9, 1977, in response to a worker petition received on October 31, 1977, which was filed by the United Steelworkers of America on behalf of all workers producing all carbon steel and steel products at the Fairless Works of the United States Steel Corp., Fairless Hills, Pa.

Workers engaged in the production of hot rolled sheets, tin mill products, carbon rods, and wire and wire products at the Fairless Hills, Pa. plant of the Fairless Works, United States Steel Corp., were certified eligible to apply for adjustment assistance on April 6, 1973 (see TA-W-2588). Workers engaged in employment related to the production of cold rolled sheets, bar-size light shapes and galvanized sheets at the Fairless Hills plant were denied eligibility to apply for adjustment assistance.

Further investigation revealed that the rope mill at the Fairless Works is a separate plant located in Trenton, N.J. Workers engaged in the production of wire rope, cord, strand, and other wire products at the Trenton plant are not covered under the certification for the Fairless Works. The Trenton plant receives all its carbon rods from Fairless Hills. Because it is an integrated operation of the Fairless Works, the investigation was expanded to include the Trenton, N.J. plant.

The Notice of Investigation was published in the FEDERAL REGISTER on November 18, 1977 (42 FR 59565). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of United States Steel Corp., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met. It is concluded that all of the criteria have been met.

The Department conducted surveys of some customers purchasing the following products from the Trenton plant of United States Steel: wire rope and cord, wire strand, and carbon rods.

Wire rope and cord represents the great majority of sales by the Trenton, N.J., plant of United States Steel in 1977. Several customers surveyed concerning purchases of wire rope, cord and strand in 1976 compared to 1977 and the first quarter of 1978 to the like quarter in 1977, increased their purchases of imports while decreasing purchases from the Trenton plant.

Sales of wire rope, cord, and strand and employment at the Trenton plant were higher in the fourth quarter of 1977 and the first quarter of 1978 than in the same quarters respectively a year earlier.

CONCLUSION

After careful review, I conclude that increases of imports of articles like or directly competitive with the wire rope, cord, and strand produced by the Trenton, N.J., plant of Fairless Works of the United States Steel Corp., contributed importantly to the separation of workers at that facility. In accordance with the provisions of the act, I make the following certification:

All workers of the Trenton, N.J., plant, Fairless Works of the United States Steel Corp. who become totally or partially separated from employment on or after October 20, 1976, and before October 1, 1977, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 10th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[4510-28-M]

[TA-W-3417]

UNITED STATES STEEL CORP., McKEES ROCKS, PA.

Determinations Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3417: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on March 27, 1978, in response to a worker petition received on November 17, 1977, which was filed by the United Steelworkers of America on behalf of workers and former workers producing railway wheels and axles at the McKees Rocks, Pa., plant of United States Steel Corp.

The Notice of Investigation was published in the FEDERAL REGISTER on April 11, 1978 (43 FR 15205). No public hearing was required and none was held.

The information upon which the determination was made was obtained principally from officials of United States Steel Corp., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

RAILROAD AXLES

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

A survey was conducted of some of the firms which purchased railroad axles from the McKees Rocks plant. The results of the survey indicated that most of the firms surveyed increased their purchases of axles from the McKees Rocks plant in 1977 compared to 1976 and in the first half of 1978 compared to the first half of 1977. None of the firms surveyed reduced purchases of axles from the McKees Rocks plant while increasing purchases of imported axles.

RAILROAD WHEELS

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met. It is concluded that all of the requirements have been met.

Import data for railroad wheels and railroad axles are not separately identifiable. Imports of railroad wheels and axles increased from 32.2 thousand tons in 1976 to 57.2 thousand tons in 1977. Imports amounted to 19.8 thousand tons in the first quarter of 1978 compared to 10.0 thousand tons in the first quarter of 1977.

A survey was conducted of some of the firms which purchased railroad wheels from the McKees Rocks plant. The results of the survey indicated that most of the firms surveyed increased their purchases of wheels from the McKees rocks plant in 1977 compared to 1976. However, several of these firms reduced purchases from the McKees Rocks plant in the first half of 1978 compared to the first half of 1977 and increased purchases of imported railroad wheels during the same period.

CONCLUSIONS

After careful review I determine that all workers engaged in employment related to the production of railroad axles at the McKees Rocks, Pa., plant of United States Steel Corp., are denied eligibility to apply for adjustment assistance unter Title II, Chapter 2 of the Trade Act of 1974.

I further conclude that increases of imports of articles like or directly competitive with railroad wheels produced by the McKees Rocks, Pa., plant of United States Steel Corp., contributed importantly to the total or partial separations of the workers of that plant. In accordance with the provisions of the act, I made the following certification:

All workers engaged in employment related to the production of railroad wheels at the McKees Rocks, Pa., plant of United States Steel Corp., who became totally or partially separated from employment on or after January 1, 1978, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Ace of 1974.

Signed at Washington, D.C. this 10th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3756]

WESTERN PUBLISHING COMPANY, INC., ST. LOUIS, MO.

Notice of Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3756: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on May 23, 1978 in response to a worker petition received on May 18, 1978 which was filed on behalf of workers and former workers engaged in commercial printing at the St. Louis, Mo. facility of Western Publishing Co., Inc.

The Notice of Investigation was published in the FEDERAL REGISTER on June 6, 1978 (43 FR 24634). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Western Publishing Co., Inc., the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

U.S. imports of advertising printing materials including posters, billboards signs, and pamphlets are negligible and have had little, if any, effect upon the domestic industry.

The petitioning workers are employed in the St. Louis, Mo. plant of Western Publishing Co. The St. Louis plant performs commercial printing services on a contract basis. The largest percentage of business is the printing of billboard signs. The plant also prints smaller signs and posters.

CONCLUSION

After careful review, I determine that all workers of the St. Louis, Missouri plant of the Western Publishing Co., Inc. are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 16th day of October 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3846]

THE WILKOFF CO., YOUNGSTOWN, OHIO

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3846: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on June 14, 1978 in response to a worker petition received on June 9, 1978 which was filed by the United Steelworkers of America on behalf of workers and former workers producing structural steel and other related carbon steel products at Wilkoff Co., Youngstown, Ohio. Subsequent investigation revealed that Wilkoff Co. pickles steel sheets and plates for steel companies and processes and sells scrap steel.

The Notice of Investigation was published in the FEDERAL REGISTER on June 27, 1978 (43 FR 27924). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Wilkoff Co. and Department files.

V 4 3 / 2 0 4 0 C 2 0 7 8

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Act must be met. The Department has determined that services are not "articles" within the meaning of Section 222 of the Act, and that independent firms for which the subject firm provides services cannot be considered to be the "workers' firm."

The Wilkoff Co. cleans rusted steel sheets and plates for steel companies in its pickling department. Ownership of the sheets and plates is retained by the steel companies for which Wilkoff performs the pickling.

Wilkoff's scrap metal department purchases scrap metal which is subsequently sheared, burned or baled.

Until December 1976, Wilkoff also fabricated its own structural steel. At the end of December 1976, Wilkoff closed its structural steel department. Separations resulting from the closure of the structural steel department occurred on December 31, 1976. Section 223(b)(1) of the Trade Act of 1974 states that a certification under this section shall not apply to any worker whose last total or partial separation from the subject firm occurred more than 12 months prior to the date of filing under Title II, Chapter 2 of the Trade Act of 1974. The date of the petition is May 10, 1978. Therefore, workers laid off prior to May 10, 1977 are not eligible for program benefits under Title II, Chapter 2, Subchapter B of the Trade Act of 1974.

Since January 1977, workers at the Wilkoff Co. have been engaged in pickling steel sheets and plates for steel companies and processing scrap metal for sale to steel mills. Workers do not produce an article within the meaning of section 222(3) of the Trade Act.

All workers engaged in pickling steel sheets and plates and processing scrap metal for sale at Wilkoff Co. are employed by that firm. Thus, the Wilkoff Co. must be considered to be "the workers' firm."

CONCLUSION

After careful review, I determine that all workers of the Wilkoff Co., Youngstown, Ohio are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 12th day of October, 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

NUCLEAR REGULATORY COMMISSION

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS

Meetings

In order to provide advance information regarding proposed meetings of the ACRS subcommittees and working groups, and of the full committee, the following preliminary schedule reflects the current situation, taking into account additional meetings which have been scheduled and meetings which have been postponed or canceled since the last list of proposed meetings published September 21, 1978 (43 FR 42826). Those meetings which are definitely scheduled have had, or will have, an individual notice published in the FEDERAL REGISTER approximately 15 days (or more) prior to the meeting. those subcommittee and working group meetings for which it is anticipated that there will be a portion or all of the meeting open to the public are indicated by an asterisk (*). It is expected that the sessions of the full committee meeting designated by an asterisk (*) will be open in whole or in part to the public. ACRS full committee meetings begin at 8:30 a.m. and sub-committee and working group meetings usually begin at 8:30 a.m. The exact time when items listed on the agenda will be discussed during full committee meetings and when subcommittee and working group meetings will start will be published approximately 15 days prior to each meeting. Information as to whether a meeting has been firmly scheduled, canceled, or rescheduled, or whether changes have been made in the agenda for the November 1978 ACRS full committee meeting can be obtained by a prepaid telephone call to the Office of the Executive Director of the committee (telephone 202-634-3267, Attention: Mary E. Vanderholt) between 8:15 a.m. and 5:00 p.m., e.d.t., before October 29 and e.s.t. after that date.

SUBCOMMITTEE AND WORKING GROUP MEETINGS

**Fluid Dynamics*, October 24-25-26, 1978, San Francisco, Calif. Rescheduled to November 28-29-30, 1978.

**Plant Arrangements*, October 25, 1978, Washington, D.C. The subcommittee will begin its review of the NRC Generic Program, Systems Interaction in Nuclear Power Plants, Task A-17, and will review the Zion Station Systems Interaction Study. Notice of this meeting was published September 21 and October 10, 1978 (43 FR 42826 and 46611, respectively).

**Surry Power Station*, October 28, 1978, Washington, D.C., the subcommittee will discuss the steam generator repair program for Unit Nos. 1 and 2. Notice of this meeting was published October 13, 1978 (43 FR 47335).

**Reactor Operations*, November 1, 1978. Rescheduled from October 31-November 1. Washington, D.C. The subcommittee will review NRC Office of Nuclear Regulatory Research programs being conducted by the Research Support Branch, and will hear a briefing by representatives of the NRC Division of Operating Reactors concerning its policies and activities. Notice of this meeting was published September 21 and October 17, 1978 (43 FR 42826 and 47803, respectively).

**Advanced Reactors*, November 1, 1978, Washington, D.C. The subcommittee will continue its review of matters related to NRC sponsored research on the safety of advanced reactor designs. Notice of this meeting was published October 17, 1978 (43 FR 47802).

**Regulatory Activities*, November 1, 1978. Washington, D.C. Canceled. Notice of this meeting was published September 21, 1978 (43 FR 42826).

**William H. Zimmer Nuclear Power Station, Unit No. 1*, November 16-17, 1978. Rescheduled from November 15-16. Cincinnati, Ohio. The subcommittee will review the application of the Cincinnati Gas and Electric Co. for a license to operate Unit No. 1 of this station. Notice of this meeting was published September 21, 1978 (43 FR 42826).

**Architect-Engineer Balance of Plant* (Tentative), November 21, 1978. Rescheduled for December 18. Washington, D.C. Notice of this meeting was published September 21, 1978 (43 FR 42826).

**Fluid Dynamics*, November 28-29-30, 1978. Rescheduled from October 24-25-26. San Francisco, Calif. The subcommittee will meet with representatives of the NRC to discuss methods used in licensing by the NRC staff and the nuclear industry for calculating containment system response. Containment leak testing will also be discussed. In addition, the subcommittee will review the design basis and construction of the Mark II Boiling Water Reactor (BWR) Containment System. Notice of this meeting was published September 21, 1978 (43 FR 42826).

**Power and Electrical Systems*, December 1, 1978, Washington, D.C. The subcommittee will meet with representatives of Westinghouse Corp. and the NRC staff to review the potential adverse interactions through the interconnection of protection and safety systems with reactor control systems described in RESAR-414.

**Generic Items*, December 5, 1978, Washington, D.C. The subcommittee will review the status of the various generic items contained in the committee's November 15, 1977, "Status of Generic Items Relating to Light-Water Reactors, Report No. 6."

**Regulatory Activities*, December 6, 1978, Washington, D.C. The subcommittee will review working papers and future regulatory guides; also, it will discuss pertinent activities which affect the current licensing process and/or reactor operations.

**Architect-Engineer Balance of Plant*, December 18, 1978. Rescheduled from November 21, 1978. Washington, D.C. The subcommittee will review the Fluor Power Services, Inc., Balance of Plant Standard Safety Analysis Report (BOPSSAR) and its relationship to the Babcock and Wilcox Standard Reference System B-SAR-205 for a preliminary design approval.

**Salem Nuclear Power Station, Unit No. 2*, December 19, 1978, Washington, D.C. The subcommittee will review the application of the Public Service Electric and Gas Co. for a license to operate Unit No. 2 of this station.

**Regulatory Activities*, January 3, 1979, Washington, D.C. The subcommittee will review working papers and future regulatory guides; also, it will discuss pertinent activities which affect the current licensing process and/or reactor operations.

**Extreme External Phenomena*, January 9, 1979, Las Vegas, Nev. The subcommittee will review NRC-sponsored research regarding seismic design of nuclear power plants.

ACRS FULL COMMITTEE MEETINGS

November 2-4, 1978

A. *Fast Flux Test Facility—Operation.

B. *Reactor Safety Research—Review NRC Safety Research Program.

November 9-11, 1978

*Representatives of the ACRS will meet with representatives of the Reactor-Safety Commission (RSK) of the Federal Republic of Germany to discuss items of mutual interest related to nuclear safety and regulation.

December 7-9, 1978

Agenda to be announced.

January 4-6, 1979

Agenda to be announced.

Dated: October 18, 1978.

JOHN C. HOYLE,
Advisory Committee Management Officer.

[7590-01-M]

[Docket No. 50-341-OL]

DETROIT EDISON CO., ET AL.

Establishment of Atomic Safety and Licensing Board to Rule on Petitions

Pursuant to delegation by the Commission dated December 29, 1972, published in the FEDERAL REGISTER (37 FR 28710) and §§ 2.105, 2.700, 2.702, 2.714, 2.714a, 2.717, and 2.721 of the Commission's Regulations, all as amended, an Atomic Safety and Licensing Board is being established to rule on petitions and/or requests for leave to intervene in the following proceeding:

DETROIT EDISON CO., ET AL.

(Enrico Fermi Atomic Power Plant, Unit 2)

Construction Permit No. CPPR-87

This action is in reference to a notice published by the Commission on September 11, 1978, in the FEDERAL REGISTER (43 FR 40327) entitled "Opportunity for Hearing."

The Chairman of this Board and his address is as follows:

Charles Bechhoefer, Esq., Atomic Safety and Licensing Board Panel, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

The other members of the Board and their addresses are as follows:

Dr. David R. Schink, Department of Oceanography, Texas A. & M. University, College Station, Tex. 77840.

Mr. Frederick J. Shon, Atomic Safety and Licensing Board Panel, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

V 4 3 / 2 0 4 0 OC 20 78

Dated at Bethesda, Md., this 13th day of October 1978.

JAMES R. YORE,
Chairman Atomic Safety and Licensing Board Panel.

[7590-01-M]

[Docket No. 50-286, Facility Operating License No. DPR-64]

POWER AUTHORITY OF THE STATE OF NEW YORK, INDIAN POINT NUCLEAR GENERATING STATION, UNIT NO. 3

Denial of Amendment Application

The U.S. Nuclear Regulatory Commission (the Commission) has denied the Power Authority of the State of New York's (the licensee) "application for an Extension of the Period of Interim Operation Using the Installed Once-through Cooling System and Motion for Expedited Commission Consideration" dated August 7, 1978. The licensee seeks amendment of Condition 2.E.(1) of DPR-64 so as to extend the date for termination of operation with once-through cooling [1] to allow for (1) the Environmental Protection Agency (EPA) to reach an administrative decision in the pending discharge permit proceeding involving Indian Point 3 (and other steam-electric generating facilities on the low Hudson River), (2) any judicial remedies from the EPA decision to be exhausted, and (3) the cooling tower, if required by EPA, to be constructed.

The Commission's denial is set forth in a letter dated October 13, 1978, from Harold R. Denton, Director, Office of Nuclear Reactor Regulation to Paul J. Early, Assistant Chief Engineer, Projects of the licensee. Briefly, the bases for the denial are: (1) the Commission will be required to conform its license to whatever decision (including a compliance schedule for tower construction) is ultimately adopted by EPA; (2) the EPA proceeding is still in process and the Commission does not, therefore, have the benefit yet of an EPA decision; (3) the Commission will have to analyze whatever decision EPA reaches and determine what type of evaluation is required under the Commission's regulations implementing the National Environmental Policy Act; and (4) the Commission expects that the EPA final administrative decision will be rendered sufficiently in advance of the once-through cooling termination date that the Commission will be able to take whatever action might be required prior to that date. On these bases, the Commission determined that it is preferable to await the final EPA administrative decision before determining what action need be taken by the Commission and that there is no prejudice to the licensee from a denial of the application.

For further details with respect to this action, see (1) the licensee's application and supporting affidavit and (2) the letter fropm Mr. Denton to Mr. Early. Both of these documents are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20555, and at the White Plains Public Library, 100 Martine Avenue, White Plains, N.Y. 10601.

A copy of Item (2) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Site Safety and Environmental Analysis.

Dated at Bethesda, Md., this 13th day of October 1978.

For the Nuclear Regulatory Commission.

RONALD L. BALLARD,
Chief, Environmental Projects Branch 1, Division of Site Safety and Environmental Analysis.

[FR Doc. 78-29567 Filed 10-19-78; 8:45 am]

[1] Condition 2.E.(1) presently requires termination of operation with once-through cooling by September 15, 1980. By operation of Condition 2.E.(1)(e), that date has now become September 15, 1982. The Commission will appropriately amend the license.

[7590-01-M]

RECOMMENDATIONS FOR IMPROVING NUCLEAR POWERPLANT LICENSING

Policy Statement

In its continuing efforts to improve the effectiveness and efficiency of Nuclear Regulatory Commission (NRC) licensing activities consistent with providing increased opportunity for the public to participate in the licensing process, the Commission requested a staff study of the lessons learned in nuclear power plant licensing since the NRC was created. The results of this study were published in June 1977 as NUREG-0292, "Nuclear Power Plant Licensing: Opportunities for Improvement." A press release was issued on July 27, 1977, which summarized these recommendations, noted public availability of the report, and indicated that the Commission had directed the staff to prepare a plan to implement these recommendations.

It is the intent of the Commission to implement the following recommendations of NUREG-0292 on an experimental basis whenever opportunities arise and it is practical to do so on both currently docketed and forthcoming applications. The recommendations will be implemented as a collective set if possible; however, implementation of any single recommendation will be undertaken if the staff believes a productive result will be achieved.

RECOMMENDATION NO. 3

INCREASE PRETENDERING COORDINATION WITH APPLICANTS

The expanded pretendering coordination with applicants has as its objective the subsequent filing of an application that is of such quality as to minimize the need for extensive requests for additional information, clarification, or design or procedural commitment that often result in considerable delay in the review of an application after docketing. The expanded pretendering activities will be initiated about 9 months prior to the proposed tendering of an application and will be designed to provide additional guidance and direction to the applicant during the preparation of its application. The increased coordination activities during this period will include several working level meetings between the applicant and the staff to provide specific updated guidance to the applicant regarding the format and content of the application and to provide an opportunity to discuss key aspects of the design, relevant problems, and current staff positions.

RECOMMENDATION NO. 4

EXPAND AND RESTRUCTURE THE ACCEPTANCE REVIEW

The present acceptance review program was initiated following publication of the Standard Format and Content document in 1972 and provided the staff with a standard by which to determine whether a tendered application was sufficiently complete to permit docketing and detailed review. The Acceptance Review will be expanded to emphasize the quality of the material presented as well as completeness.

The expanded and restructured Acceptance Review has as its objective the assurance that all significant information needed by the staff for the preparation of its Safety Evaluation Report will be in the docketed application. During the acceptance review, the staff will examine the information provided in the tendered application to determine that it includes most, if not all, of the information that is generally presently available in an application only after it has been amended to include the additional information developed in response to the staff's first round of questions after the application is docketed.

This expanded and restructured Acceptance Review in conjunction with the proposed increased pretendering coordination activities should result in a significant reduction, if not elimination, in the need for repetitive and time-consuming question and answer cycles subsequent to docketing.

RECOMMENDATION NO. 5

MODIFY CURRENT REVIEW PROCESS BY DEVELOPING EARLY SAFETY EVALUATION REPORT

In order to achieve the full measure of the benefits envisioned in implementing Recommendations No. 3 and No. 4, the present safety review sequence will be altered somewhat in this experimental program. Because of the increased pretendering coordination with applicants and the expanded and restructured Acceptance Review, it is expected that the two rounds of questions which are a part of the present review sequence would be essentially eliminated, and the review would be performed on the basis of the contents and quality of the application as docketed and supplemented by the applicant's responses to the staff questions asked during the expanded and restructured Acceptance Review. The staff's positions would be reflected in a Safety Evaluation Report which would be issued within about 6 months of docketing.

After evaluating the results of this experimental program, appropriate changes will be made to pertinent staff documents concerning procedures and practices in licensing reviews. If required, changes to Commission rules and regulations will be initiated. Pending any changes in the regulations after this evaluation, it is the intent of the Commission to proceed with the Acceptance Reviews of any applications, involved in the experimental program and where Recommendation 4 is to be implemented, on a case-by-case basis notwithstanding the provisions of the current regulation in 10 CFR 2.101 concerning the time limit and content of Acceptance Reviews.

In addition, the Commission has directed the staff to implement Recommendation No. 6:

INCREASE PUBLIC PARTICIPATION DURING STAFF REVIEW

Although the hearing process provides an opportunity for public participation, there is very little practical opportunity for interested members of the public, particularly those in the vicinity of the proposed site, to become aware of the staff's role during review of construction permit applications. It is the intent of the Commission to provide increased opportunity for the public to observe and participate in the licensing process in a meaningful way without imposing an undue burden upon the resources of staff manpower.

While the most efficient way to handle interaction of the staff with the applicant on licensing matters is to hold meetings in Bethesda where it is possible to have access to various elements of the staff, the costs and distance make it almost impossible, except for certain well-established intervenor organizations, for members of the public living near the proposed site to participate in these meetings. On the other hand, to arrange all such meetings near the proposed plant site would impose significant burdens upon the staff without necessarily providing commensurate improvement in public understanding of the licensing process.

Past experience with staff interaction with the public has shown that:

(1) The public appears to be most interested in the licensing process in the pre-docketing and/or early stages of the review.

(2) The number of people who attend public meetings appears to be directly correlated with the time of day at which the meetings are held. Past experience has shown that many more people attend meetings held in the evening than during the working day.

Based on the above considerations, a number of working meetings between the staff and construction permit applicants, both prior to and after docketing of an application, normally held at Commission offices in Bethesda, Md., will be held in the vicinity of the proposed site. Whenever possible, these meetings will be held in the evenings or on weekends.

These meetings will provide an opportunity for interested members of the public to listen to the staff and applicant discussions and observe the staff's role in the review of applications. Appropriate provisions will be made for public comments and questions and responses by the applicant and the staff.

Recommendation No. 6 is to be implemented by the staff to the extent permitted by resource considerations on all ongoing and future license application reviews. In this respect, it differs from the implementation of Recommendations No. 3, 4, and 5, which are being conducted on an experimental basis for selected applications.

Finally, whatever improvements that accrue in efficiency as a result of these recommendations will not be permitted to reduce the quality of the licensing review.

Future statements concerning the other recommendations of NUREG-0292 will be issued as appropriate.

Dated at Washington, D.C., this 16th day of October 1978.

For the Nuclear Regulatory Commission.

SAMUEL J. CHILK,
Secretary of the Commission.

[7590-01-M]

[Docket No. 50-312]

SACRAMENTO MUNICIPAL UTILITY DISTRICT

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 23 to Facility Operating License No. DPR-54 issued to Sacramento Municipal Utility district, which revised Technical Specifications for operation of the Rancho Seco Nuclear Generating Station, located in Sacramento County, Calif. The amendment is effective as of its date of issuance.

The amendment to the Technical Specifications revises the definitions of time periods for plant surveillance.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated June 7, 1978, (2) Amendment No. 23 to License No. DPR-54, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the Business and Municipal Department, Sacramento City-County Library, 828 I Street, Sacramento, Calif. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Md., this 3rd day of October, 1978.

DEPARTMENT OF STATE

Agency for International Development

JOINT RESEARCH COMMITTEE OF THE BOARD FOR INTERNATIONAL FOOD AND AGRICULTURAL DEVELOPMENT

Meeting

Pursuant to Executive Order 11769 and the provisions of section 10(a)(2), Pub. L. 92-463, Federal Advisory Committee Act, notice is hereby given of the 17th meeting of the Joint Research Committee of the Board for International Food and Agricultural Development on November 7 and 8, 1978.

The purpose of the meeting is to review the Collaborative Research Support Program planned under an AID contract for fisheries and aquaculture; to review procedures and programs for developing and implementing Collaborative Research Support Programs; to discuss measures for handling unsolicited research proposals; to discuss areas and schedules for possible exploratory and planning grants; to consider methods for determining priorities for contract research and other related subjects.

This meeting will convene at 9 a.m. and adjourn at 5 p.m. on November 7 and 8, 1978. The meeting will be held in the Dynasty Room of the Holiday Inn, 1850 North Fort Myer Drive, Arlington, Va. 22209. The meeting is open to the public. Any interested person may attend, may file written statements with the Committee before or after the meeting, or may present oral statements in accordance with procedures established by the Committee, and to the extent the time available for the meeting permits.

Dr. Erven J. Long, Office of Title XII Coordination, Development Support Bureau, is designated AID Advisory Committee Representative at the meeting. It is suggested that those desiring further information write to him in care of the Agency for International Development, State Department, Washington, D.C. 20523, or telephone him at 703-235-2243.

Dated: October 12, 1978.

ERVEN J. LONG,
AID Advisory Committee Representative, Joint Research Committee, Board for International Food and Agricultural Development.

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket No. RFA 305-78-1]

CONSOLIDATED RAIL CORP. (CONRAIL)

Supplemental Transaction Proposal

AGENCY: Federal Railroad Administration.

ACTION: Notice of supplemental transaction proposal.

SUMMARY: This notice solicits public comment on a proposal being developed by the Federal Railroad Administration ("FRA") by which the Consolidated Rail Corp. ("ConRail") would transfer 30 miles of railroad track in the Groton, Conn., area to the Providence & Worcester Co. ("P. & W."). FRA is developing this proposal because ConRail and the P. & W. have been unable to agree on the terms of the transfer through private negotiations. The State of Connecticut asserts that service on the affected trackage would be improved by a transfer of ownership to the P. & W.

COMMENTS MUST BE RECEIVED ON OR BEFORE: November 20, 1978.

ADDRESS FOR COMMENTS: Associate Administrator for Federal Assistance, Federal Railroad Administration, 400 Seventh Street SW., Washington, D.C. 20590.

FOR FURTHER INFORMATION CONTACT:

Douglas Taylor, Office of Passenger and Special Programs, Office of the Associate Administrator for Federal Assistance, Federal Railroad Administration, 400 Seventh Street SW., Washington, D.C. 20590.

SUPPLEMENTARY INFORMATION: The final system plan was a plan developed by the United States Railway Association which specified the rail properties in the Northeast to be conveyed to ConRail in 1976. Section 305 of the Regional Rail Reorganization Act of 1973 ("Act"), 45 U.S.C. 745, authorizes the Secretary of Transportation ("Secretary"): (1) to develop proposals for transactions supplemental to the final system plan which promote the establishment and retention of a financially self-sustaining rail service system in the Northeast and (2) to transmit such a proposal to the United States Railway Association for analysis and evaluation. The proposal must contain a description of the transaction proposed, the rail properties involved, the parties to the transaction, the financial and other terms of the transaction, and the purposes of the Act or the goals of the final system plan intended to be effectuated by the transaction.

The State of Connecticut has requested that the Secretary develop a supplemental transaction proposal with regard to the following railroad track now owned by ConRail: (1) the southernmost portion of the Norwich Secondary Track, extending from Groton to Plainfield, Conn., and (2) the Groton Old Main Branch line, located in Groton, Conn. Under the proposal being developed by FRA the P. & W. would acquire these rail facilities from ConRail and would acquire trackage rights from the National Railroad Passenger Corp., along approximately three miles of the Shoreline Track, located between the junction of the Norwich Secondary Track with the Shoreline Track and the Groton Old Main Branch line with the Shoreline Track. The State asserts that such an acquisition by the P. & W. would promote the establishment of a financially self-sustaining rail system; insure the establishment and maintenance of a rail service system adequate to meet the transportation needs and service requirements of the region; enhance both Northeast Corridor passenger service and intercity rail transportation between Worcester, Mass. and New London, Conn.; retain and promote competition in Connecticut and in the region; and enhance community development in eastern Connecticut.

The comments will be taken into consideration by the FRA in developing the proposal. However, formal acknowledgment of the comments will not be provided.

(Sec. 305 of the Regional Rail Reorganization Act of 1973 (Pub. L. 93-236), as amended.)

Dated: October 2, 1978.

CHARLES SWINBURN,
Associated Administrator for Federal Assistance, Federal Railroad Administration.

U.S. TAX COURT NOMINATION COMMISSION

Meeting

Notice is hereby given, pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), that the U.S. Tax Court Nominating Commission will meet in the General Counsel's office in the Treasury Department on November 6, 1978, at 10:30 a.m. The Commission was established by Executive Order 12064 of June 5, 1978 (43 FR 24661).

The members of the Commission will continue to examine the qualifications of persons to be recommended to the President for appointment to the U.S. Tax Court. This process will necessarily involve consideration of information of a personal nature relating to candidates for appointment. Discussion of sensitive and confidential matters relating to such persons in a meeting open to the public would constitute a clearly unwarranted invasion of personal privacy of the individuals being considered for appointment to the Tax Court.

Meetings of the Commission must be conducted in a manner conducive to a frank exchange of views and searching evaluation of the qualifications of candidates for appointment to the Tax Court. Open meetings would have a chilling effect on candid comments by Commission members about the qualifications of such candidates and would inhibit the ability of the Commission to obtain comments of third parties. Open meetings would thus significantly frustrate the Commission's efforts to implement its primary function under the Executive order.

A determination as required by section 10(d) of the Federal Advisory Commiittee Act has been made that this meeting will concern matters within section 552b(c)(6) and 9(B) of Title 5, United States Code, and that the public interest requires that this meeting be closed to public participation.

Dated: October 18, 1978.

ROBERT H. MUNDHEIM,
General Counsel.

[7035-01-M]

INTERSTATE COMMERCE COMMISSION

[Ex Parte No. 349 (Sub-1)]

INCREASED FREIGHT RATES AND CHARGES, 1978, NATIONWIDE

OCTOBER 17, 1978.

In a decision served September 15, 1978, the Commission reopened Ex Parte No. 349, and permitted the Eastern railroads to file a master tariff, subject to protest and possible suspension, providing for the increase of freight rates and charges within Eastern Territory by 3 to 20 percent on 24 SPC groups. The commodities in question are stated by the carriers to be generally transported at marginal or noncompensatory rate levels.

The carriers' proposal was based on the Commission's decision in Ex Parte No. 349, served June 7, 1978, which directed the railroads to "take immediate steps to remedy" the problems regarding commodities transported at below-cost rates. The commodities chosen by the carriers were selected on the basis of Schedule C data submitted in Ex Parte No. 349, which indicated that those commodities produced a revenue/cost ratio of 110 percent or less. The railroads stated that the proposed increases on individual commodities were based on the best judgment of the carriers as to the amount that the rate could be raised without a substantial possibility of diversion or loss of traffic. The carriers also stated that a general rate increase format was used because individual filings were not practicable, nor in conformity with the Commission's June 7 decision.

Several protestants contend that the carriers' proposal is not a general increase, and therefore, should have been docketed for rate bureau handling on an individual commodity basis. At present, mandatory docketing of general increase proposals is not required. Ex Parte No. 297, *Rate Bureau Investigation*, 351 ICC 437. Pursuant to Ex Parte No. 290, *Procedures Governing Rail General Increase Proceedings*, effective January 1, 1978, 49 CFR 1102.1, a general increase is defined as an increase in freight rates or charges, applying to a substantial number of commodities or services, for which the justification is revenue need. This proposal was filed on behalf of substantially all railroads in one of the three primary rate-making territories and applies to a substantial number of commodities. The justification for the proposal is revenue need. We find that this proposal is a general increase under the present X-290 definition.[1]

Several other protestants submit that the Schedule C data is not a proper evidentiary basis for this proposal. Protestants point out that in the June 7 decision in Ex Parte No. 349, the Commission referred the carriers to its discussion of noncompensatory rates in Ex Parte No. 338, *Standards and Procedures For The Establishment of Adequate Revenue Levels*, decision served February 3, 1978. The Commission indicated in that proceeding that a proper resolution of the question of noncompensatory rates "would require a close examination of the costs of individual services, based on reliable cost evidence of the most specific kind." Ex Parte No. 338, *supra*, p. 37.

The quoted passage refers to the so-called "Kearney report" performed for the Commission in support of its evaluation of the 4-R Act. The analysis in the Kearney report relies on a burden study (one-percent waybill study) based on formula methods of cost escalation. In comparison with the Kear-

[1] Whether a more explicit definition of a "general increase" should be adopted will be considered in the reopened Ex Parte No. 290 proceeding. Additionally, we intend in the near future to review our Ex Parte No. 297 finding with regard to handling of general increases.

V 4 3 / 2 0 4 0 C 2 0 7 8 V 4 3 / 2 0 4 0 C

ney study, the Schedule C data is much more specific in that it is based upon a traffic study of all carloads handled in line-haul service by each of the 36 Class I railroads, with individual Rail Form A unit costs for each Class I railroad, with certain adjustments, applied to the traffic base. This conforms with the general intent of the Commission in its decision in Ex Parte No. 290 that the Schedule C data reflect known transportation characteristics of each commodity, and, therefore, present an adequate breakdown of each railroads' total revenue and expenses on a commodity by commodity basis, for the purposes of this first attempt to comply with Ex Parte No. 290, *supra*, 351 ICC 544, 569.

The question basically argued is whether the carriers' Schedule C data has been adequately adjusted to reflect actual transportation characteristics of each specified commodity, as required by the X-290 procedures. The possible need for further refinement of the X-290 procedures, particularly Schedule C, was noted in the Commission's June 7 decision in Ex Parte No. 349. Whether Schedule C should be further refined will be considered in the reopened Ex Parte No. 290 proceeding. For purposes of this proceeding, the Schedule C data is an adequate starting point to evaluate the instant proposal.

An extensive record was assembled in the Ex Parte No. 349 proceeding, and an additional record was compiled here. In Ex Parte No. 349, the record indicated that the Eastern railroads expected an additional $242 million in annual revenue from the proposed increase, to partially offset $315 million in increased costs (labor, supply and materials, and other items). The Commission's actions in reducing the proposed increase on bituminous coal from 7 to 4 percent, and further reductions imposed after the investigation in Ex Parte No. 343, *Nationwide Increased Freight Rates and Charges—1977*, decision served June 29, 1978, reduced the anticipated revenue gain to approximately $197 million annually. The proposed increases will yield approximately $23 million annually, and will still fall far short of the increased costs shown of record. Along with other poor financial indicators, we find that the increase is justified from a cost and revenue standpoint.

However, protestants have presented some compelling evidence with regard to certain commodities, and certain of these will be placed under investigation here.

With regard to sanitary paper, a recent 10 percent increase within the East became effective January 28, 1978, but is presently under investigation in Docket No. 36817 (Sub-1), *Sanitary Paper and Related Articles, East, Midwest, and South*, with a decision to be rendered in the near future. In view of this pending proceeding, and indications of record that this commodity may be moving at more than adequate revenue/cost ratios, the proposed 5 percent increase on sanitary paper products is placed under investigation here.

With regard to the proposed 10 percent increases on the recyclable commodities textile waste and paper, waste or scrap, the carriers' Schedule C data conflicts strongly with the Commission's findings in Ex Parte No. 319, *Investigation of Freight Rates for the Transportation of Recyclables or Recycled Commodities*, decision served February 4, 1977. There the Commission found revenue to variable cost ratios on Eastern territory movements of 120 percent for paper waste, and between 114 and 137 percent for textile waste materials. Ex parte No. 319, *supra*, pp. 335, a, v, and y, 337, 388. These two commodities are under investigation in Ex Parte No. 349 and we believe these same recyclable commodities should be placed under investigation here.

With regard to pulpwood logs, a 7 percent increase on this commodity was published by Canadian National Railways and ConRail, respondents in this proceeding, on movements from Wenlock, Vt to Carthage, NY, effective October 24, 1977. This rate is now the subject of a complaint in Docket No. 36896, *St. Regis Paper Company* v. *Canadian National Railways, et al.* In this proceeding a 10 percent increase on pulpwood logs is proposed. The unrebutted evidence of record indicates that the rates on these movements are in the range of 180 percent of variable costs, far above what could be considered a marginal or noncompensatory level. The record also indicates that St. Regis Paper Co. will bear the major portion of this increase. As such, we are ordering that the proposed rate increase on this commodity be suspended, and investigated.

It is ordered:

The proposed 10 percent increase on pulpwood logs (SPC No. 46, STCC No. 24 114), Item 575 of Tariff of Increased Rates and Charges X-349 (Sub-1), is suspended to and incuding May 19, 1979.

The following commodities are placed under investigation. For the convenience of the parties, the Standard Transportation Commodity Code (STCC) associated with the SPC numbers for the commodities under investigation, as set forth in Ex Parte No. 290, *supra*, pp. 628–635, are as follows:

SPC and commodity	STCC No.[1]
46—Pulpwood logs	24 114
63—Sanitary paper products	26 471
	26 472
120—Textile waste	22 941
	22 973
	22 994
	40 22-
121—Paper, waste, or scrap	40 214
	40 24-

[1]The four or five digit STCC numbers referred to also embrace all articles assigned additional digits listed thereunder in STCC Tariff 1-E.

All Eastern railroads subject to Part I of the Interstate Commerce Act are respondents, and as such, they have the burden of proof in this investigation.

This proceeding shall be handled under modified procedure as provided by the Commission's General Rules of Practice, except that 20 copies of all statements submitted shall be filed with the Commission, and that the filing and service of pleadings be as follows.

(a) Opening statements of facts and arguments may be submitted no later than November 16, 1978.

(b) Statements by shippers and other parties to this proceeding may be submitted no later than December 18, 1978.

(c) Reply statements by respondents may be submitted no later than January 8, 1979.

Notice is given that petitions and motions filed with regard to this investigation may be disposed of in the Commission's report. Accordingly, all parties should proceed upon the assumption that the pendency of a petition or motion will not justify any party's failure to comply with the scheduled due date for filing of statements.

In the event any increases resulting from the application of this tariff exceed the increases subsequently approved or prescribed by the Commission, the carriers will be required to refund the difference between the increase resulting from the application thereof and any increases which may subsequently be approved or prescribed by the Interstate Commerce Commission with interest as specified in section 15(8)(e). Respondents' master tariff contains an appropriate "Provision for Refund" in the form required by our order served September 15, 1978, with a provision for interest at 6.66 percent.

We direct the carriers' attention to our admonitions in prior general increase proceedings concerning maintenance and preservation of existing port relationships. See, for example, *Increased Freight Rates and Charges, 1972*, 341 ICC 288, 336, and *Increased Freight Rates, 1970 and 1971*, 339 ICC 125, 188. In making effective any increases permitted herein, the carriers are required to protect and maintain all existing port relationships, duly established by order of the Commission or recognized customs of the trade, and to observe the prohibitions of the Interstate Commerce Act with regard to unjust discrimination and undue and unreasonable preference and prejudice.

All outstanding orders of the Commission are modified to the extent necessary to permit the proposed increases authorized in this decision to become effective.

On October 5, 1978, the National Association of Recycling Industries, Inc. (NARI) filed a motion to dismiss this general increase proceeding. Essentially, NARI argues that the Commission must refuse to approve any selective increases on recyclables (specifically textile waste and waste paper) in light of the remand issued in Ex Parte No. 319 by the Court of Appeals for the District of Columbia in No. 77-1187, *National Association of Recycling Industries, Inc.* v. *Interstate Commerce Commission*, August 2, 1978. NARI submits that this decision plus section 204 of the 4-R Act prevents any selective, disproportionate, or discriminatory increase on recyclables.

Section 204 of the 4-R Act required the Commission to conduct an investigation of the rate structures with respect to recyclables and virgin materials. That investigation was completed and, as noted by NARI, remanded to the Commission. Neither the statute nor the court decision suggests that the Commission may not authorize future rate adjustments.

However, an investigation is being ordered into the proposed increase on paper waste and textile waste. Most of NARI's other objections are similar to those of other parties—that this proceeding is not a general increase, and objections to the Schedule C data. As discussed earlier in this decision, these arguments are not persuasive, and the motion to dismiss is denied.

ENVIRONMENTAL CONSIDERATIONS

We have, several times in the past, given considerable study to the environmental impacts associated with increased rates for recyclable commodities. Detailed environmental impact statements were prepared for general revenue proceedings in *Ex Parte No. 281, Increased Freight Rates and Changes, 1972*, and *Ex Parte No. 295 (Sub-1), Increased Freight Rates and Changes, 1973*, while an environmental threshold assessment survey was prepared in *Ex Parte No. 318, Increased Freight Rates and Changes, 1976*. These studies concluded that the demand for recyclables was only minimally influenced by changes in freight rates. The most recent comprehensive analysis of the environmental implications of freight rates for recyclables was undertaken in *Ex Parte No. 319, supra*. In that proceeding, an environmental impact statement (EIS) was prepared analyzing (1) whether the rate structure per se has a significant effect on the relative utilization of recyclable and competing virgin materials, and (2) whether general rail freight rate increases have a significant effect on relative utilization.

The EIS in *Ex Parte No. 319* found that transportation costs were not significant factors in determining the relative utilization of recyclable and virgin materials. With respect to waste paper, the EIS found that other factors, such as the supply of virgin fibers, consumer preference, and increasing demand for paper play a greater role in paper recovery than transportation costs and that the demand for scrap paper is relatively unresponsive to price. With respect to textiles, the EIS identified a downward trend in textile recycling caused by shifting consumer preferences for virgin materials, the increased use of synthetic fibers, and a decrease in the supply of usable textile scrap. In view of these factors, the impact of transportation rates on the use of textile scrap was determined to be minimal.

In this proceeding we are again confronted with the issue of what effect a proposed general increase on certain recyclable commodities will have on the quality of the human environment. In view of the extensive environmental record developed in past proceedings and the lack of contradictory evidence in the record in this proceeding, we conclude that not suspending the increases on waste paper and textile waste, and not suspending or investigating certain other commodities, will not have a significant impact on the quality of the human environment.

We will further develop the environmental record, however, in the course of the investigation ordered for the rate increases for the recyclable and other commodities through preparation of an environmental impact statement or threshold assessment, as appropriate.

FOURTH SECTION NO. 20584

Respondent railroads have applied for relief from the provisions of section 4 of the Act necessary to establish the rates and charges originally sought. The increases in rates and charges authorized herein cannot be published and made effective without producing in some instances rates or charges that yield greater compensation in the aggregate for the transportation of the like kind of property for a shorter than for a longer distance over the same line or route in the same direction, or greater compensation as a through rate or charge than the aggregate-of-intermediate rates or charges subject to the Act, in contravention of section 4. The increased cost of railroad operation necessitates the increases in rates and charges involved in this proceeding which cannot be made effective without forth-section relief; that application of the increased charges to or from more distant points will not result in the establishment of rates to or from more distant points that are not reasonably compensatory; that no protestant adequately opposed issuance of the fourth-section relief sought on the ground that it would be adversely affected by the fourth-section departures that may be created by the increased rates; and that a special case has been presented in which the Commission may authorize relief from the provisions of section 4;

Carriers subject to the Interstate Commerce Act and parties to said proceeding be, and they are hereby, authorized to establish and maintain the increased rates and charges described herein without observing the provisions of section 4 of the Act;

Parties to said proceeding be, and they are hereby, authorized to establish and maintain rates and charges permitted to become effective in this order without observing the long-and-short haul provisions of section 4 of the Act in cases arising out of the failure to apply the full increases in rates and charges over interstate routes between points in a single State, in turn caused by the failure of the State authorities to authorize the full increases permitted in this proceeding;

In those instances in which rates in contravention of section 4 are established under authority contained herein, the schedule containing such rates shall make reference to this decision in the manner required by Rule 28 of Tariff Circular No. 20.

AMENDMENT TO SPECIAL PERMISSION NO. 78-4200 AUTHORIZING CERTAIN DEPARTURES FROM THE COMMISSION'S PUBLISHED TARIFF AND ORDERS

It is ordered: Special Permission No. 78-4200 is hereby amended to permit the establishment of the increases in freight rate and charges authorized by the Commission in this decision subject to the terms, conditions, and limitations provided therein.

A copy of this decision will be served on each party to the proceeding in Ex Parte No. 349, on the Administrator of the Environmental Protection Agency, the Secretary of Transportation, and the Governor of each State. A copy will also be deposited in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C. for public inspection. In addition statuto-

ry notice of the substance and procedures in this investigation will be given to the general public by delivering a copy to the Director, Office of

jority noted the significance of coal to our Nation and refused to allow any portion of the Ex Parte No. 349 proposal to become effective unless the

ry notice of the substance and procedures in this investigation will be given to the general public by delivering a copy to the Director, Office of the Federal Register, for publication.

By the Commission, Chairman O'Neal, Vice Chairman Christian, Commissioners Brown, Stafford, Gresham, and Clapp. Vice Chairman Christian dissenting in part. Commissioner Gresham concurring in part and dissenting in part.

H. G. HOMME, Jr.,
Acting Secretary.

Vice Chairman Christian, dissenting in part:

I disagree with the majority decision to the extent that it orders suspension and/or investigation of individual commodities. I detect no reason for tampering with the increases on these commodities.

In the case of the recyclables, there is no indication that the resulting rates would be unreasonably high. The same statement holds true for the sanitary paper rates regardless of the pending investigation proceeding. The rates on pulpwood logs are already subject to investigation by virtue of the complaint filed by St. Regis Paper Co. Any rate relief which may be needed can be ordered in the complaint proceeding.

To meet our obligations under the law, I believe that we must give significant rate flexibility to the railroads. We must resist the temptation of placing the heavy hand of regulation on carrier efforts to improve their financial condition. I am not prepared to tinker with carrier rate initiatives unless market dominance is apparent or there is a likelihood that the sections of the Act prohibiting unjust discrimination or undue preference and prejudice would be violated.

Commissioner Gresham, concurring in part and dissenting in part:

I am in agreement with the majority's decision to authorize additional increases and to place under investigation the increased rate levels for certain commodities currently subject to formal proceedings. I am not in agreement with the decision to suspend the increase on pulpwood logs. I would allow that increase to become effective pending the investigation.

I have difficulty, however, reconciling the majority's reasoning here with that previously espoused in Ex Parte No. 349, *Increased Freight Rates and Charges, 1978, Nationwide,* served June 7, 1978. In the earlier decision, a majority concluded that a higher level of increases on selected commodities (coal traffic) could not be authorized. The majority's rationale was that specific commodities could not be singled out for disproportionate treatment in an across-the-board increase. The majority noted the significance of coal to our Nation and refused to allow any portion of the Ex Parte No. 349 proposal to become effective unless the increase on coal was cut back to 4 percent. That decision did not contain any findings that the proposed increase would place the rates for specific movements of coal or for coal in general above the zone of reasonableness. Revenue need was not deemed an adequate basis for the additional 3 percent increase proposed by the railroads.

In the instant decision, the majority is permitting selective increases upon the same record that it earlier judged inadequate to support such a measure. I am at a loss to explain to the shipping public this discrepancy. I would emphasize my belief, though, that the kind of rate flexibility contemplated by today's action is essential if the financial plight of eastern carriers is to be improved.

[Notice No. 196]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

OCTOBER 11, 1978.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, DC, and also in the ICC Field Office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

MC 50069 (Sub-536TA), filed August 22, 1978. Applicant: REFINERS TRANSPORT & TERMINAL CORP., 445 Earlwood Avenue, Oregon, OH 43616. Representative: William P. Fromm (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Methyl Napthalene* (in bulk, in tank vehicles), from Robinson, IL, to Princeton, LA, for 180 days. Supporting shipper: Ethyl Corp., 451 Florida, Baton Rouge, LA 70801. Send protests to: Keith D. Warner, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 313 Federal Office Building, 234 Summit Street, Toledo, OH 43604.

MC 51146 (Sub-625), filed August 16, 1978. Applicant: SCHNEIDER TRANSPORT, INC., P.O. Box 2298, Green Bay, WI 54306. Representative: John R. Patterson, 2480 East Commercial Boulevard, Fort Lauderdale, FL 33308. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), when moving on bills of lading of Sheldon Forwarding Co. or United Freight Forwarders, Inc. (both freight forwarders), from Holyoke, MA, to points in IL, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days operating authority. Supporting shipper: Sheldon Forwarding Co., 170 Main Street, Holyoke, MA 01040 (William H. Clausen). Send protests to: Gail Daugherty, Transportation Assistant, Interstate Commerce Commission, Bureau of Operations, U.S. Federal Building and Courthouse, 517 East Wisconsin Avenue, Room 619, Milwaukee, WI 53202.

MC 51146 (Sub-626), filed August 16, 1978. Applicant: SCHNEIDER TRANSPORT, INC., P.O. Box 2298, Green Bay, WI 54306. Representative: John R. Patterson, 2480 East Commercial Boulevard, Fort Lauderdale, FL 33308. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Kitchen cabinets and vanities and materials, equipment, and supplies* utilized in the manufacture and distribution of kitchen cabinets and vanities (1) from Adrian, ME to points in AR, CO, IL, IA, KS, LA, MN, MO, NE, ND, OK, SD, TX, and WI; and (2) from Lakeville, MN, to points in CO, IL, IA, KS, MI, MO, NE, ND, SD, and WI, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days operating authority. Supporting shipper: Merillat Industries, Inc., 2075 Beecher Road, Adrian, MI 49221 (Donald E. Corbin). Send protests to: Gail Daugherty, Transportation Assistant, Interstate Commerce Commission, Bureau of Operations, U.S. Federal Building and Courthouse, 517 East Wisconsin Avenue, Room 619, Milwaukee, WI 53202.

MC 51146 (Sub-627), filed August 16, 1978. Applicant: SCHNEIDER TRANSPORT, INC., P.O. Box 2298,

Green Bay, WI 54306. Representative: John R. Patterson, 2480 East Commercial Boulevard, Fort Lauderdale, FL 33308. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Metal containers* from Winston-Salem, NC, to Oklahoma City and Tulsa, OK, and Dallas, TX, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days operating authority. Supporting shipper: National Can Corp., 8101 West Higgins Road, Chicago, IL 60631 (Ron McDougald). Send protests to: Gail Daugherty, Transportation Assistant, Interstate Commerce Commission, Bureau of Operations, U.S. Federal Building and Courthouse, 517 East Wisconsin Avenue, Room 619, Milwaukee, WI 53202.

MC 51146 (Sub-632TA), filed August 22, 1978. Applicant: SCHNEIDER TRANSPORT, INC., P.O. Box 2298, 2661 South Broadway, Green Bay, WI 54306. Representative: John R. Patterson, 2480 East Commercial Boulevard, Fort Lauderdale, FL 33308. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic bottles, plastic containers, plastic articles and materials, equipment, and supplies* used in the manufacture, sale, and distribution of the foregoing commodities, between the facilities of Owens-Illinois at Havre de Grace, MD, and Birmingham, AL, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Owens-Illinois, Inc., P.O. Box 1035, Toledo, OH 43666. (Jack R. Simmons). Send protests to: Gail Daugherty, Transportation Assistant, Interstate Commerce Commission, Bureau of Operations, U.S. Federal Building and Courthouse, 517 East Wisconsin Avenue, Room 619, Milwaukee, WI 53202.

MC 59488 (Sub-43TA), filed August 18, 1978. Applicant: SOUTHWESTERN TRANSPORTATION CO., P.O. Box 6187, 7600 South Central Expressway, Dallas, TX 75222. Representative: Lloyd M Roach, 7600 South Central Expressway, P.O. Box 226187, Dallas, TX 75266. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except commodities of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Memphis, TN, and New Orleans, LA, serving no intermediate points, and serving New Orleans, LA, for the purpose of interchange only: From Memphis over Interstate Hwy 55 to junction Interstate Hwy 12, then over Interstate Hwy 55 (U.S. 51) to junction Interstate Hwy 10, thence over Interstate Hwy 10 to New Orleans and return over the same route, for 180 days. Supporting shipper: Southern Pacific Transport Co. of Texas and Louisiana, 7600 South Central Expressway, P.O. Box 226187, Dallas, TX 75266. Send protests to: Michael M. Butler, District Supervisor, 211 Main, Suite 500, San Francisco, CA 94105.

MC 60186 (Sub-54TA), filed August 16, 1978. Applicant: NELSON FREIGHTWAYS, INC., 47 East Street, P.O. Box 356, Rockville, CT 06066. Representative: Clifford J. O. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Kitchen cabinets and vanities, component parts, accessories and equipment therefor*, from the plant site and storage facilities of Yorketowne, a division of the Wickes Corp., located at or near Red Lion and Mifflinburg, PA, to Wickes Lumber and Building Supply Centers located in the States of DE, MD, NJ, NY, and VT, for 90 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Wickes Lumber, division of the Wickes Corp., 515 North Washington Avenue, Saginaw, MI 48607. Send protests to: J. D. Perry, Jr., Interstate Commerce Commission, 135 High Street, Room 324, Hartford, CT 06101.

MC 70083 (Sub-32TA), filed August 16, 1978. Applicant: DRAKE MOTOR LINES, INC., 20 Olney Avenue, Cherry Hill, NJ 08002. Representative: Richard Rueda, Esq., 133 North Fourth Street, Philadelphia, PA 19106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Ladies apparel wear and store supplies*, except in bulk, (1) from the facilities of the Miller-Wohl Co., Inc., at Secaucus, NJ to the facilities of or utilized by the Miller-Wohl Co., Inc., at or near Cleveland, OH and Detroit, MI and their respective commercial zones; (2) from the facilities of or utilized by the Miller-Wohl Co., Inc., at or near Cleveland, OH and its commercial zone, to the facilities of or utilized by the Miller-Wohl Co., Inc., at or near Detroit, MI and its commercial zone, for 180 days. Supporting shipper: The Miller-Wohl Co., Inc., 915 Secaucus Road, Secaucus, NJ 07094. Send protests to: John P. Lynn, Transportation Specialist, Interstate Commerce Commission, 428 East State Street, Room 204, Trenton, NJ 08608.

[Notice No. 195]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

October 11, 1978.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the Federal Register publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the Federal Register. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC Field Office to which protests are to be transmitted.

Motor Carriers of Property

MC 11722 (Sub-58TA), filed August 29, 1978. Applicant: BRADER HAULING SERVICE, INC., P.O. Box 655, Zillah, WA 98953. Representative: Philip G. Skofstad, P.O. Box 594, Gresham, OR 97030. [M-170, Oct. 13, 1978]

CIVIL AERONAUTICS BOARD.

TIME AND DATE: 1:30 p.m., October 20, 1978.

PLACE: Room 1027, 1825 Connecticut Avenue NW., Washington, D.C. 20428.

SUBJECT:

1. Ratification of items adopted by notation.
2. Docket 29977, Cayman Airways Ltd.: Motion to amend Order 77-10-120 for blanket statement of authorization to operate off-route charters (Memo 6347-E, BIA).
3. Docket 32689, Tradewinds Airways Ltd.: Application for foreign air carrier permit to engage in charter foreign air transportation between the United Kingdom and the United States (Memo 8224, BIA, OGC).
5. Docket 33243, Application of Air Panama International, S.A. to modify the restriction on its Route 2 authority to allow stopover traffic between Los Angeles and Mexico City (Memo 8238, BIA, OGC).
4. Docket 32840, Application of Brooker-Wheaton Aviation Ltd. for an initial foreign air carrier permit to operate charters between Canada and the United States using small aircraft (Memo 8230, BIA, OGC).
6. Dockets 28366 and 32710, scoping orders on Reconsideration in *Denver-Alaska Service Investigation* and *San Francisco-Reno-Albuquerque-Texas Service Investigation* (Memo 8193, 8193-A, OGC, BALJ).
7. Docket 30635, *Arizona Service Investigation* (Memo 8158-B, OGC).
8. Dockets 25546 and 28266, *Mackey Certification Proceeding*--Motion of Rich to withdraw its motion to postpone effectiveness of certificate granted to it by Order 78-7-107 (Memo 7964-A, OGC).
9. Amending the rules of practice in economic proceedings to prohibit petitions seeking to amend scope orders and to establish a 30-day period for motions to consolidate with earlier applications (Memo 8237, OGC, BALJ, BIA, BPDA, BCP).
10. Dockets 33237, 32286, 32129, 32309, 32303, 33372, 33375, 33373, 33392, 33391, 33390, 33383, 33386, 33388, 33385, 33389, 33394, 33425, 33432, *California-Arizona Low Fare Route Proceeding*—Petitions for reconsideration; motions for consolidation and other relief (Memo 8065-B, OGC).
11. Docket 30256, *Transcontinental Low-Fare Route Proceeding*, (instructions to staff) for information, memo dated September 26, 1978.
12. Docket 30254 (*In the Matter of the Flying Tiger Line, Inc., Wayne M. Hoffman, Robert W. Prescott, Joseph J. Healy, Charles I. Hopkins, Rudolph J. Valenta, and Anna C. Chennault, Enforcement Proceeding*), discretionary review on Board initiative of supplemental initial decision explaining basis for earlier initial decision's approval of settlement of alleged accounting and reporting violations (Memo 7986-B, OGC).
13. Docket 33112, *Texas International-National Airlines Case and Enforcement Investigation*, Order disposing of the voting trust issues (OGC).
14. Docket 31013, Petition for reconsideration of Order 78-3-63, which approved an Air Traffic Conference of America resolution allowing intrastate carriers to participate in area settlement plan provided certain practices are optional rather than mandatory (Memo 7750-B, BPDA, OGC, BCP).
15. Docket 30452, Application for prior approval of the Universal Air Travel Plan (UATP)-1976, Agreements CAB 26433 and 26433-A1, under section 412 of the act. UATP is a joint venture among some 200 air carriers and foreign air carriers establishing a commonly accepted credit card (Memo 8236, BPDA, OGC, BALJ).
16. Docket 32390, CAB Agreements 27262, 27263, 27311, 27504 and 27505; Agreements between Continental and Air California, Continental and Air Florida, Aloha and Air California, and Braniff and Southwest providing reciprocal free and reduced-rate transportation (Memo 8231, BPDA, OGC).
17. Rulemaking to amend part 223 (Memo 8232, BPDA, OGC).
18. Revised transatlantic fares proposed by TWA, National, Air France, Sabena, Lufthansa and SAS. The proposals include increases in most normal and promotional fares (Memo 8240, BPDA, BIA).
19. Docket 33348, Final rule requiring U.S. carriers operating internationally and foreign route air carriers that have not complied with the tariff filing requirements of part 250 on oversales and denied boarding to include statement to that effect in any advertisement it places in any publication or on radio or television in the United States, its territories or possessions (Memo 8164-A, BPDA, OGC, BIA, BCP).
20. Docket 33151, Braniff's exemption request for Harford/Springfield-New York/Newark nonstop authority (Memo 8217, BPDA).
21. Docket 32319, Piedmont's motion for hearing or, in the alternative, request for an order to show cause, on its application for Tampa entry (Memo 8223, BPDA, OGC).
22. Docket 33172, Motion of Allegheny Airlines, Inc., for the issuance of a show cause order to amend its certificate for Route 97 so as to redesignate the intermediate point "Liberty-Monticello" the Intermediate Point "Catskills/Sullivan County" (Memo 8227, BPDA).
23. Docket 33179, Allegheny's petition for show-cause order for nonstop Cincinnati-Pittsburgh Authority Memo 8228, BPDA)
24. Dockets 32594, 32842, American's motion for an expedited hearing on its certificate application for Route 4 (Salt Lake City-St. Louis Nonstop Authority); Eastern's answer supporting American's motion and requesting the same authority; Atrwest's certificate application Route 76 (St. Louis-Salt Lake City Nonstop Authority (Memo 8239, BPDA OGC).
25. Docket 31593, Wien's motion for show cause or other expedited procedures on its application for amendment of its certificate to add a new segment between the coterminal points Anchorage and Fairbanks, Alaska and the terminal point Chicago, Illinois (Midway) (Memo 8234, BPDA, OGC).
26. Dockets 33567, 33550, 33558 and 33634, Pan Am request for suspension of service to points in Europe and Hawaii; applications of United, Braniff, Hawaii, and Aeroamerica for exemptions to serve Seattle/Portland-Honolulu (BPDA).
27. Docket 31128, 31244, and 32791, Service to Fort Myers (Memo 8233, BPDA, OGC).
28. Docket 27426, Application of Air New England, Inc. (ANE), and Delta Air Lines, Inc., for approval of a refinancing agreements. ANE wishes to consolidate its $3.2 million debt to Delta which it incurred in two separate transactions in 1974 (Memo 5123-A, BPDA, BCP).
29. Dockets 31129, and 32910, Commuter Airlines' exemptions to operate large aircraft (Memo 8152-A, BPDA, OGC, BCP).
30. Revision of record retention requirements (Memo 8197-a, BAS, BPDA, BCP, OGC).

STATUS: Open.

3

CONSUMER PRODUCT SAFETY COMMISSION.

DATE AND TIME: October 26, 1978, 9:30 a.m.

LOCATION: Third floor hearing room, 1111 18th Street NW., Washington, D.C. 20207.

STATUS: Open.

MATTERS TO BE CONSIDERED:

AGENDA

Open to the public

1. *Recommendation to accept corrective action plan: Collier-Keyworth, car seat/stroller, ID 78-29.* The staff has recommended that the Commission accept and monitor the corrective action plan which Collier-Keyworth has implemented to deal with a defect associated with a conversion kit which converts a car seat into a stroller. Collier-Keyworth has issued a joint press release with CPSC, and has begun a recall and repair program.

2. *Recommendation to accept corrective action plan: Parkway Fabricators, scuba regulator, ID 78-41.* The staff has recommended that the Commission accept the corrective action plan which Parkway has implemented to deal with hazards associated with certain scuba regulators it imports. Parkway has issued a joint press release with CPSC, and has begun a recall and repair program.

3. *Recommendation to accept corrective action plan: Black & Decker Manufacturing Co., cord adapter, ID 78-102.* The staff has recommended that the Commission accept the corrective action plan which Black & Decker has implemented to deal with possible shock hazards associated with cord adapters for electric hedge trimmers it manufactures. Black & Decker is notifying consumers, and is replacing the adapter at no cost.

4. *Recommendation to accept corrective action plan: U.S. Suzuki Motor Corp., off-road motorcycles, ID 78-57.* The staff has recommended that the Commission accept and monitor the corrective action plan Suzuki has implemented to deal with a possible steering hazard in two models of off-road motorcycles. Suzuki is notifying dealers and customers and will repair the defect at no cost.

5. *Memorandum of Understanding with HUD: Consumer products sold in mobile homes.* The Commission will consider a draft memorandum of understanding with the Department of Housing and Urban Development, prepared by CPSC and HUD staff, which would minimize duplicative or conflicting reporting requirements concerning consumer products also deemed to be mobile home components. If both HUD and CPSC approve the draft, the Commission will propose changes to its substantial product hazard reporting ("section 15") regulations.

Agenda approved October 17, 1978.

CONTACT PERSON FOR ADDITIONAL INFORMATION:

Sheldon D. Butts, Assistant Secretary, Office of the Secretary, Consumer Product Safety Commission, Suite 300, 1111 18th Street NW., Washington, D.C. 20207, telephone 202-634-7700.

4

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION.

TIME AND DATE: 9:30 a.m. (eastern time), Tuesday, October 24, 1978.

PLACE: Commission Conference Room, No. 5240, on the fifth floor of the Columbia Plaza Office Building, 2401 E Street NW., Washington, D.C. 20506.

STATUS: Part will be open to the public and part will be closed to the public.

MATTERS TO BE CONSIDERED:

Open to the public:

1. Miscellaneous amendments to the Commission's Compliance Manual.
2. Amendment of Commission's Procedural Regulations at 1601.13 to correct omission.
3. Report on Commission operations by the Executive Director.

Closed to the public:

1. Proposed withdrawal of a Commissioner's charge.
2. Litigation Authorization; General Counsel Recommendations: Matters closed to the public under the Commission's regulations at 29 CFR 1612.13.

NOTE.—Any matter not discussed or concluded may be carried over to a later meeting.

CONTACT PERSON FOR MORE INFORMATION:

Marie D. Wilson, Executive Officer, Executive Secretarial, at 202-634-6748.

This notice issued October 17, 1978.

5

FEDERAL COMMUNICATIONS COMMISSION.

TIME AND DATE: 9:30 a.m., Tuesday, October 24, 1978.

PLACE: Room 856, 1919 M Street NW., Washington, D.C.

STATUS: Special open Commission meeting.

MATTERS TO BE CONSIDERED:

Agenda, Item No., and Subject

General—1—Review of delegations of authority to bureau and offices.

This meeting may be continued the following work day to allow the Commission to complete appropriate action.

Additional information concerning this matter may be obtained from the FCC Public Information Office, telephone 202-632-7260.

Issued: October 17, 1978.

13

FEDERAL RESERVE SYSTEM (Board of Governors).

TIME AND DATE: 10 a.m., Wednesday, October 25, 1978.

PLACE: 20th Street and Constitution Avenue NW., Washington, D.C. 20551.

STATUS: Open.

MATTERS TO BE CONSIDERED:

SUMMARY AGENDA

Because of its routine nature, no substantive discussion of the following item is anticipated. This matter will be voted on without discussion unless a member of the Board requests that the item be moved to the discussion agenda.

1. Proposed revisions in the Condition and Income Reports required of Edge corporations and the foreign branches and foreign subsidiaries of U.S. commercial banks.

DISCUSSION AGENDA

1. Proposed revised amendments to Regulation H (membership of State banking Institutions in the Federal Reserve System) to require that State member banks that effect certain securities transactions for customers provide confirmation and maintain certain records with respect to such transactions. (Proposed earlier for public comment; Docket No. R-0142.)

2. Request by the Commodity Futures Trading Commission for Board comment on a proposal to trade a futures contract based on the Dow Jones Industrial Average.

3. Proposed data collection for the monitoring of savings deposits subject to automatic transfer.

4. Any agenda items carried forward from a previously announced meeting.

NOTE.—This meeting will be recorded for the benefit of those unable to attend. Cassettes will be available for listening in the Board's Freedom of Information Office, and copies may be ordered for $5 per cassette by writing to: Freedom of Information Office, Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

CONTACT PERSON FOR MORE INFORMATION:

Mr. Joseph R. Coyne, Assistant to the Board, 202-452-3204.

15

SECURITIES AND EXCHANGE COMMISSION.

"FEDERAL REGISTER" CITATION OF PREVIOUS ANNOUNCEMENT: 43 FR 47651, October 16, 1978.

STATUS: Open meeting and closed meeting.

DATE AND TIME: Thursday, October 19, 1978.

PLACE: Room 825, 500 North Capitol Street, Washington, D.C.

The following additional item will be considered by the Commission at an open meeting scheduled for Thursday, October 19, 1978, at 10 a.m.:

Consideration of proposed amendments to the joint industry plan declared effective by the Commission pursuant to Rule 17a-15 under the Securities Exchange Act of 1934 governing the consolidated transaction reporting system. For further information, please contact Stephen L. Parker, at 202-755-8949.

The following item will not be considered by the Commission at the open meeting scheduled for Thursday, October 19, 1978, at 10 a.m.:

Consideration of an objection by the U.S. Trust Co. to the mailing to holders of the 6½ percent Convertible Subordinated Debentures due 1996 of the Chase Manhattan Mortagage and Realty Trust of a proposed

communication from three of the holders. The grounds of the objection is that the mailing of such statement is not in the best interest of the debentures. For further information, please contact Norman Schou at 202-755-1240.

The following items will be considered by the Commission at a closed meeting scheduled for Thursday, October 19, 1978, immediately following the open meeting:

Subpoena enforcement action.
Other litigation matters.

The General Counsel of the Commission, or his designee, has certified that, in his opinion, the items to be considered at the closed meeting may be considered pursuant to one or more of the exemptions set forth in 5 U.S.C. 552b(c) (4), (8), (9)(A) and (10) and 17 CFR 200.402(a), (8), (9) (i) and (10).

Chairman Williams and Commissioners Loomis, Evans, Pollack, and Karmel determined that Commission business required consideration of these matters and that no earlier notice thereof was possible.

16

SECURITIES AND EXCHANGE COMMISSION.

Notice is hereby given, pursuant to the provisions of the Government in the Sunshine Act, Pub. L. 94-409, that the Securities and Exchange Commission will hold the following meetings during the week of October 23, 1978, in Room 825, 500 North Capitol Street, Washington, D.C.

A closed meeting will be held on Tuesday, October 24, 1978, at 10 a.m.

An open meeting will be held on Wednesday, October 25, 1978, at 10 a.m.

The Commissioners, their legal assistants, the Secretary of the Commission, and recording secretaries will attend the closed meeting. Certain staff members who are responsible for the calendared matters may be present.

The General Counsel of the Commission, or his designee, has certified that, in his opinion, the items to be considered at the closed meeting may be considered pursuant to one or more of the exemptions set forth in 5 U.S.C. 552b (c) (4) (8) (9) (A) and (10) and 17 CFR 200.402(a) (8) (9) (i) and (10).

Chairman Williams and Commissioners Loomis, Evans, Pollack, and Karmel determined to hold the aforesaid meeting in closed session.

The subject matter of the closed meeting scheduled for Tuesday, October 24, 1978, at 10 a.m., will be:

Access to investigative files by Federal, State or self-regulatory authorities.
Freedom of Information Act appeals.
Institution of administrative proceedings of an enforcement nature.
Institution of injuctive action.
Personnel security action.
Settlement of injunctive action.
Subpena enforcement action.

The subject matter of the open meeting scheduled for Wednesday, October 25, 1978, at 10 a.m., will be:

1. Consideration of a request by Power Designs, Inc., that the Commission review the Division of Corporation Finance's denial pursuant to delegated authority of a request by Power Designs, Inc., for an extension of time within which to file its annual report on Form 10-K for the period ended June 30, 1978. For further information, please contact Spencer Browne at 202-376-2976.

2. Consideration of a request that the Commission adopt Rule 17f-4 under the Investment Company Act of 1940 that would (1) designate the Federal Reserve/Treasury book-entry system as a permitted depository for securities owned by registered management investment companies, and (2) state the conditions under which deposits thereof may be made in the book-entry system or in clearing agencies which act as securities depositories. For futher information, please contact Stanley B. Judd at 202-755-0213.

3. Consideration of a request by Highland Investment Corp. for an exemption from the Investment Advisers Act of 1940. For further information, please contact Michael S. Lichtenthal at 202-755-9034.

4. Consideration of whether or not to approve proposed rules submitted by the Securities Investor Protection Corp. setting forth requirements for the closeout or completion of open contractual commitments. For further information, please contact Linda Kurjan at 202-376-7470.

5. Consideration of whether (1) to release withheld portions of two memoranda concerning the disposition to be made in the matter of the Freedom of Information request of W. B. Shellhorn (these memoranda were requested under the Freedom of Information Act by Brad Ragan, Inc., and certain individuals), and (2) to affirm the Freedom of Information Officer's decision to release certain investigative transcripts to Mr. Shellhorn, in light of objections to disclosures made by Brad Ragan, Inc. and certain individuals, on the ground that they believe this material is exempt under 5 U.S.C. 552(b)(4), 6, 7(A), 7(B), and 7(C). For further information, please contact Linda Schneider at 202-755-1339.

6. Consideration of a Freedom of Information Act appeal of Robert Adamson of Securities Week for mailing lists of SEC Docket, SEC News Digest and SEC Releases which were denied to him by the Freedom of Information Act officer relying on exemption 6 of the Freedom of Information Act. For further information, please contact Judy Chesser at 202-376-8085.

FOR FURTHER INFORMATION PLEASE CONTACT:

Michael P. Rogan at 202-755-1638.

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions

General Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of part 1 of subtitle A of title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 12-71 and 15-71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

MODIFICATIONS AND SUPERSEDEAS DECISIONS TO GENERAL WAGE DETERMINATION DECISIONS

Modifications and Supersedeas Decisions to General Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations. Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 13-71 and 15-71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing General Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedeas Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rulemaking procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Wage Determination Decision.

Class 2: Roller, self-propelled; Power subgrader; Elevator operator

Class 3: Rubber-tired farm type tractor w/bull dozer or hi-lift (½ yd. or less)

Class 4: Pump, one well point; All tract type tractors, pulling any type roller or disc.

Class 5: Oiler; All wheel type tractors, Oiler on 30 Hp ditches and over; Oiler; Hydra-crane with 15 ton lifting capacity or more and cranes similar to Hydra-crane w/15 ton capacity and more.

POWER EQUIPMENT OPERATORS (CONT'D)

Class 6: Air compressor w/valve driving piling air compressors, two (220 cu. ft. capacity or over); Air track drills, air track drill w/compressor; Automatic bins scales w/compressor or generator; pipeline boring machine; Bulk cement plant w/separate compressor bulk float power operator; Concrete saws, (two); Hydra-lift (single motor); Straw mulcher blower w/spout

Class 7: Backend man on bituminous surfacing machine; Boom or winch truck; Cat wagon w/or without dump; Conveyors, two; Chip spreader, self-propelled concrete saw, on self-propelled; Form grader, Heater, (motor driven); Hoist; 1 drum; Truck crane oiler; Vibrator, Self-propelled.

Class 8: Air track drill (one); Belt drag machine, Power boom; Mechanical; Plasterers applicator; Tract-air

Class 9: Air compressor (220 cu. ft. capacity or over), one; Air compressor under (220 cu. ft.); two; Automatic bins; Bulk cement plant w/built in compressor, running of same motor or electric motor; Firemen or switchmen; Form tamper, self-propelled; Light plants (two); Welding machine (two); Pumps (two); or combination or 2 pumps; Light plants, welding machines,air compressor (under 200 cu. ft.); Mud jacks or wood chipper; Mixers, less than 21 cu. ft., Motor mixer w/skip or pump; Pipeline track jack

Class 10: Air compressor, under 220 cu. ft. capacity (one); Conveyor (one); Conveyor operator on self-propelled chip spreader; Heater (one); Motor drive; Light plant (one) pump (one); Welding machine (one) Ulmac or equal spreader.

RIVER WORK and LEVEE WORK on MISSISSIPPI and OHIO RIVERS

Class 11: Crane, shovel, dragline 4 yards or more, scraper, 18 yards, struck or over, dredge, derrick and piledriver, push boat operator, mechanic or 4 yards machine or over, Engine man on dredge, Levee man on dredge.

Class 12: Oiler on crane, dragline, shovel, 4 yard machine or over; Oiler on dredge.

III-2-PFO-1-2-1

JEFFERSON, PERRY, & MARION COUNTIES:

DECISION NO. NY78-3077

PAID HOLIDAYS:
A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day and F-Christmas Day.

FOOTNOTES:
a. Holidays: Columbus Day, Presidential Election Day 1 hour off with pay.

b. Holidays: (Highway Construction Only) A thru F, Lincoln's Birthday, Washington's Birthday, Good Friday, Columbus Day, Election Day and Veteran's Day.

c. Employer contributes $7.50 per day to Security Benefit Fund.

d. Employer contributes $8.00 per day to Annuity Fund.

e. Holidays: A through F; Lincoln's Birthday, Washington's Birthday, Columbus Day, Armistice Day and Election Day.

f. Employer contributes 6.4% of basic hourly rate for 5 years or more of service of 4% basic hourly rate for 6 months to 5 years of service as Vacation Pay Credit.

g. Holidays: New Years Eve and Christmas Eve, providing the employee works a full half day preceeding the holiday, he shall receive a full day's pay.

h. Work on Christmas and New Year's Eve will terminate at noon, but employees will receive a full day's pay.

i. One hour voting time with pay on Election Day.

j. Holidays: A through F; Washington's Birthday, Good Friday, Christmas Eve, providing employee has worked 30 full days during the 90 calendar days prior to the holiday and the regularly schedule work days immediately preceding and following the holiday.

k. One half days pay for Labor Day.

l. Employer contributes $7.70 per day to Annuity Fund.

CLASSIFICATION DEFINITIONS

GROUP I-A - Auger, auto grader, backhoe oilver 88, Pordson, dynahoe, dual purpose and similar machines, barber green loader - euclid loader or similar type machine, central mix plant operator, cherry picker (Cableway), compactor with blade, concrete portable hoist, S.M.I. or similar, conway or similar mucking machines, crane (crawler or truck) dragline, gradall, shovel backhoe, etc., derrick (stone-steel), elevator & cage, front end loaders, hoist single, double, triple drum, hoist portable mobile unit, hoist engineer-concrete (crane-derrick-mine hoist), hoist engineer-material, hydraulic boom, letourneau or tournapull (scrapers over 20 yards struck), mucking machines, overhead crane, paver (concrete) power house plant, pulsemeter, push button (buzz box) elevator, road mix machines, ross carrier and similar machines, shovels (tunnels), side boom, spreader (asphalt) scoopmobile-tractor-shovel over 1¼ yards, trenching machines, telephies, tractor type demolition equipment, whirly, winch truck "A" frame

GROUP I-B - Compressor (steel erection)

DECISION NO. NY78-3077

CLASSIFICATION DEFINITIONS (CONT'D)

GROUP II - Compactor self-propelled, grader, bulldozer D7 and similar tractors with a draw bar horsepower of 100 or over, maintenance engineer, mechanic (outside) all types, welder, scraper - 20 yards struck and under, vibrator roller, etc., roller 4 ton and over

GROUP III- A - Asphalt plant, boiler (high pressure), bulldozer D6 and similar tractors with a draw bar horsepower less than 100, compressor plant, concrete pump, conveyor belt machine - irrespective of motor size, fireman, forklift, forklift (electric), joy drill or similar tractor drilling machine, loader - 1¼ yards and under, locomotive (all sizes), machine pulling sheeps foot roller, mixer concrete - 21E and over, portable asphalt plant, portable batch plant, portable crusher, quarry master, stone crusher, well drilling machine, well point system

GROUP III-B - Compressor, lighting unit (portable & generator), Welding machine (steel erection excavation)

GROUP IV-A - Air tractor drill, batch plant, bending machine, concrete breaker, concrete spreader, curb cutter machine, farm tractor (all types), finishing machine - concrete, material hopper - sand - stone - cement, mulching grass spreader, roller under 4 ton, spreading & fine grading machine, steel cutting machine, sweeper, turbo jet burner or similar equipment, fine grading machine

GROUP IV-B - Compressor to 125 cu. ft., dust collector, mixer - concrete under 21E, heater - all types, pump 4 inches and over, pump station (water & sewer), pump - gypsum, etc., pump - plaster, steam jenny, syphon pump - air - steam, tar joint machine, vibrator (1 to 5)

GROUP V-A - Concrete saw, oiler (fuel or grease truck)

GROUP V-B - Oiler, stockroom or stockroom attendant, paint compressor, pump under 4" or any combination not equal to 4", roller motorizer (walk behind)

GROUP VI-A MISCELLANEOUS:

CLASS I - Master mechanic, Asst. master mechanic

CLASS II - Helicopter hoist operator

DECISON NO. NY78-3077

CLASSIFICATION DEFINITIONS (CONT'D)

CLASS III - Engineer, tower crane, 3900 Monitowac or over or similar (rail, truck or crawler mounted)

CLASS IV - Hoist engineer - steel sub-structure, engineer - pile driver

CLASS V - Helicopter pilot

CLASS VI - Helicopter pilot

CLASS VII - Jersey spreader, pavement breaker (air ram), Post hole digger

GROUP VI-B MISCELLANEOUS:

CLASS I - Safety man 60 ton crane & over

CLASS II - Oiler asphalt paver and utility man

GROUP VII - Operators of crane (crawlers or truck) 100 ft. but less than 149 ft.

GROUP VIII - Operators of crane (crawlers or truck) 149 ft. and over

GROUP IX - Loader Operators: Over 5 cu. yd. capacity

GROUP X - Shovel Operator over 4 cu. yd. capacity

Footnotes

a. Employer contributes $1.20 per hour to Supplemental Unemployment Benefit Fund.

b. Paid Holidays: New Year's Day, Lincoln's Birthday, Washington's Birthday, Good Friday, Memorial Day, Independence Day, Labor Day, Columbus Day, November Election Day, Veteran's Day, Thanksgiving Day and Christmas Day.

POWER EQUIPMENT OPERATORS - HEAVY AND HIGHWAY

GROUP I

Auger, auto grader, backhoe Oliver 88, Fordson, dynahoe, dual purpose and similar machines, barber green loader-euclid loader or similar type, central mix plant operator, cherry picker (cableway), compactor with blade, concrete portable hoist, C.M.I. or similar Conway or similar mucking machines, crane (crawler or truck) dragline, gradall, shovel backhoe, etc., derrick (stone-steel), elevator & cage, front end loaders, hoist single, double, triple drum, hoist portable mobile unit, hoist engineer-concrete (crane-derrick-mine hoist), hoist engineer-material, hydraulic boom, LeTourneau or Tournapull (scrapers over 20 yards struck), mucking machines, overhead crane, paver (concrete), power house plant, pulsometer, push button (buzz box) elevator, road mix machines, Ross carrier and similar machines, shovel (tunnels), side boom, spreader (Asphalt), scoopmobile-tractor-shovel over 1½ yards, trenching machines, telephies, tractor type demolition equipment, whirly, winch truck "A" Frame

DECISION NO. NY78-3077

POWER EQUIPMENT OPERATORS - HEAVY AND HIGHWAY (CONT'D)

GROUP II

Compactor self-propelled, grader, bulldozer D7 and similar tractors with a draw bar horsepower of 100 and over, maintenance engineer, mechanic (outside) all types, welder, scrapers 20 yards struck and under, shop foreman, vibratory roller, etc., roller 4 ton and over

GROUP III

Asphalt plant, boiler (high pressure), bulldozer D6 and similar tractors with a draw bar horsepower less than 100, compressor plant, concrete pump, conveyor belt machine-irrespective of motor size, firemen, forklift, forklift (electric), joy drill or similar tractor drilling machine, loader-1½ yds. and under, locomotive (all sizes), machine pulling sheeps foot roller, mixer concrete-21E and over, portable asphalt plant, portable batch plant, portable crusher, quarry master, stone crusher, well drilling machine, well point system

GROUP IV

Air tractor drill, batch plant, bending machine, concrete breaker, concrete spreader, curb cutter machine, farm tractor (all types), finishing machine-concrete, material hopper-sand-stone-cement, mulching grass spreader, roller under 4 ton, shop mechanic (not employed on job site), spreading & fine grading machine, steel cutting machine, sweeper, syphon pump-air-steam, tar joint machine, Turbo jet burner or similar equipment, fine grading machine

GROUP V

Concrete saw, mechanic's helper, oiler, oiler (fuel truck), oiler (grease truck)

GROUP VI

Hoist engineer-steel, sub-struct., engineer-pile driver

GROUP VII

Welder-certified crawlers or truck: 100 ft. but less than 149 ft. $2.00 per hour additional crawlers or truck: 149 ft. and over $3.00 per hour additional loader operators: Over 5 cu. yd. capacity $.50 per hour additional shovel operators: Over 4 cu. yd. capacity $1.00 per hour additional

DECISION NO. NY78-3077

POWER EQUIPMENT OPERATORS - HEAVY AND HIGHWAY (CONT'D)

GROUP VIII

Stockroom or stockroom attendant, paint compressor, pump under 4" or any combination not equal to 4" roller motorized (walk behind, welder's helper

GROUP IX

Compressor (steel erection)

GROUP X

Compressor, lighting unit (portable and generator), welding machine (steel erection excavation)

GROUP XI

Compressor to 125 cu. ft., dust collector, mixer-concrete under 21E, heater-all types, pump 4" and over, pump station (water and sewer), pump-gypsum, etc., pump-plasterer, steam jenny syphon pump-air-steam, tar-joint machine, vibrator (1 to 5)

GROUP XII

A. Jersey spreader, pavement breaker (air ram), post hole digger
B. Safety man 60 ton crane & over, helicopter signalman
C. Oiler asphalt paver, utility man
D. Helicopter pilot
E. Helicopter hoist operator
F. Engineer, tower crane, 3900 monitowac or over or similar (rail, truck, or crawler mounted
G. Master mechanic

PAID HOLIDAYS:
A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day and F-Christmas Day.

Title 13—Business Credit and Assistance

CHAPTER I—SMALL BUSINESS ADMINISTRATION

[Rev. 1, Amendment 2 to Amendment 1]

PART 116—POLICIES OF GENERAL APPLICATION

Subpart D—Flood Plain Management and Wetlands Protection

AGENCY: Small Business Administration.

ACTION: Change in the effective date of the interim rule.

SUMMARY: On May 24, 1978, SBA published an interim rule on implementation of Executive Orders 11988 (Flood Plain Management) and 11990 (Wetlands Protection) with an effective date, as extended, of September 24, 1978. SBA has written a final rule based on comments received. The Council of Environmental Quality has told SBA the final rule should not be published until the CEQ has completed its review and discussed it with SBA.

DATES: The effective date of the interim rule is extended to such time as the final rule is published in approximately 90 days.

FOR FURTHER INFORMATION CONTACT:

Richard L. Wray, Financial Analyst, Small Business Administration, 202-653-6470.

SUPPLEMENTARY INFORMATION: The subject Executive Orders provided for the Water Resources Council to prepare guidelines that each agency would follow when implementing the orders. The guidelines require clearance of all rules by the Water Resource Council, Council on Environmental Quality and Federal Insurance Administration. Because this review of the final rule has not been completed it cannot be published.

Dated: September 27, 1978.

PATRICIA M. CLOHERTY,
Acting Administrator.

[4510-27-M]

Title 41—Public Contract and Property Management

CHAPTER 60—OFFICE OF FEDERAL CONTRACT COMPLIANCE PROGRAMS, EQUAL EMPLOYMENT OPPORTUNITY, DEPARTMENT OF LABOR

COMPLIANCE RESPONSIBILITY FOR EQUAL EMPLOYMENT OPPORTUNITY

Final Rule

AGENCY: Office of Federal Contract Compliance Programs, Labor.

ACTION: Final rule.

SUMMARY: On October 5, 1978, President Carter signed Executive Order 12086 (43 FR 46501), which amended Executive Order 11246, as amended. Executive Order 12086 consolidates into the Department of Labor, effective October 8, 1978, the compliance responsibility for equal employment opportunity programs previously assigned to 11 compliance agencies. This rule makes the necessary changes to the regulations to reflect the consolidated functions authorized under Executive Order 12086.

EFFECTIVE DATE: October 20, 1978.

FOR FURTHER INFORMATION CONTACT:

Edward E. Mitchell, Director, Division of Program Policy, Office of Federal Contract Compliance Programs, Room C-3324, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, D.C. 20210, telephone 202-523-9426.

SUPPLEMENTARY INFORMATION: On October 5, 1978, President Carter signed Executive Order 12086 which consolidates the contract compliance program under Executive Order 11246, as amended, into the Department of Labor. Accordingly, certain regulations which implement the Executive order and regulations which implement section 503 of the Rehabilitation Act of 1973, and section 402 of the Vietnam Era Veterans Readjustment Assistance Act are being republished today in the FEDERAL REGISTER to reflect the consolidation. Essentially, this has been effected simply by deleting the definition of "Compliance Agency" and references to "Contract Compliance Officer" (e.g., in 41 CFR 60-1.3 and 60-1.20(b) respectively).

Because the limited changes made in the regulations to reflect the consolidation are not substantive, the regulations are not being published for public comment. The regulations involved are parts 60-1, 60-2, 60-4, 60-20, 60-30, 60-40, 60-50, 60-60, 60-250, 60-741 of Chapter 60, Title 41, Code of Federal Regulations.

An effort was made to add verbiage only where necessary. In some instances, however, it was necessary to replace deleted material with new verbiage in order to make the regulations intelligible. See, for example, 41 CFR 60-1.24(c)(4).

In addition, the Standard Compliance Review Report which is published as an attachment to revised order No. 14 (41 CFR Part 60-60) has been deleted from the regulations. The Standard Compliance Review Report is not being abolished, however. OFCCP will continue to use parts of the Standard Compliance Review Report in conducting compliance reviews until it is incorporated into the Compliance Manual or otherwise published. A number of references to regulations contained in the Standard Compliance Review Report are obsolete and it was feared that republication would be confusing. Moreover, this Report is a guide to compliance officers for conducting compliance reviews and republication in the regulations is not necessary.

The regulations are designed simply to eliminate confusion which could result if the public is not informed of new procedures and places resulting from the consolidation. Publication for comment therefore is not required. Because these amendments merely reflect technical and clarifying changes, they are not considered significant or major under Executive Order 12044, Improving Government Regulations (43 FR 12661, Mar. 24, 1978), and therefore it is not necessary for the Department to follow the procedures set forth therein, including those for public participation and regulatory analyses.

In consideration of the foregoing, 41 CFR Chapter 60 is amended by republishing parts 60-1, 60-2, 60-4, 60-30, 60-40, 60-60, 60-250, and 60-741 as set forth below.

RAY MARSHALL,
Secretary of Labor.

DONALD ELISBURG,
Assistant Secretary, Employment Standards Administration.

WELDON J. ROUGEAU,
Director, Office of Federal Contract Compliance Programs.

OCTOBER 16, 1978.

PART 60-1—OBLIGATIONS OF CONTRACTORS AND SUBCONTRACTORS

Subpart A—Preliminary Matters; Equal Opportunity Clause; Compliance Reports

Sec.
60-1.1 Purpose and application.
60-1.2 Administrative responsibility.
60-1.3 Definitions.
60-1.4 Equal opportunity clause.
60-1.5 Exemptions.
60-1.6 [Reserved]
60-1.7 Reports and other required information.
60-1.8 Segregated facilities.
60-1.9 Compliance by labor unions and by recruiting and training agencies.
60-1.10 Foreign government practices.

Subpart B—General Enforcement; Compliance Review and Complaint Procedure

60-1.20 Compliance reviews.
60-1.21 Filing complaints.
60-1.22 Where to file.
60-1.23 Contents of complaint.
60-1.24 Processing of matters.
60-1.25 Assumption of jurisdiction by or referrals to the Director.
60-1.26 Enforcement proceedings.
60-1.27 Sanctions and penalties.
60-1.28 Show cause notices.
60-1.29 Preaward notices.
60-1.30 Contract ineligibility list.
60-1.31 Reinstatement of ineligible prime contractors and subcontractors.
60-1.32 Intimidation and interference.

Subpart C—Ancillary Matters

60-1.40 Affirmative action compliance programs.
60-1.41 Solicitations or advertisements for employees.
60-1.42 Notices to be posted.
60-1.43 Access to records and site of employment.
60-1.44 Rulings and interpretations.
60-1.45 Existing contracts and subcontracts.
60-1.46 Delegation of authority by the Director.
60-1.47 Effective date.

AUTHORITY: Sec. 201, E.O. 11246 (30 FR 12319), as amended by E.O. 12086.

Subpart A—Preliminary Matters; Equal Opportunity Clause; Compliance Reports

§ 60-1.1 Purpose and application.

The purpose of the regulations in this part is to achieve the aims of parts II, III, and IV of Executive Order 11246 for the promotion and insuring of equal opportunity for all persons, without regard to race, color, religion, sex, or national origin, employed or seeking employment with Government contractors or with contractors performing under federally assisted construction contracts. The regulations in this part apply to all contracting agencies of the Government and to contractors and subcontractors who perform under Government contracts, to the extent set forth in this part. The regulations in this part also apply to all agencies of the Government administering programs involving Federal financial assistance which may include a construction contract, and to all contractors and subcontractors performing under construction contracts which are related to any such programs. The procedures set forth in the regulations in this part govern all disputes relative to a contractor's compliance with his obligations under the equal opportunity clause regardless of whether or not his contract contains a "Disputes" clause. Failure of a contractor or applicant to comply with any provision of the regulations in this part shall be grounds for the imposition of any or all of the sanctions authorized by the order. The regulations in this part do not apply to any action taken to effect compliance with respect to employment practices subject to title VI of the Civil Rights Act of 1964. The rights and remedies of the Government hereunder are not exclusive and do not affect rights and remedies provided elsewhere by law, regulation, or contract; neither do the regulations limit the exercise by the Secretary or Government agencies of powers not herein specifically set forth, but granted to them by the order.

§ 60-1.2 Administrative responsibility.

The Director has been delegated authority and assigned responsibility for carrying out the responsibilities assigned to the Secretary under the Executive order. All correspondence regarding the order should be directed to the Director, Office of Federal Contract Compliance Programs, Employment Standards Administration, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, D.C. 20210.

§ 60-1.3 Definitions.

"Administering agency" means any department, agency and establishment in the executive branch of the Government, including any wholly owned Government corporation, which administers a program involving federally assisted construction contracts.

"Administrative law judge" means an administrative law judge appointed as provided in 5 U.S.C. 3105 and subpart B of part 930 of title 5 of the Code of Federal Regulations (see 37 FR 16787) and qualified to preside at hearings under 5 U.S.C. 557.

"Agency" means any contracting or any administering agency of the Government.

"Applicant" means an applicant for Federal assistance involving a construction contract, or other participant in a program involving a construction contract as determined by regulation of an administering agency. The term also includes such persons after they become recipients of such Federal assistance.

"Construction work" means the construction, rehabilitation, alteration, conversion, extension, demolition or repair of buildings, highways, or other changes or improvements to real property, including facilities providing utility services. The term also includes the supervision, inspection, and other onsite functions incidental to the actual construction.

"Contract" means any Government contract or any federally assisted construction contract.

"Contracting agency" means any department, agency, establishment, or instrumentality in the executive branch of the Government, including any wholly owned Government corporation, which enters into contracts.

"Contractor" means, unless otherwise indicated, a prime contractor or subcontractor.

"Director" means the Director, Office of Federal Contract Compliance Programs (OFCCP), U.S. Department of Labor or any person to whom he delegates authority under the regulations in this chapter.

"Equal opportunity clause" means the contract provisions set forth in § 60-1.4 (a) or (b), as appropriate.

"Federally assisted construction contract" means any agreement or modification thereof between any applicant and a person for construction work which is paid for in whole or in part with funds obtained from the Government or borrowed on the credit of the Government pursuant to any Federal program involving a grant, contract, loan, insurance, or guarantee, or undertaken pursuant to any Federal program involving such grant, contract, loan, insurance, or guarantee, or any application or modification thereof approved by the Government for a grant, contract, loan, insurance, or guarantee under which the applicant itself participates in the construction work.

"Government" means the government of the United States of America.

"Government contract" means any agreement or modification thereof between any contracting agency and any person for the furnishing of supplies or services or for the use of real or personal property, including lease arrangements. The term "services", as used in this section includes, but is not limited to the following services: Utility, construction, transportation, research, insurance, and fund depository. The term "Government contract" does not include (1) agreements in which the parties stand in the relationship of employer and employee, and (2) federally assisted construction contracts.

"Minority group" as used herein shall include, where appropriate, female employees and perspective female employees.

"Modification" means any alteration in the terms and conditions of a contract, including supplemental agreements, amendments, and extensions.

"Order," "Executive Order," or "Executive Order 11246" means parts II, III, and IV of the Executive Order 11246 dated September 24, 1965 (30 FR 12319), any Executive order amending such order, and any other Executive order superseding such order.

"Person" means any natural person, corporation, partnership, unincorporated association, State or local government, and any agency, instrumentality, or subdivision of such a government.

"Prime contractor" means any person holding a contract and, for the purposes of Subpart B of this part, any person who has held a contract subject to the order.

"Recruiting and training agency" means any person who refers workers to any contractor or subcontractor or who provides for employment by any contractor or subcontractor.

"Rules, regulations, and relevant orders of the Secretary of Labor" used in paragraph (4) of the equal opportunity clause means rules, regulations, and relevant orders of the Secretary of Labor or his designee issued pursuant to the order.

"Secretary" means the Secretary of Labor, U.S. Department of Labor.

"Site of construction" means the general physical location of any building, highway, or other change or improvement to real property which is undergoing construction, rehabilitation, alteration, conversion, extension, demolition, or repair and any temporary location or facility at which a contractor, subcontractor, or other participating party meets a demand or performs a function relating to the contract or subcontract.

"Subcontract" means any agreement or arrangement between a contractor and any person (in which the parties do not stand in the relationship of an employer and an employee):

(1) For the furnishing of supplies or services or for the use of real or personal property, including lease arrangements, which, in whole or in part, is necessary to the performance of any one or more contracts; or

(2) Under which any portion of the contractor's obligation under any one or more contracts is performed, undertaken, or assumed.

"Subcontractor" means any person holding a subcontract and, for the purposes of Subpart B of this part, any person who has held a subcontract subject to the order. The term "First-

tier subcontractor" refers to a subcontractor holding a subcontract with a prime contractor.

"Supplies" means all personal property, including equipment, materials, printing, and leases of personal property, but does not include the purchase or lease of real property or any interest therein.

"Underutilization" means the employment by the contractor of minority group members in such a manner that they are not employed to a degree consistent with their availability.

§ 60-1.4 Equal opportunity clause.

(a) Except as provided in § 60-1.5, all Government contracts shall include the following equal opportunity clause:

During the performance of this contract, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex, or national origin. Such action shall include, but not be limited to the following: Employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the contracting officer setting forth the provisions of this nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, or national origin.

(3) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided by the agency contracting officer, advising the labor union or workers' representative of the contractor's commitments under this section, and post copies of the notice in conspicuous places available to employees and applicants for employment.

(4) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(5) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by the rules, regulations, and relevant orders of the Secretary of Labor, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(6) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of such rules, regulations, or orders, this contract may be canceled, terminated or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(7) The contractor will include the provisions of paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions including sanctions for noncompliance: Provided, however, That in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

(b) Except as provided in § 60-1.5, all Government contracts shall include the following equal opportunity clause:

During the performance of this contract, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex, or national origin. Such action shall include, but not be limited to the following: Employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the contracting officer setting forth the provisions of this nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, or national origin.

(3) The contractor will send to each labor

vant orders of the Secretary of Labor, that it will furnish the administering agency and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will permit access to its books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(4) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of such rules, regulations, or orders, this contract may be canceled, terminated or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(5) The contractor will include the provisions of paragraphs (1) through (5) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions including sanctions for noncompliance: Provided, however, That in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

(c) Except as provided in § 60-1.5, all Government contracts shall include the following equal opportunity clause:

During the performance of this contract, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex, or national origin. Such action shall include, but not be limited to the following: Employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the contracting officer setting forth the provisions of this nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, or national origin.

(3) The contractor will send to each labor

any amount and with financial institutions which are issuing and paying agents for U.S. savings bonds and savings notes, are exempt from the re-

agency, instrumentality or subdivision of such government, except for educational institutions and medical facili-

V 4 3 / 2 0 4 0 C 2 0 0 7 8

tier subcontractor" refers to a subcontractor holding a subcontract with a prime contractor.

"United States" as used herein shall include the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Panama Canal Zone, and the possessions of the United States.

§ 60-1.1 Equal opportunity clause.

(a) *Government contracts.* Except as otherwise provided, each contracting agency shall include the following equal opportunity clause contained in section 202 of the order in each of its Government contracts (and modifications thereof if not included in the original contract):

During the performance of this contract, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex, or national origin. Such action shall include, but not be limited to the following: Employment, upgrading, demotion, or transfer, recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the contracting officer setting forth the provisions of this nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, or national origin.

(3) the contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided by the agency contracting officer, advising the labor union or workers' representative of the contractor's commitments under section 202 of Executive Order 11246 of September 24, 1965, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(4) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(5) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by the rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the contracting agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(6) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of such rules, regulations, or orders, this contract may be canceled, terminated or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(7) the contractor will include the provisions of paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as may be directed by the Secretary of Labor as a means of enforcing such provisions including sanctions for noncompliance: *Provided, however,* that in the event the contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

(b) *Federally assisted construction contracts.* (1) Except as otherwise provided, each administering agency shall require the inclusion of the following language as a condition of any grant, contract, loan, insurance, or guarantee involving federally assisted construction which is not exempt from the requirements of the equal opportunity clause:

The applicant hereby agrees that it will incorporate or cause to be incorporated into any contract for construction work, or modification thereof, as defined in the regulations of the Secretary of Labor at 41 CFR Chapter 60, which is paid for in whole or in part with funds obtained from the Federal Government or borrowed on the credit of the Federal Government pursuant to a grant, contract, loan insurance, or guarantee, or undertaken pursuant to any Federal program involving such grant, contract, loan, insurance, or guarantee, the following equal opportunity clause:

During the performance of this contract, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, or national origin. such action shall include, but not be limited to the following: Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, or national origin.

(3) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(4) The contrator will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(5) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(6) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(7) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance: *Provided, however,* That in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency the contractor may request the United States to enter into such litigation to protect the interests of the United States.

The applicant further agrees that it will be bound by the above equal opportunity clause with respect to its own employment practices when it participates in federally assisted construction work: *Provided,* That if the applicant so participating is a State or local government, the above equal opportunity clause is not applicable to any agency, instrumentality or subdivision of such government which does not participate in work on or under the contract.

The applicant agrees that it will assist and cooperate actively with the administering agency and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the equal opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish the administering agency and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the administering agency in the discharge of the agency's primary responsibility for securing compliance.

The applicant further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order 11246 of September 24, 1965, with a contractor debarred from, or who has not demonstrated eligibility for, Government contracts and federally assisted construction contracts pursuant to the Executive order and will carry out such sanctions and penalties for violation of the equal opportunity clause as may be imposed upon contractors and subcontractors by the administering agency or the Secretary of Labor pursuant to Part II, Subpart D of the Executive order. In addition, the applicant agrees that if it fails or refuses to comply with these undertakings, the administering agency may take any or all of the following actions: Cancel, terminate, or suspend in whole or in part this grant (contract, loan, insurance, guarantee); refrain from extending any further assistance to the applicant under the program with respect to which the failure or refund occurred until satisfactory assurance of future compliance has been received from such applicant; and refer the case to the Department of Justice for appropriate legal proceedings.

(c) *Subcontracts.*

Each nonexempt prime contractor or subcontractor shall include the equal opportunity clause in each of its nonexempt subcontracts.

(d) *Incorporation by reference.* The equal opportunity clause may be incorporated by reference in all Government contracts and subcontracts, including Government bills of lading, transportation requests, contracts for deposit of Government funds, and contracts for issuing and paying U.S. savings bonds and notes, and such other contracts and subcontracts as the Director may designate.

(e) *Incorporation by operation of the Order.* By operation of the Order, the equal opportunity clause shall be considered to be a part of every contract and subcontract required by the Order and the regulations in this part to include such a clause whether or not it is physically incorporated in such contracts and whether or not the contract between the agency and the contractor is written.

(f) *Adaptation of language.* Such necessary changes in language may be made in the equal opportunity clause as shall be appropriate to identify properly the parties and their undertakings.

§ 60-1.5 Exemptions.

(a) *General*—(1) *Transactions of $10,000 or under.* Contracts and subcontracts not exceeding $10,000, other than Government bills of lading, and other than contracts and subcontracts with depositories of Federal funds in any amount and with financial institutions which are issuing and paying agents for U.S. savings bonds and savings notes, are exempt from the requirements of the equal opportunity clause. In determining the applicability of this exemption to any federally assisted construction contract, or subcontract thereunder, the amount of such contract or subcontract rather than the amount of the Federal financial assistance shall govern. No agency, contractor, or subcontractor shall procure supplies or services in a manner so as to avoid applicability of the equal opportunity clause: *Provided,* that where a contractor has contracts or subcontracts with the Government in any 12-month period which have an aggregate total value (or can reasonably be expected to have an aggregate total value) exceeding $10,000, the $10,000 or under exemption does not apply, and the contracts are subject to the order and the regulations issued pursuant thereto regardless of whether any single contract exceeds $10,000.

(2) *Contracts and subcontracts for indefinite quantities.* With respect to contracts and subcontracts for indefinite quantities (including, but not limited to, open end contracts, requirement-type contracts, Federal Supply Schedule contracts, "call-type" contracts, and purchase notice agreements, the equal opportunity clause shall be included unless the purchaser has reason to believe that the amount to be ordered in any year under such contract will not exceed $10,000. The applicability of the equal opportunity clause shall be determined by the purchaser at the time of award for the first year, and annually thereafter for succeeding years, if any. Notwithstanding the above, the equal opportunity clause shall be applied to such contract whenever the amount of a single order exceeds $10,000. Once the equal opportunity clause is determined to be applicable, the contract shall continue to be subject to such clause for its duration, regardless of the amounts ordered, or reasonably expected to be ordered in any year.

(3) *Work outside the United States.* Contracts and subcontracts are exempt from the requirements of the equal opportunity clause with regard to work performed outside the United States by employees who were not recruited within the United States.

(4) *Contracts with State or local governments.* The requirements of the equal opportunity clause in any contract or subcontract with a State or local government (or any agency, instrumentality or subdivision thereof) shall not be applicable to any agency, instrumentality or subdivision of such government which does not participate in work on or under the contract or subcontract. In addition, any agency, instrumentality or subdivision of such government, except for educational institutions and medical facilities, are exempt from the requirements of filing the annual compliance report provided for by § 60-1.7(a)(1) and maintaining a written affirmative action compliance program prescribed by § 60-1.40 and part 60-2 of this chapter.

(5) *Contracts with certain educational institutions.* It shall not be a violation of the equal opportunity clause for a school, college, university, or other educational institution or institution of learning to hire and employ employees of a particular religion if such school, college, university, or other educational institution or institution of learning is, in whole or in substantial part, owned, supported, controlled, or managed by a particular religion or by a particular religious corporation, association, or society, or if the curriculum of such school, college, university, or other educational institution or institution of learning is directed toward the propagation of a particular religion. The primary thrust of this provision is directed at religiously oriented church-related colleges and universities and should be so interpreted.

(6) *Work on or near Indian reservations.* It shall not be a violation of the equal opportunity clause for a construction or nonconstruction contractor to extend a publicly announced preference in employment to Indians living on or near an Indian reservation in connection with employment opportunities on or near an Indian reservation. The use of the word "near" would include all that area where a person seeking employment could reasonably be expected to commute to and from in the course of a work day. Contractors or subcontractors extending such a preference shall not, however, discriminate among Indians on the basis of religion, sex, or tribal affiliation, and the use of such a preference shall not excuse a contractor from complying with the other requirements contained in this chapter.

(b) *Specific contracts and facilities*—(1) *Specific contracts.* The Director may exempt an agency or any person from requiring the inclusion of any or all of the equal opportunity clause in any specific contract or subcontract when he deems that special circumstances in the national interest so require. The Director may also exempt groups or categories of contracts or subcontracts of the same type where he finds it impracticable to act upon each request individually or where group exemptions will contribute to convenience in the administration of the order.

(2) *Facilities not connected with contracts.* The Director may exempt

V 4 3 / 2 0 4 0 O C 2 0 7 8

from the requirements of the equal opportunity clause any of a prime contractor's or subcontractor's facilities which he finds to be in all respects separate and distinct from activities of the prime contractor or subcontractor related to the performance of the contract or subcontract, provided that he also finds that such an exemption will not interfere with or impede the effectuation of the order.

(c) *National security.* Any requirement set forth in these regulations in this part shall not apply to any contract or subcontract whenever the head of an agency determines that such contract or subcontract is essential to the national security and that its award without complying with such requirement is necessary to the national security. Upon making such a determination, the head of the agency will notify the Director in writing within 30 days.

(d) *Withdrawal of exemption.* When any contract or subcontract is of a class exempted under this section, the Director may withdraw the exemption for a specific contract or subcontract or group of contracts or subcontracts when in his judgment such action is necessary or appropriate to achieve the purposes of the order. Such withdrawal shall not apply to contracts or subcontracts awarded prior to the withdrawal, except that in procurements entered into by formal advertising, or the various forms of restricted formal advertising, such withdrawal shall not apply unless the withdrawal is made more than 10 calendar days before the date set for the opening of the bids.

§ 60–1.6 [Reserved]

§ 60–1.7 Reports and other required information.

(a) *Requirements for prime contractors and subcontractors.* (1) Each prime contractor and subcontractor shall file annually, on or before the 31st day of March, complete and accurate reports on Standard Form 100 (EEO–1) promulgated jointly by the Office of Federal Contract Compliance Programs, the Equal Employment Opportunity Commission and Plans for Progress or such form as may hereafter be promulgated in its place if such prime contractor or subcontractor (i) is not exempt from the provisions of these regulations in accordance with § 60–1.5; (ii) has 50 or more employees; (iii) is a prime contractor or first tier subcontractor; and (iv) has a contract, subcontract or purchase order amounting to $50,000 or more or serves as a depository of Government funds in any amount, or is a financial institution which is an issuing and paying agent for U.S. savings bonds and savings notes: *Provided,* That any subcontractor below the first tier which performs construction work at the site of construction shall be required to file such a report if it meets requirements of paragraphs (a)(1) (i), (ii), and (iv) of this section.

(2) Each person required by § 60–1.7(a)(1) to submit reports shall file such a report with the contracting or administering agency within 30 days after the award to him of a contract or subcontract, unless such person has submitted such a report within 12 months preceding the date of the award. Subsequent reports shall be submitted annually in accordance with § 60–1.7(a)(1), or at such other intervals as the Director may require. The Director may extend the time for filing any report.

(3) The Director or the applicant, on their own motions, may require a contractor to keep employment or other records and to furnish, in the form requested, within reasonable limits, such information as the Director or the applicant deems necessary for the administration of the order.

(4) Failure to file timely, complete and accurate reports as required constitutes noncompliance with the prime contractor's or subcontractor's obligations under the equal opportunity clause and is ground for the imposition by the Director, an applicant, prime contractor or subcontractor, of any sanctions as authorized by the order and the regulations in this part.

(b) *Requirements for bidders or prospective contractors (1) Certification of compliance with Part 60–2: Affirmative Action Programs.* Each agency shall require each bidder or prospective prime contractor and proposed subcontractor, where appropriate, to state in the bid or in writing at the outset of negotiations for the contract: (i) Whether it has developed and has on file at each establishment affirmative action programs pursuant to Part 60–2 of this chapter; (ii) whether it has participated in any previous contract or subcontract subject to the equal opportunity clause; (iii) whether it has filed with the Joint Reporting Committee, the Director or the Equal Employment Opportunity Commission all reports due under the applicable filing requirements.

(2) *Additional information.* A bidder or prospective prime contractor or proposed subcontractor shall be required to submit such information as the Director requests prior to the award of the contract or subcontract. When a determination has been made to award the contract or subcontract to a specific contractor, such contractor shall be required, prior to award, or after the award, or both, to furnish such other information as the applicant or the Director requests.

(c) *Use of reports.* Reports filed pursuant to this section shall be used only in connection with the administration of the order, the Civil Rights Act of 1964, or in furtherance of the purposes of the order and said Act.

§ 60–1.8. Segregated facilities.

(a) *General.* In order to comply with his obligations under the equal opportunity clause, a prime contractor or subcontractor must insure that facilities provided for employees are provided in such a manner that segregation on the basis of race, color, religion, or national origin cannot result. He may neither require such segregated use by written or oral policies nor tolerate such use by employee custom. His obligation extends further to insuring that his employees are not assigned to perform their services at any location, under his control, where the facilities are segregated. This obligation extends to all contracts containing the equal opportunity clause regardless of the amount of the contract. The term "facilities" as used in this section means waiting rooms, work areas, restaurants and other eating areas, time clocks, restrooms, wash rooms, locker rooms, and other storage or dressing areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing facilities provided for employees.

(b) *Certification by prime contractors and subcontractors.* Prior to the award of any nonexempt Government contract of subcontract or federally assisted construction contract or subcontract, each agency or applicant shall require the prospective prime contractor and each prime contractor and subcontractor shall require each subcontractor to submit a certification, in the form approved by the Director, that the prospective prime contractor or subcontractor does not and will not maintain any facilities he provides for his employees in a segregated manner, or permit his employees to perform their services at any location, under his control, where segregated facilities are maintained; and that he will obtain a similar certification in the form approved by the Director, prior to the award of any nonexempt subcontract.

§ 60–1.9 Compliance by labor unions and by recruiting and training agencies.

(a) Whenever compliance with the equal opportunity clause may necessitate a revision of a collective bargaining agreement the labor union or unions which are parties to such an agreement shall be given an adequate opportunity to present their views to the director.

(b) The Director shall use his best efforts, directly and through agencies,

contractors, subcontractors, applicants, State and local officials, public and private agencies, and all other available instrumentalities, to cause any labor union, recruiting and training agency or other representative of workers who are or may be engaged in work under contracts and subcontracts to cooperate with, and to comply in the implementation of, the purposes of the order.

(c) In order to effectuate the purposes of paragraph (a) of this section, the Director may hold hearings, public or private, with respect to the practices and policies of any such labor union or recruiting and training agency.

(d) The Director may notify any Federal, State, or local agency of his conclusions and recommendations with respect to any such labor organization or recruiting and training agency which in his judgment has failed to cooperate with himself, agencies, prime contractors, subcontractors, or applicants in carrying out the purposes of the order. The Director also may notify the Equal Employment Opportunity Commission, the Department of Justice, or other appropriate Federal agencies whenever he has reason to believe that the practices of any such labor organization or agency violates title VII of the Civil Rights Act of 1964 or other provisions of Federal law.

§ 60–1.10 Foreign government practices.

Contractors shall not discriminate on the basis of race, color, religion, sex, or national origin when hiring or making employee assignments for work to be performed in the United States or abroad. Contractors are exempted from this obligation only when hiring persons outside the United States for work to be performed outside the United States (see 41 CFR 60–1.5(a)(3)). Therefore, a contractor hiring workers in the United States for either Federal or nonfederally connected work shall be in violation of Executive Order 11246, as amended, by refusing to employ or assign any person because of race, color, religion, sex, or national origin regardless of the policies of the country where the work is to be performed or for whom the work will be performed. Should any contractor be unable to acquire a visa of entry for any employee or potential employee to a country in which or with which it is doing business, and which refusal it believes is due to the race, color, religion, sex, or national origin of the employee or potential employee, the contractor must immediately notify the Department of State and the Director of such refusal.

Subpart B—General Enforcement; Compliance Review and Complaint Procedure

§ 60–1.20 Compliance reviews.

(a) The purpose of a compliance review is to determine if the prime contractor or subcontractor maintains nondiscriminatory hiring and employment practices and is taking affirmative action to insure that applicants are employed and that employees are placed, trained, upgraded, promoted, and otherwise treated during employment without regard to race, color, religion, sex, or national origin. It shall consist of a comprehensive analysis and evaluation of each aspect of the aforementioned practices, policies, and conditions resulting therefrom. Where necessary, recommendations for appropriate sanctions shall be made.

(b) Where deficiencies are found to exist, reasonable efforts shall be made to secure compliance through conciliation and persuasion. Before the contractor can be found to be in compliance with the order, it must make a specific commitment, in writing, to correct any such deficiencies. The commitment must include the precise action to be taken and dates for completion. The time period allotted shall be no longer than the minimum period necessary to effect such changes. Upon approval, the contractor may be considered in compliance, on condition that the commitments are faithfully kept. The contractor shall be notified that making such commitments does not preclude future determinations of noncompliance based on a finding that the commitments are not sufficient to achieve compliance.

(c) [Reserved]

(d) Each agency shall include in the invitation for bids for each formally advertised nonconstruction contract or state at the outset of negotiations for each negotiated contract, that if the award, when let, should exceed the amount of $1 million or more, the prospective contractor and his known first-tier subcontractors with subcontracts of $1 million or more will be subject to a compliance review before the award of the contract. No such contract shall be awarded unless a preaward compliance review of the prospective contractor and his known first-tier $1 million subcontractors has been conducted by the compliance agency within 12 months prior to the award. The awarding agency will notify OFCCP and request appropriate action and findings in accordance with this subsection. OFCCP will provide awarding agencies with written reports of compliance within 30 days following the request. In order to qualify for the award of a contract, a contractor and such first-tier subcontractors must be found to be in compliance pursuant to paragraph (b) of this section, and with part 60–2 of these regulations.

§ 60–1.21 Filing complaints.

Complaints shall be filed within 180 days of the alleged violation unless the time for filing is extended by the agency or the Director for good cause shown.

§ 60–1.22 Where to file.

Complaints may be filed with the OFCCP, 200 Constitution Avenue, NW., Washington, D.C. 20210, or with any OFCCP regional or area office.

§ 60–1.23 Contents of complaint.

(a) The complaint shall include the name, address, and telephone number of the complainant, the name and address of the contractor or subcontractor committing the alleged discrimination, a description of the acts considered to be discriminatory, and any other pertinent information which will assist in the investigation and resolution of the complaint. The complaint shall be signed by the complainant or his/her authorized representative. Complaints alleging class-type violations which do not identify the alleged discriminatee or discriminatees will be accepted, provided the other requirements of this paragraph are met.

(b) If a complaint contains incomplete information, OFCCP shall seek the needed information from the complainant. In the event such information is not furnished to the Director within 60 days of the date of such request, the case may be closed.

§ 60–1.24 Processing of matters.

(a) *Complaints.* OFCCP may refer appropriate complaints to the Equal Employment Opportunity Commission (EEOC) for processing under Title VII of the Civil Rights Act of 1964, as amended, rather than processing under E.O. 11246 and the regulations in this chapter. Upon referring complaints to the EEOC, OFCCP shall promptly notify complainant(s) and the contractor of such referral.

(b) *Complaint investigations.* In conducting complaint investigations, OFCCP shall, as a minimum, conduct a thorough evaluation of the allegations of the complaint and shall be responsible for developing a complete case record. The case record should contain the name, address, and telephone number of each person interviewed, the interview statements, copies, transcripts, or summaries (where appropriate) of pertinent documents, a reference to at least one covered contract, and a narrative report of the investigation with references to exhibits and other evidence which relate to the alleged violations.

(c)(1) [Reserved]

V 4 3 / 2 0 4 0 0 C 2 0 7 8

(2) If any complaint investigation or compliance review indicates a violation of the equal opportunity clause, the matter should be resolved by informal means whenever possible. Such informal means may include the holding of a compliance conference.

(3) Where any complaint investigation or compliance review indicates a violation of the equal opportunity clause and the matter has not been resolved by informal means, the Director shall proceed in accordance with § 60-1.26.

(4) When a prime contractor or subcontractor, without a hearing, shall have complied with the recommendations or orders of the Director and believes such recommendations or orders to be erroneous, he shall, upon filing a request therefor within ten days of such compliance, be afforded an opportunity for a hearing and review of the alleged erroneous action.

(5) For reasonable cause shown, the Director may reconsider or cause to be reconsidered any matter on his/her own motion or pursuant to a request.

(d) *Reports to the Director.* (1) With the exception of complaints which have been referred to EEOC, within 60 days from receipt of a complaint or within such additional time as may be allowed by the Director for good cause shown, the complaint shall be processed and the case record developed containing the following information:

(i) Name and address of the complainant;

(ii) Brief summary of findings, including a statement regarding the contractor's compliance or noncompliance with the requirements of the equal opportunity clause;

(iii) A statement of the disposition of the case, including any corrective action taken and any sanctions or penalties imposed or, whenever appropriate, the recommended corrective action and sanctions or penalties.

(2) A written report of every preaward compliance review required by this regulation or otherwise required by the Director, shall be developed and maintained.

(3) A written report of every other compliance review or any other matter processed involving an apparent violation of the equal opportunity clause shall be made. Such report shall contain a brief summary of the findings, including a statement of conclusions regarding the contractor's compliance or noncompliance with the requirements of the order, and a statement of the disposition of the case, including any corrective action taken or recommended and any sanctions or penalties imposed or recommended.

§ 60-1.25 Assumption of jurisdiction by or referrals to the Director.

The Director may inquire into the status of any matter pending before an agency. Where he considers it necessary or appropriate to the achievement of the purposes of the order, he may assume jurisdiction over the matter and proceed as provided herein. Whenever the Director assumes jurisdiction over any matter, or an agency refers any matter he may conduct, or have conducted, such investigations, hold such hearings, make such findings, issue such recommendations and directives, order such sanctions and penalties, and take such other action as may be necessary or appropriate to achieve the purposes of the order. The Director shall promptly notify the agency of any corrective action to be taken or any sanctions to be taken or any sanction to be imposed by the agency. The agency shall take such action, and report the results thereof to the Director within the time specified.

§ 60-1.26 Enforcement proceedings.

(a) *General.* Violations of the Order, equal opportunity clause, the regulations in this chapter, or of applicable construction industry equal employment opportunity requirements, may result in the institution of administrative or judicial enforcement proceedings to enforce the Order and to seek appropriate relief. Violations may be found based upon, inter alia, any of the following: (i) The results of a complaint investigation; (ii) analysis of an affirmative action program; (iii) the results of an on-site review of the contractor's compliance with the Order and its implementing regulations; (iv) a contractor's refusal to submit an affirmative action program; (v) a contractor's refusal to allow an on-site compliance review to be conducted; (vi) a contractor's refusal to supply records or other information as required by these regulations or applicable construction industry requirements; or (vii) any substantial or material violation or the threat of a substantial or material violation of the contractual provisions of the Order, or of the rules or regulations issued pursuant thereto.

(2) If the investigation of a complaint, or a compliance review, results in a determination that the Order, equal opportunity clause or regulations issued pursuant thereto, have been violated, and the violations have not been corrected in accordance with the conciliation procedures in this chapter, OFCCP may institute an administrative enforcement proceeding to enjoin the violations, to seek appropriate relief (which may include affected class and back pay relief), and to impose appropriate sanctions, or any of the above. However, if the contractor refuses to submit an affirmative action program, or refuses to supply records or other requested information, or refuses to allow the compliance agency access to its premises for an on-site review; and if conciliation efforts under this chapter are unsuccessful, OFCCP, notwithstanding the requirements of this chapter, may go directly to administrative enforcement proceedings to enjoin the violations, to seek appropriate relief, and to impose appropriate sanctions, or any of the above. Whenever the Director has reason to believe that there is substantial or material violation or the threat of substantial or material violation of the contractual provisions of the Order or of the rules, regulations or orders issued pursuant thereto, he/she may refer the matter to the Solicitor of Labor to institute administrative enforcement proceedings as set forth in this section or refer the matter to the Department of Justice to enforce the contractual provisions of the Order, to seek injunctive relief (including relief against noncontractors, including labor unions, who seek to thwart implementation of the Order and regulations) and to seek such additional relief, including back pay, as may be appropriate. There are no procedural prerequisites to a referral to the Department of Justice by the Director, and such referrals may be accomplished without proceeding through the conciliation procedures in this chapter, and a referral may be made at any stage in the procedures under this chapter: *Provided,* That no order for debarment from further contracts or subcontracts pursuant to section 209(a)(6) of the Order shall be made without affording the contractor an opportunity for a hearing, either administrative or judicial.

(b) [Reserved]

(c) *Administrative enforcement proceedings.* Administrative enforcement proceedings shall be conducted under the control and supervision of the Solicitor of Labor and under the Rules of Practice for Administrative Proceedings to Enforce Equal Opportunity Under Executive Order 11246 contained in Part 60-30 of this chapter.

(d) *Decision following administrative proceeding.* If it is determined after a hearing (or after the contractor waives a hearing) that the contractor is violating the Order or the regulations issued thereunder, the Secretary (in accordance with 41 CFR 60-30.30(a)) shall issue an Administrative Order enjoining the violations and requiring the contractor to provide whatever remedies are appropriate, and imposing whatever sanctions are appropriate, or any of the above. In any event, failure to comply with the Administrative Order shall result in

the imposition of the sanctions contained in section 209 (a)(5) or (a)(6) of the Executive Order.

(e) *Referrals to the Department of Justice* (1) Whenever a matter has been referred to the Department of Justice for consideration of judicial proceedings pursuant to § 60-1.26(a)(2) of these regulations, the Attorney General may bring a civil action in the appropriate district court of the United States requesting a temporary restraining order, preliminary or permanent injunction, and an order for such additional equitable relief, including back pay, deemed necessary or appropriate to ensure the full enjoyment of the rights secured by the Order, or any of the above.

(2) The Attorney General is authorized to conduct such investigation of the facts as he may deem necessary or appropriate to carry out his responsibilities under these regulations.

(3) Prior to the institution of any judicial proceedings, the Attorney General, on behalf of the Director, is authorized to make reasonable efforts to secure compliance with the contract provisions of the Order. He may do so by providing the contractor and any other respondent with reasonable notice of his findings, his intent to file suit, and the actions he believes necessary to obtain compliance with the contract provisions of the Order without contested litigation, and by offering the contractor and any other respondent a reasonable opportunity for conference and conciliation, in an effort to obtain such compliance without contested litigation.

(4) As defined in these regulations, the Attorney General shall mean the Attorney General, the Assistant Attorney General for Civil Rights, or any other person authorized by regulations or practice to act for the Attorney General with respect to the enforcement of equal employment opportunity laws, orders and regulations generally, or in a particular matter or case.

(5) The Director or his/her designee, and representatives of the Attorney General may consult from time to time to determine what investigations should be conducted to determine whether contractors or groups of contractors or other persons may be engaged in patterns or practices in violation of the Executive Order or these regulations, or of resistance to or interference with the full enjoyment of any of the rights secured by them, warranting judicial proceedings.

(f) *Initiation of lawsuits by the Attorney General without referral from the Director.* In addition to initiating lawsuits upon referral under 41 CFR 60-1.26, the Attorney General may, subject to approval by the Director, initiate independent investigations of contractors which he/she has reason to believe may be in violation of the Order or the rules and regulations issued pursuant thereto. If, upon completion of such an investigation, the Attorney General determines that the contractor has in fact violated the Order or the rules and regulations issued thereunder, he shall make reasonable efforts to secure compliance with the contract provisions of the Order. He may do so by providing the contractor and any other respondent with reasonable notice of the Department's findings, its intent to file suit, and the actions that the Attorney General believes are necessary to obtain compliance with the contract provisions of the Order without contested litigation, and by offering the contractor and any other respondent a reasonable opportunity for conference and conciliation in an effort to obtain such compliance without contested litigation. If these efforts are unsuccessful, the Attorney General may, upon approval by the Director, bring a civil action in the appropriate district court of the United States requesting a temporary restraining order, preliminary or permanent injunction, and an order for such additional equitable relief, including back pay, deemed necessary or appropriate to ensure the full enjoyment of the rights secured by the Order or any of the above.

(g) To the extent applicable, this section and Part 60-30 of this chapter shall govern proceedings resulting from the Director's determination under § 60-2.2(b) that there are substantial issues of law or fact as to the contractor/bidder's responsibility.

§ 60-1.27 Sanctions and penalties.

The sanctions described in subsections (1), (5), and (6) of section 209(a) of the order may be exercised only by or with the approval of the Director. Referral of any matter arising under the order to the Department of Justice or to the Equal Employment Opportunity Commission shall be made by the Director.

§ 60-1.28 Show cause notices.

When the director has reasonable cause to believe that a contractor has violated the equal opportunity clause he may issue a notice requiring the contractor to show cause, within 30 days, why monitoring, enforcement proceedings or other appropriate action to ensure compliance should not be instituted.

§ 60-1.29 Preaward notices.

(a) *Preaward compliance reviews.* Upon the request of the Director, agencies shall not enter into contracts or approve the entry into contracts or subcontracts with any bidder, prospective prime contractor, or proposed subcontractor named by the Director until a preaward compliance review has been conducted and the Director or his designee has approved a determination that the bidder, prospective prime contractor or proposed subcontractor will be able to comply with the provisions of the equal opportunity clause.

(b) *Other special preaward procedures.* Upon the request of the Director, agencies shall not enter into contracts or approve the entry into subcontracts with any bidder; prospective prime contractor or proposed subcontractor specified by the Director until the agency has complied with the directions contained in the request.

§ 60-1.30 Contract ineligibility list.

The Director shall distribute periodically a list to all executive departments and agencies giving the names of prime contractors and subcontractors who have been declared ineligible under the regulations in this part and the order.

§ 60-1.31 Reinstatement of ineligible prime contractors and subcontractors.

Any prime contractor or subcontractor declared ineligible for further contracts or subcontracts under the order may request reinstatement in a letter directed to the Director. In connection with the reinstatement proceedings, the prime contractor or subcontractor shall be required to show that it has established and will carry out employment policies and practices in compliance with the equal opportunity clause.

§ 60-1.32 Intimidation and interference.

The sanctions and penalties contained in Subpart D of the order may be exercised by the Director against any prime contractor, subcontractor or applicant who fails to take all necessary steps to ensure that no person intimidates, threatens, coerces, or discriminates against any individual for the purpose of interfering with the filing of a complaint, furnishing information, or assisting or participating in any manner in an investigation, compliance review, hearing, or any other activity related to the administration of the order or any other Federal, State, or local laws requiring equal employment opportunity.

Subpart C—Ancillary Matters

§ 60-1.40 Affirmative action compliance programs.

(a) *Requirements of programs.* Each contractor who has 50 or more employees and (1) has a contract of $50,000 or more; or (2) has Government bills of lading which in any 12-month period, total or can reasonably be expected to total $50,000 or more;

or (3) serves as a depository of Government funds in any amount; or (4) is a financial institution which is an issuing and paying agent for U.S. savings bonds and savings notes in any

sible for the personnel matters of such establishment. An affirmative action compliance program shall be part of the manpower and training plans for each new establishment and shall be

Employers with 75 or more employees, by Labor Organizations with a hiring hall of 75 or more members, by Employment Agencies, and by Joint Labor-Management Committees for Apprenticeship or Training. After

obtained in this manner shall be used only in connection with the administration of the Order, the administration of the Civil Rights Act of 1964 (as

mittee on Equal Employment Opportunity which appear at 28 FR 9812, September 2, 1963, and at 28 FR 11305, October 23, 1963, the temporary

action compliance program for each of its establishments. A review of compliance surveys indicates that many contractors do not have affirmative action

0 C 2 0 7 8

or (3) serves as a depository of Government funds in any amount; or (4) is a financial institution which is an issuing and paying agent for U.S. savings bonds and savings notes in any amount, and each prime contractor and subcontractor shall require each subcontractor who has 50 or more employees and (i) has a subcontract of $50,000 or more; or (ii) has Government bills of lading which in any 12-month period, total or can reasonably be expected to total $50,000 or more; or (iii) serves as a depository of Government funds in any amount; or (iv) is a financial institution which is an issuing and paying agent for U.S. savings bonds and savings notes in any amount, to develop a written affirmative action compliance program for each of its establishments. A necessary prerequisite to the development of a satisfactory affirmative action program is the identification and analysis of problem areas inherent in minority employment and an evaluation of opportunities for utilization of minority group personnel. The contractor's program shall provide in detail for specific steps to guarantee equal employment opportunity keyed to the problems and needs of members of minority groups, including, when there are deficiencies, the development of specific goals and time tables for the prompt achievement of full and equal employment opportunity. Each contractor shall include in its affirmative action compliance program a table of job classifications. This table should include but need not be limited to job titles, principal duties (and auxiliary duties, if any), rates of pay, and where more than one rate of pay applied (because of length of time in the job or other factors), the applicable rates. The affirmative action compliance program shall be signed by an executive official of the contractor.

(b) *Utilization evaluation.* The evaluation of utilization of minority group personnel shall include the following:

(1) An analysis of minority group representation in all job categories.

(2) An analysis of hiring practices for the past year, including recruitment sources and testing, to determine whether equal employment opportunity is being afforded in all job categories.

(3) An analysis of upgrading, transfer and promotion for the past year to determine whether equal employment opportunity is being afforded.

(c) *Maintenance of programs.* Within 120 days from the commencement of the contract, each contractor shall maintain a copy of separate affirmative action compliance programs for each establishment, including evaluations of utilization of minority group personnel and the job classification tables, at each local office responsible for the personnel matters of such establishment. An affirmative action compliance program shall be part of the manpower and training plans for each new establishment and shall be developed and made available prior to the staffing of such establishment. A report of the results of such program shall be compiled annually and the program shall be updated at that time. This information shall be made available to representatives of the Director upon request and the contractor's affirmative action program and the result it produces shall be evaluated as part of compliance review activities.

§ 60-1.41 Solicitations or advertisements for employees.

In solicitations or advertisements for employees placed by or on behalf of a prime contractor or subcontractor, the requirements of paragraph (2) of the equal opportunity clause shall be satisfied whenever the prime contractor or subcontractor complies with any of the following:

(a) States expressly in the solicitations or advertising that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, or national origin;

(b) Uses display or other advertising, and the advertising includes an appropriate insignia prescribed by the Director. The use of the insignia is considered subject to the provisions of 18 U.S.C. 701;

(c) Uses a single advertisement, and the advertisement is grouped with other advertisements under a caption which clearly states that all employers in the group assure all qualified applicants equal consideration for employment without regard to race, color, religion, sex, or national origin;

(d) Uses a single advertisement in which appears in clearly distinguishable type the phrase "an equal opportunity employer."

§ 60-1.42 Notices to be posted.

(a) Unless alternative notices are prescribed by the Director, the notices which prime contractors and subcontractors are required to post by paragraphs (1) and (3) of the equal opportunity clause will contain the following language and will be provided by the contracting or administering agencies:

EQUAL EMPLOYMENT OPPORTUNITY IS THE LAW—DISCRIMINATION IS PROHIBITED BY THE CIVIL RIGHTS ACT OF 1964 AND BY EXECUTIVE ORDER NO. 11246

Title VII of the Civil Rights Act of 1964—*Administered by:*

THE EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

Prohibits discrimination because of Race, Color, Religion, Sex, or National Origin by Employers with 75 or more employees, by Labor Organizations with a hiring hall of 75 or more members, by Employment Agencies, and by Joint Labor-Management Committees for Apprenticeship or Training. After July 1, 1967, employers and labor organizations with 50 or more employees or members will be covered; after July 1, 1968, those with 25 or more will be covered.

ANY PERSON

Who believes he or she has been discriminated against

SHOULD CONTACT

THE EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

2401 E Street NW, Washington, D.C. 20506

Executive Order No. 11246—*Administered by:*

THE OFFICE OF FEDERAL CONTRACT COMPLIANCE PROGRAMS

Prohibits discrimination because of Race, Color, Religion, Sex, or National Origin, and requires affirmative action to ensure equality of opportunity in all aspects of employment.

By all Federal Government Contractors and Subcontractors, and by Contractors Performing Work Under a Federal Assisted Construction Contract, regardless of the number of employees in either case.

ANY PERSON

Who believes he or she has been discriminated against

SHOULD CONTACT

THE OFFICE OF FEDERAL CONTRACT COMPLIANCE PROGRAMS

U.S. Department of Labor Washington, D.C. 20210

(b) The requirements of paragraph (3) of the equal opportunity clause will be satisfied whenever the prime contractor or subcontractor posts copies of the notification prescribed by or pursuant to paragraph (a) of this section in conspicuous places available to employees, applicants for employment, and representatives of each labor union or other organization representing his employees with which he has a collective-bargaining agreement or other contract or understanding.

§ 60-1.43 Access to records and site of employment.

Each prime contractor and subcontractor shall permit access during normal business hours to its premises for the purpose of conducting on-site compliance reviews and inspecting and copying such books, records, accounts, and other material as may be relevant to the matter under investigation and pertinent to compliance with the Order, and the rules and regulations promulgated pursuant thereto by the agency, or the Director. Information

obtained in this manner shall be used only in connection with the administration of the Order, the administration of the Civil Rights Act of 1964 (as amended) and in furtherance of the purposes of the Order and that Act. (See 41 CFR Part 60-60, Contractor Evaluation Procedures for Nonconstruction Contractors; 41 CFR Part 60-40, Examination and Copying of OFCCP Documents.)

(Sec. 201, E.O. 11246, 30 FR 12319, and E.O. 11375, 32 FR 14303)

§ 60-1.44 Rulings and interpretations.

Rulings under or interpretations of the order or the regulations contained in this part shall be made by the Secretary or his designee.

§ 60-1.45 Existing contracts and subcontracts.

All contracts and subcontracts in effect prior to October 24, 1965, which are not subsequently modified shall be administered in accordance with the nondiscrimination provisions of any prior applicable Executive orders. Any contract or subcontract modified on or after October 24, 1965, shall be subject to Executive Order 11246. Complaints received by and violations coming to the attention of agencies regarding contracts and subcontracts which were subject to Executive Orders 10925 and 11114 shall be processed as if they were complaints regarding violations of this order.

§ 60-1.46 Delegation of authority by the Director.

The Director is authorized to redelegate the authority given to him by the regulations in this part. The authority redelegated by the Director pursuant to the regulations in this part shall be exercised under his general direction and control.

§ 60-1.47 Effective date.

The regulations contained in this part shall become effective July 1, 1968, for all contracts, the solicitations, invitations for bids, or requests for proposals which were sent by the Government or an applicant on or after said effective date, and for all negotiated contracts which have not been executed as of said effective date. Notwithstanding the foregoing, the regulations in this part shall become effective as to all contracts executed on and after the 120th day following said effective date. Subject to any prior approval of the Secretary, any agency may defer the effective date of the regulations in this part, for such period of time as the Secretary finds to be reasonably necessary. Contracts executed prior to the effective date of the regulations in this part shall be governed by the regulations promulgated by the former President's Committee on Equal Employment Opportunity which appear at 28 FR 9812, September 2, 1963, and at 28 FR 11305, October 23, 1963, the temporary regulations which appear at 30 FR 13441, October 22, 1965, and the orders at 31 FR 6881, May 10, 1966, and 32 FR 7439, May 19, 1967.

PART 60-2—AFFIRMATIVE ACTION PROGRAMS

Subpart A—General

Sec.
60-2.1 Title, purpose and scope.
60-2.2 Agency action.

Subpart B—Required Contents of Affirmative Action Programs

60-2.10 Purpose of affirmative action program.
60-2.11 Required utilization analysis.
60-2.12 Establishment of goals and timetables.
60-2.13 Additional required ingredients of affirmative action programs.
60-2.14 Compliance status.

Subpart C—Methods of Implementing the Requirements of Subpart B

60-2.20 Development or reaffirmation of the equal employment opportunity policy.
60-2.21 Dissemination of the policy.
60-2.22 Responsibility for implementation.
60-2.23 Identification of problem areas by organizational units and job groups.
60-2.24 Development and execution of programs.
60-2.25 Internal audit and reporting systems.
60-2.26 Support of action programs.

Subpart D—Miscellaneous

60-2.30 Use of goals.
60-2.31 Preemption.
60-2.32 Supersedure.

AUTHORITY: 5 U.S.C. 553(a)(3)(B); 29 CFR 2.7; section 201, E.O. 11246, 30 FR 12319, and E.O. 11375, 32 FR 14303, as amended by E.O. 12086.

Subpart A—General

§ 60-2.1 Title, purpose and scope.

(a) This part shall also be known as "Revised Order No. 4," and shall cover nonconstruction contractors. Section 60-1.40 of this chapter, affirmative action compliance programs, requires that within 120 days from the commencement of a contract each prime contractor or subcontractor with 50 or more employees and (1) a contract of $50,000 or more; or (2) Government bills of lading which, in any 12-month period, total or can reasonably be expected to total $50,000 or more; or (3) who serves as a depository of Government funds in any amount; or (4) who is a financial institution which is an issuing and paying agent for U.S. savings bonds and savings notes in any amount, develop a written affirmative action compliance program for each of its establishments. A review of compliance surveys indicates that many contractors do not have affirmative action programs on file at the time an establishment is visited by a compliance investigator. This part details the review procedure and the results of a contractor's failure to develop and maintain an affirmative action program and then sets forth detailed guidelines to be used by contractors and the Government in developing and judging these programs as well as the good faith effort required to transform the programs from paper commitments to equal employment opportunity. Subparts B and C of this part are concerned with affirmative action plans only.

(b) Relief, including back pay where appropriate, for members of an affected class who by virtue of past discrimination continue to suffer the present effects of that discrimination, shall be provided in the conciliation agreement entered into pursuant to § 60-60.6 of this title. An "affected class" problem must be remedied in order for a contractor to be considered in compliance. Section 60-2.2 herein pertaining to an acceptable affirmative action program is also applicable to the failure to remedy discrimination against members of an "affected class."

§ 60-2.2 Agency action.

(a) Any contractor required by § 60-1.40 of this chapter to develop an affirmative action program at each of his establishments who has not complied fully with that section is not in compliance with Executive Order 11246, as amended (30 FR 12319). Until such programs are developed and found to be acceptable in accordance with the standards and guidelines set forth in §§ 60-2.10 through 60-2.32, the contractor is unable to comply with the employment opportunity clause. An affirmative action plan shall be deemed to have been accepted by the Government at the time the appropriate OFCCP field, area, regional, or national office has accepted such plan unless within 45 days thereafter the Director has disapproved such plan.

(b) If, in determining such contractor's responsibility for an award of a contract it comes to the contracting officer's attention, through sources within his agency or through the Office of Federal Contract Compliance Programs or other Government agencies, that the contractor has no affirmative action program at each of his establishments, or has substantially deviated from such an approved affirmative action program, or has failed to develop or implement an affirmative action program which complies with the regulations in this chapter, the

V 43 / 204 OCT 78

contracting officer shall declare the contractor-bidder nonresponsible and so notify the contractor, the Director, and the compliance agency unless he can otherwise affirmatively determine that the contractor is able to comply with his equal employment obligations. Any contractor-bidder which has been declared nonresponsible in accordance with the provisions of this section may request the Director to determine that the responsibility of the contractor-bidder raises substantial issues of law or fact to the extent that a hearing is required. Such request shall set forth the basis upon which the contractor-bidder seeks such a determination. If the Director, in his/her sole discretion, determines that substantial issues of law or fact exist, an administrative or judicial proceeding may be commenced in accordance with the regulations contained in § 601.26; or the Director may require the investigation or compliance review be developed further or additional conciliation be conducted: *Provided*, That during any pre-award conferences, every effort shall be made through the processes of conciliation, mediation, and persuasion to develop an acceptable affirmative action program meeting the standards and guidelines set forth in §§ 60-2.10 through 60-2.32 so that, in the performance of his contract, the contractor is able to meet his equal employment obligations in accordance with the equal opportunity clause and applicable rules, regulations, and orders.

(c)(1) Immediately upon finding that a contractor has no affirmative action program, or has deviated substantially from an approved affirmative action program, or has failed to develop or implement an affirmative action program which complies with the requirements of the regulations in this chapter, that fact shall be recorded in the investigation file. Whenever administrative enforcement is contemplated, the notice to the contractor shall be issued giving him 30 days to show cause why enforcement proceedings under section 209(a) of Executive Order 11246, as amended, should not be instituted. The notice to show cause should contain:

(i) An itemization of the sections of the Executive order and of the regulations with which the contractor has been found in apparent violation, and a summary of the conditions, practices, facts, or circumstances which give rise to each apparent violation;

(ii) The corrective actions necessary to achieve compliance or, as may be appropriate, the concepts and principles of an acceptable remedy and/or the corrective action results anticipated;

(iii) A request for a written response to the findings, including commitments to corrective action or the presentation of opposing facts and evidence; and

(iv) A suggested dated for the conciliation conference.

(2) If the contractor fails to show good cause for his failure or fails to remedy that failure by developing and implementing an acceptable affirmative action program within 30 days, the case file shall be processed for enforcement proceedings pursuant to § 60-1.26 of this chapter. If an administrative complaint is filed, the contractor shall have 20 days to request a hearing. If a request for hearing has not been received within 20 days from the filing of the administrative complaint, the matter shall proceed in accordance with Part 60-30 of this chapter.

(3) During the "show cause" period of 30 days, every effort will be made through conciliation, mediation, and persuasion to resolve the deficiencies which led to the determination of nonresponsibility. If satisfactory adjustments designed to bring the contractor into compliance are not concluded, the case shall be processed for enforcement proceedings pursuant to § 60-1.26 of this chapter.

(d) During the "show cause" period and formal proceedings, each contracting agency must continue to determine the contractor's responsibility in considering whether or not to award a new or additional contract.

Subpart B—Required Contents of Affirmative Action Programs

§ 60-2.10 Purpose of affirmative action program.

An affirmative action program is a set of specific and result-oriented procedures to which a contractor commits himself to apply every good faith effort. The objective of those procedures plus such efforts is equal employment opportunity. Procedures without effort to make them work are meaningless; and effort, undirected by specific and meaningful procedures, is inadequate. An acceptable affirmative action program must include an analysis of areas within which the contractor is deficient in the utilization of minority groups and women, and further, goals and timetables to which the contractor's good faith efforts must be directed to correct the deficiencies and, thus to achieve prompt and full utilization of minorities and women, at all levels and in all segments of his work force where deficiencies exist.

§ 60-2.11 Required utilization analysis.

Based upon the Government's experience with compliance reviews under the Executive order programs and the contractor reporting system, minority groups are most likely to be underutilized in departments and jobs within departments that fall within the following Employer's Information Report (EEO-1) designations; officials and managers, professionals, technicians, sales workers, office and clerical and craftsmen (skilled). As categorized by the EEO-1 designations, women are likely to be underutilized in departments and jobs within departments as follows: Officials and managers, professionals, technicians, sales workers (except over-the-counter sales in certain retail establishments), craftsmen (skilled and semi-skilled). Therefore, the contractor shall direct special attention to such jobs in his analysis and goal setting for minorities and women. Affirmative action programs must contain the following information:

(a) Workforce analysis which is defined as a listing of each job title as appears in applicable collective bargaining agreements or payroll records (not job group) ranked from the lowest paid to the highest paid within each department or other similar organizational unit including departmental or unit supervision. If there are separate work units or lines of progression within a department a separate list must be provided for each such work unit, or line, including unit supervisors. For lines of progression there must be indicated the order of jobs in the line through which an employee could move to the top of the line. Where there are no formal progression lines or usual promotional sequences, job titles should be listed by department, job families, or disciplines, in order of wage rates or salary ranges. For each job title, the total number of incumbents, the total number of male and female incumbents, and the total number of male and female incumbents in each of the following groups must be given: Blacks, Spanish-surnamed Americans, American Indians, and Orientals. The wage rate or salary range for each job title must be given. All job titles, including all managerial job titles, must be listed.

(b) An analysis of all major job groups at the facility, with explanation if minorities or women are currently being underutilized in any one or more job groups ("job groups" herein meaning one or a group of jobs having similar content, wage rates and opportunities). "Underutilization" is defined as having fewer minorities or women in a particular job group than would reasonably be expected by their availability. In making the utilization analysis, the contractor shall conduct such analysis separately for minorities and women.

(1) In determining whether minorities are being underutilized in any job group, the contractor will consider at least all of the following factors:

(i) The minority population of the labor area surrounding the facility;

(ii) The size of the minority unemployment force in the labor area surrounding the facility;

(iii) The percentage of the minority work force as compared with the total work force in the immediate labor area;

(iv) The general availability of minorities having requisite skills in the immediate labor area;

(v) The availability of minorities having requisite skills in an area in which the contractor can reasonably recruit;

(vi) The availability of promotable and transferable minorities within the contractor's organization;

(vii) The existence of training institutions capable of training persons in the requisite skills; and

(viii) The degree of training which the contractor is reasonably able to undertake as a means of making all job classes available to minorities.

(2) In determining whether women are being underutilized in any job group, the contractor will consider at least all of the following factors:

(i) The size of the female unemployment force in the labor area surrounding the facility;

(ii) The percentage of the female workforce as compared with the total workforce in the immediate labor area;

(iii) The general availability of women having requisite skills in the immediate labor area;

(iv) The availability of women having requisite skills in an area in which the contractor can reasonably recruit;

(v) The availability of women seeking employment in the labor or recruitment area of the contractor;

(vi) The availability of promotable and transferable female employees within the contractor's organization;

(vii) The existence of training institutions capable of training persons in the requisite skills; and

(viii) The degree of training which the contractor is reasonably able to undertake as a means of making all job classes available to women.

§ 60-2.12 Establishment of goals and timetables.

(a) The goals and timetables developed by the contractor should be attainable in terms of the contractor's analysis of his deficiencies and his entire affirmative action program. Thus, in establishing the size of his goals and the length of his timetables, the contractor should consider the results which could reasonably be expected from his putting forth every good faith effort to make his overall affirmative action program work. In determining levels of goals, the contractor should consider at least the factors listed in § 60-2.11.

(b) Involve personnel relations staff, department and division heads, and local and unit managers in the goal-setting process.

(c) Goals should be significant, measurable, and attainable.

(d) Goals should be specific for planned results, with timetables for completion.

(e) Goals may not be rigid and inflexible quotas which must be met, but must be targets reasonably attainable by means of applying every good faith effort to make all aspects of the entire affirmative action program work.

(f) In establishing timetables to meet goals and commitments, the contractor will consider the anticipated expansion, contraction, and turnover of and in the work force.

(g) Goals, timetables, and affirmative action commitments must be designed to correct any identifiable deficiencies.

(h) Where deficiencies exist and where numbers or percentages are relevant in developing corrective action, the contractor shall establish and set forth specific goals and timetables separately for minorities and women.

(i) Such goals and timetables, with supporting data and the analysis thereof shall be a part of the contractor's written affirmative action program and shall be maintained at each establishment of the contractor.

(j) A contractor or subcontractor extending a publicly announced preference for Indians as authorized in 41 CFR 60-1.5(a)(6) may reflect in its goals and timetables the permissive employment preference for Indians living on or near an Indian reservation.

(k) Where the contractor has not established a goal, his written affirmative action program must specifically analyze each of the factors listed in § 60-2.11 and must detail his reason for a lack of a goal.

(l) In the event it comes to the attention of the compliance agency or the Office of Federal Contract Compliance Programs that there is a substantial disparity in the utilization of a particular minority group or men or women of a particular minority group, OFCCP may require separate goals and timetables for such minority group and may further require, where appropriate, such goals and timetables by sex for such job classifications and organizational units specified by the OFCCP.

(m) Support data for the required analysis and program shall be compiled and maintained as part of the contractor's affirmative action program. This data will include but not be limited to progression line charts, seniority rosters, applicant flow data, and applicant rejection ratios indicating minority and sex status.

(n) Copies of affirmative action programs and/or copies of support data shall be made available to the Office of Federal Contract Compliance Programs, request, for such purposes as may be appropriate to the fulfillment of its responsibilities under Executive Order 11246, as amended.

§ 60-2.13 Additional required ingredients of affirmative action programs.

Effective affirmative action programs shall contain, but not necessarily be limited to, the following ingredients:

(a) Development or reaffirmation of the contractor's equal employment opportunity policy in all personnel actions.

(b) Formal internal and external dissemination of the contractor's policy.

(c) Establishment of responsibilities for implementation of the contractor's affirmative action program.

(d) Identification of problem areas (deficiencies) by organizational units and job group.

(e) Establishment of goals and objectives by organizational units and job groups, including timetables for completion.

(f) Development and execution of action-oriented programs designed to eliminate problems and further designed to attain established goals and objectives.

(g) Design and implementation of internal audit and reporting systems to measure effectiveness of the total program.

(h) Compliance of personnel policies and practices with the Sex Discrimination Guidelines (41 CFR Part 60-20).

(i) Active support of local and national community action programs and community service programs, designed to improve the employment opportunities of minorities and women.

(j) Consideration of minorities and women not currently in the work force having requisite skills who can be recruited through affirmative action measures.

§ 60-2.14 Compliance status.

No contractor's compliance status shall be judged alone by whether or not he reaches his goals and meets his timetables. Rather, each contractor's compliance posture shall be reviewed and determined by reviewing the contents of his program, the extent of his adherence to this program, and his good faith efforts to make his program work toward the realization of the program's goals within the timetables set for completion. There follows an outline of examples of procedures that contractors and Federal agencies should use as a guideline for establish-

ing, implementing, and judging an acceptable affirmative action program.

Subpart C—Methods of Implementing the Requirements of Subpart B

ing, implementing, and judging an acceptable affirmative action program.

Subpart C—Methods of Implementing the Requirements of Subpart B

§ 60-2.20 Development or reaffirmation of the equal employment opportunity policy.

(a) The contractor's policy statement should indicate the chief executive officers' attitude on the subject matter, assign overall responsibility and provide for a reporting and monitoring procedure. Specific items to be mentioned should include, but not be limited to:

(1) Recruit, hire, train, and promote persons in all job titles, without regard to race, color, religion, sex, or national origin, except where sex is a bona fide occupational qualification. (The term "bona fide occupational qualification" has been construed very narrowly under the Civil Rights Act of 1964. Under Executive Order 11246 as amended and this part, this term will be construed in the same manner.)

(2) Base decisions on employment so as to further the principle of equal employment opportunity.

(3) Insure that promotion decisions are in accord with principles of equal employment opportunity by imposing only valid requirements for promotional opportunities.

(4) Insure that all personnel actions such as compensation, benefits, transfers, layoffs, return from layoff, company sponsored training, education, tuition assistance, social and recreation programs, will be administered without regard to race, color, religion, sex, or national origin.

§ 60-2.21 Dissemination of the policy.

(a) The contractor should disseminate his policy internally as follows:

(1) Include it in contractor's policy manual.

(2) Publicize it in company newspaper, magazine, annual report, and other media.

(3) Conduct special meetings with executive, management, and supervisory personnel to explain intent of policy and individual responsibility for effective implementation, making clear the chief executive officer's attitude.

(4) Schedule special meetings with all other employees to discuss policy and explain individual employee responsibilities.

(5) Discuss the policy thoroughly in both employee orientation and management training programs.

(6) Meet with union officials to inform them of policy, and request their cooperation.

(7) Include nondiscrimination clauses in all union agreements, and review all contractual provisions to insure they are nondiscriminatory.

(8) Publish articles covering EEO programs, progress reports, promotions, etc., of minority and female employees, in company publications.

(9) Post the policy on company bulletin boards.

(10) When employees are featured in product or consumer advertising, employee handbooks or similar publications both minority and nonminority, men and women should be pictured.

(11) Communicate to employees the existence of the contractors affirmative action program and make available such elements of his program as will enable such employees to know of and avail themselves of its benefits.

(b) The contractor should disseminate his policy externally as follows:

(1) Inform all recruiting sources verbally and in writing of company policy, stipulating that these sources actively recruit and refer minorities and women for all positions listed.

(2) Incorporate the equal opportunity clause in all purchase orders, leases, contracts, etc., covered by Executive Order 11246, as amended, and its implementing regulations.

(3) Notify minority and women's organizations, community agencies, community leaders, secondary schools, and colleges, of company policy, preferably in writing.

(4) Communicate to prospective employees the existence of the contractor's affirmative action program and make available such elements of his program as will enable such prospective employees to know of and avail themselves of its benefits.

(5) When employees are pictured in consumer or help wanted advertising, both minorities and nonminority men and women should be shown.

(6) Send written notification of company policy to all subcontractors, vendors, and suppliers requesting appropriate action on their part.

§ 60-2.22 Responsibility for implementation.

(a) An executive of the contractor should be appointed as director or manager of company equal opportunity programs. Depending upon the size and geographical alinement of the company, this may be his or her sole responsibility. He or she should be given the necessary top management support and staffing to executive the assignment. His or her identity should appear on all internal and external communications on the company's equal opportunity programs. His or her responsibilities should include, but not necessarily be limited to:

(1) Developing policy statements, affirmative action programs, internal and external communication techniques.

(2) Assisting in the identification of problem areas.

(3) Assisting line management in arriving at solutions to problems.

(4) Designing and implementing audit and reporting systems that will:

(i) Measure effectiveness of the contractor's programs.

(ii) Indicate need for remedial action.

(iii) Determine the degree to which the contractor's goals and objectives have been attained.

(5) Serve as liaison between the contractor and enforcement agencies.

(6) Serve as liaison between the contractor and minority organizations, women's organizations and community action groups concerned with employment opportunities of minorities and women.

(7) Keep management informed of latest developments in the entire equal opportunity area.

(b) Line responsibilities should include, but not be limited to the following:

(1) Assistance in the identification of problem areas and establishment of local and unit goals and objectives.

(2) Active involvement with local minority organizations, women's organizations, community action groups and community service programs.

(3) Periodic audit of training programs, hiring and promotion patterns to remove impediments to the attainment of goals and objectives.

(4) Regular discussions with local managers, supervisors, and employees to be certain the contractor's policies are being followed.

(5) Review of the qualifications of all employees to insure that minorities and women are given full opportunities for transfers and promotions.

(6) Career counseling for all employees.

(7) Periodic audit to insure that each location is in compliance in area such as:

(i) Posters are properly displayed.

(ii) All facilities, including company housing, which the contractor maintains for the use and benefit of his employees, are in fact desegregated, both in policy and use. If the contractor provides facilities such as dormitories, locker rooms and rest rooms, they must be comparable for both sexes.

(iii) Minority and female employees are afforded a full opportunity and are encouraged to participate in all company sponsored educational, training, recreational, and social activities.

(8) Supervisors should be made to understand that their work performance is being evaluated on the basis of their equal employment opportunity efforts and results, as well as other criteria.

(9) It shall be a responsibility of supervisors to take actions to prevent

harassment of employees placed through affirmative action efforts.

§ 60-2.23 Identification of problem areas by organizational units and job groups.

(a) An in-depth analysis of the following should be made, paying particular attention to trainees and those categories listed in § 60-2.11(b).

(1) Composition of the work force by minority group status and sex.

(2) Composition of applicant flow by minority group status and sex.

(3) The total selection process including position descriptions, position titles, worker specifications, application forms, interview procedures, test administration, test validity, referral procedures, final selection process, and similar factors.

(4) Transfer and promotion practices.

(5) Facilities, company sponsored recreation and social events, and special programs such as educational assistance.

(6) Seniority practices and seniority provisions of union contracts.

(7) Apprenticeship programs.

(8) All company training programs, formal and informal.

(9) Work force attitude.

(10) Technical phases of compliance, such as poster and notification to labor unions, retention of applications, notification to subcontractors, etc.

(b) If any of the following items are found in the analysis, special corrective action should be appropriate.

(1) An "underutilization" of minorities or women in specific job groups.

(2) Lateral and/or vertical movement of minority or female employees occurring at a lesser rate (compared to work force mix) than that of nonminority or male employees.

(3) The selection process eliminates a significantly higher percentage of minorities or women than nonminorities or men.

(4) Application and related preemployment forms not in compliance with Federal legislation.

(5) Position descriptions inaccurate in relation to actual functions and duties.

(6) Formal or scored selection procedures not validated as required by the OFCCP Uniform Guidelines on Employee Selection Procedures.

(7) Test forms not validated by location, work performance and inclusion of minorities and women in sample.

(8) Referral ratio of minorities or women to the hiring supervisor or manager indicates a significantly higher percentage are being rejected as compared to nonminority and male applicants.

(9) Minorities or women are excluded from or are not participating in company sponsored activities or programs.

(10) De facto segregation still exists at some facilities.

(11) Seniority provisions contribute to overt or inadvertent discrimination, i.e., a disparity by minority group status or sex exists between length of service and types of job held.

(12) Nonsupport of company policy by managers, supervisors or employees.

(13) Minorities or women underutilized or significantly underrepresented in training or career improvement programs.

(14) No formal techniques established for evaluating effectiveness of EEO programs.

(15) Lack of access to suitable housing inhibits recruitment efforts and employment of qualified minorities.

(16) Lack of suitable transportation (public or private) to the work place inhibits minority employment.

(17) Labor unions and subcontractors not notified of their responsibilities.

(18) Purchase orders do not contain EEO clause.

(19) Posters not on display.

§ 60-2.24 Development and execution of programs.

(a) The contractor should conduct detailed analyses of position descriptions to insure that they accurately reflect position functions, and are consistent for the same position from one location to another.

(b) The contractor should validate worker specifications by division, department, location or other organizational unit and by job title using job performance criteria. Special attention should be given to academic, experience and skill requirements to insure that the requirements in themselves do not constitute inadvertent discrimination. Specifications should be consistent for the same job title in all locations and should be free from bias as regards to race, color, religion, sex or national origin, except were sex is a bona fide occupational qualification. Where requirements screen out a disproportionate number of minorities or women, such requirements should be professionally validated to job performance.

(c) Approved position descriptions and worker specifications, when used by the contractor, should be made available to all members of management involved in the recruiting, screening, selection, and promotion process. Copies should also be distributed to all recruiting sources.

(d) The contractor should evaluate the total selection process to insure freedom from bias and, thus, aid the attainment of goals and objectives.

(1) All personnel involved in the recruiting, screening, selection, promotion, disciplinary, and related processes should be carefully selected and trained to insure elimination of bias in all personnel actions.

(2) The contractor shall observe the requirements of the OFCCP Uniform Guidelines on Employee Selection Procedures.

(3) Selection techniques other than tests may also be improperly used so as to have the effect of discriminating against minority groups and women. Such techniques include but are not restricted to, unscored interviews, unscored or casual application forms, arrest records, credit checks, considerations of marital status or dependency or minor children. Where there exist data suggesting that such unfair discrimination or exclusion of minorities or women exists, the contractor should analyze his unscored procedures and eliminate them if they are not objectively valid.

(e) Suggested techniques to improve recruitment and increase the flow of minority or female applicants follow:

(1) Certain organizations such as the Urban League, Job Corps, Equal Opportunity Programs, Inc., Concentrated Employment programs, Neighborhood Youth Corps, Secondary Schools, Colleges, and City Colleges with high minority enrollment, the State Employment Service, specialized employment agencies, Aspira, LULAC, SER, the G.I. Forum, the Commonwealth of Puerto Rico are normally prepared to refer minority applicants. Organizations prepared to refer women with specific skills are: National Organization for Women, Welfare Rights organizations, Women's Equity Action League, Talent Bank from Business and Professional Women (including 26 women's organizations), Professional Women's Caucus, Intercollegiate Association of University Women, Negro Women's sororities and service groups such as Delta Sigma Theta, Alpha Kappa Alpha, and Zeta Phi Beta; National Council of Negro Women, American Association of University Women, YWCA, and sectarian groups such as Jewish Women's Groups, Catholic Women's Groups and Protestant Women's Groups, and women's colleges. In addition, community leaders as individuas shall be added to recruiting sources.

(2) Formal briefing sessions should be held, preferably on company premises, with representatives from these recruiting sources. Plant tours, presentations by minority and female employees, clear and concise explanations of current and future job openings, position descriptions, worker specifications, explanations of the company's selection process, and recruiting literature should be an integral part of the briefings. Formal arrangements should be made for referral of appli-

cants, followup with sources, and feedback on disposition of applicants.

(3) Minority and female employees, using procedures similar to subparagraph (2) of this paragraph, should be

formance related criteria. (Neither minority nor female employees should be required to possess higher qualifications than those of the lowest qualified incumbent.)

employees in local and minority news media.

(f) The contractor should support programs developed by such organizations as National Alliance of Business-

truction including those construction employees who work on a non-Federal or nonfederally assisted construction site. This part also established procedures which all Federal contracting of-

struction contracts or subcontracts in excess of $10,000 to be performed in geographical areas designed by the Director pursuant to § 60-4.6 of this part (see 41 CFR 60-4.2(a)):

chapter is required to be included in, and is part of, all nonexempt Federal contracts and subcontracts, including construction contracts and subcon-

V 43/204 OCT 20 78

cants, followup with sources, and feedback on disposition of applicants.

(3) Minority and female employees, using procedures similar to subparagraph (2) of this paragraph, should be actively encouraged to refer applicants.

(4) A special effort should be made to include minorities and women on the Personnel Relations staff.

(5) Minority and female employees should be made available for participation in Career Days, Youth Motivation Programs, and related activities in their communities.

(6) Active participation in "Job Fairs" is desirable. Company representative so participating should be given authority to make on-the-spot commitments.

(7) Active recruiting programs should be carried out at secondary schools, junior colleges, and colleges with predominant minority or female enrollments.

(8) Recruiting efforts at all schools should incorporate special efforts to reach minorities and women.

(9) Special employment programs should be undertaken whenever possible. Some possible programs are:

(i) Technical and nontechnical co-op programs with predominately Negro and women's colleges.

(ii) "After school" and/or work-study jobs for minority youths, male and females.

(iii) Summer jobs for underprivileged youth, male and female.

(iv) Summer work-study programs for male and female faculty members of the predominantly minority schools and colleges.

(v) Motivation, training and employment programs for the hardcore unemployed, male and female.

(10) When recruiting brochures pictorially present work situations, the minority and female members of the work force should be included, especially when such brochures are used in school and career programs.

(11) Help wanted advertising should be expanded to include the minority news media and women's interest media on a regular basis.

(f) The contractor should insure that minority and female employees are given equal opportunity for promotion. Suggestions for achieving this result include:

(1) Post or otherwise announce promotional opportunities.

(2) Make an inventory of current minority and female employees to determine academic, skill and experience level of individual employees.

(3) Initiate necessary remedial, job training and workstudy programs.

(4) Develop and implement formal employee evaluation programs.

(5) Make certain "worker specifications" have been validated on job performance related criteria. (Neither minority nor female employees should be required to possess higher qualifications than those of the lowest qualified incumbent.)

(6) When apparently qualified minority or female employees are passed over for upgrading, require supervisory personnel to submit written justification.

(7) Establish formal career counseling programs to include attitude development, education aid, job rotation, buddy system and similar programs.

(8) Review seniority practices and seniority clauses in union contracts to insure such practices or clauses are nondiscriminatory and do not have a discriminatory effect.

(g) Make certain facilities and company-sponsored social and recreation activities are desegregated. Actively encourage all employees to participate.

(h) Encourage child care, housing and transportation programs appropriately designed to improve the employment opportunities for minorities and women.

§ 60-2.25 Internal audit and reporting systems.

(a) The contractor should monitor records of referrals, placements, transfers, promotions and terminations at all levels to insure nondiscriminatory policy is carried out.

(b) The contractor should require formal reports from unit managers on a schedule basis as to degree to which corporate or unit goals are attained and timetables met.

(c) The contractor should review report results with all levels of management.

(d) The contractor should advise top management of program effectiveness and submit recommendations to improve unsatisfactory performance.

§ 60-2.26 Support of action programs.

(a) The contractor should appoint key members of management to serve on merit employment councils, community relations boards and similar organizations.

(b) The contractor should encourage minority and female employees to participate actively in National Alliance of Businessmen programs for youth motivation.

(c) The contractor should support vocational guidance institutes, vestibule training programs and similar activities.

(d) The contractor should assist secondary schools and colleges in programs designed to enable minority and female graduates of these institutions to compete in the open employment market on a more equitable basis.

(e) The contractor should publicize achievements of minority and female employees in local and minority news media.

(f) The contractor should support programs developed by such organizations as National Alliance of Businessmen, the Urban Coalition and other organizations concerned with employment opportunities for minority or women.

Subpart D—Miscellaneous

§ 60-2.30 Use of goals.

The purpose of a contractor's establishment and use of goals is to insure that he meet his affirmative action obligation. It is not intended and should not be used to discriminate against any applicant or employee because of race, color, religion, sex, or national origin.

§ 60-2.31 Preemption.

To the extent that any State or local laws, regulations or ordinances, including those which grant special benefits to persons on account of sex, are in conflict with Executive Order 11246, as amended, or with the requirements of this part, we will regard them as preempted under the Executive order.

§ 60-2.32 Supersedure.

All orders, instructions, regulations, and memoranda of the Secretary of Labor, other officials of the Department of Labor and contracting agencies are hereby superseded to the extent that they are inconsistent herewith, including a previous "Order No. 4" from this office dated January 30, 1970. Nothing in this part is intended to amend 41 CFR Part 60-3 or 41 CFR 60-20.

PART 60-4—CONSTRUCTION CONTRACTORS—AFFIRMATIVE ACTION REQUIREMENTS

Sec.

60-4.1 Scope and application.
60-4.2 Solicitations.
60-4.3 Equal opportunity clauses.
60-4.4 Affirmative action requirements.
60-4.5 Hometown plans
60-4.6 Goals and timetables.
60-4.7 Effect on other regulations.
60-4.8 Show-cause notice.
60-4.9 Incorporation by operation of the Order.

AUTHORITY: Secs. 201, 202, 205, 211, 301, 302, and 303 of E.O. 11246, as amended, 30 FR 12319; 32 FR 14303, as amended by E.O. 12086.

§ 60-4.1 Scope and application.

This part applies to all contractors and subcontractors which hold any Federal or federally assisted construction contract in excess of $10,000. The regulations in this part are applicable to all of a construction contractor's or subcontractor's construction employees who are engaged in on site construction including those construction employees who work on a non-Federal or nonfederally assisted construction site. This part also established procedures which all Federal contracting officers and all applicants, as applicable, shall follow in soliciting for and awarding Federal or federally assisted construction contracts. Procedures also are established which administering agencies shall follow in making any grant, contract, loan, insurance, or guarantee involving federally assisted construction which is not exempt from the requirements of Executive Order 11246, as amended.

In addition, this part applies to construction work performed by construction contractors and subcontractors for Federal nonconstruction contractors and subcontractors if the construction work is necessary in whole or in part to the performance of a nonconstruction contract or subcontract.

§ 60-4.2 Solicitations.

(a) All Federal contracting officers and all applicants shall include the notice set forth in paragraph (d) of this section and the Standard Federal Equal Employment Opportunity Construction Contract Specifications set forth in § 60-4.3 of this part in all solicitations for offers and bids on all Federal and federally assisted construction contracts or subcontracts to be performed in geographical areas designated by the Director pursuant to § 60-4.6 of the part. Administering agencies shall require the inclusion of the notice set forth in paragraph (d) of this section and the specifications set forth in § 60-4.3 of this part as a condition of any grant, contract, subcontract, loan insurance or guarantee involving federally assisted construction covered by this part 60-4.

(b) All nonconstruction contractors covered by Executive Order 11246 and the implementing regulations shall include the notice in paragraph (d) of this section in all construction agreements which are necessary in whole or in part to the performance of the covered nonconstruction contract.

(c) Contracting officers, applicants and nonconstruction contractors shall given written notice to the Director within 10 working days of award of a contract subject to these provisions. The notification shall include the name, address and telephone number of the contractor; employer identification number; dollar amount of the contract, estimated starting and completion dates of the contract; the contract number; and geographical area in which the contract is to be performed.

(d) The following notice shall be included in, and shall be a part of, all solicitations for offers and bids on all Federal and federally assisted construction contracts or subcontracts in excess of $10,000 to be performed in geographical areas designed by the Director pursuant to § 60-4.6 of this part (see 41 CFR 60-4.2(a)):

NOTICE OF REQUIREMENT FOR AFFIRMATIVE ACTION TO ENSURE EQUAL EMPLOYMENT OPPORTUNITY (EXECUTIVE ORDER 11246)

1. The Offeror's or Bidder's attention is called to the "Equal Opportunity Clause" and the "Standard Federal Equal Employment Opportunity Construction Contract Specifications" set forth herein.

2. The goals and timetables for minority and female participation, expressed in percentage terms for the Contractor's aggegate workforce in each trade on all construction work in the covered area, are as follows:

Timetables	Goals for minority participation for each trade	Goals for female participation in each trade
	Insert goals for each year.	Insert goals for each year.

These goals are applicable to all the Contractor's construction work (whether or not it is Federal or federally assisted) performed in the covered area.

The Contractor's compliance with the Executive Order and the regulations in 41 CFR Part 60-4 shall be based on its implementation of the Equal Opportunity Clause, specific affirmative action obligations required by the specifications set forth in 41 CFR 60-4.3(a), and its efforts to meet the goals established for the geographical area where the contract resulting from this solicitation is to be performed. The hours of minority and female employment and training must be substantially uniform throughout the length of the contract, and in each trade, and the contractor shall make a good faith effort to employ minorities and women evenly on each of its projects. The transfer of minority or female employees or trainees from Contractor to Contractor or from project to project for the sole purpose of meeting the Contractor's goals shall be a violation of the contract, the Executive Order and the regulations in 41 CFR Part 60-4. Compliance with the goals will be measured against the total work hours performed.

3. The Contractor shall provide written notification to the Director of the Office of Federal Contract Compliance Programs within 10 working days of award of any construction subcontract in excess of $10,000 at any tier for construction work under the contract resulting from this solicitation. The notification shall list the name, address and telephone number of the subcontractor; employer identification number; estimated dollar amount of the subcontract; estimated starting and completion dates of the subcontract; and the geographical area in which the contract is to be performed.

4. As used in this Notice, and in the contract resulting from this solicitation, the "covered area" is (insert description of the geographical areas where the contract is to be performed giving the state, county and city, if any).

§ 60-4.3 Equal opportunity clauses.

(a) The equal opportunity clause published at 41 CFR 60-1.4(a) of this chapter is required to be included in, and is part of, all nonexempt Federal contracts and subcontracts, including construction contracts and subcontracts. The equal opportunity clause published at 41 CFR 60-1.4(b) is required to be included in, and is a part of, all nonexempt federally assisted construction contracts and subcontracts. In addition to the clauses described above, all Federal contracting officers, all applicants and all nonconstruction contractors, as applicable, shall include the specifications set forth in this section in all Federal and federally assisted construction contracts in excess of $10,000 to be performed in geographical areas designated by the Director pursuant to § 60-4.6 of this part and in construction subcontracts in excess of $10,000 necessary in whole or in part to the performance of nonconstruction Federal contracts and subcontracts covered under the Executive order.

STANDARD FEDERAL EQUAL EMPLOYMENT OPPORTUNITY CONSTRUCTION CONTRACT SPECIFICATIONS (EXECUTIVE ORDER 11246)

1. As used in these specifications:

a. "Covered area" means the geographical area described in the solicitation from which this contract resulted;

b. "Director" means Director, Office of Federal Contract Compliance Programs, United States Department of Labor, or any person to whom the Director delegates authority;

c. "Employer identification number" means the Federal Social Security number used on the Employer's Quarterly Federal Tax Return, U.S. Treasury Department Form 941.

d. "Minority" includes:

(i) Black (all persons having origins in any of the Black African racial groups not of Hispanic origin);

(ii) Hispanic (all persons of Mexican, Puerto Rican, Cuban, Central or South American or other Spanish Culture or origin, regardless of race);

(iii) Asian and Pacific Islander (all persons having origins in any of the original peoples of the Far East, Southeast Asia, the Indian Subcontinent, or the Pacific Islands); and

(iv) American Indian or Alaskan Native (all persons having origins in any of the original peoples of North America and maintaining identifiable tribal affiliations through membership and participation or community identification).

2. Whenever the Contractor, or any Subcontractor at any tier, subcontracts a portion of the work involving any construction trade, it shall physically include in each subcontract in excess of $10,000 the provisions of these specifications and the Notice which contains the applicable goals for minority and female participation and which is set forth in the solicitations from which this contract resulted.

3. If the Contractor is participating (pursuant to 41 CFR 60-4.5) in a Hometown Plan approved by the U.S. Department of Labor in the covered are either individually or through an association, its affirmative action obligations on all work in the Plan area (including goals and timetables) shall be in accordance with that Plan for those

V 4 3 / 2 0 4
0 C 2 0 7 8

trades which have unions participating in the Plan. Contractors must be able to demonstrate their participation in and compliance with the provisions of any such Hometown Plan. Each Contractor or Subcontractor participating in an approved Plan is individually required to comply with its obligations under the EEO clause, and to make a good faith effort to achieve each goal under the Plan in each trade in which it has employees. The overall good faith performance by other Contractors or Subcontractors toward a goal in an approved Plan does not excuse any covered Contractor's or Subcontractor's failure to take good faith efforts to achieve the Plan goals and timetables.

4. The Contractor shall implement the specific affirmative action standards provided in paragraphs 7a through p of these specifications. The goals set forth in the solicitation from which this contract resulted are expressed as percentages of the total hours of employment and training of minority and female utilization the Contractor should reasonably be able to achieve in each contruction trade in which it has employees in the covered area. The Contractor is expected to make substantially uniform progress toward its goals in each craft during the period specified.

5. Neither the provisions of any collective bargaining agreement, nor the failure by a union with whom the Contractor has a collective bargaining agreement, to refer either minorities or women shall excuse the Contractor's obligations under these specifications, Executive Order 11246, or the regulations promulgated pursuant thereto.

6. In order for the nonworking training hours of apprentices and trainees to be counted in meeting the goals, such apprentices and trainees must be employed by the Contractor during the training period, and the Contractor must have made a commitment to employ the apprentices and trainees at the completion of their training, subject to the availability of employment opportunities. Trainees must be trained pursuant to training programs approved by the U.S. Department of Labor.

7. The Contractor shall take specific affirmative actions to ensure equal employment opportunity. The evaluation of the Contractor's compliance with these specifications shall be based upon its effort to achieve maximum results from its actions. The Contractor shall document these efforts fully, and shall implement affirmative action steps at least as extensive as the following:

a. Ensure and maintain a working environment free of harassment, intimidation, and coercion at all sites, and in all facilities at which the Contractor's employees are assigned to work. The Contractor, where possible, will assign two or more women to each construction project. The Contractor shall specifically ensure that all foremen, superintendents, and other on-site supervisory personnel are aware of and carry out the Contractor's obligation to maintain such a working environment, with specific attention to minority or female individuals working at such sites or in such facilities.

b. Establish and maintain a current list of minority and female recruitment sources, provide written notification to minority and female recruitment sources and to community organizations when the Contractor or its unions have employment opportunities available, and maintain a record of the organizations' responses.

c. Maintain a current file of the names, addresses and telephone numbers of each minority and female off-the-street applicant and minority or female referral from a union, a recruitment source or community organization and of what action was taken with respect to each such individual. If such individual was sent to the union hiring hall for referral and was not referred back to the Contractor by the union or, if referred, not employed by the Contractor, this shall be documented in the file with the reason therefor, along with whatever additional actions the Contractor may have taken.

d. Provide immediate written notification to the Director when the union or unions with which the Contractor has a collective bargaining agreement has not referred to the Contractor a minority person or woman sent by the Contractor, or when the Contractor has other information that the union referral process has impeded the Contractor's efforts to meet its obligations.

e. Develop on-the-job training opportunities and/or participate in training programs for the area which expressly include minorities and women, including upgrading programs and apprenticeship and trainee programs relevant to the Contractor's employment needs, especially those programs funded or approved by the Department of Labor. The Contractor shall provide notice of these programs to the sources compiled under 7b above.

f. Disseminate the Contractor's EEO policy by providing notice of the policy to unions and training programs and requesting their cooperation in assisting the Contractor in meeting its EEO obligations; by including it in any policy manual and collective bargaining agreement; by publicizing it in the company newpaper, annual report, etc.; by specific review of the policy with all management personnel and with all minority and female employees at least once a year; and by posting the company EEO policy on bulletin boards accessible to all employees at each location where construction work is performed.

g. Review, at least annually, the company's EEO policy and affirmative action obligations under these specifications with all employees having any responsibility for hiring, assignment, layoff, termination or other employment decisions including specific review of these items with onsite supervisory personnel such as Superintendents, General Foremen, etc., prior to the initiation of construction work at any job site. A written record shall be made and maintained identifying the time and place of these meetings, persons attending, subject matter discussed, and disposition of the subject matter.

h. Disseminate the Contractor's EEO policy externally by including it in any advertising in the news media, specifically including minority and female news media, and providing written notification to and discussing the Contractor's EEO policy with other Contractors and Subcontractors with whom the Contractor does or anticipates doing business.

i. Direct its recruitment efforts, both oral and written, to minority, female and community organizations, to schools with minority and female students and to minority and female recruitment and training organizations serving the Contractor's recruitment area and employment needs. Not later than one month prior to the date for the acceptance of applications for apprenticeship or other training by any recruitment source, the Contractor shall send written notification to organizations such as the above, describing the openings, screening procedures, and tests to be used in the selection process.

j. Encourage present minority and female employees to recruit other minority persons and women and, where reasonable, provide after school, summer and vacation employment to minority and female youth both on the site and in other areas of a Contractor's work force.

k. Validate all tests and other selection requirements where there is an obligation to do so under 41 CFR Part 60-3.

l. Conduct, at least annually, an inventory and evaluation at least of all minority and female personnel for promotional opportunities and encourage these employees to seek or to prepare for, through appropriate training, etc., such opportunities.

m. Ensure that seniority practices, job classifications, work assignments and other personnel practices, do not have a discriminatory effect by continually monitoring all personnel and employment related activities to ensure that the EEO policy and the Contractor's obligations under these specifications are being carried out.

n. Ensure that all facilities and company activities are nonsegregated except that separate or single-user toilet and necessary changing facilities shall be provided to assure privacy between the sexes.

o. Document and maintain a record of all solicitations of offers for subcontracts from minority and female construction contractors and suppliers, including circulation of solicitations to minority and female contractor associations and other business associations.

p. Conduct a review, at least annually, of all supervisors' adherence to and performance under the Contractor's EEO policies and affirmative action obligations.

8. Contractors are encouraged to participate in voluntary associations which assist in fulfilling one or more of their affirmative action obligations (7a through p). The efforts of a contractor association, joint contractor-union, contractor-community, or other similar group of which the contractor is a member and participant, may be asserted as fulfilling any one or more of its obligations under 7a through p of these Specifications provided that the contractor actively participates in the group, makes every effort to assure that the group has a positive impact on the employment of minorities and women in the industry, ensures that the concrete benefits of the program are reflected in the Contractor's minority and female workforce participation, makes a good faith effort to meet its individual goals and timetables, and can provide access to documentation which demonstrates the effectiveness of actions taken on behalf of the Contractor. The obligation to comply, however, is the Contractor's and failure of such a group to fulfill an obligation shall not be a defense for the Contractor's noncompliance.

9. A single goal for minorities and a separate single goal for women have been established. The Contractor, however, is required to provide equal employment opportunity and to take affirmative action for all minority groups, both male and female, and all women, both minority and non-minority. Consequently, the Contractor may be in violation of the Executive Order if a particular group is employed in a substantially disparate manner (for example, even though the Contractor has achieved its goals for women generally, the Contractor may be in violation of the Executive Order if a specific minority group of women is underutilized).

10. The Contractor shall not use the goals and timetables or affirmative action standards to discriminate against any person because of race, color, religion, sex, or national origin.

11. The Contractor shall not enter into any Subcontract with any person or firm debarred from Government contracts pursuant to Executive Order 11246.

12. The Contractor shall carry out such sanctions and penalties for violation of these specifications and of the Equal Opportunity Clause, including suspension, termination and cancellation of existing subcontracts as may be imposed or ordered pursuant to Executive Order 11246, as amended, and its implementing regulations, by the Office of Federal Contract Compliance Programs. Any Contractor who fails to carry out such sanctions and penalties shall be in violation of these specifications and Executive Order 11246, as amended.

13. The Contractor, in fulfilling its obligations under these specifications, shall implement specific affirmative action steps, at least as extensive as those standards prescribed in paragraph 7 of these specifications, so as to achieve maximum results from its efforts to ensure equal employment opportunity. If the Contractor fails to comply with the requirements of the Executive Order, the implementing regulations, or these specifications, the Director shall proceed in accordance with 41 CFR 60-4.8.

14. The Contractor shall designate a responsible official to monitor all employment related activity to ensure that the company EEO policy is being carried out, to submit reports relating to the provisions hereof as may be required by the Government and to keep records. Records shall at least include for each employee the name, address, telephone numbers, construction trade, union affiliation if any, employee identification number when assigned, social security number, race, sex, status (e.g., mechanic, apprentice trainee, helper, or laborer), dates of changes in status, hours worked per week in the indicated trade, rate of pay, and locations at which the work was performed. Records shall be maintained in an easily understandable and retrievable form; however, to the degree that existing records satisfy this requirement, contractors shall not be required to maintain separate records.

15. Nothing herein provided shall be construed as a limitation upon the application of other laws which establish different standards of compliance or upon the application of requirements for the hiring of local or other area residents (e.g., those under the Public Works Employment Act of 1977 and the Community Development Block Grant Program).

(b) The notice set forth in 41 CFR 60-4.2 and the specifications set forth in 41 CFR 60-4.3 replace the New Form for Federal Equal Employment Opportunity Bid Conditions for Federal and Federally Assisted Construction published at 41 FR 32482 and commonly known as the Model Federal EEO Bid Conditions, and the New Form shall not be used after the regulations in 41 CFR Part 60-4 become effective.

§ 60-4.4 Affirmative action requirements.

(a) To implement the affirmative action requirements of Executive Order 11246 in the construction industry, the Office of Federal Contract Compliance Programs previously has approved affirmative action programs commonly referred to as "Hometown Plans," has promulgated affirmative action plans referred to as "Imposed Plans" and has approved "Special Bid Conditions" for high impact projects constructed in areas not covered by a Hometown or an Imposed Plan. All solicitations for construction contracts made after the effective date of the regulations in this part shall include the notice specified in § 60-4.2 of this part and the specifications in § 60-4.3 of this part in lieu of the Hometown and Imposed Plans including the Philadelphia Plan and Special Bid Conditions. Until the Director has issued an order pursuant to § 60-4.6 of this part establishing goals and timetables for minorities in the appropriate geographical areas or for a project covered by Special Bid Conditions, the goals and timetables for minorities to be inserted in the Notice required by 41 CFR 60-4.2 shall be the goals and timetables contained in the Hometown Plan, Imposed Plan or Special Bid Conditions presently covering the respective geographical area or project involved.

(b) Signatories to a Hometown Plan (including heavy highway affirmative action plans) shall have 45 days from the effective date of the regulations in this part to submit under such a Plan (for the director's approval) goals and timetables for women and to include female representation on the Hometown Plan Administrative Committee. Such goals for female representation shall be at least as high as the goals established for female representation in the notice issued pursuant to 41 CFR 60-4.6. Failure of the signatories, within the 45-day period, to include female representation and to submit goals for women or a new plan, as appropriate, shall result in an automatic termination of the Office of Federal Contract Compliance Program's approval of the Hometown Plan. At any time the Office of Federal Contract Compliance Programs terminates or withdraws its approval of a Hometown Plan, or when the plan expires and another plan is not approved, the contractors signatory to the plan shall be covered automatically by the specifications set forth in § 60-4.3 of this part and by the goals and timetables established for that geographical area pursuant to § 60-4.6 of this part.

§ 60-4.5 Hometown plans.

(a) A contractor participating, either individually or through an association, in an approved Hometown Plan (including heavy highway affirmative action plans) shall comply with its affirmative action obligations under Executive Order 11246 by complying with its obligations under the plan: *Provided,* That each contractor or subcontractor participating in an approved plan is individually required to comply with the equal opportunity clause set forth in 41 CFR 60-1.4; to make a good faith effort to achieve the goals for each trade participating in the plan in which it has employees; and that the overall good performance by other contractors or subcontractors toward a goal in an approved plan does not excuse any covered contractor's or subcontractor's failure to take good faith efforts to achieve the plan's goals and timetables. If a contractor is not participating in an approved Hometown Plan it shall comply with the specifications set forth in § 60-4.3 of this part and with the goals and timetables for the appropriate area as listed in the notice required by 41 CFR 60-4.2 with regard to that trade. For the purposes of this part 60-4, a contractor is not participating in a Hometown Plan for a particular trade if it:

(1) Ceases to be signatory to a Hometown Plan covering that trade;

(2) Is signatory to a Hometown Plan for that trade but is not party to a collective bargaining agreement for that trade;

(3) Is signatory to a Hometown Plan for that trade but is party to a collective bargaining agreement with labor organizations which are not or cease to be signatories to the same Hometown Plan for that trade;

(4) Is signatory to a Hometown Plan for that trade but is party to a collective bargaining agreement with a labor organization for that trade but the two have not jointly executed a specific commitment to minority and female goals and timetables and incorporated the commitment in the Hometown Plan for that trade;

(5) is participating in a Hometown Plan for that trade which is no longer acceptable to the Office of Federal Contract Compliance Programs;

(6) Is signatory to a Hometown Plan for that trade but is party to a collective bargaining agreement with labor a organization for that trade and the labor organization and the contractor have failed to make a good faith effort to comply with their obligations under the Hometown Plan for that trade.

(b) Contractors participating in Hometown Plans must be able to demonstrate their participation and document their compliance with the provision of the Hometown Plan.

§ 60-4.6 Goals and timetables.

The director, from time to time, shall issue goals and timetables for minority and female utilization which

V 43/204 OCT 78

shall be based on appropriate workforce, demographic or other relevant data and which shall cover construction projects, or construction contracts performed in specific geographical areas. The goals shall be applicable to each construction trade in a covered contractor's or subcontractor's entire workforce which is working in the area covered by the goals and timetables, shall be published as notices in the FEDERAL REGISTER, and shall be inserted by the contracting officers and applicants, as applicable, in the notice required by 41 CFR 60-4.2.

§ 60-4.7 Effect on other regulations.

The regulations in this part are in addition to the regulations contained in this chapter which apply to construction contractors and subcontractors generally. See particularly, 41 CFR 60-1.4 (a), (b), (c), (d), and (e); 60-1.5; 60-1.7; 60-1.8; 60-1.26; 60-1.29; 60-1.30; 60-1.32; 60-1.41; 60-1.42; 60-1.43; and 41 CFR part 60-3; part 60-20; part 60-30; part 60-40; and part 60-50.

§ 60-4.8 Show cause notice.

If an investigation or compliance review reveals that a construction contractor or subcontractor has violated the Executive order, any contract clause, specifications or the regulations in this chapter and if administrative enforcement is contemplated, the director shall issue to the contractor or subcontractor a notice to show cause which shall contain the items specified in (i)-(iv) of 41 CFR 60-2.2(c)(1). If the contractor does not show good cause within 30 days, or in the alternative, fails to enter an acceptable conciliation agreement which includes where appropriate, make up goals and timetables, back pay, and seniority relief for affected class members, the OFCCP shall follow the procedure in 41 CFR 60-1.26(b): *Provided*, That where a conciliation agreement has been violated, no show cause notice is required prior to the initiation of enforcement proceeings.

§ 60-4.9 Incorporation by operation of the order.

By operation of the order, the equal opportunity clause contained in § 60-1.4, the Notice of Requirement for Affirmative Action to Ensure Equal Employment Opportunity (Executive Order 11246) contained in § 60-4.2, and the Standard Federal Equal Employment Opportunity Construction Contract Specifications (Executive Order 11246) contained in § 60-4.3 shall be deemed to be a part of every solicitation or of every contract and subcontract, as appropriate, required by the order and the regulations in this chapter to include such clauses whether or not they are physically incorporated in such solicitation or contract and whether or not the contract is written.

PART 60—20 SEX DISCRIMINATION GUIDELINES

Sec.
60-20.1 Title and purpose.
60-20.2 Recruitment and advertisement.
60-20.3 Job policies and practices.
60-20.4 Seniority system.
60-20.5 Discriminatory wages.
60-20.6 Affirmative actions.

AUTHORITY. Sec. 201, E.O. 11246, 30 FR 12319, and E.O. 11375, 32 FR 14303, as amended by E.O. 12086.

§ 60-20.1 Title and purpose.

The purpose of the provisions in this part is to set forth the interpretations and guidelines of the Office of Federal Contract Compliance Programs regarding the implementation of Executive Order 11246, as amended for the promotion and insuring of equal opportunities for all persons employed or seeking employment with Government contractors and subcontractors or with contractors and subcontractors performing under federally assisted construction contracts, without regard to sex. Experience has indicated that special problems related to the implementation of the Executive Order require a definitive treatment beyond the terms of the order itself. These interpretations are to be read in connection with existing regulations, set forth in Part 60-1 of this chapter.

§ 60-20.2 Recruitment and advertisement.

(a) Employers engaged in recruiting activity must recruit employees of both sexes for all jobs unless sex is a bona fide occupation qualification.

(b) Advertisement in newspapers and other media for employment must not express a sex preference unless sex is a bona fide occupational qualification for the job. The placement of an advertisement in columns headed "Male" or "Female" will be considered an expression of a preference, limitation, specification, or discrimination based on sex.

§ 60-20.3 Job policies and practices.

(a) Written personnel policies relating to this subject area must expressly indicate that there shall be no discrimination against employees on account of sex. If the employer deals with a bargaining representative for his employees and there is a written agreement on conditions of employment, such agreement shall not be inconsistent with these guidelines.

(b) Employees of both sexes shall have an equal opportunity to any available job that he or she is qualified to perform, unless sex is a bona fide occupational qualification.

NOTE: In most Government contract work there are only limited instances where valid reasons can be expected to exist which would justify the exclusion of all men or all women from any given job.

(c) The employer must not make any distinction based upon sex in employment opportunities, wages, hours, or other conditions of employment. In the area of employer contributions for insurance, pensions, welfare programs and other similar "fringe benefits" the employer will not be considered to have violated these guidelines if his contributions are the same for men and women or if the resulting benefits are equal.

(d) Any distinction between married and unmarried persons of one sex that is not made between married and unmarried persons of the opposite sex will be considered to be a distinction made on the basis of sex. Similarly, an employer must not deny employment to women with young children unless it has the same exclusionary policies for men; or terminate an employee of one sex in a particular job classification upon reaching a certain age unless the same rule is applicable to members of the opposite sex.

(e) The employer's policies and practices must assure appropriate physical facilities to both sexes. The employer may not refuse to hire men or women, or deny men or women a particular job because there are no restroom or associated facilities, unless the employer is able to show that the construction of the facilities would be unreasonable for such reasons as excessive expense or lack of space.

(f)(1) An employer must not deny a female employee the right to any job that she is qualified to perform in reliance upon a State "protective" law. For example, such laws include those which prohibit women from performing in certain types of occupations (e.g., a bartender or a core-maker); from working at jobs requiring more than a certain number of hours; and from working at jobs that require lifting or carrying more than designated weights.

(2) Such legislation was intended to be beneficial, but, instead, has been found to result in restricting employment opportunities for men and/or women. Accordingly, it cannot be used as a basis for denying employment or for establishing sex as a bona fide occupational qualification for the job.

(g)(1) Women shall not be penalized in their conditions of employment because they require time away from work on account of childbearing. When, under the employer's leave policy the female employee would qualify for leave, then childbearing must be considered by the employer to be a justification for leave of absence for female employees for a reasonable period of time. For example, if the female employee meets the equally applied minimum length of service requirements for leave time, she must be granted a reasonable leave on account of childbearing. The conditions applicable to her leave (other than the length thereof) and to her return to employment, shall be in accordance with the employer's leave policy.

(2) If the employer has no leave policy, childbearing must be considered by the employer to be a justification for a leave of absence for a female employee for a reasonable period of time. Following childbirth, and upon signifying her intent to return within a reasonable time, such female employee shall be reinstated to her original job or to a position of like status and pay, without loss of service credits.

(h) The employer must not specify any differences for male and female employees on the basis of sex in either mandatory or optional retirement age.

(i) Nothing in these guidelines shall be interpreted to mean that differences in capabilities for job assignments do not exist among individuals and that such distinctions may not be recognized by the employer in making specific assignments. The purpose of these guidelines is to insure that such distinctions are not based upon sex.

§ 60-20.4 Seniority system.

Where they exist, seniority lines and lists must not be based solely upon sex. Where such a separation has existed, the employer must eliminate this distinction.

§ 60-20.5 Discriminatory wages.

(a) The employer's wages schedules must not be related to or based on the sex of the employees.

NOTE. The more obvious cases of discrimination exist where employees of different sexes are paid different wages on jobs which require substantially equal skill, effort and responsibility and are performed under similar working conditions.

(b) The employer may not discriminatorily restrict one sex to certain job classifications. In such a situation, the employer must take steps to make jobs available to all qualified employees in all classifications without regard to sex. (Example: An electrical manufacturing company may have a production division with three functional units: One (assembly) all female; another (wiring), all male; and a third (circuit boards), also all male. The highest wage attainable in the assembly unit is considerably less than that in the circuit board and wiring units. In such a case the employer must take steps to provide qualified female employees opportunity for placement in job openings in the other two units.)

(c) To avoid overlapping and conflicting administration the Director will consult with the Administrator of the Wage and Hour Administration before issuing an opinion on any matter covered by both the Equal Pay Act and Executive Order 11246, as amended.

§ 60-20.6 Affirmative action.

(a) The employer shall take affirmative action to recruit women to apply for those jobs where they have been previously excluded.

NOTE. This can be done by various methods. Examples include: (1) Including in itineraries of recruiting trips women's colleges where graduates with skills desired by the employer can be found, and female students of coeducational institutions and (2) designing advertisements to indicate that women will be considered equally with men for jobs.

(b) Women have not been typically found in significant numbers in management. In many companies management trainee programs are one of the ladders to management positions. Traditionally, few, if any, women have been admitted into these programs. An important element of affirmative action shall be a commitment to include women candidates in such programs.

(c) Distinctions based on sex may not be made in other training programs. Both sexes should have equal access to all training programs and affirmative action programs should require a demonstration by the employer that such access has been provided.

PART 60-30—RULES OF PRACTICE FOR ADMINISTRATIVE PROCEEDINGS TO ENFORCE EQUAL OPPORTUNITY UNDER EXECUTIVE ORDER 11246

GENERAL PROVISIONS

Sec.
60-30.1 Applicability of rules.
60-30.2 Waiver, modification.
60-30.3 Computation of time.
60-30.4 Form, filing, service of pleadings and papers.

PREHEARING PROCEDURES

60-30.5 Administrative complaint.
60-30.6 Answer.
60-30.7 Notice of prehearing conference.
60-30.8 Motions; disposition of motions.
60-30.9 Interrogatories, and admissions as to facts and documents.
60-30.10 Production of documents and things and entry upon land for inspection and other purposes.
60-30.11 Depositions upon oral examination.
60-30.12 Prehearing conferences.
60-30.13 Consent findings and order.

HEARINGS AND RELATED MATTERS

60-30.14 Designation of Administrative Law Judges.
60-30.15 Authority and responsibilities of Administrative Law Judges.
60-30.16 Appearances.
60-30.17 Appearance of witnesses.
60-30.18 Evidence; testimony.
60-30.19 Objections; exceptions; offer of proof.
60-30.20 Ex Parte communications.
60-30.21 Oral argument.
60-30.22 Official transcript.
60-30.23 Summary judgment.
60-30.24 Participation by interested persons.

POST HEARING PROCEDURES

60-30.25 Proposed findings of fact and conclusions of law.
60-30.26 Record for recommended decision.
60-30.27 Recommended decision.
60-30.28 Exceptions to recommended decisions.
60-30.29 Record.
60-30.30 Final Administrative Order.

AUTHORITY: Secs. 201, 205, 208, 209, 301, 302(b) and 303(a) of the Executive Order 11246, as amended, 30 FR 12319; 32 FR 14303; § 60-1.26 of Part 60-1 of this chapter (41 CFR Part 60-1), as amended by E.O. 12086.

GENERAL PROVISIONS

§ 60-30.1 Applicability of rules.

This part provides the rules of practice for all administrative proceedings, instituted by the OFCCP including but not limited to proceedings instituted against construction contractors or subcontractors, which relate to the enforcement of equal opportunity under Executive Order 11246, as amended. In the absence of a specific provision, procedures shall be in accordance with the Federal Rules of Civil Procedure.

§ 60-30.2 Waiver modification.

Upon notice to all parties, the Administrative Law Judge may, with respect to matters pending before him modify or waive any rule herein upon a determination that no party will be prejudiced and that the ends of justice will be served thereby.

§ 60-30.3 Computation of time.

In computing any period of time under these rules or in an order issued hereunder, the time begins with the day following the act, event, or default, and includes the last day of the period, unless it is a Saturday, Sunday, or legal holiday observed by the Federal Government in which event it includes the next business day.

§ 60-30.4 Form, filing, service of pleadings and papers.

(a) *Form.* The original of all pleadings and papers in a proceeding conducted under the regulations in this part shall be filed with the Administrative Law Judge assigned to the case or with the Chief Administrative Law Judge if the case has not been assigned. Every pleading and paper filed in the proceeding shall contain a caption setting forth the name of the agency instituting the proceeding, the title of the action, the case file

number assigned by the Administrative Law Judge, and a designation of the pleading or paper (e.g., complaint, motion to dismiss, etc.). The pleading

An amended answer shall be responded to within 14 days of its service.

§ 60-30.6 Answer.

porting memorandum. Within 10 days after a written motion is served, or such other time period as may be fixed, any party may file a response to

unprivileged documents, phonorecords, and other compilations, including computer tapes and printouts which contain or may lead to relevant information and which are in the pos-

on the date, set forth in the notice, if that party has control over such person. Each party shall be deemed to have control over its officers, agents, employees, and members. Unless the

V 4 3 / 2 0 4 0 0 C 2 0 0 7 8

number assigned by the Administrative Law Judge, and a designation of the pleading or paper (e.g., complaint, motion to dismiss, etc.). The pleading or papers shall be signed and shall contain the address and telephone number of the person representing the party or the person on whose behalf the pleading or paper was filed. Unless otherwise ordered for good cause by the Administrative Law Judge regarding specific papers and pleadings in a specific case, all such papers and pleadings are public documents.

(b) *Service.* Service upon any party shall be made by the party filing the pleading or document by delivering a copy or mailing a copy to the party's last known address. When a party is represented by an attorney, the service shall by upon the attorney.

(c) *Proof of service.* A certificate of the person serving the pleading or other document by personal delivery or by mailing, setting forth the manner of services shall be proof of the service.

PREHEARING PROCEDURES

§ 60-30.5 Administrative complaint.

(a) *Issuance.* The Solicitor of Labor, upon referral from the Office of Federal Contract Compliance Programs, shall institute enforcement proceedings by issuing a complaint and causing the complaint to be served upon the contractor which shall be designated in the complaint as the defendant. The Department of Labor, OFCCP, shall be designated as the plaintiff.

(b) *Contents.* The complaint shall contain a concise jurisdictional statement, and a clear and concise statement sufficient to put the defendant on notice of the acts or practices it is alleged to have committed in violation of the Order, the regulations, or its contractual obligations. The complaint shall also contain a prayer regarding the relief being sought, a statement of whatever sanctions the Government will seek to impose and the name and address of the attorney who will represent the Government.

(c) *Amendment.* The complaint may be amended once as a matter of course before an answer is filed, and the defendant may amend its answer once as a matter of course not later than 10 days after the filing of the original answer. Other amendments of the complaint or of the answer to the complaint shall be made only by leave of the Administrative Law Judge or by written consent of the adverse party; and leave shall be freely given where justice so requires. An amended complaint shall be answered within 14 days of its service, or within the time for filing an answer to the original complaint, whichever period is longer. An amended answer shall be responded to within 14 days of its service.

§ 60-30.6 Answer.

(a) *Filing and service.* Within 20 days after the service of the complaint, the defendant shall file an answer with the Chief Administrative Law Judge if the case has not been assigned to an Administrative Law Judge. The answer shall be signed by the defendant or its attorney, and served on the Government in accordance with § 60-30.4(b).

(b) *Contents; failure to file.* The answer shall (1) contain a statement of the facts which constitute the grounds of defense, and shall specifically admit, explain, or deny, each of the allegations of the complaint unless the defendant is without knowledge, in which case the answer shall so state; or (2) state that the defendant admits all the allegations of the complaint. The answer may contain a waiver of hearing; and if not, a separate paragraph in the answer shall request a hearing. The answer shall contain the name and address of the defendant, or of the attorney representing the defendant. Failure to file an answer or to plead specifically to any allegation of the complaint shall constitute an admission of such allegation.

(c) *Procedure, upon admission of facts.* The admission, in the answer or by failure to file an answer, of all the material allegations of fact contained in the complaint shall constitute a waiver of hearing. Upon such admission, the Administrative Law Judge, without further hearing, may prepare his decision in which he shall adopt as his proposed findings of fact the material facts alleged in the complaint. The parties shall be given an opportunity to file exceptions to his decision and to file briefs in support of the exceptions.

§ 60-30.7 Notice of prehearing conference.

The Administrative Law Judge shall respond to defendant's request for a hearing within 15 days and shall serve a notice of prehearing conference on the parties. The notice shall contain the time and place of the conference.

§ 60-30.8 Motions; disposition of motions.

(a) *Motions.* Motions shall state the relief sought, the authority relied upon and the facts alleged, and shall be filed with the Administrative Law Judge. If made before or after the hearing itself, the motions shall be in writing. If made at the hearing, motions may be stated orally; but the Administrative Law Judge may require that they be reduced to writing and filed and served on all parties in the same manner as a formal motion. Unless otherwise ordered by the Administrative Law Judge, written motions shall be accompanied by a supporting memorandum. Within 10 days after a written motion is served, or such other time period as may be fixed, any party may file a response to a motion.

(b) *Disposition of motions.* The Administrative Law Judge may not grant a written motion prior to expiration of the time for filing responses thereto, except upon consent of the parties or following a hearing, but may overrule or deny such motion without awaiting response: *Provided,* That prehearing conferences, hearings, and decisions need not be delayed pending disposition of motions.

§ 60-30.9 Interrogatories, and admissions as to facts and documents.

(a) *Interrogatories.* Not later than 25 days prior to the date of the hearing, except for good cause shown, or not later than 14 days prior to such earlier date as the Administrative Law Judge may order, any party may serve upon an opposing party written interrogatories. Each interrogatory shall be answered separately and fully in writing under oath, unless objected to. Answers are to be signed by the person making them and objections by the attorney or by whoever is representing the party. Answers and objections shall be filed and served within 25 days of service of the interrogatory.

(b) *Admissions.* Not later than 14 days prior to the date of the hearing, except for good cause shown, or not later than 14 days prior to such earlier date as the Administrative Law Judge may order, any party may serve upon an opposing party a written request for the admission of the genuineness and authenticity of any relevant documents described in and exhibited with the request, or for the admission of the truth of any relevant matters of fact stated in the request. Each of the matters as to which an admission is requested shall be deemed admitted, unless within 25 days after service, the party to whom the request is directed serves upon the requesting party a sworn statement either (1) denying specifically the matter as to which an admission is requested, or (2) setting forth in detail the reasons why he cannot truthfully either admit or deny such matters.

(c) *Objections or failures to respond.* The party submitting the interrogatory or request may move for an order with respect to any objection or other failure to respond.

§ 60-30.10 Production of documents and things and entry upon land for inspection and other purposes.

(a) After commencement of the action, any party may serve on any other party a request to produce and/or permit the party, or someone acting on his behalf, to inspect and copy any

unprivileged documents, phonorecords, and other compilations, including computer tapes and printouts which contain or may lead to relevant information and which are in the possession, custody, or control of the party upon whom the request is served. If necessary, translation of data compilations shall be done by the party furnishing the information.

(b) After commencement of the action, any party may serve on any other party a request to permit entry upon designated property which may be relevant to the issues in the proceeding and, which is in the possession or control of the party upon whom the request is served for the purpose of inspection, measuring, surveying or photographing, testing, or sampling the property or any designated object or area.

(c) Each request shall set forth with reasonable particularity the items to be inspected and shall specify a reasonable time and place for making the inspection and performing the related acts.

(d) The party upon whom the request is served shall respond within 25 days after the service of the request. The response shall state, with respect to each item, that inspection and related activities will be permitted as requested, unless there are objections, in which case the reasons for each objection shall be stated. The party submitting the request may move for an order with respect to any objection or to other failure to respond.

§ 60-30.11 Depositions upon oral examination.

(a) *Depositions; notice of examination.* After commencement of the action, any party may take the testimony of any person, including a party, having personal or expert knowledge of the matters in issue, by deposition upon oral examination. A party desiring to take a deposition shall give reasonable notice in writing to every other party to the proceeding, and may use an administrative subpoena. The notice shall state the time and place for taking the deposition and the name and address of each person to be examined, if known, and, if the name is not known, a general description sufficient to identify him or the particular class or group to which he belongs. The notice shall also set forth the categories of documents the witness is to bring with him to the deposition, if any. A copy of the notice shall be furnished to the person to be examined unless his name is unknown.

(b) *Production of witnesses; obligation of parties; objections.* It shall be the obligation of each party to produce for examination any person, along with such documents as may be requested, at the time and place, and on the date, set forth in the notice, if that party has control over such person. Each party shall be deemed to have control over its officers, agents, employees, and members. Unless the parties agree otherwise, depositions shall be held within the county in which the witness resides or works. The party or prospective witness may file with the Administrative Law Judge an objection within 5 days after notice of production of such witness is served, stating with particularity the reasons why the party cannot or ought not to produce a requested witness. The party serving the notice may move for an order with respect to such objection or failure to produce a witness. All errors or irregularities in compliance with the provisions of this section shall be deemed waived unless a motion to suppress the deposition or some part thereof is made with reasonable promptness after such defect is or, with due diligence, might have been ascertained.

(c) *Before whom taken; scope of examination; failure to answer.* Depositions may be taken before any officer authorized to administer oaths by the laws of the United States or of the place where the deposition is held. At the time and place specified in the notice, each party to examine and cross-examine the witness under oath upon any matter which is relevant to the subject matter of the proceeding, or which is reasonably calculated to lead to the production of relevant and otherwise admissible evidence. All objections to questions, except as to the form thereof, and all objections to evidence are reserved until the hearing. A refusal or failure on the part of any person under the control of a party to answer a question shall operate to create a presumption that the answer, if given, would be unfavorable to the controlling party, unless the question is subsequently ruled improper by the Administrative Law Judge or the Administrative Law Judge rules that there was valid justification for the witness' failure or refusal to answer the question: *Provided,* That the examining party shall note on the record during the deposition the question which the deponent has failed, or refused to answer, and state his intention to invoke the presumption if no answer is forthcoming.

(d) *Subscription; certification; filing.* The testimony shall be reduced to typewriting, either by the officer taking the deposition or under his direction, and shall be submitted to the witness for examination and signing. If the deposition is not signed by the witness because he is ill, dead, cannot be found, or refuses to sign it, such fact shall be noted in the certificate of the officer and the deposition may then be used as fully as though signed. The officer shall immediately deliver the original copy of the transcript, together with his certificate, in person or by mail to the Administrative Law Judge. Copies of the transcript and certificate shall be furnished to all persons desiring them, upon payment of reasonable charges, unless distribution is restricted by order of the Administrative Law Judge for good cause shown.

(e) *Rulings on admissibility; use of deposition.* Subject to the provisions of this section, objection may be made at the hearing to receiving in evidence any deposition or part thereof for any reason which would require the exclusion of the evidence if the witness were then present and testifying. Any part or all of a deposition, so far as admissible in the discretion of the Administrative Law Judge, may be used against any party who was present or represented at the taking of the deposition or who had reasonable notice, in accordance with the following provisions:

(1) Any deposition may be used by any party for the purpose of contradicting or impeaching the testimony of the deponent as a witness.

(2) The deposition of a party or of any one who at the time of taking the deposition was an officer, director, or managing agent, or was designated to testify on behalf of a public or private corporation, partnership, association, or governmental agency which is a party may be used by the adverse party for any purpose.

(3) The deposition of a witness, whether or not a party, may be used by any party for any purpose if the hearing examiner finds: (i) That the witness is dead; or (ii) that the witness is unable to attend or testify because of age, illness, infirmity, or imprisonment; or (iii) that the party offering the deposition has been unable to procure the attendance of the witness by subpena; or (iv) upon application and notice, that such exceptional circumstances exist as to make it desirable to allow the deposition to be used.

(4) If only part of a deposition is introduced in evidence by a party, any party may introduce any other parts by way of rebuttal and otherwise.

(f) *Stipulations.* If the parties so stipulate in writing, depositions may be taken before any person at any time or place, upon any notice and in any manner, and when so taken may be used like other depositions.

§ 60-30.12 Prehearing conferences.

(a) Upon his own motion or the motion of the parties, the Administrative Law Judge may direct the parties or their counsel to meet with him for a conference to consider:

(1) Simplification of the issues;

(2) Necessity or desirability of amendments to pleadings for purposes of clarification, simplification, or limitation;

such agreement by issuing his decision based upon the agreed findings, and his decision shall consititute the final Administrative order.

(1) Refusing to allow the disobedient party to support or oppose designated claims or defenses, or prohibiting it from introducing designated matters in evidence;

such person. Each party shall be deemed to have control over its officers, agents, employees, and members. Due regard shall be given to the con-

§ 60-30.20 Ex parte communications.

The Administrative Law Judge shall not consult any person, or party, on any fact in issue unless upon notice

"Statement of Disputed Facts" shall be deemed as an admission to the "Statement of Uncontested Facts."

(e) *Motion and proceedings.* The

V 4 3 / 2 0 4 0 C 2 0 0 7 8

(2) Necessity or desirability of amendments to pleadings for purposes of clarification, simplification, or limitation;

(3) Stipulations, admissions of fact and of contents and authenticity of documents;

(4) Limitation of number of witnesses;

(5) Scheduling dates for the exchange of witness lists and of proposed exhibits;

(6) Such other matters as may tend to expedite the disposition of the proceedings.

(b) The record shall show the matters disposed of by order and by agreement in such pretrial conferences. The subsequent course of the proceeding shall be controlled by such action.

§ 60-30.13 Consent findings and order.

(a) *General.* At any time after the issuance of a complaint and prior to or during the reception of evidence in any proceeding, the parties may jointly move to defer the receipt of any evidence for a reasonable time to permit negotiation of an agreement containing consent findings and an order disposing of the whole or any part of the proceeding. The allowance of such deferment and the duration thereof shall be in the discretion of the Administrative Law Judge after consideration of the nature of the proceeding, the requirments of the public interest, the representations of the parties, and the probability of an agreement being reached which will result in a just disposition of the issues involved.

(b) *Content.* Any agreement containing consent findings and an order disposing of a proceeding shall also provide:

(1) That the order shall have the same force and effect as an order made after full hearing;

(2) That the entire record on which any order may be based shall consist solely of the complaint and the agreement;

(3) That any further procedural steps are waived; and

(4) That any right to challenge or contest the validity of the findings and order entered into in accordance with the agreement is waived.

(c) *Submission.* On or before the expiration of the time granted for negotiations, the parties or their counsel may:

(1) Submit the proposed agreement to the Administrative Law Judge for his consideration; or that agreement cannot be reached.

(2) Inform the Administrative Law Judge that

(d) *Disposition.* In the event an agreement containing consent findings and an order is submitted within the time allowed, the Administrative Law Judge, within 30 days, shall accept such agreement by issuing his decision based upon the agreed findings, and his decision shall consititute the final Administrative order.

HEARINGS AND RELATED MATTERS

§ 60-30.14 Designation of Administrative Law Judges.

Hearings shall be held before an Administrative Law Judge of the Department of Labor who shall be designated by the Chief Administrative Law Judge of the Department of Labor. After commencement of the proceeding but prior to the designation of an Administrative Law Judge, pleadings and paper shall be filed with the Chief Administrative Law Judge.

§ 60-30.15 Authority and responsibilities of Administrative Law Judges.

The Administrative Law Judge shall propose findings and conclusions to the compliance agency or to the Secretary on the basis of the record. In order to do so, he shall have the duty to conduct a fair hearing, to take all necesssary action to avoid delay, and to maintain order. He shall have all powers necessary to those ends, including, but not limited to, the power to:

(a) Hold confernces to settle, simplify, or fix the issues in a proceeding, or to consider other matters that may aid in the expeditious disposition of the proceeding by consent of the parties or upon his own motion;

(b) Require parties to state their position with respect to the various issues in the proceeding;

(c) Require parties to produce for examination those relevant witnesses and documents under their control; and require parties to answer interrogatories and requests for admissions in full;

(d) Administer oaths;

(e) Rule on motions, and other procedural items or matters pending before him;

(f) Regulate the course of the hearing and conduct of participants therein;

(g) Examine and cross-examine witnesses, and introduce into the record documentary or other evidence;

(h) Receive, rule on, exclude, or limit evidence and limit lines of questioning or testimony which are irrelevant, immaterial, or unduly repetitious;

(i) Fix time limits for submission of written documents in matters before him and extend any time limits established by this part upon a determination that no party will be prejudiced and that the ends of justice will be served thereby;

(j) Impose appropriate sanctions against any party or person failing to obey an order under these rules which may include:

(1) Refusing to allow the disobedient party to support or oppose designated claims or defenses, or prohibiting it from introducing designated matters in evidence;

(2) Excluding all testimony of an unresponsive or evasive witness, or determining that the answer of such witness, if given, would be unfavorable to the party having control over him; and

(3) Expelling any party or person from further participation in the hearing;

(k) Take official notice of any material fact not appearing in evidence in the record, which is among the traditional matters of judicial notice;

(l) Recommend whether the respondent is in current violation of the order, regulations, or its contractual obligations, as well as the nature of the relief necessary to insure the full enjoyment of the rights secured by the order;

(m) Issue subpenas; and

(n) Take any action authorized by these rules.

§ 60-30.16 Appearances.

(a) *Representation.* The parties or other persons or organizations participating pursuant to this part 60-30 have the right to be represented by counsel.

(b) *Failure to appear.* In the event that a party appears at the hearing and no party appears for the opposing side, the party who is present shall have an election to present his evidence in whole or such portion thereof sufficient to make a prima facie case before the Administrative Law Judge. Failure to appear at the hearing shall not be deemed to be a waiver of the right to be served with a copy of the Administrative Law Judge's recommended decision and to file exceptions to it.

§ 60-30.17 Appearance of witnesses.

(a) A party wishing to procure the appearance at the hearing of any person having personal or expert knowledge of the matters in issue shall serve on the prospective witness a notice, which may be accomplished by an administrative subpena, setting forth the time, date, and place at which he is to appear for the purpose of giving testimony. The notice shall also set forth the categories of documents the witness is to bring with him to the hearing, if any. A copy of the notice shall be filed with the Administrative Law Judge and additional copies shall be served upon the opposing parties.

(b) It shall be the obligation of each party to produce for examination any person, along with such documents as may be requested, at the time and place, and on the date, set forth in the notice, if that party has control over such person. Each party shall be deemed to have control over its officers, agents, employees, and members. Due regard shall be given to the convenience of witnesses in scheduling their testimony so that they will be detained no longer than reasonably necessary.

(c) The party or prospective witness may file an objection within 5 days after notice of production of such witness is served stating with particularity the reasons why the party cannot produce a requested witness. The party serving the notice may move for an order with respect to such objection or failure to produce a witness.

§ 60-30.18 Evidence; testimony.

Formal rules of evidence shall not apply, but rules or principles designed to assure production of the most probative evidence available shall be applied. Testimony shall be given orally by witnesses at the hearing. A witness shall be available for cross-examination, and, at the descretion of the Adminsitrative Law Judge, may be cross-examined without regard to the scope of direct examination as to any matter which is relevant and material to the proceeding. The Administrative Law Judge may exclude evidence which is immaterial, irrelevant, or unduly repetitious.

§ 60-30.19 Objections; exceptions; offer of proof.

(a) *Objections.* If a party objects to the admission or rejection of any evidence or to the limitation of the scope of any examination or cross-examination or the failure to limit such scope, he shall state briefly the grounds for such objection. Rulings on all objections shall appear in the record. Only objections made on the record may be relied upon subsequently in the proceedings.

(b) *Exceptions.* Formal exception to an adverse ruling is not required. Rulings by the Administrative Law Judge shall not be appealed prior to the transfer of the case to the Secretary, but shall be considered by the compliance agency or the Secretary upon filing exceptions to the Administrative Law Judge's recommendations and conclusions.

(c) *Offer of proof.* An offer of proof made in connection with an objection taken to any ruling excluding proffered oral testimony shall consist of a statement of the substance of the evidence which counsel contends would be adduced by such testimony; and, if the excluded evidence consists of evidence in written form or consists of reference to documents, a copy of such evidence shall be marked for identification and shall accompany the record as the offer of proof.

§ 60-30.20 Ex parte communications.

The Administrative Law Judge shall not consult any person, or party, on any fact in issue unless upon notice and opportunity for all parties to participate. No employee or agent of the Federal Government engaged in the investigation and prosecution of this case shall participate or advise in the rendering of the recommended or final decision in the case, except as witness or counsel in the proceeding.

§ 60-30.21 Oral argument.

Any party shall be entitled upon request to a reasonable period between the close of evidence and termination of the hearing for oral argument. Oral arguments shall be included in the official transcript of the hearing.

§ 60-30.22 Official transcript.

The official transcripts of testimony taken, together with any exhibits, briefs, or memorandums of law, shall be filed with the Administrative Law Judge. Transcripts of testimony may be obtained from the official reporter by the parties and the public as provided in section 11(a) of the Federal Advisory Committee Act (86 Stat. 770). Upon notice to all parties, the Administrative Law Judge may authorize such corrections to the transcript as are necessary to reflect accurately the testimony.

§ 60-30.23 Summary judgment.

(a) *For the Government.* At any time after the expiration of 20 days from the commencement of the action, or after service of a motion for summary judgment by the respondent, the Government may move with or without supporting affidavits for a summary judgment upon all claims or any part.

(b) *For defendant.* The defendant may, at any time after commencement of the action, move with or without supporting affidavits for summary judgment in its favor as to all claims or any part.

(c) *Other parties.* Any other party to a formal proceedings under this part may support or oppose motions for summary judgment made by the Government or respondent, in accordance with this section, but may not move for a summary judgment in his own behalf.

(d) *Statement of uncontested facts.* All motions for summary judgment shall be accompanied by a "Statement of Uncontested Facts" in which the moving party sets forth all alleged uncontested material facts which shall provide the basis for its motion. At least 5 days prior to the time fixed for hearing on the motion, any party contending that any material fact regarding the matter covered by the motion is in dispute, shall file a "Statement of Disputed Facts." Failure to file a "Statement of Disputed Facts" shall be deemed as an admission to the "Statement of Uncontested Facts."

(e) *Motion and proceedings.* The motion shall be served upon all parties at least 15 days before the time fixed for the hearing on the motion. The adverse party or parties may serve opposing affidavits prior to the day of hearing. The judgment sought shall be rendered forthwith if the complaint and answer, depositions, and admissions on file, together with the affidavits, if any, show that there is no genuine issue as to any material fact and that the moving party is entitled to a judgment as a matter of law. Summary judgment rendered for or against the Government or the respondent shall constitute the findings and recommendations on the issues involved. Hearings on motions made under this section shall be scheduled by the Administrative Law Judge.

(f) *Case not fully adjudicated on motion.* If on motion under this section judgment is not rendered upon the whole case or for all the relief asked and a final hearing is necessary, the Administrative Law Judge at the hearing of the motion, by examining the notice and answer and the evidence before him and by interrogating counsel, shall, if practicable, ascertain what material facts exist without substantial controversy and what material facts are actually and in good faith controverted. He shall thereupon make an order specifying the facts that appear without substantial controversy, including the extent to which relief is not in controversy, and directing such further proceedings as are just. At the hearing on the merits, the facts so specified shall be deemed established, and the final hearing shall be conducted accordingly.

§ 60-30.24 Participation by interested persons.

(a)(1) To the extent that proceedings hereunder involve employment of persons covered by a collective bargaining agreement, and compliance may necessitate a revision of such agreement, any labor organization which is a signatory to the agreement shall have the right to participate as a party.

(2) Other persons or organizations shall have the right to participate as parties if the final Administrative Order could adversely affect them or the class they represent, and such participation may contribute materially to the proper disposition of the proceedings.

(3) Any person or organization wishing to participate as a party under this paragraph shall file with the Administrative Law Judge and serve on all parties a petition within 25 days after the commencement of the action or at

V 4 3 / 2 0 4 0 C 2 0 7 8

such other time as ordered by the Administrative Law Judge, so long as it does not disrupt the proceeding. Such petition shall concisely state: (i) Petitioner's interest in the proceedings; (ii) who will appear for petitioner; (iii) the issues on which petitioner wishes to participate; and (iv) whether petitioner intends to present witnesses.

(4) The Administrative Law Judge shall determine whether each petitioner has the requisite interest in the proceedings and shall permit or deny participation accordingly. Where petitions to participate as parties are made by individuals or groups with common interest, the Administrative Law Judge may request all such petitioners to designate a single representative to represent all such petitioners: *Provided*, That the representative of a labor organization qualifying to participate under paragraph (a)(1) of the section must be permitted to participate in the proceedings. The Administrative Law Judge shall give each petitioner written notice of the decision on his petition; and if the petition is denied, he shall briefly state the grounds for denial and shall then treat the petition as a request for participation as amicus curiae. The Administrative Law Judge shall give written notice to each party of each petition granted.

(b)(1) Any other interested person or organization wishing to participate as amicus curiae shall file a petition before the commencement of the final hearing with the Administrative Law Judge. Such petition shall concisely state: (i) The petitioner's interest in the hearing; (ii) who will represent the petitioner; and (iii) the issues on which petitioner intends to present argument. The Administrative Law Judge may grant the petition if he finds that the petitioner has a legitimate interest in the proceedings, and that such participation may contribute materially to the proper disposition of the issues. An amicus curiae is not a party but may participate as provided in this paragraph.

(2) An amicus curiae may present a brief oral statement at the hearing at the point in the proceeding specified by the Administrative Law Judge. He may submit a written statement of position to the Administrative Law Judge prior to the beginning of a hearing and shall serve a copy on each party. He may also submit a brief or written statement at such time as the parties submit briefs and exceptions, and he shall serve a copy on each party.

POST-HEARING PROCEDURES

§ 60-30.25 Proposed findings of fact and conclusions of law.

Within 20 days after receipt of the transcript of the testimony, each party and amicus may file a brief. Such briefs shall be served simultaneously on all parties and amici, and a certificate of service shall be furnished to the Administrative Law Judge. Requests for additional time in which to file a brief shall be made in writing, and copies shall be served simultaneously on the other parties. Requests for extensions shall be received not later than 3 days before the date such briefs are due. No reply brief may be filed except by special permission of the Administrative Law Judge.

§ 60-30.26 Record for recommended decision.

The transcript of testimony, exhibits, and all papers, documents, and requests filed in the proceedings, including briefs, but excepting the correspondence section of the docket, shall constitute the record for decision.

§ 60-30.27 Recommended decision.

Within a reasonable time after the filing of briefs, the Administrative Law Judge shall recommend findings, conclusions, and a decision. These recommendations shall be certified, together with the record for recommended decision to the Secretary of Labor for a final Administrative Order. The recommended findings, conclusions, and decision shall be served on all parties and amici to the proceeding.

§ 60-30.28 Exceptions to recommended decisions.

Within 14 days after receipt of the recommended findings, conclusions, and decision, any party may submit exceptions to said recommendation. These exceptions may be responded to by other parties within 14 days of their receipt by said parties. All exceptions and responses shall be filed with the Secretary. Service of such briefs or exceptions and responses shall be made simultaneously on all parties to the proceeding. Requests to the Secretary for additional time in which to file exceptions and responses shall be in writing and copies shall be served simultaneously on other parties. Requests for extensions must be received no later than 3 days before the exceptions are due.

§ 60-30.29 Record.

After expiration of the time for filing briefs and exceptions, the Secretary shall make a final decision, which shall be the final Administrative Order, on the basis of the record. The record shall consist of the record for recommended decision, the rulings and recommended decision of the Administrative Law Judge and the exceptions and briefs filed subsequent to the Administrative Law Judge's decision.

§ 60-30.30 Final Administrative Order.

After expiration of the time for filing, the Secretary shall make a final Administrative Order which shall be served on all parties. If the Secretary concludes that the defendant has violated the Executive Order, the equal opportunity clause, or the regulations, an Administrative Order shall be issued enjoining the violations, and requiring the contractor to provide whatever remedies are appropriate, and imposing whatever sanctions are appropriate, or any of the above. In any event, failure to comply with the Administrative Order shall result in the immediate cancellation, termination and suspension of the respondent's contracts and/or debarment of the respondent from further contracts.

PART 60-40—EXAMINATION AND COPYING OF OFCCP DOCUMENTS

Subpart A—General

Sec.
60-40.1 Purpose and scope.
60-40.2 Information available on request.
60-40.3 Information exempt from compulsory disclosure and which may be withheld.
60-40.4 Information disclosure of which is prohibited by law.

Subpart B—Procedures for Disclosure

60-40.5 Applicability of procedures.
60-40.6 To whom to direct requests.
60-40.7 Partial disclosure.
60-40.8 Facilities and procedures for disclosure.

AUTHORITY: Executive Order 11246, as amended by Executive Order 11375; 5 U.S.C. 552, as amended by E.O. 12086.

Subpart A—General

§ 60-40.1 Purpose and scope.

This part contains the general rules of the OFCCP providing for public access to information from records of the OFCCP or its various compliance agencies. These regulations implement 5 U.S.C. 552, the Freedom of Information Act and supplement the policy and regulations of the Department of labor, 29 CFR Part 70. It is the policy of the OFCCP to disclose information to the public and to cooperate with other public agencies as well as private parties seeking to eliminate discrimination in employment. This part sets forth generally the categories of records accessible to the public, the types of records subject to prohibitions or restrictions on disclosure, and the places at which and the procedures whereby members of the public may obtain access to and inspect and copy information from records in the custody of the OFCCP.

§ 60-40.2 Information available on request.

(a) Upon the request of any person for identifiable records obtained or generated pursuant to Executive Order 11246 (as amended) such records shall be made available for inspection and copying, notwithstanding the applicability of the exemption from mandatory disclosure set forth in 5 U.S.C. 552 subsection (b), if it is determined that the requested inspection or copying furthers the public interest and does not impede any of the functions of the OFCCP, except in the case of records disclosure of which is prohibited by law.

(b) Consistent with the above, all contract compliance documents within the custody of the OFCCP shall be disclosed upon request unless specifically prohibited by law or as limited elsewhere herein. The types of documents which if in the custody of the OFCCP must be disclosed include, but are not limited to, the following:

(1) Affirmative action plans, whether or not reviewed and finally accepted by the OFCCP except as limited in 41 CFR 60-40.3(a)(1).

(2) Imposed plans and hometown plans, pending or approved.

(3) Text of final conciliation agreements.

(4) Validation studies of tests or other preemployment selection methods.

(5) Dates and times of scheduled compliance reviews.

§ 60-40.3 Information exempt from compulsory disclosure and which may be withheld.

(a) The following documents or parts thereof are exempt from mandatory disclosure by the OFCCP, and should be withheld if it is determined that the requested inspection or copying does not further the public interest and might impede the discharge of any of the functions of the OFCCP.

(1) Those portions of affirmative action plans such as goals and timetables which would be confidential commercial or financial information because they indicate, and only to the extent that they indicate, that a contractor plans major shifts or changes in his personnel requirements and he has not made this information available to the public. A determination to withhold this type of information should be made only after receiving verification and a satisfactory explanation from the contractor that the information should be withheld.

(2) Those portions of affirmative action plans which constitute information on staffing patterns and pay scales but only to the extent that their release would injure the business or financial position of the contractor, would constitute a release of confidential financial information of an employee or would constitute an unwarranted invasion of the privacy of an employee.

(3) The names of individual complainants.

(4) The assignments to particular contractors of named compliance officers if such disclosure would subject the named compliance officers to undue harassment or would affect the efficient enforcement of the Executive order.

(5) Compliance investigation files including the standard compliance review report and related documents, during the course of the review to which they pertain or while enforcement action against the contractor is in progress or contemplated within a reasonable time. Therefore, these reports and related files shall not be disclosed only to the extent that information contained therein constitutes trade secrets and confidential commercial or financial information, interagency or intra-agency memoranda or letters which would not be available by law to a private party in litigation with the agency, personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy, data which would be exempt from mandatory disclosure pursuant to the "informants privilege" or such information the disclosure of which is prohibited by statute.

(6) Copies of preemployment selection tests used by contractors.

(b) Other records may be withheld consistent with the Freedom of Information Act on a case-by-case basis, with the prior approval of the Director, OFCCP.

§ 60-40.4 Information disclosure of which is prohibited by law.

The Standard Form 100 (EEO-1) which is submitted by contractors to the OFCCP or a Joint Reporting Committee servicing both the OFCCP and the EEOC shall be disclosed pending further instructions from the Director. The statutory prohibition on disclosure set forth in section 709(e) of the Civil Rights Act of 1964 is limited by the terms of that section to information obtained pursuant to the authority of title VII of that Act and its disclosure by employees of the EEOC.

Subpart B—Procedures for Disclosure

§ 60-40.5 Applicability of procedures.

Requests for the inspection and copy of information from records in the custody of the OFCCP which are identifiable and available under the provisions of Subpart A of this part shall be made and acted upon as provided in the following sections of this subpart. Officers and employees of the OFCCP are authorized by the Director to continue to furnish to the public, informally and without compliance with these procedures, information and copies from its records which prior to the enactment of the Freedom of Information Act (5 U.S.C. 552) were customarily furnished in the regular performance of their duties.

§ 60-40.6 To whom to direct requests.

A request for contract compliance records or information shall be directed to the National OFCCP or appropriate OFCCP Regional or Area Office. If the person making the request does not know in which office the record is located, he may direct his request to the Director, Office of Federal Contract Compliance Programs, Department of Labor, 200 Constitution Avenue NW., Washington, D.C. 20210, for appropriate handling.

§ 60-40.7 Partial disclosure.

If a requested record contains some materials which are protected from disclosure and other materials which are not so protected, identifying details or protected matters shall be deleted wherever analysis indicates that such deletions are feasible. Whenever such deletions are made, the remainder of the records may be disclosed.

§ 60-40.8 Facilities and procedures for disclosure.

(a) [Reserved.]

(b) Procedures relating to the availability of records shall be governed by the Department of Labor regulations, 29 CFR 70.35 to 29 CFR 70.64.

(c) [Reserved.]

(d) [Reserved.]

PART 60-50—GUIDELINES ON DISCRIMINATION BECAUSE OF RELIGION OR NATIONAL ORIGIN

Sec.
60-50.1 Purpose and scope.
60-50.2 Equal employment policy.
60-50.3 Accommodations to religious observance and practice.
60-50.4 Enforcement.
60-50.5 Nondiscrimination.

AUTHORITY: Sec. 201, E.O. 11246, 30 FR 12319, and E.O. 11375, 32 FR 14303.

SOURCE: 38 FR 1933, Jan. 19, 1973, unless otherwise noted.

§ 60-50.1 Purpose and scope.

(a) The purpose of the provisions in this part is to set forth the interpretations and guidelines of the Office of Federal Contract Compliance Programs regarding the implementation of Executive Order 11246, as amended, for promoting and insuring equal employment opportunities for all persons employed or seeking employment with Government contractors and subcon-

tractors or with contractors and subcontractors performing under federally assisted construction contracts, without regard to religion or national

rected toward executive and middle-management levels, where employment problems relating to religion and national origin are most likely to

ee unless the employer demonstrates that it is unable to reasonably accommodate to an employee's or prospective employee's religious observance or

Subpart A—General

§ 60-60.1 Purpose and scope.

This part shall be known as "Re-

supporting documentation" means the Required Contents of Affirmative Action Programs, as set forth in Subpart B of 41 CFR Part 60-2 and Meth-

site review need not be carried out when OFCCP can determine that the contractor's affirmative action program is acceptable. This determination

tractors or with contractors and subcontractors performing under federally assisted construction contracts, without regard to religion or national origin.

(b) Members of various religious and ethnic groups, primarily but not exclusively of Eastern, Middle, and Southern European ancestry, such as Jews, Catholics, Italians, Greeks, and Slavic groups, continue to be excluded from executive, middle-management, and other job levels because of discrimination based upon their religion and/or national origin. These guidelines are intended to remedy such unfair treatment.

(c) These guidelines are also intended to clarify the obligations of employers with respect to accommodating to the religious observances and practices of employees and prospective employees.

(d) The employment problems of blacks, Spanish-surnamed Americans, orientals, and American Indians are treated under Part 60-2 of this chapter and under other regulations and procedures implementing the requirements of Executive Order 11246, as amended. Accordingly, the remedial provisions of § 60-50.2(b) shall not be applicable to the employment problems of these groups.

(e) Nothing contained in this Part 60-50 is intended to supersede or otherwise limit the exemption set forth in § 60-1.5(a)(5) of this chapter for contracts with certain educational institutions.

[38 FR 1933, Jan. 19, 1973; 38 FR 3511, Feb. 7, 1973, as amended at 40 FR 13218, Mar. 25, 1975]

§ 60-50.2 Equal employment policy.

(a) *General requirements.* Under the equal opportunity clause contained in section 202 of Executive Order 11246, as amended, employers are prohibited from discriminating against employees or applicants for employment because of religion or national origin, and must take affirmative action to insure that applicants are employed, and that employees are treated during employment, without regard to their religion or national origin. Such action includes, but is not limited to the following: Employment, upgrading, demotion, or transfer; Recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship.

(b) *Outreach and positive recruitment.* Employers shall review their employment practices to determine whether members of the various religious and/or ethnic groups are receiving fair consideration for job opportunities. Special attention shall be directed toward executive and middle-management levels, where employment problems relating to religion and national origin are most likely to occur. Based upon the findings of such reviews, employers shall undertake appropriate outreach and positive recruitment activities, such as those listed below, in order to remedy existing deficiencies. It is not contemplated that employers necessarily will undertake all of the listed activities. The scope of the employer's efforts shall depend upon all the circumstances, including the nature and extent of the employer's deficiencies and the employer's size and resources.

(1) Internal communication of the employer's obligation to provide equal employment opportunity without regard to religion or national origin in such a manner as to foster understanding, acceptance, and support among the employer's executive, management, supervisory, and all other employees and to encourage such persons to take the necessary action to aid the employer in meeting this obligation.

(2) Development of reasonable internal procedures to insure that the employer's obligation to provide equal employment opportunity without regard to religion or national origin is being fully implemented.

(3) Periodically informing all employees of the employer's commitment to equal employment opportunity for all persons, without regard to religion or national origin.

(4) Enlisting the assistance and support of all recruitment sources (including employment agencies, college placement directors, and business associates) for the employer's commitment to provide equal employment opportunity without regard to religion or national origin.

(5) Reviewing employment records to determine the availability of promotable and transferable members of various religious and ethnic groups.

(6) Establishment of meaningful contacts with religious and ethnic organizations and leaders for such purposes as advice, education, technical assistance, and referral of potential employees.

(7) Engaging in significant recruitment activities at educational institutions with substantial enrollments of students from various religious and ethnic groups.

(8) Use of the religious and ethnic media for institutional and employment advertising.

§ 60-50.3 Accommodations to religious observance and practice.

An employer must accommodate to the religious observances and practices of an employee or prospective employee unless the employer demonstrates that it is unable to reasonably accommodate to an employee's or prospective employee's religious observance or practice without undue hardship on the conduct of the employer's business. As part of this obligation, an employer must make reasonable accommodations to the religious observances and practices of an employee or prospective employee who regularly observes Friday evening and Saturday, or some other day of the week, as his Sabbath and/or who observes certain religious holidays during the year and who is conscientiously opposed to performing work or engaging in similar activity on such days, when such accommodations can be made without undue hardship on the conduct of the employer's business. In determining the extent of an employer's obligations under this section, at least the following factors shall be considered: (a) Business necessity, (b) financial costs and expenses, and (c) resulting personnel problems.

§ 60-50.4 Enforcement.

The provisions of this part are subject to the general enforcement, compliance review, and complaint procedures set forth in Subpart B of Part 60-1 of this chapter.

§ 60-50.5 Nondiscrimination.

The provisions of this part are not intended and shall not be used to discriminate against any qualified employee or applicant for employment because of race, color, religion, sex, or national origin.

60-60.6 Exit conference.
60-60.7 Time schedule for completion.
60-60.8 Supersedure.
60-60.9 Attachments.

AUTHORITY: 5 U.S.C. 553(a)(3)(B), 29 CFR 2.7; sec. 201, E.O. 11246, 30 FR 12319, and E.O. 11375, 32 FR 14303, as amended by E.O. 12086.

Subpart A—General

§ 60-60.1 Purpose and scope.

This part shall be known as "Revised Order No. 14" and is intended to establish standardized contractor evaluation procedures for conducting compliance reviews of contractors for supplies and services subject to the Equal Employment Opportunity Requirements of 41 CFR 60-1.40 and 41 CFR Part 60-2 (Revised Order No. 4) for the development of written affirmative action programs.

§ 60-60.2 Background.

(a) Each prime contractor or subcontractor with 50 or more employees and a contract of $50,000 or more is required to develop a written affirmative action program for each of its establishments (§ 60-1.40 of this chapter). If a contractor fails to submit an affirmative action program and supporting documents, including the workforce analysis within 30 days of a request therefor, the enforcement procedures specified in OFCC Order No. 4 (§ 60-2.2(c) of this chapter) shall be applicable.

(b) Required affirmative action programs must contain a utilization analysis and goals and timetables as required in §§ 60-2.11 and 60-2.12 of this chapter.

Subpart B—Procedures for Contractor Evaluation

§ 60-60.3 Agency actions.

Basic steps. A contractor evaluation should proceed as follows: (1) A desk audit of the contractor's affirmative action program with special attention directed to the included workforce analysis, using the format set forth in the Standard Compliance Review Report, (2) an on-site review of those matters which still are not fully or satisfactorily addressed in the affirmative action program and workforce analysis, using the format set forth in the Standard Compliance Review Report and (3) where necessary, an off-site analysis of information supplied by the contractor during or pursuant to the on-site review. (The standard compliance review report will be published on or before the effective date of this part.) Contractors may reach agreement with OFCCP on nationwide AAP formats or on frequency of updating statistics.

(a) *Desk Audit.* Using its approved methods of priority selection, OFCCP shall routinely request from among the Federal contractors within their jurisdiction affirmative action programs and supporting documentation, including the workforce analysis and support data for audit. As used throughout this part, the term "Affirmative Action Program (AAP) and supporting documentation" means the Required Contents of Affirmative Action Programs, as set forth in Subpart B of 41 CFR Part 60-2 and Methods of Implementing the Requirements of Subpart B, set forth in Subpart C of 41 CFR Part 60-2. "Workforce analysis" is defined as a listing of each job title as appears in applicable collective bargaining agreements or payroll records (not job groups) ranked from the lowest paid to the highest paid within each department or other similar organizational unit including departmental or unit supervision. If there are separate work units or lines of progression within a department a separate list must be provided for each such work unit, or line, including unit supervisors. For lines of progression there must be indicated the order of jobs in the line through which an employee could move to the top of the line. Where there are no formal progression lines or usual promotional sequences, job titles should be listed by department, job families, or disciplines, in order of wage rates or salary ranges. For each job title, the total number of incumbents, the total number of male and female incumbents, and the total number of male and female incumbents in each of the following groups must be given: Blacks, Spanish-surnamed Americans, American Indians, and Orientals. The wage rate or salary range for each job title must be given. All job titles, including all managerial job titles, must be listed.

(1) *Exceptions to the desk audit requirements.* For preaward reviews and for complaint investigations, the desk audit need not be carried out or an abbreviated desk audit may be performed and an immediate on-site review performed. Special reports that meet the criteria in paragraph (b)(1) of this section may be requested from contractors, as required, for submission to the OFCCP for complaint investigations and follow-up reviews performed within 1 year of a full compliance review. The Director may approve other special compliance reviews when the circumstances require an immediate on-site review.

(b) *On-site review.* If upon selection of an AAP and included workforce analysis for desk audit, the OFCCP finds that the material submitted does not demonstrate a reasonable effort by the contractor to meet all the requirements of Subparts B and C of Order No. 4 (Part 60-2 of this chapter) the on-site review need not be carried out and the enforcement procedures specified in Order 4 shall be applicable. Otherwise following a desk audit of the affirmative action program and supporting documentation the OFCCP will schedule an on-site review of the establishment, provided, that an on-site review need not be carried out when OFCCP can determine that the contractor's affirmative action program is acceptable. This determination must be based on the current desk audit and an on-site review conducted within the preceding 24 months and also must include an affirmative determination that the circumstances of the previous on-site review have not substantially changed.

(1) OFCCP is to request from those contractors scheduled for on-site reviews that information necessary to perform the review be made available on-site. Specifically, this includes (i) information necessary to conduct an indepth analysis of apparent deficiencies in the contractors utilization of women or minorities, (ii) information required for a complete and thorough understanding of data contained in or offered as support for the affirmative action program, and (iii) information concerning matters relevant to a determination of compliance with the requirements of Executive Order 11246 (as amended), but not adequately addressed in the affirmative action program. However, the contractor should be requested to furnish only the specific items of information which the compliance officer determines are:

(*a*) Necessary for conducting the review and completing the standard compliance review report, and

(*b*) Not contained in or able to be derived from the material submitted by the contractor.

(2) In order to pursue certain issues uncovered in the compliance review, it may be necessary for the compliance officer to request certain additional information on-site even though such data have not been previously identified. Such additonal information must also meet the above criteria.

(c) *Off-site analysis.* Where necessary, the compliance officer may take information made available during the on-site review off-site for further analysis. An off-site analysis should be conducted where issues have arisen concerning deficiencies or an apparent violation which, in the judgment of the compliance officer, should be more thoroughly analyzed off-site before a determination of compliance is made.

Subpart C—Disclosure and Review of Contractor Data

§ 60-60.4 Confidentiality and relevancy of information.

(a) *Desk audit data.* If the contractor is concerned with the confidentiality of such information as lists of employees, employee names, reasons for termination and pay data then alphabetic or numeric coding or the use of an index of pay and pay ranges are acceptable for desk audit purposes.

(b) *On-site data.* The contractor must provide full access to all relevant data on-site as required by § 60-1.43 of this chapter.

an investigatory file compiled for law enforcement purposes within the meaning of 5 U.S.C. 552(b)(7), and such information obtained from a con-

OFCC for good cause shown, within 60 days from the date the affirmative action program including the workforce analysis is received, the contrac-

60-250.28 Actions for noncompliance.

ment corporation, which enters into contracts.

"Contractor" means, unless otherwise indicated, a prime contractor or

"Subcontract" means any agreement or arrangement between a contractor and any person (in which the parties do not stand in the relationship of an

V 4 3 / 2 0 4 0 C 2 0 7 8

(b) *On-site data.* The contractor must provide full access to all relevant data on-site as required by § 60-1.43 of this chapter.

(c) *Data required for off-site analysis.* The contractor must provide all data determined by the compliance officer to be necessary for off-site analysis pursuant to § 60-60.3(c) above. Such data may only be coded if the contractor makes the code available to the compliance officer. If the contractor believes that particular information which is to be taken off-site is not relevant to compliance with the Executive Order, the contractor may request a ruling by the OFCCP Area Director. The OFCCP Area Director shall issue a ruling within 10 days. The contractor may appeal that ruling to the OFCCP Assistant Regional Administrator within 10 days. The Assistant Regional Administrator shall issue a final ruling within 10 days. Pending a final ruling, the information in question must be made available to the compliance officer off-site, but shall be considered a part of the investigatory file and subject to the provisions of paragraph (d) of this section. The agency shall take all necessary precautions to safeguard all confidentiality of such information until a final determination is made. Such information may not be copied and access to the information shall be limited to the compliance officer and personnel involved in the determination of relevancy. Data determined to be not relevant to the investigation will be returned to the contractor immediately.

(d) *Public access to information.* information obtained from a contractor under Subpart B will be subject to the public inspection and copying provisions of the Freedom of Information Act, 5 U.S.C. 552. Contractors should identify any information which they believe is not subject to disclosure under 5 U.S.C. 552, and should specify the reasons why such information is not disclosable. The OFCCP Assistant Regional Administrator will consider the contractors claim and make a determination, within 10 days, as to whether the material in question is exempt from disclosure. The OFCCP Assistant Regional Administrator will inform the contractor of such a determination. The contractor may appeal that ruling to the Director of OFCC within 10 days. The Director of OFCC shall make a final determination within 10 days of the filing of the appeal. However, during the conduct of a compliance review or while enforcement action against the contractor is in progress or contemplated within a reasonable time, all information obtained from a contractor under Subpart B except information disclosable under §§ 60-40.2 and 60-40.3 of this chapter is to be considered part of an investigatory file compiled for law enforcement purposes within the meaning of 5 U.S.C. 552(b)(7), and such information obtained from a contractor under Subpart B shall be treated as exempt from mandatory disclosure under the Freedom of Information Act during the compliance review.

(e) *Examination and copying of documents.* Nothing contained herein is intended to supersede or otherwise limit the provisions contained in Part 60-40 of this chapter for public access to information from records of the OFCC or its various compliance agencies.

§ 60-60.5 Employee interviews.

The compliance officer should contact, where appropriate, a reasonable number of employees for interviews as part of the on-site review of the contractors' employment practices. The number, scope and manner of conducting such interviews should be discussed in advance with the contractor.

§ 60-60.6 Exit conference.

(a) Upon completion of the on-site review (and off-site analysis, if one is undertaken) the compliance officer should schedule an exit conference with contractor officials to review the findings of the review. This exit conference should itemize the apparent violations that lend themselves to immediate correction, and solicit the contractor's agreement to take adequate corrective action by specified dates. The contractor's commitments should be contained in a written conciliation agreement signed at the exit conference. However, in cases where the apparent deficiencies require further analysis subsequent to the on-site review, the compliance officer will advise the contractor of the areas of concern, secure the data necessary to his ultimate compliance determination, complete the review later by notifying the contractor in writing of all apparent violations found, and obtain the contractor's commitments in a written conciliation agreement to correct such deficiencies.

(b) The contractor may at any time avail himself of the provisions of § 60-1.24(c)(4) of this chapter which provides as follows:

When a prime contractor or subcontractor, without a hearing, shall have complied with the recommendations or orders of the Director and believes such recommendations or orders to be erroneous, he shall, upon filing a request therefor within 10 days of such compliance, be afforded an opportunity for a hearing and review of the alleged erroneous action.

§ 60-60.7 Time schedule for completion.

(a) With the exception of extensions of time granted by the Director of OFCC for good cause shown, within 60 days from the date the affirmative action program including the workforce analysis is received, the contractor must have been found in compliance and notified of that fact, or must have been issued a 30-day show cause notice as required under the rules and regulations pursuant to the Executive Order.

(b) During this period the compliance officer shall:

(1) Complete the desk audit.

(2) Schedule the on-site review.

(3) Complete the on-site review.

(4) Complete the off-site analysis, if conducted.

(5) Give notice of compliance or issue show cause notice.

(c) Failure to give the contractor a notice of compliance or issue a show cause notice within the time period set forth in paragraph (a) shall not be deemed a finding of compliance or acceptance of the contractor's affirmative action program.

§ 60-60.8 Supersedure.

The requirements of this part 60-60 supersede the prior version of Revised Order No. 14 published at 38 FR 13376, May 21, 1973.

§ 60-60.9 Attachments.

The following formats are set out in full as they give detailed information as to procedures and requirements of value to contractors:

AUTHORITY: Sec. 503(a), Pub. L. 92-540, 86 Stat. 1097 (38 U.S.C. 2012), as amended by Sec. 402, Pub. L. 93-508, 88 Stat. 1593 (38 U.S.C. 2012), as amended by E.O. 12086.

Subpart A—Preliminary Matters, Affirmative Action Clause, Compliance

§ 60-250.1 Purpose and application.

The purpose of the regulations in this part is to assure compliance with section 402 of the Vietnam Era Veterans Readjustment Assistance Act of 1974, which requires government contractors and subcontractors to take affirmative action to employ and advance in employment qualified disabled veterans and veterans of the Vietnam era. The regulations in this part apply to all government contracts and subcontracts for the furnishing of supplies or services or for the use of real or personal property (including construction) for $10,000 or more.

§ 60-250.2 Definitions.

"Act" means the Vietnam Era Veterans Readjustment Assistance Act of 1974, Pub. L. 93-508, as it amends 38 U.S.C. 2012, the Vietnam Era Veterans Readjustment Assistance Act of 1972.

"Affirmative action clause" means the contract provisions set forth in § 60-250.4.

"Agency" means any contracting agency of the government.

"Assistant Secretary" means the Assistant Secretary of Labor for Employment Standards or his or her designee.

"Construction" means the construction, rehabilitation, alteration, conversion, extension, demolition, or repair of buildings, highways, or other changes or improvements to real property, including facilities providing utility services. The term also includes the supervision, inspection, and other onsite functions incidental to the actual construction.

"Contract" means any government contract.

"Contracting agency" means any department, agency, establishment or instrumentality of the United States, including any wholly owned Government corporation, which enters into contracts.

"Contractor" means, unless otherwise indicated, a prime contractor or subcontractor.

"Director" means the Director of the Office of Federal Contract Compliance Programs of the United States Department of Labor.

"Disabled veteran" means a person entitled to disability compensation under laws administered by the Veterans Administration for disability rated at 30 per centum or more, or a person whose discharge or release from active duty was for a disability incurred or aggravated in the line of duty.

"Government" means the Government of the United States of America.

"Government contract" means any agreement or modification thereof between any contracting agency and any person for the furnishing of supplies or services or for the use of real or personal property including lease arrangements. The term "services", as used in this section includes, but is not limited to the following services: Utility, construction, transportation, research, insurance, and fund depository, irrespective of whether the government is the purchaser or seller. The term "government contract" does not include (1) agreements in which the parties stand in the relationship of employer and employee, and (2) federally assisted contracts.

"Modification" means any alteration in the terms and conditions of a contract, including supplemental agreements, amendments, and extensions.

"Person" means any natural person, corporation, partnership, or joint venture, unincorporated association, State or local government, and any agency, instrumentality, or subdivision of such a government.

"Prime contractor" means any person holding a contract, and, for the purposes of subpart B of this part, includes any person who has held a contract subject to the act.

"Qualified disabled veteran" means a disabled veteran as defined in § 60-250.2 who is capable of performing a particular job, with reasonable accommodation to his or her disability.

"Recruiting and training agency" means any person who refers workers to any contractor or subcontractor, or who provides or supervises apprenticeship or training for employment by any contractor or subcontractor.

"Rules, regulations, and relevant orders of the Secretary of Labor" as used in paragraph (i) of the affirmative action clause means rules, regulations, and relevant orders of the Secretary of Labor or his or her designee issued pursuant to the act.

"Secretary" means the Secretary of Labor, U.S. Department of Labor.

"Subcontract" means any agreement or arrangement between a contractor and any person (in which the parties do not stand in the relationship of an employer and an employee):

(1) For the furnishing of supplies or services or for the use of real or personal property, including lease arrangements which, in whole or in part, is necessary to the performance of any one or more contracts; or

(2) Under which any portion of the contractor's obligation under any one or more contracts is performed, undertaken, or assumed.

"Subcontractor" means any person holding a subcontract and, for the purpose of subpart B of this part, any person who has held a subcontract subject to the act.

"United States" as used herein shall include the several States, the District of Columbia, the Virgin Islands, the Commonwealth of Puerto Rico, Guam, the Panama Canal Zone, American Samoa and the Trust Territory of the Pacific Islands.

"Veteran of the Vietnam era" means a person (1) who (i) served on active duty for a period of more than 180 days, any part of which occurred between August 5, 1964 and May 7, 1975, and was discharged or released therefrom with other than a dishonorable discharge, or (ii) was discharged or released from active duty for a service-connected disability if any part of such active duty was performed between August 5, 1964 and May 7, 1975, and (2) who was so discharged or released within 48 months preceding the alleged violation of the act, the affirmative action clause, and/or the regulations issued pursuant to the act.

§ 60-250.3 Coverage and waivers.

(a) *General.* (1) Transactions for less than $10,000. Contracts and subcontracts for less than $10,000 are not covered by the act. No agency, contractor or subcontractor shall procure supplies or services in less than usual quantities to avoid the applicability of the affirmative action clause.

(2) Contracts and subcontracts for indefinite quantities. With respect to indefinite delivery-type contracts and subcontracts (including, but not limited to, open-end contracts, requirement-type contracts, Federal Supply Schedule contracts, "call-type" contracts, and purchase notice agreements), the affirmative action clause shall be included unless the contracting agency has reason to believe that the amount to be ordered in any year under such contract will be less than $10,000. The applicability of the affirmative action clause shall be determined at the time of award for the first year, and annually thereafter for succeeding years, if any. Notwithstanding the above, the affirmative

action clause shall be applied to such contract whenever the amount of a single order is $10,000 or more. Once the affirmative action clause is deter-

head of the agency will notify the Director in writing within 30 days.

(c) *Withdrawal of waiver.* When a waiver has been granted for any class

(c) Listing of employment openings with the employment service system pursuant to this clause shall be made at least concurrently with the use of any other recruit-

mechanics; supervisory and nonsupervisory; technical; and executive, administrative, and professional openings as are compensated on a salary basis of less than $25,000 per

exempted by rules, regulations, or orders of the Secretary issued pursuant to the Act, so that such provisions will be binding upon each subcontractor or vendor. The contrac-

§ 60-250.6 Affirmative action policy, practices and procedures.

(a) *General requirements.* Under the

V 4 3 / 2 0 4 0 C 2 0 0 7 8

action clause shall be applied to such contract whenever the amount of a single order is $10,000 or more. Once the affirmative action clause is determined to be applicable, the contract shall continue to be subject to such clause for its duration, regardless of the amounts ordered, or reasonably expected to be ordered in any year.

(3) Work outside the United States. The requirements of the affirmative action clause are waived with respect to contracts and subcontracts with regard to work performed outside the United States by employees who were not recruited within the United States.

(4) Contracts with State or local governments. The requirements of the affirmative action clause in any contract or subcontract with a State or local government (or any agency, instrumentality or subdivision thereof) shall not be applicable to any agency, instrumentality or subdivision of such government which does not participate in work on or under the contract or subcontract.

(5) Facilities not connected with contracts. The Director may waive the requirements of the affirmative action clause with respect to any of a prime contractor's or subcontractor's facilities which he or she finds to be in all respects separate and distinct from activities of the prime contractor or subcontractor related to the performance of the contract or subcontract, provided that he or she also finds that such a waiver will not interfere with or impede the effectuation of the act. Such waivers shall be considered only upon the request of the contractor or subcontractor.

(b) *Waivers.* (1) *Specific contracts and classes of contracts.* The head of an agency, with the concurrence of the Director, may waive the application to any contract or subcontract of any part of or all the affirmative action clause when he or she deems that special circumstances in the national interest so require. The agency head, with the concurrence of the Director, may also grant such waivers to groups or categories of contracts or subcontracts of the same type where it is (i) in the national interest, (ii) found impracticable to act upon each request individually, and (iii) where such waiver will substantially contribute to convenience in administration of the act.

(2) *National security.* Any requirement set forth in the regulations in this Part shall not apply to any contract or subcontract whenever the head of the contracting agency determines that such contract or subcontract is essential to the national security and that it award without complying with such requirements is necessary to the national security. Upon making such a determination, the head of the agency will notify the Director in writing within 30 days.

(c) *Withdrawal of waiver.* When a waiver has been granted for any class of contracts or subcontracts under this section other than contracts granted waivers under paragraph (b)(2) of this section, the Director may withdraw the waiver for a specific contract or subcontract or group of contracts or subcontracts to be awarded, when in his or her judgment such action is necessary or appropriate to achieve the purposes of the act. The withdrawal shall not apply to contracts or subcontracts awarded prior to the withdrawal, except that in procurements entered into by formal advertising, or the various forms of restricted formal advertising, such withdrawal shall not apply unless the withdrawal is made more than 10 calendar days before the date set for the opening of the bids.

§ 60-250.4 Affirmative action clause.

Each agency and each contractor and subcontractor shall include the following affirmative action clause in each of its covered government contracts or subcontracts (and modifications, renewals, or extensions thereof if not included in the original contract):

AFFIRMATIVE ACTION FOR DISABLED VETERANS AND VETERANS OF THE VIETNAM ERA

(a) The contractor will not discriminate against any employee or applicant for employment because he or she is a disabled veteran or veteran of the Vietnam era in regard to any position for which the employee or applicant for employment is qualified. The contractor agrees to take affirmative action to employ, advance in employment and otherwise treat qualified disabled veterans and veterans of the Vietnam era without discrimination based upon their disability or veterans status in all employment practices such as the following: Employment upgrading, demotion or transfer, recruitment, advertising, layoff or termination, rates of pay or other forms of compensation, and selection for training, including apprenticeship.

(b) The contractor agrees that all suitable employment openings of the contractor which exist at the time of the execution of this contract and those which occur during the performance of this contract, including those not generated by this contract and including those occurring at an establishment of the contractor other than the one wherein the contract is being performed but excluding those of independently operated corporated affiliates, shall be listed at an appropriate local office of the State employment service system wherein the opening occurs. The contractor further agrees to provide such reports to such local office regarding employment openings and hires as may be required.

State and local government agencies holding Federal contracts of $10,000 or more shall also list all their suitable openings with the appropriate office of the State employment service, but are not required to provide those reports set forth in paragraphs (d) and (e).

(c) Listing of employment openings with the employment service system pursuant to this clause shall be made at least concurrently with the use of any other recruitment source or effort and shall involve the normal obligations which attach to the placing of a bona fide job order, including the acceptance of referrals of veterans and nonveterans. The listing of employment openings does not require the hiring of any particular job applicant or from any particular group of job applicants, and nothing herein is intended to relieve the contractor from any requirements in Executive Orders or regulations regarding nondiscrimination in employment.

(d) The reports required by paragraph (b) of this clause shall include, but not be limited to, periodic reports which shall be filed at least quarterly with the appropriate local office or, where the contractor has more than one hiring location in a State, with the central office of that State employment service. Such reports shall indicate for each hiring location (1) the number of individuals hired during the reporting period, (2) the number of nondisabled veterans of the Vietnam era hired, (3) the number of disabled veterans of the Vietnam era hired, and (4) the total number of disabled veterans hired. The reports should include covered veterans hired for on-the-job training under 38 U.S.C. 1787. The contractor shall submit a report within 30 days after the end of each reporting period wherein any performance is made on this contract identifying data for each hiring location. The contractor shall maintain at each hiring location copies of the reports submitted until the expiration of one year after final payment under the contract, during which time these reports and related documentation shall be made available, upon request, for examination by any authorized representatives of the contracting officer or of the Secretary of Labor. Documentation would include personnel records respecting job openings, recruitment and placement.

(e) Whenever the contractor becomes contractually bound to the listing provisions of this clause, it shall advise the employment service system in each State where it has establishments of the name and location of each hiring location in the State. As long as the contractor is contractually bound to these provisions and has so advised the State system, there is no need to advise the State system of subsequent contracts. The contractor may advise the State system when it is no longer bound by this contract clause.

(f) This clause does not apply to the listing of employment openings which occur and are filled outside of the 50 States, the District of Columbia, Puerto Rico, Guam, and the Virgin Islands.

(g) The provisions of paragraphs (b), (c), (d), and (e) of this clause do not apply to openings which the contractor proposes to fill from within his own organization or to fill pursuant to a customary and traditional employer-union hiring arrangement. This exclusion does not apply to a particular opening once an employer decides to consider applicants outside of his own organization or employer-union arrangement for that opening.

(h) As used in this clause: (1) "All suitable employment openings" includes, but is not limited to, openings which occur in the following job categories: Production and nonproduction; plant and office; laborers and

mechanics; supervisory and nonsupervisory; technical; and executive, administrative, and professional openings as are compensated on a salary basis of less than $25,000 per year. This term includes full-time employment, temporary employment of more than 3 days' duration, and part-time employment. It does not include openings which the contractor proposes to fill from within his own organization or to fill pursuant to a customary and traditional employer-union hiring arrangement nor openings in an educational institution which are restricted to students of that institution. Under the most compelling circumstances an employment opening may not be suitable for listing, including such situations where the needs of the Government cannot reasonably be otherwise supplied, where listing would be contrary to national security, or where the requirement of listing would otherwise not be for the best interest of the Government.

(2) "Appropriate office of the State employment service system" means the local office of the Federal-State national system of public employment offices with assigned responsibility for serving the area where the employment opening is to be filled, including the District of Columbia, Guam, Puerto Rico, and the Virgin Islands.

(3) "Openings which the contractor proposes to fill from within his own organization" means employment openings for which no consideration will be given to persons outside the contractor's organization (including any affiliates, subsidiaries, and the parent companies) and includes any openings which the contractor proposes to fill from regularly established "recall" lists.

(4) "Openings which the contractor proposes to fill pursuant to a customary and traditional employer-union hiring arrangement" means employment openings which the contractor proposes to fill from union halls, which is part of the customary and traditional hiring relationship which exists between the contractor and representatives of his employees.

(i) The contractor agrees to comply with the rules, regulations, and relevant orders of the Secretary of Labor issued pursuant to the act.

(j) In the event of the contractor's noncompliance with the requirements of this clause, actions for noncompliance may be taken in accordance with the rules, regulations, and relevant orders of the Secretary of Labor issued pursuant to the act.

(k) The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices in a form to be prescribed by the Director, provided by or through the contracting officer. Such notice shall state the contractor's obligation under the law to take affirmative action to employ and advance in employment qualified disabled veterans and veterans of the Vietnam era for employment, and the rights of applicants and employees.

(l) The contractor will notify each labor union or representative of workers with which it has a collective bargaining agreement or other contract understanding, that the contractor is bound by the terms of the Vietnam Era Veterans Readjustment Assistance Act, and is committed to take affirmative action to employ and advance in employment qualified disabled veterans and veterans of the Vietnam Era.

(m) The contractor will include the provisions of this clause in every subcontract or purchase order of $10,000 or more unless exempted by rules, regulations, or orders of the Secretary issued pursuant to the Act, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the Director of the Office of Federal Contract Compliance Programs may direct to enforce such provisions, including action for noncompliance.

§ 60-250.5 Applicability of the affirmative action program requirement.

(a) Within 120 days of the commencement of a contract every Government contractor or subcontractor holding a contract of $50,000 or more and having 50 or more employees shall prepare and maintain an affirmative action program at each establishment which shall set forth the contractor's policies, practices and procedures in accordance with § 60-250.6 of this part. This program may be integrated into or kept separate from other affirmative action programs of the contractor. Contractors presently holding Government contracts shall update their affirmative action programs within 120 days of the effective date of this part.

(b) The affirmative action program shall be reviewed and updated annually. If there are any significant changes in procedures, rights or benefits as a result of the annual updating, those changes shall be communicated to employees and applicants for employment.

(c) The full affirmative action program shall be available for inspection to any employee or applicant for employment upon request. The location and hours during which the program may be obtained shall be posted at each facility.

(d) The contractor shall invite all disabled veterans and veterans of the Vietnam era who wish to benefit under the affirmative action program to identify themselves to the contractor. The invitation shall state that the information is voluntarily provided, that it will be kept confidential, that refusal to provide it will not subject the applicant or employee to any adverse treatment, and that it will be used only in accordance with the Act and regulations in this part. If an applicant or employee so identifies himself or herself, the contractor should also seek the advice of the applicant or employee regarding proper placement and appropriate accommodation (an acceptable form for such an invitation is set forth in appendix A attached). Nothing in this section shall preclude an employee from informing a contractor at a future time of his or her desire to benefit from this program. Nothing in this section shall relieve a contractor from liability for discrimination under the act.

§ 60-250.6 Affirmative action policy, practices and procedures.

(a) *General requirements.* Under the affirmative action obligation imposed by the Vietnam Era Veterans Readjustment Assistance Act of 1974, contractors are required to take affirmative action to employ and advance in employment qualified disabled veterans and veterans of the Vietnam era at all levels of employment, including the executive level. Such action shall apply to all employment practices, including, but not limited to, the following: hiring, upgrading, demotion or transfer, recruitment or recruitment advertising, layoff or termination, rates of pay or other forms of compensation, and selection for training, including apprenticeship and on-the-job training programs under 38 U.S.C. 1787.

(b) *Proper consideration of qualifications.* Contractors shall reveiw their personnel processes to determine whether their present procedures assure careful, thorough and systematic consideration of the job qualifications of known disabled veteran applicants and Vietnam era veteran applicants for job vacancies filled either by hiring or promotion, and for all training opportunities offered or available. In determining the qualifications of a covered veteran, the contractor shall consider only that portion of the military record, including discharge papers, relevant to the specific job qualifications for which the veteran is being considered. To the extent that it is necessary to modify their personnel procedures, contractors shall include the development of new procedures for this purpose in their affirmative action program required under this part. These procedures must be designed so as to facilitate a review of the implementation of this requirement by the contractor or the Government. (The appendix attached is an example of an appropriate set of procedures. The procedures in appendix B are not required and contractors may develop other procedures which are appropriate to their circumstances.)

(c) *Physical and mental qualifications.* (1) The contractor shall provide in its affirmative action program, and shall adhere to, a schedule for the review of all physical or mental job qualification requirements to insure that, to the extent qualification requirements tend to screen out qualified disabled veterans, they are job related and are consistent with business necessity and the safe performance of the job.

(2) Whenever a contractor applies physical or mental job qualification requirements in the selection of applicants or employees for employment or other change in employment status such as promotion, demotion, or tran-

ing, to the extent that qualification requirements tend to screen out qualified disabled veterans, the requirements shall be related to the specific

those listed below. It is not contemplated that contractors will necessarily undertake all the listed activities or that their activities will be limited to

(5) The contractor should establish meaningful contacts with appropriate veterans' service organizations which service disabled veterans or veterans

(8) Include articles on accomplishments of disabled veterans and veterans of the Vietnam era in company publications.

(9) Post the policy on company bul-

active involvement by company representatives in the community service programs of local organizations of and for disabled veterans and veterans of the Vietnam era.

the Veterans Administration or military service from which the person was discharged or released which indicates his or her disability. Such documentation shall be updated within 1

V 4 3 / 2 0 4 0 C 2 0 7 8

ing, to the extent that qualification requirements tend to screen out qualified disabled veterans, the requirements shall be related to the specific job or jobs for which the individual is being considered and shall be consistent with business necessity and the safe performance of the job. The contractor shall have the burden to demonstrate that it has complied with the requirements of this paragraph.

(3) Nothing in this section shall prohibit a contractor from conducting a comprehensive medical examination prior to employment provided that the results of such an examination shall be used only in accordance with the requirements of this section. Whenever a contractor inquires into an applicant's or employee's physical or mental condition or conducts a medical examination prior to employment or change in employment status information obtained in response to such inquiries or examination shall be kept confidential except that:

(i) Supervisors and managers may be informed regarding restrictions on the work or duties of disabled veterans and regarding accommodations; and

(ii) First aid and safety personnel may be informed, where and to the extent appropriate, if the condition might require emergency treatment; and

(iii) Government officials investigating compliance with the act shall be informed.

(d) *Accommodation to physical and mental limitations of employees.* A contractor must make a reasonable accommodation to the physical and mental limitations of a disabled veteran unless the contractor can demonstrate that such an accommodation would impose an undue hardship on the conduct of the contractor's business. In determining the extent of a contractor's accommodation obligations, the following factors among others may be considered: (1) Business necessity and (2) financial costs and expenses.

(e) *Compensation.* In offering employment or promotions to disabled veterans, and veterans of the Vietnam era, the contractor may not reduce the amount of compensation offered because of any disability income, pension or other benefit the applicant or employee receives from another source.

(f) *Outreach, positive recruitment, and external dissemination of policy.* Contractors shall review their employment practices to determine whether their personnel programs provide the required affirmative action for employment and advancement of qualified disabled veterans and veterans of the Vietnam era. Based upon the findings of such reviews, contractors shall undertake appropriate outreach and positive recruitment activities, such as those listed below. It is not contemplated that contractors will necessarily undertake all the listed activities or that their activities will be limited to those listed. The scope of a contractor's efforts shall depend upon all the circumstances, including the contractor's size and resources and the extent to which existing employment practices are adequate.

(1) The contractor should develop internal communication of its obligation to engage in affirmative action efforts to employ qualified disabled veterans and veterans of the Vietnam era in such a manner as to foster understanding, acceptance and support among the contractor's executive, management, supervisory and all other employeess and to encourage such persons to take the necessary action to aid the contractor in meeting this obligation.

(2) The contractor should develop reasonable internal procedures to ensure that its obligation to engage in affirmative action to employ and promote qualified disabled veterans and veterans of the Vietnam era is being fully implemented.

(3) The contractor should periodically inform all employees and prospective employees of its commitment to engage in affirmative action to increase employment opportunities for qualified disabled veterans and veterans of the Vietnam era.

(4) The contractor should enlist the assistance and support of all recruiting sources including as follows:

(i) The local Veterans Employment Representative or his or her designee in the State Employment Service Office nearest each establishment where hiring takes place to recruit job ready veterans and to develop on-the-job training opportunities for covered veterans wherever feasible; (ii) The Veterans Administration Regional Office nearest each establishment to develop on-the-job training opportunities for covered veterans, and to recruit job ready veterans;

(iii) The office of the National Alliance of Businessmen nearest each establishment where hiring takes place in order to cooperate in the Jobs for Veterans' Program;

(iv) The veterans' counselors and coordinators ("Vet-Reps" and "VCIPS") on college campuses for the recruitment of covered veterans;

(v) The service officers of the national veterans groups active in the area of each establishment where hiring takes place for the recruitment of covered veterans; and

(vi) Local veterans' groups and veterans' service centers in the area of each establishment where employment services are performed near major cities, for the recruitment of covered veterans.

(5) The contractor should establish meaningful contacts with appropriate veterans' service organizations which service disabled veterans or veterans of the Vietnam era, for such purposes as advice, technical assistance and referral of potential employees. Technical assistance from the resources listed in this paragraph may consist of advice on proper placement, recruitment, training and accommodations contractors may undertake, but no such resource providng technical assistance shall have the authority to approve or disapprove the acceptability of affirmative action programs.

(6) The contractor should review employment records to determine the availability of promotable and transferrable qualified known disabled veterans and veterans of the Vietnam era presently employed, and to the determine whether their present and potential skills are being fully utilized or developed.

(7) The contractor should send written notification of company policy to all subcontractors, vendors and suppliers, requesting appropriate action on their part.

(8) The contractor should consider all qualified disabled veterans and veterans of the Vietnam era not currently in the workforce having requisite skills who can be recruited through affirmative action measures.

(g) *Internal dissemination of policy.* A strong outreach program will be ineffective without adequate internal support from supervisory and management personnel and other employees. In order to assure greater employee cooperation and participation in the contractor's efforts, the contractor should adopt, implement and disseminate this policy internally as follows:

(1) Include it in the contractor's policy manual.

(2) Publicize it in the company newspaper, magazine, annual report and other media.

(3) Conduct special meetings with executive, management, and supervisory personnel to explain the intent of the policy and individual responsibility for effective implementation, making clear the chief executive officer's attitude.

(4) Schedule special meetings with all employees to discuss policy and explain individual employee responsibilities.

(5) Discuss the policy thoroughly in both employee orientation and management training programs.

(6) Meet with union officials to inform them of the contractor's policy, and request their cooperation.

(7) Include nondiscrimination clauses in all union agreements, and review all contractual provisions to insure they are nondiscriminatory.

(8) Include articles on accomplishments of disabled veterans and veterans of the Vietnam era in company publications.

(9) Post the policy on company bulletin boards, including a statement that employees and applicants are protected from coercion, intimidation, interference or discrimination for filing a complaint or assisting in an investigation under the Act.

(h) *Responsibility for implementation.* An executive of the contractor should be designated as director or manager of company affirmative action activities under these regulations. His or her identity should appear on all internal and external communications regarding the company's affirmative action programs. This executive should be given necessary top management support and staff to manage the implementation of this program, including the following activities:

(1) Develop policy statements, affirmative action programs, and internal and external communication techniques. The latter techniques should include regular discussions with local managers, supervisors and employees to be certain the contractor's policies are being followed. In addition, supervisors should be advised that:

(i) Their work performance is being evaluated on the basis of their affirmative action efforts and results, as well as other criteria.

(ii) The contractor is obligated to prevent harassment of employees placed through affirmative action efforts, as set forth in § 60-250.51.

(2) Identify problem areas in conjunction with line management and known disabled veterans, in the implementation of the affirmative action programs, and develop solutions. This is particularly important for the accommodations requirements.

(3) Design and implement audit and reporting systems that will:

(i) Measure effectiveness of the contractor's programs.

(ii) Indicate need for remedial action.

(iii) Determine the degree to which the contractor's objectives have been attained.

(iv) Determine whether known disabled veterans and veterans of the Vietnam era have had the opportunity to participate in all company sponsored educational, training, recreational and social activities.

(v) Insure that each location is in compliance with the Act and the regulations in this Part.

(4) Serve as liaison between the contractor and enforcement agencies.

(5) Serve as liaison between the contractor and organizations of and for disabled veterans and veterans of the Vietnam era, and arrange for the active involvement by company representatives in the community service programs of local organizations of and for disabled veterans and veterans of the Vietnam era.

(6) Keep management informed of the latest developments in the entire affirmative action area.

(7) Arrange for career counseling for known disabled veterans and veterans of the Vietnam era.

(i) *Development and execution of affirmative action programs.* (1) Job qualification requirements reviewed pursuant to paragraph (c) of this section should be made available to all members of management involved in the recruitment, screening, selection, and promotion process.

(2) The contractor should evaluate the total selection process including training and promotion to insure freedom from stereotyping disabled veterans and veterans of the Vietnam era in a manner which limits their access to all jobs for which they are qualified.

(3) All personnel involved in the recruitment, screening, selection, promotion, disciplinary, and related processes should be carefully selected and trained to insure that the commitments in its affirmative action program are implemented.

(4) Formal briefing sessions should be held, preferably on company premises, with representatives from recruiting sources. Plant tours, clear and concise explanations of current and future job openings, position descriptions, worker specifications, explanations of the company's selection process, and recruiting literature should be an integral part of the briefings. Formal arrangements should be made for referral of applicants, follow up with sources, and feedback on disposition of applicants.

(5) A special effort should be made to include qualified disabled veterans or veterans of the Vietnam era on the personnel relations staff.

(6) Active participation in veterans "job fairs" is desirable.

(7) Recruiting efforts at all educational institutions should incorporate special efforts to reach disabled veterans and veterans of the Vietnam era.

(8) An effort should be made to participate in workstudy programs with Veterans' Administration rehabilitation facilities which specialize in training or educating disabled veterans.

(9) The contractor should use all available resources to continue or establish federally-assisted apprenticeship and on-the-job training programs under 38 U.S.C. 1787.

§ 60-250.7 Determination of disability.

Any disabled veteran filing an administrative complaint with the Veterans Employment Service under this part shall submit documentation from the Veterans Administration or military service from which the person was discharged or released which indicates his or her disability. Such documentation shall be updated within 1 year prior to filing the complaint.

§ 60-250.8 [Reserved]

§ 60-250.9 Labor unions and recruiting and training agencies.

(a) Whenever performance in accordance with the affirmative action clause or any matter contained in the regulations in this Part may necessitate a revision of a collective bargaining agreement, the labor union or unions which are parties to such agreements shall be given an adequate opportunity to present their views to the Director.

(b) The Director shall use his or her best efforts; directly or through contractors, subcontractors, local officials, the Veterans Administration, veterans' organizations and all other available instrumentalities, to cause any labor union, recruiting and training agency or other representative of workers who are or may be engaged in work under contracts and subcontracts to cooperate with, and to assist in, the implementation of the purposes of the Act.

Subpart B—General Enforcement and Complaint Procedure

§ 60-250.20 Subcontracts.

Each nonexempt prime contractor and subcontractor shall include the affirmative action clause prescribed in § 60-250.4 in each of their nonexempt subcontracts. The clause may be incorporated by reference in accordance with § 60-250.22.

§ 60-250.21 Adaptation of language.

Such necessary changes in language may be made to the affirmative action clause (see § 60-250.4) as shall be appropriate to identify properly the parties and their undertakings.

§ 60-250.22 Incorporation by reference.

The affirmative action clause and the regulations contained in this part may be incorporated by reference in all contracts and subcontracts.

§ 60-250.23 Incorporation by operation of the Act and agency regulations.

By operation of the Act, the affirmative action clause shall be considered to be a part of every contract and subcontract required by the Act and the regulations in this part to include such a clause, whether or not it is physically incorporated in such contracts and whether or not there is a written contract between the agency and the contractor.

V 4 3 / 2 0 4 0 C 2 0 7 8

§ 60-250.24 Duties of agencies.

(a) *General responsibility.* Each agency shall cooperate with the Director in the performance of his or her responsibilities under the Act. Such

of Labor which will proceed as provided in this section.

(c) *Contents of complaints.* Complaints must be signed by the complainants or their authorized represen-

mum period necessary to effect such changes. Upon approval of such commitment by the Director, the contractor may be considered in compliance on condition that the commitments

contractor or a prospective prime contractor or subcontractor by the Director in any of the following circumstances:

(1) An apparent violation of the af-

tor after such actions have been taken. No agency may issue a waiver under § 60-250.3(b)(1) to any contractor subject to such action without prior approval of the Director.

§60-250.51 Intimidation and interference.

The sanctions and penalties contained in this regulation may be exercised by the Director against any

V 4 3 / 2 0 4

0 C 2 0 7 8

§ 60-250.24 Duties of agencies.

(a) *General responsibility.* Each agency shall cooperate with the Director in the performance of his or her responsibilities under the Act. Such cooperation shall include the responsibility to insure that contractors are fully cognizant of their obligations under the Act and this part, to provide the Director with any information which comes to its attention that the contractor is not in compliance with the Act or this part, and to take such actions for noncompliance as set forth in § 60-250.28 as may be ordered by the Director.

(b) Reserved.

§ 60-250.25 Evaluations by the Director.

The Director shall be primarily responsible for undertaking such investigations of complaints and other matters as well as evaluations of contractor and agency performance as may be necessary to assure that the purposes of the Vietnam Veteran's Readadjustment Assistance Act, as amended are being effectively carried out.

§ 60-250.26 Complaint procedures.

(a) *Place and time for filing.* Any applicant for employment with a contractor or any employee of a contractor may, personally or by an authorized representative, file a written complaint with the Veteran's Employment Service of the Department of Labor through the Local Veteran's Employment Representative (LVER) or his designee at the local State employment office, alleging a violation of the Act or the regulations in this part. Local Veteran's Employment Representatives (LVERs) will assist veterans in preparing complaints and will promptly refer such complaints to the Director. The LVERs will keep a record of all complaints received and forwarded. LVERs will be informed of the progress and results of the veterans' complaint investigations. The State employment services shall cooperate with the Director in the investigation of any complaint. Such complaint is to be filed not later than 180 days from the date of the alleged violation unless the time for filing is extended by the Director for good cause shown.

(b) *Referral to contractor.* When a complaint is filed by an employee of a contractor and the contractor has an applicable internal review procedure, the complaint shall be referred to the contractor for processing under that procedure. The complaint and all actions taken thereunder shall be kept confidential by the contractor. If there has not been a resolution of the complaint under that procedure satisfactory to the complainant within 60 days of the referral, the LVER will refer the complaint to the Department of Labor which will proceed as provided in this section.

(c) *Contents of complaints.* Complaints must be signed by the complainants or their authorized representatives and must contain the following information: (1) Name and address (including telephone number) of the complainant, (2) name and address of the contractor or subcontractor who committed the alleged violation, (3) a description of the act or acts considered to be a violation, (4) a copy of the veteran's form DD-214, and, where applicable, VAL-5 or similar VA certification indicating the percent of disability, updated within 1 year prior to the date the complaint is filed, and (5) other pertinent information available which will assist in the investigation and resolution of the complaint, including the name of any known Federal agency with which the employer has contracted.

(d) *Incomplete information.* Where a complaint contains incomplete information, the Director shall seek the needed information from the complainant. If the information is not furnished to the agency or the Director within 60 days of the date of such request, the case may be closed.

(e) *Investigations.* The Department of Labor shall institute a prompt investigation of each complaint, and shall be responsible for developing a complete case record. A complete case record consists of the following: (1) Name and address of each person interviewed, (2) a summary of his or her statement, (3) copies or summaries of pertinent documents, (4) a narrative summary of the evidence disclosed in the investigation as it related to each charge, and (5) recommended findings and resolution.

(f) [Reserved]

(g) *Resolution of matters.* (1) If the complaint investigation shows no violation of the Act or regulations in this part, or if the Director decides not to initiate administrative or legal proceedings against the contractor, the complainant shall be so notified. Within 30 days, the complainant may request review by the Director of such a finding or decision.

(2) Where an investigation indicates that the contractor has not complied with the requirements of the Act or this part, efforts shall be made to secure compliance through conciliation and persuasion within a reasonable time. Before the contractor or subcontractor can be found to be in compliance, it must make a specific commitment, in writing, to take corrective action to meet the requirements of the Act and this part. The commitment must indicate the precise action to be taken and dates for completion. The time period allowed should be no longer than the minimum period necessary to effect such changes. Upon approval of such commitment by the Director, the contractor may be considered in compliance on condition that the commitments are kept.

(3) Where the complaint investigation indicates a violation of the Act or regulations in this part (and the complaint has not been resolved by informal means), the Director shall afford the contractor an opportuinty for a hearing in accordance with § 60-250.29.

§ 60-250.27 Noncompliance with the affirmative action clause.

Noncompliance with the prime contractor's or subcontractor's obligations under the affirmative action clause is a ground for taking appropriate action for noncompliance as set forth in § 60-250.28 by the Director, prime contractor, or subcontractor.

§ 60-250.28 Actions for noncompliance.

(a) *General.* In every case where any complaint investigation indicates the existence of a violation of the affirmative action clause or these regulations, the matter should be resolved by informal means, including conciliation, and persuasion, whenever possible. This will also include establishing a corrective action program in accordance with § 60-250.26(g)(2). Where the apparent violation is not resolved by informal means, the Director shall proceed in accordance with the enforcement procedures contained in this part.

(b) *Judicial enforcement.* In addition to the administrative remedies set forth herein, the Director may, within the limitations of applicable law, seek appropriate judicial action to enforce the contractual provisions set forth in § 60-250.4 including appropriate injunctive relief.

(c) *Withholding progress payments.* With the prior approval of the Director so much of the accrued payment due on the contract or any other contract between the Government prime contractor and the Federal Government may be withheld as necessary to correct any violations of the provisions of the affirmative action clause.

(d) *Termination.* A contract or subcontract may be canceled or terminated, in whole or in part, for failure to comply with the provisions of the affirmative action clause.

(e) *Debarment.* A prime contractor or subcontractor or a prospective contractor or subcontractor may be debarred from receiving future contracts for failure to comply with the provisions of the affirmative action clause.

§ 60-250.29 Formal hearings.

(a) *Hearing opportunity.* An opportunity for a formal hearing shall be afforded to a prime contractor or a subcontractor or a prospective prime contractor or subcontractor by the Director in any of the following circumstances:

(1) An apparent violation of the affirmative action clause by a contractor or subcontractor, as shown by any investigation, is not resolved by informal means and a hearing is requested; or

(2) The Director proposes to cancel or terminate the contract or withhold progress payments, or cause the contract to be canceled or terminated or progress payments to be withheld, in whole or in part, on a contract or contracts, or to require cancellation or termination of a contract or subcontract or withholding of progress payments; or

(3) The Director proposes to declare a prime contractor or subcontractor ineligible for further contracts or subcontracts under the Act.

(b) *Hearing practice and procedure.* (1) All hearings conducted under section 402 of the Vieterans' Era Veternas' Readjustment Assistance Act of 1974 and the regulations in this part shall be governed by the Rules of Practice for Administrative Proceedings to Enforce Equal Opportunity Under Executive Order 11246 contained in 41 CFR Part 60-30 except that complaints shall be issued by the Associate Solicitor, Division of Labor Relations and Civil Rights, Office of the Solicitor, rather than by the Solicitor of Labor.

(2) For the purposes of hearings pursuant to this Part 60-250, references in 41 CFR Part 60-30 to "Executive Order 11246" shall mean section 402 of the Vietnam Era Veterans' Readjustment Assistance Act of 1974; to "Equal opportunity clause" shall mean the affirmative action clause published at 41 CFR 60-250.4; and to "regulations" shall mean the regulations contained in this part 60-250.

(3) The Administrative Law Judge's recommended findings, conclusions and decision shall be certified to the Assistant Secretary, Employment Standards Administration rather than to the Secretary (see 41 CFR 60-30.27). Accordingly, exceptions to the recommended decision (41 CFR 60-30.28) shall be filed with the Assistant Secretary, Employment Standards Administration, and the final Administrative Order contemplated by 41 CFR 60-30.30 shall be issued by the Assistant Secretary Employment Standards Administration. Except for these changes in procedure, all the other provisions of the rules of practice cited in this 41 CFR 60-741.29(b) shall remain in full force and effect.

§ 60-250.30 Notification of agencies.

The Director shall notify the heads of all agencies of any action for noncompliance taken against any contractor after such actions have been taken. No agency may issue a waiver under § 60-250.3(b)(1) to any contractor subject to such action without prior approval of the Director.

§ 60-250.31 Contractor ineligibility list.

The Director shall distribute periodically a list to all executive departments and agencies giving the names of prime contractors and subcontractors who have been declared ineligible under the regulations in this part and the Act.

§ 60-250.32 Disputed matters related to the affirmative action program.

The procedures set forth in the regulations in this part govern all disputes relative to a contractor's compliance with the affirmative action clause and the requirements of this part. Any disputes relating to issues other than compliance, including contract costs arising out of the contractor's efforts to comply, shall be determined by the disputes clause of the contract.

§ 60-250.33 Responsibilities of State employment services.

(a) Any job openings listed pursuant to § 60-250.3 which requires contractors to list their job openings with State employment services offices, shall be utilized by State employment security agencies to refer qualified disabled veterans and veterans of the Vietnam era.

(b) The local offices of the Federal-State employment service shall give priority in referral to disabled veterans and veterans of the Vietnam era to such employment openings listed by contractors and subcontractors pursuant to this part.

(c) The local employment office staff will contract employers to solicit job orders. The State employment service will make available information pertinent to a determination of whether the contractor is in compliance with the mandatory listing and reporting requirements of the affirmative action clause.

Subpart C—Ancillary Matters

§ 60-250.50 Reinstatement of ineligible contractors and subcontractors.

Any prime contractor or subcontractor debarred from further contracts or subcontracts under the Act may request reinstatement in a letter directed to the Director. In connection with the reinstatement proceedings, the prime contractor or subcontractor shall be required to show that it has established and will carry out employment policies and practices in compliance with the affirmative action clause.

§ 60-250.51 Intimidation and interference.

The sanctions and penalties contained in this regulation may be exercised by the Director against any prime contractor or subcontractor, who fails to take all necessary steps to ensure that no person intimidates, threatens, coerces, or discriminates against any individual for the purpose of interfering with the filing of a complaint, furnishing information, or assisting or participating in any manner in an investigation, compliance review, hearing, or any other activity related to the administration of the Act.

§ 60-250.52 Recordkeeping.

(a) Each contractor and subcontractor shall maintain for a period not less than 1 year records regarding complaints and actions taken thereunder, and such employment or other records as required by the Director or by this part and shall furnish such information in the form required by the Director or as the Director deems necessary for the administration of the Act and regulations issued under this part.

(b) Failure to maintain complete and accurate records as required under this section or failure to update annually the affirmative action program as required by § 60-250.5(b) constitutes noncompliance with the contractor's or subcontractor's obligations under the affirmative action clause and is a ground for the imposition of appropriate sanctions.

§ 60-250.53 Access to records of employment.

Each prime contractor and subcontractor shall permit access during normal business hours to its places of business, books, records and accounts pertinent to compliance with the Act, and all rules and regulations promulgated pursuant thereto for the purposes of complaint investigations, and investigations of performance under the affirmative action clause of the contract or subcontract. Information obtained in this manner shall be used only in connection with the administration of the Act.

§ 60-250.54 Rulings and interpretations.

Rulings under or interpretations of the Act and the regulations contained in this Part 60-250 shall be made by the Secretary or his or her designee.

APPENDIX A

This employer is a government contractor subject to Section 402 of the Vietnam Era Veterans Readjustment Assistance Act of 1974 which requires government contractors to take affirmative action to employ and advance in employment qualified disabled veterans and veterans of the Vietnam era. If you are a disabled veteran covered by this program and would like to be considered under the affirmative action program, please tell us. This information is voluntary

V 4 3 / 2 0 4 0 C 2 0 7 8

and refusal to provide it will not subject you to discharge or disciplinary treatment. Information obtained concerning individuals shall be kept confidential, except that (i) supervisors and managers may be informed regarding restrictions on the work or duties of disabled veterans, and regarding necessary accommodations, and (ii) first aid personnel may be informed, when and to the extent appropriate, if the condition might require emergency treatment. In order to assure proper placement of all employees, we do request that you answer the following question: If you have a disability which might affect your performance or create a hazard to yourself or others in connection with the job for which you are applying, please state the following: (1) The skills and procedures you use or intend to use to perform the job notwithstanding the disability and (2) the accommodations we could make which would enable you to perform the job properly and safely, including special equipment, changes in the physical layout of the job, elimination of certain duties relating to the job or other accommodations.

APPENDIX B

The following is a set of procedures which contractors may use to meet the requirements of § 60-250.6(b).

(1) The application or personnel form of each known covered veteran should be annotated to identify each vacancy for which he or she was considered, and the form should be quickly retrievable for review by the agency, the Department of Labor and the contractor's personnel officials for use in investigations and internal compliance activities.

(2) The personnel or application records of each known covered veteran should include (i) the identification of each promotion for which he or she was considered, and (ii) the identification of each training program for which he or she was considered.

(3) In each case where a covered veteran is rejected for employment, promotion or training, a statement of the reasons should be appended to the personnel file or application form. This statement should include a comparison of the qualifications of the covered veteran and the person(s) selected, as well as a description of the accommodations considered. This statement should be available to the applicant or employee concerned upon request.

(4) Where applicants or employees are selected for hire, promotion or training and the contractor undertakes any accommodation which makes it possible for him or her to place a covered veteran on the job, the application form or personnel record should contain a description of that accommodation.

AUTHORITY. Sec. 503, Pub. L. 93-1112, 87 Stat. 393 (20 U.S.C. 793), as amended by sec. 111, Pub. L. 93-516, 88 Stat. 1619 (29 U.S.C. 706) and Executive Order 11758, as amended by E.O. 12086.

Subpart A—Preliminary Matters, Affirmative Action Clause, Compliance

§ 60-741.1 Purpose and application.

The purpose of the regulations in this Part is to assure compliance with section 503 of the Rehibilitation Act of 1973, which requires government contractors and subcontractors to take affirmative action to employ and advance in employment qualified handicapped individuals. The regulations in this Part apply to all government contracts and subcontracts for the furnishing of supplies or services or for the use of real or personal property (including construction) for $2,500 or more. Compliance of a contractor with the provisions of this Part will not necessarily determine its compliance with the requirements of section 504 of the Rehabilitation Act of 1973 and compliance with section 504 will not necessarily determine compliance with section 503 and the regulations in this Part.

§ 60-741.2 Definitions.

"Act" means the Rehabilitation Act of 1973, Pub. L. 93-112, as amended by the Rehabilitation Act Amendments of 1974, Pub. L. 93-516.

"Affirmative action clause" means the contract provisions set forth in § 60-741.4.

"Agency" means any contracting agency of the government.

"Assistant Secretary" means the Assistant Secretary of Labor for Employment Standards or his or her designee.

"Construction" means the construction, rehabilitation, alteration, conversion, extension, demolition, or repair of buildings, highways, or other changes or improvements to real property, including facilities providing utility services. The term also includes the supervision, inspection, and other onsite functions incidental to the actual construction.

"Contract" means any government contract.

"Contracting agency" means any department, agency, establishment or instrumentality of the United States, including any wholly owned government corporation, which enters into contracts.

"Contractor" means, unless otherwise indicated, a prime contractor or subcontractor.

"Director" means the Director of the Office of Federal Contract Compliance Programs of the United States Department of Labor.

"Government" means the government of the United States of America.

"Government contract" means any agreement or modification thereof between any contracting agency and any person for the furnishing of supplies or services or for the use of real or personal property including lease arrangements. The term "services", as used in this section includes, but is not limited to the following services: Utility, construction, transportation, research, insurance, and fund depository, irrespective of whether the government is the purchaser or seller. The term "government contract" does not include (1) agreements in which the parties stand in the relationship of employer and employee, and (2) federally-assisted contracts.

"Handicapped individual" means any person who (1) has a physical or mental impairment which substantially limits one or more of such person's major life activities, (2) has a record of such impairment, or (3) is regarded as having such an impairment. For purposes of this Part, a handicapped individual is "substantially limited" if he or she is likely to experience difficulty in securing, retaining or advancing in employment because of a handicap. (See appendix A attached for guidelines on the applications of this definition.)

"Modification" means any alteration in the terms and conditions of a contract, including supplemental agreements, amendments, and extensions.

"Person" means any natural person, corporation, partnership or joint venture, unincorporated association, State or local government, and any agency, instrumentality, or subdivision of such a government.

"Prime contractor" means any person holding a contract, and, for the purposes of subpart B of this part, includes any person who has held a contract subject to the Act.

"Qualified handicapped individual" means a handicapped individual as defined in § 60-741.2 who is capable of performing a particular job, with reasonable accommodation to his or her handicap.

"Recruiting and training agency" means any person who refers workers to any contractor or subcontractor, or who provides or supervises apprenticeship or training for employment by any contractor or subcontractor.

"Rules, regulations, and relevant orders of the Secretary of Labor" as used in paragraph (b) of the affirmative action clause means rules, regulations, and relevant orders of the Secretary of Labor or his or her designee issued pursuant to the Act.

"Secretary" means the Secretary of Labor, U.S. Department of Labor.

"Subcontract" means any agreement or arrangement between a contractor and any person (in which the parties do not stand in the relationship of an employer and an employee):

(1) For the furnishing of supplies or services or for the use of real or personal property, including lease arrangements, which, in whole or in part, is necessary to the performance of any one or more contracts; or

(2) Under which any portion of the contractor's obligation under any one or more contracts is performed, undertaken, or assumed.

"Subcontractor" means any person holding a subcontract and, for the purpose of subpart B of this part, any person who has held a subcontract subject to the Act.

"United States" as used herein shall include the several States, the District of Columbia, the Virgin Islands, the Commonwealth of Puerto Rico, Guam, the Panama Canal Zone, American Samoa and the Trust Territory of the Pacific Islands.

§ 60-741.3 Coverage and waivers.

(a) *General.* (1) Transactions for less than $2,500. Contracts and subcontracts for less than $2,500 are not covered by the Act. No agency, contractor or subcontractor shall procure supplies or services in less than usual quantities to avoid the applicability of the affirmative action clause.

(2) Contracts and subcontracts for indefinite quantities. With respect to indefinite delivery-type contracts and subcontracts (including, but not limited to, open-end contracts, requirement-type contracts, Federal Supply Schedule contracts, "call-type" contracts, and purchase notice agreements), the affirmative action clause shall be included unless the contracting agency has reason to believe that the amount to be ordered in any year under such contract will be less than $2,500. The applicability of the affirmative action clause shall be determined at the time of award for the first year, and annually thereafter for succeeding years, if any. Notwithstanding the above, the affirmative action clause shall be applied to such contract whenever the amount of a single order is $2,500 or more. Once the affirmative action clause is determined to be applicable, the contract shall continue to be subject to such clause for its duration, regardless of the amounts ordered, or reasonably expected to be ordered in any year.

(3) Work outside the United States. The requirements of the affirmative action clause are waived with respect to contracts and subcontracts with regard to work performed outside the United States by employees who were not recruited within the United States.

(4) Contracts with State or local governments. The requirements of the affirmative action clause in any contract or subcontract with a State or local government (or any agency, instrumentality or subdivision thereof) shall not be applicable to any agency, instrumentality or subdivision of such government which does not participate in work on or under the contract or subcontract.

(5) Facilities not connected with contracts. The Director may waive the requirements of the affirmative action clause with respect to any of a prime contractor's or subcontractor's facilities which he or she finds to be in all respects separate and distinct from activities of the prime contractor or subcontractor related to the performance of the contract or subcontract, provided that he or she also finds that such a waiver will not interfere with or impede the effectuation of the Act. Such waivers shall be considered only upon the request of the contractor or subcontractor.

(b) *Waivers.* (1) Specific contracts and classes of contracts. The head of an agency, with the concurrence of the Director, may waive the application to any contract or subcontract of any part of or all the affirmative action clause when he or she deems that special circumstances in the national interest so require. The agency head, with the concurence of the Director, may also grant such waivers to groups or categories of contracts or subcontracts of the same type where it is (i) in the national interest, (ii) found impracticable to act upon each request individually, and (iii) where such waiver will substantially contribute to convenience in administration of section 503 of the Act.

(2) National security. Any requirement set forth in the regulations in this Part shall not apply to any contract or subcontract whenever the head of the contracting agency determines that such contract or subcontract is essential to the national security and that its award without complying with such requirements is necessary to the national security. Upon making such a determination the head of the agency will notify the Director in writing within 30 days.

(c) *Withdrawal of waiver.* When a waiver has been granted for any class of contracts or subcontracts under this section other than contracts granted waivers under paragraph (b)(2) of this section, the Director may withdraw the waiver for a specific contract or subcontract or group of contracts or subcontracts to be awarded, when in his or her judgment such action is necessary or appropriate to achieve the purposes of the Act. The withdrawal shall not apply to contracts or subcontracts awarded prior to the withdrawal, except that in procurements entered into by formal advertising, or the various forms of restricted formal advertising, such withdrawal shall not apply unless the withdrawal is made more than 10 calendar days before the date set for the opening of the bids.

§ 60-741.4 Affirmative action clause.

Each agency and each contractor and subcontractor shall include the following affirmative action clause in each of its covered government contracts or subcontracts (and modifications, renewals, or extensions thereof if not included in the original contract).

AFFIRMATIVE ACTION FOR HANDICAPPED WORKERS

(a) The contractor will not discriminate against any employee or applicant for employment because of physical or mental handicap in regard to any position for which the employee or applicant for employment is qualified. The contractor agrees to take affirmative action to employ, advance in employment and otherwise treat qualified handicapped individuals without discrimination based upon their physical or mental handicap in all employment practices such as the following: Employment, upgrading, demotion or transfer, recruitment, advertising, layoff or termination, rates of pay or other forms of compensation, and selection for training, including apprenticeship.

(b) The contractor agrees to comply with the rules, regulations, and relevant orders of the Secretary of Labor issued pursuant to the Act.

(c) In the event of the contractor's noncompliance with the requirements of this clause, actions for noncompliance may be taken in accordance with the rules, regulations, and relevant orders of the Secretary of Labor issued pursuant to the Act.

(d) The contractor will include the provisions of this clause in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary issued pursuant to the Act, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the Director of the Office of Federal Contract Compliance Programs may direct as a means of enforcing such provisions, including action for noncompliance.

§ 60-741.5 Applicability of the affirmative action program requirement.

(a) Except as provided in paragraph (b) of this section, every contract and subcontract entered into by a contracting agency which is subject to the affirmative action clause shall require the contractor to maintain an affirmative action program at each establishment which shall be available to employees and applicants for employment for inspection upon request by the Director or his or her designee.

(b) Contracts and subcontracts with State or local governments (or any agency, instrumentality or subdivision thereof) shall not be required to maintain an affirmative action program at any establishment which does not participate in work on or under the contract or subcontract.

§ 60-741.6 Affirmative action policy, practices and procedures.

(a) *Policy.* Each contractor shall develop a written affirmative action policy which shall be reviewed and approved annually by a responsible official of the contractor. The policy shall be communicated to all employees and applicants for employment.

(b) *Practices and procedures.* Each contractor shall develop practices and procedures to implement its policy. These practices and procedures must be designed so as to facilitate a review of the implementation of this requirement. Practices and procedures shall be reviewed and updated annually.

(c) *Dissemination of policy.* Each contractor shall disseminate its policy to employees and applicants for employment by including it in any employee or applicant handbook or other publication describing the employment policies or practices of the contractor, and shall specifically bring it to the attention of employees who have any responsibility for hiring, assignment, promotion or other employment decisions affecting applicants or employees. Each contractor shall also disseminate its policy to labor unions and recruiting and training agencies which refer workers to the contractor for employment, and to subcontractors and vendors. Methods of dissemination shall include:

(1) Posting the policy on bulletin boards accessible to employees at each location where the contractor has a facility.

(2) Including it in any employee or applicant handbook or other publication describing the employment policies or practices of the contractor.

(3) Publicizing it in the company newspaper, magazine, annual report or other publication.

(4) Conducting meetings with employees, labor unions and recruiting and training agencies to explain the policy.

(5) Including it in any bid proposal form or other document which is circulated to subcontractors or vendors.

(6) Including it in any policy manual or collective bargaining agreement.

(d) *Responsibility for implementation.* Each contractor shall appoint a responsible official to implement its affirmative action policy and practices and procedures. The name of the official shall be communicated to employees and applicants for employment.

(e) *Training.* Each contractor shall provide training for all personnel who have any responsibility for hiring, assignment, promotion or other employment decisions affecting applicants or employees. Training shall be provided for new employees and periodically for present employees.

(f) *Applicant flow.* Each contractor shall maintain a record of the number of applicants for employment who are handicapped individuals. The record shall indicate the action taken with respect to each such applicant. Where an applicant is hired, promoted or transferred, the record shall indicate the position applied for and the position filled. Where an applicant is not hired, promoted or transferred, the record shall indicate the reason for such action. Where the reason for not hiring, promoting or transferring a handicapped applicant is that the applicant is not qualified for the position sought, the record shall indicate what accommodation, if any, was considered necessary for the applicant to perform the position properly and safely. Where the reason for not hiring, promoting or transferring a handicapped applicant is that the applicant is not qualified for the position sought because of his or her handicap, the record shall indicate what accommodation, if any, was considered necessary for the applicant to perform the position properly and safely.

(g) *Accommodation to physical and mental limitations.* (1) Each contractor shall make a reasonable accommodation to the physical and mental limitations of an employee or applicant for employment who is a handicapped individual, unless the contractor can demonstrate that such an accommodation would impose an undue hardship on the conduct of the contractor's business. Reasonable accommodation may include, but is not limited to, making facilities used by employees readily accessible to and usable by handicapped individuals, job restructuring, part-time or modified work schedules, acquisition or modification of equipment or devices, the provision of readers or interpreters, and similar actions.

(2) In determining whether an accommodation would impose an undue hardship on the conduct of the contractor's business, factors to be considered include:

(i) The overall size of the business of the contractor with respect to number of employees, number and type of facilities, and size of budget;

(ii) The type of the contractor's operations, including the composition and structure of the contractor's workforce;

(iii) The nature and cost of the accommodation needed.

(3) A contractor may not claim that the cost of necessary accommodation is an undue hardship where advance provision for such cost has been made, where the cost is borne by other entities, such as insurance or a rehabilitation agency, or where the cost is paid or reimbursed under any law providing such payment (except that the contractor may require the payment of insurance deductibles or co-payments that are required of nonhandicapped individuals).

(4) The contractor may not claim that the cost of necessary accommodation is an undue hardship because of the attitudes of other employees.

(h) *Selection procedures.* Selection procedures such as employment tests or other selection criteria shall be reviewed prior to their use or continued use to ensure that they do not discriminate against handicapped individuals who are qualified for the position in question.

(i) *Procedures to preclude physical and mental limitations.* Each contractor shall review its facilities and practices and procedures to ensure that handicapped individuals are not denied employment opportunities because of unnecessary barriers to employment.

§ 60-741.7 Determination of handicap.

(a) *Preemployment inquiry.* Except as provided in paragraph (b) of this section, a contractor may not make preemployment inquiry as to whether an applicant for employment is a handicapped individual or as to the nature or severity of a handicap. A contractor may make preemployment inquiry into an applicant's ability to perform job-related functions.

(b) *When permissible.* A contractor may make preemployment inquiry as to whether an applicant for employment is a handicapped individual and as to the nature or severity of a handicap at the following times:

(1) When an applicant requests or indicates a need for accommodation to the interview process, the contractor may inform the applicant of the process that is available and may request the applicant to indicate what accommodation the applicant will need;

(2) When the contractor is taking remedial action to correct for past discrimination pursuant to paragraph (b) of this section or to increase the number of handicapped individuals in its workforce pursuant to paragraph (c) of this section, the contractor may request that handicapped individuals inform the contractor of their handicap;

(3) When the contractor is taking affirmative action pursuant to paragraph (c) of this section, the contractor may request that handicapped individuals inform the contractor of their handicap;

(4) When an applicant is applying for a position which has been designated as one for which affirmative action is needed, the contractor may request that handicapped individuals inform the contractor of their handicap.

(c) *Affirmative action.* Each contractor shall undertake affirmative action to employ and advance in employment qualified handicapped individuals. (A list of numerous national organizations serving the handicapped, many

applicant unless the contractor can demonstrate that such an accommodation would impose an undue hardship on the conduct of the contractor's

meaningful employment opportunities to qualified handicapped individuals.

(1) Include it in the contractor's policy manual.

(2) Publicize it in the company newspaper, magazine, annual report and

V 4 3 1 2 0 4 0 C 2 0 7 8

(c) In the event of the contractor's noncompliance with the requirements of this clause, actions for noncompliance may be taken in accordance with the rules, regulations, and relevant orders of the Secretary of Labor issued pursuant to the Act.

(d) The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices in a form to be prescribed by the Director, provided by or through the contracting officer. Such notices shall state the contractor's obligation under the law to take affirmative action to employ and advance in employment qualified handicapped employees and applicants for employment, and the rights of applicants and employees.

(e) The contractor will notify each labor union or representative of workers with which it has a collective bargaining agreement or other contract understanding, that the contractor is bound by the terms of section 503 of the Rehabilitation Act of 1973, and is committed to take affirmative action to employ and advance in employment physically and mentally handicapped individuals.

(f) The contractor will include the provisions of this clause in every subcontract or purchase order of $2,500 or more unless exempted by rules, regulations, or orders of the Secretary issued pursuant to section 503 of the Act, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the Director of the Office of Federal Contract Compliance Programs may direct to enforce such provisions, including action for noncompliance.

§ 60-741.5 Applicability of the affirmative action program requirement.

(a) Within 120 days of the commencement of a contract every government contractor or subcontractor holding a contract of $50,000 or more and having 50 or more employees shall prepare and maintain an affirmative action program at each establishment which shall set forth the contractor's policies, practices and procedures in accordance with § 60-741.6 of this Part. This program may be integrated into or kept separate from other affirmative action programs of the contractor. Contractors presently holding government contracts shall update their affirmative action programs within 120 days of the effective date of this Part.

(b) The affirmative action program shall be reviewed and updated annually. If there are any significant changes in procedures, rights or benefits as a result of the annual updating, those changes shall be communicated to employees and applicants for employment.

(c) (1) The contractor shall invite all applicants and employees who believe themselves covered by the Act and who wish to benefit under the affirmative action program to identify themselves to the contractor. The invitation shall state that the information is voluntarily provided, that it will be kept confidential, that refusal to provide it will not subject the applicant or employee to any adverse treatment, and that it will be used only in accordance with the Act and the regulations in this Part. If an applicant or employee so identifies himself or herself the contractor should also seek the advice of the applicant or employee regarding proper placement and appropriate acommodation. (An acceptable form for such an invitation is set forth in Appendix B attached.)

(2) Nothing in this section shall preclude an employee from informing a contractor at any future time of his or her desire to benefit under the program.

(3) Nothing in this section shall relieve a contractor of its obligation to take affirmative action with respect to those applicants or employees of whose handicap the contractor has actual knowledge: *Provided*, That the contractor is not obligated to search the medical files of any applicant or employee to determine the existence of a handicap.

(4) Nothing in this section shall relieve a contractor from liability for discrimination under the Act.

(d) The full affirmative action program shall be available for inspection to any employee or applicant for employment upon request. The location and hours during which the program may be obtained shall be posted at each facility.

§ 60-741.6 Affirmative action policy, practices, and procedures.

(a) *General requirements.* Under the affirmative action obligation imposed by section 503 of the Rehabilitation Act of 1973, contractors are required to take affirmative action to employ and advance in employment qualified handicapped individuals at all levels of employment, including the executive level. Such action shall apply to all employment practices, including, but not limited to, the following: Hiring, upgrading, demotion or transfer, recruitment or recruitment advertising, layoff or termination, rates of pay or other forms of compensation, and selection for training, including apprenticeship.

(b) *Proper consideration of qualifications.* Contractors shall review their personnel processes to determine whether their present procedures assure careful, thorough and systematic consideration of the job qualifications of known handicapped applicants and employees for job vacancies filled either by hiring or promotion, and for all training opportunities offered or available. To the extent that it is necessary to modify their personnel procedures, contractors shall include the development of new procedures for this purpose in their affirmative action program required under this part. These procedures must be designed so as to facilitate a review of the implementation of this requirement by the contractor or the Government. (Appendix C attached is an example of an appropriate set of procedures. The procedures in Appendix C are not required and contractors may develop other procedures which are appropriate to their circumstances.)

(c) *Physical and mental qualifications.* (1) The contractor shall provide in its affirmative action program, and shall adhere to, a schedule for the review of all physical or mental job qualification requirements to insure that, to the extent qualification requirements tend to screen out qualified handicapped individuals, they are job related and are consistent with business necessity and the safe performance of the job.

(2) Whenever a contractor applies physical or mental job qualification requirements in the selection of applicants or employees for employment or other change in employment status such as promotion, demotion or training, to the extent that qualification requirements tend to screen out qualified handicapped individuals, the requirements shall be related to the specific job or jobs for which the individual is being considered and shall be consistent with business necessity and the safe performance of the job. The contractor shall have the burden to demonstrate that it has complied with the requirements of this paragraph.

(3) Nothing in this section shall prohibit a contractor from conducting a comprehensive medical examination prior to employment provided that the results of such an examination shall be used only in accordance with the requirements of this section. Whenever a contractor inquires into an applicant's or employee's physical or mental condition or conducts a medical examination prior to employment or change in employment status information obtained in response to such inquiries or examination shall be kept confidential except that:

(i) Supervisors and managers may be informed regarding restrictions on the work or duties of handicapped individuals and regarding accommodations; and

(ii) First aid and safety personnel may be informed, where and to the extent appropriate, if the condition might require emergency treatment; and

(iii) Government officials investigating compliance with the Act shall be informed.

(d) *Accommodation to physical and mental limitations of employees.* A contractor must make a reasonable accommodation to the physical and mental limitations of an employee or applicant unless the contractor can demonstrate that such an accommodation would impose an undue hardship on the conduct of the contractor's business. In determining the extent of a contractor's accommodation obligations, the following factors among others may be considered: (1) business necessity and (2) financial cost and expenses.

(e) *Compensation.* In offering employment or promotions to handicapped individuals, the contractor may not reduce the amount of compensation offered because of any disability income, pension or other benefit the applicant or employee receives from another source.

(f) *Outreach, positive recruitment, and external dissemination of policy.* Contractors shall review their employment practices to determine whether their personnel programs provide the required affirmative action for employment and advancement of qualified handicapped individuals. based upon the findings of such reviews, contractor shall undertake appropriate outreach and positive recruitment activities, such as those listed below. It is not contemplated that contractors will necessarily undertake all the listed activities or that their activities will be limited to those listed. The scope of a contractor's efforts shall depend upon all the circumstances, including the contractor's size and resources and the extent to which existing employment practice are adequate.

(1) The contractor should develop internal communication of its obligation to engage in affirmative action efforts to employ qualified handicapped individuals in such a manner as to foster understanding, acceptance and support among the contractor's executive, management, supervisory and all other employees and to encourage such persons to take the necessary action to aid the contractor in meeting this obligation.

(2) The contractor should develop reasonable internal procedures to ensure that its obligation to engage in affirmative action to employ and promote qualified handicapped individuals is being fully implemented.

(3) The contractor should periodically inform all employees and prospective employees of its commitment to engage in affirmative action to increase employment opportunities for qualified handicapped individuals.

(4) The contractor should enlist the assistance and support of recruiting sources (including State employment security agencies, State vocational rehabilitation agencies or facilities, sheltered workshops, college placement officers, State education agencies, labor organizations and organizations of or for handicapped individuals) for the contractor's commitment to provide meaningful employment opportunities to qualified handicapped individuals. (A list of numerous national organizations serving the handicapped, many of which have State or local affiliates, is found in the "Directory of Organizations Interested in the Handicapped" published by the Committee for the Handicapped People-to-People Program, Washington, D.C.)

(5) The contractor should engage in recruitment activities at educational institutions which participate in training of the handicapped, such as schools for the blind, deaf, or retarded.

(6) The contractor should establish meaningful contracts with appropriate social service agencies, organizations of and for handicapped individuals, vocational rehabilitation agencies or facilities, for such purposes as advice, technical assistance and referral of potential employees. Technical assistance from the resources described in this paragraph may consist of advice on proper placement, recruitment, training and accommodations contractors may undertake, but no such resource providing technical assistance shall have the authority to approve or disapprove the acceptability of affirmative action programs.

(7) The contractor should review employment records to determine the availability of promotable and transferable qualified known handicapped individuals presently employed, and to determine whether their present and potential skills are being fully utilized or developed.

(8) The contractor should include handicapped workers when employees are pictured in consumer, promotional or help wanted advertising.

(9) The contractor should send written notification of company policy to all subcontractors, vendors and suppliers, requesting appropriate action on their part.

(10) The contractor should take positive steps to attract qualified handicapped persons not currently in the work force who have requisite skills and can be recruited through affirmative action measures. These persons may be located through the local chapters of organizations of and for handicapped individuals described in paragraph (f)(4).

(g) *Internal dissemination of policy.* A strong outreach program will be ineffective without adequate internal support from supervisory and management personnel and other employees, who may have had limited contact with handicapped persons in the past. In order to assure greater employee cooperation and participation in the contractor's efforts, the contractor should adopt, implement and disseminate this policy internally as follows:

(1) Include it in the contractor's policy manual.

(2) Publicize it in the company newspaper, magazine, annual report and other media.

(3) Conduct special meetings with executive, management, and supervisory personnel to explain the intent of the policy and individual responsibility for effective implementation, making clear the chief executive officer's attitude.

(4) Schedule special meetings with all employees to discuss policy and explain individual employee responsibilities.

(5) Discuss the policy thoroughly in both employee orientation and management training programs.

(6) Meet with union officials to inform them of the contractor's policy, and request their cooperation.

(7) Include nondiscrimination clauses in all union agreements, and review all contractual provisions to ensure they are nondiscriminatory.

(8) Include articles on accomplishments of handicapped workers in company publications.

(9) Post the policy on company bulletin boards, including a statement that employees and applicants are protected from coercion, intimidation, interference or discrimination for filing a complaint or assisting in an investigation under the Act.

(10) When employees are featured in employee handbooks or similar publications for employees, include handicapped employees.

(h) *Responsibility for implementation.* An executive of the contractor should be designated as director or manager of company affirmative action activities under these regulations. His or her identity should appear on all internal and external communications regarding the company's affirmative action programs. This executive should be given necessary top management support and staff to manage the implementation of this program, including the following activities:

(1) Develop policy statements, affirmative action programs, and internal and external communication techniques. The latter techniques should include regular discussions with local managers, supervisors and employees to be certain the contractor's policies are being followed. In addition, supervisors should be advised that:

(i) Their work performance is being evaluated on the basis of their affirmative action efforts and results, as well as other criteria.

(ii) The contractor is obligated to prevent harassment of employees placed through affirmative action efforts, as set forth in § 60-741.51.

(2) Identify problem areas in conjunction with line management and

V 4 3 / 2 0 4 0 C 2 0 7 8

known handicapped employees, in the implementation of the affirmative action programs, and develop solutions. This is particularly important for the accommodations requirements.

(3) Design and implement audit and reporting systems that will:

(i) Measure effectiveness of the contractor's programs.

(ii) Indicate need for remedial action.

(iii) Determine the degree to which the contractor's objectives have been attained.

(iv) Determine whether known handicapped employees have had the opportunity to participate in all company sponsored educational training, recreational and social activities.

(v) Ensure that each location is in compliance with the Act and the regulations in this Part.

(4) Serve as liaison between the contractor and OFCCP.

(5) Serve as liaison between the contractor and organizations of and for handicapped persons, and arrange for the active involvement by company representatives in the community service programs of local organizations of and for the handicapped.

(6) Keep management informed of the latest developments in the entire affirmative action area.

(7) Arrange for career counseling for known handicapped employees.

(i) *Development and execution of affirmative action programs.* (1) Job qualification requirements reviewed pursuant to paragraph (c) of this section should be made available to all members of management involved in the recruitment, screening, selection, and promotion process.

(2) The contractor should evaluate the total selection process including training and promotion to ensure freedom from stereotyping handicapped persons in a manner which limits their access to all jobs for which they are qualified.

(3) All personnel involved in the recruitment, screening, selection, promotion, disciplinary, and related processes should be carefully selected and trained to ensure that the commitments in its affirmative action program are implemented.

(4) Formal briefing sessions should be held, preferably on company premises, with representatives from recruiting sources. Plant tours, clear and concise explanations of current and future job openings, position, descriptions, worker specifications, explanations of the company's selection process, and recruiting literature should be an integral part of the briefings. Formal arrangements should be made for referral of applicants, follow up with sources, and feedback on disposition of applicants.

(5) A special effort should be made to include qualified handicapped persons on the personnel relations staff.

(6) Handicapped employees should be made available for participation in career days, youth motivation programs, and related activities in their communities.

(7) Recruiting efforts at all schools should incorporate special efforts to reach handicapped students.

(8) An effort should be made to participate in workstudy programs with rehabilitation facilities and schools which specialize in training or educating handicapped individuals.

(9) The contractor should use all available resources to continue or establish on the job training programs.

(j) *Sheltered workshops.* Contracts with sheltered workshops do not constitute affirmative action in lieu of employment and advancement of qualified handicapped individuals in the contractor's own workforce. Contracts with sheltered workshops may be included within an affirmative action program if the sheltered workshop trains employees for the contractor and the contractor is obligated to hire trainees at full compensation when such trainees become qualified as "qualified handicapped individual" as defined in § 60-741.2.

§ 60-741.7 Determination of handicap.

(a) Any handicapped individual filing a complaint with the Director under this part shall submit with his or her complaint a signed statement specifying the handicapping impairment or situation (see § 60-741.2 definition of "handicapped individual"). If the Director determines that further documentation is necessary, he or she may require the complainant to provide additional information.

(b) Any contractor requiring a determination of an applicant's or employee's handicap may require the applicant or employee to provide medical documentation of the impairment or, in the alternative, may require the applicant or employee to undergo a medical examination at the contractor's expense.

(c) Any determination of handicap required pursuant to paragraph (b) of this section must meet the requirements of § 60-741.5(c) and must be for the purpose of affirmative action and proper job placement. Information obtained therefrom shall not be used to exclude or otherwise limit the employment opportunities of qualified handicapped individuals.

(d) All medical documentation required under this section shall be based upon the American Medical Association Guides to the Evaluation of Permanent Impairment, provided that the guides shall be used only to determine the existence of impairment without regard to the degree of impairment.

§ 60-741.8 Listing of employment openings.

Contractors should request State employment security agencies to refer qualified handicapped individuals for consideration under their affirmative action programs.

§ 60-741.9 Labor unions and recruiting and training agencies.

(a) Whenever performance in accordance with the affirmative action clause or any matter contained in the regulations in this part may necessitate a revision of a collective bargaining agreement, the labor union or unions which are parties to such agreements shall be given an adequate opportunity to present their views to the Director.

(b) The Director shall use his or her best efforts, directly or through contractors, subcontractors, local officials, vocational rehabilitation facilities, and all other available instrumentalities, to cause any labor union, recruiting and training agency or other representative of workers who are or may be engaged in work under contracts and subcontracts to cooperate with, and to assist in, the implementation of the purposes of the Act.

Subpart B—General Enforcement and Complaint Procedure

§ 60-741.20 Subcontracts.

Each nonexempt prime contractor and subcontractor shall include the affirmative action clause prescribed in § 60-741.4 in each of their nonexempt subcontracts. The clause may be incorporated by reference in accordance with § 60-741.22.

§ 60-741.21 Adaptation of language.

Such necessary changes in language may be made to the affirmative action clause (see § 60-741.4) as shall be appropriate to identify properly the parties and their undertakings.

§ 60-741.22 Incorporation by reference.

The affirmative action clause and the regulations contained in this part may be incorporated by reference in all contracts and subcontracts.

§ 60-741.23 Incorporation by operation of the Act and agency regulations.

By operation of the Act, the affirmative action clause shall be considered to be a part of every contract and subcontract required by the Act and the regulations in this part to include such a clause, whether or not it is physically incorporated in such contracts and whether or not there is a written contract between the agency and the contractor.

§ 60-741.24 Duties of agencies.

(a) General responsibility. Each agency shall cooperate with the Director in the performance of his or her responsibilities under the Act. Such cooperation shall include the responsibility to insure that contractors are fully cognizant of their obligations under the Act and this part, to provide the Director with any information which comes to its attention that the contractor is not in compliance with the Act or this part, and to take such actions for noncompliance as set forth in § 60-741.28 as may be ordered by the Director.

(b) Reserved.

§ 60-741.25 Evaluations by the Director.

The Director shall be primarily responsible for undertaking such investigations of complaints and other matters as well as evaluations of contractor and agency performance as may be necessary to assure that the purposes of section 503 of the Rehabilitation Act of 1973 are being effectively carried out.

§ 60-741.26 Complaint procedures.

(a) *Place and time of filing.* Any applicant for employment with a contractor or any employee of a contractor may, personally or by an authorized representative, file a written complaint with the Director alleging a violation of the Act or the regulations in this part. Such complaint must be filed within 180 days from the date of the alleged violation, unless the time for filing is extended by the Director for good cause shown.

(b) *Referral to contractor.* When a complaint if filed by an employee of a contractor and the contractor has an applicable internal review procedure, the complaint shall be referred to the contractor for processing under that procedure. The complaint and all actions taken thereunder shall be kept confidential by the contractor. If there has not been a resolution of the complaint under that procedure satisfactory to the complainant within 60 days of the referral, the Department of Labor will proceed as provided in this section.

(c) *Contents of complaints.* Complaints must be signed by the complainants or their authorized representatives and must contain the following information: (1) Name and address (including telephone number) of the complainant, (2) name and address of the contractor or subcontractor who committed the alleged violation, (3) a description of the act or acts considered to be a violation, (4) a signed statement that the individual is handicapped or has a history of a handicap or other documentation of impairment or was regarded by the contractor as having an impairment, and (5) other pertinent information available which will assist in the investigation and resolution of the complaint, including the name of any known Federal agency with which the employer has contracted.

(d) *Incomplete information.* Where a complaint contains incomplete information, the Director shall seek the needed information from the complainant. If the information is not furnished to the Director within 60 days of the date of such request, the case may be closed.

(e) *Investigations.* The Department of Labor shall institute a prompt investigation of each complaint, and shall be responsible for developing a complete case record. A complete case record consists of the following: (1) Name and address of each person interviewed, (2) a summary of his or her statement, (3) copies or summaries of pertinent documents, (4) a narrative summary of the evidence disclosed in the investigation as it related to each charge, and (5) recommended findings and resolution.

(f) Reserved

(g) *Resolution of matters.* (1) If the complaint investigation shows no violation of the Act or regulations in this part, or if the Director decides not to initiate administrative or legal proceedings against the contractor, the complainant shall be so notified. Within 30 days, the complainant may request review by the Director of such a finding or decision.

(2) Where an investigation indicates that the contractor has not complied with the requirements of the Act or this part, efforts shall be made to secure compliance through conciliation and persuasion within a reasonable time. Before the contractor or subcontractor can be found to be in compliance, it must make a specific commitment, in writing, to take corrective action to meet the requirements of the Act and this part. The commitment must indicate the precise action to be taken and dates for completion. The time period allowed should be no longer than the minimum period necessary to effect such changes. Upon approval of such commitment by the Director, the contractor may be considered in compliance on condition that the commitments are kept.

(3) Where the complaint investigation indicates a violation of the Act or regulations in this part (and the complaint has not been resolved by informal means), the Director shall afford the contractor an opportunity for a hearing in accordance with § 60-741.29.

§ 60-741.27 Noncompliance with the affirmative action clause.

Noncompliance with the prime contractor's or subcontractor's obligations under the affirmative action clause is a ground for taking appropriate action for noncompliance as set forth in § 60-741.28 by the Director, prime contractor, or subcontractor.

§ 60-741.28 Actions for noncompliance.

(a) *General.* In every case where any complaint investigation indicates the existence of a violation of the affirmative action clause or these regulations, the matter should be resolved by informal means, including conciliation, and persuasion, whenever possible. This will also include establishing a corrective action program in accordance with § 60-741.26(g)(2). Where the apparent violation is not resolved by informal means, the Director shall proceed in accordance with the enforcement procedures contained in this part.

(b) *Judicial enforcement.* In addition to the administrative remedies set forth herein, the Director may, within the limitations of applicable law, seek appropriate judicial action to enforce the contractual provisions set forth in § 60-741.4 including appropriate injunctive relief.

(c) *Withholding progress payments.* With the prior approval of the Director so much of the accrued payment due on the contract or any other contract between the government prime contractor and the Federal Government may be withheld as necessary to correct any violations of the provisions of the affirmative action clause.

(d) *Termination.* A contract or subcontract may be canceled or terminated, in whole or in part, for failure to comply with the provisions of the affirmative action clause.

(e) *Debarment.* A prime contractor or subcontractor or a prospective contractor or subcontractor may be debarred from receiving future contracts for failure to comply with the provisions of the affirmative action clause.

§ 60-741.29 Formal hearings.

(a) *Hearing opportunity.* An opportunity for a formal hearing shall be afforded to a prime contractor or a subcontractor or a prospective prime contractor or subcontractor by the Director in any of the following circumstances:

(1) An apparent violation of the affirmative action clause by a contractor or subcontractor, as shown by any investigation, is not resolved by informal means and a hearing is requested; or

(2) The Director proposes to cancel or terminate the contract or withhold progress payments, or cause the contract to be canceled or terminated or progress payments to be withheld, in whole or in part, on a contract or contracts, or to require cancellation or termination of a contract or subcon-

V 4 3 / 2 0 4 0 C 2 0 7 8

tract or withholding of progress payments; or

(3) The Director proposes to declare a prime contractor or subcontractor ineligible for further contracts or subcontracts under the Act.

(b) *Hearing practice and procedure.* (1) All hearings conducted under section 503 of the Rehabilitation Act of 1973, as amended, and the regulations in this Part shall be governed by the Rules of Practice for Administrative Proceedings to Enforce Equal Opportunity Under Executive Order 11246 contained in 41 CFR Part 60-30 except that complaints shall be issued by the Associate Solicitor, Division of Labor Relations and Civil Rights, Office of the Solicitor, rather than by the Solicitor of Labor.

(2) For the purposes of hearings pursuant to this Part 60-741, references in 41 CFR Part 60-30 to "Executive Order 11246" shall mean section 503 of the Rehabilitation Act of 1973, as amended; to "equal opportunity clause" shall mean the affirmative action clause published at 41 CFR 60-741.4; and to "regulations" shall mean the regulations contained in this Part 60-741.

(3) The Administrative Law Judge's recommended findings, conclusions and decision shall be certified to the Assistant Secretary, Employment Standards Administration rather than to the Secretary (see 41 CFR 60-30.27). Accordingly, exceptions to the recommended decision (41 CFR 60-30.28) shall be filed with the Assistant Secretary, Employment Standards Administration, and the final Administrative Order contemplated by 41 CFR 60-30.30 shall be issued by the Assistant Secretary, Employment Standards Administration. Except for these changes in procedure, all the other provisions of the rules of practice cited in this 41 CFR 60-741.29(b) shall remain in full force and effect.

§ 60-741.30 Notification of agencies.

The Director shall notify the heads of all agencies of any action for noncompliance taken against any contractor after such actions have been taken. No agency may issue a waiver under § 60-741.3(b)(1) to any contractor subject to such action without prior approval of the Director.

§ 60-741.31 Contractor ineligibility list.

The Director shall distribute periodically a list to all executive departments and agencies giving the names of prime contractors and subcontractors who have been declared ineligible under the regulations in this Part and the Act.

§ 60-741.32 Disputed matters related to the affirmative action program.

The procedures set forth in the regulations in this Part govern all disputes relative to a contractor's compliance with the affirmative action clause and the requirements of this Part. Any disputes relating to issues other than compliance, including contract costs arising out of the contractor's efforts to comply, shall be determined by the disputes clause of the contract.

Subpart C—Ancillary Matters

§ 60-741.50 Reinstatement of ineligible contractors and subcontractors.

Any prime contractor or subcontractor debarred from further contracts or subcontracts under the Act may request reinstatement in a letter directed to the Director. In connection with the reinstatement proceedings, the prime contractor or subcontractor shall be required to show that it has established and will carry out employment policies and practices in compliance with the affirmative action clause.

§ 60-741.51 Intimidation and interference.

The sanctions and penalties contained in this regulation may be exercised by the Director against any prime contractor or subcontractor, who fails to take all necessary steps to insure that no person intimidates, threatens, coerces, or discriminates against any individual for the purpose of interfering with the filing of a complaint, furnishing information, or assisting or participating in any manner in an investigation, compliance review, hearing, or any other activity related to the administration of the Act.

§ 60-741.52 Recordkeeping.

(a) Each contractor and subcontractor shall maintain for a period not less than 1 year records regarding complaints and actions taken thereunder, and such employment or other records as required by the Director or by this Part and shall furnish such information in the form required by the Director or as the Director deems necessary for the adminstration of the Act and regulations issued under this Part.

(b) Failure to maintain complete and accurate records as required under this section or failure to update annually the affirmative action program as required by § 60-741.5(b) constitutes noncompliance with the contractor's or subcontractor's obligatons under the affirmative action clause and is a ground for the imposition of appropriate sanctions.

§ 60-741.53 Access to records of employment.

Each prime contractor and subcontractor shall permit access during normal business hours to its places of business, books, records and accounts pertinent to compliance with the Act, and all rules and regulations promulgated pursuant thereto for the purposes of complaint investigations, and investigations of performance under the affirmative action clause of the contract or subcontract. Information obtained in this manner shall be used only in connection with the administration of the Act.

§ 60-741.54 Rulings and interpretations.

Rulings under or interpretations of the Act and the regulations contained in this Part 741 shall be made by the Secretary or his or her designee.

APPENDIX A—GUIDELINES ON THE APPLICATION OF THE DEFINITION "HANDICAPPED INDIVIDUAL"

The Rehabilitation Act of 1973, as amended, defines a handicapped individual for the purposes of the program as any person who has a physical or mental impairment which substantially limits one or more of such person's major life activities, has a record of such impairment, or is regarded as having such an impairment.

"Life activities" may be considered to include communication, ambulation, selfcare, socialization, education, vocational training, employment, transportation, adapting to housing, etc. For the purpose of section 503 of the Act, primary attention is given to those life activities that affect employability.

The phrase *"substantially limits"* means the degree that the impairment affects employability. A handicapped individual who is likely to experience difficulty in securing, retaining or advancing in employment would be considered substantially limited.

"Has a record of such an impairment" means that an individual may be completely recovered from a previous physical or mental impairment. It is included because the attitude of employers, supervisors, and coworkers toward that previous impairment may result in an individual experiencing difficulty in securing, retaining, or advancing in employment. The mentally restored, those who have had heart attacks or cancer often experience such difficulty. Also, this part of the definition would include individuals who may have been erroneously classified and may experience discrimination based on this misclassification. This group may include persons such as those who have been misclassified as mentally retarded or mentally restored.

"Is regarded as having such an impairment" refers to those individuals who are perceived as having a handicap, whether an impairment exists or not, but who, because of attitudes or for any other reason, are regarded as handicapped by employers, or supervisors who have an effect on the individual securing, retaining or advancing in employment.

APPENDIX B

1. This employer is a government contractor subject to section 503 of the Rehabilitation Act of 1973, which requires government contractors to take affirmative action to employ and advance in employment qualified handicapped individuals. If you have such a handicap and would like to be considered under the affirmative action program, please tell us. Submission of this information is voluntary and refusal to provide it will not subject you to discharge or disciplinary treatment. Information obtained concerning individuals shall be kept confidential, except that (i) supervisors and managers may be informed regarding restrictions on the work or duties of handicapped individuals, and regarding necessary accommodations, (ii) first aid and safety personnel may be informed, when and to the extent appropriate, if the condition might require emergency treatment, and (iii) government officials investigating compliance with the Act shall be informed.

2. If you are handicapped, we would like to include you under the affirmative action program. It would assist us if you tell us about (1) any special methods, skills and procedures which qualify you for positions that you might not otherwise be able to do because of your handicap, so that you will be considered for any positions of that kind, and (2) the accommodations which we could make which would enable you to perform the job properly and safely, including special equipment, changes in the physical layout of the job, elimination of certain duties relating to the job, or other accommodations.

APPENDIX C

The following is a set of procedures which contractors may use to meet the requirements of § 60-741.6(b).

(1) The application or personnel form of each known handicapped applicant should be annotated to identify each vacancy for which the applicant was considered, and the form should be quickly retrievable for review by the agency, the Department of Labor and the contractor's personnel officials for use in investigations and internal compliance activities.

(2) The personnel or application records of each known handicapped employee should include (i) the identification of each promotion for which the handicapped employee was considered, and (ii) the identification of each training program for which the handicapped employee was considered.

(3) In each case where a handicapped employee or applicant is rejected for employment, promotion or training, a statement of the reason should be appended to the personnel file or application form. This statement should include a comparison of the qualifications of the handicapped applicant or employee and the persons selected, as well as a description of the accommodations considered. This statement should be available to the applicant or employee concerned upon request.

(4) Where applicants or employees are selected for hire, promotion or training and the contractor undertakes any accommodation which makes it possible for him or her to place a handicapped individual on the job, the application form or personnel record should contain a description of that accommodation.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday). This is a voluntary program. (See OFR notice 41 FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/COAST GUARD	USDA/ASCS		DOT/COAST GUARD	USDA/ASCS
DOT/NHTSA	USDA/APHIS		DOT/NHTSA	USDA/APHIS
DOT/FAA	USDA/FNS		DOT/FAA	USDA/FNS
DOT/OHMO	USDA/FSQS		DOT/OHMO	USDA/FSQS
DOT/OPSO	USDA/REA		DOT/OPSO	USDA/REA
CSA	CSC		CSA	CSC
	LABOR			LABOR
	HEW/FDA			HEW/FDA

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D C 20408

NOTE: As of August 14, 1978, Community Services Administration (CSA) documents are being assigned to the Monday/Thursday schedule.

federal register Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended, 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Title 7—Agriculture

CHAPTER X—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; MILK), DEPARTMENT OF AGRICULTURE

[Milk Order No. 4]

PART 1004—MILK IN THE MIDDLE ATLANTIC MARKETING AREA

Order Suspending Certain Provisions

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Suspension of rule.

SUMMARY: This action suspends for October through February the limit on the amount of milk not needed for bottling use that may be moved (diverted) directly from farms to nonpool manufacturing plants and still be priced under the order. The action also reduces the required proportion of a bottling plant's milk supply that must be disposed of in bottling use. The suspension is in response to industry requests and is based on information received at a public hearing held for this order on October 3-4, 1978, in Philadelphia, Pa. The action will enable producers who have been regularly associated with the fluid milk market to continue to have their milk pooled and priced under the order pending a decision on the proposed order amendments that were considered at the hearing.

EFFECTIVE DATE: October 23, 1978.

FOR FURTHER INFORMATION CONTACT:

Clayton H. Plumb, Marketing Specialist, Dairy Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250, 202-447-6273.

SUPPLEMENTARY INFORMATION: Prior document in this proceeding: Notice of hearing issued September 14, 1978, published September 19, 1978 (43 FR 41990).

This order of suspension is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.) and of the order regulating the handling of milk in the Middle Atlantic marketing area.

It is hereby found and determined that:

§ 1004.7 [Amended]

1. For the months of November 1978 through February 1979, the following provisions of the order do not tend to effectuate the declared policy of the Act:

In the first sentence of § 1004.7(a) the words " 50 percent in the months of September through February, and" and " in the months of March through August, ".

As suspended that portion of the first sentence would read: " * * * not less than 40 percent of its receipts * * *"

§ 1004.12 [Amended]

2. For the months of October 1978 through February 1979, the following provisions of the order do not tend to effectuate the declared policy of the Act:

In § 1004.12(d) all of the remaining words after "(other than a producer-handler plant)".

As suspended paragraph (d) would read:

"(d) A dairy farmer with respect to milk which is diverted to a nonpool plant (other than a producer-handler plant)".

STATEMENT OF CONSIDERATION

This action, based on evidence received at a public hearing held for this order on October 3-4, 1978, at Philadelphia, Pa., is requested by Inter-State Milk Producers' Cooperative and Michaels Dairies, Inc. It suspends for October 1978 through February 1979, the limit on the amount of producer milk that may be diverted from pool plants to nonpool plants by a cooperative association or a proprietary handler operating a pool plant. It also reduces the pool distributing plant class I milk route disposition requirement from 50 percent down to 40 percent of the milk supply associated with such a plant.

At the hearing proposed amendments were considered that would reduce the pool distributing plant performance standards and remove limits on the diversion of milk to nonpool plants. Proponents of the proposals testified that the amendments are needed to accommodate the pooling and efficient handling of the reserve milk supply for the market.

Certain pooling provisions of the order have been suspended since April 1978. This action will extend relaxation of the pooling standards, plus give added relief in handling milk that must be diverted to nonpool plants. The need for the suspension stems from a continuing downward trend in class I sales and the class I utilization percentage for the market to the point that without suspension action cooperative associations handling a majority of the market's milk supply would be threatened with loss of producer status for their dairy farmer members who are associated with the market.

Whether or not the pooling provisions should be amended and to what extent is a matter to be determined after the hearing record and posthearing briefs have been fully reviewed. In the interim, suspension through February 1979 is warranted, as it will tend to assure orderly marketing pending the outcome of the hearing proceeding. It is unlikely that relaxation of the pooling provisions by suspension for this temporary period will have any appreciable effect on the availability of milk for the market. This action, however, will enable the handling of the market's reserve supplies in a more efficient and more orderly manner. Also, it will eliminate the possibility of producers who are regular suppliers of milk for the fluid market losing their producer status because of the present pooling and diversion provisions and thus not having their milk priced under the order. Accordingly, this temporary suspension will permit the orderly disposal of the market's reserve milk supplies pending the completion of the hearing proceeding.

It is hereby found and determined that 30 days' notice of the effective date hereof is impractical, unnecessary, and contrary to the public interest in that:

(a) This suspension is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the marketing area in that substantial quantities of milk of producers who regularly supply the market otherwise would be excluded from the marketwide pool, thereby

causing a disruption in the orderly marketing of milk;

comments made pursuant to this notice will be available for public in-

cordance with the National Policy Act of 1969, Pub. L. 91-190 and environ-

Subpart C—Emergency Livestock Loans

suant to a line of credit guaranteed by a contract of guarantee.

§§ 1980.211-1980.214 [Reserved]

§ 1980.215 Types of guarantees

V 4 3 / 2 0 5 0 C 2 3 7 8

causing a disruption in the orderly marketing of milk;

(b) This suspension does not require of persons affected substantial or extensive preparation prior to the effective date; and

(c) The need for changing the pooling provisions was considered at a public hearing held October 3-4, 1978, where all interested parties had an opportunity to participate in this rulemaking proceeding.

It is therefore ordered, That the aforesaid provisions of the order are hereby suspended for the period October 1978 through February 1979, with respect to § 1004.12(d) and for November 1978 through February 1979, with respect to § 1004.7(a).

Effective date: October 23, 1978.

Signed at Washington, D.C., on October 18, 1978.

P. R. "BOBBY" SMITH,
Assistant Secretary for Marketing Services.

CHAPTER XVIII—FARMERS HOME ADMINISTRATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER P—GUARANTEED LOANS

PART 1980—GENERAL

Subpart C—Emergency Livestock Loans

REVISION

AGENCY: Farmers Home Administration, USDA.

ACTION: Final rule with comments requested.

SUMMARY: The Farmers Home Administration revises its regulations concerning emergency livestock loans. The intended effect is to continue making credit available during the period authorized by Pub. L. 93-357, as amended, in the form of loans guaranteed by FmHA for bona fide farmers and ranchers who have substantial livestock operations, so that they may continue their normal farming and ranching operations. This action is taken to implement a public law and to make clarification in existing regulations.

EFFECTIVE DATE: However, comments must be received on or before November 22, 1978.

ADDRESSES: Submit written comments to the Office of the Chief, Directives Management Branch, Farmers Home Administration, U.S. Department of Agriculture, Room 6316, Washington, D.C. 20250. All written comments made pursuant to this notice will be available for public inspection at the address given above.

FOR FURTHER INFORMATION CONTACT:

William Krause, 202-447-7600.

SUPPLEMENTARY INFORMATION: The Farmers Home Administration revises subpart C to part 1980, chapter XVIII, title 7 in the Code of Federal Regulations and redesignates the regulations presently in subchapter N to subchapter P "Guaranteed Loans." The need for this revision is to comply with requirements of Pub. L. 95-334 (Agricultural Credit Act of 1978) which extended the emergency livestock program from September 30, 1978, to September 30, 1979; broadened the definition of the term "United States"; broadened eligibility, and granted authority to continue making loan advances under existing emergency livestock line of credit contracts over the original repayment period or renewal period of the loan even if advance(s) are made after September 30, 1979. In addition the regulations are revised to clarify the use of escrow accounts; changes the definition of principal partners or stockholders from those owning or controlling 20 percent to those owning or controlling 10 percent. Certain of these changes should enable bona fide farmers and ranchers who have substantial livestock operations to return to conventional sources of credit more smoothly.

It is the policy of this Department that rules related to public property, loans, grants, benefits, or contracts should be published for comments notwithstanding the exemption of 5 U.S.C. 553 with respect to such rules. However, this rule is not published for proposed rulemaking since many farmers are suffering severe economic hardship and have an immediate need for this loan program. Any delay in extending the program would thus be contrary to the public interest. Although this rule is published as a final rule, the Agency is interested in receiving comments which should be submitted to the address given above. In addition to implementing the provisions required by Pub. L. 95-334 other changes which are administrative in nature are being made to clarify existing policy, and to make the emergency livestock loan procedures consistent with other guarantee farmer loan procedures.

"This document has been reviewed in accordance with FmHA Instruction 1901-G 'Environmental Impact Statements'." It is the determination of FmHA that the proposed action does not constitute a major Federal action significantly affecting the quality of the human environment and in accordance with the National Policy Act of 1969, Pub. L. 91-190 and environmental impact statement is not required.

As revised, subpart C of part 1980 reads as follows:

Subpart C—Emergency Livestock Loans

Sec.
1980.201 Introduction.
1980.202-1980.206 [Reserved]

1980.295-1980.300 [Reserved]
Appendix A—FmHA Forms.

Subpart C—Emergency Livestock Loans

§ 1980.201 Introduction.

(a) *Policy.* This subpart contains regulations for making and servicing emergency livestock (EL) loans made after (October 23, 1978) and applies to lenders, holders, borrowers, Farmers Home Administration (FmHA) personnel, and other parties involved in making, guaranteeing, holding, servicing, or liquidating such loans. Part 1980, subpart A applies to EL loans only to the extent that sections of subpart A are specifically referred to in this subpart.

(b) *Program administration.* The county supervisor is the focal point for the program and the local contact person for guarantee processing and servicing activities.

(c) *Administrative provisions.* Throughout this subpart there appear administrative provisions for the State director, District director, and county supervisor. These provisions establish the internal duties, responsibilities, and procedures to carry out the requirements of the program and are identified as "administrative."

§§ 1980.202-1980.206 [Reserved]

§ 1980.207 Definitions.

The following general definitions are applicable to this subpart. Additional definitions may be found in § 1980.6 of subpart A, of this part, except that those contained in § 1980.6(a) (2), (4), (7), (9), (13), and (14) are not applicable to cases in which a lender requests a contract of guarantee.

(a) *Act.* The Emergency Livestock Credit Act of 1974 (Pub. L. 93-357); as amended by Pub. L. 94-35 and 94-517, and title III of Pub. L. 95-334.

(b) *Applicant.* The person or entity carrying on the farming operation and desiring EL loan assistance from a lender.

(c) *Approval official.* A field official who has been delegated loan and grant approval authorities subject to the dollar limitations contained in tables available in any FmHA office.

(d) *Guaranteed line of credit.* EL loan advances made and serviced by a lender subject to a maximum amount agreed to by the lender and FmHA which is specified in a Form FmHA 1980-27, "Contract of Guarantee (Emergency Livestock Loan or Economic Emergency Loan)."

(e) *Livestock.* Beef cattle, dairy cattle, including dairy cattle raised and maintained for the primary purpose of marketing dairy products, swine, sheep, goats, chickens, and turkeys.

(f) *Loan.* Both a fixed amount loan to which a loan note guarantee will be attached and an advance(s) made pursuant to a line of credit guaranteed by a contract of guarantee.

(g) *Loan servicing.* All actions that are necessary after loan closing to collect the indebtedness and to protect the security and security rights. The term "servicing" also includes transfer and assumption and liquidation.

(h) *Mortgage.* Any form of instrument used to obtain a security interest or lien upon any rights or interest in real property of any kind. In Louisiana and Puerto Rico the term "mortgage" also refers to the instrument granting any security interest in chattel property.

(i) *Principal partner or stockholder.* Any partner of a partnership or stockholder of a corporation owning or controlling a 10 percent or more interest in the entity. If no person owns or controls as much as 10 percent, all partners or stockholders will be considered principal partners or stockholders.

(j) *Protective advances.* Payments made by the lender to third parties to protect or preserve security property.

(k) *Security.* Property of any kind subject to a real or personal property lien. Any reference to collateral or security property shall be considered a reference to the term "security."

(l) *State or United States.* Any of the 50 States, the Commonwealth of Puerto Rico, the Virgin Islands of the United States, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands.

§ 1980.208 Program objective.

The basic objective is to make more credit available during the period authorized by Pub. L. 93-357, as amended, (authority expires September 30, 1979) in the form of loans guaranteed by FmHA to bona fide farmers and ranchers who are primarily and directly engaged in agricultural production and who have substantial livestock operations, so that they may continue their normal farming or ranching operations.

§ 1980.209 Eligible lenders.

See § 1980.13 of subpart A of this part, except that in contract of guarantee cases, the form to use for the purposes of § 1980.13 (g) and (h) will be Form FmHA 1980-38, "Lenders Agreement (Emergency Livestock Loan or Economic Emergency Loan—Contract of Guarantee)."

§ 1980.210 Case and identification (ID) numbers.

See § 1980.12 of subpart A of this Part.

§§ 1980.211-1980.214 [Reserved]

§ 1980.215 Types of guarantees.

(a) *Loan note guarantee.* Lenders desiring to sell the guaranteed portion of fixed amount loans may use the method contained in subpart A of this part. In accordance with that method, loans may be made by a lender and guaranteed by issuance of Form FmHA 449-34 (1980-34), "Loan Note Guarantee." Any sale or assignment by the lender of the guaranteed portion of the loan may be accomplished in accordance with the conditions in paragraph III of Form FmHA 449-35, "Lender's Agreement", which explains the options for processing guaranteed loans to be sold in the secondary market and will be executed in loan note guarantee cases. Copies of this form may be obtained from any FmHA office.

(b) *Contract of guarantee.* Lenders desiring a guarantee on a "line of credit" may use the method contained in this subpart. Line of credit loans are guaranteed by Form FmHA 1980-27. The amount of loan advances outstanding at any one time under a contract of guarantee may not exceed the line of credit ceiling set forth in the contract.

(c) *Multiple guarantees.* Two or more loan note guarantees or contracts of guarantees may be executed with the same or different lenders to a borrower provided each loan is secured with separate collateral. The total loans must not exceed $350,000 at any time.

§ 1980.216 Full faith and credit.

The loan note guarantee and contract of guarantee constitutes an obligation supported by the full faith and credit of the United States and are incontestable except for fraud or misrepresentation of which the lender or holder has actual knowledge at the time it becomes such lender or holder or which lender or holder participates in or condones. The guarantee and right to require purchase in loan note guarantee cases will be directly enforceable by holder notwithstanding any fraud or misrepresentation by the lender or any unenforceability of the loan note guarantee by lender. The loan note guarantee and contract of guarantee will be unenforceable by the lender to the extent any loss is occasioned by violations of usury laws, use of the loan funds for unauthorized purposes, negligent servicing, or failure to obtain the required security regardless of the time at which FmHA acquires knowledge of the foregoing. As used in this section and in any loan note guarantee or contract of guarantee (including those now outstanding) in which the phrase appears, "use of loan funds for unauthorized purposes" refers to the situation in which the

lender in fact agrees with the borrower that loan funds are to be so used

(1) doing business in the United States either as an individual, corporation, or partnership which is recognized in the

gaged in other business or employment.

(2) Persons who work in agriculture

vided such individual owns at least 50 percent of the new partnership assets or corporation's voting stock and con-

§ 1980.221 Loan purposes.

EL loans may be guaranteed for purposes which are essential to carrying

to continuance of the authorized level of operation including silos and other feed storage facilities, necessary for

V 43 / 205 OCT 23 78

lender in fact agrees with the borrower that loan funds are to be so used and the phrase "unauthorized purposes" means any purpose not listed by the lender in the completed application as approved by FmHA.

§ 1980.217 Guarantee limits.

The maximum loss covered under form FmHA 449-34 (1980-34) or form FmHA 1980-27 will not exceed 90 percent of the principal and accrued interest on the indebtedness represented by the borrower's guaranteed loan promissory note(s) or assumed under an assumption agreement. Lenders and applicants will propose the percentage of guarantee. FmHA will determine the percentage of guarantee after considering all credit factors involved, including but not limited to those provisions contained in subsections (a), (b), (c), (d), and (e) of § 1980.20 of subpart A of this part. In this regard, loan guarantees will not be rejected solely because the applicant has collateral which has depreciated in value because of temporary economic conditions or temporarily lacks repayment ability because of temporary economic conditions. Instead, the percentage of the guarantee should be reduced as outlined above to compensate for any additional risk to the Government resulting from these factors. The lender and applicant will be informed in writing on Form FmHA 449-14, "Conditional Commitment for Guarantee", or Form FmHA 1980-15, "Conditional Commitment for Emergency Livestock Loan or Economic Emergency Loan—Contract of Guarantee," by FmHA of any percentage of guarantee less than that proposed by the lender and the applicant and the reasons for such a reduction.

§§ 1980.218-1980.219 [Reserved]

§ 1980.220 Eligibility.

To be eligible for an EL loan, an applicant must:

(a) *Citizen.* Be a citizen of the United States as defined above or a person who has been legally admitted for permanent residence in the United States. If a partnership, the principal partners must be citizens or such permanent residents of the United States. If a corporation, it must be incorporated under the laws of a State, its principal stockholders must be citizens or such permanent residents of the United States, and the corporation must be authorized to carry on farming or ranching operations in the State in which the EL operation is being conducted. See § 1980.207 of this subpart for definition of "principal partner or stockholder" and "United States." (b) *Bona fide farmer or rancher.* Be a bona fide farmer or rancher (owner-operator, or tenant-operator), (1) doing business in the United States either as an individual, corporation, or partnership, which is recognized in the community as one whose chief occupation is farming or ranching, (2) being primarily and directly engaged in agricultural production, and (3) having substantial operations in breeding, raising, fattening, or marketing livestock, including dairy cattle raised and maintained for the primary purpose of marketing dairy products (hereinafter referred to as a livestock operation). In the case of an individual loan applicant the term "primarily and directly engaged in agricultural production" means that the applicant derives more than 50 percent of the gross income from the applicant's own agricultural production or devotes more than 50 percent of the applicant's time to such production. The term "substantial operations in livestock" means that the applicant derives not less than 25 percent of the gross farm income from the applicant's own livestock operation, or devotes not less than 25 percent of the applicant's time to such operation, or has not less than 25 percent of the applicant's total capital investment in such operation. In the case of a corporation or partnership loan applicant, the term "primarily and directly engaged in agricultural production" means that the corporation or partnership derives more than 50 percent of its gross income from agricultural production, and the shareholders or partners owning or controlling a majority interest (more than 50 percent) in such corporation or partnership derive more than 50 percent of their gross income from their own or the corporation's or partnership's agricultural production, and devote more than 50 percent of their time to such production. The term "substantial operations in livestock" means that the corporation or partnership derives not less than 25 percent of its gross farm income from its own livestock operation, or devotes not less than 25 percent of its time to such operation, or nas not less than 25 percent of its total capital investment in such operation.

(1) Bona fide farmers and ranchers must be actually engaged in the livestock operations to be financed by the EL loan. If the applicant is an individual, the applicant must manage such livestock operation. If the applicant is a partnership or corporation, it must be managed by one or more of the partners or stockholders. In addition, bona fide farmers or ranchers do not include those commenting livestock operations or reentering such operations after July 25, 1974, or those engaged in farming, ranching, or livestock operations as a hobby or for tax shelter purposes; or those chiefly engaged in other business or employment.

(2) Persons who work in agriculture and derive more than 50 percent of their earned income from agriculture, including livestock that are fed in custom feedyards, are considered to be bona fide farmers and ranchers and may be eligible for an EL loan for their livestock feeding operation.

(3) An individual engaged in a joint livestock operation and/or owning an undivided interest in the property of such an operation is not considered a bona fide farmer for EL loan purposes. However, if the individuals engaged in the joint operation on their own decide to reorganize their operation to form a corporation or partnership, an application from the entity for an EL loan may then be accepted and considered by FmHA in accordance with this Subpart.

(4) An estate or trust; a corporation owned primarily by an estate, trust, other corporations, or other partnerships; or a partnership composed primarily of an estate, trust, corporation, or other partnerships is not considered to be a bona fide farmer or rancher for EL loan purposes.

(c) *Legal capacity.* Possess legal capacity to contract for the loan.

(d) *Ability and experience.* Possess the ability, industry, and experience necessary to carry out the proposed livestock operations to assure a reasonable prospect of success with the assistance of the loan, and honestly endeavor to carry out the undertakings and obligations required of the applicant in connection with the loan.

(e) *Credit elsewhere.* Certify that financing is not available without the guarantee. Furthermore, no loan shall be guaranteed unless the lender certifies that the lender is unwilling to provide the needed credit to the applicant without the guarantee.

(f) *Change in the form of an applicant.* Have conducted the livestock operations before July 25, 1974. A change in the form of an applicant from an individual, partnership, or corporation in existence before July 25, 1974, to another form of legal entity will not disqualify the new entity if it is conducting basically the same operation as was conducted before July 25, 1974, and is primarily owned by substantially the same people that owned the operation before July 25, 1974. If the change in the legal entity has been accompanied by a substantial change in the type(s) of livestock, it will not be financed.

(1) When an individual who was engaged in a livestock operation before July 25, 1974, later forms a partnership or corporation which continues to carry on basically the same livestock operation, the operation's application may still receive consideration provided such individual owns at least 50 percent of the new partnership assets or corporation's voting stock and continues to manage or control the livestock operation.

(2) When a partnership that was engaged in a livestock operation before July 25, 1974, later dissolves but basically the same livestock operation is continued by an individual or a newly formed partnership or corporation, an application from the individual or the new entity will receive consideration provided one or more of the partners who managed the livestock operation for the prior partnership will now manage the operation for the applicant, and provided—

(i) The assets of the prior partnership are now owned by an individual applicant who as a partner in the prior partnership had owned at least 50 percent of the partnership assets; or

(ii) The assets of the prior partnership are now owned by a new partnership applicant and the partners who had owned at a least 50 percent of the assets of the prior partnership are now partners owning at least 50 percent of the assets of the new partnership applicant; or

(iii) The assets of the prior partnership are now owned by a new corporation applicant, and the partners of the prior partnership who had owned at least 50 percent of those assets now own at least 50 percent of the voting stock of the new corporation applicant.

(3) When a corporation that was engaged in a livestock operation before July 25, 1974, dissolves but basically the same livestock operation is continued by an individual or a newly formed corporation or partnership, the appalication from the individual or new entity will receive consideration provided one or more of the stockholders who managed the livestock operation for the prior corporation must now manage the operation for the new applicant, and provided—

(i) The assets of the dissolved corporation are now owned by an individual who had owned at least 50 percent of the voting stock of the former corporation; or

(ii) The assets of the former corporation are now owned by a new partnership applicant and the stockholders who had owned at least 50 percent of that corporation are now partners owning at least 50 percent of the assets of the new partnership applicant; or

(iii) The assets of the former corporation are now owned by a new corporation applicant and the stockholders who had owned at least 50 percent of the voting stock of the former corporation are now stockholders owning at least 50 percent of the voting stock of the new corporation applicant.

§ 1980.221 Loan purposes.

EL loans may be guaranteed for purposes which are essential to carrying on livestock operations related to breeding, raising, fattening, or marketing livestock. These purposes are:

(a) Purchase of livestock for replacement or restocking purposes, but not for expansion of livestock operations beyond a level (represented by numbers of livestock) equal to the highest level reached during the eighteen months immediately preceding July 25, 1974. When operations have been expanded beyond that level, the amount of a loan which may be guaranteed will be limited to the amount that would be needed to finance the highest livestock number level reached during the eighteen months immediately preceding July 25, 1974.

(b) Purchase or production of livestock feed.

(c) Payment of customary and equitable charges for grazing permits and for the use of farm or ranch buildings, pasture land, and land for the production of feed crops.

(d) Hiring, repairing, or replacing fixtures, farm machinery, and equipment necessary for livestock production and marketing.

(e) Transportation of livestock, normally incurred in the livestock operation.

(f) Building or repair of fences and holding pens.

(g) Refinancing of secured and unsecured debts incurred for the livestock operation, when:

(1) Such refinancing is essential for the applicant to remain in business, and

(2) The lender would not refinance the loan in the absence of a guarantee, and

(3) The lender is not currently refinancing similar loans to others without such a guarantee.

(h) Payment of real estate or personal property taxes and water or drainage taxes or assessments that must be paid to permit continuation of the livestock operation.

(i) Payment of premiums on insurance necessary to obtain or secure the loan.

(j) Repair or essential improvement of livestock water supplies, and provide any pollution abatement facilities which are necessary to comply with the requirements of Federal, State, or local governments.

(k) Repair of existing irrigation systems necessary for livestock production.

(l) Payment of veterinary fees and charges for livestock medicines.

(m) Payment of the cost of hired labor used in livestock production.

(n) Payment of the cost of construction or repair and normal maintenance of farm and ranch buildings essential to continuance of the authorized level of operation including silos and other feed storage facilities necessary for livestock production.

(o) Purchase of fuel, seed, fertilizer, insecticides, farm supplies, and payment of other operating expenses that are essential to continuation of the livestock operations.

(p) Purchase any stock in a cooperative lending agency that is necessary to obtain the loan.

(q) Payment of a loan fee and costs incident to consummation of the loan as authorized in § 1980.22 of subpart A of this part.

(r) Payment of essential family living expenses.

(s) Payment of not more than 1 year's installment(s) (principal and interest) on debts secured by liens on chattels or real estate related to the livestock operation when a deferment on such obligations cannot be obtained.

§ 1980.222 Prohibited loan purposes.

No EL loan may be guaranteed which will:

(a) Establish or reestablish an applicant in livestock operations, or to permit an expansion of such operations beyond the level set forth in § 1980.221(a) of this subpart.

(b) Be used to finance livestock or poultry feeding operations when the applicant does not maintain ownership of the feeders through the normal feeding period or is only performing a service for others.

(c) Be used to finance or refinance anything not essential to the continuation of livestock enterprise. This includes the purchase of nonessential vehicles, machinery or equipment.

(d) Be used by a landlord to furnish credit, equipment, or supplies to the tenant operators, whether share, cash, or standing rent is paid by the tenants.

(e) Enable an applicant to make major changes or adjustments in the livestock operation.

(f) Be used to pay Federal or State income taxes or to pay social security taxes payable by the borrower in the borrower's own behalf.

(g) Be used to pay for labor performed by the borrower or members of the borrower's immediate family.

(h) Be used to purchase machinery or equipment, or for supplies or labor, which will be used in the handling, processing, or marketing of livestock products such as milk, eggs, wool, and mohair. However, this does not prohibit refinancing debts which have already been created for these purposes when they are part of an "overall" livestock operation indebtedness being refinanced with an EL loan under the conditions set forth in § 1980.221(g) of this subpart.

V 4 3 / 2 0 5 0 C 2 3 7 8

(i) Be used to pay "hedging" costs including brokerage fees and margins in connection with a futures contract.

(j) Be used to finance the interests of individual stockholders of a corporation or partners of a partnership in the corporate or partnership livestock operation. The corporation or partnership will be considered for one loan to cover the livestock operation being conducted by the entity.

§ 1980.223 Limitations and special provisions.

(a) *Total loans to applicants.* The total principal balance outstanding at any one time on an EL loan(s) made to assist a livestock operation shall not exceed $350,000. An applicant conducting livestock operations may be considered for more than one EL guarantee when more than one lender is involved, if each lender is financing a separate enterprise, provided (1) identifiable separate security is given to each lender and (2) the combined total principal balance outstanding at any one time on guaranteed loans for all lenders involved does not exceed $350,000.

(b) *Applicants involved in more than one operation.* Loans to applicants involved in more than one operation will be considered as follows:

(1) If an applicant who, in addition to the applicant's own livestock operation, owns or controls 50 percent or more of another livestock operation(s), and is actively engaged in both operations, both the applicant and the other livestock operation(s) may be considered for separate loans provided the combined total does not exceed the $350,000 limitation.

(2) If an applicant who, in addition to the applicant's own livestock operation, owns or controls less than 50 percent of another livestock operation(s), and is actively engaged in separate livestock operation(s), the applicant and the other farm operation(s) will be considered as separate entities for application of the $350,000 limitation.

(3) If the first applicant described in subparagraph (b) (1) and (2) of this section is found to be ineligible, such determination shall not preclude the other operation(s) in which the applicant holds an interest from being considered for an EL loan(s).

(c) *County committee certification.* A county committee certification is not required.

(d) *Program termination date.* Neither a loan note guarantee nor a contract of guarantee will be executed after September 30, 1979.

§ 1980.224 Loan rates and terms.

(a) *Interest rate to borrower.* The interest rate to be paid by the borrower to the lender will be any legal rate agreed upon between the lender and the borrower. It may be a variable or fixed rate provided it conforms to State usury laws.

(b) *Variable interest rate.* (1) A variable interest rate must be a rate that is tied to a base rate published periodically in a financial publication specifically agreed upon by the lender and borrower. It must rise and fall with the selected base rate and changes can be made no more often than quarterly. There will be no floor or ceiling on variable interest rates.

(2) It is permissible to have one interest rate on the guaranteed portion of the loan and another interest rate on the unguaranteed portion of the loan, provided the lender and borrower agree, and

(i) The rate on the unguaranteed portion does not exceed that currently being charged on loans of similar size and purpose for borrowers under similar circumstances.

(ii) The rate on the guaranteed portion of the loan will not exceed the rate on the unguaranteed portion. Fixed and variable interest rates cannot be used on the same loan.

(3) When multi-rates are used, the lender will provide FmHA with the overall effective interest rate for the entire loan.

(c) *Loan terms for loan note guarantee and contract of guarantee.* Each loan will be scheduled for repayment over a period not to exceed 7 years from the date of the guarantee or such shorter period as may be necessary to assure that the loan will be adequately secured. The borrower's needs, repayment ability, and type of security the borrower has to offer will be taken into consideration when scheduling loans for repayment. Generally, amounts advanced for annual recurring operating expenses should be scheduled for repayment from that year's income.

(d) *Repayment schedules.* In order for notes to be acceptable, the principal and interest repayment schedules will have to be clearly shown in the note(s). Use of a note with a "payment on demand" feature is not permissible unless it is modified by a supplemental agreement which waives the demand feature and sets forth the repayment schedule.

(e) *Advances under a contract of guarantee—line of credit.* A lender may pay off an outstanding guaranteed advance before the end of its term with funds from a new guaranteed advance, provided the line of credit ceiling is not exceeded. However, no advance may be made for a term which exceeds the period remaining in the original line of credit term. The original line of credit term may be up to 7 years, but is limited to the term established in the "Line of Credit Agreement." A line of credit agreement may be extended to 7 years if the initial agreement was for less than 7 years. The lender should consider extension of the line of credit agreement to the full 7 years before considering a renewal as set forth in paragraph (f) of this section.

(f) *Renewal authority for line of credit under contract of guarantee.* When FmHA and the lender determine that renewal will be in the best interst of the borrower, an EL line of credit which has reached final maturity may be renewed one time only for not more than 3 additional years. Also, additional advances under a contract of guarantee on a line of credit may be made during the renewal period provided:

(1) The borrower meets the eligibility and security requirements for an initial loan as contained in §§ 1980.220 and 1980.225, of this subpart, and

(2) A replacement note(s) is prepared setting forth the new repayment terms, and

(3) The line of credit agreement is extended to cover the renewal period when new advances are to be made, and

(4) The renewal is approved by FmHA in writing.

(g) *Renewal authority for loan note guarantee.* When FmHA and the lender determine that renewal will be in the best interest of the borrower an EL loan which has reached final maturity may be renewed one time only for 3 additional years provided:

(1) The borrower meets the eligibility and security requirements for an initial loan as contained in §§ 1980.220 and 1980.225 of this subpart, and

(2) A replacement note is prepared setting forth new repayment terms, and

(3) Approval is obtained in writing from FmHA and any holder(s).

§ 1980.225 Collateral requirements.

(a) *Collateral.* (1) The lender is responsible for seeing that proper and adequate collateral is obtained and maintained in existence and of record to protect the interest of the lender, the holder, and FmHA.

(2) Except for the modifications contained in subparagraph (c)(1) of this section, collateral must be of such a nature that repayment of the loan is reasonably assured considering the integrity and ability of the applicant's management, soundness of the operation, and the applicant's prospective earnings. Collateral may include, but is not limited to, the following: land, buildings, machinery, equipment, furniture, fixtures, inventory, accounts receivable, cash or special cash collateral accounts, personal and corporate guarantees, marketable securities, and cash surrender value of life insurance.

Collateral may also include assignments of leases or leasehold interest, revenues, patents, and copyrights.

(3) All collateral must secure the entire loan. The lender may not take separate collateral to secure only that portion of the loan or loss not covered by the guarantee. The lender may not require compensating balances or certificates of deposit as a means of eliminating the lender's exposure on the unguaranteed portion of the loan. However, compensating balances or certificates of deposit as used in the ordinary course of business may be used.

(b) *Personal and corporate guarantees.* (1) Personal guarantees from principal stockholders in a corporation and all partners of a partnership usually will be required. Guarantees of parent, subsidiaries, or affiliated companies may also be required. Guarantees will be required in sufficient amounts depending on the credit factors in each loan to reasonably assure repayment of the loan and provide adequate security.

(2) An exception to the requirements for personal guarantees or corporate guarantees may be granted by FmHA if the proposed guarantors provide written evidence through the lender to FmHA that they connot provide such guarantee due to other existing contractual obligations or legal restrictions. For those applicants providing documented evidence of successful operations for the past 3 years, guarantees will be obtained as determined by FmHA.

(3) If a review of all credit factors indicates the need for additional security, FmHA may require additional personal and corporate guarantees. FmHA also may require that such guarantees be secured. Any collateral referred to in paragraph (a)(2) of this section may be used to secure the guarantees.

(4) Guarantors of applicants will:

(i) In the case of personal guarantees, provide current financial statements (not over 60 days old at time of filing), signed by the guarantors and disclosing community or homestead property.

(ii) In the case of corporate guarantees, provide current financial statements (not over 90 days old at time of filing), certified by an officer of the corporation.

(c) *Additional requirements.* (1) If the present market value of the collateral is not in an amount at least equal to the amount of the loan, the applicant's repayment ability may be considered by the lender and FmHA (provided the FmHA loan approval official's opinion is based on the evaluation set forth in § 1980.247 of this subpart) in determining whether the loan should be made. When the applicant's repayment ability is so considered, the following conditions must also be met:

(i) The collateral has depreciated in value due to temporary economic conditions; and

(ii) The applicant's typical operating plans indicate ability to pay the loan in full in a period not exceeding 7 years; and

(iii) The applicant will give a lien on all available security property; and

(iv) The agreement between the lender and FmHA concerning the applicant's repayment ability will be indicated on either form FmHA 449-14 or form FmHA 1980-15.

(2) The lien position securing credit by the lender outside the guarantee must be junior to any liens taken for the guaranteed EL advances, or by a lien on other collateral.

(3) When the same lender is involved in an EL guaranteed loan and a separate unguaranteed loan and there will be like security for each, the EL guaranteed loan must be adequately secured by (1) a lien on separate security property that is clearly identifiable, or (2) a lien of a higher priority if the same property is used to secure both loans. In the latter case when the same security secures both loans the lender must agree in writing that the scheduled installments on the EL guaranteed loan will be paid first.

(4) The use of escrow accounts by lenders to maintain ongoing livestock operations will be established for loan note guarantee cases. This requirement is imposed by FmHA for the purposes of assisting the lender in maintaining security and in order that the lender and FmHA will have available a record of the use of both loan funds and funds received in the normal course of a borrower's livestock operation, such as proceeds received from the sale of security. Such funds placed in such an account must be assigned as collateral for the guaranteed loan made by the lender and provided further that the value of the security and the lien position of such loan is maintained. Funds disbursed will be only for authorized EL loan purposes. Lenders will maintain a running record of funds placed in, and disbursed from, the account. It is intended that escrow accounts be used primarily with loan note guarantee cases. However, the same requirements will apply should the occasion arise to use an escrow account with a contract of guarantee on a line of credit.

(5) The lender must ascertain that the borrower has marketable title in fact to the collateral pledged for the loan and there are no claims or liens of laborers, materialmen, contractors, subcontractors, suppliers of machinery and equipment or other parties against such collateral, and that no suits are pending or threatened that would adversely affect the borrower's collateral when the security instruments are filed.

(6) Hazard insurance with a standard mortgage clause naming the lender as beneficiary will be required when necessary to properly protect the interests of the Government and the lender on every loan in an amount that is at least the lesser of the replacement cost of the real estate property being insured or the amount of the loan. Insurance may be required on personal property when the loan approval official determines that it is necessary to protect the interests of the Government and the lender.

(7) If the applicant's repayment ability is being considered in determining whether the loan should be made, and FmHA and the lender agree, life insurance will be required for the individual borrower or for the principals and key employees of the borrower and will be assigned or pledged to the lender. This life insurance may be decreasing term insurance. A schedule of life insurance available for the benefit of the loan will be included as part of the application.

Administrative: The county supervisor will review and determine whether the lender has required the necessary security to be taken. If necessary, advice and assistance will be sought from the District Director.

§ 1980.226 Promissory notes, security instruments, and financing statements.

(a) *Promissory notes, mortgages, and security agreements.* The lender may use its own promissory notes, real estate mortgages (including deeds of trust and similar instruments), and security agreements (including chattel mortgages in Louisiana and Puerto Rico), provided such forms do not contain any provisions that are in conflict or are inconsistent with the provisions of this subpart or subpart A of this part.

(b) *Financing statements.* Commercial financing statement forms that comply with State laws and regulations may be used. They must be adapted to meet FmHA requirements by inserting provisions:

(1) Covering the "proceeds and products" of the collateral described, and

(2) Stating that "disposition of the collateral is not authorized hereby."

§ 1980.227 Relationship with other FmHA insured or guaranteed loans.

If an applicant for FmHA assistance will qualify for another type or types of FmHA insured or guaranteed loans and an EL guarantee for the same purpose, it will be the policy to process an EL guarantee for that purpose if the repayment and security requirements for the EL guarantee will not preclude furnishing the credit necessary to

enable the applicant to carry on sound farming or ranching operations. However, if the applicant qualifies for an

(1) Form FmHA 449-6, "Application for Guaranteed Loan (Farmer Programs)."

(iv) Prohibitions against assuming liabilities or obligations of others.

(v) Restrictions on dividend pay-

percentage of ownership or of stock held in the corporation by each or the percentage of interest held in the

3. Review form FmHA 449-10, "Applicant's Environmental Impact Evaluation," submitted by the applicant and follow the

conditions are acceptable, form FmHA 449-14 or form FmHA 1980-15 will be revised.

V 4 3 / 2 0 5 0 C 2 3 7 8

enable the applicant to carry on sound farming or ranching operations. However, if the applicant qualifies for an emergency (EM) loan in a designated disaster area, the applicant should be considered first for an EM loan. An EL guarantee may be processed to continue the livestock operation(s) even though the applicant receives an EM loan.

§ 1980.228 Charges and fees by lender.

For both loan note guarantee and contract of guarantee cases, see § 1980.22 of subpart A of this part for these requirements.

§§ 1980.229–1980.245 [Reserved]

§ 1980.246 Receiving and processing applications.

An applicant and/or lender(s) may file either a preliminary application or complete application. A preliminary application may be used when an applicant or lender wants a determination from FmHA on eligibility or feasibility, before proceeding with a completed application. The county supervisor will cooperate with the lender and applicant and provide appropriate assistance in connection with loan application processes. The degree of this assistance will be guided by the lender's experience with FmHA guaranteed loan processing, the lender's farm lending experience, and the complexity of the proposal. The lender and applicant should contact the local FmHA office serving the area where the livestock operation is conducted for guidance and assistance in preparing the request and for obtaining the guarantee. An applicant conducting livestock operations as an individual, corporation, or partnership in different counties or locations will be considered for only one application and will file the application in the county in which the livestock operation headquarters is located unless determined otherwise by the State director. In cases where the operation is located in more than one State, the State directors involved will determine which State, will process the application and service the loan(s). The county supervisor will provide copies of all applicable FmHA forms and regulations. See appendix A of this subpart for a list of these FmHA forms.

(a) *Preliminary application.* The purpose of the preliminary application is to enable FmHA to make an eligibility determination without requiring the lender to complete all material required for issuance of a guarantee. The preliminary application is not intended to discriminate against applicants based on national origin, sex, marital status, religion or age. The preliminary application will consist of:

(1) Form FmHA 449-6, "Application for Guaranteed Loan (Farmer Programs)."

(2) Credit report and/or lien search of county records.

(3) Form FmHA 440-32, "Request for Statement of Debts and Collaterals."

(4) Form FmHA 449-26, "Certificates of Lender and Loan Applicant (Emergency Livestock Loan)."

(5) Form FmHA 1980-25, "Request for Guarantee (Emergency Livestock Loan or Economic Emergency Loan)."

(6) A record of livestock production for each calendar year beginning with 1973 through the most recent completed calendar year.

(7) Proposed "Line of Credit Agreement" for contract of guarantee cases. See subparagraph (c)(4) of this section.

(b) *Preliminary determination by FmHA.* If the preliminary application indicates the proposal will not meet FmHA's minimum credit standards for a sound loan, or if it is determined that the applicant does not meet the eligibility requirements, the county supervisor will so inform the lender using form FmHA 449-13, "Denial Letter." The lender will notify the applicant in writing of all the reasons for the decision indicated. If it appears that the proposal is feasible and the applicant is eligible, the county supervisor will inform the lender in writing and request that the formal application be prepared.

(c) *Completed application.* This will consist of:

(1) Those items listed for the preliminary application in subsection (a) of this section.

(2) Applicable "compliance" items required by §§ 1980.40, 1980.41, 1980.42, 1980.43, 1980.44, and 1980.45 of subpart A of this part.

(3) If a lease of land is involved, a copy of the lease agreement between tenant applicants and their landlords. When a lease is not obtainable, a statement concerning lease terms will be included in the loan docket.

(4) Proposed loan agreements (or line of credit agreement when a contract of guarantee is requested) between the borrower and lender. (See paragraph VIII of form FmHA 449-35, "Lender's Agreement," in loan note guarantee cases or form FmHA 1980-38, in contract of guarantee cases.) Ordinarily, agreements will include information such as the following:

(i) Improved management practices to be implemented, if any.

(ii) Requirements for accounting and recordkeeping and periodic financial reporting.

(iii) A list of security property for the loan and periodic accounting of security property (at least annually).

(iv) Prohibitions against assuming liabilities or obligations of others.

(v) Restrictions on dividend payments if a corporate entity or distribution if a partnership.

(vi) Limitations on purchase or sale of equipment and/or fixed assets.

(vii) Limitations on compensation of officers, partners, and/or owners if applicant is a corporation or partnership.

(viii) Restrictions concerning consolidation, mergers or other circumstances of a corporate entity.

(ix) Repayment schedule for the loan, including the ceiling and duration of any line of credit.

(x) Purposes for which loan funds will be used.

(xi) Interest rate.

(5) *Appraisal report.* (i) Real estate or chattel property that will serve as collateral for loans will be appraised by a qualified appraiser selected by the lender. A real estate appraisal report will be based on at least two comparable sales made within 2 years. Appraisal reports may be on forms approved by the lender and/or form FmHA 422-1, "Appraisal Report (Farm Tract)" and form FmHA 440-21, "Appraisal of Chattel Property." However, for real estate security, an acceptable appraisal not over 3 years old may be used in lieu of a new appraisal providing the appraisal was completed by FmHA or another similarly qualified appraiser and also provided no significant changes in the market value of real estate has occurred in an area within the 3-year period.

(ii) A current chattel appraisal will be required when chattels are taken as security.

(iii) The lender will be responsible for determining that appraisers have the necessary qualifications and experience to make appraisals. If the lender has any questions in this regard, it should consult with FmHA before having an appraisal made.

(6) *Notices of compliance with the Privacy Act of 1974.* (i) Regardless of whether the applicant is acting in a personal capacity or as a representative of a partnership or corporation, and FmHA solicits personal information from the applicant, the applicant will be provided form FmHA 410-9, "Statement Required by the Privacy Act."

(ii) If FmHA desires to obtain information concerning an individual from any source, FmHA will provide such source with form FmHA 410-10, "Privacy Act Statement to References."

(7) If the applicant is a corporation or partnership the following information will also be obtained and included in the loan docket: (i) A complete list of stockholders or partners showing the address, citizenship or permanent residency, principal occupation, and

percentage of ownership or of stock held in the corporation by each or the percentage of interest held in the partnership by each.

(ii) A current personal financial statement from each of the principal partners of a partnership or stockholders of a corporation. Any other member, partner or stockholder whose financial statement, in the judgment of the loan approval official, would be pertinent to a consideration of the financial strength of the corporation or partnership will also be required to provide personal financial statements.

(iii) A current financial statement from the corporation or partnership itself.

(iv) A copy of the corporation's charter or any partnership agreement, any articles of incorporation and bylaws, any certificate or evidence of current registration (good standing) and a resolution(s) adopted by the board of directors or partners or stockholders authorizing specified officers of the corporation or partnership to apply for and obtain the desired loan and execute required debt, security, and other instruments and agreements.

§ 1980.247 FmHA evaluation of applications.

When the county supervisor receives a completed application, the county supervisor will make any proper independent investigations, inspections, and appraisal reviews which are deemed necessary to determine whether (1) the applicant is eligible, (2) the proposed loan is for an eligible purpose, (3) there is reasonable assurance of repayment ability, and (4) there is sufficient collateral and equity. The county supervisor's determinations will be recorded on form FmHA 449-23, "Guaranteed Loan Evaluation—Farmer Programs."

(a) *Indication of unacceptability.* If the evaluation indicates that the guarantee cannot be approved, the county supervisor will inform the lender on form FmHA 449-13 of the reasons and will discuss with the lender the items necessary to overcome any objections and will record such discussion in the county office file.

(b) *Indication of acceptability.* If the evaluation is favorable, the administrative actions set forth in the administrative section which follows will be taken.

Administrative:

A. The county supervisor will:

1. Determine if the material and information submitted is complete.

2. Determine that the compliance information and forms listed in §§ 1980.40 through 1980.45 of subpart A of this part are a part of the application, and the conditions of each section are being complied with when applicable.

3. Review form FmHA 449-10, "Applicant's Environmental Impact Evaluation," submitted by the applicant and follow the requirements of subpart G of part 1901 of this chapter.

B. If the evaluation is favorable, the county supervisor will:

1. Prepare form FmHA 449-14 for loan note guarantee cases or form FmHA 1980-15 for contract of guarantee cases. If it is within the county supervisor's approval authority, the country supervisor will list any special conditions of approval in the space provided on the form, including requirements for security, improved management practices, and type and frequency of financial reports required but not proposed by the lender. The county supervisor is authorized to execute forms FmHA 449-14 and FmHA 1980-15.

2. Prepare and distribute form FmHA 440-1, "Request for Obligation of Funds," in accordance with the forms manual insert (FMI). form FmHA 440-1 should be prepared and funds obligated in the same fiscal year as form FmHA 449-14 or form FmHA 1980-15. The Finance Office will obligate funds and so notify the county supervisor by forwarding the original and one copy of form FmHA 440-57, "Acknowledgement of Obligated Funds/Check Request." Unless the county supervisor has received notice that EL funds are not available, the lender will immediately be notified by providing a copy of form FmHA 449-14 or form FmHA 1980-15. The county supervisor will record the actual date of lender notification on the remaining copy of form FmHA 440-1 and make such copy a permanent part of the county office loan file.

3. Forward the loan docket to the appropriate approval official if the loan is not within the county supervisor's approval authority.

C. If the evaluation is favorable, the appropriate approval official will:

1. Set forth any special conditions of approval, including requirements for security, improved management practices, type and frequency of financial reports required but not proposed by the lender in the space provided in form FmHA 449-14 or form FmHA 1980-15 and return the form to the county supervisor for execution and proper distribution.

2. Sign original and one copy of form FmHA 440-1 and distribute copies in accordance with the forms manual insert being sure the lender receives a signed copy.

3. Forward the loan docket to the National Office when assistance is needed in handling any complaints of noncompliance.

§ 1980.248 [Reserved]

§ 1980.249 Review of requirements.

The lender and applicant, after reviewing approval conditions and security requirements as set forth in form FmHA 449-14 or form FmHA 1980-15 should complete and execute the "Acceptance or Rejection of Conditions" and return a copy to the county supervisor. If the conditions cannot be met, the lender and applicant may propose alternate conditions to the county supervisor. These alternatives will be considered by the county supervisor and the lender will be advised of the county supervisor's decision. If altered conditions are acceptable, form FmHA 449-14 or form FmHA 1980-15 will be revised.

§ 1980.250 Conditions precedent to issuance of the guarantee.

See § 1980.60 of subpart A of this part for conditions precedent to the issuance of either a loan note guarantee or a contract of guarantee except:

(a) The provisions of § 1980.60(a)(2) are not applicable to loan note guarantee cases;

(b) The provisions of § 1980.60 (a)(2) and (d) are not applicable to contract of guarantee cases, and

(c) To meet the requirements of § 1980.60(c) in contract of guarantee cases, the lender will execute and deliver form FmHA 1980-38 to FmHA.

Administrative: The county supervisor will:

1. Negotiate with the lender and applicant any changes made to the initially issued or proposed form FmHA 449-14 or form FmHA 1980-15. A copy of the completed form and any amendments thereto will be included in the loan file.

2. Review the loan agreement or line of credit agreement between the borrower and lender. It should provide for the frequency of submission of financial statements to the county supervisor. Quarterly financial statements should be required on new loans needing close monitoring. However, an annual analysis report will always be required.

3. Review plans for inspection made on any construction projects.

4. Review cost overruns, if any are found, and determine with the lender how cost overruns will be met.

5. Review basic loan requirements with the lender.

§ 1980.251 Issuance of guarantee instruments.

Events from issuance of a conditional commitment through issuance of the guarantee instruments may all occur at loan closing in the sequence indicated in § 1980.61 of subpart A of this part.

(a) *Loan note guarantee cases.* See § 1980.61 of subpart A of this part, except that § 1980.61(b)(2) and § 1980.61(f) as well as the "guarantee fee" in § 1980.61(a) shall not apply.

(b) *Contract of guarantee cases.* (1) If FmHA finds that all requirements have been met, FmHA will execute form FmHA 1980-38. The original will be retained by FmHA and a signed duplicate original retained by the lender. There will be a form FmHA 1980-38 executed for all lines of credit guaranteed by FmHA. The lender's agreement will be executed not later than the time the contract of guarantee is signed.

(2) Upon receipt of the form FmHA 1980-38 and after all requirements have been met, FmHA will execute form FmHA 1980-27. The lender will be provided the original and a con-

V 4 3 / 2 0 5 0 C 2 3 7 8

formed copy will be retained by FmHA.

(3) If FmHA determines that it cannot execute the contract of guarantee because all requirements have not been met, it will promptly inform the lender on form FmHA 449-13 of the reasons, and give the lender a reasonable period within which to satisfy FmHA objections. If the lender writes FmHA within the period allowed requesting additional time to satisfy the objections, FmHA may, in writing, grant such additional time as it considers necessary and reasonable under the circumstances. If the lender satisfies the objections within the time allowed, the guarantee will be issued.

(4) If the conditions for the loan are rejected or cannot be met after completion of any appeal, FmHA will prepare and submit form FmHA 440-10, "Cancellation of Loan or Grant Check and/or Obligation," to the Finance Office.

(c) *Authorized FmHA representatives to execute forms.* State directors and county supervisors are authorized to execute the lender's agreement, loan note guarantee, contract of guarantee, and assignment guarantee agreement.

Administrative: A. The original form FmHA 449-35 or form FmHA 1980-38 will be kept in the county office. A copy may be retained in the State office.

B. Copies of form FmHA 449-34 (1980-34) and form FmHA 1980-27 will be kept in the county office. Additional copies may be retained by the State office. Copies of issued guarantees will be kept in each borrower's loan file.

C. For reporting purposes when multinotes are issued, the loan to the borrower will be counted as one loan regardless of the number of notes issued.

D. The county supervisor completes Form FmHA 449-31, "Emergency Livestock Loan Analysis," executes the original, and conforms the copies. This will be done on the same date the guarantee instrument is executed. The original will be sent to the finance office and a copy transmitted to the State office.

E. The guarantee processing actions will be completed as soon as possible, but in no case more than 30 days after FmHA receives a lender's formal written request for an EL guarantee, unless unusual circumstances are involved.

F. The State director may maintain a daily record of all forms FmHA 449-31 received.

G. Upon receipt of form FmHA 440-1, the Finance Office will charge the loan amount or line of credit ceiling (as appropriate for the type of guarantee) against any EL allocation for the particular State. The Finance Office will submit a State summary report on the loan obligations to the State and National Office.

§§ 1980.252–1980.259 [Reserved]

§ 1980.260 Substitution of lenders.

With prior FmHA written approval, a new eligible lender may be substituted for the original lender provided the new lender agrees to assume all servicing responsibilities and acquires the unguaranteed portion of the loan. In loan note guarantee cases, such substitution may be made without the holder's consent but not without notice to the holder(s) by the substituted lender. The new lender will execute form FmHA 449-35 for loan note guarantee cases of form FmHA 1980-38 for contract of guarantee cases at the same time as the substitution. After FmHA approval of the new lender, Form FmHA 471-7, "Notice and Acknowledgement of Sale of Insured Loan or Guaranteed Loan," will be completed by the old lender and mailed to the Finance Office.

§§ 1980.261–1980.268 [Reserved]

§ 1980.269 Extension of line of credit guarantees issued before (October 1, 1978).

New loan advances made after September 30, 1978, will not be automatically covered by "line of credit" guarantees issued before (October 1, 1978), under the terms of the Emergency Livestock Credit Act of 1974, as amended by Pub. L. 95-334. Any advance(s) made under these guarantees after September 30, 1978, requires an extension of the guarantee.

(a) When lenders desire to continue making new advances to borrowers indebted under a contract of guarantee issued prior to (October 1, 1978), it will not be necessary to issue a new contract of guarantee, provided the lender will certify in writing that:

(1) The borrower meets eligibility requirements for an EL loan including a statement that the lender is unable to extend the additional credit without a guarantee, and

(2) The outstanding balance is current, and

(3) Collateral for the new advance(s) will be sufficient to meet EL security requirements, and

(4) The borrower has reasonable repayment ability for the overall guaranteed indebtedness, and

(5) The advance(s) will be within the terms of the existing line of credit ceiling previously approved by FmHA.

(b) For cases meeting the criteria stated in paragraph (a) of this section the county supervisor will strike "before September 30, 1978," in the second line of the existing contract of guarantee and date and initial the change. If the county supervisor questions the proposal and needs supporting information in addition to that previously furnished by the lender, the county supervisor will obtain it before initialing the change in the contract of guarantee.

(c) When a lender desires to make advance(s) above the previously approved line of credit ceiling, or when the advance(s) will not be within the limits of the "Line of Credit Agreement," or when the line of credit loan advances are not paid current, the above method will not be used. In such cases it will be necessary for the lender to prepare a completely new guarantee request with all the supporting forms and information required by this subpart for a contract of guarantee on a new line of credit. If the loan approval official determines that all the requirements of a new guarantee have not been met, the lender will be so informed in accordance with the procedure set forth in § 1980.247(a) of this subpart. If the loan approval official determines that all the requirements for a new guarantee are met, the existing line of credit will be refinanced by the new line of credit, and a new contract of guarantee will be issued. To complete the transaction, the lender must surrender the previous contract of guarantee to the county supervisor who will mail it to the Finance Office with a new form FmHA 449-31. The county supervisor will indicate in the transmittal letter to the Finance Office that the previous contract is being replaced and that the Finance Office records should be adjusted to reflect only the new line of credit guarantee.

§ 1980.270 Changeover of loans covered by 80-percent loss guarantees to line of credit guarantees without sale to holder(s).

This changeover can no longer occur as the last date for such a conversion was July 25, 1978.

§ 1980.271 Conversion of existing EL loans so the guaranteed portions can be sold as permitted by subpart A of part 1980.

(a) Conversion does not constitute a new guarantee. Rather, the process is a substitution of documents which confer additional rights to lenders but do not change what is being guaranteed.

(b) Existing advances constituting an EL guaranteed line of credit may be converted to loan note guarantee loans and structured and sold according to this subpart and subpart A of this part. The percentage guaranteed must be the same as the percentage guaranteed in the old guarantee.

(c) Before the loan note guarantee system can be used, the lender must notify FmHA of the option it has elected to use for sale of the guaranteed portion(s). Where necessary, existing note(s) must be rewritten so that all regulations pertaining to the options found in paragraph III of form FmHA 449-35 will be complied with.

(d) A conversion fee of 1 percent of the principal loan balance owed on the loan at the time of the conversion multiplied by the percent of guarantee must be paid by the lender to FmHA before a loan note guarantee will be issued.

(e) The lender must certify in writing and FmHA must agree that the loan is in good standing and adequately secured.

(f) The lender's request for conversion will be transmitted to the county supervisor with the following items:

(1) A narrative of the proposal.

(2) Original contract of guarantee. If the lender does not want to deliver its original contract of guarantee with its request for a conversion to a loan note guarantee, the county supervisor will accept a copy of the contract of guarantee and proceed as set forth above. However, the loan note guarantee will be delivered only upon receipt of the contract of guarantee.

(3) Copies of note(s) with lender's identification number(s).

(4) Certification that the loan is current and in good standing.

(5) Certification of outstanding principal and interest owed on loan account.

(6) Executed lender's agreement.

(7) Current maket value appraisals of loan collateral.

Administrative: A. The county supervisor may approve all conversions to loan note guarantee.

B. The original loan must be paid current at the time the loan note guarantee is issued.

C. The county supervisor will:

1. Check to see that the note or notes presented by the lender for sale in the loan note guarantee system are structured to meet all requirements in the regulations.

(i) If the lender has selected the multinote system, the note representing the unguaranteed portion must not mature before the other notes. If the lender is converting a line of credit represented by separate notes for each advance, these existing, partially amortized notes may be used provided that, if the notes have different maturities, the note with the latest maturity date must represent the unguaranteed portion. The amount represented by this note must be exactly the unguaranteed portion of the face amount of all notes composing the loan which is to be converted to the loan note guarantee system. If both these requirements cannot be met, the lender must get the borrower to execute new notes which do not exceed the limitations of the existing guaranteed line of credit.

(ii) If the lender has elected to sell the guaranteed portions through the assignment route, and is coverting a line of credit, only one note may be presented for attachement to a loan note guarantee. The face amount of the note must be equal to the entire amount of the loan.

2. Review all requirements of § 1980.271 of this subpart.

3. Arrange to inspect the livestock operation with the lender and the borrower. The inspection will include an observation of the farming or ranching facilities, any growing crops, and livestock and chattel security.

4. Reach a mutual understanding concerning the operating plans for farming and ranching enterprises, plans for loan repayment, and the appraised value of the loan collateral.

5. Verify the submitted request, and, if in order, complete the loan note guarantee, date and sign the instrument. Before the form is signed the following statement will be entered at the top of the form: "This loan note guarantee is issued in substitution of the contract of guarantee dated ———." The county supervisor will transfer from the outstanding contract of guarantee all pertinent information pertaining to the substitute loan note guarantee.

6. Execute the lender's agreement either before or contemporaneously with execution of the loan note guarantee.

7. Cancel the contract of guarantee being replaced.

8. Transmit to the lender the original of the loan note guarantee, and a copy of the executed lender's agreement, and retain copies of the loan note guarantee and attached canceled forms in the county office file.

9. Notify the Finance Office of the substitution and cancellation by letter enclosing the conversion fee collected from the lender. The notification will indicate the date and amount of the loan note guarantee and that it is not to be considered as a new loan for record keeping purposes.

§ 1980.272 Refinancing existing EL loans so that the guaranteed portion can be sold through the loan note guarantee system.

(a) Lenders with existing EL loans covered by 80 percent loss guarantee issued by FmHA before July 25, 1975, or with existing guaranteed EL lines of credit, who desire to obtain a loan note guarantee without payment of the fee provided in § 1980.271 of this subpart may apply for a new loan note guarantee under the regular procedure of this subpart. All provisions including §§ 1980.246 through 1980.251 of this subpart will be complied with. If all of the requirements of this subpart and subpart A of this part are met, a new loan note guarantee will be issued. The unpaid balance on the existing loan will be refinanced by the new loan guaranteed by the loan note guarantee.

(b) The previous contract of guarantee must be surrendered by the lender and mailed to the Finance Office by the county supervisor with a new form FmHA 449-31. The county supervisor will indicate in the transmittal letter to the Finance Office that the old guarantee is being replaced and that the Finance Office records should be adjusted to reflect only the new loan note guarantee.

§§ 1980.273–1980.276 [Reserved]

§ 1980.277 Change from livestock to farming operation after guarantee is issued.

(a) When a borrower ceases to carry on a livestock operation, but will continue farming, the borrower is not eligible to receive any more loan advances under the guarantee. In such cases the lender may continue with the loan(s) and reamortize it within the original term provided FmHA and the lender determine that:

(1) There is a reasonable chance for the guaranteed loan advance(s) to be paid in full; and

(2) The remaining collateral plus any to be obtained will be sufficient to meet EL security requirements; and

(3) Proceeds from livestock sales properly have been paid on the guaranteed loan advance(s) or released for authorized EL purposes; and

(4) FmHA and any holders consent to the reamortization and the reamortization documents are attached to all documents evidencing the guarantee.

§ 1980.278 Transfer and assumption of loans.

(a) If the borrower can no longer continue with the loan, the lender may consider transferring the loan to an eligible transferee with the concurrence of FmHA. If the transferor has any equity in the loan the transferee will pay the transferor for this equity either by using cash or by obtaining a loan with or without a guarantee, or a combination of cash and a loan. The total security will be transferred unless unusual circumstances prevail in which case National Office approval will be required. Assumption and transfer of security property agreements, notes, or assumption forms provided by the lender will be executed by the transferee. An "eligible transferee" is one that, after the assumption, meets the eligibility requirements specified in § 1980.220 of this subpart. No applicant shall be deemed "eligible" after September 30, 1979. The transferee's application will be processed by the lender as prescribed in § 1980.246 of this subpart and the following will also apply:

(1) The priorities of the existing lien(s) securing the guarantee will not be adversely affected.

(2) Any cash down payment (other than an equity payment) or proceeds from the sale of any security will be credited on the transferor's guaranteed loan before the transfer and assumption transaction is closed.

(3) The transferor may be released from personal liability with FmHA concurrence provided the total outstanding indebtedness is assumed and providing the collateral being transferred is at least equal to the amount of the loan being assumed and further provided all holders, if any, consent.

(4) The existing guarantee will continue in effect, so a new guarantee instrument will not be issued. However, as soon as the transfer and assumption have been completed, the lender will so indicate on the original loan note

V 4 3 / 2 0 5 0 C 2 3 7 8

guarantee or contract of guarantee by inserting a check in the assumption agreement box and inserting the name

4. Take appropirate action upon receipt of notice from the lender when any guaranteed loan is delinquent more than 30 days or when the loan otherwise appears to be de-

Administrative: The county supervisor will advise the Finance Office by memorandum when a loan note guarantee or contract of guarantee is terminated.

by the lender and before submission of such reports to lenders when FmHA is conducting liquidation.

§§ 1980.284–1980.289 [Reserved]

§ 1980.290 Graduation

forms and other material which is needed to monitor the lender's loan

guarantee or contract of guarantee by inserting a check in the assumption agreement box and inserting the name of the assuming party for those purposes on the loan note guarantee or contract of guarantee.

(b) All changes in loan terms must be approved in writing by the loan approval official, the borrower, and lender, and all holders if any, and a copy of the changed terms attached to each portion (both guaranteed and unguaranteed) of the loan.

Administrative: A. Loan approval officials, consistent with their authority to approve guarantees, may consent:

1. To all transfer and assumption cases.
2. To the releases of the transferor and guarantor(s) from liability on the loan and will notify the lender and the transferor and guarantor(s) of the decision in writing.
3. To any changes in the loan terms provided the holder(s), if any, and lender agree.

B. The loan note guarantee or contract of guarantee will be endorsed in the space provided on the form.

C. A copy of the Assumption Agreement will be retained in the county office file. The county supervisor will notify the Finance Office of all approved transfer and assumption cases so that Finance Office records may be adjusted accordingly.

D. When all the security is not transferred the State director will submit to the National Office the full facts and justification for the State director's recommendation and the county office files.

§ 1980.279 Loan servicing.

The lender is responsible for loan servicing. See paragraph X of form FmHA 449-35 for loan note guarantee cases and paragraph IX of form FmHA 1980-38 for contract of guarantee cases for specific requirements.

Administrative: A. The lender has the primary responsibility for loan servicing and protecting the collateral, but the county supervisor is responsible for monitoring the lender's servicing actions. Loan servicing is a preventive rather than a curative action. Prompt followup on delinquent payments and early recognition and solution of problems are keys to resolving many delinquent loan cases.

B. The county supervisor will:

1. Make timely investigations during acquisition or development and at least annually thereafter to determine whether any security property that was to be acquired or constructed after issuance of the contract of guarantee or loan note guarantee has been acquired or constructed, and whether the guaranteed loan is being properly serviced. If a problem develops the county supervisor will promptly contact the lender to resolve it.
2. Review all EL borrowers' financial statements furnished by the lender and will take appropriate servicing action to remind the lender of its servicing responsibilities. See paragraph X of form FmHA 449-35 or paragraph IX of form FmHA 1980-38.
3. take appropriate action immediately when notified by the lender of borrower's failure to fulfill any of the loan approval conditions to determine the action to be taken.
4. Take appropirate action upon receipt of notice from the lender when any guaranteed loan is delinquent more than 30 days or when the loan otherwise appears to be developing into a problem case. See paragraph XI of form FmHA 449-35 or paragraph X of form FmHA 1980-38.
5. Establish an office management system for guaranteed loans in accordance with FmHA instruction 405.1 (available in any FmHA office) to insure timely followup on all required financial statements, and any special requirements for loan servicing conditions.
6. Notify the Finance Office when the lender makes any approved protective advances.
7. Submit to the Finance Office semiannually the lender's statement required in paragraph X B 10 of form FmHA 449-35 or paragraph IX of form FmHA 1980-38, reflecting the unpaid principal balances on the loan.

C. The District Director will:

1. Assure that the responsibilities of the county supervisor are carried out.
2. Provide guidance and assistance to the county supervisor if a loan develops into a problem case and make recommendations or comments and transmit them to the State director, if necessary.

D. County supervisors are authorized to approve or concur in:

1. Alterations in the loan approval conditions which will not prejudice the Government's interest.
2. Any replacement of collateral for the loan.
3. All lien coverage and lien priorities on the collateral established by the lender before issuance of the guarantee.
4. Any renewal of loan notes in concurrence with the lender.
5. Use of proceeds from disposition of collateral meeting the provisions of paragraph X of form FmHA 449-35 or paragraph IX of form FmHA 1980-38.

E. State directors may consult with the National Office on any servicing problem, and if it cannot be handled at the State level, the file will be forwarded to the National Office with proposed recommendations.

§ 1980.280 Protective advances.

See paragraph XIII of form FmHA 449-35 or paragraph XII of form FmHA 1980-38, as appropriate.

Administrative: A. Protective advances will not be made in lieu of additional loans.

B. The county supervisor is authorized to approve protective advances and will consider the following when approving such advances:

1. The total amount of outstanding advances, the amount of those for which approval is requested, the outstanding loan balance, whether the account is current, and, if not, the extent of the delinquencies.
2. The borrower's ability to pay the remaining loan balance and any future advances in accordance with the existing repayment schedule.

§ 1980.281 Termination of guarantee.

See paragraph 12 of Form FmHA 449-34 (1980-34) for termination of loan note guarantee and paragraph 5 of form FmHA 1980-27 for termination of contracts of guarantee.

Administrative: The county supervisor will advise the Finance Office by memorandum when a loan note guarantee or contract of guarantee is terminated.

§ 1980.282 Defaults by borrower.

(a) See paragraph XI of form FmHA 449-35 for loan note guarantee cases and paragraph X of form FmHA 1980-38 for contract of guarantee cases.

(b) The lender will arrange a meeting with the county supervisor and the borrower to resolve the problems.

(c) The lender will summarize the meeting in a memorandum listing the individuals who attended and describing the problems and the proposed solutions. The original will be retained in the lender's loan file and a copy will be submitted to the county supervisor.

Administrative: A. The county supervisor monitoring the loan will coordinate and process any request for FmHA to purchase when the holder(s) are located in close proximity of the local lender. If several holders are located outside the area, the State director will handle the transaction and notify the county supervisor.

B. The county supervisor will review the material submitted, verify the amounts due the holder(s) and transmit the request by memorandum to the State director. Copies of evidence of ownership will be included. Any original evidence of ownership will be retained in the county office. A proposed payment date will be established in order to calculate the interest due the holder(s).

C. The county supervisor will verify the amounts payable to the holder(s) and assure that all necessary material has been obtained. The county supervisor will request a check to pay the holder(s) on the appropriate date entry form. The finance Office will forward the check to the holder within 10 days after receipt of the request.

D. Any evidence of ownership retained in the county office will be considered in any future report of loss calculations. A record of any purchase will be maintained in the loan file.

§ 1980.283 Liquidation.

See paragraph XII of form FmHA 449-35 for loan note guarantee cases and paragraph XI of form FmHA 1980-38 for contract of guarantee cases.

Administrative: A. The District Director determines which FmHA personnel will attend meetings with the lender.

B. *Form FmHA 449-35 or form FmHA 1980-38, paragraphs XII B or XI B, respectively.* FmHA will exercise the option to liquidate only when there is reason to believe the lender's liquidation plan will likely not result in maximum recovery. District Directors are authorized to approve lender liquidation plans or exercise the FmHA option to liquidate.

C. *Form FmHA 449-35 or form FmHA 1980-38, paragraphs XII D or XI D, respectively.* County supervisors are responsible for seeing that the lender complies with the requirements of paragraph XII D or paragraph XI D as appropriate. The concurrence of the District Director will be necessary before the county supervisor may accept the accounting reports as submitted by the lender and before submission of such reports to lenders when FmHA is conducting liquidation.

D. *Form FmHA 449-35 or Form FmHA 1980-38, paragraphs XII E 2 or XI E 2, respectively.* County supervisors are authorized to accept report of loss determinations for both loan note guarantee and contract of guarantee cases on Form FmHA 449-30 "Loan Note Guarantee Report of Loss," in those cases where loss will not exceed $35,000; District Directors for loss not to exceed $100,000; and State directors for all others. The State director will submit to the Finance Office for payment any losses claimed on form FmHA 449-30. The Finance Office will forward loss payment checks within 10 days of receipt of the claim to the county supervisor for delivery to the lender.

E. *Form FmHA 449-35 or form FmHA 1980-38, paragraphs XII E 3 or XI E 3, respectively.* Final loss payments will be made within the 60 days required but only after a review has been made to accurately determine FmHA liability. State directors are responsible for seeing that such reviews are accomplished in time to be evaluated and accepted or otherwise resolved within the 60-day period. County supervisors may conduct such reviews when the loss does not exceed $35,000; District Directors when the loss does not exceed $100,000; and State directors for amounts not to exceed their loan approval authority. If the State director wishes National Office assistance in the conduct of the review, the State director may request it.

§§ 1980.284–1980.289 [Reserved]

§ 1980.290 Graduation.

There is no "graduation" requirement for EL loans. Therefore, these loans will not be reviewed by FmHA to determine whether lenders should be in position to carry them without a guarantee.

§ 1980.291 Appeal procedure.

See § 1980.80 of subpart A of this part for the method of having adverse decisions of county supervisors, District Directors, and State directors reviewed.

§ 1980.292 Access to records of lenders.

See § 1980.81 of subpart A of this part for this requirement.

§ 1980.293 County and State office files.

(a) *County office files.* County offices having charge of loan guarantees are not expected to maintain complete case files. However, the county office case file for each loan guarantee should contain originals or copies of forms and other material which is needed to monitor the lender's loan servicing actions.

(b) *State office files.* State directors may maintain files on cases which require special servicing attention.

§ 1980.294 FmHA forms.

See appendix A of this subpart for list of applicable FmHA forms, number to be prepared, signatures required, and manner of distribution.

§§ 1980.295–1980.300 [Reserved]

APPENDIX A

General administrative: A. *Office of the General Counsel (OGC).* In performing the FmHA functions with respect to EL loans, the advice and assistance of OGC may be sought and followed on any legal matter. However, in loan making, it is the responsibility of the lender to ascertain that all requirements for making, securing, and servicing the loan are duly met. If FmHA has any questions concerning the lender's resolution of these matters it should consult with OGC.

B. *Delegation of authority.* The State director may delegate to the State director's staff those administrative duties and responsibilities stipulated in the administrative sections of this subpart.

APPENDIX A.—*FmHA Forms*

(a) The following chart lists applicable FmHA forms, number to be prepared, signatures required, and manner of distribution. Any of these FmHA forms and others needed by lenders or applicants may be obtained from FmHA.

FmHA Form No.	Name of form	Total number	Signed by *	Distribution
	Forms needed by a lender for use in preparing the EL guarantee request			
400-1	Equal Opportunity Agreement	3	B-O	O-L, C-B, C-FmHA.
400-3	Notice to Contractors and Applicants	4	L-O	O-Con, C-B, C-L, C-FmHA.
400-6	Compliance Statement	4	L and Con 3-0	O-L, C-Con, C-B, C-FmHA.
449-6	Application for Guaranteed Loan (Farmer Programs).	2	B-O	O-L, C-FmHA.
1980-25	Request for Guarantee (Emergency Livestock Loan or Economic Emergency Loan).	2	L-O	O-FmHA, C-L.
449-26	Certificates of Lender and Loan Applicant (Emergency Livestock Loan).	3	L and B-O	O-FmHA, C-L, C-B.
449-35	Lender's Agreement	2	L and FmHA	O-FmHA, C-L.
449-36	Assignment Guarantee Agreement	3	L, H and FmHA	O-H, C-L, C-FmHA.
1980-33	Lender's Agreement (Emergency Livestock Loan or Economic Emergency Loan Contract of Guarantee).	2	L and FmHA (O and C)	O-FmHA, C-L.
	Forms used by FmHA in processing and handling the guarantee request			
440-1	Request for Obligation of Funds	4	FmHA-O	O-FC, C-County Office, C-State Director.
449-13	Denial Letter	2	FmHA-O	O-L, C-FmHA.
449-14	Conditional Commitment for Guarantee	2	FmHA-O	O-L, C-FmHA.
1980-15	Conditional Commitment for Emergency Livestock Loan or Economic Emergency Loan–Contract of Guarantee.	2	FmHA-O	O-L, C-FmHA.
1980-27	Contract of Guarantee (Emergency Livestock Loan or Economic Emergency Loan).	2	FmHA-O	O-L, C-FmHA.
449-31	Emergency Livestock Loan Analysis	3	FmHA-O	O-FC, C-FmHA, C-State Director.
449-34	Loan Note Guarantee	2	FmHA-O	O-L, C-FmHA.
	Forms used jointly by lender and FmHA			
449-30	Loan Note Guarantee Report of Loss	3	L-O	O—FmHA, C-L, C-FmHA.

(b) *Other forms and information.* Any needed forms not furnished by FmHA will be provided by the lender. The lender may obtain information from FmHA and copies of other FmHA forms that may be helpful in various aspects of loan making, construction and development, and loan servicing.

(c) *Racial code.* Some FmHA forms contain space for coding the race of the applicant for the loan or assumption. In the code, "W" means "White," "N/B" means "Negro (Black)," "S" means "Spanish-American," "AI" means "American Indian," and "O" means any other race. The lender is responsible for completing this code on all forms on which it appears, in accordance with its best judgment as to the race involved.

(d) *Revision of existing forms.* Until the present supply is exhausted, the forms described below will be revised on an individual case basis as follows:

(1) *Form FmHA 400-1, "Equal Opportunity Agreement."* In the second paragraph after the word "Recipient", insert "or to Recipient's lender." In subparagraph 1(e), change the word "or" to "issued."

(2) *Form FmHA 400-6, "Compliance Statement."* In the first paragraph between "with" and "assistance," insert "loan guarantee."

(3) *Form FmHA 449-6, "Application for Guaranteed Loan (Farmer Programs)."* The crop and livestock production tables on the face of the form may be omitted.

(AUTHORITY: Sec. 10, of Pub. L. 93-357 88 Stat. 392; delegation of authority Secretary of Agriculture (7 CFR 2.23); delegation of authority by Assistant Secretary for Rural Development (7 CFR 2.70).

Dated: October 17, 1978.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 78-CE-18-AD; Amdt. 39-3318]

PART 39—AIRWORTHINESS DIRECTIVES

Cessna Models 152 and A152 Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adds a new airworthiness directive (AD) applicable to Cessna models 152 and A152 airplanes. It requires inspection of the exhaust system and replacement or conditional repair of cracked or failed KMR heat exchangers having serial No. 2249 or below. This Ad, which is of an emergency nature, is necessary because failures have occurred on these exhaust systems which allow carbon monoxide to enter the cabin air. Such a condition may cause pilot incapacitation and adversely affect safety of flight.

EFFECTIVE DATE: October 6, 1978, to all persons except those to whom it has already been made effective by airmail letter from the FAA dated September 18, 1978.

COMPLIANCE: As required in the body of the AD.

ADDRESSES: Cessna Single Engine Service Letter SE78-57, dated September 19, 1978, and supplement No. 1, dated October 3, 1978, or later revisions, applicable to this AD, may be obtained from Cessna Aircraft Co., Marketing Division, Attention: Customer Service Department, Wichita, Kans. 67201, telephone 316-685-9111. A copy of the service letter cited above is contained in the Rules Docket, Office of the Regional Counsel, Room 1558, 601 East 12th Street, Kansas City, Mo. 64106, and at Room 916, 800 Independence Avenue SW., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT:

Donald L. Page, Aerospace Engineer, Engineering and Manufacturing Branch, Federal Aviation Administration, Central Region, 601 East 12th Street, Kansas City, Mo. 64106, telephone 816-374-3146.

SUPPLEMENTARY INFORMATION: The FAA has determined that the problem described in the Summary is an unsafe condition which is likely to exist or develop in other airplanes of the same type design. Since the agency also determined that an emergency situation existed and that immediate corrective action was required, notice and public procedure thereon were impracticable and contrary to the public interest. Accordingly, all known registered owners/operators of the affected airplanes were notified of the AD by airmail letter from the FAA dated September 18, 1978. The AD became effective as to those individuals upon receipt of the notification letter. Inspections of these airplanes conducted pursuant to the emergency AD have disclosed cracked or failed heat exchangers on a much higher percentage of airplanes than originally anticipated. Consequently, sufficient parts are not available to immediately replace all cracked or failed heat exchangers. This situation is resulting in unnecessary grounding of affected airplanes and undue hardship on the owners/operators of these airplanes. Therefore, the Chief, Engineering and Manufacturing Branch, FAA, Central Region, per the authority in paragraph (C) of the AD, approved an equivalent method of compliance with paragraph (A)3(b)3 of the AD which authorizes conditional repair of cracked heat exchangers and their continuation in service without compromising safety. The above equivalent method of compliance is being incorporated in paragraph (A)3(b)3 of this AD. Since the unsafe condition described herein still exists on other Cessna models 152 and A152 airplanes, the AD is being published in the FEDERAL REGISTER as an amendment to part 39 of the Federal Aviation Regulations (14 CFR Part 39) to make it effective as to all persons who did not receive the letter notification.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new airworthiness directive:

CESSNA. Applies to model 152 (serial Nos. 15279406 through 15282563) and model A152 (serial Nos. A1520735 through A1520829) airplanes having Cessna original equipment type exhaust systems installed.

Compliance: Required as indicated unless already accomplished.

To preclude contamination of cabin heater air with carbon monoxide, accomplish the following:

(A) Before next flight, except that the airplane may be flown with the cabin heat in the "OFF" position to a location where this inspection may be accomplished:

1. Visually inspect the clearance between the exhaust pipe and cowl opening. Minimum clearance must be 0.375 inch in the fore and aft direction and 0.625 inch in the lateral direction with a smooth transition between. Enlarge cowl opening as required to obtain this clearance.

2. Remove the lower engine cowl and visually inspect the nameplate on the exhaust system heat exchanger shroud to determine whether the exhaust system is a KMR Industries part No. 1-1000, either bearing serial Nos. 1 through 2249 or having an "R" prefix or suffix on any serial number. If the exhaust system is not one specified above, further requirements of this AD are not applicable.

3. If the exhaust system is one as specified above:

(a) Prior to further flight, safety wire the cabin heat valve control arm in the closed position by securing it to the engine mount using 0.032 diameter safety wire.

(b) Within the next 10 hours time-in-service and within each 50 hours time-in-service thereafter:

1. Remove the engine cowling and the KMR Industries heat exchanger shroud.

2. Using a 5-power, or greater, magnifying glass, visually inspect the heat exchanger can for any cracks around the tailpipe and along the three lines of spot welds on the surface of the heat exchanger can itself.

3. If the heat exchanger can is found cracked, prior to next flight:

(i) Replace it with a heat exchanger can having a serial No. 2250 or above; or

(ii) Repair and reinstall heat exchangers having cracked or completely pulled-through spot welds and/or closed cracks that do not extend under the end plates and do not exceed 3 inches continous length, by heliarc welding in accordance with the following:

1. Use rod material compatible with titanium stabilized 321 stainless steel.

2. It is not necessary to reattach the can to the baffle at pulled through spot welds if the can and baffle are separated. In this case, it is only necessary to close the hole or crack in the can at the spot weld location.

3. Disconnect the hose between the heat exchanger shroud and the firewall cabin heat valve at the cabin heat valve and safety wire it to the engine mount tube so that 1.5 inches of the hose extends below the fuselage through the cowl air exit hole and to the right of the nose gear. Install the hose clamp on the valve end of the hose so that it grips the wire supported section of the hose. Route the safety wire between the clamp and the hose to secure the clamp and hose to the engine mount.

4. After installation of a new heat exchanger can having a serial No. 2250 or above, obliterate the existing exhaust system serial number located on the nameplate attached to the shroud.

(B) Upon installation of a KMR Industries heat exchanger can having a serial No. 2250 or above and incorporation of a dam in the heat exchanger shroud in accordance with Cessna service kit 152-3, the cabin heat system may be reactivated and the inspection required by paragraph (A)3(b) discontinued.

NOTE.—The serial number will be stamped on a flange of the replacement heat exchanger can.

(C) Any equivalent method of compliance with this AD must be approved by the Chief, Engineering and Manufacturing Branch, FAA, Central Region.

Cessna Service Letter SE78-57, dated September 19, 1978, and supplement No. 1, dated October 3, 1978, or later revisions, pertain to this subject.

This amendment becomes effective on October 6, 1978.

(Secs. 313(a), 601, 603 of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); sec. 11.89 of the Federal Aviation Regulations (14 CFR sec. 11.89).)

NOTE.—The FAA has determined that this document involves a proposed regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582; Mar. 8, 1978).

Issued in Kansas City, Mo., on October 6, 1978.

JOHN E. SHAW,
Acting Director,
Central Region.

[FR Doc. 78-29573 Filed 10-20-78; 8:45 am]

[4910-13-M]

[Docket No. 78-WE-18-AD Amdt. 39-3320]

PART 39—AIRWORTHINESS DIRECTIVES

Hiller Model UH-12 Series Helicopters Including Military Models

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: An emergency airworthiness directive (AD) was issued on September 22, 1978, and sent by priority mail to all owners and operators of the Hiller model UH-12D, UH-12E, and UH-12E (4 Place) helicopters including military models. This AD was required because of failure of the antinode weight outboard retention system in the main rotor blade which will result in a complete loss of control of the main rotor blade.

DATES: Effective October 27, 1978. Initial compliance—before further flight after receipt of the priority mail letter.

ADDRESSES: The applicable service information may be obtained from: Hiller Aviation, 2075 West Scranton Avenue, Porterville, Calif.

Also, a copy of the service information may be reviewed at, or a copy obtained from: Rules Docket in Room 916, FAA, 800 Independence Avenue SW., Washington, D.C. 20591; or Rules Docket in Room 6W14, FAA Western Region, 15000 Aviation Boulevard, Hawthorne, Calif. 90261.

FOR FURTHER INFORMATION CONTACT:

Jerry Presba, Executive Secretary, Airworthiness Directive Review Board, Federal Aviation Administration, Western Region, P.O. Box 92007, World Way Postal Center, Los Angeles, Calif. 90009, telephone 213-536-6351.

SUPPLEMENTARY INFORMATION: Threaded portions of the antinode weight attachment rod have been found to be undersized. A failure in this area causes the antinode weight to break loose and hit the blade tip weights. This will cause the main rotor blades to be completely uncontrolled, and this condition will result in the loss of the rotorcraft regardless of the altitude or of the main rotor blade RPM.

Hiller Service Bulletin 54-4, dated September 26, 1978, has been approved by the FAA as an equivalent procedure to paragraph (a)(3) of the priority mail letter, and the AD has been amended to incorporate this alternate means of compliance. Also, the note has been revised to further describe the caution necessary in reinstalling the antinode bar assembly and minor corrections have been made.

The phrase "or later FAA approved revisions" has not been included in the service bulletin citation and a note has been added indicating that the cited version of the service bulletin is the only version acceptable for demonstrating compliance with the AD.

Since it was found that immediate corrective action was required, notice and public procedure thereon was impractical and contrary to the public interest and good cause existed for making airworthiness directive effective immediately as to all known U.S. operators of Hiller UH-12 series helicopters by individual priority mail letters dated September 22, 1978. These conditions still exist and the airworthiness directive is hereby published in the FEDERAL REGISTER as an amendment to section 39.13 of part 39 of the Federal Aviation Regulations to make it effective as to all persons.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended, by adding the following new airworthiness directive:

HILLER HELICOPTER applies to Hiller model UH-12D, UH-12E, and UH-12E (4 Place) certificated in all categories including military models UH-23D, UH-23G, H-23F, and turbine powered models, equipped with main rotor blades assembly, Parson part No. 2253-1101-03 or 2253-1101-04.

Compliance required as indicated.

To prevent failure of the main rotor blade Parson part No. 2253-1101-03 and 2253-1101-04 antinode outboard retention system, which could result in a loss of the rotocraft, accomplish the following:

(a) Before further flight after receipt of this AD, unless already accomplished, in-

spect the threaded end of the antinode bar outboard of the antinode weight anchor nut according to the following instructions:

(1) Remove the antinode bar assembly per

[4910-13-M]

[Airspace Docket No. 78-EA-41]

1. Amend § 71.171 of part 71 of the Federal Aviation Regulations so as to amend the description of the Reading, Pa., control zone by deleting "5 miles

tion area by deleting, "and within 2.5 miles each side of the Salisbury, Md., VORTAC 096° radial, extending from

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administra-

2. The FAA regional office of the region in which the affected airport is located; or

V 4 3 / 2 0 5 0 C 2 3 7 8

spect the threaded end of the antinode bar outboard of the antinode weight anchor nut according to the following instructions:

(1) Remove the antinode bar assembly per paragraph 4.53 of UH-12E/UH-12L Series Structural Repair Manual.

(2) Clean thread outboard of the antinode weight anchor nut with a suitable wire brush.

(3) Using a micrometer, measure the thread major diameter.

(i) If the rod thread major diameter is between 0.3678 and 0.3750 inch, no further action is required for this AD and the rod may be reinstalled per instructions contained in the Structural Repair Manual.

NOTE.—*Caution.* Use extreme care in reinstalling the antinode bar assembly to insure that the screws attaching the anchor nut to the antinode bar are not sheared. Hand pressure is the maximum force allowed.

(ii) If the rod thread major diameter measures 0.3667 inch or less, before returning to service:

(A) Return the rotor blade(s) to Hiller Aviation or an FAA approved repair station to replace the antinode bar assembly, or

(B) Replace the antinode bar assembly per Hiller Service Bulletin 51-4, dated September 26, 1978.

NOTE.—Hiller Service Bulletin 51-4, dated September 26, 1978, is the only version of the service bulletin suitable for compliance with this AD.

(b) Special flight permits may be issued in accordance with FAR's 21.197 and 21.199 to operate aircraft to a base for accomplishment of the repair required by paragraph (a) of this AD.

(c) Equivalent inspection procedures and repairs may be used when approved by the Chief, Aircraft Engineering Division, FAA Western Region.

(d) Record the rod thread major diameter on the appropriate blade record card.

(e) Report the helicopter serial number, blade serial number, blade total time and the antinode rod thread major diameter to the Chief, Aircraft Engineering Division, FAA Western Region, P.O. Box 92007, World Way Postal Center, Los Angeles, Calif. 90009. (Reporting approved by the Bureau of Budget under BOB No. 04-RO174.)

This amendment is effective October 27, 1978, and was effective upon receipt for all recipients of the priority mail letter dated September 22, 1978, which contained this amendment.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.89.)

Issued in Los Angeles, Calif., on October 11, 1978.

LEON C. DAUGHERTY,
Acting Director,
FAA Western Region.

[Airspace Docket No. 78-EA-41]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area, Reading, Pa.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment alters the Reading, Pa., control zone and transition area, over Carl A. Spaatz Field, Reading, Pa. This alteration will provide protection to aircraft executing the new instrument approach which has been developed for the airport. An instrument approach procedure requires the designation of controlled airspace to protect instrument aircraft utilizing the instrument approach.

EFFECTIVE DATE: 0901 G.m.t., December 28, 1978.

FOR FURTHER INFORMATION CONTACT:

Frank Trent, Airspace and Procedures Branch, AEA-530, Air Traffic Division, Federal Aviation Administration, Federal Building, J.F.K. International Airport, Jamaica, N.Y. 11430, telephone 212-995-3391.

SUPPLEMENTARY INFORMATION: The purpose of this amendment to subparts F and G of part 71 of the Federal Aviation Regulations (14 CFR Part 71) is to alter a control zone and transition area. The rule resulted from the development of a revision to the instrument approach for the airport. On page 28207 of the FEDERAL REGISTER for June 29, 1978, the FAA published a proposed amendment to alter the subject control zone and transition area. Interested parties were given time in which to submit comments. No objections were received.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, subparts F and G of part 71 of the Federal Aviation Regulations (14 CFR Part 71) are amended, effective 0901 G.m.t., December 28, 1978, as published.

(Secs. 307(a), 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(c)); sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69.)

Issued in Jamaica, N.Y., on October 10, 1978.

L. J. CARDINALI,
Acting Director, Eastern Region.

1. Amend § 71.171 of part 71 of the Federal Aviation Regulations so as to amend the description of the Reading, Pa., control zone by deleting "5 miles northwest" and by inserting "6 miles northwest" in lieu thereof.

2. Amend § 71.181 of part 71 of the Federal Aviation Regulations so as to amend the description of the Reading, Pa., transition area by adding the following: "within 4.5 miles each side of 301° bearing from a point 40°27'10" N., 76°07'40" W., extending from said point to 8.5 miles northwest of said point.".

[FR Doc. 78-29578 Filed 10-20-78; 8:45 am]

[4910-13-M]

[Airspace Docket No. 78-EA-75]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area: Ocean City, Md.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This rule will amend the Ocean City, Md., transition area's description by deleting the extension referenced to the Salisbury, Md., VORTAC 096° radial. This change is the result of the cancellation of the VOR-B instrument approach procedure.

EFFECTIVE DATE: October 23, 1978.

FOR FURTHER INFORMATION CONTACT:

Frank Trent, Airspace and Procedures Branch, AEA-530, Air Traffic Division, Federal Aviation Administration, Federal Building, J.F.K. International Airport, Jamaica, N.Y. 11430, telephone 212-995-3391.

SUPPLEMENTARY INFORMATION: The rule is minor in nature and does not impose any additional burden on any person. In view of the foregoing, notice and public procedure hereon are unnecessary and the rule may be made effective in less than 30 days.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, subpart G of part 71 of the Federal Aviation Regulations (14 CFR Part 71) is amended, effective upon publication in the FEDERAL REGISTER by adoption of the amendment, as follows:

1. Amend § 71.181 of part 71 of the Federal Aviation Regulations by amending the description of the Ocean City, Md., 700-foot floor transition area by deleting, "and within 2.5 miles each side of the Salisbury, Md., VORTAC 096° radial, extending from the 5-mile radius area to 15.5 miles east of the VORTAC".

(Secs. 307(a), 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a), 1354(c)); sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69.)

Issued in Jamaica, N.Y., on October 10, 1978.

L. J. CARDINALI,
Acting Director,
Eastern Region.

[FR Doc. 78-29576 Filed 10-20-78; 8:45 am]

[4910-13-M]

[Airspace Docket No. 78-EA-92]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area: Westminster, Md.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This rule will alter the transition area of Westminster, Md., by amending the descriptions to reflect a change of 1° for the transition area extension for Westminster Airport and extending the duration of the transition area from part time to full time. The 1° results from the implementation of a new VOR RWY 34 approach procedure. The full-time transition area is permitted by night-time use of the new procedure.

EFFECTIVE DATE: 0901 G.m.t., November 16, 1978.

FOR FURTHER INFORMATION CONTACT:

Frank Trent, Airspace and Procedures Branch, AEA-530, Air Traffic Division, Federal Aviation Administration, Federal Building, J.F.K. International Airport, Jamaica, N.Y. 11430, telephone 212-995-3391.

SUPPLEMENTARY INFORMATION: The 1° change is minor in nature and does not impose any additional burden on any person. The change from part-time to full-time transition can be effective November 16, 1978, when the new approach procedure is implemented. In view of the enhancement of air safety and fuller utilization of Westminster Airport, notice and public procedure hereon are impracticable and good cause exists for making the rule effective in less than 30 days.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, subpart G of part 71 of the Federal Aviation Regulations (14 CFR Part 71) is amended, effective 0901 G.m.t., November 16, 1978, as follows:

1. Amend § 71.181 of part 71 of the Federal Aviation Regulations by amending the description of the Westminster, Md. (Westminster Airport) 700-foot floor transition area as follows:

a. Delete "350°" and insert, "351°" in lieu thereof.

b. Delete "This transition area is effective from sunrise to sunset, daily.".

(Secs. 307(a), 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a), 1354(c)); sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69.)

Issued in Jamaica, N.Y., on October 10, 1978.

L. J. CARDINALI,
Acting Director,
Eastern Region.

[4910-13-M]

[Docket No. 18348; Amdt. No. 1122]

SUBCHAPTER F—AIR TRAFFIC AND GENERAL OPERATING RULES

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Amendments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment establishes, amends, suspends, or revokes standard instrument approach procedures (SIAP's) for operations at certain airports. These regulatory actions are needed because of the adoption of new or revised criteria or because of changes occurring in the national airspace system, such as the commissioning of new navigational facilities, addition of new obstacles, or changes in air traffic requirements. These changes are designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations under instrument flight rules at the affected airports.

DATES: An effective date for each SIAP is specified in the amendatory provisions.

ADDRESSES: Availability of matters incorporated by reference in the amendment is as follows:

For examination—

1. FAA rules docket, FAA Headquarters Building, 800 Independence Avenue SW., Washington, D.C. 20591;

2. The FAA regional office of the region in which the affected airport is located; or

3. The flight inspection field office which originated the SIAP.

For purchase—

Individual SIAP copies may be obtained from:

1. FAA Public Information Center (APA-430), FAA Headquarters Building, 800 Independence Avenue SW., Washington, D.C. 20591; or

2. The FAA regional office of the region in which the affected airport is located.

By subscription—Copies of all SIAP's, mailed once every 2 weeks, may be ordered from Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. The annual subscription price is $135.

FOR FURTHER INFORMATION CONTACT:

William L. Bersch, Flight Procedures and Airspace Branch (AFS-730), Aircraft Programs Division, Flight Standards Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591, telephone 202-426-8277.

SUPPLEMENTARY INFORMATION: This amendment to part 97 of the Federal Aviation Regulations (14 CFR Part 97) prescribes new, amended, suspended, or revoked standard instrument approach procedures (SIAP's). The complete regulatory description of each SIAP is contained in official FAA form documents which are incorporated by reference in this amendment under 5 U.S.C. 552(a), 1 CFR Part 51, and § 97.20 of the Federal Aviation Regulations (FAR's). The applicable FAA forms are identified as FAA forms 8260-3, 8260-4, and 8260-5. Materials incorporated by reference are available for examination or purchase as stated above.

The large number of SIAP's, their complex nature, and the need for a special format make their verbatim publication in the FEDERAL REGISTER expensive and impractical. Further, airmen do not use the regulatory text of the SIAP's but refer to their graphic depiction on charts printed by publishers of aeronautical materials. Thus, the advantages of incorporation by reference are realized and publication of the complete description of each SIAP contained in FAA form document is unnecessary. The provisions of this amendment state the affected CFR (and FAR) sections, with the types and effective dates of the SIAP's. This amendment also identifies the airport, its location, the procedure identification and the amendment number.

This amendment to part 97 is effective on the date of publication and contains separate SIAP's which have

V 43/205 OCT 23 78

compliance dates stated as effective dates based on related changes in the national airspace system or the application of new or revised criteria. Some SIAP amendments may have been previously issued by the FAA in a national flight data center (FDC) notice to airmen (NOTAM) as an emergency action of immediate flight safety relating directly to published aeronautical charts. The circumstances which created the need for some SIAP amendments may require making them effective in less than 30 days. For the remaining SIAP's, an effective date at least 30 days after publication is provided.

Further, the SIAP's contained in this amendment are based on the criteria contained in the U.S. standard for terminal instrument approach procedures (TERP's). In developing these SIAP's, the TERP's criteria were applied to the conditions existing or anticipated at the affected airports. Because of the close and immediate relationship between these SIAP's and safety in air commerce, I find that notice and public procedure before adopting these SIAP's is unnecessary, impracticable, or contrary to the public interest and, where applicable, that good cause exists for making some SIAP's effective in less than 30 days.

The principal authors of this document are Rudolph L. Fioretti, Flight Standards Service, and Richard W. Danforth, Office of the Chief Counsel.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me, part 97 of the Federal Aviation Regulations (14 CFR Part 97) is amended by establishing, amending, suspending, or revoking standard instrument approach procedures, effective on the dates specified, as follows:

1. By amending § 97.23 VOR-VOR/DME SIAP's identified as follows:

• • • effective December 28, 1978.

Title 15—Commerce and Foreign Trade

SUBTITLE A—OFFICE OF THE SECRETARY OF COMMERCE

PART 8—NONDISCRIMINATION IN FEDERALLY ASSISTED PROGRAMS OF THE DEPARTMENT OF COMMERCE—IMPLEMENTATION OF TITLE VI OF THE CIVIL RIGHTS ACT OF 1964

Appendix A—Federal Financial Assistance to Which This Part Applies [1]

AGENCY: Department of Commerce.

ACTION: Revision and amendment of Department of Commerce appendix A.

SUMMARY: Executive Order 11764 delegated to the Attorney General final approval of regulations to implement title VI of the Civil Rights Act of 1964, 42 U.S.C. 2000d et seq. In accordance with that authority the Department of Justice issued regulations (28 CFR 42.401-415) to coordinate each Federal agency's title VI regulations. Section 42.403(d) of the Justice regulations requires that each agency publish a current list of the Federal financial assistance covered under its title VI programs. This rule revises the Commerce Department's list of Federal financial assistance which is contained in appendix A to this part.

EFFECTIVE DATE: October 23, 1978.

FOR FURTHER INFORMATION CONTACT:

Alice K. Helm, Office of Civil Rights, Department of Commerce, 14th and Constitution Avenue, Washington, D.C. 20230, 202-377-5391.

Appendix A to part 8 of title 15, subtitle A of the Code of Federal Regulations is hereby revised and amended as follows:

Dated: September 29, 1978.

JUANITA M. KREPS,
Secretary.

APPENDIX A: PROGRAMS COVERED BY TITLE VI

1. FEDERAL FINANCIAL ASSISTANCE TO WHICH TITLE 15, SUBTITLE A, PART 8 APPLIES

Economic Development Administration

1. Loans, grants, technical and other assistance for public works and development facilities, for supplementing Federal grants-in-aid, for private businesses, and for other purposes, including assistance in connection with designated economic development districts and regions (Public Works and Economic Development Act of 1965, as amended, 42 U.S.C. 3121 et seq.).

2. Financial and technical assistance to firms to aid economic adjustment to the effects of increased imports in direct competition with firm products (Trade Act of 1974, 19 U.S.C. 2341-2354).

3. Assistance to communities adversely affected by increased imports in direct competition with products manufactured in the community area (Trade Act of 1974, 19 U.S.C. 2371-2374.

4. Assistance to projects involving construction of local and State public facilities in order to reduce unemployment and provide State and local governments with badly needed public facilities (Local Public Works Capital Development and Assistance Act of 1976, 42 U.S.C. 6701-6710).

5. Trade adjustment assistance: Loans, dissemination of technical information (title II of the Trade Act of 1974, 19 U.S.C. 2341-2374).

Maritime Administration

1. Operating differential subsidy assistance to operators of U.S. flag vessels engaged in U.S. foreign commerce (46 U.S.C. 1171 et seq.).

2. Assistance to operate State maritime academies and colleges to train merchant marine officers (46 U.S.C. 1381-1388).

3. Ship construction differential subsidies, direct payments (Merchant Marine Act of 1936, as amended, 46 U.S.C. 1151-1161).

National Fire Prevention and Control Administration

1. Academy planning assistance: To assist States in the development of training and education in the fire prevention and control area (15 U.S.C. 2201-2219).

2. State fire incident reporting assistance: To assist States in the establishment and operation of a statewide fire incident and casualty reporting system (15 U.S.C. 2201-2219).

3. Public education assistance planning: Publications, audiovisual presentations and demonstrations, research, testing, and experimentation to determine the most effective means for such public education (15 U.S.C. 2205(c).

4. Policy development assistance: Studies of the operations and management aspects of fire services (15 U.S.C. 2207(c).

National Oceanic and Atmospheric Administration

1. Assistance to States, educational institutions, and the commercial fishing industry for the development of tuna and other latent fisheries (16 U.S.C. 758e).

2. Assistance to States for the development and implementation of programs to protect and study certain species of marine mammals (16 U.S.C. 1379b).

3. Financial assistance to States with agencies which have entered into a cooperative agreement to assist in the preservation of threatened and endangered species (16 U.S.C. 1535).

4. Assistance to coastal States for the development of estuarine sanctuaries to serve as field laboratories and for acquiring access to public beaches (16 U.S.C. 1461).

5. Assistance to coastal States for the development, implementation, and administration of coastal zone management programs (16 U.S.C. 1454-1455).

6. Assistance to coastal States to help communities in dealing with the economic, social, and environmental consequences re-

[1] NOTE.—Appendix A to this part was added on July 5, 1973, 38 FR 17938. It was inadvertently omitted from title 15 of the Code of Federal Regulations. This rule revises and reinstates appendix A to part 8 of title 15.

sulting from expanded coastal energy activity (16 U.S.C. 1456).

7. Authority to enter into cooperative agreements with "colleges and universities

Regional Action Planning Commissions

1. Supplemental grants to Federal grant-in-aid programs and technical assistance funds for planning, investigations, studies

sulting from expanded coastal energy activity (16 U.S.C. 1456).

7. Authority to enter into cooperative agreements with "colleges and universities, with game and fish departments of the several States, and with nonprofit organizations relating to cooperative research units." Assistance limited to assignment of personnel, supplies, and incidental expenses (16 U.S.C. 753 a and b).

8. Grants for education and training of personnel in the field of commercial fishing, "to public and nonprofit private universities and colleges * * *" (16 U.S.C. 760d).

9. Grants for "office and any other necessary space" for the Northern Pacific Halibut Commission (16 U.S.C. 772).

10. The "Dingell Johnson Act": Apportionment of dollars to States for restoration and management of sport or recreational species (16 U.S.C. 777-777i; 777k).

11. Authority to cooperate with and provide assistance to States in controlling jellyfish, etc. (16 U.S.C. 1201, 1202).

12. Authority to cooperate with and provide assistance to certain States and territories in the study and control of "Crown of Thorns" starfish (16 U.S.C. 1211-1213).

13. Technical assistance to fishing cooperatives regarding catching and marketing aquatic products (15 U.S.C. 521-522).

14. Fish research and experimentation program cooperation with other agencies in acquisition of lands, construction of buildings, employment of personnel in establishing and maintaining research stations (16 U.S.C. 778a).

15. Assistance to upgrade commercial fishing vessels and gear (16 U.S.C. 742c).

16. Assistance to State projects designed for the research and development of commercial fisheries resources of the nation (16 U.S.C. 779a-779f).

17. Assistance to State and other non-Federal interests under cooperative agreements to conserve, develop, and enhance anadromous and Great Lakes Fisheries (16 U.S.C. 757a et seq.).

18. Grants and other assistance under the National Sea Grant College and Program Act of 1966: To support establishment of major university centers for marine research, education, training, and advisory services (33 U.S.C. 1121-1124).

19. Geodetic surveys and services; advisory services; dissemination of technical information (33 U.S.C. 883a).

20. Nautical charts assistance; advisory services; dissemination of technical information (33 U.S.C. 883a).

21. River and flood forecast and warning services; advisory services (15 U.S.C. 313).

22. Weather forecast and warning services (15 U.S.C. 311 and 313, 49 U.S.C. 1351 and 1463).

23. Commercial fisheries disaster assistance (16 U.S.C. 779b).

24. Provision for the Weather Service to assist in joint projects "of mutual interest" (15 U.S.C. 1525).

Office of Minority Business Enterprise

1. Assistance to minority business enterprises: Grants, contracts, advisory service, technical information (15 U.S.C. 1512; title III of the Public Works and Economic Development Act of 1965, as amended, 42 U.S.C. 3151; Executive Order 11625, Oct. 13, 1971).

Regional Action Planning Commissions

1. Supplemental grants to Federal grant-in-aid programs and technical assistance funds for planning, investigations, studies, training programs, and demonstration projects, including demonstrations in energy, transportation, health and nutrition, education and indigenous arts and crafts (title V of the Public Works and Economic Development Act of 1965, as amended, 42 U.S.C. 3181-3196).

United States Travel Service

1. Assistance to strengthen the domestic and foreign commerce of the United States, and to promote friendly understanding and appreciation of the United States by encouraging foreign residents to visit the United States (22 U.S.C. 2121 et seq.).

Departmentwide

1. Authority to make basis scientific research grants (42 U.S.C. 1891-1893; to be superseded no later than Feb. 3, 1979, by the Federal Grant and Cooperative Agreement Act of 1977, Pub. L. 95-224).

II. A PRIMARY OBJECTIVE OF THE FINANCIAL ASSISTANCE AUTHORIZED BY THE FOLLOWING STATUTES, ALREADY LISTED ABOVE IN APPENDIX AI, IS TO PROVIDE EMPLOYMENT

1. Public Works and Economic Development Act of 1965, as amended (42 U.S.C. 3121 et seq.).

2. Trade Act of 1974 (19 U.S.C. 2341-2354).

3. Local Public Works Capital Development and Assistance Act of 1976 (42 U.S.C. 6701-6716).

CHAPTER III—INDUSTRY AND TRADE ADMINISTRATION, DEPARTMENT OF COMMERCE

PART 385—SPECIAL COUNTRY POLICIES AND PROVISIONS

Embargo on Export Trade With Uganda

AGENCY: Office of Export Administration, Bureau of Trade Regulation, (Industry and Trade Administration) U.S. Department of Commerce.

ACTION: Final rule.

SUMMARY: Pub. L. 95-435, signed by President Carter on October 10, 1978, amended the Export Administration Act of 1969 by adding a provision embargoing export trade (except cereal grains and additional food products) with Uganda. This rule announces that, effective October 10, 1978, this embargo supersedes any existing provisions of the Export Administration Regulations to the contrary. The Department is now reviewing the statute to determine what further regulatory changes may be required.

EFFECTIVE DATE: October 10, 1978.

FOR FURTHER INFORMATION CONTACT:

Charles C. Swanson, Director, Operations Division, Office of Export Administration, U.S. Department of Commerce, Washington, D.C. 20230, telephone 202-377-4196.

Accordingly, part 385 of the Export Administration Regulations (15 CFR Part 385) is amended to add a new section to read as follows:

§ 385.7 Uganda.

Pub. L. 95-435, effective October 10, 1978, added a new subsection (m) to section 4 of the Export Administration Act of 1969, as amended, as follows:

No article, material, or supply, including technical data or other information, other than cereal grains and additional food products, subject to the jurisdiction of the United States or exported by any person subject to the jurisdiction of the United States may be exported to Uganda until the President determines and certifies to the Congress that the Government of Uganda is no longer committing a consistent pattern of gross violations of human rights.

Any provision in the Export Administration Regulations contrary to this embargo is superseded.

(Sec. 4, Pub. L. 91-184, 83 Stat. 842 (50 U.S.C. App. 2403), as amended; sec. 5(d), Pub. L. 95-435, 92 Stat. 1051; E.O. 12002, 42 FR 35623 (1977); Department Organization order 10-3, dated Dec. 4, 1977, 42 FR 64721 (1977); and Industry and Trade Administration Organization and Function Order 45-1, dated Dec. 4, 1977, 42 FR 64716 (1977).)

Dated: October 17, 1978.

STANLEY J. MARCUSS,
Deputy Assistant Secretary for Trade Regulation.

Title 33—Navigation and Navigable Waters

CHAPTER II—CORPS OF ENGINEERS, DEPARTMENT OF THE ARMY

PART 204—DANGER ZONE REGULATIONS

San Miguel Island, Calif.

AGENCY: U.S. Army Corps of Engineers, DOD.

ACTION: Final rule.

SUMMARY: This document amends the regulations which establish a naval danger zone at San Miguel Island, Calif. This amendment extends the period of use for the danger zone to July 1, 1980.

DATE: Effective on October 23, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Ralph T. Eppard, 202-693-5070, or write: Office of the Chief of Engineers, attention: DAEN-CWO-N, Forrestal Building, Washington, D.C. 20314.

SUPPLEMENTARY INFORMATION: The proposed revision was published in the FEDERAL REGISTER on August 16, 1978 (43 FR 36283), with the comment period expiring on September 18, 1978. We received no objections to extending the period of use for this danger zone. Pursuant to section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U.S.C. 1), and chapter XIX of the Army Appropriations Act of July 9, 1918 (40 Stat. 892; 33 U.S.C. 3), 33 CFR 204.203(c)(9) is revised as set forth below:

NOTE.—The Department of the Army has determined that this document does not contain a major proposal requiring preparation of an inflation impact statement under Executive Order 11821 and OMB Circular A-107.

Dated: October 2, 1978.

Approved:

MICHAEL BLUMENFELD,
Deputy Under Secretary of the Army.

§ 204.203 Pacific Ocean at San Miguel Island, Calif., naval danger zone.

* * * * * * *

(c) The regulations. * * *

(9) The regulations in this section shall be in effect until July 1, 1980, and shall be reviewed in May 1980 to determine the continuing need.

(33 U.S.C. 1, 3.)

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

[FRL 992-1; PP 6E1848/R175]

SUBCHAPTER E—PESTICIDE PROGRAMS

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Carbaryl

AGENCY: Office of Pesticide Programs, Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This rule establishes a tolerance for residues of the insecticide carbaryl. The request was submitted by the Interregional Research Project No. 4. This regulation establishes a maximum permissible level for residues of carbaryl on sweet potatoes.

EFFECTIVE DATE: October 23, 1978.

FOR FURTHER INFORMATION CONTACT:

Mrs. Patricia Critchlow, Registration Division (TS-767), Office of Pesticide Programs, EPA, 401 M Street SW, Washington, D.C. 20460, 202-755-4851.

SUPPLEMENTARY INFORMATION: On August 3, 1978, the EPA published a notice of proposed rulemaking in the FEDERAL REGISTER (43 FR 34163) in response to a pesticide petition (PP 6E1848) submitted to the Agency by the Interregional Research Project No. 4 (IR-4), P.O. Box 231, Rutgers University, New Brunswick, N.J. 08903, on behalf of the IR-4 Technical Committee and the Agricultural Experiment Stations of California, Florida, Louisiana, and North Carolina. this petition proposed that 40 CFR 180.169 be amended by establishing a tolerance for residues of the insecticide carbaryl (1-napthyl *N*-methylcarbamate) including its hydrolysis product 1-naphthol, calculated as carbaryl, in or on the raw agricultural commodity sweet potatoes at 0.2 part per million (ppm). Two comments were received in response to this notice of proposed rulemaking. One advocated establishment of the proposed tolerance. The other pointed out a typographical error ("rate" should be changed to "rat" in the ninth paragraph, third line) and recommended that the word "teratology" in the ninth paragraph, third line, be changed to "feeding" and that the term "highest level fed" in the ninth paragraph, fifth line, be deleted, all in the preamble.

It has been concluded, therefore, that the proposed amendment to 40 CFR 180.169 should be adopted without change, and it has been determined that this regulation will protect the public health.

Any person adversely affected by this regulation may, on or before November 22, 1978, file written objections with the Hearing Clerk, EPA, Room M-3708, 401 M Street SW., Washington, D.C. 20460. Such objections should be submitted in quintuplicate and specify the provisions of the regulation deemed to be objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by the grounds legally sufficient to justify the relief sought.

Effective on the date of publication in the FEDERAL REGISTER, part 180, subpart C, § 180.169 is amended by alphabetically inserting a tolerance for carbaryl on sweet potatoes at 0.2 ppm as set forth below.

(Sec. 408(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a(e)).)

Dated: October 16, 1978.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

Part 180, subpart C, § 180.169, is revised by reformatting the section into an alphabetized columnar listing and alphabetically inserting the new tolerance of 0.2 ppm in or on sweet potatoes, as follows:

§ 180.169 Carbaryl; tolerances for residues.

Tolerances are established for residues of the insecticide carbaryl (1-naphthyl *N*-methylcarbamate), including its hydrolysis product 1-naphthol, calculated as 1-naphthyl *N*-methylcarbamate, in or on the following raw agricultural commodities:

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Terbacil

AGENCY: Office of Pesticide Programs, Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This rule establishes tolerances for residues of terbacil on sainfoin forage and hay. The regulation was requested by the Interregional Research Project No. 4. This rule establishes maximum permissible leveis for residues of terbacil on sainfoin forage and hay.

EFFECTIVE DATE: Effective on October 23, 1978.

FOR FURTHER INFORMATION CONTACT:

Mrs. Patricia Critchlow, Registration Division (TS-767), Office of Pesticide Programs, EPA, 401 M Street SW., Washington, D.C., 202-755-4851.

SUPPLEMENTARY INFORMATION: On August 9, 1978, the EPA published a notice of proposed rulemaking in the FEDERAL REGISTER (43 FR 35349) in response to a pesticide petition (PP 7E1964) submitted to the Agency by the Interregional Research Project No. 4 (IR-4), New Jersey State Agricultural Experiment Station, P.O. Box 231, Rutgers University, New Brunswick, N.J. 08903, on behalf of the IR-4 Technical Committee and the Agricultural Experiment Station of Montana.

This petition proposed that 40 CFR 180.209 be amended by the establishment of a tolerance for combined residues of the herbicide terbacil (3-*tert*-butyl-5-chloro-6-methyluracil) and its hydroxylated metabolites (calculated as terbacil) in or on the raw agricultural commodities sainfoin forage and sainfoin hay at 5 parts per million (ppm). No comments or requests for referral to an advisory committee were received in response to this notice of proposed rulemaking.

It has been concluded, therefore, that the proposed amendment to 40 CFR 180.209 should be adopted without change, and it has been determined that this regulation will protect the public health.

Any person adversely affected by this regulation may, on or before November 22, 1978, file written objections with the Hearing Clerk, Environmental Protection Agency, Room M-3708, 401 M Street SW., Washington, D.C. 20460. Such objections should be submitted in quintuplicate and should specify both the provisions of the regulation deemed to be objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

Effective on October 23, 1978, part 180, subpart C, § 180.209 is amended by adding tolerances for residues of terbacil on sainfoin forage and hay at 5 ppm as set forth below.

Dated: October 16, 1978.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

(Sec. 408(e), Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a(e)).)

Part 180, subpart C, § 180.209 is amended by alphabetically inserting sainfoin forage and sainfoin hay at 5 ppm in the table in paragraph (b), to read as follows:

§ 180.209 Terbacil; tolerances for residues.

* * * * *

Commodity	Parts per million
Sainfoin, forage	5
Sainfoin hay	5

* * * * *

Title 42—Public Health

CHAPTER IV—HEALTH CARE FINANCING ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Redesignation of PSRO Areas in North Carolina

AGENCY: Health Care Financing Administration (HCFA), HEW.

ACTION: Final rule.

SUMMARY: This rule amends the professional standards review organization (PSRO) area designations for North Carolina by transferring Watauga County from PSRO area I to PSRO area II. The redesignation of these areas will result in PSRO areas that better coincide with existing medical service areas in North Carolina.

DATE: The transfer is effective October 23, 1978.

FOR FURTHER INFORMATION CONTACT:

Arnold Wilson, Health Care Financing Administration, telephone 301-443-5327.

SUPPLEMENTARY INFORMATION: On March 18, 1974, we published regulations (39 FR 10204) designating eight PSRO areas within North Carolina. Area I is composed of 20 counties in the westernmost portion of the State, and area II is composed of 12 counties in the northwestern portion of the State. Area VI is composed of 26 counties in the eastern portion of the State, and area VIII is composed of 13 counties in the southeastern portion of the State.

On October 27, 1977, we published a notice (42 FR 55626) proposing to transfer Watauga County from PSRO area I to PSRO area II and Onslow County from PSRO area VIII to PSRO area VI. Our aim was to have PSRO areas that more accurately reflect the medical referral patterns in those geographical areas.

No comments were received concerning the transfer of Watauga County. Comments were received, however, from the Onslow Medical Society, Onslow Hospital, Health Services Area Planning Agency, and the Southeastern North Carolina Medical Peer Review Foundation, requesting that Onslow County remain in PSRO area VIII. Onslow County is located on the border between areas VI and VIII, and is equally distant from the nearest major medical facilities in both PSRO areas.

The comments indicate that referrals from Onslow County are made as frequently to providers of medical care in area VIII as they are made to providers in area VI. Furthermore, the local review program of the North Carolina State Medicaid Hospital Admissions Review program (HARP) is operating in PSRO area VIII and includes review of medicaid patients in Onslow County.

We have concluded that leaving Onslow County in area VIII is consistent with current medical referral patterns. Therefore, we decided not to transfer Onslow County to area VI.

We have decided to transfer Watauga County from area I to area II so that these PSRO areas will more nearly coincide with the existing medical service areas. Data concerning patients in these two areas indicate that physicians from Watauga County generally refer patients to Winston-Salem in area II rather than to Asheville, the major medical center in area I. Hospitals in Watauga County are linked with health care facilities in Winston-Salem by a radio communication system which facilitates the delivery of emergency medical services to residents of Watauga County. Furthermore, because of the mountainous terrain between Watauga County and Asheville, Winston-Salem is more accessible than Asheville for Watauga County patients who travel by automobile.

42 CFR 460.37 is amended by revising the designation of PSRO area I and area II to read as follows:

§ 460.37 North Carolina.

Eight professional standards review organization areas are designated in North Carolina, composed of the following counties:

AREA I

Avery, Caldwell, Mitchell, Yancey, McDowell, Burke, Haywood, Buncombe, Rutherford, Swain, Transylvania, Jackson, Henderson, Polk, Graham, Macon, Cherokee, Clay, and Madison.

AREA II

Watauga, Surry, Stokes, Yadkin, Forsyth, Iredell, Davie, Rowan, Davidson, Ashe, Alleghany, Wilkes, and Alexander.

AREA III

Rockingham, Caswell, Guilford, Alamance, and Randolph.

AREA IV

Person, Orange, Durham, and Chatham.

AREA V

Granville, Vance, Warren, Franklin, Wake, Lee, Harnett, and Johnston.

AREA VI

Halifax, Northampton, Hertford, Gates, Chowan, Perquimans, Pasquotank, Camden, Currituck, Nash, Edgecombe, Bertie, Martin, Washington, Tyrrell, Dare, Wilson, Greene, Pitt, Beaufort, Hyde, Lenoir, Craven, Pamlico, Jones, and Carteret.

AREA VII

Catawba, Lincoln, Cleveland, Gaston, Mecklenburg, Cabarrus, Stanly, Montgomery, Moore, Union, Anson, and Richmond.

AREA VIII

Wayne, Hoke, Cumberland, Sampson, Duplin, Onslow, Scotland, Robeson, Bladen, Pender, Columbus, Brunswick, and New Hanover.

(Secs. 1102, 1152, Social Security Act (42 U.S.C. 1302, 1302c-1).)

Dated: September 7, 1978.

ROBERT A. DERZON,
Administrator, Health Care Financing Administration.

Approved: October 11, 1978.

JOSEPH A. CALIFANO, Jr.,
Secretary.

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[FCC 78-710]

PART 0—COMMISSION ORGANIZATION

Delegation of Authority to the Chief Administrative Law Judge

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: To encourage and expedite the consolidation for related hearing cases, the FCC authorizes the chief administrative law judge to consolidate such cases.

EFFECTIVE DATE: October 23, 1978.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Upton Guthery, Office of General Counsel, 202-632-6444.

SUPPLEMENTARY INFORMATION:

Adopted: October 5, 1978.
Released: October 17, 1978.

By the Commission.

In the matter of delegation of authority to the chief administrative law judge.

1. Hearing cases involving the same parties, issues and factual disputes should ordinarily be consolidated. We think that the consolidation of such cases will be encouraged and expedited if the chief administrative law judge is authorized to consolidate them.

2. *Accordingly, it is ordered,* effective October 23, 1978, that the chief administrative law judge is authorized to consolidate related proceedings which have been designated for hearing. Authority for the rule amendment set forth below is contained in sections 4 (i) and (j), and 5 (d), of the Communications Act of 1934, as amended, 47 U.S.C. 154 (i) and (j) and 155(d). Because the amendment involves a matter of procedure and internal organization, the prior notice and effective date provisions of 5 U.S.C. 553 are inapplicable.

(Secs. 4, 5, 303, 48 Stat., as amended, 1066, 1068, 1082; 47 U.S.C. 154, 155, 303.)

FEDERAL COMMUNICATIONS COMMISSION,
WILLIAM J. TRICARICO,
Secretary.

Section 0.351(i) is added, to read as follows:

§ 0.351 Authority delegated.

* * * * *

(i) The consolidation of related proceedings pursuant to § 1.227(a) of this chapter, after designation of those proceedings for hearing.

[FR Doc. 78-29698 Filed 10-19-78; 8:45 am]

[6712-01-M]

[FCC 78-709]

PART 1—PRACTICE AND PROCEDURE

Implementation of Pub. L. 95-234, Forfeiture Procedures

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The Federal Communications Commission amends its rules to implement the new forfeiture statute (Pub. L. 95-234). The statute and the new regulations provide for forfeitures in amounts up to $20,000 in some cases against persons who willfully or repeatedly violate communications laws or regulations; extend the period for bringing an action to 1 year and in some cases to 3; and provide alterna-

V 4 3 / 2 0 5 0 C 2 3 7 8

tive hearing and nonhearing procedures for the imposition of forfeitures.

EFFECTIVE DATE: October 23, 1978.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Upton Guthery, Office of General Counsel, 202-632-6444.

SUPPLEMENTARY INFORMATION:

Adopted: October 5, 1978.

Released: October 20, 1978.

By the Commission.

In the matter of implementation of Pub. L. 95-234, forfeiture procedures.

1. By Pub. L. 95-234, February 21, 1978, the Congress enacted new provisions governing the imposition of forfeitures by the Commission. The law applies to conduct taking place on or after March 23, 1978. Conduct which took place on or before March 22, 1978, continues subject to preexisting law and regulation (47 CFR 1.80, 1.621, and 1.991 (Oct. 1, 1977 ed.)).

2. *The law.* The new forfeiture law effectuates the following major changes:

(a) Under the new law, the Commission may impose forfeitures on any person who willfully or repeatedly fails to comply with the Communications Act, the Commission's rules, Commission orders, treaties, or the terms of any instrument of authorization. Thus, a forfeiture may be imposed for operation without a license, for marketing radio equipment in violation of the rules, etc. The previous law applied only to 12 specific offenses.

(b) The new law substantially increases the amount of the forfeiture which may be imposed. Under the new law, the maximum is $2,000. Previously it was $1,000 for broadcast licensees and $100 for other licensees. The maximum penalty imposed for multiple violations in a single notice of apparent liability is now $20,000 for common carriers, broadcast station licensees, and cable television station operators, and $5,000 for others. Previously it was $10,000 for broadcast station licensees and $500 for other licensees ($400 for a radio operator who did not hold a station license).

(c) The new law contains more generous statute of limitations provision—up to 3 years in the case of violations by broadcasters, and 1 year for others. The previous law required issuance of a notice of apparent liability within 1 year for violations by broadcast station licensees and within 90 days for other licensees.

(d) The new law specifies alternative procedures. First, the Commission may issue a notice of apparent liability and impose a forfeiture without holding a hearing; if the forfeiture is not paid, collection is by trial de novo in a Federal district court. Second, the Commission may issue a notice of opportunity for hearing, which is followed by an evidentiary hearing before an administrative law judge; respondent may petition for judicial review of a final forfeiture order under section 402(a) of the Communications Act, but is not entitled to a trial de novo. The previous law provided only for the notice of apparent liability—trial de novo procedure.

2. *Procedure; § 1.80.* Section 1.80, as set out in the attached appendix tracks the provisions of the new law and carries forward some of the administrative provisions of present § 1.80 (see, e.g., 1.80(h), providing details on payment of forfeitures). New § 1.80 would replace existing §§ 1.80, 1.81, 1.621, and 1.991. To preclude repetitive pleadings following issuance of a final forfeiture order, which have heretofore posed a problem, § 1.80(i) provides that requests for remission or mitigation filed pursuant to section 504(b) of the Communications Act shall be filed as petitions for reconsideration. We believe that one opportunity for reconsideration following final Commission action, followed by judicial review or a trial de novo, quite adequately suffices to serve the interests of fairness.

3. Authority for these rules is contained in sections 4(i), 503(b), and 504(b) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 503(b), and 504(b). Because the rules concern procedure and because they simply track the provisions of Pub. L. 95-234, the prior notice and effective date provisions of 5 U.S.C. 553 are inapplicable.

4. *Accordingly, it is ordered,* effective October 23, 1978, That part 1 of the rules and regulations is amended as set out below.

(Secs. 4, 503, 504, 48 Stat., as amended, 1066, 1101, 47 U.S.C. 154, 503, 504.)

FEDERAL COMMUNICATIONS COMMISSION,
WILLIAM J. TRICARICO,
Secretary.

Part 1 of chapter I of title 47 of the Code of Federal Regulations is amended as follows:

1. Section 1.80 is revised to read as follows:

§ 1.80 Forfeiture proceedings.

(a) *Persons against whom and violations for which, a forfeiture may be assessed.* A forfeiture penalty may be assessed against any person found to have:

(1) Willfully or repeatedly failed to comply substantially with the terms and conditions of any license, permit, certificate, or other instrument of authorization issued by the Commission;

(2) Willfully or repeatedly failed to comply with any of the provisions of the Communications Act of 1934, as amended; or of any rule, regulation or order issued by the Commission under that Act or under any treaty, convention, or other agreement to which the United States is a party and which is binding on the United States;

(3) Violated any provision of section 317(c) or 509(a) of the Communications Act; or

(4) Violated any provision of section 1304, 1343, or 1464 of Title 18, United States Code.

A forfeiture penalty assessed under this section is in addition to any other penalty provided for by the Communications Act, except that the penalties provided for in subpargraphs (1) and (2) of paragraph (b) of this section shall not apply to conduct which is subject to a forfeiture penalty under section 202(c), 203(e), 205, 214(d), 219(b), 220(d), 364, 386, or 507 of the Communications Act. The remaining provisions of this section are applicable to such conduct.

(b) *Limits on the amount of the forfeiture assessed—(1) Limit for each violation.* The amount of any forfeiture penalty assessed under this section shall not exceed $2,000 for each violation.

(2) *Limits on total penalty.* Each day of a continuing violation shall constitute a separate offense, but the total forfeiture which may be imposed under this section for conduct set forth in any notice of apparent liability or notice of opportunity for hearing shall not exceed: (i) $20,000, if the violator is a common carrier subject to the provisions of the Communications Act, a broadcast station licensee or permittee, or a cable television system operator, and the violation relates to operation of those facilities, and

(ii) $5,000, in the case of any other violator.

NOTE.—For information concerning notices of apparent liability and notices of opportunity for hearing, see paragraphs (e), (f), and (g) of this section.

(3) *Factors considered in determining the amount of the forfeiture penalty.* In determining the amount of the forfeiture penalty, the Commission or its designee will take into account the nature, circumstances, extent and gravity of the violations and, with respect to the violator, the degree of culpability, any history of prior offenses, ability to pay, and such other matters as justice may require.

(c) *Limits on the time when a proceeding may be initiated.* (1) In the case of a broadcast station, no forfeiture penalty shall be imposed if the violation occurred more than 3 years prior to the date on which the notice of apparent liability or notice of opportunity for hearing is issued. In addition, no forfeiture penalty shall be imposed if the violation occurred more than 1 year prior to the issuance of the appropriate notice or prior to the date of commencement of the current license term, whichever is earlier.

(2) In the case of a forfeiture imposed against a carrier under sections 202(c), 203(e), and 220(d), no forfeiture will be imposed if the violation occurred more than 5 years prior to the issuance of a notice of apparent liability.

(3) In all other cases, no penalty shall be imposed if the violation occurred more than 1 year prior to the date on which the appropriate notice is issued.

(d) *Preliminary procedure in some cases; citations.* No forfeiture penalty shall be imposed upon any person under this section, if such person does not hold a license, permit, certificate, or other authorization issued by the commission, unless, prior to the issuance of the appropriate notice, such person: (1) Is sent a citation reciting the violation charged; (2) is given a reasonable opportunity (usually 30 days) to request a personal interview with a Commission official, at the field office which is nearest to such person's place of residence; and (3) subsequently engages in conduct of the type described in the citation. However, a forfeiture penalty may be imposed, if such person is engaged in (and the violation relates to) activities for which a license, permit, certificate, or other authorization is required. Paragraph (c) of this section does not limit the issuance of citations. When the requirements of this paragraph have been satisfied with respect to a particular violation by a particular person, a forfeiture penalty may be imposed upon such person for conduct of the type described in the citation without issuance of an additional citation.

(e) *Alternative procedures.* In the discretion of the Commission, a forfeiture proceeding may be initiated either: (1) By issuing a notice of apparent liability, in accordance with paragraph (f) of this section, or (2) a notice of opportunity for hearing, in accordance with paragraph (g).

(f) *Notice of apparent liability.* Before imposing a forfeiture penalty under the provisions of this paragraph, the Commission or its designee will issue a written notice of apparent liability.

(1) *Content of notice.* The notice of apparent liability will: (i) Identify each specific provision, term, or condition of any act, rule, regulation, order, treaty, convention, or other agreement, license, permit, certificate, or instrument of authorization which the respondent has apparently violated or with which he has failed to comply,

(ii) Set forth the nature of the act or omission charged against the respondent and the facts upon which such charge is based,

(iii) State the date(s) on which such conduct occurred, and

(iv) Specify the amount of the apparent forfeiture penalty.

(2) *Delivery.* The notice of apparent liability will be sent to the respondent, by certified mail, at his last known address (see § 1.15).

(3) *Response.* The respondent will be afforded a reasonable period of time (usually 30 days from the date of the notice) to show, in writing, why a forfeiture penalty should not be imposed or should be reduced, or to pay the forfeiture. Any showing as to why the forfeiture should not be imposed or should be reduced shall include a detailed factual statement and such documentation and affidavits as may be pertinent.

(4) *Forfeiture order.* If the proposed forfeiture penalty is not paid in full in response to the notice of apparent liability, the Commission, upon considering all relevant information available to it, will issue an order canceling or reducing the proposed forfeiture or requiring that it be paid in full and stating the date by which the forfeiture must be paid.

(5) *Judicial enforcement of forfeiture order.* If the forfeiture is not paid, the case will be referred to the Department of Justice for collection under section 504(a) of the Communications Act.

(g) *Notice of opportunity for hearing.* The procedures set out in this paragraph will ordinarily be followed only when a hearing is being held for some reason other than the assessment of a forfeiture (such as, to determine whether a renewal application should be granted) and a forfeiture is to be considered as an alternative or in addition to any other Commission action. However, these procedures may be followed whenever the Commission, in its discretion, determines that they will better serve the ends of justice.

(1) Before imposing a forfeiture penalty under the provisions of this paragraph, the Commission will issue a notice of opportunity for hearing. The hearing will be a full evidentiary hearing before an administrative law judge, conducted under procedures set out in subpart B of this part, including procedures for appeal and review of initial decisions. A final Commission order assessing a forfeiture under the provisions of this paragraph is subject to judicial review under section 402(a) of the Communications Act.

(2) If, after a forfeiture penalty is imposed and not appealed or after a court enters final judgment in favor of the Commission, the forfeiture is not paid, the Commission will refer the matter to the Department of Justice for collection. In an action to recover the forfeiture, the validity and appropriateness of the order imposing the forfeiture are not subject to review.

(h) *Payment.* The forfeiture should be paid by check or money order drawn to the order of the Federal Communications Commission. The Commission does not accept responsibility for cash payments sent through the mails. The check or money order should be mailed to the Fee Collection Section, Finance Branch, Federal Communications Commission, Box 19302, Washington, D.C. 20036, or delivered to the Fee Collection Section, Room 209, 1919 M Street NW., Washington, D.C.

(i) *Remission and mitigation.* In its discretion, the Commission, or its designee, may remit or reduce any forfeiture imposed under this section. After issuance of a forfeiture order, any request that it do so shall be submitted as a petition for reconsideration pursuant to § 1.106.

(j) *Effective date.* In accordance with Pub. L. 95-234, February 21, 1978, the provisions of this section govern the imposition of forfeiture involving conduct which took place on or after March 23, 1978. Provisions which govern the imposition of forfeitures involving conduct which took place on or before March 22, 1978 are set out at 47 CFR 1.80, 1.621, and 1.991 (Oct. 1, 1977 ed.).

§§ 1.81, 1.621, 1.991 [Deleted]

2. Section 1.81 is deleted.
3. Section 1.621 is deleted.
4. Section 1.991 is deleted.

V 43/205 OCT 23 78

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

[3410-02-M]

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7CFR Part 1030]

MILK IN THE CHICAGO REGIONAL MARKETING AREA

Proposed Temporary Revision of Shipping Percentage

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed temporary revision of rule.

SUMMARY: This notice invites written comments on a proposal that the supply plant shipping requirements under the Chicago order be temporarily decreased by 5 percentage points for the months of October and November 1978. The action was requested by cooperative associations representing a majority of the producers supplying the market to prevent uneconomic shipments of milk.

DATE: Comments are due on or before October 26, 1978.

ADDRESS: Comments (four copies) should be filed with the Hearing Clerk, United States Department of Agriculture, Washington, D.C. 20250.

FOR FURTHER INFORMATION CONTACT:

Martin J. Dunn, Marketing Specialist, Dairy Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250, 202-447-7311.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the provisions of § 1030.7(b)(5) of the order, the temporary revision of certain provisions of the order regulating the handling of milk in the Chicago Regional marketing area is being considered for the months of October and November 1978.

All persons who desire to submit written data, views or arguments in connection with the proposed revision should file the same with the Hearing Clerk, Room 1077, South Building, United States Department of Agriculture, Washington, D.C. 20250, not later than October 26, 1978. All documents filed should be in quadruplicate. The period for filing views is being limited to the above mentioned date to enable the timely consideration of this matter since the proposed action would be applicable to milk shipments made during October. Further, the proposed change provides some relaxation of pooling standards and thus will not require extensive preparation or substantial alteration in method of operation for handlers.

All written submissions made pursuant to the notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The provision proposed to be revised is the supply plant shipping percentage of 35 percent set forth in § 1030.7(b) that is applicable during the months of October and November.

Pursuant to the provisions of § 1030.7(b)(5) the supply plant shipping percentages set forth in § 1030.7(b) shall be increased or decreased by up to 10 percentage points during the months of September through March as necessary to obtain needed shipments or to prevent uneconomic shipments.

Cooperative associations representing a majority of producers supplying the Chicago Regional market request that during October and November 1978 the supply plant shipping percentages be reduced 5 percentage points. These cooperatives state that the 35 percent shipping requirements in October and November would cause uneconomic shipments of milk.

There is a reduced demand for Class I milk and an increase in the milk supply on the market. Thus, there is a reduced demand for supply plant milk in Class I use and a reduction in required shipments may, accordingly, be appropriate. A reduction in the required shipments of supply plant milk during October and November would allow greater flexibility in obtaining milk as among supply plants in the market and may prevent uneconomic movements of milk merely for purposes of pool plant qualification.

Therefore, it may be appropriate to reduce the aforementioned pool supply plant shipping percentages for the months of October and November 1978 to prevent uneconomic shipments.

Signed at Washington, D.C., on October 18, 1978.

H. L. FOREST,
Director, Dairy Division.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 78-ASW-48]

TRANSITION AREA, GIDDINGS, TEX.

Proposed Designation

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rule making.

SUMMARY: The nature of the action being taken is to propose designation of a transition area at Giddings, Tex. The intended effect of the proposed action is to provide controlled airspace for aircraft executing instrument approach procedures to the Giddings-Lee County Airport. The circumstance which created the need for the action was a requirement to provide capability for flight under instrument weather conditions to the airport. Coincident with this action, the airport will be changed from visual flight rules (VFR) to instrument flight rules (IFR) status.

DATES: Comments must be received by November 22, 1978.

ADDRESSES: Send comments on the proposal to: Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Tex. 76101.

The official docket may be examined at the following location: Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, 4400 Blue Mound Road, Fort Worth, Tex.

An informal docket may be examined at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division.

FOR FURTHER INFORMATION CONTACT:

David Gonzalez, Airspace and Procedures Branch, ASW-536, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Tex. 76101; telephone 817-624-4911, extension 302.

SUPPLEMENTARY INFORMATION: Subpart G 71.181 (43 CFR 440) of FAR Part 71, contains the description of transition areas designated to provide controlled airspace for the benefit of aircraft conducting IFR activity. Designation of the transition area at Giddings, Tex., will necessitate an amendment to this subpart.

COMMENTS INVITED

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Tex. 76101. All communications received on or before November 22, 1978, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date of comments, in the Rules Docket for examination by interested persons.

AVAILABILITY OF NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Chief, Airspace and Prodcedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Tex. 76101, or by calling 817-624-4911, extension 302. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should contact the office listed above.

THE PROPOSAL

The FAA is considering an amendment to Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to designate a transition area at Giddings, Tex. The FAA believes this action will enhance IFR operations at the Giddings-Lee County Airport by providing controlled airspace for aircraft executing proposed instrument approach procedures using the Industry, Tex., VORTAC. Subpart G of Part 71 was republished in the FEDERAL REGISTER on January 3, 1978 (43 FR 440).

THE PROPOSED AMENDMENT

Accordingly, pursuant to the authority delegated to me, the FAA proposes to amend 71.181 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71), as republished (43 FR 440), by ading the Giddings, Tex., transition area as follows:

GIDDINGS, TEX.

That airspace extending upward from 700 feet above the surgface within a 5-mile radius of Giddings-Lee County Airport (lat. 30°10'11" N., long. 96°58'51" W.).

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a); and Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE.—The FAA has determined that this document involves a proposed regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582; March 3, 1978).

Issued in Forth Worth, Tex., on October 10, 1978.

PAUL J. BAKER,
Acting Director,
Southwest Region.

[FR Doc. 78-29579 Filed 10-20-78; 8:45 am]

[4910-13-M]

[14 CFR Part 71]

[Airspace Docket No. 78-EA-71]

TRANSITION AREA, PITTSTOWN, N.J.

Proposed Alteration

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to alter the Pittstown, N.J., Transition Area, over Sky Manor Airport, Pittstown, N.J. This alteration will change the approach course by 1 degree and provide protection to aircraft executing the revised instrument approach by increasing the controlled airspace. An instrument approach procedure requires the designation of controlled airspace to protect instrument aircraft utilizing the instrument approach.

DATES: Comments must be received on or before December 4, 1978.

ADDRESSES: Send comments on the proposal in triplicate to: Chief, Airspace and Procedures Branch, AEA-530, Eastern Region, Federal Aviation Administration, Federal Building, Jamaica, N.Y. 11430. The docket may be examined at the following location: FAA, Office of Regional Counsel, AEA-7, Federal Building, J.F.K. International Airport, Jamaica, N.Y. 11430.

FOR FURTHER INFORMATION CONTACT:

Frank Trent, Airspace and Procedures Branch, AEA-530, Air Traffic Division, Federal Aviation Administration, Federal Building, J.F.K. International Airport, Jamaica, N.Y. 11430, telephone 212-995-3391.

COMMENTS INVITED

Interested parties may participate in the proposed rulemaking by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Eastern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, J.F.K. International Airport, Jamaica, N.Y. 11430. All communications received on or before December 4, 1978, will be considered before action is taken on the proposed amendment. The proposals contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

AVAILABILITY OF NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Chief, Airspace and Procedure Branch, AEA-530, Eastern Region, Federal Aviation Administration, Federal Building, Jamaica, N.Y. 11430, or by calling 212-995-3391.

Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular No. 11-2, which describes the application procedures.

THE PROPOSAL

The FAA is considering an amendment to Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71), to alter the transition area over Sky Manor Airport. The alteration will increase the length of the present transition area extension by 1 mile, and increase the width of the extension from a total width of 6 miles to a total width of 9 miles.

THE PROPOSED AMENDMENT

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend section 71.181 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as follows:

1. Amend § 71.181 of Part 71 of the Federal Aviation Regulations, by deleting the description of the Pittstown,

An informal docket may be examined at the office of the Regional Air Traffic Division.

trol procedures and aid air traffic controllers when applying ATC IFR procedures.'

DATES: Comments must be received on or before November 22, 1978.

THE PROPOSAL

The FAA is considering an amend-

[4910-13-M]

[14 CFR Part 71]

V 43/205
0C2378

1. Amend § 71.181 of Part 71 of the Federal Aviation Regulations, by deleting the description of the Pittstown, N.J., 700-foot floor transition area and by inserting the following in lieu thereof:

That airspace extending upward from 700 feet above the surface within a 7-mile radius of the center, 40°33'59" N., 74°58'43" W., of Sky Manor Airport, Pittstown, N.J., and within 4.5 miles each side of the Solberg, N.J., VORTAC 264° radial, extending from the 7-mile radius area to 23 miles west of the VORTAC.

Section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348(a)) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.65.

NOTE.—The FAA has determined that this document involves a proposed regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582; March 8, 1978).

Issued in Jamaica, N.Y., on October 10, 1978.

L. J. CARDINALI,
Acting Director,
Eastern Region.

[Airspace Docket No. 78-NW-7]

CONTROL AREA

Proposed Alteration

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to enlarge the Omak, Wash., Control Area. This action would aid air traffic control by improving the flow control procedures associated with aircraft arriving/departing the Seattle and Spokane, Wash., Area.

DATES: Comments must be received on or before November 22, 1978.

ADDRESSES: Send comments on the proposal in triplicate to: Director, FAA Northwest Region, Attention: Chief, Air Traffic Division, Docket No. 78-NW-7, Federal Aviation Administration, FAA Building, Boeing Field, Seattle, Wash. 98108.

The official docket may be examined at the following location: FAA Office of the Chief Counsel, Rules Docket (AGC-24), Room 916, 800 Independence Avenue SW., Washington, D.C. 20591.

An informal docket may be examined at the office of the Regional Air Traffic Division.

FOR FURTHER INFORMATION CONTACT:

Mr. Lewis W. Still, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591; telephone: 202-426-8525.

SUPPLEMENTARY INFORMATION:

COMMENTS INVITED

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Northwest Region, Attention: Chief, Air traffic Division, Federal Aviation Administration, FAA Building, Boeing Field, Seattle, Wash. 98108. All communications received on or before November 22, 1978 will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

AVAILABILITY OF NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue SW., Washington, D.C. 20591, or by calling 202-426-8058. Communications must identify the docket number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

THE PROPOSAL

The FAA is considering an amendment to Part 71 of the Federal Aviation Regulations (14 CFR Part 71) that would enlarge the southern portion of the Omak, Wash., Control Area and would lower the base altitude from 5,500 feet MSL to 4,500 feet MSL in the new area. The portion of the Omak Control Area extending to the United States-Canada border with a base of 8,500 feet MSL would not be changed. This action would improve the flow of traffic around the Seattle and Spokane, Wash. Terminal Areas. This amendment would enhance aircraft flight safety, improve flow control procedures and aid air traffic controllers when applying ATC IFR procedures.[1]

THE PROPOSED AMENDMENT

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend § 71.163 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (43 FR 348) as follows:

In Section 71.163, Omak, Wash.:

"That airspace extending upward from 5,500 feet MSL within 5 miles each side of a line extending from the Omak RBN to the Ephrata VOR;" would be deleted and "That airspace extending upward from 4,500 feet MSL beginning at Lat. 48°00' N., Long. 118°36' W., to Lat. 47°45' N., Long. 118°36' W., to Lat. 47°45' N., Long. 120°00' W., to Lat. 48°00' N., Long. 120°00' W., to Lat. 48°00' N., Long. 119°35' W., to Lat. 48°09'30" N., Long. 119°36' W., to Lat. 48°10' N., Long. 119°23' W., to Lat. 48°00' N., Long. 119°22'20" W., to point of beginning." would be substituted therefor.

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.65.)

NOTE.—The FAA has determined that this document involves a proposed regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582; March 8, 1978).

Issued in Washington, D.C., on October 16, 1978.

TRANSITION AREA

Proposed Alteration

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to enlarge the Seattle, Wash., Transition Area since the currently designated transition area is not large enough to provide for maximum air traffic service. This action would aid air traffic control by improving traffic flow into the Seattle, Spokane, Wash., terminal areas.

[1]Map filed as part of the original document.

DATES: Comments must be received on or before November 22, 1978.

ADDRESSES: Send comments on the proposal in triplicate to: Director, FAA Northwest Region, Attention: Chief, Air Traffic Division, Docket No. 78-NW-13, Federal Aviation Administration, FAA Building, Boeing Field, Seattle, Wash. 98108.

The official docket may be examined at the following location: FAA Office of the Chief Counsel, Rules Docket (AGC-24), Room 916, 800 Independence Avenue SW., Washington, D.C. 20591.

An informal docket may be examined at the office of the Regional Air Traffic Division.

FOR FURTHER INFORMATION CONTACT:

Mr. Lewis W. Still, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591; telephone 202-426-8525.

SUPPLEMENTARY INFORMATION:

COMMENTS INVITED

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Northwest Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, FAA Building, Boeing Field, Seattle, Wash. 98108. All communications received on or before November 22, 1978 will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

AVAILABILITY OF NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue SW., Washington, D.C. 20591, or by calling 202-426-8058. Communications must identify the docket number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

THE PROPOSAL

The FAA is considering an amendment to Part 71 of the Federal Aviation Regulations (14 CFR Part 71) that would enlarge the Seattle, Wash., Transition Area. A part of this transition area has a base of 700 feet, another part a base of 1,200 feet, and a third part a base of 9,500 feet. The proposed addition would extend the portion with a base of 9,500 feet to permit expeditious flow of traffic associated with the Seattle and Spokane, Wash., terminal areas. This would improve aviation safety and aid air traffic controllers by permitting flexibility during radar vectoring.[1] Subpart G of Part 71 was republished in the FEDERAL REGISTER on January 3, 1978 (43 FR 440).

THE PROPOSED AMENDMENT

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend § 71,181 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (43 FR 440) as follows:

Seattle, Wash., beginning on line 10, the description would be amended to read:

All after "that airspace east of Seattle extending upward from 9,500 feet MSL bounded on the north by a line beginning at Lat. 48°00' N., Long. 121°35' W.;" would be deleted and "to Lat. 48°00' N., Long. 120°00' W., on the east by a line extending south via Long. 120°00' W., to the north edge of V-2N.; on the south by the north edge of V-2N to Long. 121°35' W.; and on the west by Long. 121°35' W., to the point of beginning." would be substituted therefor.

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.65.)

NOTE.—The FAA has determined that this document involves a regulation which is not significant under the procedures and criteria prescribed by Executive Order 12044 and implemented by interim Department of Transportation guidelines (43 FR 9582; March 8, 1978).

Issued in Washington, D.C., on October 16, 1978.

WILLIAM E. BROADWATER,
Chief, Airspace and Air Traffic Rules Division.

[Airspace Docket No. 78-WE-14]

VOR FEDERAL AIRWAYS

Proposed Alteration

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to realign a segment of V-8 north alternate airway between Seal Beach, Calif., and Pomona, Calif., to begin at the INT of the Seal Beach 058° and Pomona 187° magnetic radials rather than to begin at Seal Beach. This action would designate as airway the route that is presently used as an arrival vector route, thereby reducing the communication and coordination time required for its use.

DATES: Comments must be received on or before November 22, 1978.

ADDRESSES: Send comments on the proposal in triplicate to: Director, FAA Western Region, Attention: Chief, Air Traffic Division, Docket No. 78-WE-14, Federal Aviation Administration, 15000 Aviation Boulevard, P.O. Box 92007, Worldway Postal Center, Los Angeles, Calif. 90009.

The official docket may be examined at the following location: FAA Office of the Chief Counsel, Rules Docket (AGC-24), Room 916, 800 Independence Avenue SW., Washington, D.C. 20591.

An informal docket may be examined at the office of the regional Air Traffic Division.

FOR FURTHER INFORMATION CONTACT:

Mr. Everett L. McKisson, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591; telephone 202-426-3715.

SUPPLEMENTARY INFORMATION:

COMMENTS INVITED

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Western Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 15000 Aviation Boulevard, P.O. Box 92007, Worldway Postal Center, Los Angeles, Calif. 90009. All communications received on or before November 22, 1978 will be considered before action is taken on the proposed

V 43 / 205 0 C 23 78

amendment. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

AVAILABILITY OF NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue SW., Washington, D.C. 20591, or by calling 202-426-8058. Communications must identify the docket number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

THE PROPOSAL

The FAA is considering an amendment to Part 71 of the Federal Aviation Regulations (14 CFR Part 71) that would realign a segment of V-8N Airway from Pomona to terminate at the INT of Pomona 202°T(287°M) and Seal Beach 073°T(058°M) radials rather than Seal Beach. This action would improve an arrival route into the Long Beach, Calif. terminal airspace by designating a vector route as an airway.

THE PROPOSED AMENDENT

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend § 71.123 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (43 FR 307) as follows: Under V-8 "including a N alternate from Seal Beach to Morman Mesa via Pomona, Calif.," is deleted and "including a N alternate from the INT of Seal Beach 073° and Pomona, Calif., 202° radials to Morman Mesa via Pomona," is substituted therefor.

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.65.)

NOTE.—The FAA has determined that this document involves a regulation which is not significant under the procedures and criteria prescribed by executive Order 12044 and implemented by interim Department of Transportation guidelines (43 FR 9582; March 8, 1978).

Issued in Washington, D.C., on October 16, 1978.

WILLIAM E. BROADWATER,
Chief, Airspace and Air Traffic Rules Division.

VOR FEDERAL AIRWAYS

Proposed Alteration and Revocation

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to revoke victor airway V-35W in the vicinity of Morgantown, W. Va., realign victor airway V-37 in the vicinity of Elkins, W. Va., and extend victor airway V-469 from Elkins to Johnstown, Pa. This action would aid flight planning, improve traffic flow in the Pittsburgh, Pa., terminal and reduce controller work load.

DATES: Comments must be received on or before November 22, 1978.

ADDRESSES: Send comments on the proposal in triplicate to: Director, FAA Eastern Region, Attention: Chief, Air Traffic Division, Docket No. 78-EA-56, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y. 11430.

The official docket may be examined at the following location: FAA Office of the Chief Counsel, Rules Docket (AGC-24), Room 916, 800 Independence Avenue SW., Washington, D.C. 20591.

An informal docket may be examined at the office of the Regional Air Traffic Division.

FOR FURTHER INFORMATION CONTACT:

Mr. Lewis W. Still, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591; telephone 202-426-8525.

SUPPLEMENTARY INFORMATION:

COMMENTS INVITED

Interested persons may participate in the proposed rulemaking by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Eastern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y. 11430. All communications received on or before November 22, 1978, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

AVAILABILITY OF NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue SW., Washington, D.C. 20591, or by calling 202-426-8058. Communications must identify the docket number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

THE PROPOSAL

The FAA is considering an amendment to subpart C of part 71 of the Federal Aviation Regulations (14 CFR Part 71) that would revoke alternate airway V-35W between Morgantown, W. VA., and Johnstown, Pa.; realign V-37 between Elkins, W. Va., and Ellwood City, Pa., and extend V-469 from Elkins to Johnstown.[1] This amendment would reduce the airway distance between Elkins and Ellwood City approximately 6 miles and increase the lateral separation for arrival/departure aircraft in the Pittsburgh, Pa., terminal area. Subpart C of Part 71 was republished in the FEDERAL REGISTER on January 3, 1978 (43 FR 307).

THE PROPOSED AMENDMENT

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend § 71.123 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (43 FR 307) as follows:

Under V-35, "including a west alternate from Morgantown to Johnstown via INT Morgantown 010° and Johnston 260° radials;" would be deleted.

Under V-37, "Morgantown, W. Va.; INT Morgantown 331° and Ellwood City, Pa., 185° radials" would be deleted and "Clarksburg, W. Va.; INT Clarksburg 359°T(005°M) and Ellwood City, Pa., 185°T(191°M) radials;" would be substituted therefor.

Under V-469, "to Elkins." would be deleted and "Elkins; Morgantown, W. Va.; INT Morgantown 010°T(016°M) and Johnstown, Pa., 260°T(266°M); to Johnstown." would be substituted therefor.

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.65.)

[1] Map filed as part of the original document.

NOTE.—The FAA has determined that this document involves a regulation which is not significant under the procedures and criteria prescribed by Executive Order 12044 and implemented by interim Department of Transportation guidelines (43 FR 9582; March 8, 1978).

Issued in Washington, D.C., on October 16, 1978.

CIVIL AERONAUTICS BOARD

[14 CFR Ch. II]

[EDR-347E/PDR-49E, Docket No. 32219; Dated: October 18, 1978]

U.S. CORPORATIONS WHICH DO NOT QUALIFY AS A "CITIZEN OF THE UNITED STATES"

Supplemental Advance Notice of Proposed Rulemaking

AGENCY: Civil Aeronautics Board.

ACTION: Supplemental advance notice of proposed rulemaking.

SUMMARY: This notice denies the motion of British Airways for clarification of how the Board's tentative legal conclusion that U.S. corporations are citizens of the United States for purposes of section 408(a)(4) of the Federal Aviation Act would be applied to foreign governments if finalized, and extends the comment date until November 6.

DATE: Comments by November 6, 1978.

FOR FURTHER INFORMATION CONTACT:

Donald H. Horn, Routes Division, Office of the General Counsel, Civil Aeronautics Board, 1825 Connecticut Avenue NW., Washington, D.C. 20428, 202-673-5206.

SUPPLEMENTARY INFORMATION: By advance notice of proposed rulemaking (EDR-347/PDR-49, 43 FR 10938, Mar. 16, 1978), the Civil Aeronautics Board gave notice of its tentative conclusion that U.S. corporations are citizens of the United States for purposes of section 408(a)(4) of the Federal Aviation Act. It requested comments on that tentative conclusion, including the nature and extent of the problems that might be created by finalizing that tentative conclusion, and what regulatory action might be taken to minimize them consistent with statutory objectives. Comments were requested to be filed by May 1, 1978. By a series of supplemental advance notices of proposed rulemaking, the date for the filing of comments has been extended until October 23, 1978 (EDR-347D/PDR-49D, 43 FR 41410, Sept. 18, 1978).

On June 26, 1978, British Airways filed a motion for clarification and extension of time. It states that there are grounds for assuming that the Board intends to apply section 408(a)(4) to all acquisitions of U.S. corporations engaged in a phase of aeronautics by governments which control foreign air carriers. However, the Department of State's statement of further views suggests that the Board had not intended to extend the application of section 408(a)(4) to foreign government acquisitions of U.S. corporations engaged in a phase of aeronautics unrelated to commercial air services, such as the manufacture, distribution, sale or purchase of aerospace products. British Airways asserts that the resulting confusion as to whether and/or how the Board intends to apply section 408(a)(4) to foreign governments controlling foreign air carriers makes it impossible to evaluate the impact of the proposed rulemaking. It, therefore, asks the Board to clarify the point and extend the comment time pending that clarification.

We have decided to deny the motion for clarification. British Airways states that our proposed legal conclusion can be interpreted in at least two ways, and requests that we clarify our interpretation. However, the issues in this rulemaking specifically include how section 408(a)(4) should properly be interpreted and, as to relationship which are covered, what means (including rules, reports, approvals, and disclaimers) should be employed to minimize regulatory requirements consistent with statutory objectives. Thus, British Airways is, in essence, requesting that we resolve, at the outset, issues that this rulemaking was designed to help us decide. The proper course for British Airways is to file comments addressed to these issues. To allow interested persons to address the issues in light of our action here, we will extend the comment date by 2 weeks.

Accordingly, British Airways' motion for clarification of EDR-347/PDR-49 is denied. Comments in this rulemaking are due by November 6, 1978.

Sec. (204(a), Federal Aviation Act of 19758, as amended, 72 Stat. 743, (49 U.S.C. 1324))

By the Civil Aeronautics Board.

FEDERAL TRADE COMMISSION

[16 CFR Part 13]

[File No. 782 3065]

NORRIS INDUSTRIES, INC.

Consent Agreement With Analysis To Aid Public Comment

AGENCY: Federal Trade Commission.

ACTION: Provisional consent agreement.

SUMMARY: In settlement of alleged violations of Federal law prohibiting unfair acts and practices and unfair methods of competition, this provisionally accepted consent agreement, among other things, would require a Long Beach, Calif., manufacturer and distributor of dishwashers and other major home appliances to cease misrepresenting or making unsubstantiated claims regarding the qualities, performance, or efficacy of its products.

DATE: Comments must be received on or before December 19, 1978.

ADDRESS: Comments should be directed to: Office of the Secretary, Federal Trade Commission, Sixth Street and Pennsylvania Avenue NW., Washington, D.C. 20580.

FOR FURTHER INFOMATION CONTACT:

Wallace S. Snyder, Assistant Director for Advertising Practices, Federal Trade Commission, Sixth Street and Pennsylvania Avenue NW., Washington, D.C. 20580, 202-724-1499.

SUPPLEMENTARY INFORMATION: Pursuant to section 6(f) of the Federal Trade Commission Act, 38 Stat. 721, 15 U.S.C. 46 and § 2.34 of the Commission's rules of practice (16 CFR 2.34), notice is hereby given that the following consent agreement containing a consent order to cease and desist and an explanation thereof, having been filed with and provisionally accepted by the Commission, has been placed on the public record, together with material submitted to the Commission that is not exempt from public disclosure under the Freedom of Information Act, for a period of sixty (60) days. Public comment is invited. Such comments or views will be considered by the Commission and will be available for inspection and copying at its principal office in accordance with § 4.9(b)(14) of the Commission's rules of practice (16 CFR 4.9(b)(14)).

IN THE MATTER OF NORRIS INDUSTRIES, INC., A CORPORATION

[File No. 782-3065]

AGREEMENT CONTAINING CONSENT ORDER TO CEASE AND DESIST

The Federal Trade Commission having initiated an investigation of certain acts and practices of Norris Industries, Inc., a corporation, sometimes hereinafter referred to as respondent, and it now appearing that the proposed respondent is willing to enter into an agreement containing an order to cease and desist from the use of acts and practices being investigated.

It is hereby agreed by and between the said proposed respondent and its attorney, and counsel for the Federal Trade Commission, that:

1. Proposed respondent Norris Industries, Inc., is a corporation organized, existing, and doing business under and by virtue of the laws of the State of California, with its principal office and place of business at One Golden Shore, Long Beach, Calif. 90802.

2. Proposed respondent admits all the jurisdictional facts set forth in the draft of complaint here attached.

3. Proposed respondent waives:

(a) Any further procedural steps;

(b) The requirement that the Commission's decision contain a statement of findings of fact and conclusions of law; and

(c) All rights to seek judicial review or otherwise to challenge or contest the validity of the order entered pursuant to this agreement.

4. This agreement shall not become a part of the official record of the proceeding unless and until it is accepted by the Commission. If this agreement is accepted by the Commission it, together with the draft of complaint contemplated thereby, will be placed on the public record for a period of sixty (60) days and information in respect thereto publicly released; and such acceptance may be withdrawn by the Commission if comments or views submitted to the Commission disclose facts or considerations which indicate that the order contained in the agreement is inappropriate, improper, or inadequate.

5. This agreement is for settlement purposes only and does not constitute an admission by proposed respondent that the law has been violated or that any of the facts are true as alleged in the draft of the complaint here attached.

6. This agreement contemplates that, if it is accepted by the Commission, and if such acceptance is not subsequently withdrawn by the Commission pursuant to the provisions of § 2.34(b) of the Commission's rules, the Commission may, without further notice to proposed respondent, (1) issue its complaint corresponding in form and substance with the draft of complaint here attached and its decision containing the following order to cease and desist in disposition of the proceeding, and (2) make information public in respect thereto. When so entered, the order to cease and desist shall have the same force and effect and shall become final and may be altered, modified, or set aside in the same manner and within the same time provided by statute for other orders. The order shall become final upon service. Mailing of the complaint and decision containing the agreed-to order to the proposed respondent's address as stated in this agreement shall constitute service. Proposed respondent waives any right they may have to any other manner of service. The complaint may be used in construing the terms of the order, but no agreement, understanding, representation, or interpretation not contained in the order, complaint, or the aforementioned agreement may be used to vary or contradict the terms of the order.

7. Proposed respondent have read the proposed complaint and order contemplated hereby and understand that once the order has been issued, they will be required to file one or more compliance reports showing that they have fully complied with the order, and that they may be liable for a civil penalty as provided by law for each violation of the order after it becomes final.

ORDER

PART I

It is ordered, That Norris Industries, Inc. [hereinafter referred to as the Respondent], its successors and assigns, either jointly or individually, and its officers, representatives, and agents and employees, directly or through any corporation, subsidiary, division, or other device, in connection with the advertising, offering for sale, distribution or sale of dishwashers in or affecting commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, directly or by implication, that any dishwasher manufactured or sold by Respondent can sterilize or destroy all microorganisms on utensils placed in the dishwasher.

2. Representing directly, or by implication, that the stainless steel parts in any dishwasher manufacturered or sold by Respondent are rustproof or will not rust under normal household conditions.

3. Representing, directly or by implication, that the dispos-drain in any dishwasher manufactured or sold by Respondent will remove all soft food waste from the dishwasher.

4. Representing, directly or by implication, that any dishwasher manufactured or sold by Respondent can completely clean dishes, cookware, and other utensils placed in the dishwasher, without prior scraping, scouring, or rinsing.

5. Representing, directly or by implication, that any dishwasher manufactured or sold by Respondent can be randomly loaded or that there are no special instructions to follow when loading.

PART II

It is further ordered, That Respondent, its successors and assigns, either jointly or individually, and its officers, representatives, agents and employees, directly or through any corporation, subsidiary, division, or other device, in connection with the advertising, offering for sale, distribution or sale of major home appliances in or affecting commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. (a) Making any statements or representations, directly or by implication, concerning the performance of such products unless at the time that the statements or representations are made Respondents posssess and rely on a reasonable basis for such statements or representations, which shall consist of competent and reliable scientific tests, as defined in paragraph 1(b) hereafter.

(b) For purposes of this order a "competent and reliable scientific test" is one in which one or more persons with education, knowledge, and experience in the field conduct a test and evaluate its results in an objective manner using testing, evaluation, and analysis procedures generally accepted in the profession and which best insure valid and reliable results. Moreover, the test results must either accurately predict, or be correlated with, the results that a consumer ordinarily would obtain using the product under normal household conditions.

2. Failing to make a "clear and conspicuous disclosure" (as that term is defined in the FTC's Statement of Enforcement Policy of October 21, 1970) that product features, depicted or described in advertising for a product, are not applicable to certain models. Such disclosure shall include the model number (and name of the model if applicable) and the product features which do not apply to such model(s).

3. Making any statements or representations, directly or by implication, in connection with the advertisement of any such product which are inconsistent in any material respect with any statements or representations contained directly or by implication in post purchase material(s) supplied to the purchaser of such products.

4. For purposes of this Order the term "major home appliances" means the following appliances presently manufactured or sold by the Respondent: Automatic dishwashers, garbage disposers, trash compactors, and microwave ovens.

PART III

It is further ordered, That Respondent, its successors and assigns, either jointly or individually, and their officers, representatives, and agents and employees, directly or through any corporation, subsidiary, division, or other device, in connection with the advertising, offering for sale, distribution or sale of "major home appliances" in or affecting commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from failing to maintain the following accurate records which may be inspected by Commission staff members upon reasonable notice:

(a) Documentation in support of and on which respondent relied in making any claim included in advertising, sales promotional material, or post purchase materials, disseminated by respondents or by any division or subdivision of respondent, or by any advertising agency engaged for such purpose by respondent or by any such division or subsidiary, concerning the performance characteristics of any of Respondent's major home appliances;

(b) Documentation which contradicts, qualifies, or calls into serious question any claim included in advertising, sales promotional material, or post purchase materials disseminated by respondents or by any division or subdivision or respondent, or by any advertising agency engaged for such purpose by respondent or by any such division or subsidiary, concerning the performance characteristics of any Respondent's major home appliances.

Such documentation shall be retained by respondent for a period of 3 years from the date such advertising, sales promotional, or post purchase materials were last disseminated.

PART IV

It is further ordered, That Respondent notify the Commission at least 30 days prior to the effective date of any proposed change in the corporate Respondent such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That the Respondent shall forthwith distribute a copy of this Order to each of its officer's agents, representatives, or employees of the Respondent's Thermador/Waste King division who are engaged in the preparation, placement, or review of advertisements for the "major home appliances" defined in this order.

It is further ordered, That the Respondent shall, within sixty (60) days after service upon them of this Order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this Order.

ANALYSIS OF PROPOSED CONSENT ORDER TO AID PUBLIC COMMENT

The Federal Trade Commission has provisionally accepted an agreement to a proposed consent order from Norris Industries, Inc.

The proposed consent order has been placed on the public record for sixty (60) days for reception of comments by interested persons. Comments received during this period will become part of the public record. After sixty (60) days, the Commission will again review the agreement and the comments received and will decide whether it should withdraw from the agreement or make final the agreement's proposed order.

The complaint charged the respondent with disseminating and causing the dissemination of advertisements containing several false and misleading representations regarding Waste King dishwashers. In particular, the complaint alleged that representations made in the Waste King advertisements about a number of product features, such as the dishwashers ability to clean baked-on or cooked-on food, their ease of loading, as well as the rustproof qualities of the stainless steel employed in them, were both false and without a reasonable basis. The complaint further alleged that Waste King's advertising was deceptive in that representations contained therein were inconsistent with statements made in post-purchase materials. Finally, the Waste King advertisements were alleged to be deceptive in the complaint because they failed to qualify certain of their representations as applying only to particular Waste King models.

The Consent Order contains the following provisions designed to remedy the advertising violations charged:

Part I (1)–(5) prohibit the dissemination of claims that Waste King dishwashers can be randomly loaded, can completely clean dishes, cookware, and other utensils without prior scraping, scouring, or rinsing, and can sterilize or destroy all microorganisms on utensils. These paragraphs also prohibit the claims that the stainless steel parts will not rust and that the dispos-drain will eliminate all soft food waste from the dishwasher.

Part II(1)(a) prohibits the making of any representations about the performance of any major home appliance, as defined in II(4), unless a reasonable basis consisting of competent and reliable scientific tests was possessed and relied upon at the time when the representations were made.

Part II(1)(b) defines what constitutes a "competent and reliable scientific test" for purposes of the order requiring that, for a test to be competent and reliable, persons qualified by their education, knowledge, and experience conduct and evaluate the test objectively and according to generally accepted procedures in their profession to best insure valid and reliable results. The results of the test furthermore must correlate with or accurately predict the results a consumer would ordinarily obtain in normal household usage of the appliance.

Part II(2) requires that respondent make a clear and conspicuous disclosure of the model number(s), as well as of product feature(s) which do not apply to such model(s), in circumstances where there is advertising of certain features of a major home appliance which features are not found on all models of that appliance.

Part II(3) prohibits any representations made in the advertising for a major home appliance, as defined in II(4), which are inconsistent with post-purchase materials supplied to the purchaser of the appliance.

Part II(4) defines "major home appliance" as dishwashers, garbage disposers, trash compactors, and microwave ovens.

Part III(a) requires respondent to maintain accurate records which support and which were relied upon by respondent in making any performance claim about its major home appliances in advertising, in sales promotional material, or in post-purchase material. Respondent must keep the records for a period of 3 years from when the advertising, sales promotional, or post-purchase materials were last disseminated.

Part III(b) requires respondent to maintain accurate records which contradict, qualify, or call into serious question any performance claim about its major home appliances in advertising, in sales promotional material, or in post-purchase material. Respondent must maintain such records for a period of 3 years from the date upon which such advertising, sales promotional, or post purchase materials were last disseminated.

Part IV of the Consent Order requires that respondent notify the Commission at least thirty (30) days prior to any proposed structural change in the corporate respondent

V 43/205 0 C 23 78

which change affects compliance with the Consent Order; distribute a copy of the order to its Thermador/Waste King division; and file an initial compliance report within 60 days of the effective date of the Consent Order.

JAMES A. TOBIN,
Acting Secretary.

COPYRIGHT ROYALTY TRIBUNAL

[37 CFR Part 301]

AGENCY RULES OF PROCEDURE

Proposed Rules

AGENCY: Copyright Royalty Tribunal.

ACTION: Proposed rule.

SUMMARY: This document includes the complete text of the proposed Copyright Royalty Tribunal rules of procedure, including regulations required by the Government in the Sunshine Act, the Privacy Act, the Freedom of Information Act, and the equal employment opportunity procedures of the Tribunal.

DATE: Comments must be received on or before November 8, 1978.

ADDRESS: Written comments should be addressed to Thomas C. Brennan, Chairman, Copyright Royalty Tribunal, 1111 20th Street NW., Washington, D.C. 20036.

FOR FURTHER INFORMATION CONTACT:

Thomas C. Brennan, Chairman, Copyright Royalty Tribunal, 202-653-5175.

SUPPLEMENTARY INFORMATION: The Tribunal wishes to call attention to those provisions of the proposed rules of procedure (§§ 301.56, 301.58, 301.64, and 301.66) concerning the publication of proposed final determinations and the reopening of proceedings in royalty fee adjustment and royalty fee distribution proceedings. Sections 118(c) and 804(e) of Pub. L. 94-553 for the general revision of the Copyright Law establish statutory deadlines for the conclusion of these proceedings and the publication of a final determination by the Tribunal. The proposed rules reflect the Tribunal's view that it may not conduct any further proceedings after the expiration of the statutory period. Section 809 of the Copyright Act controls the effective date of final determinations of the Tribunal and provides that such determinations shall become effective 30 days after publication in the FEDERAL REGISTER unless an appeal has been filed in the United States Court of Appeals.

In an effort to afford all interested parties as complete participation in the decisionmaking process as is permissible under the time limitations imposed by the Copyright Act, §§ 301.56 and 301.64 of the rules provide for the publication in the FEDERAL REGISTER of a proposed final determination, unless such publication is not feasible because of the statutory time limitations. The Tribunal will afford all parties a reasonable opportunity to submit written comments on the proposed determination, and may, if necessary, conduct additional hearings. Upon publication in the FEDERAL REGISTER of a final determination in a proceeding, the proposed rules preclude the reopening of proceedings for any purpose.

Accordingly, pursuant to 17 U.S.C. 803(a), title 37 would be amended by establishing a chapter III entitled Copyright Royalty Tribunal and by adding the following new part 301, reading as follows:

PART 301—COPYRIGHT ROYALTY TRIBUNAL RULES OF PROCEDURE

Subpart A—Organization

Sec.
301.1 Purpose.
301.2 Address for information.
301.3 Composition of the Tribunal.
301.4 The Chairman.

301.76 Reopening of proceedings.
301.77 Effective date of final determination.

AUTHORITY: 17 U.S.C. 803(a).

Subpart A—Organization

§ 301.1 Purpose.

The Copyright Royalty Tribunal (Tribunal) is an independent agency in the Legislative Branch, created by Public Law 94-553 of October 19, 1976.

The Tribunal's statutory responsibilities are:

(a) To make determinations concerning copyright royalty rates in the areas of cable television covered by 17 U.S.C. 111.

(b) To make determinations concerning copyright royalty rates for phonorecords (17 U.S.C. 115) and for coin-operated phonorecord players (jukeboxes) (17 U.S.C. 116).

(c) To establish and later make determinations concerning royalty rates and terms for non-commercial broadcasting (17 U.S.C. 118).

(d) To distribute cable television and jukebox royalties under 17 U.S.C. 111 and 17 U.S.C. 116 deposited with the Register of Copyrights.

§ 301.2 Address for information.

The official address of the Copyright Royalty Tribunal is 1111 20th Street NW., Washington, D.C. 20036, until March 31, 1979. Office hours are Monday through Friday, 8:30 a.m. to 5:30 p.m., excluding legal holidays.

§ 301.3 Composition of the Tribunal.

The Tribunal is composed of five members appointed by the President with the advice and consent of the Senate.

§ 301.4 The Chairman.

(a) On December 1st of each year the Chairman will be designated for a term of 1 year from the most senior Commissioner who has not yet previously served as Chairman, or, if all the Commissioners have served, the most senior Commissioner who has served the least number of terms will be designated Chairman.

(b) The responsibilities of the Chairman are, first, to preside at meetings and hearings of the Tribunal, and second, to represent the Tribunal officially in all external matters. In matters of legislation and legislative reports, the Chairman will represent the majority opinion of the Tribunal; however, any Commissioner with a minority or supplemental opinion may have that opinion represented also. The Chairman is the initial authority for all communications with other government officials or agencies and is the contracting officer; however, another Commissioner or subordinate official may be designated to act in his stead. The Chairman shall convene a meeting of the Tribunal upon the request of a majority of the Commissioners.

§ 301.5 Standing committee.

The Tribunal may establish standing or temporary committees to act in whatever capacity the Tribunal feels is appropriate. Said committees are authorized, in the areas of their jurisdiction, to conduct hearings, meetings, and other proceedings, but no such subdivision shall be authorized to act on behalf of the agency as a whole within the official meeting of 5 U.S.C. 552(a)(1).

§ 301.6 Administration of the Tribunal.

The administration of the Tribunal denotes chiefly the maintenance of the Tribunal records and the custodianship of Tribunal property. The records to be maintained include legal and public records, a current index of opinions, orders, policy statements, procedures, and rules of practice, and instructions that affect the public. Also, announcements of Tribunal actions must be published in the FEDERAL REGISTER as required, and the observance by the Tribunal of appropriate administrative procedure must be supervised, as well as the disposition of Tribunal correspondence. From time to time other administrative responsibilities may emerge. To manage the above, the Tribunal may choose to install an Administrative Officer; however, if not, it will be the Chairman's duty to see that these responsibilities are met.

§ 301.7 Proceedings.

(a) *Location.* The Tribunal will normally hold all proceedings at its principal office, except under exceptional circumstances, in which case the Tribunal may perform its duties anywhere in the United States. The Tribunal's proceedings will all be public, except as exempted in § 301.15.

(b) *Quorum.* A majority of the members of the Tribunal constitutes a quorum.

(c) *Voting.* Each Commissioner's vote shall be recorded separately, and the votes of the Commissioners shall be taken in order of their seniority, except that the Chairman shall vote last. No proxy votes will be recorded.

Subpart B—Public Access to Tribunal Meetings

§ 301.11 Open meeting.

(a) The purpose of this chapter is to comply with the Government in the Sunshine Act, Pub. L. 94-409; 90 Stat., 1241 et seq., 5 U.S.C. 522(b), and insure that all Tribunal meetings shall be open to the public. The conditions under which meetings, as an exception, may be closed, are listed in § 301.13

(b) Each meeting announcement by the Tribunal shall be made at least 7 calendar days in advance in the FEDERAL REGISTER and shall state the time and place of the meeting, the subject to be discussed, whether the meeting is to be open or closed, and the name and telephone number of the person to contact for further information.

(c) If amendments are made to the original announcement, they must be placed in the FEDERAL REGISTER as soon as practicable. Changes in time and place may be made simply by making such an announcement, but a change in subject matter requires a recorded vote by Commissioners, with the results of that vote appearing in the announcement of the amendment.

(d) If it is decided that a meeting must be held on shorter notice than 7 days, that decision must be made by recorded vote of Commissioners and included in the announcement.

§ 301.12 Conduct of open meetings.

(a) Meetings of the Tribunal will be conducted in a manner to insure both the public's right to observe and the ability of the Tribunal to conduct its business properly. The Chairman or presiding officer will take whatever measures he feels necessary to achieve this.

(b) The right of the public to be present does not include the right to participate or make comments.

(c) Reasonable access for news media will be provided at all public sessions provided that it does not interfere with the comfort of Commissioners, staff, or witnesses. Cameras will be admitted only on the authorization of the Chairman, and no witness may be photographed or have his testimony recorded for broadcast if he objects.

§ 301.13 Closed meetings.

In the following circumstances (as per 5 U.S.C. 552(c), 1-10) the Tribunal may close its meetings or withold information from the public:

(a) If the matter to be discussed has been specifically authorized to be kept secret by Executive order, in the interests of national defense or foreign policy;

(b) If the matter relates solely to the internal personnel rules and practices of the Tribunal;

(c) If the matter has been specifically exempted from disclosure by statute (other than 5 U.S.C. 552) and there is no discretion on the issue;

(d) If the matter involves privileged or confidential trade secrets or financial information;

(e) If the result might be to accuse any person of a crime or formally censure him;

(f) If there would be a clearly unwarranted invasion of personal privacy;

(g) If there would be disclosure of investigatory records compiled for law enforcement, or information which if written would be contained in such records, and to the extent disclosure would (1) interfere with enforcement proceedings, (2) deprive a person of the right to a fair trial or impartial adjudication, (3) constitute an unwarranted invasion of personal privacy, (4) disclosure the identify of a confidential source or, in the case of a criminal investigation or a national security intelligence investigation, confidential information furnished only by a confidential source, (5) disclosure investigative techniques and procedures,

or (6) endanger the life or safety of law enforcement personnel.

(h) If premature disclosure of the information would be likely to significantly frustrate implementation of a proposed agency action, except where the Tribunal has already disclosed to the public the content or nature of its proposed action, or where the Tribunal is required by law to make such disclosure on its own initiative prior to taking final agency action on such proposal;

(i) If the matter specifically concerns the Tribunal's participation in a civil action or proceeding or an action in a foreign court or international tribunal, or an arbitration, or the initiation, conduct, or disposition by the Tribunal of such action or proceeding or arbitration (or any subpoena, order, or investigation related thereto) involving a determination on the record after opportunity for a hearing; or

(j) If the matter specifically concerns the Tribunal's participation in a civil action or proceeding, an action in a foreign court or international tribunal, or an arbitration, or the initiation, conduct, or disposition by the Tribunal of such action or proceeding or arbitration (or any subpoena, order, or investigation related thereto) involving the Tribunal's issuance of, or failure to issue, a subpoena, or the Tribunal's initiation, conduct, or disposition of a particular case of formal adjudication pursuant to the procedures in section 554 of title 5 of the United States Code or otherwise involving a determination on the record after opportunity for a hearing.

§ 301.14 Procedure for closing meeting.

(a) A majority of the Commissioners may vote to close a meeting or portion thereof or to withhold information pertaining to such meeting or portion thereof pursuant to any one or more of the exemptions set forth in § 301.13 and shall state each such basis.

(b) Within one day of any vote taken pursuant to paragraph (a) of this section, the Tribunal shall make publicly available a written copy of such vote reflecting the vote of each Commissioner on the question. All documents or portions thereof relating to any action under this section shall be maintained for a minimum of 2 years after such action or one year after the conclusion of any Tribunal proceeding with respect to the action, whichever occurs later.

§ 301.15 Transcripts of closed meetings.

(a) The Tribunal will maintain a complete transcript or electronic recording adequate to record fully the proceedings of each meeting, or portion of a meeting, closed to the public, except that in the case of a meeting or portion of a meeting closed only pursuant to paragraph (j) of § 301.13, the Tribunal will maintain either such a transcript or recording or a set of minutes. Such minutes will fully and clearly describe all matters discussed and provide a full and accurate summary of any actions taken, and the reasons therefor, including a description of each of the views expressed on any item and the record of any roll call vote (reflecting the vote of each Commissioner on the question). All documents considered in connection with any action shall be identified in such minutes.

(b) The Tribunal will maintain a complete verbatim copy of the transcript, a complete copy of the minutes, or a complete electronic recording of each meeting, or portion of a meeting, closed to the public, for a period of at least one year after the meeting, or until one year after the conclusion of any Tribunal proceeding with respect to which the meeting or portion was held, whichever occurs later.

(c) Upon request, the Tribunal will make available for public inspection a transcript, electronic recording, or minutes of any meeting closed to the public, except for such item or items of such discussion as may be withheld under § 301.13. Copies of such transcript, or minutes, or a transcription of such recording disclosing the identity of each speaker, will be furnished to any person at the actual cost of duplication or transcription. The Tribunal will maintain a complete verbatim copy of the transcript, a complete copy of the minutes, or a complete electronic recording of each meeting, or portion of a meeting, closed to the public, for a period of at least one year after the meeting, or until one year after the conclusion of any Tribunal proceeding with respect to which the meeting or portion was held, whichever occurs later.

§ 301.16 Requests to open or close meetings.

(a) Requests to open or close meetings may be submitted to the Tribunal at any time.

(b) Requests to close meetings will be considered by the Tribunal at the next meeting following the request.

§ 301.17 Ex parte communication.

(a) Ex parte communications are prohibited in accordance with 5 U.S.C. 557(d) during the pendency of proceedings under 17 U.S.C. 803(a)(1) and (2) and 17 U.S.C. 804(b)(3) and (4). For the purpose of this section, proceedings begin upon publication of a notice of proceedings or upon publication of a petition for the making, amendment, or repeal of a rule, whichever occurs sooner, and terminate upon the date of the final order of the Tribunal and the expiration of the time allowed for any appeal of that order or, if appealed, upon final affirmance.

(b) Any person who submits an ex parte communication in violation of this section may be required to show cause why his claim or interest in the proceeding should not be dismissed, denied, disregarded, or otherwise adversely affected on account of such violation.

(c) A Commissioner or employee who receives an ex parte communication relating to the merits of or issues in a proceeding, whether written, oral, or otherwise, shall transmit or cause to be transmitted to the Tribunal for inclusion in the record of the proceeding the communication and all written responses and memoranda stating the substance of all oral responses to the communication.

(d) Upon receipt of a communication knowingly made or knowingly caused to be made by a party in violation of this section, the Tribunal may, to the extent consistent with the interests of justice and the policy of the underlying statutes, require the party to show cause why his claim or interest in the proceeding should not be dismissed, denied, disregarded, or otherwise adversely affected on account of such violation.

(e) The prohibitions of this section do not apply to communications which relate solely to matters which are the duties of the Tribunal to perform or monitor through personnel not employed by the Tribunal, or to communications which solely concern matters of general significance to the field of copyright royalties and royalty distribution.

(f) The prohibitions of this section do not apply to requests for status reports concerning any proceeding.

(g) The prohibitions of this section do not apply to communications between Commissioners or employees of the Tribunal.

(h) The prohibitions of this section do not apply to communications between the Tribunal and other agencies of the United States Government, unless the communication is from a party to the proceeding and concerns the substance of the proceeding.

(i) The prohibitions of this section do not apply to communications between the Tribunal and its counsel.

(j) The prohibitions of this section do not apply to communications which are required for the disposition of ex parte matters as authorized by law.

(k) The prohibitions of this section do not apply to communications between the Tribunal and any person who has been employed by the Tribunal as an expert witness in the proceeding.

(l) The prohibitions of this section do not apply to communications between the Tribunal and any person who has been employed by the Tribunal as an expert witness in the proceeding.

(m) The prohibitions of this section do not apply to communications between the Tribunal and any person who has been employed by the Tribunal as an expert witness in the proceeding.

(n) The prohibitions of this section do not apply to communications between the Tribunal and any person who has been employed by the Tribunal as an expert witness in the proceeding.

(o) The prohibitions of this section do not apply to communications between the Tribunal and any person who has been employed by the Tribunal as an expert witness in the proceeding.

(p) The prohibitions of this section do not apply to communications between the Tribunal and any person who has been employed by the Tribunal as an expert witness in the proceeding.

(q) The prohibitions of this section do not apply to communications between the Tribunal and any person who has been employed by the Tribunal as an expert witness in the proceeding.

(r) The prohibitions of this section do not apply to communications between the Tribunal and any person who has been employed by the Tribunal as an expert witness in the proceeding.

(s) The prohibitions of this section do not apply to communications between the Tribunal and any person who has been employed by the Tribunal as an expert witness in the proceeding.

(t) The prohibitions of this section do not apply to communications between the Tribunal and any person who has been employed by the Tribunal as an expert witness in the proceeding.

(u) The prohibitions of this section do not apply to communications between the Tribunal and any person who has been employed by the Tribunal as an expert witness in the proceeding.

(v) The prohibitions of this section do not apply to communications between the Tribunal and any person who has been employed by the Tribunal as an expert witness in the proceeding.

(w) The prohibitions of this section do not apply to communications between the Tribunal and any person who has been employed by the Tribunal as an expert witness in the proceeding.

(x) The prohibitions of this section do not apply to communications between the Tribunal and any person who has been employed by the Tribunal as an expert witness in the proceeding.

(y) The prohibitions of this section do not apply to communications between the Tribunal and any person who has been employed by the Tribunal as an expert witness in the proceeding.

(z) The prohibitions of this section do not apply to communications between the Tribunal and any person who has been employed by the Tribunal as an expert witness in the proceeding.

(b) If the material sought is not a Tribunal record, is exempted, or for some reason is unavailable, the person may (1) Request that the Tribunal obtain the record; (2) Request that the Tribunal identify the record; (3) Learn if and to whom the Tribunal has disclosed such records; and (4) Amend such records.

Subpart D—Equal Employment Opportunity

§ 301.21 Purpose.

V 4 3 1 2 0 5 0 C 2 3 7 8

or (6) endanger the life or safety of law enforcement personnel.

(h) If premature disclosure of the information would frustrate the Tribunal's action, unless the Tribunal has already disclosed the concept or nature of the proposed action, or is required by law to make disclosure before taking final action.

(i) If the matter concerns the Tribunal's participation in a civil action or proceeding or in an action in a foreign court or international tribunal, or an arbitration, or a particular case of formal agency adjudication pursuant to 5 U.S.C. 554, or otherwise involving a determination on the record after opportunity for a hearing.

§ 301.14 Procedure for closing meetings.

(a) Meetings may be closed, or information withheld from the public, only by a recorded vote of a majority of the Commissioners. Each question, either to close a meeting or withhold information, must be voted on separately, unless a series of meetings is involved, in which case the Tribunal may vote to keep the discussions closed for 30 days, starting from the first meetings. If the Tribunal feels that information about a closed meeting must be withheld, the decision to do so must also be the subject of a recorded vote.

(b) Before a discussion to close a meeting or withhold information, the Chairman must certify that, in his opinion, such a step is permissible, and he shall cite the appropriate exemption under § 301.13. This certification shall be included in the announcement of the meeting and be maintained as part of the Tribunal's records.

(c) Following such a vote, and by the end of the working day, the Chairman must transmit the following information to the FEDERAL REGISTER for publication:

(1) The vote of each Commissioner;

(2) The appropriate exemption under § 301.13;

(3) A list of all persons expected to attend the meeting and their affiliation.

§ 301.15 Transcripts of closed meetings.

(a) All meetings closed to the public shall be subject to either a complete transcript or, in the case of § 301.13(i) and at the Tribunal's discretion, detailed minutes. Detailed minutes shall describe all matters discussed, identify all documents considered, summarize action taken as well as the reasons for it, and record all rollcall votes as well as any views expressed.

(b) Such transcripts or minutes shall be kept by the Tribunal for 2 years or 1 year after the conclusion of the proceedings, whichever is later. Any portion of transcripts of meetings which the Chairman does not feel is exempt from disclosure under § 301.13 will ordinarily be available to the public within 20 working days of the meeting. Transcripts or minutes of closed meetings will be reviewed by the Chairman at the end of each calendar year and if he feels they may at that time be disclosed, he will resubmit the question to the Tribunal to gain authorization for their disclosure.

§ 301.16 Requests to open or close meetings.

(a) Any person may request the Tribunal to open or close a meeting or disclose or withhold information. Such a request must be captioned "Request to Open" or "Close" a meeting on a specific date concerning a specific subject. The requester must state his or her reasons, and include name and address, and desirably, telephone number.

(b) In the case of a request to open a meeting the Tribunal has previously voted closed, the Tribunal must receive the request within 3 working days of the meeting's announcement. If not, it will not be heeded, and the requester will be so notified. Requests are desired in seven copies.

(c) For the Tribunal to act on a request to open or close a meeting, the question must be brought to a vote before the Tribunal by one of the Commissioners. If the request is granted, an amended meeting announcement will be issued immediately and the requester notified. If a vote is not taken, or if after a vote the request is denied, the requester will also be notified promptly.

§ 301.17 Ex parte communication.

(a) No person not employed by the Tribunal and no employee of the Tribunal who performs any investigative function in connection with a Tribunal proceeding shall communicate, directly or indirectly, with any member of the Tribunal or with any employee involved in the decisions of the proceeding, with respect to the merits of any proceeding before the Tribunal or of a factually related proceeding.

(b) No member of the Tribunal and no employee involved in the decision of a proceeding shall communicate, directly or indirectly, with any person not employed by the Tribunal or with any employee of the Tribunal who performs an investigative function in connection with the proceeding, with respect to the merit of any proceeding before the Tribnal or of a factually related proceeding.

(c) If an *ex parte* communication is made to or by any member of the Tribunal or employee involved in the decision of the proceeding, in violation of paragraph (a) or (b) of this section, such member or employee shall promptly inform the Tribunal of the substance of such communciation and of the circumstance surrounding it. The Tribunal shall then take such action it considers appropriate; provided that any written *ex parte* communication and a summary of any oral *ex parte* communication shall be made part of the public records of the Tribunal, but shall not be considered part of the record for the purposes of decision unless introduced into evidence by one of the parties.

(d) A request for information with respect to the status of proceeding shall not be considered an *ex parte* communication prohibited by this section.

Subpart C—Public Access To and Inspection of Records

The following is the manner in which Tribunal opinions, recommended decisions, orders, public reports and records shall be made available to the public.

§ 301.21 Public records.

(a) Final official determinations of the Tribunal will be published in the FEDERAL REGISTER and include the relevant facts and the reasons for those determinations.

(b) An annual report, required of the Tribunal to be presented to the President and Congress each fiscal year, along with a detailed fiscal statement of account, will be available both for inspection at the Tribunal and for purchase from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

(c) All other Tribunal records are available, for inspection or copying at the Tribunal, except:

(1) Records that relate solely to the internal personnel rules and practices of the Tribunal;

(2) Records exempted by statute from disclosure;

(3) Interoffice memoranda or correspondence not available by law except to a party in litigation with the Tribunal;

(4) Personnel, medical, or similar files whose disclosure would be an invasion of personal privacy;

(5) Communications among Commissioners concerning the drafting of decisions, opinions, reports, and findings on any Tribunal matter or proceeding;

(6) Offers of settlement which have not been accepted unless they have been made public by the offerer;

(7) Records not herein listed but which may be withheld as "exempted" if the Tribunal finds compelling reasons exist.

§ 301.22 Public access.

(a) Information may be requested from the Tribunal in person, by telephone, or by mail.

(b) If the material sought is not a Tribunal record, is exempted, or for some reason is unavailable, the person requesting it will be so informed and, in the case of an "exempted record," will be explained the reason for the exemption and the procedure for appeal under the Freedom of Information Act, § 301.13.

(c) Fees for copies of Tribunal records are: $.45 per page for 24 pages or less, and $.35 per page for 25 copies or more, with a minimum fee of $4; $10 for each hour or fraction thereof spent searching for records; $4 for certification of each document; and the actual cost to the Tribunal for any other costs incurred.

301.23 Freedom of Information Act.

(a) If a request is made under the Freedom of Information Act (5 U.S.C. 552), it must be in writing, be captioned "Freedom of Information Act Request," and identify as accurately as possible, the information desired.

(b) Within 10 working days after the Tribunal has received such a request, the Chairman shall inform the requester how the records may be inspected or copied and the cost (as under § 301.22) of copying. The chairman may, however, extend this time limit up to 10 working days if:

(1) Records must be located or transferred;

(2) Voluminous material must be examined;

(3) Other agencies with substantial interest in the matter must be consulted or other elements of the Tribunal must be consulted.

In this case the requester shall be notified in accordance with 5 U.S.C. 552 (a)(6)(B).

(c) If the request is denied, the Chairman shall so inform the requester in writing, citing the exemption authorizing the denial and informing the requester that he or she may appeal the denial to the Tribunal within 20 working days. Appeals must be in writing and must be acted on by the Tribunal within 20 working days of their receipt. If the appeal is rejected, the requester must be so notified immediately and informed of the provisions for judicial review under 5 U.S.C. 552(a)(4).

§ 301.24 Privacy Act.

(a) The Privacy Act of 1974 (Pub. L. 93-579) 5 U.S.C. 552(a), concerns only requests which contain personal information retrievable by a personal identified. This section does not apply to personnel records located in Government-wide systems elsewhere.

The purpose of the Privacy Act is to enable individuals to:

(1) Learn if the Tribunal maintains records concerning them;

(2) Have access to such records;

(3) Learn if and to whom the Tribunal has disclosed such records; and

(4) Amend such records.

The Tribunal, in compliance with paragraph (a)(4) of this section, will record the disclosures of all records, their dates, the material disclosed, and to whom the material has been disclosed.

(b) A request made under the Privacy Act must be in writing, captioned "Privacy Act Request," and identify as accurately as possible the records in question and the nature of the information desired. This section is not to be construed as allowing an individual access to information compiled in reasonable anticipation of a civil action or proceeding.

(c) The request must be signed by the person making it, and such signature will be considered certification that the person signing is either the individual involved or that person's guardian. If the Chairman considers it necessary, he may require additional verification. Section 552(a)(i)(3) of the Privacy Act; 5 U.S.C. 552(a)(i)(3), states the penalties for false representation.

(d) If a medical record is involved and the chairman feels that its disclosure might adversely affect the individual, he shall require that person to designate a medical doctor to whom the record will be transmitted.

(e) Within 10 working days after the Tribunal has received such a request, the Chairman shall acknowledge its receipt to the requester and within 30 days shall inform the requester how the records may be inspected and the cost for copying, unless the records are exempted under § 301.21(c).

(f) If an individual who has obtained access to personal records wishes to have those records amended, he or she must make such a request in writing, state the nature of the information desired amended, and cite the reasons. Within 10 working days after the Tribunal has received such a request, the Chairman shall acknowledge its receipt and inform the requester whether or not the request has been granted. If the request is denied, the Chairman shall explain why and inform the requester of the right to appeal the denial to the Tribunal. All appeals must be in writing, with the caption "Privacy Act Appeal," and the Chairman will inform the requester of their disposition within 30 working days, unless there is good cause for the time to be extended. If the appeal is denied the requester will be notified of the provision for judicial review under 5 U.S.C. 552(b).

(g) Exempt from this section is all investigatory material compiled for law enforcement purposes as stipulated in 5 U.S.C. 552(k)(2).

Subpart D—Equal Employment Opportunity

§ 301.31 Purpose.

(a) This section sets forth the Tribunal's policy concerning Equal Employment Opportunity and the complaint procedures in the case of discrimination.

(b) The policy of the Tribunal is to oppose discrimination in all areas of job application, employment, and promotion on the basis of race, religion, sex, national origin, age, or physical handicap; this is because such a policy is right and any other would be morally indefensible. This policy will be pursued actively and affirmatively.

§ 301.32 Recruitment and hiring.

(a) Except in the case of the personal staffs of Commissioners, responsibility for equal employment opportunity is the Tribunal's as a whole; however, the authority to execute this policy may be delegated to a Personnel Committee.

(b) All hiring will be done on the basis of individual qualifications, without discrimination. The criteria of who is best qualified to fill a vacancy rests with the Tribunal, but there will be no criteria which discriminates in the areas covered by § 301.31(b).

(c) In soliciting job applicants, systematic efforts will be made to locate and encourage qualified minority and women candidates. Where appropriate, the positions will be advertised in publications with primarily minority and women readership and announced through organizations or groups with high minority and women representation.

(d) Applicants for the same position will be required to have the same skills and to provide the same background information. The total number of applicants considered must reflect the proportion of minorities and women reasonable available for such a position. The criteria by which applicants are screened and selected shall be job related.

§ 301.33 Complaint procedures.

(a) Any person who believes that he or she has been discriminated against on the basis of race, religion, sex, national origin, age, or physical handicap, must first resolve such a complaint through the following procedure before taking civil action. Before a complaint may be presented formally the procedures for resolving it informally must be exhausted.

(1) *Informal complaint procedures.* (i) Within 30 days of an alleged discriminatory act, or in the case of a personnel action, within 30 days of its effective date, the complainant must contact the Chairman of the Personnel Committee and explain the case for the complaint. In case the com-

V 4 3 / 2 0 5

plaint is against the Chairman of the Personnel Committee, it will be made to the chairman of the Tribunal. The complainant may be accompanied or represented by any person of his or her choosing.

(ii) The chairman of the Personnel Committee, or the Chairman of the Tribunal, or a Commissioner designated by the Chairman, shall then make whatever inquiry seems necessary into the circumstances surrounding the complaint and shall attempt to resolve it informally through counseling. Such counseling shall be completed within twenty-one (21) days of the date on which the complaint was first brought, and written record will be kept. If an informal resolution is reached, its terms will be in writing. The identity of the complainant at this stage, however, will at no time be revealed unless he or she specifically authorizes it.

(iii) If an informal resolution is not reached, the complainant will be advised that he or she may then file a formal complaint.

(2) *Formal complaint procedure.* (i) Within 15 days of the final counseling session under the informal procedure above, and if no resolution has been reached, the complainant may file a formal written complain addressed to the Chairman of the Tribunal, signed by the complainant, and specifying all the details surrounding the complaint.

(ii) On receipt of the complaint, the Chairman shall request an investigation by the Chairman of the Personnel Committee and two Commissioners not on the Committee. This investigation will review thoroughly all the circumstances surrounding the alleged discrimination and analyze the treatment of the complainant as compared with others in the same situation. The results shall be in writing and a copy sent to the complainant. The complainant shall then be given the opportunity to meet with the Commissioners who prepared this report to try to reach an adjustment of the complaint. The complainant may be accompanied or represented by a person of his or her own choosing. If the complainant is an employee of the Tribunal, he or she shall be allowed sufficient official time to present the complaint. If the complainant has designated another Tribunal employee to advise or represent him, that person shall be allowed sufficient official time to perform the appropriate duties.

(iii) If an adjustment is reached at this point, it must be signed by the complainant and shall serve to terminate the matter. If an adjustment is not reached, the investigative report will be transmitted to the Chairman of the Tribunal, and the Tribunal shall make a disposition of the complaint to take affect within 15 days. This disposition will be relayed to the complainant in writing immediately. The complainant shall also be advised of his or her right to file a civil action, or in the case of an employee of the Tribunal to demand a hearing.

(iv) Within 15 days of the announcement of the Tribunal's proposed disposition, a complainant who is an employee of the Tribunal may request a hearing. Upon receipt of such a request, the Chairman shall request from another Federal agency, a qualified Hearing Examiner who has been certified to hear Equal Employment Opportunity complaints.

(v) The Hearing Examiner, within 21 days, shall conduct a hearing. Witnesses will be allowed to testify, but their testimony must relate only to the complaint; information will be admitted into evidence, but only information having a direct bearing on the complaint. Both parties to the complaint shall have the opportunity to cross-examine. The hearing shall be recorded, and the transcript as well as the findings and recommendations of the Hearing Examiner shall be transmitted to the Tribunal for a final decision.

(vi) The Tribunal will give special consideration to the recommendations of the Hearing Examiner, and if he wishes to reject or modify those recommendations, the Tribunal must accompany such a decision with a letter detailing his reasons. The Tribunal's final decision will be accompanied by a copy of the Hearing Examiner's findings and recommendations and a transcript of the hearing.

(vii) After the decision has been issued, the complainant shall be advised immediately that he or she has the right to file a civil action in the appropriate District Court within 30 days.

(viii) If within one hundred eighty (180) days from the date the complainant first brought the complaint, the Tribunal has failed to issue a decision, the complainant will also have the right to file a civil action.

(ix) Where discrimination is found, the Tribunal shall review the matter which gave rise to the complaint and determine whether or not disciplinary action is necessary. The basis for this action shall be in writing, but not included in the complaint file.

§ 301.34 Third party allegation of discrimination.

Organizations or third parties may bring allegations of discrimination against the Tribunal in areas unrelated to individual complaints, but such allegations must be in writing, and in sufficient detail for the Tribunal to investigate them. The Tribunal may order an investigation, and the party bringing the allegations will be informed of its results as well as of any decision by the Tribunal and corrective action.

§ 301.35 Business relations.

Business contracts entered into by the Tribunal shall stipulate that all contractors, subcontractors, and suppliers to the Tribunal conform in their own policies with the substance of the Tribunal's Equal Employment Opportunity Policy.

Subpart E—Procedures and Regulations

§ 301.40 Scope.

All Tribunal proceedings will be governed by the procedures of this Subpart. This subpart does not apply to general statements of policy or to rules of agency organization, procedure, or practice.

§ 301.41 Formal hearings.

(a) The formal hearings which will be conducted pursuant to the rules of this subpart are rate adjustment proceedings, royalty fee distribution proceedings, and all rulemaking proceeding in which it has been determined to conduct a hearing. The Tribunal may also, on its own motion or on the petition of an interested party, hold other proceedings it deems necessary on any matter it has the authority to investigate, in order to obtain information in determining its policies, in exercising its duties, or in formulating or amending its rules and regulations. Such proceedings also will be subject to the rules of this subpart.

(b) Studies or conferences the Tribunal may hold in carrying out its statutory responsibilities may be conducted in whole or in part under the provisions of this subpart, depending upon the discretion of the Tribunal.

§ 301.42 Suspension, amendment, or waiver of rules.

(a) The provisions of this subpart may be suspended, revoked, amended, or waived, in whole or in part, at any time by the Tribunal for good cause shown, subject to the provisions of the Administrative Procedure Act. Where procedures have not been specifically prescribed in this subpart, the Tribunal shall follow those which in its opinion will best serve the purposes of a proceeding.

§ 301.43 Notice of proposed rulemaking.

(a) *General notice.* Public notice for rate adjustment and royalty distribution proceedings is covered in Subparts F and G of this Part. Before the adoption of any rule of general applicability, or the commencement of any hearing on any proposed rulemaking, the Tribunal shall publish a general notice in the FEDERAL REGISTER, such notice to be published not less than 30 days prior to the date on which the proposed rules may be considered by the Tribunal, or the date of any hearing on such proposed rules. However, where the Tribunal, for good cause, finds it impracticable, unnecessary, or contrary to the public interest to give such notice, it may adopt the rules without notice by incorporating a finding to such effect and a concise statement of the reasons therefor in the notice.

(b) *Notice.* A rule proceeding shall commence with a notice of proposed rulemaking. Such notice shall be published in the FEDERAL REGISTER, and to the extent practicable, otherwise made available to interested persons. The notice shall include: (1) The terms or substance of the proposed rule or a description of the subjects and issues involved; (2) reference to the legal authority, under which the rule is proposed; (3) a statement describing the particular reason for the rule; and (4) an invitation to all interested persons to comment.

(c) *Hearing notice.* A hearing notice of proposed rulemaking shall be published in the FEDERAL REGISTER, and to the extent practicable, otherwise made available to interested persons. The hearing notice shall include: (1) Designated issues which are to be considered; (2) the time and place of hearing, and (3) instructions to interested persons seeking to make oral presentation.

§ 301.44 Conduct of proceedings.

(a) At the opening of the proceeding the Chairman shall announce the subject under consideration.

(b) Only Commissioners of the Tribunal, authorized Tribunal staff, or counsel as provided in this chapter shall question witnesses.

(c) Subject to the approval of the Tribunal, the Chairman will have the responsibility for:

(1) Setting the order of presentation of evidence and appearance of witnesses;

(2) Ruling on objections and motions;

(3) Administering oaths and affirmations to all witnesses;

(4) Making all rulings with respect to introducing or excluding documentary or other evidence;

(5) Regulating the course of the proceedings and the decorum of the parties and their counsel, and insuring that the proceedings are fair and impartial;

(6) Announcing the schedule of subsequent hearing;

(7) Taking any other action which is consistent with this chapter and which has been authorized by the Tribunal.

(d) With all due regard for the convenience of witnesses, proceedings shall be conducted as expeditiously as possible.

(e) Following the opening statement, the Tribunal may convene first in executive session if such is the requirement of a statute or rule.

§ 301.45 Declaratory rulings.

In accordance with 5 U.S.C., Sec. 554(e), the Tribunal may on motion of its own, or on motion of an interested party, issue a declaratory ruling in order to terminate a controversy or remove uncertainty.

§ 301.46 Testimony under oath or affirmation.

All witnesses at Tribunal proceedings shall be required to take an oath or affirmation before testifying; however, attorneys who do not appear as witnesses shall not be required to do so.

§ 301.47 Transcript and record.

(a) An official reporter for the recording and transcribing of hearings will be designated by the Tribunal from time to time. Anyone wishing to inspect the transcript of any hearing may do so at the Tribunal; however, anyone wishing a copy must purchase it from the official reporter.

(b) After the close of the hearing, the complete transcript of testimony together with all exhibits shall be certified as to identity by the Chairman and filed in the offices of the Tribunal.

(c) The transcript of testimony and all exhibits, papers, and requests filed in the proceeding, shall constitute the exclusive record or decision. Any decision resting on official notice of a material fact not appearing in the record shall automatically afford any party, on timely request, to have an opportunity to show the contrary.

§ 301.48 Closing the hearing.

To close the record of hearing, the Chairman shall make an announcement that the taking of testimony has concluded. In its discretion the Tribunal may close the record as of a future specified date, and allow time for exhibits yet to be prepared to be admitted: *Provided*, That the parties to the proceeding stipulate on the record that they waive the opportunity to cross-examine or present evidence with respect to such exhibits. The record in any hearing which has been recessed may not be closed by the Chairman prior to the day on which the hearing is to resume, except upon 10 days' notice to all parties.

§ 301.49 Documents.

(a) *Copies of documents.* The original and 15 copies of every document filed and served in proceedings before the Tribunal shall be furnished for the Tribunal's use, except exhibits made a part of the record.

(b) *Subscription and verification.* (1) The original of all documents filed by any party represented by counsel, shall be signed by at least one attorney of record and list his address and telephone number. All copies shall be confirmed. Except when otherwise specifically provided, documents signed by the attorney for a party need not be verified or accompanied by an affidavit. The signature of an attorney constitutes certification by him that he has read the document, that to the best of his knowledge and belief there is good ground to support it, and that it has not been interposed for delay.

(2) The original of all documents filed by a party not represented by counsel shall be both signed and verified by that party and list that party's address and telephone number.

(3) The original of a document that is not signed, or is signed with intent to defeat the purpose of this section, may be stricken as sham and false and the matter proceed as though the document had not been filed.

§ 301.50 Reopening of proceedings, modification or setting.

(a) *Condition for reopening.* (1) Except in the case of rate adjustment proceedings and distribution proceedings the Tribunal may, upon petition or its own motion, reopen any proceeding, after reasonable notice, for the purpose of rehearing arguments or reconsideration.

(2) After granting an opportunity to be heard, the Tribunal may alter, modify or set aside in whole or in part, the report of its finding or order if it finds such action required by changed conditions, by material mistake of fact or law, or by the public interest

(b) *Petition for reopening.* A petition for reopening shall be made in writing and shall state its grounds. If it is a petition to take further evidence, the nature and purpose of the new evidence to be adduced shall be stated briefly, and an explanation given for why such evidence was not available at the time of the prior hearing. If it is a petition for reargument or reconsideration, the matter that is claimed to have been erroneously decided shall be specified and the alleged errors outlined briefly. Copies of the petition shall be furnished to all participants or their counsel.

(c) *Stay of rule or order.* No petition for reopening nor permission for reopening shall constitute a stay of any Tribunal rule or order; except that the Tribunal may postpone the effective date of any action taken by it pending judicial review and if, in the Tribunal's opinion, justice so requires.

OCT 23 1978

V 43/205 0 C 23 78

§ 401.51 Rules of evidence.

(a) *Admissibility.* In any public hearing before the Tribunal, evidence which is not unduly repetitious or cumulative and is relevant and material shall be admissable. The testimony of any witness will not be considered evidence in a proceeding unless the witness has been sworn.

(b) *Documentary evidence.* Evidence which is submitted in the form of documents or detailed data and information shall be presented as exhibits. Relevant and material matter embraced in a document containing other matter not material or relevant or not intended as evidence must be plainly designated as the matter offered in evidence, and the immaterial or irrelevant parts shall be marked clearly so as to show they are not intended as evidence. A document in which material and relevant matter occurs which is of such bulk that it would unnecessarily encumber the record, may instead be marked for identification, and the relevant and material parts, once properly authenticated, may be read into the record. If the Tribunal desires, a true copy of the material and relevant matter may be presented in extract and submitted as evidence. Anyone presenting documents as evidence must present copies of all other participants at the hearing or their attorneys, and afford them an opportunity to examine the documents in their entirety and offer any other portion in evidence which may be felt material and relevant.

(c) *Documents filed with the Tribunal.* If the matter offered in evidence is contained in documents already on file with the Tribunal, the documents themselves need not be produced, but may instead be referred to according to how they have been filed with the Tribunal.

(d) *Public documents.* If a public document is offered in evidence either in whole or in part, such as an official report, decision, opinion or published scientific or economic data, and the document has been issued by an Executive Department, a legislative agency or committee, or a Federal administrative agency (Government-owned corporations included), and is proved by the party offering it to be reasonably available to the public, the document need not be produced physically, but may be offered instead by identifying the document and signaling the relevant parts.

(e) *Copies to participants.* Copies of all prepared testimony and exhibits must be distributed to the Tribunal and to other participants or their counsel at a hearing, unless the Chairman directs otherwise. For its use the number of copies the Tribunal requires is seven.

(f) *Reception and ruling.* Any ruling on the admissibility of evidence will be made by the Chairman, and he shall control the reception of evidence and insure that it confines itself to the issues of the proceeding.

(g) *Offers of proof.* If the Chairman rejects or excludes proposed oral testimony and an offer of proof is made, the offer of proof shall consist of a statement of the substance of the evidence which it is contended would have been adduced. In the case of documentary or written evidence, a copy of such evidence shall be marked for identification and shall constitute the offer of proof.

(h) *Introduction of studies and analysis.* If studies or analysis are offered in evidence, they shall state clearly the study plan, all relevant assumptions, the techniques of data collection, and the techniques of estimation and testing. The facts and judgments upon which conclusions are based shall be stated clearly, together with any alternative courses of action considered. If requested, tabulations of input data shall be made available to the Tribunal.

(i) *Statistical studies.* Statistical studies offered in evidence shall be accompanied by a summary of their assumptions, their study plans, and their procedures. Supplementary details shall be added in appendices. For each of the following types of statistical studies the following should be furnished:

(1) *Sample surveys.* (i) A clear description of the survey design, the definition of the universe under consideration, the sampling frame and units, the validity and confidence limits on major estimates; and

(ii) An explanation of the method of selecting the sample and of which characteristics were measured or counted.

(2) *Econometric investigations.* (i) A complete description of the econometric model, the reasons for each assumption, and the reasons for the statistical specification;

(ii) A clear statement of how any changes in the assumptions might affect the final result; and

(iii) Any available alternative studies, if requested, which employ alternative models and variables.

(3) *Experimental analysis.* (i) A complete description of the design, the controlled conditions, and the implementation of controls; and

(ii) A complete description of the methods of observation and adjustment of observation.

(4) *Studies involving statistical methodology.* (i) The formula used for statistical estimates;

(ii) The standard error for each component;

(iii) The test statistics, the description of how the tests were conducted, related computations, computer programs, and all final results; and

(iv) Summarized descriptions of input data and, if requested, the input data itself.

(j) *Cumulative evidence.* Cumulative evidence will be discouraged by the Tribunal and the Tribunal may limit the number of witnesses that may be heard in behalf of any one party on any one issue.

(k) *Further evidence.* At any state of a hearing the Chairman may call upon any party to furnish further evidence upon any issue.

(l) *Rights of parties as to presentation of evidence.* Every participant shall have the right to present his case by oral or documentary evidence, to submit rebuttal evidence, and to conduct such cross-examination as may be necessary to disclose the facts fully and truthfully. The Chairman, however, may limit introduction of evidence, examination, and cross-examination if in his judgment this evidence or examination would be cumulative or cause undue delay.

§ 301.52 Participation in any proceeding.

Interested persons will be afforded an opportunity to participate in any proceeding and submit written data, views, or arguments, with or without the opportunity to present the same orally. If proposed rules are required by statute to be made on the record after opportunity for a hearing, such a hearing shall be conducted pursuant to 5 U.S.C., Subchapter II, and 7 U.S.C., and the procedure will be the same as in § 301.55 herein.

§ 301.53 Examination, cross-examination, and rebuttal.

(a) Each Commissioner may examine any witness at any time.

(b) Examination, cross-examination, and rebuttals relevant to the issues under consideration, shall be allowed by the Chairman, but only to the extent they are necessary for a full and true disclosure of the facts.

(c) *Selection of representatives for cross-examination.* The Tribunal will encourage individuals or groups with the same or similar interests in a proceeding to select a single representative to conduct their examination and cross-examination for them. However, if there is no agreement on the selection of a representative, then each individual or group will be allowed to conduct his own examination and cross-examination, but only on issues affecting his particular interest.

§ 301.54 Proposed findings and conclusions.

(a) Any party to the proceeding may file proposed findings of fact and conclusions, briefs, or memoranda of law, or may be directed by the Chairman so to file, such filings to take place within 20 days after the record has been closed, unless additional time is granted.

(b) Failure to file when directed to so do may be considered a waiver of the right to participate further in the proceeding, unless good cause is shown.

(c) Proposed findings of fact shall be numbered by paragraph and include all basic evidentiary facts developed on the record used to support proposed conclusions and cite appropriately the record for each evidentiary fact. Proposed conclusions shall be stated separately. Proposed findings submitted by someone other than an applicant in a proceeding shall be restricted to those issues which specifically affect that person.

(d) Proof of service upon all other counsel or parties in a proceeding must accompany pleadings and all other papers filed under this section.

§ 301.55 Promulgation of rules or orders.

(a) In adopting a rule or order the Tribunal will consider all relevant matters of fact, law, and policy, and all relevant matters which have been presented by interested persons, and will exercise due discretion. Together with a concise general statement of its basis and purpose and any necessary findings, the rule or order will be published in the FEDERAL REGISTER, and if any other public notice is necessary that will be made also.

(b) The effective date of any rule, or its amendment, suspension, or repeal, will be at least 30 days after it is published in the FEDERAL REGISTER, unless good cause has been shown and is published with the rule.

§ 301.56 Public suggestions and comments.

(a) The Tribunal encourages the public, not just those persons subject to its regulations, to submit suggestions and proposals concerning any substantial question before it, when that question will have subtantial impact either upon those directly regulated by the Tribunal or upon others. It is in the best interests of both the Tribunal and the public at large that the Tribunal be advised on issues and problems that are potentially significant to it. This will permit the Tribunal to consider policy questions and administrative reforms early enough so that they may be viewed in a general context and not in the detailed application of a particular proceeding.

(b) Upon receiving such suggestions or proposals, the Tribunal shall review them and take whatever action seems necessary. Further information may be requested from the party submitting the suggestion or proposals, and the Tribunal staff may be asked to make a study, or an informal public conference may be held. Conferences or procedures undertaken pursuant to this section shall not be deemed subject to the Administrative Procedure Act with respect to notice of rulemaking. They are intended by the Tribunal simply as a means of determining the need for Tribunal action, prior to issuing a notice of proposed rulemaking.

(c) Such suggestions or proposals, however, shall be filed in accordance with the Tribunal's rules.

(d) This policy may not be used to advocate ex parte a position in a pending proceeding. Suggestions or proposals offered must relate to general conditions, such as conditions in industry, the public interest, or the policies of the Tribunal.

Subpart F—Rate Adjustment Proceedings

§ 301.60 Scope.

This chapter governs only those proceedings dealing with royalty rate adjustments affecting cable television (17 U.S.C. 111), the production of phonorecords (17 U.S.C. 115), coin-operated phonorecord players (jukeboxes) (17 U.S.C. 116), and non-commercial broadcasting (17 U.S.C. 118). It does not govern unrelated rulemaking proceedings. Those provisions of subpart E generally regulating the conduct of proceedings shall apply to rate adjustment proceedings, unless they are inconsistent with the specific provisions of this subpart.

§ 301.61 Commencement of adjustment proceedings.

(a) In the case of cable television, phonorecords, and coin-operated phonorecord players (jukeboxes) rate adjustment proceedings will commence by the publication of a notice to that effect in the FEDERAL REGISTER on January 1, 1980, pursuant to 17 U.S.C. 804(a)(1). In the case of non-commercial broadcasting the notice will be published on June 30, 1982 and at 5-year intervals thereafter, pursuant 10 U.S.C. 118(c). The notice shall, to the extent feasible, describe the general structure and schedule of the proceeding.

(b) Initially, as outline in paragraph (a) of this section a petition from an interested party is not necessary to commence proceedings. Thereafter, however, for rate adjustment proceedings to commerce, a petition must be filed by an interested party according to the following schedule:

(1) Cable Television: During 1985 and each subsequent fifth calendar year.

(2) Phonorecords: During 1987 and each subsequent 10th calendar year.

(3) Coin-operated phonorecord players (jukeboxes): During 1990 and each subsequent 10th calendar year.

(c) Cable television rate adjustment proceedings may also be commenced by the filing of a petition, according to 17 U.S.C., 801(b)(2) (B) and (C), if the Federal Communications Commission amends certain of its rules concerning the carriage by cable of broadcast signals, or with respect to syndicated and sports program exclusivity.

(d) In the case of non-commercial broadcasting, a petition is not necessary for the commencement of proceedings. They commence automatically according to paragraph (a) of this section.

§ 301.62 Content of petition.

(a) The petition shall detail the petitioner's interest in the royalty rate sufficiently to permit the Tribunal to determine whether the petitioner has "significant interest" in the matter. The petition must also identify the extent to which the petitioner's interest is shared by other owners or users, and owners or users with similar interests may file a petition jointly.

(b) In the case of a petition for rate adjustment as the result of a Federal Communications Commission rule change, the petition shall also set forth the action of the Federal Communications Commission which the party filing the petition feels authorizes a rate adjustment proceeding.

§ 301.63 Consideration of petition.

The Tribunal shall not start to consider any petition before the expiration of 90 days from the start of the calendar year specified in § 301.61(b) or 90 days from the effective date of the Federal Communications Commission action mentioned in § 301.62(c). Similar petitions may be joined together by the Tribunal for the purpose of determining "significant interest", and the Tribunal may permit written comments or a hearing on pending petitions.

§ 301.64 Disposition of petition.

At the end of the 90-day period, the Tribunal shall determine as expeditiously as possible if one or more petitioner's interest is "significant"; and shall publish in the FEDERAL REGISTER a notice of its determination and the reasons therefor, together with a notice of the commencement of proceedings if it has been determined to commence a proceeding. Any commencement notice shall, to the extent feasible, describe the general structure and schedule of the proceeding.

§ 301.65 Rate adjustment proceedings.

In any rate adjustment proceeding, all interested persons shall have the opportunity to present written com-

V 43/205 0 C 23 78

ments and oral testimony, subject to the general provisions of subpart E.

ing the conduct of proceedings shall apply to royalty fee distribution proceedings, unless they are inconsistent

comments and oral testimony, subject to the general provisions of subpart E.

submit by January 1, 1979, for the Bir-

V 4 3 / 2 0 5 0 C 2 3 7 8

ments and oral testimony, subject to the general provisions of subpart E.

§ 301.66 Publication of proposed rate determination.

(a) Following the conclusion of the hearings, the Tribunal shall publish as soon as possible in the FEDERAL REGISTER, a notice of its proposed findings and conclusions in the rate adjustment proceeding. The Tribunal shall afford all parties a reasonable opportunity to submit written comments on the proposed determination. The Tribunal may, if necessary, conduct additional hearings.

(b) A proposed determination will not be published if, in the Tribunal's judgment, a final determination cannot feasibly be rendered before the year's end as required by 17 U.S.C. 118(c) and 17 U.S.C. 804(e) concerning the termination of proceedings.

§ 301.67 Final determination.

Upon the conclusion of the procedures for proposed determinations described in § 301.66, or upon the conclusion of the rate adjustment proceedings provided in § 301.65, if the publication of a proposed rate determination is not feasible because of the requirements to reach a final determination before the end of the year (17 U.S.C. 118(c) and 17 U.S.C. 804(e)), the Tribunal shall publish in the FEDERAL REGISTER a written opinion stating in detail the criteria it found applicable, the facts found relevant, and the specific reasons for its determination.

§ 301.68 Reopening of proceedings.

Following the publication of a final determination in the FEDERAL REGISTER the Tribunal shall not reopen or conduct any further proceedings.

§ 301.69 Effective date of final determination.

A final determination by the Tribunal shall become effective thirty days following its publication in the FEDERAL REGISTER, unless an appeal has been filed prior to that time pursuant to 17 U.S.C. 810 to vacate, modify or correct a determination, and notice of the appeal has been served on all parties who appeared in the proceeding.

Subpart G—Royalty Fees Distribution Proceedings

§ 301.70 Scope.

This subpart governs only those proceedings dealing with the distribution of compulsory cable television and coin-operated phonorecord player (jukebox) royalties desposited with the Register of Copyrights, according to the terms of 17 U.S.C., 111(d)(5) and 116(c). It does not govern unrelated rulemaking proceedings. Those provisions of subpart E generally regulating the conduct of proceedings shall apply to royalty fee distribution proceedings, unless they are inconsistent with the specific provisions of this subpart.

§ 301.71 Commencement proceedings.

(a) *Cable television.* In the case of compulsory royalty fees for secondary tranmissions by cable television, any person claiming to be entitled to such fees must file a claim with the Tribunal during the month of July each year in accordance with Tribunal regulations.

(b) *Coin-operated phonorecord players.* In the case of compulsory royalty fees for the use of nondramatic musical works by coin-operated phonorecord players (jukeboxes) any person claiming to be entitled to such fees must file a claim with the Tribunal during the month of January each year in accordance with Tribunal regulations.

§ 301.72 Determination of controversy.

(a) *Cable television.* After the first day of August each year, the Tribunal shall determine whether a controversy exists among the claimants of cable television compulsory royalty fees. In order to determine whether a controversy exists, the Tribunal may conduct whatever proceedings it feels necessary , subject to the procedures and regulations of subpart E. The results of this determination shall be announced in the FEDERAL REGISTER. If the Tribunal decides that a controversy exists, the FEDERAL REGISTER notice shall also announce the commencement of the royalty distribution proceeding, and shall, to the extent feasible, describe the general structure and schedule of the proceeding.

(b) *Coin-operated phonorecord players.* After the first day of October each year, the Tribunal shall determine whether a controversy exists among the claimants of coin-operated phonorecord player (jukebox) compulsory royalty fees. In order to determine whether a controversy exists the Tribunal may conduct whatever proceedings it feels necessary, subject to the procedures and regulations of subpart E. The results of this determination shall be announced in the FEDERAL REGISTER. If the Tribunal decides that a controversy exists, the FEDERAL REGISTER notice shall also announce the commencement of the royalty distribution proceeding, and shall, to the extent feasible, describe the general structure and schedule of the proceeding.

§ 301.73 Royalty distribution proceedings.

In any royalty distribution proceeding all interested claimants shall have the opportunity to present written comments and oral testimony, subject to the general provisions of subpart E.

§ 301.74 Publication of proposed royalty distribution determination.

(a) Following the conclusion of the hearings, the Tribunal shall publish, as soon as possible, in the FEDERAL REGISTER, a notice of its proposed findings and conclusions in the royalty distribution proceeding. The Tribunal shall afford all claimants a reasonable opportunity to submit written comments on the proposed determination. The Tribunal may, if necessary, conduct additional hearings.

(b) A proposed determination will not be published if, in the Tribunal's judgment, a final determination cannot feasibly be rendered before the year's end, as required by 17 U.S.C. 804(e) concerning the termination of proceedings.

§ 301.75 Final determination.

Upon the conclusion of the procedures for proposed determination described in § 301.74, or upon the conclusion of the royalty distribution proceedings provided in § 301.73, if the publication of a proposed rate determination is not feasible because of the requirements to reach a final determination before the end of the year (17 U.S.C. 804(e)), the Tribunal shall publish in the FEDERAL REGISTER a written opinion stating in detail the criteria it found applicable, the facts found relevant, and the specific reasons for its determination.

§ 301.76 Reopening of proceedings.

Following the publication of a final determination in the FEDERAL REGISTER, the Tribunal shall not reopen or conduct any further proceedings.

§ 301.77 Effective date of final determination.

A final determination by the Tribunal shall become effective thirty days following its publication in the FEDERAL REGISTER, unless an appeal has been filed prior to that time pursuant to 17 U.S.C. 810 to vacate, modify, or correct a determination, and notice of the appeal has been served on all parties who appeared in the proceeding.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 52]

[FRL 991-8]

APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Alabama: Proposed Plan Revision

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: EPA is today giving notice of its intention to approve regulations adopted by the Alabama Air Pollution Control Commission for the charging and pushing of coke in existing conventional batteries. These revised regulations are part of the plan revision submittal Alabama is making pursuant to requirements of the Clean Air Act Amendments of 1977.

DATE: To be considered, comments must be received on or before November 22, 1978.

ADDRESSESS: Comments should be addressed to Eliot Cooper of EPA Region IV's Air Programs Branch at the Atlanta address given below. Telephone: 404-881-3286; FTS 257-3286. Copies of the materials submitted by the State of Alabama are available for public inspection during normal business hours at the following locations:

Alabama Air Pollution Control Commission, 615 South McDonough Street, Montgomery, Ala. 36130.

Air Programs Branch, Air and Hazardous Materials Division, Environmental Protection Agency, Region IV, 345 Courtland Street NE., Atlanta, Ga. 30308.

Public Information Reference Unit, Library Systems Branch, Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT:

Eliot Cooper of EPA Region IV's Air Programs Branch (see address and phone number above).

SUPPLEMENTARY INFORMATION: On March 3, 1978, on the basis of information submitted by the Alabama Air Pollution Control Commission, the Administrator designated areas in Jefferson and Etowah Counties nonattainment for particulate matter. Under section 172 of the Clean Air Act, as amended 1977, plan revisions assuring the attainment of national standards for particulate matter are to "provide for implementation of reasonably available control measures as expeditiously as practicable." The new coke oven regulations described below are intended to serve as part of the attainment plan which Alabama is to submit by January 1, 1979, for the Birmingham and Gadsden areas pursuant to section 172 of the Clean Air Act.

On July 11, 1978, following notice and public hearing in conformity with 40 CFR 51.4 and 51.6, the Alabama Air Pollution Control Commission adopted changes in its regulations for emissions of particulate matter from existing coke batteries. These revised regulations were submitted for EPA's approval on July 14, 1978.

This revision includes changes to the existing charging regulation and requires pushing controls in Jefferson and Etowah Counties. They apply to the charging of wet coal by use of a larry car in existing conventional coke batteries and restrict the allowable visible emission from any five consecutive charges to 94 seconds.

Also, existing coke oven batteries shall be equipped with a device that will capture and collect coke-side emissions resulting from the pushing operation. The collection device shall be such that the outlet gas shall contain no more than 0.03 pounds of noncondensable particulate matter per ton of coal charged for each oven, averaged over five consecutive pushes. In addition, visible emissions from the hot car, capture or collection device cannot exceed 20 percent opacity.

The regulation changes just described, in the Agency's view, represent reasonably available control measures that can be applied now to reduce particulate emissions in the Birmingham and Gadsden nonattainment areas, and it is on that basis that this proposal to approve them is made. The January 1979 plan revision submittal is to contain a control strategy demonstration which will take into account the particulate emission reduction expected from the new coke oven regulations and other control measures which the Alabama Air Pollution Control Commission will have adopted by that time. Under section 172 of the Clean Air Act, the completed January 1979 submittal must show that all particulate standards will be attained by December 1982.

The public is invited to participate in this rulemaking by submitting written comments on the proposed new Alabama coke regulations. After considering all relevant comments received together with other information available to him, the Administrator will take approval/disapproval action on them.

(Sec. 110(a) of the Clean Air Act (42 U.S.C. 7410(a).)

Dated: October 12, 1978.

JOHN A. LITTLE,
Acting Regional Administrator.

[FRL 991-5]

STATE AND FEDERAL ADMINISTRATIVE ORDERS PERMITTING A DELAY IN COMPLIANCE WITH STATE IMPLEMENTATION PLAN REQUIREMENTS

Proposed Delayed Compliance Order for Buckeye Power, Inc., Cardinal Generating Station, Brilliant, Ohio

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: EPA proposes to issue an Administrative Order to Buckeye Power, Inc. The Order requires the Company to bring Unit 2 at Brilliant, Ohio (the source) into compliance with Ohio Regulations AP-3-07 and AP-3-11, part of the federally approved Ohio State implementation Plan (SIP). Because the Company is unable to comply with these regulations at this time, the proposed Order would establish an expeditious schedule requiring final compliance by April 15, 1980. Source compliance with the Order would preclude suits under the Federal enforcement and citizen suit provision of the Clean Air Act for violation of the SIP regulations covered by the Order.

The purpose of this notice is to invite public comment and to offer an opportunity to request a public hearing on EPA's proposed issuance of the Order.

DATE: Written comments must be received on or before November 22, 1978 and requests for a public hearing must be received on or before November 7, 1978. All requests for a public hearing should be accompanied by a statement of why the hearing would be beneficial and a text or summary of any proposed testimony to be offered at the hearing. If there is significant public interest in a hearing, it will be held after 21 days prior notice of the date, time, and place of the hearing has been given in this publication.

ADDRESS: Comments and requests for a public hearing should be submitted to Director, Enforcement Division, U.S. Environmental Protection Agency, Region V, 230 South Dearborn Street, Chicago, Ill. 60604. Material supporting the Order and public comments received in response to this notice may be inspected and copied (for appropriate charges) at this address during normal business hours.

FOR FURTHER INFORMATION CONTACT:

Linda M. Buell, Attorney, Enforcement Division, U.S. Environmental

Protection Agency, 230 South Dearborn Street, Chicago, Ill. 60604, at

In consideration of the foregoing, it is proposed to amend 40 CFR Chapter 1 as follows:

comments, U.S. EPA has determined that the following schedule requires compliance as expeditiously as practicable, and that the

as to maximize the reliability and efficiency of the existing controls on Unit 2, minimize particulate matter emissions, avoid any imminent and substantial endangerment to

[6560-01-M]

[40 CFR Part 65]

manufacture of aluminum rod bar and wire products in Heath, Ohio. The proposed Order addresses emissions

V 4 3 / 2 0 5 0 C 2 3 7 8 V 4

Protection Agency, 230 South Dearborn Street, Chicago, Ill. 60604, at 312-3530-2082.

SUPPLEMENTARY INFORMATION: Buckeye Power, Inc. owns Unit 2 at the Cardinal Generating Station at Brilliant, Ohio. The propsed Order addresses emissions from one coal-fired boiler at this facility, which is subject to Regulations AP-3-07 and AP-3-11 of the Ohio Implementation Plan. The regulations limit the emissions of particulate matter, and are part of the federally approved Ohio State implementation Plan. The Order requires final compliance with the regulations by April 15, 1980, and the source has consented to its terms. As of the date of this publication, the source has already satisfied the first three increments in this Order.

The proposed Order satisfies the applicable requirements of section 113(d) of the Clean Air Act (the Act). If the Order is issued, source compliance with its terms would preclude further EPA enforcement action under section 113 of the Act against the source for violations of the regulations covered by the Order during the period the Order is in effect. Enforcement against the source under the citizen suit provisions of the Act (sec. 304) would be similarly precluded.

Comments received by the date specified above will be considered in determining whether EPA should issue the Order. Testimony given at any public hearing concerning the Order will also be considered. After the public comment period and any public hearing, the Administrator of EPA will publish in the FEDERAL REGISTER the Agency's final action on the Order in 40 CFR Part 65.

The provisions of 40 CFR Part 65 will be promlgated by EPA soon,[1] and will contain the precedure for EPA's issuance, approval, and disapproval of an Order under section 113(d) of the Act. In addition, Part 65 will contain sections summarizing Orders issued, approved, and disapproved by EPA. A prior notice proposing regulations for Part 65, published at 40 FR 14876 (Apr. 2, 1975), will be withdrawn, and replaced by a notice promulgating these new regulations.

Dated: October 10, 1978.

JOEL MCGUIRE,
Regional Administrator,
Region V.

[1] Published at 43 FR 44522, Sept. 28, 1978.

In consideration of the foregoing, it is proposed to amend 40 CFR Chapter 1, as follows:

PART 65—DELAYED COMPLIANCE ORDERS

1. By amending the table in § 65.400, Federal delayed compliance Orders issued under section 113(d) (1), (3), and (4) of the Act, to reflect approval of the following order:

U.S. ENVIRONMENTAL PROTECTION AGENCY

[Order No. EPA-5-78-A-]

In the Matter of Buckeye Power, Inc., Cardinal Generating Station, Brilliant, Ohio. Proceeding Under sections 113 (a), (d) and 114, Clean Air Act, as Amended.

Order

The following Order is issued today under sections 113 (a), (d) and 114 of the Clean Air Act, 42 U.S.C. section 7401 et seq. ("the Act"). The Order contains a compliance schedule with increments of progress, interim emission reduction requirements, and emission monitoring and reporting conditions. Final compliance is required as expeditiously as practicable, but no later than April 15, 1980. Public notice, opportunity for a public hearing and notice to the State of Ohio have been provided under section 113(d)(1) of the Act.

On September 2, 1976, James O. McDonald, Director, Enforcement Division, Region V, United States Environmental Protection Agency ("U.S. EPA"), under authority duly delegated to him by the Administrator of U.S. EPA, issued a Notice of Violation to Buckeye Power, Inc. ("the Company") stating that the Company's generating Unit 2 at the Cardinal Generating Station, located in the vicinity of Brilliant, Ohio, was found to be in violation of the applicable Ohio Implementation Plan, as defined in section 110(d) of the Act. The Notice cited the Company's Unit 2 for violation of Ohio Regulations AP-3-07 and AP-3-11. A copy of that Notice was sent to the State of Ohio Environmental Protection Agency.

Under section 113(a)(4) of the Act, opportunity to confer with the Administrator's delegates was duly given to the Company. On October 14, 1977, a conference was held in Chicago, Ill., to discuss the September 2, 1976, Notice of Violation. Subsequent meetings were held in Chicago on December 1, 1977, and March 30, 1978, to discuss a compliance schedule for the installation of new control equipment on Unit 2 at the Cardinal Generating Station.

U.S. EPA has determined that these violations have continued beyond the 30th day after the date of the Enforcement Director's notification and that the Company is unable to comply with the applicable implementation plan at this time.

After a review of information submitted at the conference, a thorough investigation of all relevant facts, and considering public comments, U.S. EPA has determined that the following schedule requires compliance as expeditiously as practicable, and that the terms of this Order comply with section 113(d) of the Act.

Therefore, it is hereby *ordered and agreed*, That: I. The Company shall achieve compliance with Ohio Regulations AP-3-07 and AP-3-11 at Unit 2 at the Cardinal Generating Station in accordance with the following schedule:

Increment	*Date*
Submit final control plans and specifications to U.S. EPA	Achieved
Award contract(s) for control equipment	Do.
Begin on-site construction	Do.
Complete erection of precipitator hoppers and shells	August 15, 1979
Achieve compliance with Ohio Regulations AP-3-07 and AP-3-11	April 15, 1980

II. Compliance test results and certification of compliance shall be submitted to U.S. EPA one month after completion of construction and tie-in of control equipment. The Company shall notify U.S. EPA and Ohio EPA at least 10 days before any compliance test is conducted.

III. Nothing contained in this Order shall affect the responsibility of the Company to comply with other Federal, State or local regulations.

IV. No later than 15 days after any date for achievement of an incremental step for final compliance specified in this Order, the Company shall notify U.S. EPA in writing of its compliance, or noncompliance and reasons for any noncompliance, with the requirement. If delay is anticipated in meeting any requirement of this Order, the Company shall immediately notify U.S. EPA in writing of the anticipated delay, reasons for the delay, and the estimated length of the delay.

The Company shall submit quarterly reports to U.S. EPA detailing the current status in meeting each increment of progress in this Order. In addition, photographs shall be submitted along with these reports, showing progress made since the previous quarter. U.S. EPA personnel shall be admitted to the facility at any reasonable time for the purpose of viewing such progress.

V. In issuing this order, the Administrator does not waive any rights or remedies under the Clean Air Act.

VI. Under section 113(d)(7) of the Act, during the period of this order, until completion of the program set out in Paragraph I herein, the Company shall use the best practicable system of emission reduction so as to maximize the reliability and efficiency of the existing controls on Unit 2, minimize particulate matter emissions, avoid any imminent and substantial endangerment to the public health, and comply with the requirement of the applicable implementation plan to the extent it is able to do so.

The Company shall submit written operating and maintenance procedures for the existing controls to U.S. EPA for approval within one month from the effective date of this order. These procedures shall provide for maximizing reliability and efficiency, malfunction reporting, record keeping, and corporate reviewing. Failure to submit or comply with the procedures will constitute a violation of this order.

VII. A continuous opacity monitoring system for the stack servicing Unit 2 shall be installed, calibrated, maintained and operated in accordance with the procedures set forth in Appendix B of 40 CFR Part 60 no later than July 1, 1979. Monitor data shall be retained by the Company for at least two years. In accordance with Section 114 of the Act, on a quarterly basis, the Company shall report all 6-minute data averages from the monitor [reduced as specified in 40 CFR § 60.13(b)] in excess of 20 percent.

VIII. The Company is notified that failure to achieve final compliance as required by the Act may result in a requirement to pay a noncompliance penalty. In that event, the Company will be formally notified under section 120(b)(3) and any regulations promulgated under that section.

IX. The Company hereby waives its right to file a petition for review of this order under section 307(b)(1) of the Act.

X. All submissions and notifications to U.S. EPA, under this order, shall be made to the Air Compliance Section, Enforcement Division, U.S. EPA, Region V, 230 South Dearborn Street, Chicago, Ill. 60604, 312-353-2090. A copy of all submissions and notifications shall be made to the North Ohio Valley Air Authority, 814 Adams Street, Steubenville, Ohio 43952.

XI. This order is effective upon its issuance.

Date: ———————.

———————,
Administrator.

Buckeye Power, Inc. has review ed this order, consents to the terms and conditions of this order, and believes it to be a reasonable means by which Unit 2 at the Cardinal Generating Station can achieve final compliance with Ohio Regulations AP-3-07 and AP-3-11.

Date: ———————.

[FRL 991-3]

STATE AND FEDERAL ADMINISTRATIVE ORDERS PERMITTING A DELAY IN COMPLIANCE WITH STATE IMPLEMENTATION PLAN REQUIREMENTS

Proposed Delayed Compliance Order for Kaiser Aluminum & Chemical Corp., Heath, Ohio

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: EPA proposes to issue an administrative Order to the Kaiser Aluminum & Chemical Corp. (Kaiser Aluminum). The Order requires the company to bring air emissions from its two coal-fired boilers in Heath, Ohio, into compliance with certain regulations contained in the federally-approved Ohio State Implementation Plan (SIP). Because the company is unable to comply with these regulations at this time, the proposed Order would establish an expeditious schedule requiring final compliance by March 31, 1979. Source compliance with the Order would preclude suits under the Federal enforcement and citizen suit provision of the Clean Air Act for violation of the SIP regulations covered by the Order. The purpose of this notice is to invite public comment and to offer an opportunity to request a public hearing on EPA's proposed issuance of the Order.

DATES: Written comments must be received on or before November 22, 1978, and requests for a public hearing must be received on or before November 7, 1978. All requests for a public hearing should be accompanied by a statement of why the hearing would be beneficial and a text or summary of any proposed testimony to be offered at the hearing. If there is significant public interest in a hearing, it will be held after twenty-one days prior notice of the date, time, and place of the hearing has been given in this publication.

ADDRESSES: Comments and requests for a public hearing should be submitted to James O. McDonald, Director, Enforcement Division, EPA, Region V, 230 South Dearborn Street, Chicago, Illinois 60604. Material supporting the Order and public comments received in response to this notice may be inspected and copied (for appropriate charges) at this address during normal business hours.

FOR FURTHER INFORMATION CONTACT:

Louise Gross, Attorney, at the above address. Telephone at 312-353-2082.

SUPPLEMENTARY INFORMATION: Kaiser Aluminum is engaged in the manufacture of aluminum rod bar and wire products in Heath, Ohio. The proposed Order addresses emissions from its two coal-fired boilers at this facility, which are subject to Ohio Regulation AP-3-11. The regulation limits the emissions of particulate matter, and is part of the federally-approved Ohio SIP. The Order requires final compliance with the regulation by March 31, 1979, and the source has consented to its terms. The source has also agreed to meet the Order's increments during the period of this informal rulemaking and has already satisfied particular increments contained in the Order.

The proposed Order satisfies the applicable requirements of Section 113(d) of the Clean Air Act (the Act). If the order is issued, source compliance with its terms would preclude further EPA enforcement action under section 113 of the Act against the source for violations of the regulation covered by the Order during the period the Order is in effect. Enforcement against the source under the citizen suit provisions of the Act (section 304) would be similarly precluded.

Comments received by the date specified above will be considered in determining whether EPA should issue the Order. Testimony given at any public hearing concerning the Order will also be considered. After the public comment period and any public hearing, the Administrator of EPA will publish in the FEDERAL REGISTER the Agency's final action on the Order in 40 CFR Part 65.

The provisions of 40 CFR Part 65 will be promulgated by EPA soon,[1] and will contain the procedure for EPA's issuance, approval, and disapproval of an Order under section 113(d) of the Act. In addition, Part 65 will contain sections summarizing Orders issued, approved, and disapproved by EPA. A prior notice proposing regulations for Part 65, published at 40 FR 14876 (April 2, 1975), will be withdrawn, and replaced by a notice promulgating these new regulations.

(42 U.S.C. 7413, 7601.)

Dated: October 3, 1978.

VALDAS V. ADAMKUS,
Deputy Regional Administrator,
Region V.

In consideration of the foregoing, it is proposed to amend 40 CFR Chapter 1, as follows:

PART 65—DELAYED COMPLIANCE ORDERS

1. By amending the table in § 65.400, Federal delayed compliance orders issued under Section 113(d)(1), (3), and (4) of the Act, to reflect approval of the following order:

[Order No. ——]

U.S. ENVIRONMENTAL PROTECTION AGENCY

[Order No. EPA-5-78-A]

In the Matter of Kaiser Aluminum & Chemical Corporation Heath, Ohio. Proceeding Under Section 113(d) of the Clean Air Act, as Amended.

ORDER

The following Order is issued this date pursuant to section 113(d) of the Clean Air Act, as amended, 42 U.S.C. section 7401 *et seq.* (hereinafter the Act). Public notice, opportunity for public hearing and thirty days notice to the State of Ohio have been provided pursuant to section 113(d)(1) of the Act. This Order contains a schedule of compliance, interim control requirements and reporting requirements. Final compliance is required as expeditiously as practicable, but no later than March 31, 1979.

On November 15, 1977, Dale S. Bryson, Acting Director, Enforcement Division, Region V, U.S. Environmental Protection Agency (hereinafter U.S. EPA), pursuant to authority duly delegated to him by the Administrator of the U.S. EPA, issued a Notice of Violation, pursuant to section 113(a)(1) of the Act, to the Kaiser Aluminum & Chemical Corp. in Heath, Ohio (hereinafter Kaiser Aluminum), upon finding that the two coal-fired boilers at its Heath, Ohio facility (hereinafter the Heath facility) were found to be in violation of the applicable Ohio Implementation Plan, as defined in section 110(d) of the Act. The Notice cited Kaiser Aluminum for violation of Ohio Regulation AP-3-11 (hereinafter AP-3-11) as demonstrated by emission factor calculations and material submitted to the U.S. EPA by Kaiser Aluminum pursuant to section 114 of the Act. A copy of this Notice was sent to the State of Ohio.

At Kaiser Aluminum's request, a conference was held on December 12, 1977 to discuss the Notice of Violation. Kaiser explained the State-approved method of calculating compliance on which it had relied. In order to resolve the issue as to Kaiser Aluminum's violations, it was agreed that Kaiser Aluminum would perform stack testing at its Heath facility. Such testing was in fact performed on March 28, 1978, and established the existence of violations of AP-3-11.

After a thorough investigation of all relevant facts, it is determined that Kaiser Aluminum is presently unable to comply with the Ohio Implementation Plan, that the schedule for compliance set forth in this order is as expeditious as practicable, and that the terms of this order comply with section 113(d) of the Act. Therefore, *it is hereby ordered*, That:

I. The Kaiser Aluminum & Chemical Corp. shall achieve compliance with AP-3-11 at its two coal-fired boilers in accordance with the following schedule:

A. Submit control plan to U.S. EPA—Completed.

B. Award contracts—September 1, 1978.

C. Initiate on-site construction—October 6, 1978.

D. Complete construction—February 2, 1979.

E. Perform final compliance testing—March 10, 1979.

F. Demonstrate compliance with AP-3-11—March 31, 1979.

II. Kaiser Aluminum shall achieve and demonstrate final compliance with AP-3-11 at its Heath, Ohio facility by March 31, 1979.

III. Pursuant to section 113(d)(7) of the Act, during the period in which this Order is in effect, Kaiser Aluminum shall utilize the best practicable interim system of emission reduction (taking into account the requirement with which the source must ultimately comply in section 1, above). This shall include operation of the boilers on a seasonal basis only and at minimum practical levels.

IV. Kaiser Aluminum shall submit reports to the U.S. EPA detailing progress made with respect to each requirement of this Order. Such reports shall be submitted within ten (10) days of the completion of such requirement. In addition, no later than March 31, 1979, Kaiser Aluminum shall certify to the U.S. EPA that its two coal-fired boilers are in final compliance with AP-3-11.

V. All submissions and notifications to the U.S. EPA pursuant to this Order shall be made to the Chief, Air Compliance Section, U.S. EPA, Region V, 230 South Dearborn Street, Chicago, Ill. 60604.

VI. Nothing in this Order shall be construed so as to affect Kaiser Aluminum's responsibility to comply with any other Federal, State or local regulations.

VII. Nothing in this Order shall be construed as a waiver by the Administrator of any rights or remedies under the Clean Air Act, including, but not limited to, section 303 of the Act, 42 U.S.C. section 7603.

VIII. Kaiser Aluminum is hereby notified that its failure to achieve final compliance by July 1, 1979, will result in a requirement to pay a noncompliance penalty under section 120. In the event of such failure, Kaiser Aluminum will be formally notified, pursuant to section 120(b)(3) and any regulations promulgated thereunder, of its noncompliance.

IX. This Order shall be effective upon FEDERAL REGISTER promulgation.

Date: ——————.

——————,
Administrator or Delegate.

The Kaiser Aluminum & Chemical Corp. has reviewed this Order and believes it to be a reasonable means by which its Heath, Ohio facility can achieve compliance with Ohio Regulation AP-3-11. Kaiser Aluminum stipulates as to the correctness of all facts stated above and consents to the requirements and terms of this Order. Kaiser Aluminum further agrees not to challenge the reasonableness of this Order.

Date: ——————.

——————,
Kaiser Aluminum & Chemical Corp.

STATE AND FEDERAL ADMINISTRATIVE ORDERS PERMITTING A DELAY IN COMPLIANCE WITH STATE IMPLEMENTATION PLAN REQUIREMENTS

Proposed Delayed Compliance Order for St. Joe Paper Co., Port St. Joe, Fla.

AGENCY: Environmental Protection Agency.

ACTION: Withdrawal of notice of proposed rulemaking.

SUMMARY: The purpose of this notice is to withdraw a prior FEDERAL REGISTER notice proposing a delayed compliance order for the No. 4 power boiler at the St. Joe Paper Co. located in Port St. Joe, Fla. This action is being taken because St. Joe Paper Co.'s No. 4 power boiler, the source covered by the order, is no longer in violation of the Florida State implementation plan provisions covered by the proposed order.

EFFECTIVE DATE: This withdrawal is effective October 23, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Wayne Aronson, Air Enforcement Branch, Enforcement Division, EPA, Region IV, 345 Courtland Street NE., Atlanta, Ga. 30308, telephone 404-881-4253.

SUPPLEMENTARY INFORMATION: On May 24, 1978, a FEDERAL REGISTER notice published at page 22221 FEDERAL REGISTER, volume 43, No. 101, solicited public comments and offered the opportunity to request a public hearing on a proposed delayed compliance order to be issued by the EPA to St. Joe Paper Co. located in Port St. Joe, Fla. The source, which was the subject of the delayed compliance order—St. Joe Paper Co.'s No. 4 power boiler—has subsequently achieved compliance with the Florida State implementation Plan regulations covered by the order. On July 10, 1978, a performance test was conducted at St. Joe Paper Co.'s No. 4 power boiler and the results indicate that the boiler is operating in compliance with Chapter 17-2.04(2), air pollution rules for the State of Florida, dealing with the control of particulate emissions from process sources.

In consideration of the foregoing the proposal published in the FEDERAL REGISTER (22221 FR vol. 43, No. 101) on May 24, 1978, entitled "Proposed Delayed Compliance Order for St. Joe Paper Co., Port St. Joe, Fla.," is hereby withdrawn.

Dated: October 12, 1978.

JOHN A. LITTLE,
Acting Regional Administrator, Region IV.

AUTHORIZING THE USE OF AERONAUTICAL ADVISORY FREQUENCIES BY AERONAUTICAL UTILITY MOBILE STATIONS LOCATED AT CERTAIN LANDING AREAS WHICH DO NOT HAVE A CONTROL TOWER OR FAA FLIGHT SERVICE STATION

Withdrawal of Notice of Proposed Rulemaking

AGENCY: Federal Communications Commission.

ACTION: Withdrawal of notice of proposed rulemaking.

SUMMARY: This document withdraws the notice of proposed rulemaking appearing in the FEDERAL REGISTER, October 11, 1978, at 43 FR 46871, concerning authorizing the use of aeronautical advisory frequencies by aeronautical utility mobile stations located at certain landing areas which do not have a control tower or FAA flight service station.

DATES: Comments must be received on or before November 15, 1978, and reply comments must be received on or before November 27, 1978.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Robert H. McNamara, Safety and Special Radio Services Bureau, 202-632-7197.

SUPPLEMENTARY INFORMATION:

Released: October 16, 1978.

In the matter of amendment of Parts 2 and 87 of the rules to authorize the use of aeronautical advisory frequencies by aeronautical utility mobile stations located at certain landing areas which do not have a control tower or FAA flight service station, Gen. Docket No. 78-323.

In the above captioned matter, FCC 78-699, released October 12, 1978, in the FEDERAL REGISTER at 43 FR 46871, the Notice of Proposed Rulemaking is incorrect, withdrawn, and will be published at a later date.

FEDERAL COMMUNICATIONS COMMISSION,
WILLIAM J. TRICARICO,
Secretary.

[BC Docket No. 78-308; RM-2869; FCC 78-679]

PERMITTING TRANSMISSION OF PROGRAM-RELATED SIGNALS IN VERTICAL BLANKING INTERVAL OF THE STANDARD TELEVISION SIGNAL

Proposed Rulemaking and Memorandum Opinion and Order

AGENCY: Federal Communications Commission.

ACTION: Notice of proposed rulemaking and memorandum opinion and order.

SUMMARY: Proposed amendment would allow the transmission of a digital source identification signal on line 20 of the television vertical blanking interval. Action initiated by a petition from the National Broadcasting Co. in order to improve accuracy and availability of program ratings and automate some recordkeeping and switching functions.

DATES: Comments must be received on or before January 29, 1979, and reply comments must be received on or before February 28, 1979.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Gordon W. Godfrey, Broadcast Bureau, 202-632-9660.

SUPPLEMENTARY INFORMATION:

Adopted: September 22, 1978.

Released: October 20, 1978.

By the Commission: Commissioners Lee and Fogarty and absent.

In the matter of amendment of § 73.682 of the Commission's rules to permit the transmission of program related signals in the vertical blanking interval of the standard television signal, BC Docket No. 78-308, RM-2869.

1. The Commission has received a petition for rulemaking to amend § 73.682 of the Commission's rules and regulations to permit the transmission of program related signals during the vertical blanking interval ("VBI") of the standard television signal. The petition (RM-2869) was filed by the National Broadcasting Co., Inc. ("NBC") on March 30, 1977. Statements supporting the petition were received from the Public Broadcasting Service ("PBS"), American Broadcasting Co., Inc. ("ABC"), Columbia Broadcasting System, Inc. ("CBS"), the Joint Committee on Intersociety Coordination Ad Hoc Committee on Television Broadcast Ancillary Signals ("JCIC Ad Hoc Committee"), and from Mr. Daniel L. Rapak, a television station broadcast engineer. On November 11, 1977, the Board of Delegates of the National Broadcasting Co., Inc., television network affiliates ("Board"), submitted comments on the petition for rulemaking and a motion for leave to accept late filed comments.[1] The Board states that its members only recently became aware of the proposed rulemaking, and subsequently their investigation of the proposal and possible alternatives resulted in late filed comments. Although the comments were filed well after the close of the comment period, they provide additional information on areas which require consideration in this proceeding and will be accepted. An additional statement in opposition was received on December 5, 1977, from the Association for Maximum Service Telecaster ("AMST"). On March 15, 1978, the ABC Television Affiliates Association filed reply comments supporting the petition. These will similarly be accepted in this proceeding despite the late dates of their filing.

2. NBC proposes that § 73.682(a)(21) be amended to allow the transmission of a digital source identification ("SID") signal on line 20 of the VBI. Specifically, NBC requests that this section be amended by adding the underlined material as follows:

> The interval beginning with line 17 and continuing through line 20 of the vertical blanking interval of each field may be used for the transmission of test signals and cue and control signals, subject to the conditions and restrictions set forth below. Test signals may include signals used to supply reference modulation levels so that variations in light intensity of the scene viewed by the camera will be faithfully transmitted, and signals designed to check the performance of the overall transmission system or its individual components. Cue and control signals shall be related to the operation of the television broadcast station *and may include signals to identify the broadcast material or its source.* Figures 6 and 7 of § 73.699 identify the numbered lines referred to in this subparagraph.

Although this section currently allows test signals and cue and control signals to be transmitted on lines 17 thorugh 20 of the VBI, three of these four lines are reserved for specific signals; § 73.682(a)(21)(iv) reserves the use of line 19, in each field, for the transmis-

[1] Pursuant to § 1.405 of the Commission's rules and regulations, the period for filing statements in support of or in opposition to a petition for rulemaking is 30 days from the date of the Commission's "Public Notice" of the filing of the petition. Public Notice was given Apr. 12, 1977, (Rept. No. 1038).

sion of the vertical interval reference signal described in figure 16 of § 73.699 of the rules. In addition, § 73.676(f) re-

Currently, test, cue and control signals are permitted in the VBI, pursuant to § 73.682(a)(21)(ii), on condition that

information systems such as "Teletext".[2] The Board indicates that a teletext type system in this country would

use of line 20 by the SID signal to preclude the ultimate use of line 20 by a general purpose data system. We would instead expect the transmission

VBI program identification signal is also being considered. However, no information has been submitted regard-

consideration of the instant proposal in a rulemaking proceeding. In view of the field test reports filed by the net-

V 43/205 OCT 23 78

sion of the vertical interval reference signal described in figure 16 of § 73.699 of the rules. In addition, § 73.676(f) requires that television broadcast stations authorized to operate by remote control shall utilize specified test signals inserted in the VBI on lines 17 and 18 of both fields. Line 20 of he VBI is not currently reserved for any specific use and is thus available for the transmission of any other test or cue and control signal that is in compliance with § 73.682(a)(21).

3. NBC proposes to use the SID signal to identify the originating network, the city of origination and the date and time of origination. NBC projects potential use of the proposed signal for verification of network service transmitted; faster and more accurate program ratings; automatic logging; and automatic operation of cable television nonduplication switching equipment. In their comments, ABC and Mr. Rapak stated that an SID signal such as that proposed by NBC could also be used to give network affiliates much more reliable time references, allowing a more synchronized switching to the network feed.

4. It is the inclusion of the proposed SID signal in the over-the-air television transmissions which would necessitate a change in the Commission's rules. If the SID signal is deleted from the television signal before it is broadcast, no changes in the rules are required. NBC states that radiation of the signal is necessary to allow monitoring of the total television system, from the picture source to the transmitter output, and to allow use of the signal at affiliate stations which receive the network programing off-the-air from other affiliates. In Addition, NBC submits that its radiation will offer any interested party equal access to the SID signal.

5. In February of 1973, the networks (ABC, CBS, NBC and PBS), in a joint letter to the Commission, sought informal authority to implement an off-the-air monitoring system using a vertical interval digital signal. The Commission, by letter dated April 4, 1973, rejected this approach and indicated that such authorization could be obtained only through a rulemaking. Since then, pursuant to special temporary authorization ("STA") first issued by the Commission to each network in November of 1974, development and testing have been conducted by NBC, ABC, and CBS. The results of these field tests, as analyzed by the networks and reported to the Commission, show that recovery of the SID signal is accurate and extremely reliable, even when radiated, after traversing long network circuits.

6. NBC does not propose that technical restrictions or a required format for the SID signal should be adopted. Currently, test, cue and control signals are permitted in the VBI, pursuant to § 73.682(a)(21)(ii), on condition that their use shall not result in significant degradation of the program transmissions of the television broadcast station, nor produce emission outside of the frequency band occupied for normal program transmissions. Filings in this proceeding indicate that there is virtually no potential for program degradation by the proposed SID transmissions, and the testing done pursuant to the STA's seems to confirm this. Therefore, we would anticipate no problems in allowing the SID signals to be transmitted on the same noninterfering basis as currently applies for other test signals and cue and control signals. However, if it were to become evident that the transmission of the SID signal caused interference to other signals in the VBI, or that it required an unreasonable amount of spectrum space in the VBI, we would consider, at that point, such technical restrictions as appeared necessary.

7. NBC claims that development of technology to further utilize the VBI spectrum space would not be inhibited by the action it has requested since it does not propose that line 20 be reserved for the SID signal. In addition, NBC states that the transmission of the SID signal in the odd fields of only two frames per second is sufficient to permit full recovery of the required data. Approximately 30 frames per second are transmitted, and each frame is comprised of two fields, thus, by time sharing, NBC states that almost all of the active line 20 time would remian available for other test, cue and control signals, or for other signals which may be developed in the future. Statements filed in support of this petition concur with the contention that this would be an efficient use of the scarce VBI spectrum space available.

8. The NBC petition limits its discussion to the use of SID signals with network distributed material. However, no such restriction is included in the rule amendment requested by NBC and we do not believe such a limitation is necessary. An SID signal could also be included on video tape programing that is syndicated or individual stations could transmit it for the identification of local programs.

9. In its comments, the Board indicates reservations with regard to the SID proposal. It expresses the belief that line 20 would be effectively dedicated to SID use, precluding possible alternative uses of this scarce spectrum. The Board states that since line 20 is the last VBI spectrum space remaining available for use by each local television station, an SID system would prevent future use of the VBI for other services, specifically public information systems such as "Teletext".[2] The Board indicates that a teletext type system in this country would permit each television station to transmit a great variety of local news and information which might not otherwise be broadcast. In conclusion, the Board requests that the NBC petition for rulemaking be denied, and in lieu of a rulemaking proceeding, a notice of inquiry be instituted to explore all alternative uses of the vertical blanking interval.

10. AMST concurs in many of the Board's arguments, and stresses that the VBI signals transmitted must remain under the exclusive control of the individual broadcasters. AMST further points out that the SID proposal would be used by the "broadcasting industry" and would not provide a signal for reception or use by the public. AMST questions the usefulness of the proposed signal indicating that the primary purpose of the SID system does not require the over-the-air transmission of the signal and that there is no desire for several of the other potential uses listed by NBC.

11. While a teletext type system in this country could prove beneficial, there has been no indication that institution of such service would be proposed in the near future. However, we are aware that testing and development of teletext systems is being carried on at this time.

Earlier this year, the Commission granted special temporary authority to Boneville International Corp., licensee of television station KSL-TV, channel 5, Salt Lake City, Utah, to transmit a teletext signal for test purposes on lines 15 ad 16 of the VBI. However, no proposal to allow regular transmission of such signals has been submitted, and none is expected until further testing and development is completed. Furthermore, it may be technically possible to combine closed captioning and teletext operations through reallocation or expanded use of the lines in the VBI. For example, in response to a petition (RM-2859) filed by AVC, we are presently examining a proposal which could reduce the number of lines in the VBI which are used for vertical interval test signals during remote control of television transmitters. In any case, there is sufficient spectrum space in the vertical blanking interval to accomodate the current demands upon it. If it is desirable in the future to consider use of line 20 for teletext or other general purpose data transmission systems, we will not allow the currently proposed use of line 20 by the SID signal to preclude the ultimate use of line 20 by a general purpose data system. We would instead expect the transmission of the information contained in the SID signal to be integrated with the general purpose system, possibly including some form of time sharing. Otherwise, relocation of the SID signal may be necessary, if possible. In addition, the action proposed by NBC would neither reserve line 20 for SID nor require individual stations to broadcast the SID signal supplied by the networks. The individual licensee would retain responsibility for the signal it broadcasts and would have the options of deleting the SID signal or substituting its own test or cue and control signals. We believe that information regarding alternative uses of the vertical blanking interval in addition to information on the usefulness and necessity of the proposed SID transmissions can be adequately considered in a rulemaking context and that a comprehensive VBI notice of inquiry is not necessary at this time. For these reasons, the Board's request for dismissal of the NBC petition and for institution of a notice of inquiry will be denied, but its filing, along with that of AMST, will be treated as comments in this proceeding.

12. PBS, in its statement in this proceeding, raised the question of whether the proposed SID signal is program related or broadcast related. PBS contends that the SID signal is broadcast related, and thus should not be considered an obstacle should line 20 be needed in the future for a program related signal. Petitioner, and some other respondents to the petition, view the SID signal as program related since it would be unique for each program transmitted, and when used in conjunction with a program schedule or log, it will provide information as to the particular programs broadcast by a station. "Broadcast related" implies that a signal's primary use is as an aid in the operation of a television or radio station. "Program related" indicates a direct correlation of the signal with the material that is being broadcast at the same time. While some signals fall neatly into one of the two categories (e.g., the vertical interval test signals are broadcast related and the closed captioning signal is program related) the proposed SID signal includes aspects of each. It is the program related uses of the SID signal which differentiate if from the test, cue and control signals currently allowed by the rules. For the purposes of this proceeding, we will therefore consider the SID signal to be program related.

13. Examination of the wording which NBC offers for the rule amendment suggests that a comprehensive VBI program identification signal is also being considered. However, no information has been submitted regarding this type of system even though some of the uses of a comprehensive program identification system (e.g, automatic logging and faster, more accurate ratings) can apparently be derived from the proposed SID signal. We are proposing to amend the rules as requested by NBC. However, comments concerning the application and utility of the SID signal for program identification purposes are requested.

14. This is not the first proposal for transmission of program related signals that has been before the Commission and a finding that such transmissions are in the public interest has previously been made. For a period of several years in the early 1970s, a program identification system utilizing encoded signals inserted in the extreme four corners of the active television picture was sanctioned by the Commission's rules.[3] Additionally, a "submerged signalling" technique of program identification using insertion of coded information into the audio signal is presently being considered in Docket 18877. In the Commission's considerations of these systems it was necessary to determine that the use of broadcast frequencies for such a purpose was in the public interest. The Commission has "found that the transmission on broadcast frequencies of signals intended to be used in the rendition of a nonbroadcast automatic program identification service to be in the public interest."[4] In view of the limited program identification functions of the proposed SID signal, we consider that public interest finding to be valid with respect to the instant proposal.

15. As an alternative to rulemaking, NBC suggests that its proposal could be implemented by an order, since the action requested could be considered interpretive in nature. We do not believe that the issuance of an order is appropriate. Because the proposal involves a new utilization of the very limited VBI spectrum space which remains available, we believe that a rulemaking is in order. This proceeding will provide an opportunity for comments on the potential benefits and uses of the SID signal; the impact of the proposal on present and future use of the VBI spectrum; and on the possible existence of other technologies which might produce the same benefits more effectively or more reliably.

16. In sum, the requisite public interest finding has been made to warrant consideration of the instant proposal in a rulemaking proceeding. In view of the field test reports filed by the networks and the statements filed in support of this petition, we are convinced that the techniques involved in providing this service are technically viable. Further, we are persuaded that such a system is potentially beneficial to the general public, as well as to the networks and broadcasters.

17. Accordingly, pursuant to authority found in sections 1, 4 (i) and (o) and 303 (g) and (r) of the Communications Act of 1934, as amended, it is proposed to amend § 73.682(a)(21) as set forth below.

18. Comments are requested addressing all of the above mentioned areas as well as any other considerations respondents consider important.[5] The Commission notes also that there appears to be some confusion among cable systems regarding their obligations under § 76.55(b)[6] in handling signals transmitted in the VBI. The Commission contemplates affording cable systems the same options as television broadcast stations in handling SID signals. Specific comments addressing this matter are requested. Pursuant to applicable procedures set forth in § 1.415 of the Commission's rules, interested parties may file comments on or before January 29, 1979, and reply comments on or before February 28, 1979.

19. In accordance with the provisions of § 1.419 of the Commission's rules and regulations, an original and five copies of all comments, replies, or other documents filed in this proceeding shall be furnished to the Commission. Participants filing the required copies who also desire that each Commissioner receive a personal copy of the comments may file an additional six copies. Responses will be made available for public inspection during regular business hours in the Commission's Docket Reference Room (Room 239) at its headquarters in Washington, D.C. (1919 M Street, NW.).

20. *It is ordered*, That the request contained in the Board's comments for institution of a Notice of Inquiry and for dismissal of the NBC petition, is denied as discussed in paragraph 11, above.

FEDERAL COMMUNICATIONS COMMISSION,
WILLIAM J. TRICARICO,
Secretary.

It is proposed to amend § 73.682 (a)(21) of the Commission's rules and

DEPARTMENT OF TRANSPORTATION

Materials Transportation Bureau

[49 CFR Part 192]

[Docket No. PS-54; Notice No. 1]

TRANSPORTATION OF NATURAL AND OTHER GAS BY PIPELINE

Joining of Plastic Pipe

AGENCY: Materials Transportation Bureau, DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Materials Transportation Bureau (MTB) proposes to amend its regulations, relating to qualifying procedures and personnel to make all types of joints used with plastic pipe, including heat fusion, solvent cement, adhesive, or mechanical joints. Accident reports filed with the MTB in recent years indicate that many pipeline operators have not established effective procedures for properly joining plastic pipe, have not trained construction personnel, or performed effective inspection of construction to insure that plastic pipe is properly installed and joined. The regulations are intended to reduce the potential for accidents as a result of poor workmanship in making joints.

DATE: Interested persons are invited to submit written comments on this proposal before December 15, 1978. Late filed comments will be considered to the extent practicable.

ADDRESS: Communications should refer to the docket and notice, and should be sent to: Docket Branch, Materials Transportation Bureau, Department of Transportation, Trans Point Building, 2100 Second Street SW., Washington, D.C. 20590.

FOR FURTHER INFORMATION CONTACT:

Paul J. Cory, 202-426-2392.

SUPPLEMENTARY INFORMATION: Individual accident reports, Form DOT F 7100.1 (Leak Report—Distribution System), submitted to the Materials Transportation Bureau (MTB) by gas pipeline operators over the past several years, as well as the National Transportation Safety Board (NTSB) reports of accidents that occured at Fort Worth, Tex., October 4, 1971, and Fremont, Nebr., January 10, 1976, have indicated that many pipeline operators have not established effective procedures for properly joining plastic pipe, have not trained construction personnel, or performed effective inspection of construction to insure that plastic pipe is properly installed and joined.

In an NTSB report NTSB-Par-72-5 titled "Pipeline Accident Report, Lone Star Gas Co., Fort Worth, Tex., October 4, 1971," NTSB found that improper joint fusion due either to overheating or joint disturbance before setting was partially to blame for the failure. The Fort Worth failure occurred in a plastic service line where the service line was connected by heat fusion to a service saddle that had previously been fused to the gas main. The conclusions to this report stressed, in part, the following:

(1) The plastic gas distribution system which suffered failures in this area was installed improperly and was not inspected during construction.

(2) The plastic service connection was weakened additionally by improper fusion and by an incorrect reinforcing sleeve. The connection failed under the stress applied to it by the rainsoaked, heaving soil.

The investigation of this accident revealed that in the area near the failed joint responsible for the explosion and fire, there were four other leaks that resulted from similar failures on other service connections in the joint between the plastic service saddle and the plastic pipe.

In NTSB Report No. NTSB-Par-76-6, titled "Pipeline Accident Report, Nebraska Natural Gas Co., Pathfinder Hotel Explosion and Fire, Fremont, Nebr., January 10, 1976," NTSB indicated that the plastic pipe installation was made with an insufficient allowance for the expansion and contraction of plastic material due to temperature changes, and that a compression coupling was improperly installed.

The Fremont failure resulted from the forces of thermal contraction in a 348-foot length of 2-inch plastic pipe that had been inserted through a leaking 4-inch steel gas main during warm weather without proper allowance being made for the contraction that takes place in cold weather.

Conclusions to this report stressed, in part, the following:

(1) The pipeline was not designed and installed so that the tie-in compression coupling would sustain the longitudinal pull or the thrust forces which were caused by the pipe's contraction within its 4-inch steel casing.

(2) The pipe was not installed in accordance with several important manufacturer's recommendations and the quality of workmanship at the tie-ins was marginal.

NTSB has made the following specific recommendations as a result of these two incidents:

BSTS-P-72-63: Undertake a study in the field of heat fusion of plastics and, as a result of that study, issue regulations for the heat-fusion welding of plastic piping systems in 49 CFR Part 192, Fusion Welding, in as much detail as is contained in the existing welding specifications for steel piping systems.

BSTS-P-76-43: Study the plastic-to-steel transition problems and take appropriate regulatory action to correct any unsafe practices.

An MTB sponsored contract study, DOT/OPS-75/07, "Pipeline Industry's Practices Using Plastic Pipe in Gas Pipeline Facilities and the Resulting Safety Factors," conducted by Toups Corp., of Santa Ana, Calif., repeatedly stresses that poor workmanship in making joints is one of the major causes of plastic pipeline failures. Toups review of MTB accident records and the response to a questionnaire sent be Toups to pipeline operators support this position. This study further indicates that four basic factors contribute to the problem of poor workmanship in joining plastic pipe: Absence of effective procedures, not following procedures even in those cases when procedures were in existence, inadequate training of construction crews regarding joining procedures, and inadequate field inspection of joints. The amendment proposed by the notice addresses each of these factors.

Effective procedures. Procedures and tools for joining plastic pipe have continually been improved since plastic pipe was first used over 40 years ago. Currently available procedures and tools will produce satisfactory plastic pipe joints by utilizing the various types of joining techniques developed

by the plastic pipe manufacturers and fitting manufacturers if the procedures are appropriately applied and carefully followed. To produce consistently sound joints, procedures must cover details such as, joint preparation, alinement, equipment condition, time limits, temperature, and force applied. Because of the importance of covering such details, it is imperative that a proper testing method be used to qualify each joining procedure to be used in producing plastic pipe joints.

The current standards in Part 192 relating to the effectiveness of joining procedures are written in performance terms in § 192.273 (a) and (b) and § 192.281(a). Under § 192.281(a), each plastic pipe joint must be made in accordance with written procedures that have been proven by destructive burst test to produce joints at least as strong as the pipe being joined. Sections 192.273 (a) and (b) require that joints must sustain longitudinal pull out and thrust forces and be gas tight. Part 192 does not describe, however, either the characteristics of the test to be used or how test results are to be evaluated in determining whether a joining procedure is effective in meeting the performance objectives. Thus, the current standards leave to the operator's judgment the testing and proof needed to qualify procedures to produce joints as strong as the pipe or sustain pull out or thrust forces. As a consequence, the use of different test methods can produce different test results. Because of this variation, MTB believes that a standard test method and standard for evaluating test results are needed in Part 192 to qualify procedures for each type of plastic pipe joint.

In this regard, MTB believes that Part 192 should be amended to require that joining procedures be qualified for use by both burst tests and tensile pull tests. The present performance requirement regarding a burst test in § 192.281(a) would be revised to require burst testing in a manner similar to that provided by ASTM D1599-74, "Standard Method of Test for Short-Time Rupture Strength of Plastic Pipe, Tubing, and Fittings." This testing consists of applying a steadily increasing internal hydraulic pressure to the piping being tested at a controlled rate of pressure increase such that failure occurs between 60 and 70 seconds from beginning the application of the pressure. The ASTM test method includes such details as temperature control and conditioning, pressure control, timing devices, pipe specimen dimensions, and preparations.

Consistent with the existing performance language in § 192.281(a), MTB also proposes that the following criteria be used to evaluate the test results: If rupture occurs in the pipe and not in the joint, the joint is qualified; if the failure involves the joint in any way, the joint is unacceptable.

At present, the ASTM D1599 is used by industry to establish quality control during manufacture of pipe or for procurement specifications. However, if this ASTM test is adopted as a standard burst test under Part 192, it would be used to determine whether joining procedures will produce joints that resist hoop stress as well as the pipe being joined. Because both the purpose and criteria for evaluating the results of the ASTM burst test would be different under Part 192 than in current usage, the test is modified in the proposal by eliminating the determination of the stress at which failure occurs.

The accident at Fremont, Nebr., resulted in part from improper installation of a compression coupling. This failure focused MTB's attention on the fact that a standard test was not available to determine the capability of a joining procedure to produce a plastic pipe joint that would satisfactorily resist a longitudinal stress as required by § 192.273(a).

Subsequently, the Plastic Pipe Institute (PPI), a research group sponsored by plastic pipe manufacturers, and the ASTM F-17.60 Gas Piping Systems Subcommittee, who are responsible for development of standards for the use of plastic pipe in gas piping systems, combined to develop a test method for use in demonstrating the capability of any type of joint used in plastic natural gas piping to resist longitudinal forces due to thermal contraction and expansion.

Approval was given by ASTM on September 21, 1978, to add the proposed test method on an interim basis to ASTM D2513-75b "Standard Specification for Thermoplastic Gas Pressure Pipe, Tubing, and Fittings." The following is excerpted from this revision;

EM8.14 Categorization of Mechanical Joints

This method of test provides a uniform procedure by which the gas engineer can qualify or categorize short-term pullout resistance of mechanical joints. The apparatus, conditioning, and report shall be as specified in Method D-638-77a (see ASTM Handbook 35). The speed of the testing shall be 5 (mm ±0.20 inch) per minute + 25 percent (speed B). Five specimens shall be prepared following the manufacturer's fabrication procedures. Length of the specimen shall be such that the distance between the grip of the apparatus and the end of the stiffener is at least five times the nominal o.d. of the pipe size being tested.

Start the machine. Pull until pipe or tubing yields to an elongation of 25 percent or is pulled from fitting. Length of yield is to be ascertained over a 50 mm (2 inch) span. Specimens that fail at the grips should be retested using new pipe or tubing. If pipe or tubing pulls from fitting, the lowest of the five values shall be used in design calculations for stress * * *.

Results obtained from the above method pertain only to the specific outside diameter, wall thickness and resin of the pipe or tubing used in the test.

The Method ASTM D683-77a, "Standard Test Method for Tensile Properties of Plastics," referenced in section EM8.14, provides for determination of the tensile properties of plastics in the form of standard test specimens when tested under defined conditions of pretreatment, temperature, humidity, and testing machine speed. The apparatus referred to in EM8.14 includes the testing machine and tools needed to perform the testing operation. The conditioning referred to is the procedure for control of the termperature and humidity at which testing is to be done.

The ASTM test procedure is being issued in ASTM D2513 as a pull test for use with mechanical fittings. MTB is proposing that this method be used to qualify joining procedures for all types of joints in plastic pipelines transporting gas within the scope of Part 192.

Training and Qualification of Personnel

At present, Part 192 has no requirements for qualifying personnel to make plastic pipe joints. As mentioned previously, leak reports filed with MTB and NTSB accident investigations have pointed out the need for improving the reliability of plastic pipe joining personnel. One of the major points stressed by the study done for MTB on the use of plastic pipe in gas systems was that even when procedures were properly established, they were often not followed by those doing the work. Thus, not only is there a need for qualifying proposed procedures, but there is also a need for qualifying the persons who are actually carrying out those procedures. As a result, MTB is also proposing that Part 192 be amended to require that persons who join plastic pipe be trained and qualified under the same testing procedure used to qualify the joining procedure.

Inspection

There are basic differences in the four types of joints and joining procedures used on plastic pipe (i.e., adhesive, fusion, solvent cement, and mechanical joints). Thus, persons making inspections of joints as required by § 192.273(c) need to have a thorough knowledge of each type of joint to be inspected including the procedure by which a joint is made. To make their qualification mandatory, MTB is proposing that a new standard be adopted to require that persons who perform

joint inspections be qualified by training or experience in making the type of joint being inspected. MTB has de-

joint inspections be qualified by training or experience in making the type of joint being inspected. MTB has determined that this document does not contain a major proposal requiring preparation of a regulatory analysis under DOT procedures.

It is proposed that Part 192 of Title 49 of the CFR be amended as follows:

§ 192.281 [Amended]

1. By deleting the first sentence in § 192.281(a).

2. By adding a new § 192.283 to read as follows:

§ 192.283 Qualifying plastic pipe procedures and personnel.

(a) Written procedure required by § 192.273(b) for making plastic pipe joints must be qualified by testing in accordance with paragraph (c) of this section.

(b) An operator may only use a person to make plastic pipe joints who has demonstrated his capability to make sound joints by—

(1) Appropriate training or experience in the joining procedure to be followed;

(2) Making within the preceding 12 months, five consecutively made test joints that have been tested and found acceptable in accordance with each test method required in paragraph (c) of this section for the joining procedure to be followed; and

(3) Having in his possession a certificate signed by an operator stating that the requirement of this paragraph for testing and training or experience has been met.

(c) Testing required by paragraphs (a) and (b) of this section must be performed as follows by a person who is familiar with the testing method and apparatus:

(1) Burst tests must be conducted in accordance with ASTM D1599 except that the burst stress need not be calculated. If as a result of these burst tests, failure occurs only outside of the joint area, the joint tested is acceptable.

(2) Tensile testing of all types of joints must be conducted in accordance with paragraph EM8.14 of ASTM D2513-75b, as amended September 21, 1978, except that a report is not required.

(d) The inspection required by § 192.273(c) for joints made on plastic pipelines must be performed by persons qualified by appropriate training or experience in following the procedure for the type of joint being inspected.

3. In Section II of Appendix A, by redesignating items (19) and (20) as items (20) and (21), respectively, and adding a new item (19) as follows:

APPENDIX A—INCORPORATED BY REFERENCE

* * * * *

(19) ASTM Specification D1599 "Standard Method of Test for Short-Time Rupture Strength of Plastic Pipe, Tubing, and Fittings: (D1599-74)."

National Highway Traffic Safety Administration

[49 CFR Part 531]

[Docket No. LVM 77-03; Notice 4]

PASSENGER AUTOMOBILE AVERAGE FUEL ECONOMY STANDARDS

Proposed Decision to Grant Exemption

AGENCY: National Highway Traffic Safety Administration, Department of Transportation.

ACTION: Proposed decision to grant exemption from average fuel economy standards and to establish alternative standards.

SUMMARY: This notice is being issued in response to a petition by Checker Motors Corp. (Checker) requesting that it be exempted from the generally applicable average fuel economy standards of 19 miles per gallon (mpg) and 20 mpg for 1979 and 1980 model year passenger automobiles, respectively, and that lower alternative standards be established for it. This notice proposes that the requested exemptions be granted and that alternative standards of 17.6 mpg and 18.6 mpg be established for Checker for those model years.

DATE: Comment closing date: November 22, 1978.

ADDRESS: Comments on this notice must refer to Docket LVM 77-03 and should be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5108, 400 Seventh Street SW., Washington, D.C. 20590.

FOR FURTHER INFORMATION CONTACT:

Douglas Pritchard, Office of Automotive Fuel Economy Standards, National Highway Traffic Safety Administration, Washington, D.C. 20590 (202-755-9384).

SUPPLEMENTARY INFORMATION: Section 502(c) of the Motor Vehicle Information and Cost-Savings Act, as amended (the Act), provides that a low volume manufacturer of passenger automobiles may be exempted from the generally applicable average fuel economy standards for passenger automobiles if those standards are more stringent than the maximum feasible average fuel economy for that manufacturer and if the National Highway Traffic Safety Administration (NHTSA) establishes an alternative standard for the manufacturer at its maximum feasible level. Under the Act, a low volume manufacturer is one which manufactures less than 10,000 passenger automobiles worldwide in the model year for which the exemption is sought (the affected model year) and which manufactured less than 10,000 passenger automobiles worldwide in the second model year before the affected model year. In determining maximum feasible average fuel economy, the agency is required by section 502(e) of the Act to consider:

(1) Technological feasibility;
(2) Economic practicability;
(3) The effect of other Federal motor vehicle standards on fuel economy; and
(4) The need of the Nation to conserve energy.

To implement section 502(c), NHTSA issued Part 525, Exemptions from Average Fuel Economy Standards (42 FR 38374: July 28, 1977). Part 525 prescribes the contents of exemption petitions and sets forth the procedures for processing those petitions. After receipt of a complete petition, the agency publishes a notice of receipt which summarizes the petition and invites comments on it. Subsequently, the agency publishes a proposed decision to grant or deny the petition and provides a further opportunity for comment. Finally, the agency publishes a final decision to grant or deny the petition.

Checker originally filed an incomplete petition in September 1977 for exemption from the generally applicable standards for the 1979 and 1980 model year passenger automobiles. After obtaining further information on these automobiles from Checker, NHTSA issued a notice announcing receipt of a complete petition for exemption from the model year 1978-1980 standards generally applicable to passenger automobiles (42 FR 64169); December 22, 1977). That notice summarized the Checker petition and invited public comment on it.

Only one comment on the notice of receipt was submitted. The commenter urged that Checker be exempted "in the name of commonsense."

The NHTSA then issued a proposed decision to grant Checker an exemption from the generally applicable passenger automobile average fuel economy standard for the 1978 model year, and to establish an alternative standard of 17.6 mpg for 1978 model year Checker automobiles (43 FR 24871; June 8, 1978). No comments were received on this notice. A final decision exempting Checker from the generally applicable average fuel economy standard for the 1978 model year and establishing an alternative standard of 17.6 mpg for Checker 1978 model year automobiles was published at 43 FR 34785; August 7, 1978.

Requested alternative standards. In its petition, Checker requested that its alternative standard for the 1979 model year be set at 16.7 mpg and that its standard for the 1980 model year be set at 16.5 mpg. These requests were premised on the assumption by Checker that its four base levels of automobiles would achieve the same level of fuel economy in the 1978-1980 model years as they had in the 1977 model year. A base level is a classification of automobiles produced by the same manufacturer with the same inertia weight and which are equipped with the same engine and transmission type (e.g., manual, automatic, or semi-automatic). This description of a base level is a simplification of the Environmental Protection Agency's (EPA) definition of the term, which can be found at 40 CFR 600.002-77(a)(23). Checker projects that its automobiles during the affected model years will not differ technically from its 1978 model year automobiles.

Baseline fuel economy. Since the submission of Checker's petition for exemption for the 1979 and 1980 model years, EPA has reported Checker's average fuel economy for the 1978 model year as 17.6 mpg, assuming Checker sells the mix it projected, rather than the 16.8 mpg level projected by Checker for the 1978 model year. This agency will use the 1978 fuel economy level instead of Checker's projected 1978 fuel economy level as Checker's baseline fuel economy. Since Checker stated that its 1979-1980 model year base levels would have the same fuel economy as its 1978 model year base levels, the agency believes that the minimum levels which could be established as Checker's maximum feasible average fuel economy would be 17.6 mpg for model year 1979 and 17.5 mpg for model year 1980.

Technological feasibility and economic practicability. In considering whether Checker could improve its average fuel economy for the 1979 and 1980 model years, NHTSA examined the same methods for improving average fuel economy that it examined in establishing average fuel economy standards for 1981-1984 passenger automobiles (42 FR 33534; June 30, 1977) and for model year 1980-1981 light trucks (43 FR 11995; March 23, 1978). These methods were weight reduction, aerodynamic improvements, engine efficiency improvements, engine accessory efficiency improvements, alternative engines, turbochargers, automatic transmission improvements, improved lubricants, reduced rolling resistance, engine displacement or drive ratio reductions, and mix shifts. The tenative results of this analysis are indicated below for each model year.

Weight reduction. For purposes of this proposed decision, weight reduction refers to two options—downsizing and materials substitution. "Downsizing" means the reduction of vehicle weight and exterior dimensions by optimizing the vehicle design. The goal of downsizing is to reduce the exterior dimensions of the automobile without reducing significantly the interior passenger and luggage volume of the automobile.

According to Checker, its automobiles are designed to serve as taxicabs, which requires those automobiles to have a large passenger carrying area. Thus, the automobiles feature, in Checker's words, "a flat floor in the rear compartment, chair-height seats, larger interior volume with ample headroom, and large door openings for ease of entry and exit." The Checker automobiles have either six, eight, or nine designated seating positions.

In addition to a large passenger and cargo carrying capacity, Checker asserts that its automobiles are also designed for maximum durability and ease of maintenance. As examples of its efforts to insure low maintenance costs, Checker cites its use of bolt-on front and rear fenders, interchangeable aluminum bumpers on the front and rear, and the same vehicle design since 1956. This constancy of design is said to permit taxicab fleet owners to use parts from scrapped vehicles as replacement parts for newer Checkers.

Downsizing of the Checkers while retaining these design features would be extremely difficult in the time frame of the 1979 and 1980 model years. Given the difficulty of the task and the limited assets available to Checker for the task, NHTSA tentatively concludes that weight reduction by downsizing is not economically practicable for Checker for the affected model years.

"Material substitution", the other weight reduction option indicated above, refers to the substitution of materials with lighter weight for a given strength, such as aluminum, plastics, and high-strength steel, for currently used materials. For the 1978 model year, the Checker base levels with 6-cylinder engines were tested in the 4,000-pound inertia weight class and the base levels with 8-cylinder engines were tested in the 4,500-pound inertia weight class. The loaded vehicle weights for the 1978 Checker models were as follows:

Model	Loaded vehicle weight	Inertia weight class
6-cylinder Federal	4,197	4,000
6-cylinder California	4,225	4,000
V-8 Federal	4,328	4,500
V-8 Federal (long wheelbase)	4,528	4,500
V-8 California	4,328	4,500
V-8 California (long wheelbase)	4,528	4,500

Under EPA procedures for the 1979 model year, automobiles with a loaded vehicle weight of 3,251 to 3,750 pounds are placed in the 3,500-pound inertia weight class, 3,751 to 4,250 pounds are placed in the 4,000-pound inertia weight class, and 4,251 to 4,750 pounds are placed in the 4,500-pound inertia weight class.

For the results of any weight reduction to show up on the EPA fuel economy tests, the Checker automobiles would have to drop to a lower inertia weight class. In the case of the 1979 Checker automobiles, about 450 pounds would have to be removed from the 6-cylinder models and about 275 pounds would have to be removed from the long wheelbase 8-cylinder models to place the vehicles in the next lowest inertia weight class. The lack of leadtime available to Checker for making weight reductions of this magnitude on its 1979 automobiles has led NHTSA to the proposed conclusion that weight reductions on these models are not technologically feasible and economically practicable for the 1979 model year.

As can be seen from the above table, the normal wheelbase V-8 models would have to shed 78 pounds from the 1978 model to be placed in a lower inertia weight class. If this reduction were effected, the automobiles would be tested in the 4,000-pound inertia weight class and their fuel economy would increase by about five percent. This change would raise Checker's 1979 corporate average fuel economy by 0.1 mpg. However, the minimal leadtime available to Checker for making this reduction leads this

OCT 23 78

V 4 3 / 2 0 5 0 C 2 3 7 8

agency to tentatively conclude that this weight reduction is not technologically feasible and economically practicable for the 1979 model year.

For the 1980 model year, Checker plans to reduce the body weight of each base level by 58 pounds. Additionally, the weight of the 6-cylinder base levels will be further reduced by 76 pounds from a reduction in the weight of the engine, for a total weight reduction of 134 pounds on the 1980 6-cylinder Checker automobiles.

For the 1980 model year, EPA will change the test weight groupings. In the 1980 model year, automobiles with a loaded vehicle weight of 3,813 to 3,937 pounds will be placed in the 3,875-pound inertia weight class, 3,938 to 4,125 pounds will be placed in the 4,000-pound inertia weight class, 4,126 to 4,375 will be placed in the 4,350-pound inertia weight class, and 4,376 to 4,625 will be placed in the 4,500-pound inertia weight class. The table below shows the effects this change in inertia weight classes will have on Checker's automobiles.

1980 Model Year

Model	Loaded vehicle weight	Inertia weight class	Weight reduction needed for lower inertia weight class
6-cylinder Federal	4,063	4,000	126
6-cylinder California	4,091	4,000	154
V-8	4,270	4,250	145
V-8 (long wheelbase)	4,470	4,500	95

As the above table shows, the weight reductions by Checker will by themselves have no effect on the inertia weight classes in which the 1980 Checker automobiles will be tested. The change in EPA test procedures will, however, place the normal wheelbase V-8 in a lower inertia weight class. The lower inertia weight class will allow these vehicles to show a 2.5-percent improvement in fuel economy.

To lower the inertia weight classes of its vehicles in the 1980 model year, Checker would have to further reduce the weight of its automobiles by at least 100 pounds.

This further reduction could be accomplished by Checker by making significant materials substitution. However, the short leadtime available to Checker makes it very difficult for Checker to design components from alternate materials, find suppliers of those alternate materials, test the component, and incorporate the redesigned components in its production for the 1980 model year. Checker already uses aluminum bumpers, so material substitution would not significantly improve fuel economy with respect to that component. Given the small staff of Checker and its general economic position, this agency has tentatively decided that material substitution would not be economically practicable for the 1980 model year to a greater extent than Checker projected in its petition.

In summary, this agency would find that no improvement in fuel economy above the 1978 level through weight reduction is technologically feasible and economically practicable for Checker in the 1979 model year. For the 1980 model year, Checker's maximum feasible average fuel economy due to weight reduction would be a 2.5-percent improvement on the normal wheelbase 8-cylinder models, as a result of being tested in a lower inertia weight class. The normal wheelbase 8-cylinder configuration is projected to constitute 90 percent of Checker's production of 8-cylinder automobiles in the 1980 model year.

Aerodynamic improvements and reduced rolling resistance. At present, neither the aerodynamics of an automobile nor the lower rolling resistance of radial tires necessarily affect the fuel economy of that automobile as measured by the EPA. The EPA procedures will change for the 1979 and subsequent model years, so that a vehicle's frontal area and its use of radial tires will affect its road load setting on the dynamometer. The road load setting will increase for vehicles which do not use radial tires and will increase to the extent that a vehicle's frontal area is greater than average. Increasing the road load setting increases the power drain on the engine and lowers the measured fuel economy for that engine.

Alternative procedures for determining the road load setting, which would measure the entire aerodynamic design of the vehicle rather than simply the frontal area, may be used by manufacturers, if approved by EPA. Checker stated that its investigation of the possibility of using these alternative procedures ended when the company determined that a measurement of the entire aerodynamic design yield lower fuel economy results than simply using the formula which factors in the vehicle's frontal area and use of radial tires.

The frontal area of the Checker automobiles in the 1979 and 1980 model years will be 25.7 square feet, the same as the frontal area of the 1978 Checker automobiles. This is a relatively large frontal area, but is comparable to the 25 square feet of the 1978 Chevrolet and 1978 Chevrolet Nova, and smaller than the 26 square feet of the 1978 Chevrolet station wagon.

As a result of the vehicle's frontal area necessarily being considered in determining a vehicle's road load setting for the 1979 model year fuel economy tests, the setting for Checker's 6-cylinder base levels will increase from 12.0 horsepower to 15.1 and the setting for Checker's 8-cylinder base levels will increase from 14.0 to 15.2 horsepower. The consequences of these changes will be to lower the fuel economy of the 6-cylinder Federal base level by 0.8 mpg, that of the 6-cylinder California base level by 0.7 mpg, and that of the 8-cylinder base levels by 0.2 mpg.

A design change by Checker to improve its aerodynamics is tentatively determined to be not feasible, because of Checker's financial situation and the lack of leadtime available to it, as explained above in the discussion of *weight reduction*. Furthermore, aerodynamic drag increases geometrically at speeds above 40 miles per hour, while the fuel economy effects are not very significant at lower speeds. Since taxicabs spend most of their operating time at speeds lower than 40 miles per hour, the actual fuel savings that would be achieved by Checker improving its aerodynamics would be minimal. Accordingly, the agency tentatively concludes that Checker's maximum feasible average fuel economy for the 1979 model year should include the fuel economy loss for each base level shown above, as a result of the vehicle's aerodynamics.

Checker automobiles do not use radial tires, which do offer better fuel economy than bias-ply tires. The use of radial tires has not been taken into account by the EPA in its fuel economy testing to date, but will be for the 1979 and subsequent model years. Those vehicles not using radial tires will be tested at an increased road load setting.

The type of tires to be used on the Checker automobiles is specified by the customer in the sales contract. The vast majority of Checker's customers are taxi fleet owners. In most cases, these fleet owners have a contract with a tire company which requires that tire company to provide the fleet owner with all the tires needed on his taxis for the coming year. Under the terms of these contracts, the tire companies are free to install any tire they wish, and they never have chosen to provide radial tires under these contracts. The reason for this choice is that the tire manufacturer attempts to minimize its costs, and certain nonradial tires deliver the best total mileage on the taxis per dollar of cost for the tire manufacturer. Accordingly, these nonradial tires are always installed on the taxis. For Checker to install radial tires on its vehicles, it would be forced to purchase the original equipment tires itself, which would raise Checker's costs and raise the initial price and the operating costs to the customers. This change could result in some Checker customers purchasing automobiles of other manufacturers for use as taxicabs. The risk of a loss of sales has resulted in this agency's tentative conclusion that the use of radial tires would not be economically practicable for Checker in the 1979 and 1980 model years.

Accordingly, Checker's maximum feasible average fuel economy for the 1979 model year will tentatively include a 1.7 percent fuel economy reduction since the Checker automobiles will not use radial tires and since the EPA procedures will require testing such automobiles at an increased road load beginning in 1979.

Engine improvements. The 6-cylinder engine used in Checker's automobiles is a 250 cubic inch displacement in-line 6-cylinder engine made by the Chevrolet Division of General Motors. According to the petition, Checker selected this engine for use in its vehicles because of its durability and ease of maintenance. The 250 engine is presently installed in 85 percent of the automobiles produced by Checker. An engine change to either the 6-cylinder or the 8-cylinder base levels for the 1979 model year is tentatively deemed not to be feasible because of the very short leadtime available to Checker and the fact that they have already ordered their 1979 engines from the Chevrolet Division.

General Motors will discontinue the production of the 250 cubic inch in-line 6-cylinder engine as a passenger car engine after the 1979 model year. Therefore, Checker will need to change its 6-cylinder engine for the 1980 model year. Checker could attempt to purchase an in-line 6-cylinder engine from Ford or Chrysler, but a change in engine suppliers by Checker does not appear practicable for two reasons. First, Checker's petition refers to its 14-year history of good relations with General Motors, which handles the emissions certification process for the engines it sells Checker, thereby saving Checker a significant expenditure of staff and resources. Second, the in-line 6-cylinder engine will eventually be phased out of passenger cars by all manufacturers because of the long installation space required by this engine. Since a change to a V-6 engine is inevitable, it is very unlikely that Checker could afford to change its engine mounts and other components to accommodate a different in-line engine, only to soon to make another change to accommodate a V-6 engine.

Hence, it seems most practicable for Checker to use a General Motors V-6 engine in its 6-cylinder 1980 model year automobiles. General Motors produces two V-6 engines at this time. The smaller 200 cubic inch displacement engine is not certified for use in automobiles of more than 3,875 pounds inertia weight. For the reasons set forth above in the *weight reduction* section, it is tentatively deemed not feasible for Checker to reduce the weight of its automobiles sufficiently so that they would be classed in that inertia weight class. That leaves the 231 cubic inch displacement V-6 engine as the only 6-cylinder General Motors engine which could be used by Checker. This engine has been certified for use on automobiles in Checker's inertia weight class. On those automobiles, the 231 V-6 engine delivers 4 percent better fuel economy than the 250. This agency tentatively concludes that this 4 percent fuel economy improvement would be technologically feasible and economically practicable for Checker's 6-cylinder base levels in the 1980 model year.

With respect to the 8-cylinder engine to be used by Checker in the 1980 model year, Checker has no plans to change the V-8 engines currently used in its automobiles. General Motors has provided Checker with a prototype 350 cubic inch displacement V-8 diesel engine (currently available on certain models of Oldsmobile). This is the engine which Checker's petition states is the engine Checker would like to install in its 8-cylinder automobiles in the future. General Motors has indicated that this engine may be available to Checker in the 1981 model year. NHTSA tentatively concludes that it would not be economically practicable for Checker to redesign its frame and engine compartment to accommodate a different 8-cylinder engine for the 1980 model year, and then change those specifications again to accommodate the diesel engine in the 1981 model year.

Checker's 49-State 8-cylinder base level currently uses a 305 cubic inch displacement engine, the smallest V-8 engine manufactured by its supplier, General Motors. Checker indicated that its California 8-cylinder base level was tested with the 305 engine, but did not comply with the California emissions requirements. Checker then decided to use the next largest size V-8 engine, the 350 V-8 for its 8-cylinder California automobiles. This agency tentatively concludes that no change to the 8-cylinder engines would be practicable for the 1980 model year.

If Checker were to make any changes to the General Motors engines, it would be required to recertify the engines for compliance with the aplicable emissions standards. Checker has no emissions and fuel economy test facilities or staff of its own. For Checker to test and certify its vehicles is estimated by NHTSA to cost between $160,000 and $200,000, assuming that Checker can gain access to some manufacturer's test facilities. Checker's annual rate of return on equity has been about 1 percent, and net income has been about $300,000. Given this economic position, the agency tentatively concludes that it is not economically practicable for Checker to conduct its own testing.

Another potential fuel economy improvement can be gained by improving the efficiency of the fuel metering system. However, during the affected model years, Checker will be completely dependent upon outside suppliers for the design and manufacture of the fuel metering system used on the engines in the Checker automobiles. As long as Checker purchases General Motors engines, it can use the fuel metering system on that engine. If Checker were to purchase a fuel metering system from a different supplier and install it on the General Motors engine, it would be required to recertify the vehicles compliance with the emissions standards, and this is tentatively judged not to be economically practicable for the reasons set forth above.

In summary, this agency tentatively concludes that it would not be technologically feasible and economically practicable for Checker to improve its 1979 average fuel economy by engine improvements. For the 1980 model year, it would be feasible for Checker to achieve a 4-percent improvement for the 6-cylinder base levels. No other engine improvements are judged to be economically practicable and technologically feasible.

Automatic transmission improvements. An automatic transmission has been standard equipment on all Checker automobiles since the 1970 model year. The automatic transmission currently used on Checkers is a heavy duty General Motors transmission. The transmission will be unchanged for the 1979 model year, so

V 4 3 / 2 0 5

0 C 2 3 7 8

no fuel economy improvement will result. Since Checker has already ordered the transmissions for its 1979 automobiles, and the leadtime for substituting different transmissions is so short, this agency has tentatively decided that a transmission change on the 1979 Checkers would not be technologically feasible and economically practicable.

With respect to the 1980 model year, General Motors has indicated to this agency that it does not sell sufficient quantities of the particular transmission used by Checker to warrant making the extensive capital investments necessary to improve this transmission. At present, General Motors plans to replace this transmission with a new four speed heavy duty transmission with a lockup torque converter, but this replacement will not occur before the 1981 model year at the earliest.

General Motors has forecast to this agency that a lighter duty three speed automatic transmission with lockup torque converter would be available to Checker in the 1980 model year and that the use of this transmission would improve fuel economy by 3 percent. However, since this is a lighter duty transmission, this agency tentatively concludes that it would not be feasible for use on the heavier Checker automobiles, i.e., the V-8's. The agency does, however, believe that it would be feasible for Checker to install this lighter duty transmission on its 6-cylinder automobiles. Hence, the NHTSA has tentatively concluded that it is feasible for Checker's 1980 average fuel economy to include a 3-percent fuel economy improvement on its 6-cylinder base levels due to transmission improvements.

Improved lubricants. In connection with the final rule setting forth the 1980 and 1981 average fuel economy standards for light trucks (43 FR 11995; Mar. 23, 1978), this agency projected that the use of synthetic, lower viscosity, or friction modified lubricants in the crankcase, or axle of an automobile would result in at least a 3-percent fuel economy benefit. However, the use of these lubricants has not yet been approved by EPA in the fuel economy testing. Accordingly, to assure ample time for the approval of these lubricants for use in fuel economy testing, NHTSA indicated in that rule that this agency would not project the use of these lubricants before the 1981 model year. This proposal would continue that policy, so no fuel economy benefits from the use of these lubricants is included in Checker's maximum feasible average fuel economy for the 1979 and 1980 model years.

Drive ratio reductions. Checker reduced its rear axle ratio in the 1977 model year from 3.31 to 3.07. In the 1978 model year, a rear axle ratio of 2.72 was made standard on the 8-cylinder models sold by Checker and optional on the 6-cylinder models. Checker has stated that it will make this lower ratio standard equipment on all its 1979 automobiles if emissions standards can be met, but did not forecast any fuel economy improvement from this change. The reduction of the axle ratio would, in this agency's estimation, improve the fuel economy of the 6-cylinder Checker automobiles by 5 percent in the 1979 model year.

Further reductions of the axle ratio by Checker are said to depend upon General Motors making lower ratios available. During the 1979 and 1980 model years, the 2.72 axle ratio will be the lowest ratio made by General Motors. Accordingly, this agency proposes to determine that it is feasible in the 1979 model year for Checker to achieve a 5-percent fuel economy benefit for its 6-cylinder automobiles as a result of the axle ratio reduction. No further reduction would be found technologically feasible and economically practicable for Checker.

Mix shifts. The term "mix shifts" as used in this proposal refers to shifting the percentages of vehicles sold in each of Checker's base levels (6-cylinder Federal, 6-cylinder California, 8-cylinder Federal, and 8-cylinder California) for the purpose of increasing average fuel economy. A mix shift by Checker away from the lower mileage California base levels to the higher mileage 49-State base levels would raise Checker's average fuel economy. However, Checker's petition explains that the reason it plans to shift to a higher percentage of California vehicles is that, beginning in the 1978 model year, New York City requires all new vehicles to be used as taxicabs or limousines in New York City to comply with the applicable California emissions standards. New York City is one of Checker's largest markets. Thus, if Checker does not increase the percentage of its fleet built to comply with the California emissions standards, it will be forced to decrease its sales in this major market. This decrease in sales has been tentatively determined not to be economically practicable.

The other mix shift that could improve fuel economy would be for Checker to decrease the percentage of 8-cylinder automobiles it produces. In Checker's case, approximately 15 percent of its annual production consists of 8-cylinder engine models. Checker's 8-cylinder models are generally ordered by taxicab fleet owners along with all the 6-cylinder automobiles those fleet owners need. There is reason to believe that these owners would not order more 6-cylinder automobiles if Checker restricted the availability of its 8-cylinder automobiles, but, rather, that these fleet owners would look elsewhere for 8-cylinder automobiles to be used as taxicabs. This would result in Checker losing a significant portion of its sales, a result which causes this agency to tentatively conclude that this mix shift would not be economically practicable. Accordingly, this agency has tentatively decided that no mix shifts to improve fuel economy are economically practicable for Checker for the 1979 and 1980 model years.

Impact of other Federal standards. Checker did not claim any negative fuel economy impacts on its 1979 or 1980 average fuel economy resulting from Federal safety, damageability, emissions, or noise standards applicable in those model years. In the absence of a showing to the contrary, NHTSA will assume that there is no negative impact on fuel economy caused by the applicable Federal standards.

The need of the Nation to conserve energy. The daily extra U.S. demand for petroleum that will result from Checker achieving an average fuel economy of 17.6 and 18.6 mpg in the 1979 and 1980 model years, respectively, rather than the generally applicable average fuel economy standard of 19 and 20 mpg in those model years is estimated to average 51.8 barrels perday over the life of the 1979 Checkers and 49.1 barrels per day over the life of the 1980 Checkers. To give a perspective on these numbers, the fuel consumed by passenger automobiles in the United States is about 5 million barrels each day. For all purposes, the United States currently consumes about 17 million barrels of petroleum each day.

Summary of fuel economy improvements. The improvements projected for each model year in this proposal are conbined in a straightforward arithmentically additive manner. This technique has been used by this agency in both the rulemaking to establish average fuel economy standards for 1981-1984 passenger automobiles (42 FR 33534; June 30, 1977) and the rulemaking to establish average fuel economy standards for 1980-1981 light trucks (43 FR 11995; March 23, 1978). It has not been seriously questioned by any commenter in either of the two prior rulemakings.

For the 1979 model year, the 6-cylinder Checker automobiles could achieve 5 percent better fuel economy by use of a lower rear axle ratio, but all Checker models would suffer a fuel economy loss because of some changes in the EPA test procedures, since these automobiles have larger than average frontal areas and will not use radial tires. Compared to model year 1978 Checkers, the 6-cylinder Checker base levels would show a net gain of 0.1 mpg as a result of these changes, but the 8-cylinder base levels would incur a net 0.2 mpg fuel economy loss. The combined effect of these changes would give Checker for 1979 the same corporate average fuel economy as it showed in the 1978 model year, 17.6 mpg.

Compared to the 1979 model year Checkers, the 1980 model year 6-cylinder base levels would show a four percent fuel economy gain from the use of a smaller 6-cylinder engine and a three percent gain from the use of an improved automatic transmission. The model year 1980 normal wheel base 8-cylinder models would show a 2.5 percent fuel economy improvement since they would be tested in a lower inertia weight class. The combined effect of these changes would be to increase Checker's average fuel economy by 1.0 mpg, to a level of 18.6 mpg for 1980.

Selecton of the type of alternative standard. The Act permits NHTSA to establish an alternative average fuel economy standard applicable to exempted manufacturers in one of three ways: (1) A separate standard may be established for each exempted manufacturer; (2) classes, based on design, size, price, or other factors, may be established for the automobiles of exempted manufacturers, with a separate average fuel economy standard applicable to each class; or (3) a single standard may be established for all exempted manufacturers.

The NHTSA believes that it is appropriate to establish a separate standard for Checker. The analyses of the petitions submitted by other low volume manufacturers for exemptions in the 1979 and 1980 model years have not yet been completed, so the agency cannot practicably use the second or third approaches described in the preceding paragraph.

Proposed alternative standard. Based on its tentative conclusions that it is not technologically feasible and economically practicable for checker to improve the fuel economy of its 1979 and 1980 model year automobiles above an average of 17.6 and 18.6 mpg, respectively, that other Federal automobile standards will not adversely affect achievable fuel economy, and that the national effort to conserve energy will be negligibly affected by the granting of the requested exemptions and establishment of alternative standards, this agency proposes to conclude that the maximum feasible average fuel economy for Checker in the 1979 and 1980 model years is 17.6 and 18.6 mpg, respectively. Therefore, the agency proposes to exempt Checker from the generally applicable standards of 19.0 mpg and 20.0 mpg and to establish alternative standards of 17.6 mpg for the 1979 model year n 18.6 mpg for the 1980 model year.

In consideration of the foregoing, it is proposed that 49 CFR Part 531 be amended by revising § 531.5(b)(3) to read as follows:

§ 531.5 Fuel economy standards.

. . . . . .

(b) The following manufacturers shall comply with the standards indicated below for the specified model years:

. . . . . .

(3) Checker Motors Corporation.

Model year:	*Average fuel economy standard (miles per gallon)*
1978	17.6
1979	17.6
1980	18.6

Interested persons are invited to submit comments on this proposed decision. Comments must be limited so as not to exceed 15 pages in length. Necessary attachments may be appended to these submissions without regard to the 15 page limit. This limitation is intended to encourage commenters to detail their primary arguments in a succinct and concise fashion.

NHTSA typically allows at least 45 days for the public to comment on its proposals. With respect to this decision, however, the agency has shortened the comment period to 30 days. There are several reasons for taking this action. First, it is desirable to give Checker as much notice as possible about the fuel economy levels which will be applicable to that company during the 1979 and 1980 model year. Second, the agency already provided a 25 day comment period on this petition when the notice of receipt was published.

All comments received before the close of businesss on the comment closing date indicated at the beginning of this proposal will be considered, and will be available for public inspection in the docket both before and after the comment closing date. To the extent possible, comments filed after the comment closing date will also be considered. The agency will continue to file relevant material in the docket as it becomes available after the comment closing date, and it is recommended that interested persons continue to examine the docket for new material.

The agency has reveiwed the impacts of this proposal and determined that they are minimal and that the proposal is not a significant regulation within the meaning of Executive Order 12044.

The program offical and attorney principally responsible for the development of this proposed regulation are Douglas Pritchard and Stephen Kratzke, respectively.

Federal Grain Inspection Service

GRAIN STANDARDS ACT ADVISORY COMMITTEE

Cancellation of Meeting

Pursuant to the provisions of section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given of the cancellation of the following committee meeting as published in 43 FR 4655.

Name: Grain Standards Act Advisory Committee.

Date: October 25, 1978.

Place: U.S. Department of Agriculture, 1400 Independence Avenue SW., Room 6451 South Building, Washington, D.C. 20250.

Time: 9 a.m.

Purpose: The meeting has been canceled because it was determined the committee members did not require additional discussion of their comments on the study draft regulation published in the FEDERAL REGISTER [43 FR 33612), on July 31, 1978, which are to be submitted on or before October 29, 1978.

Dated: October 17, 1978.

DAVID C. MANGUM,
Acting Administrator.

Soil Conservation Service

PINE CREEK WATERSHED PROJECT, TENNESSEE

Availability of Final Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650), the Soil Conservation Service, U.S. Department of Agriculture, has prepared a final environmental impact statement (EIS) for the Pine Creek Watershed project, Scott County, Tenn.

The EIS concerns a plan for watershed protection and flood prevention. The planned work of improvement is channel work.

The final EIS incorporates changes subsequent to comments received during the draft statement review period.

Comments pertaining to the proposed action or requests for additional information should be addressed to Donald C. Bivens, State Conservationist, Soil Conservation Service, 675 U.S. Courthouse, Nashville, Tenn. 37203; 615-749-5471. A limited supply of the final EIS is available to fill single copy requests.

No administrative action concerning this project will be taken until November 22, 1978.

(Catalog of Federal Domestic Assistance Program No. 10.904, Watershed Protection and Flood Prevention Program—Pub. L. 83-566, (16 U.S.C. 1001-1008).)

Dated: October 10, 1978.

JOSEPH W. HAAS,
Assistant Administrator for Water Resources, Soil Conservation Service, U.S. Department of Agriculture, Washington, D.C.

[3410-16-M]

TRINITY RIVER WATERSHED (AUTHORIZED), TEXAS

Intent To Prepare an Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is being prepared for the Trinity River Watershed (authorized), Texas.

The environmental assessment of this Federal action indicates that the project will cause significant, local, regional, or national impacts on the environment. As a result of these findings, Mr. George C. Marks, State Conservationist, Soil Conservation Service, has determined that the preparation and review of an environmental impact statement is needed for installing the remaining measures in this project.

The project concerns remaining planned measures for watershed protection, flood prevention, improved water quality and quantity, and improved quality of life for the area. The planned action for the remaining measures provides for the installation of 134 floodwater retarding structures, 3 multiple-purpose structures with recreational facilities, 12 grade stabilization structures (stream), critical area treatment on 27,000 acres of critically eroding lands, channel work on 15.93 miles of clogged streams, and technical assistance for application of land treatment measures on watershed lands. Accelerated technical assistance for land treatment has been provided for application of approximately 67 percent of the land treatment needs for the watershed. Other measures that have been installed are 840 floodwater retarding structures, 5 multiple-purpose structures, 32,600 acres of critical area treatment, and 90.9 miles of channel work. Measures in the watershed not installed but covered by previous actions under NEPA guidelines include 89 floodwater retarding structures and one multiple-purpose structure.

A draft environmental impact statement will be prepared and circulated for review by agencies and the public. The Soil Conservation Service invites participation of agencies and individuals with expertise or interest in the preparation of the draft environmental impact statement. The draft environment impact statement is being developed by Mr. George C. Marks, State Conservationist, Soil Conservation Service, W. R. Poage Federal Building, 101 South Main Street, Temple, Tex. 76501; 817-774-1255.

Bureau of the Census

CENSUS ADVISORY COMMITTEE ON THE ASIAN AND PACIFIC AMERICANS POPULATION FOR THE 1980 CENSUS

Public Meeting

Pursuant to the Federal Advisory Committee Act, as amended, 5 U.S.C. App. (1976), notice is hereby given that the Census Advisory Committee on the Asian and Pacific Americans Population for the 1980 Census will convene on November 9, 1978, at 9:15 a.m. The Committee will meet in Room 2424, Federal Building 3, at the Bureau of the Census in Suitland, Md.

This Committee was established in June 1976 to advise the Director, Bureau of the Census, during the planning of the 1980 Census of Population and Housing on such elements as improving the accuracy of the population count, developing definitions and terminology for improved identification and classification of the Asian and Pacific Americans population, suggesting areas of research, recommending subject content and tabulations of particular use to the Asian and Pacific Americans population, and expanding the dissemination of census results among present and potential users of census data in the Asian and Pacific Americans community.

This Committee is composed of 21 members appointed by the Secretary of Commerce, and constitutes a broad spectrum of community leaders, scholars, and other appropriate persons.

The agenda for the meeting, which is scheduled to adjourn at 4:30 p.m., is: (1) Introductory remarks by the Director, Bureau of the Census; (2) current status of 1980 census planning; (3) Affirmative Action Program; (4) Community Services Program; (5) decentralized processing plans; (6) public information campaign in lower Manhattan; and (7) Committee discussion, recommendations, and plans for future meeting.

The meeting will be open to the public, and a brief period will be set aside for public comment and questions. Extensive questions or statements must be submitted in writing to the Committee Control Officer at least 3 days prior to the meeting.

Persons planning to attend and wishing additional information concerning this meeting should contact the Committee Control Officer, Mr. Clifton S. Jordan, Deputy Chief, Demographic Census Division, Bureau of the Census, Room 3779, Federal Building 3, Suitland, Md. (Mailing address: Washington, D.C. 20233.) Telephone 301-763-5169.

Dated: October 17, 1978.

MANUEL D. PLOTKIN,
Director, Bureau of the Census

Economic Development Administration

NCC INDUSTRIES, INC. ET AL.

Petitions for Determinations of Eligibility To Apply for Trade Adjustment Assistance

Petitions have been accepted for filing from three firms: (1) NCC Industries, Inc., 105 Madison Avenue, New York, N.Y. 10016, a producer of women's body-supporting garments (accepted October 6, 1978); (2) Gaiety Sportswear, Inc., 130-29 180th Street, Springfield Gardens, N.Y. 11434, a producer of women's pants, blouses, blazers, and skirts and (accepted October 13, 1978); and (3) Norwalk Dyeing & Finishing Corp., P.O. Box 737, Muller Avenue, Norwalk, Conn. 06852, a producer of dyed and finished piece goods for apparel (accepted October 17, 1978). The petitions were submitted pursuant to section 251 of the Trade Act of 1974 (Pub. L. 93-618) and § 315.23 of the Adjustment Assistance Regulations for Firms and Communities (13 CFR Part 315).

Consequently, the U.S. Department of Commerce has initiated separate investigations to determine whether increased imports into the United States of articles like or directly competitive with those produced by each firm contributed importantly to total or partial separation of the firm's workers, or threat thereof, and to a decrease in

sales or production of each petitioning firm.

Any party having a substantial interest in these proceedings may request a public hearing. A request for a hearing must be received by the Assistant Secretary for Industry and Trade, U.S. Department of Commerce, 14th and Constitution Avenue NW., Washington, D.C. 20230, no later than the close of business of the tenth day following the publication of this notice.

Interested parties may submit comments or information regarding the determination of eligibility to the Assistant Secretary for Industry and Trade, U.S. Department of Commerce, 14th and Constitution Avenue NW., Washington, D.C. 20230, no later than the close of business of the tenth day following the publication of this notice.

Any information submitted to the Assistant Secretary in connection with this investigation is subject to public inspection pursuant to section 315.13(b) of the Adjustment Assistance Regulations for Firms and Communities (13 CFR Part 315).

Any information submitted to the Assistant Secretary which the person submitting it requests be treated as confidential commercial information must be accompanied by a request in writing setting forth the reasons why such information should be treated confidentially.

The Assistant Secretary will make no public disclosure of confidential commercial information before the agency determines whether to disclose the information after the close of the public comment period.

The Assistant Secretary will issue determinations either affirmative or negative as early as possible but no later than 40 days after the date of this notice. Upon making a determination, the Assistant Secretary will cause to be published in the FEDERAL REGISTER a notice of the determination stating the reasons for the determination.

Date: October 1, 1978.

RAUER H. MEYER,
Director, Office of Export Administration.

(1) Opening remarks by the subcommittee chairman.
(2) Presentation of papers or comments by the public.
(3) Nomination and election of a new chairman.
(4) Other business.

Date: October 1, 1978.

RAUER H. MEYER,
Director, Office of Export Administration.

V 43 / 205 OCT 23 78

sales or production of each petitioning firm.

Any party having a substantial interest in the proceedings may request a public hearing on the matter. A request for a hearing must be received by the Chief, Trade Act Certification Division, Economic Development Administration, U.S. Department of Commerce, Washington, D.C. 20230, no later than the close of business of November 2, 1978.

JACK W. OSBURN, Jr.,
Chief, Trade Act Certification Division, Office of Planning and Program Support.

Industry and Trade Administration

COMPUTER SYSTEMS TECHNICAL ADVISORY COMMITTEE

Partially Closed Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, as amended, 5 U.S.C. App. (1976), notice is hereby given that a meeting of the Computer Systems Technical Advisory Committee will be held on Thursday, November 9, 1978, at 1 p.m. in Room 3817, Main Commerce Building, 14th and Constitution Avenue, NW., Washington, D.C.

The Computer Systems Technical Advisory Committee was initially established on January 3, 1973. On December 20, 1974, January 13, 1977, and August 28, 1978, the Assistant Secretary for Administration approved the recharter and extension of the Committee, pursuant to section 5(c)(1) of the Export Administration Act of 1969, as amended, 50 U.S.C. App. Sec. 2404(c)(1) and the Federal Advisory Committee Act.

The Committee advises the Office of Export Administration, Bureau of Trade Regulation, with respect to questions involving (A) technical matters, (B) worldwide availability and actual utilization of production technology, (C) licensing procedures which may affect the level of export controls applicable to computer systems, including technical data or other information related thereto, and (D) exports of the aforementioned commodities and technical data subject to multilateral controls in which the United States participates including proposed revisions of any such multilateral controls.

The Committee meeting agenda has five parts:

General Session

(1) Opening remarks by the Chairman.

(2) Presentation of papers or comments by the public.

(3) Nomination and election of a new chairman.

(4) Report on the work programs of the subcommittees:

(a) Technology transfer;
(b) Foreign availability;
(c) Hardware; and
(d) Licensing procedures.

Executive Session

(5) Discussion of matters properly classified under Executive Order 11652, dealing with the United States and COCOM control program and strategic criteria related thereto.

The general session of the meeting is open to the public, at which a limited number of seats will be available. To the extent time permits, members of the public may present oral statements to the Committee. Written statements may be submitted at any time before or after the meeting.

With respect to agenda item (5), the Assistant Secretary of Commerce for Administration, with the concurrence of the delegate of the general counsel, formally determined on September 6, 1978, pursuant to section 10(d) of the Federal Advisory Committee Act, as amended by section 5(c) of the Government in the Sunshine Act relating to open meetings and public participation therein, because the Executive session will be concerned with matters listed in 5 U.S.C. 552b(c)(1). Such matters are specifically authorized under criteria established by an Executive order to be kept secret in the interests of national defense or foreign policy. All materials to be reviewed and discussed by the Committee during the Executive session of the meeting have been properly classified under Executive Order 11652. All Committee members have appropriate security clearances.

Copies of the minutes of the open portion of the meeting will be available upon written request addressed to the Freedom of Information Officer, Room 3012, Industry and Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230.

For further information, contact Mr. Charles C. Swanson, Director, Operations Division, Office of Export Administration, Industry and Trade Administration, Room 1617M, U.S. Department of Commerce, Washington, D.C. 20230, telephone, 202-377-4196.

The complete Notice of Determination to close meetings or portions thereof of the series of meetings of the Computer Systems Technical Advisory Committee and of any subcommittees thereof, was published in the FEDERAL REGISTER on September 14, 1978 (43 FR 41073).

Date: October 1, 1978.

RAUER H. MEYER,
Director, Office of Export Administration, Bureau of Trade Regulation, U.S. Department of Commerce.

FOREIGN AVAILABILITY SUBCOMMITTEE OF THE COMPUTER SYSTEMS TECHNICAL ADVISORY COMMITTEE

Open Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, as amended, 5 U.S.C. App. (1976), notice is hereby given that a meeting of the Foreign Availability Subcommittee of the Computer Systems Technical Advisory Committee will be held on Wednesday, November 8, 1978, at 9 a.m. in Room 3708, Main Commerce Building, 14th and Constitution Avenue, NW., Washington, D.C.

The Computer Systems Technical Advisory Committee was initially established on January 3, 1973. On December 20, 1974, January 13, 1977 and August 28, 1978, the Assistant Secretary for Administration approved the recharter and extension of the Committee, pursuant to section 5(c)(1) of the Export Administration Act of 1969, as amended, 50 U.S.C. App. Sec. 2404(c)(1) and the Federal Advisory Committee Act. The Foreign Availability Subcommittee of the Computer Systems Technical Advisory Committee was established on July 8, 1975. On October 16, 1978, the Assistant Secretary for Industry and Trade approved the continuation of the Subcommittee pursuant to the charter of the Committee.

The Committee advises the Office of Export Administration with respect to questions involving (A) technical matters, (B) worldwide availability and actual utilization of production technology, (C) licensing procedures which affect the level of export controls applicable to computer systems, including technical data or other information related thereto, and (D) exports of the aforementioned commodities and technical data subject to multilateral controls in which the United States participates including proposed revisions of any such multilateral controls. The Foreign Availability Subcommittee was formed to ascertain if certain kinds of equipment are available in non-COCOM and Communist countries, and if such equipment is available, then to ascertain if it is technically the same or similar to that available elsewhere.

The subcommittee meeting agenda has five parts:

(1) Opening remarks by the subcommittee chairman.
(2) Presentation of papers or comments by the public.
(3) Additional comments or inputs on the RYAD II report.
(4) Brief review of highlights of trip to the U.S.S.R.
(5) Discussion of future work program for the subcommittee.

The meeting will be open for public observation and a limited number of seats will be available. To the extent time permits members of the public may present oral statements to the subcommittee. Written statements may be submitted at any time before or after the meeting.

Copies of the minutes of the meeting will be available upon written request addressed to the Freedom of Information Officer, Industry and Trade Administration, Room 3012, U.S. Department of Commerce, Washington, D.C. 20230.

For further information, contact Mr. Charles C. Swanson, Director, Operations Division, Office of Export Administration, Industry and Trade Administration, Room 1617M, U.S. Department of Commerce, Washington, D.C. 20230, telephone, 202-377-4196.

Dated: October 17, 1978.

RAUER H. MEYER,
Director, Office of Export Administration, Bureau of Trade Regulation, U.S. Department of Commerce.

MANAGEMENT-LABOR TEXTILE ADVISORY COMMITTEE

Public Meetings

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. (1976), notice is hereby given that meetings of the Management-Labor Textile Advisory Committee will be held on November 8, 1978 at 1:30 p.m. in Room 5611, and on December 12, 1978 at 1:30 p.m. in Room 6802, Department of Commerce, 14th and Constitution Avenue NW., Washington, D.C. 20230.

The Committee was established by the Secretary of Commerce on October 18, 1961, to advise U.S. Government officials on problems and conditions in the textile and apparel industry and furnish information on world trade in textiles and apparel.

The agenda for the meeting will be as follows:

1. Review of import trends.
2. Implementation of textile agreements.
3. Report on conditions in the domestic market.
4. Other business.

A limited number of seats will be available to the public on a first-come basis. The public may file written statements with the Committee before or after each meeting. Oral statements may be presented at the end of the meetings to the extent time is available.

Copies of the minutes of the meetings will be made available on written request addressed to the ITA Freedom of Information Officer, Freedom of Information Control Desk, Room 3012, U.S. Department of Commerce, Washington, D.C. 20230.

Telephone requests for the minutes of the meetings and requests for further information concerning the committee may be directed to Arthur Garel, Director, Office of Textiles, U.S. Department of Commerce, Washington, D.C. 20230, telephone 202-377-5078.

Dated: October 18, 1978.

ROBERT E. SHEPHERD,
Deputy Assistant Secretary for Domestic Business Development.

LICENSING PROCEDURES SUBCOMMITTEE OF THE COMPUTER SYSTEMS TECHNICAL ADVISORY COMMITTEE

Open Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, as amended, 5 U.S.C. App. (1976), notice is hereby given that a meeting of the Licensing Procedures Subcommittee of the Computer Systems Technical Advisory Committee will be held on Thursday, November 9, 1978, at 9 a.m. in Room 3817, Main Commerce Building, 14th and Constitution Avenue NW., Washington, D.C.

The Computer Systems Technical Advisory Committee was initially established on January 3, 1973. On December 20, 1974, January 13, 1977, and August 28, 1978, the Assistant Secretary for Administration approved the recharter and extension of the Committee, pursuant to section 5(c)(1) of the Export Administration Act of 1969, as amended, 50 U.S.C. App. Sec. 2404(c)(1) and the Federal Advisory Committee Act. The Licensing Procedures Subcommittee of the Computer Systems Technical Advisory Committee was initially established on February 4, 1974. On July 8, 1975, the Director, Office of Export Administration, approved the reestablishment of this subcommittee, pursuant to the charter of the committee. And, on October 16, 1978, the Assistant Secretary for Industry and Trade approved the continuation of the subcommittee pursuant to the charter of the committee.

The committee advises the Office of Export Administration with respect to questions involving (A) technical matters, (B) worldwide availability and actual utilization of production technology, (C) licensing procedures which affect the level of export controls applicable to computer systems, including technical data or other information related thereto, and (D) exports of the aforementioned commodities and technical data subject to multilateral controls in which the United States participates including proposed revisions of any such multilateral controls. The Licensing Procedures Subcommittee was formed to review the procedural aspects of export licensing and recommend areas where improvements can be made.

The subcommittee meeting agenda has seven parts:

1. Opening remarks by the subcommittee chairman.
2. Presentation of papers or comments by the public.
3. Discussion of recommendations which were submitted to the full Computer Systems Technical Advisory Committee on September 21, 1978.
4. Status of and discussion on industry recommendation for establishment of a Qualified Product/Distribution License.
5. Requirement for full information of add-ons to small computers, i.e., below certain PDR levels.
6. Requirement for extensive information on Form DIB-6031P related to add-ons for computer installed several years previously.
7. Delegation of authority for parts and supplies and other items.

The meeting will be open for public observation and a limited number of seats will be available. To the extent time permits members of the public may present oral statements to the subcommittee. Written statements may be submitted at any time before or after the meeting.

Copies of the minutes of the meeting will be available upon written request addressed to the Freedom of Information Officer, Industry and Trade Administration, Room 3012, U.S. Department of Commerce, Washington, D.C. 20230.

For further information, contact Mr. Charles C. Swanson, Director, Operations Division, Office of Export Administration, Industry and Trade Administration, Room 1617M, U.S. Department of Commerce, Washington, D.C. 20230, telephone 202-377-4196.

[3510-25-M]

TECHNOLOGY TRANSFER SUBCOMMITTEE OF THE COMPUTER SYSTEMS TECHNICAL ADVISORY COMMITTEE

Partially Closed Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. (1976), notice is hereby given that a meeting of the Technology Transfer Subcommittee of the Computer Systems Technical Advisory Committee will be held on Wednesday, November 8, 1978, at 1:30 p.m. in Room 3708, Main Commerce Building, 14th and Constitution Avenue NW., Washington, D.C.

The Computer Systems Technical Advisory Committee was initially established on January 3, 1973. On December 20, 1974, January 13, 1977, and August 28, 1978, the Assistant Secretary for Administration approved the recharter and extension of the Committee, pursuant to section 5(c)(1) of the Export Administration Act of 1969, as amended, 50 U.S.C. App. Sec. 2404(c)(1) and the Federal Advisory Committee Act. The Technology Transfer Subcommittee of the Computer Systems Technical Advisory Committee was initially established on April 10, 1974. On July 8, 1975, the Director, Office of Export Administration, approved the reestablishment of this subcommittee, pursuant to the charter of the committee. And, on October 16, 1978, the Assistant Secretary for Industry and Trade approved the continuation of the Subcommittee pursuant to the charter of the Committee.

The Committee advises the Office of Export Administration with respect to questions involving (A) technical matters, (B) worldwide availability and actual utilization of production technology, (C) licensing procedures which affect the level of export controls applicable to computer systems, including technical data or other information related thereto, and (D) exports of the aforementioned commodities and technical data subject to multilateral controls in which the United States participates including proposed revisions of any such multilateral controls. The Technology Transfer Subcommittee was formed to examine the impact of transferring Automatic Data Processing technology to Communist destinations..

The subcommittee meeting agenda has four parts:

GENERAL SESSION

1. Opening remarks by the Chairman.
2. Presentation of papers or comments by the public.
3. Review of possible future activities for the subcommittee.

EXECUTIVE SESSION

4. Discussion of matters properly classified under Executive Order 11652, dealing with the U.S. and COCOM control program and strategic criteria related thereto.

The General Session of the meeting is open to the public, at which a limited number of seats will be available. To the extent time permits members of the public may present oral statements to the subcommittee. Written statements may be submitted at any time before or after the meeting.

With respect to agenda item (4) the Assistant Secretary of Commerce for Administration, with the concurrence of the delegate of the General Counsel, formally determined on September 6, 1978, pursuant to section 10(d) of the Federal Advisory Committee Act, as amended, by section 5(c) of the Government in the Sunshine Act, Pub. L. 94-409, that the matters to be discussed in the executive session should be exempt from the provisions of the Federal Advisory Committee Act relating to open meetings and public participation therein, because the executive session will be concerned with matters listed in 5 U.S.C. 552b(c)(1). Such matters are specifically authorized under criteria established by an Executive order to be kept secret in the interests of national defense or foreign policy. All materials to be reviewed and discussed by the subcommittee during the executive session of the meeting have been properly classified under Executive Order 11652. All subcommittee members have appropriate security clearances.

Copies of the minutes of the open portion of the meeting will be available upon written request addressed to the Freedom of Information Officer, Industry and Trade Administration, Room 3012, U.S. Department of Commerce, Washington, D.C. 20230.

For further information, contact Mr. Charles C. Swanson, Director, Operations Division, Office of Export Administration, Industry and Trade Administration, Room 1617M, U.S. Department of Commerce, Washington, D.C. 20230, telephone 202-377-4196.

The complete Notice of Determination to close meetings or portions thereof of the series of meetings of the Computer Systems Technical Advisory Committee and of any subcommittees thereof, was published in the FEDERAL REGISTER on September 14, 1978 (43 FR 41072).

Dated: October 18, 1978.

Maritime Administration

[Docket No. S-623]

CHAS. KURZ & CO., INC.

Application

Notice is hereby given that application has been filed under the Merchant Marine Act, 1936, as amended (the Act), for operating-differential subsidy on the SS *Chilbar* to engage in bulk carrying service in the U.S. foreign trade, principally between the United States and the Union of Soviet Socialist Republics, to expire on December 31, 1978, unless extended. The *Chilbar* is a 33,692 DWT tanker built in March 1959.

Inasmuch as the applicant, and/or related persons or firms, employ or may employ ships in the domestic intercoastal or coastwise service, written permission of the Maritime Administration under section 805(a) of the Act will be required if its application for operating-differential subsidy is to be granted.

The written permission requested by Chas. Kurz & Co., Inc. was previously granted under section 805(a) to Margate Shipping Co., Chestnut Shipping Co., Juniper Tankers, Inc., Keystone Shipping Co., Keystone Tankship Corp., and Fredericksburg Shipping Co., affiliates of Kurz, and is as follows:

For affiliated or associated companies to operate up to a total of 31 U.S. flag vessels in the transport of liquid bulk cargoes within and between the following U.S. coastal areas, with free interchange of vessels among those areas, and with the maximum number of vessels to be employed in the areas at any one time specified:

U.S. Gulf-Atlantic Coastwise, 17 vessels.
U.S. Gulf-Atlantic-Puerto Rico, 2 vessels.
U.S. Atlantic-Gulf Intercoastal (including Alaska and Hawaii), 10 vessels.
Pacific Coast-Alaska-Hawaii, 15 vessels.

Such written permission is required under section 805(a) notwithstanding the fact that a voyage in the proposed service on which the vessel engaged in domestic intercoastal or coastwise trade would not be eligible for subsidy.

Any person, firm, or corporation having any interest (within the meaning of section 805(a)) in such application and desiring to be heard on issues pertinent to section 805(a) and desiring to submit comments or views concerning the application must, by close of business on October 27, 1978, file same with the Secretary, Maritime Administration, in writing, in triplicate, together with petition for leave to intervene which shall state clearly and concisely the grounds of interest, and the alleged facts relied on for relief.

If no petitions for leave to intervene are received within the specified time or if it is determined that petitions filed do not demonstrate sufficient interest to warrant a hearing, the Maritime Administration will take such action as may be deemed appropriate.

In the event petitions regarding the relevant section 805(a) issues are received from parties with standing to be heard, a hearing will be held, the purpose of which will be to receive evidence under section 805(a) relative to whether the proposed operations (a) could result in unfair competition to any person, firm, or corporation operating exclusively in the coastwise or intercoastal service, or (b) would be prejudicial to the objects and policy of the Act relative to domestic trade operations.

(Catalog of Federal Domestic Assistance Program No. 11.504 Operating-Differential Subsidies (ODS).)

Dated: October 16, 1978.

By order of the Assistant Secretary for Maritime Affairs.

JAMES S. DAWSON, Jr.,
Secretary.

National Bureau of Standards

RECOMMENDED VOLUNTARY PRODUCT STANDARD NOTICE OF CIRCULATION

In accordance with the provisions of § 10.5 of the Department's "Procedures for the Development of Voluntary Product Standards" (15 CFR part 10), the National Bureau of Standards is giving public notice and circulating for acceptance Recommended Voluntary Product Standard TS 223, "Body Measurements for the Sizing of Men's, Women's, and Children's Knee High and Shorter Hosiery."

The purpose of the standard is to provide standard size designations and body measurements for consistent sizing of all categories of hosiery fitting below the knee. It is intended to provide information for the guidance of manufacturers, distributors, and consumers, and serve as a basis for common understanding of the relationship of hosiery size to foot and leg dimensions. The standard should eliminate misunderstandings by providing nationally recognized definitions and methods of measuring.

Copies of TS 223 may be obtained from Standards Development Services, National Bureau of Standards, Washington, D.C. 20234. Written comments concerning the standard should be submitted to Standards Development Services on or before December 7, 1978.

Dated October 17, 1978.

ERNEST AMBLER,
Director.

Office of the Secretary

U.S. INMARSAT (INTERNATIONAL MARITIME SATELLITE) PREPARATORY COMMITTEE WORKING GROUP

Renewal

In accordance with the provisions of the Federal Advisory Committee Act, as amended, 5 U.S.C. App. (1976) and Office of Management and Budget Circular A-63 of March, 1974, and after consultation with GSA, the Secretary of Commerce has determined that the renewal of the U.S. INMARSAT Preparatory Committee Working Group is in the public interest in connection with the performance of duties imposed on the Department by law.

The Committee was first established by Order No. 11 of the Office of Telecommunications Policy on October 15, 1976, and it was scheduled to terminate on October 15, 1978. Pursuant to Executive Order No. 12046, effective March 26, 1978, most functions of the Office of Telecommunications Policy have been transferred to the National Telecommunications and Information Administration, U.S. Department of Commerce.

The purpose of the Committee is to advise the Secretary of Commerce on matters pertinent to the Department's responsibilities regarding the various positions to be taken by the U.S. Government on issues under consideration by the INMARSAT Preparatory Committee. That Preparatory Committee was established by the Second Session of the International Conference on the Establishment of an International Maritime Satellite System (INMARSAT) to conduct economic and technical studies and to prepare draft organizational structure, financial, and staff regulations. The Secretary will require the advice of the Advisory Committee until the INMARSAT Preparatory Committee is replaced by a fully functioning INMARSAT organization.

The Committee will continue with a balanced representation of not more than twenty members, chaired by the Department's Assistant Secretary for Communications and Information or his or her delegate, and will operate in compliance with the provisions of the Federal Advisory Committee Act, as amended.

Copies of the committee's revised charter will be filed with appropriate committees of the Congress and with the Library of Congress.

Inquires or comments may be addressed to the Committee Control Officer, Dr. Wladimir Naleszkiewicz, National Telecommunications and Information Administration, U.S. Department of Commerce, 1800 G Street NW., Room 790, Washington, D.C. 20504, telephone 202-395-3782.

Dated: October 16, 1978

GUY W. CHAMBERLAIN,
Assistant Secretary of for Administration

DEPARTMENT OF DEFENSE

Department of the Air Force

FAMILY HOUSING AT GRAND FORKS AFB, N. DAK.

Candidate Environmental Impact Statement; Negative Determination

OCTOBER 16, 1978.

A Candidate Environmental Impact Statement was prepared by Strategic Air Command for a Family Housing project at Grand Forks Air Force Base, N. Dak. After careful review of this document, I have concluded that this project will not constitute a major Federal action having a significant effect on the quality of the human environment, it is not likely to be controversial with regard to its environmental impacts, and that a Draft Environmental Impact Statement will not be filed with the Environmental Protection Agency. This determination is based on the following considerations:

a. Description of Action: The proposed project will move 197 relocatable frame-type family housing units from the previously deactivated Army Safeguard Site near Nekoma, N. Dak., to Grand Forks Air Force Base, N. Dak. The 197 units are included in 100 buildings. These buildings will be disassembled into divisions that can be conveniently moved and reassembled at the new location. The distance between current and proposed locations is about 100 miles. Purchase of approximately 51 acres is required at the proposed site. The current estimated cost of the project is $4.8 million.

b. Principal Environmental Effects. (1) Air: There will not be a significant impact on air quality. Temporary generation of dust during construction and moving of the units will occur.

V 4 3 1 2 0 5 0 C 2 3 7 8

However, the contractor will be required to use appropriate dust control measures. The minor impact due to additional furnaces burning fuel oil will be partially offset by the reduced consumption of gasoline by off-base commuters moving into base housing.

(2) Water: The additional consumption of water (6 percent maximum) will increase the total consumption to only 46 percent of the contracted available supply. The storm runoff from the additional built-over area will increase the drainage by only 0.5 percent. This is not a significant amount and all drainage system capacities are more than adequate.

(3) Solid Waste: All solid wastes are disposed of off base by contract operations in a privately owned sanitary landfill in accordance with State of North Dakota Health Department regulations. This landfill area will soon be discontinued and the contractor will use the city of Grand Forks landfill area with extensive capacity.

(4) Sanitary Waste: The sanitary wastes generated by occupants of the new units will be discharged into the existing two-stage lagoon. The estimated increase in sewage volume is under 8 percent. While this will elevate the level of the primary lagoon about ½ foot through the winter period, it will not exceed the design capacity of the lagoon. Discharge from the lagoon will continue to meet NPDES permit requirements.

(5) Fish and Wildlife: There are no known species on the endangered lists in the area surrounding Grand Forks Air Force Base.

(6) Energy: There will be an increased demand for approximately 23,000 gallons of fuel oil per year for heating the proposed housing units. This will be partially offset by reduced consumption of gasoline by off-base commuters moving into base housing.

(7) Schools: There will be about 125 school students added to the elementary and junior high schools on base. Both schools have adequate capacities. Some transfer of Pub. L. 81-874 funds between counties will be involved.

(8) Land Use: The proposed project will require that 51 acres of prime farmland be acquired for siting of the housing units. Land of less than prime production quality, and suitable for construction, is not available in the vicinity of Grand Forks Air Force Base.

(9) Socioeconomic: Upon completion of the proposed project, 197 rental properties will be released on the local market. It is anticipated that these units will be reoccupied within a relatively short period of time and no long term impact will result. Relocation of the housing units may make the Safeguard Site at Nekoma, N. Dak. less desirable for redevelopment by the State or other agency; however, the best interest of the Air Force must be the deciding factor in utilizing available facilities.

(10) Alternatives: Other locations on base will not singularly contain all the units. Splitting the units between two sites increases the cost. Also the noise levels will be higher from base operations and attenuation of the relocatable units is slightly less than conventionally framed housing. The other sites are therefore less desirable economically and environmentally. A "no-action" alternative will not provide the needed base housing at Grand Forks Air Force Base.

(11) Controversies: There are no unresolved environmental issues. The only controversies will be with regard to whether or not the housing units are significant in redevelopment of the Nekoma Safeguard site by another agency.

Any comments or questions should be directed to the Deputy for Environment and Safety, Office of the Secretary of the Air Force, Room 4C885, The Pentagon, Washington, D.C. 20330, telephone 202-697-9297.

CAROL M. ROSE,
Air Force Alternate Federal Register Liaison Officer.

FAMILY HOUSING AT KI SAWYER AFB, MICH.

Candidate Environmental Impact Statement; Negative Determination

OCTOBER 16, 1978.

A candidate environmental impact statement was prepared by Strategic Air Command for a family housing project at KI Sawyer AFB, Mich. After careful review of this document, I have concluded that this project will not constitute a major Federal action having a significant effect on the quality of the human environment, it is not likely to be controversial with regard to its environmental impacts, and that a draft environmental impact statement need not be filed with the Environmental Protection Agency. This determination is based on the following considerations:

a. Description of action. The proposed project will move 198 relocatable frame-type family housing units from Kincheloe AFB to KI Sawyer AFB. These relocatable housing units were designed and constructed using hinges in the walls, floors, and roofs. When the units are folded, they can be transported over the highway similar to a mobile home. The distance between current and proposed locations is about 150 miles. Purchase of 139 acres is required at the proposed site. The current estimated cost of the project is $4.6 million.

b. Principal environmental effects.

(1) Air. There will not be a significant impact on air quality. Temporary generation of dust during construction and moving of the units will occur. However, the contractor will be required to use appropriate dust control measures. The minor impact due to additional oil-fired furnaces will be partially offset by the reduced consumption of gasoline by off-base commuters moving into base housing.

(2) Water. The additional consumption of water (about 5 percent) will increase the total consumption to only about 81 percent of the total capacity from the installation's wells. The storm runoff from the additional built-over area will be dispersed to natural drainage in the ravines radiating from the project site.

(3) Solid waste. All solid wastes will be disposed of in the on-base sanitary landfill. The landfill reserves have an estimated life of 80 years.

(4) Sanitary waste. The sanitary wastes generated by occupants of the new units will be discharged into the existing base sewage treatment plant. In November 1977, EPA issued a notice of violation of effluent limitations in the treatment plant NPDES permit. Corrective actions will be accomplished in two phases to be completed in December 1978 and December 1979 respectively. The treatment plant will be in compliance with the NPDES permit by the time the initial units are occupied. Plant capacity is adequate for the new units.

(5) Fish and wildlife. There are no known species on the threatened or endangered lists in this area.

(6) Energy. There will be an increased demand for fuel oil for heating the proposed housing units. This will be partially offset by reduced consumption of gasoline by off-base commuters moving into base housing.

(7) Schools. It is estimated that about 165 school children now attending neighboring school districts will be transferring to the local district. The student/teacher ratio will increase from 21:1 to 22:1. School capacities are adequate.

(8) Land use. The proposed project will require that 139 acres of land be purchased. The ridge and valley topography is covered with a poorly stocked stand of jack pine timber. Forty-seven acres on flat ridge areas will be utilized for construction of the housing project. The balance of the acreage will be incorporated into the KI Sawyer AFB timber management program.

(9) Socioeconomic. Upon completion of the proposed project, 198 residential properties will be released on the local market. Due to the rapidly expanding mining industry in the area, it is anticipated that these units will be reoccupied within a relatively short period of time and no long term impact will result.

(10) Alternatives. On-base sites are not suitable for housing because of aircraft noise levels. Other off-base sites will incur additional costs ($300,000 to $500,000) for land acquisition and utilities extensions. A "no-action" alternative will not provide the needed base housing at KI Sawyer AFB.

(11) Controversies. There are no unresolved environmental issues.

Any comments or questions should be directed to the Deputy for Environment and Safety, Office of the Secretary of the Air Force, Room 4C885, The Pentagon, Washington, D.C. 20330, telephone 202-697-9297.

CAROL M. ROSE,
Air Force Alternate Federal Register Liaison Officer.

Department of the Army

NATIONAL BOARD FOR THE PROMOTION OF RIFLE PRACTICE

Open Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), announcement is made of the following committee meeting:

Name of committee: The National Board for the Promotion of Rifle Practice.
Date of meeting: November 17, 1978.
Place: Secretary of the Army conference room, Room 2E 687, The Pentagon.
Time: 0900 hours.

PROPOSED AGENDA

1. Distinguished International Shooter Badge.
2. M-14 Rifle (National Match-Defined).
3. M-1 Rifle Sale.
4. Air Gun Shooting.
5. NBPRP Responsibility for International Shooting.

This meeting is open to the public. Any interested person may attend, appear before, or file statements with the Board at the time and in the manner permitted by the committee.

Dated: October 11, 1978.

GARY R. CHITTESTER,
Executive Officer.

Office of the Secretary

DEFENSE SCIENCE BOARD TASK FORCE ON ECM

Advisory Committee Meeting

The Defense Science Board Task Force on ECM will meet in closed session on November 9 and 10, 1978 in the Pentagon, Arlington, VA.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Research and Engineering on scientific and technical matters as they affect the perceived needs of the Department of Defense.

A meeting of the Task Force on ECM has been scheduled for November 9 and 10, 1978 to discuss potential technical solutions to several current problems in electronic countermeasures.

In accordance with section 10(d) of Appendix I, Title 5, United States Code, it has been determined that this Defense Science Board Task Force meeting concerns matters listed in Section 552b(c) of Title 5, of the United States Code, specifically subparagraph (1) thereof, and that accordingly this meeting will be closed to the public.

MAURICE W. ROCHE,
Director, Correspondence and Directives DOD/WHS

DOD ADVISORY GROUP ON ELECTRON DEVICES

Advisory Committee Meeting

The DOD Advisory Group on Electron Devices (AGED) will meet in closed session at the Naval Postgraduate School, Monterey, Calif. 93940 on November 13, 1978.

The purpose of the Advisory Group is to provide the Under Secretary of Defense for Research and Engineering, the Director, Defense Advanced Research Projects Agency and the Military Departments with technical advice on the conduct of economical and effective research and development programs in the area of Electron Devices.

The meeting will be limited to review of research and development programs which the Military Departments propose to initiate with industry, universities or in their laboratories. The AGED will review programs on microwave devices, night vision devices, lasers, infrared systems and microelectronics. The review will include classified program details throughout.

In accordance with section 10(d) of Appendix I, Title 5, United States Code, it has been determined that this Advisory Group meeting concerns matters listed in section 552b(c) of Title 5 of the United States Code, specifically Subparagraph (1) thereof, and that accordingly this meeting will be closed to the public.

MAURICE W. ROCHE,
Director, Correspondence and Directives, Washington Headquarters Service, Department of Defense.

DOD ADVISORY GROUP ON ELECTRON DEVICES

Advisory Committee Meeting

Working Group B (Mainly Low Power Devices) of the DOD Advisory Group on Electron Devices (AGED) will meet in closed session at the Institute for Defense Analyses, 400 Army Navy Drive, Arlington, VA., on November 6-8, 1978.

The purpose of the Advisory Group is to provide the Under Secretary of Defense for Research and Engineering, the Director, Defense Advanced Research Projects Agency and the Military Departments with technical advice on the conduct of economical and effective research and development programs in the area of electron devices.

The Working Group B meeting will be limited to review of research and development programs on Large Scale Integrated Circuits which the Military Departments propose to initiate with industry, universities or in their laboratories. The review will include classified program details and technical and financial information provided in confidence by business throughout the meeting.

In accordance with section 10(d) of Appendix I, Title 5, United States Code, it has been determined that this Advisory Group meeting concerns matters listed in section 552b(c) of Title 5 of the United States Code, specifically subparagraph (1) thereof, and that accordingly this meeting will be closed to the public.

MAURICE W. ROCHE,
Director, Correspondence and Directives, Washington Headquarters Service, Department of Defense.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket Nos. CI78-1000, et al.]

CITIES SERVICE COMPANY, ET AL.

Applications for Certificates, Abandonment of Service and Petitions To Amend Certificates [1]

OCTOBER 13, 1978.

Take notice that each of the Applicants listed herein has filed an application or petition pursuant to section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before November 13, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or to be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[1] This notice does not provide for consolidation for hearing of the several matters covered herein.

[Docket No. RI77-128]

HERBERT S. WOODS & ASSOCIATES

Order Granting Special Relief

OCTOBER 4, 1978.

On August 29, 1977, Herbert S. Woods & Associates (Woods), a small producer, filed a petition for special relief pursuant to § 2.76 of the Commission's [1] general policy and interpretations (18 CFR 2.76). Woods requested a rate of $2.00/Mcf for gas from the J. L. Swiney No. 1 well, Hall Wood Ben Conglomerate Field, Jack County, Tex., sold to Natural Gas Pipeline Co. of America (Natural). Woods currently is authorized a rate of 13¢/Mcf plus Btu adjustments.

Woods, the well's operator, owns 81.25 percent of the working interest, and has a small producer certificate in docket No. CS77-580, issued November 25, 1977. This petition for special relief is joined by 100 percent of the well's working interest owners.

Woods amended his petition to a rate of $1.55/Mcf on April 1, 1978.

The original petition was noticed on September 29, 1977, and the amendment was noticed April 25, 1978. Natural intervened on October 20, 1977, stating it would pay Woods the rate authorized by the Commission.

Woods proposes to purchase a $35,000 two-stage compressor and a $30,000 pumping unit and spend a total of $123,000 to place the well back into production. Woods states that the well presently lacks pressure sufficient to prevent water encroachment and flooding. Staff estimates the expenditures of the stated funds will result in the gross production of 187,554 Mcf of natural gas (at 14.65 psia) and 1,951 bbls of liquids, over 6 years 7 months.

Staff estimates that the proposed investment is reasonable and it calculated that a rate of $1.56/Mcf would yield Woods a return of his costs plus a 15-percent return. Staff recommends the rate of $1.55/Mcf be authorized Woods for the gas sales from the subject well.[2]

Our review of the costs to be incurred and the reserves to be recovered convinces us that it is in the public interest to grant Woods' amended petition for special relief. The authorized rate is $1.55/Mcf at 14.65 psia under the terms of this order.

The Commission orders:

(A) Herbert S. Woods & Associates is authorized to collect a total rate of $1.55/Mcf at 14.65 psia for the sale of the subject gas to Natural Gas Pipeline Co. of America, effective the date of this order or the date the proposed work is completed, whichever is later, subject to ordering paragraphs (B) and (C).

(B) The special relief rate authorized in ordering paragraph (A) shall not become effective as provided therein unless Woods files a statement, signed by Natural, setting forth the date the proposed work has been completed to Natural's satisfaction, within 30 days of the effective date of ordering paragraph (A).

(C) The special relief rate authorized in ordering paragraph (A) shall not become effective as provided therein, unless within 30 days of the date of issuance of this order, Woods files a copy of an executed contract amendment with Natural, providing for payment of the rate authorized herein, and a notice of independent producer rate change filing in docket No. CS77-580 for such rate.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. RI77-70]

INTERSTATE DRILLING, INC. (OPERATOR)

Order Granting Special Relief

OCTOBER 4, 1978.

On May 5, 1977, Interstate Drilling, Inc. (Interstate), a small producer, filed a petition for special relief pursuant to § 2.76 of the Commission's [1] Statements of general policy and interpretations, 18 CFR 2.76, for the sale of natural gas to Columbia Gas Transmission Corp. (Columbia Gas) from 8 wells which have State permit Nos. GIL 2263, 2264, 2265, 2272, 2274, 2275, 2277, 2279 and which are located in the Troy district of Gilmer County in West Virginia. Interstate, which has no ownership interest in the subject property, is the operator and is filing on behalf of all the working interests. Subsequently, Interstate filed an amended petition for special relief on September 30, 1977.

Interstate is selling this gas under a contract dated June 30, 1973, pursuant to a certificate issued in Docket No. CS76-1164. The present authorized rate for the sale of this gas is $1.22 per Mcf.

Notice of Interstate's petition for special relief was issued by the Commission on May 17, 1977; notice of the amended petition was issued March 8, 1978. Both notices were published in the FEDERAL REGISTER. The Public Service Commission of West Virginia filed a timely notice of intervention.

THE PROPOSAL

In its amended petition for special relief, Interstate requests authorization to increase the rate for the sale of this gas from $1.22 per Mcf to $1.32 per Mcf.[2] Interstate proposes to spend $12,000 to disconnect the fluid siphoning line from eight wells and then set a plug in each well to prevent fluids from covering the producing zone.

In a letter dated September 29, 1977, Columbia Gas stated that it was willing to amend the price provision of the January 30, 1973, contract to a price found to be just and reasonable by the Commission.

COST STUDY ANALYSIS

On the basis of a field investigation conducted on July 21, 1977, staff has determined that Interstate does not have any current investment in the subject property. Staff found the 1976 costs to be suitable as a base year for projecting the total annual production costs. The total estimated production expenses of $81,094 were determined by applying a 5 percent inflation factor for the first 5 years to the 1976 base year costs of $8,258. Staff accepts

[1] This proceeding was commenced before the FPC. By the joint regulation of Oct. 1, 1977 (10 CFR 1000.1) it was transferred to the FERC. The term "Commission", when used in the context of action taken prior to Oct. 1, 1977, refers to the FPC. When used otherwise, the reference is to the FERC.

[2] In its original petition Interstate requested a rate of $1.70 per Mcf for the sale of this gas.

the estimate of $12,000 for the proposed investment. Finally, based on data filed by Interstate, staff estimates that 100,500 Mcf of gas remain to be recovered over 9 years.

Staff's cost study using the above costs and 82,450 Mcf of the gas reserves, attributable to Interstate's 82.04 percent net working interest, indicates that a total rate of $1.32 per Mcf at 14.73 psia will allow Interstate to recoup all costs associated with this project over its 9 year life including a 15 percent rate of return. Therefore, Staff concludes that the requested rate for special relief is cost supported.[3]

After reviewing the costs to be incurred and the reserves to be recovered, the Commission determines that Interstate's petition for special relief is warranted and that it is in the public interest to grant this petition.

The Commission finds: The petition for special relief by Interstate meets the criteria set forth in § 2.76 of the Commission's general policy and interpretations.

The Commission orders:

(A) The amended petition for special relief filed by Interstate is granted.

(B) Interstate is authorized to collect a rate of $1.32 per Mcf at 14.73 psia for the sale of gas to Columbia Gas from eight wells which have State permit numbers GIL 2263, 2264, 2265, 2272, 2274, 2275, 2277, 2279, and which are located in the Troy district of Gilmer County in West Virginia effective either upon the date of issuance of this order or the date the proposed work is completed, whichever is later.

(C) This authorization is conditioned on the following: (1) Interstate must file within 30 days of the date of this order a notice of independent producer rate change in Docket No. CS76-1164, accompanied by an executed copy of the amended contract agreement providing for the rate increase; (2) within 30 days of the effective date provided in ordering paragraph (B) above for the rate authorized herein, Interstate shall file a statement signed by Columbia Gas that the work has been completed to its satisfaction.

(D) The Public Service Commission of West Virginia is permitted to intervene in the captioned proceeding, subject to the rules and regulations of the Commission: *Provided, however,* That its participation shall be limited to matters affecting asserted rights and interests specifically set forth in its notice of intervention: *and provided further,* That the admission of the Public Service Commission of West Virginia in the manner provided shall not be construed as recognition by the Commission that it might be aggrieved because of any order or orders entered in this proceeding, and that it agrees to accept the record as it now stands.

[3] See app. A.

By the Commission.

LOIS D. CASHELL,
Acting Secretary.

Federal Energy Regulatory Commission

[Docket Nos. G-5044, et al.]

SHELL OIL CO., ET AL.

Applications for Certificates, Abandonment of Service and Petitions To Amend Certificates[1]

OCTOBER 13, 1978.

Take notice that each of the applicants listed herein has filed an application or petition pursuant to section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before November 9, 1978, file with the Federal Energy Regulatory Commission.

[1] This notice does not provide for consolidation for hearing of the several matters covered herein.

Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicants to appear or to be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

Docket No. and date filed	Applicant	Purchaser and location	Price per 1,000 ft.³	Pressure base
CI78-1150 (CI68-205), B, Aug. 28, 1978	Anadarko Production Co., P.O. Box 1330, Houston, Tex. 77001.	Cities Service Gas Co., certain acreage in Woods County, Okla.	Depleted, leases terminated as result of cessation of production.	

[1] Shell was unable to establish commercial production from lease L-21606 and executed the "Release of Oil and Gas Lease" dated Feb. 25, 1970, releasing 1133 acres more or less, to the lessor.
[2] Lands were condemned by several unsuccessful wells drilled to or below the Tusculoosa on or in the vicinity. Leases were assigned or released. Continental has no knowledge of the disposition of these lands, which they surrendered or assigned many years ago (over 20 yr in most cases).
[3] Applicant is willing to accept the applicable national rate pursuant to option No. 770, as amended.
[4] Applicant is filing under gas sales contract dated May 18, 1978.
[5] Applicant is filing under gas sales contract dated Apr. 28, 1978.
[6] Gas deliveries ceased April 1975, depleted, all wells plugged and abandoned, leases expired by their own terms and gas sales contract with purchaser canceled.
[7] Seller and purchaser are affiliated.
[8] Only gas well on lease reclassified as an oil well and casinghead gas from the oil well is not dedicated to Northern Natural Gas Co. under rate schedule No. 164.
[9] Applicant is filing under contract dated June 21, 1978.
[10] Applicant is requesting special relief in the form of waiver of the prices set forth in sec. 2.59a pursuant to sec. 2.56a(g) of the Commission's general policy and interpretations and is filing under gas purchase contract dated Aug. 14, 1978.
[11] Chevron no longer retains any interest in lands originally subject to the certificate and has obtained no production from the lands since March 1974. None of the surrendered lands contained prospects for further economic reserves. In the case of those lands assigned to King Resources the assignee applied for and obtained a successor certificate in docket No. CI69-966 et al.
[12] Applicant is filing under gas purchase contract dated July 19, 1978.
[13] Applicant is filing under gas sale contract dated Mar. 1, 1977.
[14] Applicant is filing under gas purchase contract dated and entered into as of Jan. 1, 1979.
[15] Applicant is filing under gas purchase contract dated Aug. 10, 1978.

Filing code: A—Initial service. B—Abandonment. C—Amendment to add acreage. D—Amendment to delete acreage. E—Total succession. F—Partial succession.

DEPARTMENT OF ENERGY

ISSUANCE OF PROPOSED DECISIONS AND ORDERS BY THE OFFICE OF HEARINGS AND APPEALS

September 25 Through September 29, 1978

Notice is hereby given that during the period September 25 through September 29, 1978, the proposed decisions and orders which are summarized below were issued by the Office of Hearings and Appeals of the Department of Energy with regard to applications for exception which had been filed with that Office.

Amendments to the DOE's procedural regulations, 10 CFR, part 205, were issued in proposed form on September 14, 1977 (42 FR 47210 (September 20, 1977)), and are currently being implemented on an interim basis. Under the new procedures any person who will be aggrieved by the issuance of the proposed decision and order in final form may file a written notice of objection within 10 days of service. For purposes of the new procedures, the date of service of notice shall be deemed to be the date of publication of this notice or the date of receipt by an aggrieved person of actual notice, whichever occurs first. The new procedures also specify that if a notice of objection is not received from any aggrieved party within the time period specified in the regulations, the party will be deemed to consent to the issuance of the proposed decision and order in final form. Any aggrieved party that wishes to contest any finding or conclusion contained in a pro-

V 4 3 / 2 0 5 0 OCT 23 78

posed decision and order must also file a detailed statement of objections within 30 days of the date of service of the proposed decision and order. In that statement of objections an aggrieved party must specify each issue of fact or law contained in the proposed decision and order which it intends to contest in any further proceeding involving the exception matter.

Copies of the full text of these proposed decisions and orders are available in the public docket room of the Office of Hearings and Appeals, room B-120, 2000 M Street NW., Washington, D.C. 20461, Monday through Friday, between the hours of 1 p.m. and 5 p.m., e.d.t., except Federal holidays.

MELVIN GOLDSTEIN,
Director, Office of Hearings and Appeals.

OCTOBER 16, 1978.

PROPOSED DECISIONS AND ORDERS

Asiatic Petroleum Corp., New York, N.Y., DPI-0017

Pacific Resources, Inc., Honolulu, Hawaii, DPI-0009

Inter-Americas Oil Co., Pittsburgh, Pa., DPI-0010

Roarda, Inc., Washington, D.C., DPI-0011

Seanoil, Inc., New York, N.Y., DPI-0012, Residual Fuel Oil

Asiatic Petroleum Corp., Pacific Resources, Inc., Inter-Americas Oil Co., Roarda, Inc., and Seanoil, Inc., filed applications for Exception from the mandatory oil import program of the DOE. The exception requests, if granted, would permit the firms to import specified quantities of residual fuel oil into District I on a license fee-exempt basis during the current allocation period. On September 25, 1978, the DOE issued a Proposed Decision and Order to the firms in which it tentatively determined that they should be granted sufficient fee-exempt authority to permit them to import 81.2 percent of their projected imports into District I during the current allocation period on a fee-exempt basis subject to certain conditions.

Champlin Petroleum Co., Fort Worth, Tex., DEE-1309, Crude Oil Producer

The Champlin Petroleum Co. filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D. The exception request, if granted, would permit the working interest owners to sell the crude oil produced from the State of New Mexico's lease number 18 at upper tier prices. On September 29, 1978, the DOE issued a Proposed Decision and Order granting in part the Champlin exception application.

Clarke County Supply, Inc., Berryville, Va., DEE-0452, No. 2 Heating Oil/Coal

Clarke County Supply, Inc., filed an Application for Exception from the reporting requirements of Forms EIA 2 and EIA 9. This exception request, if granted, would have relieved Clarke of the obligation to file one of these forms. On September 28, 1978, the Department of Energy issued a Proposed Decision and Order which determined that the exception request be denied.

Don Baldwin Oil, Gloversville, N.Y., DEE-1052

Wilmont Oil Co., Seabrook, N.H., DEE-1063

John Galt, Inc., Hyattsville, Md., DEE-1035

Shur-Heel Oil Co., Lyndhurst, N.J., DEE-1172

H. C. Mayer & Sons, Inc., Wayzata, Minn., DEE-1343, No. 2 Heating Oil

The five firms specified above filed Applications for Exception from the reporting requirements of Form EIA 9. The exception requests, if granted, would relieve these firms of any obligation to prepare and submit Form EIA 9. On September 28, 1978, the Department of Energy issued a Proposed Decision and Order which determined that the exception requests be denied.

R. H. Engelke, San Antonio, Tex., DXE-1667, Crude Oil

R. H. Engelke filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D. The exception request, if granted, would permit the firm to continue to sell a portion of the crude oil produced from the Bertha Copsey Lease located in Jackson County, Tex., at upper tier ceiling prices. On September 28, 1978, the DOE issued a Proposed Decision and Order in which it determined that exception relief should be granted.

McGoldrick Oil Co., Shreveport, La., DEE-1654, Crude Oil

McGoldrick Oil Co. filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D. The exception request, if granted, would permit McGoldrick to sell certain volumes of the crude oil which it produces from the Chaparral Oil Units 18-4, 18-5, and 18-6 at market prices. On September 26, 1978, the Department of Energy issued a Proposed Decision and Order to McGoldrick in which it was tentatively determined that the exception request be granted with respect to the Chaparral Oil Unit 18-5 and denied with respect to Units 18-4 and 18-6.

M. J. Mitchell, Dallas, Tex., DXE-1666, Crude Oil

M. J. Mitchell filed an Application for Exception from the provisions of 10 CFR 212.73. The request, if granted, would result in the extension of exception relief previously granted and permit the firm to continue to sell crude oil which it produces from the Pickrel Ranch Minnelusa Sand Unit at market prices. On September 28, 1978, the DOE issued a Proposed Decision and Order which determined that the exception request should be granted in part.

Petroleum, Inc., Wichita, Kans., DEE-0317, Crude Oil

Petroleum, Inc. filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D. The exception request, if granted, would permit Petroleum to sell the crude oil which it produces from the Crowder Lease at upper tier ceiling prices. On September 29, 1978, the DOE issued a Proposed Decision and Order which determined that Petroleum should be permitted to sell at upper tier ceiling prices 100 percent of the crude oil produced from the Crowder Lease for the benefit of the working interest owners for a period of six months.

Phillips Petroleum Co., Bartlesville, Okla., DXE-1554, Crude Oil

Phillips Petroleum Co. filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D, in which the firm requested that it be permitted to continue to sell certain of the crude oil which it produces at the Foote Lease, located in Oklahoma County, Oklahoma, at upper tier ceiling prices. On September 26, 1978, the DOE issued a Proposed Decision and Order which determined that the Phillips exception request be granted.

Southland Drilling Co., Inc., Houston, Tex., DEE-0113, Crude Oil

Southland Drilling Co., Inc., filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D. The exception request, if granted, would permit Southland to receive upper tier ceiling prices for the crude oil which the firm produced from the ARCO Castillo "A" Lease during the months of February, March, and April 1977. On September 28, 1978, the DOE issued a Proposed Decision and Order which determined that the exception request should be denied.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 991-1]

RECEIPT OF ENVIRONMENTAL IMPACT STATEMENTS

President Carter's Reorganization Plan No. 1 (see President's Message of July 15, 1977) transferred certain functions from the Council on Environmental Quality (CEQ) to the Environmental Protection Agency (EPA). Some of these functions relate to operational duties associated with the administrative aspects of the environmental impact statement (EIS) process. In Memorandum of Agreement No. 1 entered into between CEQ and EPA, dated March 29, 1978, it was agreed that EPA would be the official recipient of EIS's and would publish the availability of each EIS received on a weekly basis. This is the duty formerly carried out by CEQ pursuant to section 1500.11(c) of the CEQ Guidelines.

Review periods for draft and final EIS will be computed as follows: the 45-day review period for draft EIS's will be computed from the Friday following the week which is being reported; the 30-day wait period for final EIS's will be computed from the date of receipt of the EIS by EPA and commenting parties.

The following is a list of environmental impact statements received by the Environmental Protection Agency from October 2, 1978, through October 6, 1978; the date of submission of comments on draft EIS's as computed from October 13, 1978, is November 27, 1978.

Copies of individual statements are available for review from the originating agency. Back copies are also available at 10 cents per page from the Environmental Law Institute, 1346 Connecticut Avenue, Washington, D.C. 20036.

Dated: October 17, 1978.

PETER L. COOK,
Acting Director, Office of Federal Activities.

DEPARTMENT OF AGRICULTURE

Contact: Mr. Barry Flamm, Coordinator, Environmental Quality Activities, U.S. Department of Agriculture, Room 359A, Washington, D.C. 20250, 202-447-3965

FOREST SERVICE

Draft

Norbeck Wildlife Preserve, Black Hills National Forest, Custer and Pennington Counties, S. Dak., October 3: Proposed is a land management plan for the Norbeck Wildlife Preserve of the Black Hills National Forest located in Custer and Pennington Counties, S. Dak. The preserve encompasses 34,873 acres of national forest, private, State, or other federally owned lands. The preferred alternative consists of: (1) Allocation of the entire unit (with exception of the Norbeck Rare II Area and the Pine Creek Natural Area) for wildlife habitat improvement, (2) use of motorized vehicles for management activities, (3) closing of roads after management activities are completed, and (4) continuing use of existing main highways and roads serving private lands. (USDA-FS-R2-DES-(ADM)-FY-78-04) (EPA Order No. 81063).

Final

Gospel Hump, Nezperce and Payette National Forest Wilderness, Idaho, October 3: Proposed is the recommendation for a wilderness study area of 30,830 acres of national forest land in the Nezperce and Payette National Forests in northern Idaho, and a land management plan for 289,034 acres of national forest land in the Nezperce National Forest. Principal environmental impacts resulting from the recommendations in this EIS are associated with timber harvest and culture, treatment of big game winter ranges, off-road vehicle use and general wilderness use. (USDA-FS-R1-17-FES-(ADM)-R1-78-4). Comments made by: DOC, EPA, DOI, State and local agencies, and individuals. (EPA Order No. 81068.)

RURAL ELECTRIFICATION ADMINISTRATION

Final

Western farmers coal fired plant and transmission, Choctaw County, Okla., October 6: This proposal involves the granting of REA loan guarantee funds and the issuance of an EPA NPDES permit to the Western Farmers Electric Cooperative (WFEC), for the construction of a new steam-electric generating plant on a 3,000-acre site, and associated transmission lines in Choctow County, Okla. As part of the project coal will be obtained from the Powder River Basin and water will be obtained from the Hugo Reservoir. The transmission lines will run from the plant with approximately 18 miles of 345 KV line to the WFEC Valliant Substation and approximately 11 miles of line to the PSO Valliant Substation (USDA-REA-EIS-(ADM)-78-9F). Comments made by: EPA, AHP, HEW, USDA, DOI, State agencies, and groups. (EPA Order No. 81109.)

SOIL CONSERVATION SERVICE

Final

Beartown flood control RC&D measure, Pike County, Miss., October 2: The project covered in this proposal concerns the elimination of flooding in an area located near Beartown Creek, Pike County, Miss. The project activities include the installation of 5,395 feet of channel work which consists of enlargement of 298 feet, construction of a new channel, channel clearing, and rock lining for stability. Also planned is the construction of a levee along the west channel, and a lateral of 595 feet in length to bring flows back into the main channel. (USDA-SCS-EIS-RC&D-(ADM)-78-2-D-MS). Comments made by: DOI, USDA, EPA, State agencies, and groups. (EPA Order No. 81060.)

White's Mill Flood prevention and drainage, RC&D, Sumter County, S.C., October 4: This proposal concerns the management and alteration of 145 acres of land in Sumter County, S.C., to prevent flooding and improve drainage. Land treatment will include such measures as land leveling, open ditches, tile drains, field ditches, brush control, and improved management practices. The proposed structural measures consist of about 0.7 miles of channel work with a bottom width of 3 feet. All of the channel work will be on previously altered ephemeral streams (USDA-SC-EIS-RC&D-(ADM)-78-1-(F)-SC). Comments made by: DOD, DOI, DOC, HEW, EPA, State and local agencies. (EPA Order No. 81078.)

Hungry Hall flood prevention and drainage, Clarendon and Sumter Counties, S.C., October 6: The purpose of this proposal is to eliminate flooding and improve drainage on farmlands within Clarendon and Sumter Counties, S.C. The planned project will consist of land treatment and 3.5 miles of channel work on previously altered ephemeral streams. Land treatment measures will consist of on-farm drainage (open and closed), field borders, wind breaks, and wildlife food and cover planting. The main channel which is 2.4 miles long will have a bottom width of 3 to 8 feet, and the lateral will have a bottom width to 3 feet. (USDA-SCS-EIS-RC&D-(ADM)-78-2-(F)-SC). Comments made by: DOI, DOC, HEW, EPA, and State agencies. (EPA Order No. 81090.)

Pine Creek watershed, city of Oneida, Scott County, Tenn., October 3: Proposed is a watershed project to reduce floodwater damages to farmland and to floodplain within the city of Oneida, Tenn. The plan calls for an increased amount of conservation land treatment; a multiple-purpose structure for flood prevention and municipal water supply; a multiple-purpose structure for flood prevention and recreation; and, channel work to increase design capacity and to incorporate improved SCS channel stability requirements. Adverse effects include the disturbance of 171 acres of flood plain (USDA-SCS-EIS-WS-78-(ADM)-2-F-TN). Comments made by: DOD, DOI, HEW, USDA, EPA, FPC, TVA, State and local agencies, and businesses. (EPA Order No. 81067.)

DEPARTMENT OF DEFENSE, AIR FORCE

Contact: Dr. Carlos Stern, Deputy for Environment and Safety, Office of Assistant Secretary of the Air Force, Department of Defense, Air Force, Pentagon, Room 4C885, Washington, D.C. 20330, 202-697-9297.

Final

Air Force Missile MX: Milestone II, October 6: The U.S. Air Force proposes the development of a new intercontinental ballistic missile (ICBM) force and basic system known as MX. The MX system will soon require a limited number of full-scale prototype missiles and a series of tests associated with these prototypes. This development and test program is known as a full-scale engineering development (FSED). The proposal discusses the feasibility of proceeding with the FSED phase. Comments made by: AHP, DOD, DOI, FERC, NASA, DOI, EPA, State and local agencies, groups and individuals. (EPA Order No. 81093.)

U.S. ARMY CORPS OF ENGINEERS

Contact: Dr. C. Grant Ash, Office of Environmental Policy, Attention: DAEN-CWR-P, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Avenue SW., Washington, D.C. 20314, 202-693-6795.

Draft

Wilmington Harbor, northeast Cape Fear River, Wilmington, New Hanover County, N.C., October 3: Proposed is the widening and deepening of an existing deep draft ship channel and turning basin located in Wilmington, New Hanover County, N.C. Other features of the project are: (1) Acquiring fee simple or conservation rights on 2,800 acres of wetland and upland attendant to the river, (2) maintaining the new navigation improvements, (3) providing for controlled access to the navigation channel, and (4) management of the acquired 2,800-acre conservation area (Wilmington District). (EPA Order No. 81069.)

Bellingham Harbor navigation project, Whatcom County, Washington, October 4: Proposed is an ongoing program of maintenance dredging within the Bellingham Harbor, Whatcom County, Wash., including project waterways. Dredged materials (320,000 cubic yards) will be disposed of in a Washington Department of Natural Resources designated open water disposal area. The currently authorized Bellingham Harbor navigation project will involve dredging of three project waterways to maintain their authorized project depths. Included under the present authorization are Squalicum Creek Waterway, I&J Street Waterway, Whatcom Creek, and the entrance channel to Squalicum Small Boat Basin (Seattle District). (EPA Order No. 81074.)

Final

Dredging of the Missouri River Bridge, Dakota County, Nebr., and Woodbury County, Iowa, October 6: The proposed project involves the dredging of fill material from the Missouri River at Mile 732.05 to 732.40 in conjunction with the proposed new bridge at Mile 732.30 in Dakota County, Nebr., and Woodbury County, Iowa. A permit for this dredging, if granted, will be authorized under section 10 of the River and Harbor Act of 1899, and under provisions of section 404 of the FWPCA Amendments of 1972. The issuance of the section

V 43 / 205 OCT 23 78

10 permit would allow dredging of approximately 650,000 cubic yards of fill material from the Missouri River for the construction of the interchange between U.S. 20 and Interstate 29 in conjunction with the construction of a replacement bridge. Comments made by: HUD, EPA, FERC, DOT, DOI, State and local agencies. (EPA Order No. 81088.)

Mouth of Colorado River, Tex., Matagh-orda County, Tex., October 3: The proposed project consists of an entrance channel in the gulf, 15 feet deep by 200 feet wide, protected by jetties. The proposed east jetty is a weir type, designed to pass littoral material into an impoundment basin for periodic transfer to the down-drift beach. From the gulf inland to its connection with the Gulf Intracoastal Waterway (GIWW), the proposed channel will be dredged to 12 feet in depth and 100 feet in width. Adverse effects include the elimination of most of the benthic populations occupying the affected areas. About 242 acres of terrestrial wildlife habitat will be removed or modified (Galveston District). Comments made by: EPA, DOI, DOC, AHP, HEW, USDA, DOT, and State agencies. (EPA Order No. 80949.)

Final supplement

Grays Harbor and Chehalis River, Terminal No. 2, Grays Harbor, Wash., October 6: This EIS supplements a final EIS filed with CEQ. The proposed action involves the construction of a new pier, dredging of a berth in front of this pier, and filling of tidelands between the new pier and adjacent to slip No. 2 at the port of Grays Harbor in Aberdeen, Wash. (Seattle District). Comments made by: USDA, DOE, DOC, EPA, COE, HUD, DOI, State and local agencies, and groups. (EIS Order No. 81094.)

DEPARTMENT OF DEFENSE, ARMY

Contact: Mr. George A. Cunney, Jr., Acting Chief, Environmental Office, Office of the Assistant Chief of Engineers, Department of the Army, Room 1E676, Pentagon, Washington, D.C. 20310, 202-694-4269.

Final supplement

Transportation of chemical material, several counties, October 6: This statement supplements a final EIS filed in October 1977, and was prepared to provide additional information relative to the preparation and shipment of the MK116 MOD O WETEYE bombs from Rocky Mount Arsenal in Colorado to Toole Army Depot, Utah. The method of transport has been modified to avoid any leakage problems during the transfer. (EPA Order No. 81098.)

Contact: Mr. John Hagan, Environmental Protection Agency, Region IV, 345 Courtland Street NE., Atlanta, Ga. 30308, 404-881-7458.

Draft

Horsepen Creek Intrerceptor, Greensboro, Guilford County, N.C., October 4: Proposed is the awarding of grant funds to Guilford County, N.C., for the purpose of developing a wastewater treatment system to service the Greensboro-Guilford County area of which the Horsepen Creek Interceptor is a part. The project consists of the necessary facilities to transport wastewater from the Horsepen Creek Basin to the city of Greensboro wastewater collection system for treatment. Six alternatives are considered (EPA-904/9-78-021). (EPA Order No. 81079.)

DEPARTMENT OF HUD

Contact: Mr. Richard H. Broun, Director, Office of Environmental Quality, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-6308.

Draft

Riverview Estates, Fresno, Fresno County, Calif., October 3: Proposed is the issuance of HUD home mortgage insurance for the residential development of Riverview Estates in the city of Fresno, Fresno County, Calif. Development will occur on 354.39 acres of presently vacant grazing land. Initial development of 163.39 acres will provide 357 single-family homes, and 657 multiple-family units. The developer plans to build an additional 600-800 single-family units on the remaining 191 acres. Alternatives include no project, and other uses (HUD-R09-EIS-1978-7D). (EPA Order No. 81070.)

Ardenwood Village, Fremont, Alameda County, Calif., October 4: Proposed is the issuance of HUD home mortgage insurance for Ardenwood Village, Fremont, Alameda County, Calif. The subdivision is located on 317 acres of prime agricultural land and would provide 1,417 single family homes, a 2.1-acre commercial site, a 12-acre combined primary school and park site and 9.3 acres of 60-foot-wide buffer strip. Three alternatives are considered which include: (a) no HUD participation in the project, (2) modification of project proposal, and (3) no project (HUD-R09-EIS-78-8D). (EPA Order No. 81077.)

Amhurst Subdivision, Harris County, Tex., October 3: Proposed is the issuance of HUD home mortgage insurance for the Amhurst Subdivision located in Harris County, Tex. The subdivision encompasses approximately 340 acres and when completed, will contain approximately 1,672 single family homes. Recreational facilities will be provided to serve the subdivision. Three alternatives are considered (HUD-R06-EIS-45D). (EPA Order No. 81065.)

Morton Road Tract, Subdivision, Harris County, Tex., October 3: Proposed is the issuance of HUD mortgage insurance for the Morton Road Tract in Harris County, Tex. The subdivision encompasses approximately 237 acres of land and will be composed of about 435 units, primarily single-family homes. Three alternatives are considered which include: (1) Accept proposal as submitted, (2) accept with modifications, and (3) reject (HUD-R06-EIS-78-43D). (EPA Order No. 81066.)

Ricewood Tract, Highlands of Westlake, Harris County, Tex., October 3: Proposed is the issuance of HUD home mortgage insurance for the Ricewood Tract, Harris County, Tex. The proposed subdivision is being developed in conjunction with another tract and is being marketed as the Highlands of Westlake. The area will encompass approximately 358 acres and will provide, when completed, approximately 1,400 single-family dwellings (HUD-R06-EIS-78-44D). (EPA Order No. 81071.)

Northwest El Paso Joint Venture, El Paso, El Paso County, Tex., October 5: Proposed is the issuance of HUD home mortgage insurance for the Northwest El Paso Joint Venture, El Paso County, Tex. Seven different, adjoining owners of land plan to develop approximately 2,106.6 acres as residential subdivisions. Included in the planned development are the needed and necessary support facilities, such as, commercial, recreational, educational, fire and utilities. Three alternatives are considered (HUD-R06-EIS-8-321). (EPA Order No. 81084.)

Final

Grandview Pines, Ltd., Millbrook, Elmore and Millbrook Counties, Ala., October 6: This statement concerns Grandview Pines, an ongoing development project on 530 acres of land located in Millbrook and Elmore Counties, Ala. A portion of the development is completed or under construction with the remainder under application for FHA mortgage insurance. Community facilities and 1,250 housing units will be constructed over a 10-year period with land reserved for open space, recreational facilities, and commercial use. (HUD-R04-EIS-77-31F). Comments made by USDA, EPA, FPC, COE, DOI, AHP, and State agencies. (EPA Order No. 81096.)

Partial development in Dover Valley, Fairfield, Solano County, Calif., October 4: Proposed is the development of 300 acres of vacant agricultural land into a residential subdivision which will provide 862 single-family homes, 165 multiple homes and 224 townhouses in Solano County, Calif. Application has been made for HUD home mortgage insurance funds by the Hufmann Construction Co. Also included as part of the proposal is the development of a 20-acre community park combined with 23 acres for school sites (HUD-R09-EIS-1978-1F). Comments made by: GSA, VA, DOT, HEW, AHP, DOI, USDA, local agencies, and businesses. (EPA Order No. 81075.)

Forest Park Subdivision, Hamilton, Clermont, and Warren Counties, Ohio, October 3: Proposed is the development of 2,732 residential units including 210.02 acres of supplementary commercial industrial land. This site is located in the city of Forest Park, Ohio, and is approximately 14 miles north of Cincinnati. It is conveniently accessible to both I-275 and I-75. Upon completion of the applicant's four land development phases, the project will contain 2,732 residential units with 210.2 acres of industrial/commercial development on a total of 1,024.45 acres (HUD-R05-EIS-77-19F). Comments made by: DOT, DOC, GSA, DOD, DDO, EPA, and State agencies. (EPA Order No. 81062.)

Highland Creek Village Subdivision, Harris County, Tex., October 2: The proposed action is for the Department of Housing and Urban Development to accept 541 acres for the Highland Creek Village Subdivision located in Harris County, Tex., for HUD-FHA mortgage insurance under section 203(B) of Title II of the National Housing Act of 1943. When complete the subdivision will contain approximately 2,400 single-family homes. Beneficial impacts include providing needed housing with the growing community (HUD-R06-EIS-78-9-F.) Comments made by: USDA, USA, DOT, EPA, AHP, DOI, State agencies, and groups. (EPA Order No. 81058.)

SECTION 104(H)

Following are community development block grant statements prepared and circulated directly by applicant pursuant to section 104(H) of the 1974 Housing and Community Development Act. Copies may be obtained from the Office of the appropriate local executive. Copies are not available from HUD.

Final

4447 Duke Street Rehabilitation, Alexandria, Fairfax County, Va., October 6: The proposal is an application for funds to rehabilitate the existing Shirley Duke and Regina Apartments, located on Duke Street in Alexandria, Fairfax County, Va. The project activities include the replanning and reconstruction of the interior units to provide 1,585 one- and 528 two-bedroom units, replacement of roofs and interior utility systems, commercial construction of seven recreational areas, paving of parking areas and minor rehabilitation of the commercial area (HUD-000-35198-PM-SR). Comments made by: EPA, DOD, DOI, State and local agencies. (EPA Order No. 81095.)

DEPARTMENT OF INTERIOR

Contact: Mr. Bruce Blanchard, Director, Environmental Project Review, Room 4256, Interior Building, Department of the Interior, Washington, D.C. 20240, 202-343-3891.

BUREAU OF LAND MANAGEMENT

Final

Tuledad-Home camp planning unit, grazing, California and Nevada, October 4: The proposed action is the implementation of a grazing management program of the Tuledad-Home camp planning unit, located in the counties of Modoc and Lassen, Calif. and Washoe County, Nev. The management area comprises nearly 700,000 acres of public land. The plan proposed 3 levels of management: (1) systematic grazing management on 670,000 acres, (2) custodial management on about 5,000 acres, and (3) livestock grazing exclusions (no livestock grazing) in 19,000 acres (FES-78-26). Comments made by: DOI, AHP, HEW, USDA, DOT, DOD, NRC, DOE, State and local agencies. (EPA Order No. 81073.)

BUREAU OF MINES

Draft

Surface Mining Control and Reclamation Act, 501(B), October 3: Proposed is the promulgation of a permanent regulatory program, under section 501(B) of the Surface Mining Control and Reclamation Act of 1977. The three major components which comprise this proposal are: (1) regulations concerning environmental performance standards, permit applications, and bonding requirements; (2) procedure regulations for submission of State programs and for review criteria used for approval; and (3) regulations governing development and implementation of a Federal program for a State (DES-78-24). (EPA Order No. 81061.)

CLARIFICATION: This notice establishes November 27, 1978 as the closing date for receipt of comments k However, the Office of Surface Mining (OSM) in their notice of availability dated October 4, 1978 (43 FR 45886) established November 17, 1978 as the closing date. OSM has agreed that it shall undertake its best efforts to respond to commends received between November 17 and November 27, 1978 including incorporation of such comments as well as OSM responses in the final EIS. For those comments which may not be accomodated in the final EIS, OSM will assure that responses to those comment letters will be made available to the public.

GEOLOGICAL SURVEY

Draft

Caballo Mine, mining and reclamation plan, Campbell County, Wyo., October 6: Proposed is approval of the surface mining and reclamation plan for the Caballo Mine, Carter Mining Co., Campbell County, Wyo. The plan describes mining operations for 40 years on a total of about 6,700 acres (about 4,300 acres will actually be mined) of Federal, State, and privately owned mining leases. All of the land surface, except for 640 acres of State land, is privately owned. The coal will be used for electric power generation. Ten alternatives are considered (DES-78-43). (EPA Order No. 81091.)

NATIONAL PARK SERVICE

Final

Youghiogheny State and National Wild and Scenic River, Garrett County, Md. and Somerset and Fayette Counties, Pa., October 5: This proposal recommends that the Youghiogheny River between Oakland and Friendsville, Garrett County, Md. be included in the National Wild and Scenic Rivers System and that the segment between confluence and South Connellsville, Fayette and Somerset Counties, Pa., included in the Pennsylvania Scenic Rivers System, and if desired in the national system. The 22.2-mile Maryland segment will be administered by the State of Maryland as a wild river and the 27-mile Pennsylvania segment by the commonwealth of Pennsylvania as a scenic river. The protection boundary would encompass the visual corridor and several recreation sites would be developed (FES-78-27). Comments made by: USDA, DOD, DOE, DOI, HUD, EPA, and businesses. (EPA Order No. 81083.)

NUCLEAR REGULATORY COMMISSION

Contact: Mr. Richard E. Cunningham, Acting Director, Division of Fuel Cycle and Material Safety, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, 301-427-4152.

Final

Irigaray solution mining project, Johnson County, Wyo., October 2: This action concerns an application for a source material license by the Wyoming Mineral Corp., to conduct production-scale solution mining of uranium at the Irigaray site, Johnson County, Wyo., within the Powder River Basin. The project will affect approximately 1,000 acres of land at the site. The actions consist of leaching uranium from subsurface ore-bearing sandstone by adding chemical reagents to existing ground water to reverse the natural uranium precipitation process NUREG-0481. Comments made by: AHP, USA, DOE, HEW, DOI, HUD, EPA, FERC, USDA, State agencies, individuals and businesses. (EPA Order No. 81057.)

OHIO RIVER BASIN COMMISSION

Contact: Mr. Fred E. Morr, Chairman, Suite 208-20, Ohio River Basin Commission, 36 East Fourth Street, Cincinnati, Ohio 45202, 513-684-3831.

Draft

Water and land resource plan, Ohio River Basin, several Counties, October 2: Proposed is a regional water and land resource plan for the Ohio River Basin in the States of Illinois, North Carolina, Indiana, Kentucky, New York, Maryland, Ohio, Pennsylvania, Tennessee, Virginia, and West Virginia. The plan consists of: (1) 1,233, PL-566 and RC&D projects; (2) 3 navigation projects; (3) 8 reservoir projects; (4) 45 local flood protection projects; (5) 793 municipal water quality control measures; (6) 107 recreation areas; (7) 9 State wild and scenic rivers; (8) 101 natural areas; (9) 69 fish and wildlife areas; and (10) 2 hydroelectric power projects (EPA Order No. 81059.)

STATE DEPARTMENT

Contact: Mr. William Mansfield, III, Office of Environmental Affairs, Room 7820, Department of State, Washington, D.C. 20520, 202-632-2418.

Draft

Incineration of wastes at sea, ocean dumping, national, October 4: Proposed is the participation of the United States in negotiations to amend the convention on the prevention of Marine Pollution of dumping of wastes and other matter. To establish international regulations and guidelines for the incineration of wastes at sea to be enforced nationally. The purpose of the regulations and guidelines is to set standards to minimize adverse impacts on the oceans and the atmosphere from incineration at sea. Five alternatives are considered (EPA Order No. 81072).

DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Affairs, U.S. Department of Transportation, 400 Seventh Street SW, Washington, D.C. 20590, 202-426-4357.

FEDERAL RAILROAD ADMINISTRATION

Draft

Niantic River Bridge and approaches, replacement, New London County, Conn., October 5: Proposed is the replacement of the existing movable-span railroad bridge across the Niantic River in the towns of East Lyme and Waterford, New London County, Conn. The plan includes the placement of a new bridge and approaches. The replacement alternative, which is preferred, is an overhead counterweight bascule bridge on a new alinement approximately 56 feet south of the existing structure, with a channel width of 100 feet and a vertical clearance of 13 feet aboye mean high water in the closed position. Total project length between tie-in points with the existing track alinement is 0.7 miles. (FRA-RNC-EIS-78-01-D). (EPA Order No. 81086.)

FEDERAL AVIATION ADMINISTRATION

Final

New runway 13-31, Fergus Falls Airport, Otter Tail County, Minn., October 5: Proposed is the acquisition of approximately 500 acres of land, including one farmstead and two dwellings, for the construction of a new 4,900 × 100 foot runway 13-31, to be extended to 5,700 feet the following year, at Fergus Falls, Minn. Plan implementation calls for the development of a new terminal area, with terminal building and access road, and the acquisition of easements under runway approaches of approximately 600 acres. Adverse effects include increased air and noise pollution; the relocation of six persons; loss of approximately 85 acres of land from agricultural purposes; and the possible loss of a 2-acre type III wetland through filling. Comments made by: DOI, USDA, EPA. (EPA Order No. 81082.)

FEDERAL HIGHWAY ADMINISTRATION

Draft

I-75, improvements, Cleveland and Central Avenue, Fulton and Clayton Counties, Ga., October 6: Proposed are two concurrent projects which involve the widening and improvement of I-75, beginning at I-285 and following I-75 northward to the interchange area at the Lakewood Freeway in Clayton and Fulton Counties, Ga. Also included will be interchange improvements at Central Avenue and Cleveland Avenue, with an interchange to be added to serve Hartsfield International Airport. The facility will be limited access. In addition to no-build, two alternatives are considered (FHWA-GA-EIS-78-01-D). (EPA Order No. 81092.)

I-151, Marion Bypass, Linn County, Iowa, October 6: Proposed is the construction of a four-lane divided highway in Linn County, Iowa, beginning at First Avenue (I-151), near 30th Street in Cedar Rapids and extending easterly to present I-151 east of Marion. The length of the project is approximately 7.5 miles and would provide a bypass for the present I-151 through Marion. The extension of IO-150 from the present juction of IO-150 and I-151 southerly to the proposed bypass is also a part of the project, and will be approximately 1.1 miles in length. (FHWA-IOWA-EIS-78-03-D). (EPA Order No. 81089.)

Final

I-65-3(52)(53) and M-7257(1), Lewisburgh to Warrior, Jefferson County, Ala., October 4: Project I-65-3(52)(53) is a 14.5-mile, four-, six-, or eight-lane, limited-access facility extending from Lewisburgh (5-Mile Creek), to Warrior. Project M-7257(1) is a 0.4-mile, nonlimited access, four-lane facility beginning at the Mt. Olive Road Interchange and extending easterly to U.S. 31 in Gardendale. The beneficial effects are the project will ease traffic movement in and through their corridors, safety benefits will accrue, economy and growth will be enhanced, and accessibility to public facilities and services will be enhanced (FHWA-ALA-EIS-78-01-F). Comments made by: EPA, DOD, USCG, HUD, DOT, USDA, DOC, State and local agencies. (EPA Order No. 81081.)

MN-101 Shakopee Bypass, Scott County, Minn., October 5: Proposed is the construction of relocated Minnesota Highway 101 (I.H. 101), in Scott County, Minn. The project begins at U.S. 169 in Jackson Township, southeast of the city of Shakopee, proceeds easterly through Shakopee for 8.5 miles and ends on I.H. 101 at the west edge of the city of Savage. The action will provide a four-lane divided freeway with full access control, constructed to rural design standards. Of the 525 acres of additional right-of-way, 290 acres are agricultural and 8 acres are wetlands, (Region 5) (FHWA-MN-EIS-77-01-F). Comments made by: EPA, USDA, DOI, DOT, DOD, FPC, State and local agencies (EPA Order No. 81085).

I-40 and I-75, Knoxville, Knox County, Tenn., October 4: Proposed are two plans for the widening and reconstruction of approximately 5.5 miles of I-40 and I-75 within the central city of Knoxville, Tenn. Plan implementation calls for six-lane roadways within the project limits with auxiliary lanes where required for traffic weaving and merging between certain interchange ramps. Adverse effects include the displacement of 37 households and 22 businesses; acquisition of approximately 21.5 acres for highway right-of-way; and increased noise and air pollution (FHWA-TN-EIS-77-05-F). Comments made by: HUD, TVA, EPA, State and local agencies, and businesses (EPA Order No. 81087).

I-264, Portsmouth and Norfolk, Chesapeake County, Va., October 4: Proposed is the construction of new facilities which will complete the interstate segment between the present terminus of Interstate Route 264 in Portsmouth and downtown Norfolk. The project would extend from Des Moines Avenue in Portsmouth to Brambleton Avenue in Norfolk, and would be between 2.3 and 3.0 miles in length. Adverse effects include the displacement and relocation of from 16 to 72 families, 2 to 6 businesses, and 0 to 3 nonprofit organizations. Construction of the project facilities would require dredging of the southern branch of the Elizabeth River and disposal of dredge material (Region 3) (FHWA-VA-EIS-76-08-F). Comments made by: USCG, EPA, DOI, DOT, State and local agencies (EPA Order No. 81076).

Final

Evanston Streets improvement, US-30, WY-150, WY-89, Uinta County, Wyo., October 3: Proposed are improvements to highways within the city of Evanston, Wyo. The improvements consist of replacing an existing railroad underpass, building new bridges over the Bear River, widening U.S. Highway 30 and Wyoming Highway 150 through Evanston, and relocating a portion of Wyoming Highway 89 in Evanston. Adverse impacts include removal of several houses, businesses and municipal buildings, the relocation of families, and increased noise, water, and air pollution during construction (Region 8) (FHWA-Wyo-Eis-77-01-F). Comments made by: EPA, HUD, DOI, State and local agencies, and individuals (EPA order No. 81064).

Draft supplement

University and Monroe Avenues, improvement, Brown County, wis., October 4: This statement supplements a draft EIS filed in February 1977, concerning the upgrading and improvement of Monroe Avenue from Cedar Street to the East River and University Avenue from the East End River to Humboldt Road, a total distance of 2.9 miles, in the city of Green Bay, Brown County, Wis. Included in the project is placement of a new six-lane bridge to replace the existing Monroe Avenue Bridge and a correction to a proposed I-43 interchange. Rehabilitation of the neighborhood to the north and south of University Avenue from Quincy Street to Forest Street is also included (FHWA-WICS-EIS-76-03-D (S-1)). (EPA Order No. 81080.)

INFORMATION REPORT

The EPA has received the following report which provides supplemental information on proposals which have fulfilled the NEPA process. Copies of the report are available from the originating agency upon request.

U.S. ARMY, CORPS OF ENGINEERS

Contact: Dr. C. Grant Ash, Office of Environmental Policy, attention: DARB-CWR-P, Office of the Chief of Engineers, 1000 Independence Avenue SW., Washington, D.C. 20310, 202-693-6795.

EIS No., Date Received, and Title

81117—October 13, 1978, Information Supplement III, Libby Dam and Lake Koocanusa, Kootenai River, Mont., Bald Eagle (Seattle District).

OFFICIAL RETRACTION

It has come to EPA's attention that the following EIS was not distributed to the public at the same time the official filing was made by the originating agency. Therefore, notice of availability is hereby republished. The review period will begin on October 6, 1978 for forty-five (45) days as specified by the date below.

DEPARTMENT OF TRANSPORTATION

FEDERAL HIGHWAY ADMINISTRATION

Draft

Malecon Avenue, PR-14, Ponce, Puerto Rico, October 6: This proposed action involves the extension of Malecon Avenue, PR-14, from its present terminus at the PR-2 bypass northerly to an interchange with existing Arenas Avenue, PR-14. The project, approximately 3.5 kilometers in length, is located in the municipality of Ponce on the south central coast of Puerto Rico. The proposed highway will be a six-lane divided highway, with restricted access at specific intersections and interchanges. Just north of PR-2 bypass, Malecon Avenue will bridge over the recently constructed Rio Portugus diversion channel. A bridge permit may be required, pending determination of jurisdiction by the U.S. Coast Guard (FHWA-PR-EIS-78-01-D) (EIS Order No. 80937).

AGRICULTURAL DIVISION, AMERICAN CYANAMID CO., ET AL.

Issuance of Experimental Use Permits

The Environmental Protection Agency (EPA) has issued experimental use permits to the following applicants. Such permits are in accordance with, and subject to, the provisions of 40 CFR Part 172, which defines EPA procedures with respect to the use of pesticides for experimental purposes.

No. 241-EUP-91. Agricultural Division, American Cyanamid Co., Princeton, N.J. 08540. This experimental use permit allows the use of 5,166 pounds of the nematocide cyclic methylene (diethoxyphophinyl) dithioimidocarbonate on field corn and sweet corn to evaluate control of corn rootworms, corn borers, symphylans, and nematodes. A total of 4,920 acres is involved; the program is authorized only in the States of California, Colorado, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Nebraska, North Carolina, North Dakota, Ohio, Pennsylvania, South Carolina, South Dakota, Tennessee, Texas, Virginia, and Wisconsin. The experimental use permit is effective from September 12, 1978 to September 12, 1979. A temporary tolerance for residues of the active ingredient in or on corn grain (except popcorn), field corn fodder (except popcorn), sweet corn (kernels plus cob with husk removed), and sweet corn fodder has been established. (PM 21, Room E-305, telephone 202-426-2454).

No. 7969-EUP-9. BASF Wyandotte Corp., Parsippany, N.J. 07054. This experimental use permit allows the use of 307 pounds of the plant regulator N, N-dimethyl- piperidinium chloride on cotton to evaluate reduction of internodal length. A total of 5,120 acres is involved; the program is authorized only in the States of Alabama, Arizona, Arkansas, California, Florida, Georgia, Kentucky, Louisiana, Mississippi, Missouri, New Mexico, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, and Virginia. The experimental use permit is effective from September 5, 1978 to September 5, 1979. Temporary tolerances for residues of the active ingedient in or on cotton forage, cottonseed, milk, eggs, and in meat, fat and meat byproducts of cattle, goats, hogs, horses, poultry, and sheep have been established. A temporary feed additive regulation for residues of the active ingredient in cottonseed meal has been established. (PM 25, Room: E-301, telephone: 202-755-2196).

No. 524-EUP-42. Monsanto Co., St. Louis, Mo. 63166. This experimental use permit allows the use of 15 pounds of the herbicide glyphosate on avocados to evaluate control of various annual and perennial weeds. A maximum total of 20 acres is involved; the program is authorized only in the States of California and Florida. The experimental use permit is effective from September 18, 1978 to September 18, 1980. A temporary tolerance for residues of the active ingredient in or on avocados has been established. (PM 25, Room E-301, telephone 202-755-2196).

Interested parties wishing to review the experimental use permits are referred to the designated Product Manager (PM), Registration Division (TS-767), Office of Pesticide Programs, EPA, 401 M Street SW., Washington, D.C. 20460. The descriptive paragraph for each permit contains a telephone number and room number for information purposes. It is suggested that interested persons call before visiting the EPA Headquarters Office, so that the appropriate permit may be made conveniently available for review purposes. The files will be available for inspection from 8:30 a.m. to 4 p.m. Monday through Friday.

(Sec. 5, Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 89 Stat. 751; (7 U.S.C. 136(a) et seq.)).)

Dated: October 13, 1978.

AGRICULTURAL AND VETERINARY PRODUCTS DIVISION, ABBOTT LABORATORIES, ET AL.

Issuance of Experimental Use Permits

The Environmental Protection Agency (EPA) has issued experimental use permits to the following applicants. Such permits are in accordance with, and subject to, the provisions of 40 CFR Part 172, which defines EPA procedures with respect to the use of pesticides for experimental purposes.

No. 275-EUP-21. Agricultural and Veterinary Products Division, Abbott Laboratories, North Chicago, Ill. 60064. This experimental use permit allows the use of approximately 12 billion spores of the herbicide *Phytophthora citrophthora* on citrus fruits to evaluate control of the strangler vine. A total of 30 acres per year is involved; the program is authorized only in the State of Florida. The experimental use permit is effective from August 21, 1978 to August 21, 1980. An exemption from temorary tolerances for residues of the active ingredient in or on citrus fruits has been established. (Room E-351, telephone 202-755-1397).

No. 241-EUP-88. Agricultural Division, American Cyanamid Co., Princeton, N.J. 08540. This experimental use permit allows the use of 400 pounds of the herbicide pendimethalin on grain sorghum to evaluate control of 15 specific weeds. A total of 556 acres is involved; the program is authorized only in the States of Arizona, Arkansas, California, Colorado, Georgia, Illinois, Kansas, Louisiana, Missouri, Nebraska, New Mexico, North Carolina, Oklahoma, South Dakota, and Texas. The experimental use permit is effective from August 24, 1978 to August 24, 1979. A temporary tolerance for residues of the active ingredient in or on sorghum grain, fodder and forage has been established. (Room E-315, telephone 202-755-4851).

No. 524-EUP-43. Monsanto Co., St. Louis, Mo. 63166. This experimental use permit allows the use of 1,050 pounds of the herbicide glyphosate on sugarbeets and potatoes to evalate control of various annual and perennial weeds. A total of 700 acres is involved; the program is authorized only in the States of Alabama, California, Colorado, Delaware, Florida, Idaho, Indiana, Kansas, Maine, Michigan, Minnesota, Montana, Nebraska, North Carolina, New Jersey, New York, North Dakota, Ohio, Oregon, Pennsylvania, Texas, Utah, Virginia, Washington, Wisconsin, and Wyoming; and in Georgia and Missouri for redistribution purposes only. Temporary tolerances for residues of the active ingredient in or on potatoes, sugarbeets (roots and tops) and in the liver and kidney of cattle, goats, hogs, horses, poultry, and sheep have been established. (Room E-315, telephone 202-755-4851).

Interested parties wishing to review the experimental use permits are referred to the Registration Division (TS-767), Office of Pesticide Programs, EPA, 401 M Street, SW., Washington, D.C. 20460. The descriptive paragraph for each permit contains a telephone number and room number for information purposes. It is suggested that interested persons call before visiting the EPA Headquarters Office, so that the appropriate permit may be made conveniently available for review purposes. The files will be available for inspection from 8:30 a.m. to 4 p.m. Monday through Friday.

FMC CORP. ET AL.

Issuance of Experimental Use Permits

The Environmental Protection Agency (EPA) has issued experimental use permits to the following applicants. Such permits are in accordance with, and subject to, the provisions of 40 CFR Part 172, which defines EPA procedures with respect to the use of pesticides for experimental purposes.

No. 279-EUP-70. FMC Corp., Philadelphia, Pa. 19103. This experimental use permit allows the use of 45.84 pounds of the insecticide permethrin on mixed conifer forest to evaluate control of western spruce budworm. A total of 750 acres is involved; the program is authorized only in the State of Idaho. The experimental use permit is effective from September 8, 1978 to September 8, 1979. (PM 17, Room E-229, telephone: 202-426-9425).

No. 10350-EUP-1. 3M Co., St. Paul, Minn. 55101. This experimental use permit allows the use of 955 pounds of the insecticide synergized pyrethrins in carrier in stores, warehouses, transportation vehicles, industrial buildings, houses, apartment buildings, schools, nursing homes, hospitals, restaurants, hotels, and food manufacturing, processing, and servicing establishments to evaluate control of various insects. The program is authorized only in the States of Arizona, California, Colorado, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Maryland, Massachusetts, Michigan, Minnesota, Missouri, Nebraska, New Jersey, New York, North Carolina, Ohio, Oklahoma, Oregon, Pennsylvania, Texas, Washington, and Wisconsin. The experimental use permit is effective from September 25, 1978 to September 25, 1979. (PM 17, Room E-229, telephone: 202-426-9425).

No. 10350-EUP-2. 3M Co., St. Paul, Minn. 55101. This experimental use permit allows the use of 955 pounds of the insecticide synergized pyrethrins in carrier in Carolina, Tennessee, Vermont, Washington, West Virginia, Wisconsin, and Virginia; and in Delaware and Ohio for redistribution only. The experimental use Stat. 973; 89 Stat. 751 (7 U.S.C. 136(a) et seq).)

MONSANTO CO. AND SHELL CHEMICAL CO.

Issuance of Experimental Use Permits

The Environmental Protection Agency (EPA) has issued experimental use permits to the following applicants. Such permits are in accordance with, and subject to, the provisions of 40 CFR Part 172, which defines EPA procedures with respect to the use of pesticides for experimental purposes.

No. 524-EUP-31. Monsanto Co., St. Louis, Mo. 63166. This experimental use permit allows the use of 636 pounds of the herbicide glyphosate on pome fruits to evaluate control of various annual and perennial weeds. A maximum total of 728 acres is involved; the program is authorized only in the States of Arkansas, California, Colorado, Connecticut, Georgia, Idaho, Illinois, Indiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, New Hampshire, New Jersey, New York, North Carolina, Oregon, Pennsylvania, South Carolina, Tennessee, Vermont, Washington, West Virginia, Wisconsin, and Virginia; and in Delaware and Ohio for redistribution only. The experimental use permit is effective from September 18, 1978 to September 18, 1980. A temporary tolerance for residues of the active ingredient and its metabolite in or on pome fruits has been established. (PM 25, Room E-301, telephone: 202-755-2196).

No. 524-EUP-36. Monsanto Co., St. Louis, Mo. 63166. This experimental use permit allows the use of 720 pounds of the herbicide glyphosate on alfalfa to evaluate control of various annual and perennial weeds. A maximum total of 840 acres is involved; the program is authorized only in the States of Alabama, Arizona, California, Colorado, Connecticut, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, Montana, Nebraska, New Hampshire, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, South Dakota, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, and Wyoming; and in Delaware, Georgia, and Tennessee for redistribution only. The experimental use permit is effective from September 18, 1978 to September 18, 1980. Temporary tolerances for residues of the active ingredient and its metabolite in or on alfalfa (fresh) and hay, and liver and kidney of cattle, goats, hogs, horses, poultry, and sheep have been established. (PM 25, Room E-301, telephone: 202-755-2196).

No. 201-EUP-58. Shell Chemical Co., Washington, D.C. 20036. This experimental use permit allows the use of 400 pounds of the insecticide cyano(3-phenoxyphenyl) methyl 4 - chloro - alpha - (1 -methylethyl) benzeneacetate on peanuts, pears, potatoes, and soybeans to evaluate control of various insects. A total of 550 acres is involved; the program is authorized only in the States of Alabama, Arkansas, California, Idaho, Illinois, Iowa, Louisiana, Maine, Michigan, Missouri, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Texas, and Washington. The experimental use permit is effective from September 19, 1978 to September 19, 1979. Temporary tolerances for residues of the active ingredient in or on peanuts, pears, potatoes, and soybeans have been established. (PM 17, Room E-229, telephone: 202-426-9425).

Interested parties wishing to review the experimental use permits are referred to the designated Product Manager (PM), Registration Division (TS-767), Office of Pesticide Programs, EPA, 401 M Street SW., Washington, D.C. 20460. The descriptive paragraph for each permit contains a telephone number and room number for information purposes. It is suggested that interested persons call before visiting the EPA Headquarters Office, so that the appropriate permit may be made conveniently available for review purposes. The files will be available for inspection from 8:30 a.m. to 4 p.m. Monday through Friday.

SOUTH DAKOTA STATE DEPARTMENT OF AGRICULTURE

Issuance of a Specific Exemption To Use 2,4-D To Control Broadleaf Weeds in Millet

The Environmental Protection Agency (EPA) granted a specific exemption to the South Dakota State Department of Agriculture (hereafter referred to as the "Applicant") to use (2,4-dichlorophenoxyacetic acid, alkylamine salt) on 35,000 acres of millet for the control of broadleaf weeds in South Dakota. This exemption was granted in accordance with, and was subject to, provisions of 40 CFR Part 166, which prescribes requirements for exemption of Federal and State agencies for use of pesticides under emergency conditions.

This notice contains a summary of certain information required by regulation to be included in the notice. For more detailed information, interested parties are referred to the application on file with the Registration Division (TS-767), Office of Pesticide Programs, EPA, 401 M Street SW., Room E-315, Washington, D.C. 20460.

Millets are minor crops grown for grain and forage. Although at least five different groups of millets are grown in the United States, proso is the primary variety grown in South Dakota. According to the Applicant, approximately 99 percent of the millet is harvested for grain and the major commercial use for the grain is in bird seed mixtures. Proso millet can also be foraged or cut and dried for hay. Broadleaf weeds are of primary concern to millet growers. There are currently no EPA registered pesticides for control of broadleaf weeds in millets.

The Applicant stated that more than normal acreage of millet was seeded this year in South Dakota because of an extremely late, wet spring. Yield loss on approximately 50 percent of this acreage was expected if an efficacious herbicide was not applied to control broadleaf weeds. The potential economic loss was valued at $1,000,000.

The Applicant proposed to make a single application of 0.25 to 0.50 pound dimethylamine salt of 2,4-D per acre on a maximum of 35,000 acres of millet by State-certified commercial applicators or by growers using air and ground equipment.

2,4-D is a widely used broadleaf weed herbicide and tolerances have been established on foods that make up approximately 80 percent of the total average human diet. EPA determined that millet grain and straw with residues of 2,4-D not in excess of 0.1 part per million (ppm) and 10 ppm, respectively, pose a negligible hazard to human health. EPA also considered the potential for residues from nitrosamine contamination of the chemical and has calculated that such residues would be less than 1 part per billion (ppb) which level also should not pose undue hazard to the environment. This determination was based on the following reasons: (1) Millet is not normally a human food item; (2) the residues are extremely small; and (3) the residues are very likely not stable. The proposed use of 2,4-D was not expected to result in dietary exposure to residues of the chemical which would be in excess of those levels currently considered adequate to protect the public health for the following reasons: (1) Millet is not normally a human food item; (2) established tolerances for meat, milk, and poultry will not be exceeded; and (3) 2,4-D tolerances are established for the major feed commodities at levels significantly higher than the 10 ppm level expected to occur in millet straw.

After reviewing the application and other available information, EPA determined that (a) a pest outbreak of broadleaf weeds in millet was likely to occur; (b) there was no pesticide registered and available for use to control these weeds in North Dakota; (c) there were no alternative means of control, taking into account the efficacy and hazard; (d) significant economic problems might have resulted if these weeds were not controlled; and (e) the time available for action to mitigate the problems posed was insufficient for a pesticide to be registered for this use. Accordingly, the Applicant was granted a specific exemption to use the pesticide noted above until September 1, 1978, to the extent and in the manner set forth in the application. The specific exemption was also subject to the following conditions:

1. An EPA-registered dimethylamine salt of 2,4-D which is appropriately labeled for the intended means of application (ground or air) was authorized;
2. 2,4-D was to be applied at a maximum rate of one-half pound active ingredient per acre. A maximum of one application might be made;
3. A maximum of 35,000 acres might be treated;
4. A maximum of 17,500 pounds active ingredient might be applied;
5. Applications might be made by air and ground equipment;
6. All applications were to be made by State-certified commercial applicators or by growers;
7. No application was to be made within 4 weeks of heading time;
8. All applications were to be made only in situations where the weed problem was serious and substantial crop losses were imminent;
9. The resulting residue levels of 0.1 ppm in or on millet grain and 10 ppm in or on straw from such use of this herbicide have been judged adequate to protect the public health. Permanent tolerances have been established for 2,4-D in meat and milk under provisions of the Federal Food, Drug and Cosmetic Act. The Food and Drug Administration, U.S. Department of Health, Education, and Welfare, was advised of this action;
10. All applicable directions, restrictions, and precautions on the product label were to be followed;
11. Precautions were to be taken to minimize or avoid spray drift to nontarget areas;
12. The EPA was to be immediately informed of any adverse effects resulting from the use of this pesticide in connection with this exemption; and
13. The applicant was responsible for assuring that all of the provisions of this specific exemption were met, and must submit a report summarizing the results of this program by July 1, 1979.

(Sec. 18, Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 89 Stat. 751; (7 U.S.C. 136 et seq.).)

Dated: October 16, 1978.

EDWIN L. JOHNSON,
Deputy Assistant Administrator
for Pesticide Programs.

3M CO.

Amendment to Experimental Use Permit

In FR Doc. 78-22488, on page 36000 in the issue of Monday, August 14, 1978, information appeared pertaining to the issuance of an experimental use permit, No. 7182-EUP-20, to the 3M Co. At the request of the company, that permit has been amended. The experimental use permit now allows the use of 1,000 pounds of the plant regulator mefluidide on sugarcane to evaluate increase of sucrose levels on a total of 1,000 acres in Hawaii. The experimental use permit period was also extended and is now effective from May 8, 1978, to September 8, 1979. (PM 25, Room E-315, telephone 202-755-4851.)

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

RECORDS AND REPORTS; LOCAL UNION REPORT EEO-3; APPRENTICESHIP INFORMATION REPORTS EEO-2 AND EEO-2E

Waiver of Filing Reports for Calendar Year 1977

At a duly constituted meeting on October 17, 1978, the Equal Employment Opportunity Commission voted to waive the requirement for filing the Local Union Report EEO-3 and the Apprenticeship Information Reports EEO-2 and EEO-2E for the calendar year 1977. The recordkeeping requirements for calendar year 1977 remain unchanged and are not waived. The Commission reaffirms its filing requirements for these reports on an annual basis including calendar year 1978.

NOTE.—Since the reporting requirements have been waived and no forms have been mailed to entities required to report, no further reporting action is required on 1977 reports.

Signed at Washington, D.C., this 17th day of October 1978.

ELEANOR HOLMES NORTON,
Chair, Equal Employment
Opportunity Commission.

FEDERAL HOME LOAN BANK BOARD

[H.C. No. 257]

BENEFICIAL CORP. AND JWH, INC., AND JWH MERGER CORP.

Receipt of Application for Permission To Acquire Control of First Texas Financial Corp., Dallas, Tex.

OCTOBER 18, 1978.

Notice is hereby given that the Federal Savings and Loan Insurance Corp. has received an application from Beneficial Corp. ("Beneficial"), JWH, Inc. ("JWH"), a wholly-owned subsidiary of Beneficial, and JWH Merger Corp. ("Merger Corp."), a wholly-owned subsidiary of JWH, for approval of the acquisition of control of First Texas Financial Corp., Dallas, Tex. ("First Texas"), a registered savings and loan holding company, under the provisions of section 408(e) of the National Housing Act, as amended (12 U.S.C. 1730a(e)), and § 584.4 of the regula-

tions for savings and loan holding companies (12 CFR 584.4), said acquisition to be effected through (1) the merger of Merger Corp. with First Texas, with First Texas as the surviving corporation, and (2) the merger of First Texas with Beneficial, with Beneficial as the surviving corporation. Upon consummation of the proposed transaction, First Texas would become a subsidiary of Beneficial and JWH, and Merger Corp. would cease to exist.

Beneficial is a diversified financial services company which is engaged in consumer finance, insurance, and savings and loan activities. Beneficial is the parent holding company of Beneficial Finance Co., Beneficial Insurance Co., Beneficial Life Insurance Co., Beneficial Savings and Loan Association, and Beneficial Corp. of Canada, Ltd. Beneficial is also the parent holding company of Beneficial Management Corp., which is the investment advisor to Beneficial Income Fund, Inc., Beneficial Industrial Fund, Inc., Beneficial Growth Fund, Inc., and Beneficial Tax-Free Income Fund, Inc. Beneficial is also the parent holding company of Beneficial Corp. of Delaware, which is engaged in the business of leasing personal property. Beneficial is also the parent holding company of Beneficial Corp. of Texas, which is engaged in the business of leasing personal property. Beneficial is also the parent holding company of Beneficial Corp. of Canada, Ltd., which is engaged in the business of leasing personal property. Beneficial is also the parent holding company of Beneficial Corp. of Canada, Ltd., which is engaged in the business of leasing personal property.

First Texas is a diversified financial services company which is engaged in savings and loan activities. First Texas is the parent holding company of First Texas Savings and Loan Association, which is engaged in the business of savings and loan activities. First Texas is also the parent holding company of First Texas Financial Corp., which is engaged in the business of leasing personal property. First Texas is also the parent holding company of First Texas Financial Corp., which is engaged in the business of leasing personal property.

JWH is a wholly-owned subsidiary of Beneficial, and Merger Corp. is a wholly-owned subsidiary of JWH. Merger Corp. is engaged in the business of leasing personal property. Merger Corp. is also engaged in the business of leasing personal property.

Beneficial is a diversified financial services company which is engaged in consumer finance, insurance, and savings and loan activities. Beneficial is the parent holding company of Beneficial Finance Co., Beneficial Insurance Co., Beneficial Life Insurance Co., Beneficial Savings and Loan Association, and Beneficial Corp. of Canada, Ltd. Beneficial is also the parent holding company of Beneficial Management Corp., which is the investment advisor to Beneficial Income Fund, Inc., Beneficial Industrial Fund, Inc., Beneficial Growth Fund, Inc., and Beneficial Tax-Free Income Fund, Inc. Beneficial is also the parent holding company of Beneficial Corp. of Delaware, which is engaged in the business of leasing personal property. Beneficial is also the parent holding company of Beneficial Corp. of Texas, which is engaged in the business of leasing personal property. Beneficial is also the parent holding company of Beneficial Corp. of Canada, Ltd., which is engaged in the business of leasing personal property. Beneficial is also the parent holding company of Beneficial Corp. of Canada, Ltd., which is engaged in the business of leasing personal property.

First Texas is a diversified financial services company which is engaged in savings and loan activities. First Texas is the parent holding company of First Texas Savings and Loan Association, which is engaged in the business of savings and loan activities. First Texas is also the parent holding company of First Texas Financial Corp., which is engaged in the business of leasing personal property. First Texas is also the parent holding company of First Texas Financial Corp., which is engaged in the business of leasing personal property.

JWH is a wholly-owned subsidiary of Beneficial, and Merger Corp. is a wholly-owned subsidiary of JWH. Merger Corp. is engaged in the business of leasing personal property. Merger Corp. is also engaged in the business of leasing personal property.

FEDERAL RESERVE SYSTEM

MERCANTILE BANCORPORATION, INC.

Proposed Acquisition of Financial Loan & Investment Company

Mercantile Bancorporation, Inc., St. Louis, Mo., has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and §225.4(b)(2) of the Board's Regulation Y (12 CFR 225.4(b)(2)), for permission to acquire through its subsidiary, Franklin Finance Co., Clayton, Mo. certain assets of: Financial Loan & Investment Co., Tulsa, Okla. Notice of the application was published on September 15, 1978 in Tulsa World, a newspaper circulated in Tulsa, Okla.

Applicant states that the proposed subsidiary would engage in the following activities: Operating a consumer finance loan company in the manner authorized by the laws of Oklahoma in an institution which will not both accept demand deposits and make commercial loans; and acting as insurance agent or broker in connection with selling to borrowers credit life insurance and credit accident and health insurance, and property damage insurance for collateral securing loans made to borrowers. Such activities have been specified by the Board in §225.4(a) of regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of §225.4.

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of St. Louis.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than November 8, 1978.

Board of Governors of the Federal Reserve System, October 16, 1978.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

Office of the Assistant Secretary for Health

NATIONAL PROFESSIONAL STANDARDS REVIEW COUNCIL

Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), announcement is made of the following Council meeting:

Name: National Professional Standards Review Council.

Date and time: November 13, 1978 (10 a.m. to 5 p.m.). November 14, 1978 (9 a.m. to 1 p.m.).

Place: Auditorium (first floor), Hubert H. Humphrey Building, 200 Independence Avenue SW., Washington, D.C.

Purpose of Meeting: The Council was established to advise the Secretary of Health, Education, and Welfare on the administration of Professional Standards Review (Title XI, Part B, Social Security Act). Professional Standards Review is the procedure to assure that the services for which payment may be made under the Social Security Act are medically necessary and conform to appropriate professional standards for the provision of quality health care. The Council's agenda will include discussion of a variety of issues relevant to the implementation of the PSRO program. On November 3, 1978, a tentative agenda will be available to the public.

Meeting of the Council is open to the public. Public attendance is limited to space available.

Any member of the public may file a written statement with the Council before, during, or after the meeting. To the extent that time permits, the Council Chairman will allow public presentation of oral statements at the meeting.

All communications regarding this Council should be addressed to Margaret VanAmringe, Staff Director, National Professional Standards Review Council, Health Standards Quality and Bureau, Room 5127-S, Switzer Building, 330 C Street, Washington, D.C. 20201, 202-472-5536.

Dated: October 16, 1978.

MARGARET VANAMRINGE,
Staff Director, National Professional Standards Review Council.

Office of Education

NATIONAL ADVISORY COUNCIL ON INDIAN EDUCATION

Meeting

AGENCY: National Advisory Council on Indian Education.

ACTION: Notice.

SUMMARY: The notice sets forth the schedule and proposed agenda of the forthcoming Executive Director's Search Committee meeting of the National Advisory Council on Indian Education. It also describes the functions of the Council. Notice of these meetings is required under the Federal Advisory Committee Act (5 U.S.C. Appendix I, section 10(a) (2)). This document is intended to notify the general public of their opportunity of attend.

DATES: Executive Director Search Committee Meetings: November 10, 1978, 9 a.m. to 5 p.m., closed and November 11, 1978, 9 a.m. to 5 p.m., closed.

ADDRESS: Sheraton Denver Hotel, 3535 Quebec Street, Denver, Colo.

FOR FURTHER INFORMATION CONTACT:

Stuart A. Tonemah, Executive Director, National Advisory Council on Indian Education, Suite 326, 425 13th Street NW, Washington, D.C. 20004, 202-376-8882.

The National Advisory Council on Indian Education is established under section 442 of the Indian Education Act, Title IV of Pub. L. 92-318, (20 U.S.C. 1221g).

The Council is directed to:

(1) Submit to the Commissioner of Education a list of nominees for the position of Deputy Commissioner of the Office of Indian Education/OE;

(2) Advised the Commissoner of Education with respect to the administration (including the development of regulations and of administrative practice and policies) of any program in which Indian children or adults participate from which they can benefit, including Title III of the Act of September 30, 1950 (Pub. L. 81-874) and section 810, Title VIII of the Elementary and Secondary Education Act of 1965 (as added by Title IV of Pub. L. 92-318 and amended by Pub. L. 93-380), and with respect to adequate funding thereof;

(3) Review applications for assistance under Title III of the Act of September 30, 1950 (Pub. L. 81-874), Section 810 of Title VIII of the Elementary and Secondary Education Act of 1965 as amended and section 314 of the Adult Education Act (as added by Title IV of Pub. L. 92-318), and make recommendations to the Commissioner with respect to their approval;

(4) Evaluate programs and projects carried out under any program of the Department of Health, Education, and Welfare in which Indian children or adults can participate or from which they can benefit, and disseminate the results of such evaluations;

(5) Provide technical assistance to local educational agencies and to Indian educational agencies, institutions, and organizations to assist them in improving the education of Indian children;

(6) Assist the Commissioner of Education in developing criteria and regulations for the administration and evaluation of grants made under section 303(b) of the act of September 30, 1950 (Pub. L. 81-874) as added by Title IV, Part A, of Pub. L. 92-318;

(7) Submit to Congress not later than June 30 of each year a report on its activities, which shall include any recommendations it may deem necessary for the improvement of Federal education programs in which Indian children and adults participate, or from which they can benefit, which report shall include a statement of the Council's recommendations to the Commissioner with respect to the funding of any such program; and

(8) Be consulted by the Commissioner of Education regarding the definition of the term "Indian," as follows:

Sec. 453 [Title IV, Pub. L. 92-318]. For the purposes of this title, the term "Indian" means any individual who (1) is a member of a tribe, band, or other organized group of Indians, including those tribes, bands, or groups terminated since 1940 and those recognized now or in the future by the State in which they reside, or who is a descendant, in the first or second degree, of any such member, or (2) is considered by the Secretary of the Interior to be an Indian for any purpose, or (3) is an Eskimo or Aleut or other Alaska Native, or (4) is determined to be an Indian under regulations promulgated by the Commissioner, after consultation with the National Advisory Council on Indian Education which regulations shall further define the term "Indian."

The Executive Director Search Committee of the National Advisory Council on Indian Education will hold a meeting, closed to the public, beginning at 9 a.m. November 10, recessing at 5 p.m. and reconvening at 9 a.m. November 11, until the conclusion of business, approximately 5 p.m.

The sessions are closed to the public in accordance with provisions of section 10(d) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 United States Code, Appendix I) and the exemption in 5 United States Code, section 552b(c) (2) and (6). The purpose of the closed meeting is to review applications for the position of Executive Director of the National Advisory Council on Indian Education. This discussion will include consideration of the qualifications and fitness of the candidates for the position and will touch upon many matters which would constitute a serious invasion of privacy if conducted in open session.

Records shall be kept of all Council proceedings and shall be available for public inspection at the Office of the National Advisory Council on Indian Education located at 425 13th Street NW., Suite 326, Washington, D.C. 20004. A summary of activities at the closed sessions and related matters which are informative to the public and consistent with the policy of 5 United States Code 552b will be available to the public within 14 days of the meeting.

For further information call Stuart A. Tonemah, Executive Director, National Advisory Council on Indian Education, 202-376-8882.

Dated: October 6, 1978, signed at Washington, D.C.

STUART A. TONEMAH,
Executive Director, National Advisory Council on Indian Education.

INFORMATION AND DATA ACQUISITION ACTIVITY

Comments on Collection

Pursuant to section 406(g)(2)(B), General Education Provisions Act, notice is hereby given as follows:

The Assistant Secretary for Education, the National Center for Education, and the Office for Civil Rights have proposed collections of information and data acquisition activities which will request information from educational agencies or institutions.

the purpose of publishing this notice in the FEDERAL REGISTER is to comply with paragraph (g)(2)(B) of the "Control of Paperwork" amendment which provides that each educational agency or institution subject to a request under the collection of information and data acquisition activity and their representative organizations shall have an opportunity, during a 30-day period before the transmittal of the request to the Director of the Office of Management and Budget, to comment to the Administrator of the National Center for Education Statistics on the collection of information and data acquisition activity.

V 43/205 0C 2378

These data acquisition activities are subject to review by the HEW Education Data Acquisition Council and the Office of Management and Budget.

Descriptions of the proposed collections of information and data acquisition activities follow below.

Written comments on the proposed activities are invited. Comments should refer to the specific sponsoring agency and form number and must be received on or before November 22, 1978, and should be addressed to Administrator, National Center for Education Statistics, Attn: Manager, Information Acquisition, Planning, and Utilization, Room 3001, 400 Maryland Avenue SW., Washington, D.C. 20202.

Further information may be obtained from Elizabeth M. Proctor of the National Center for Education Statistics, 202-245-1022.

Dated: October 18, 1978.

MARIE D. ELDRIDGE,
Administrator, National Center for Education Statistics.

DESCRIPTION OF A PROPOSED COLLECTION OF INFORMATION AND DATA ACQUISITION ACTIVITY

1. Title of Proposed Activity: Application for Comprehensive Program of the Fund for the Improvement of Postsecondary Education.
2. Agency/Bureau/Office: DHEW/ASE/Fund for the Improvement of Postsecondary Education.
3. Agency Form Number: ASE 0001.
4. Legislative Authority for this Activity: "Sec. 404(a) Subject to the provisions of subsection (b), the Secretary is authorized to make grants and contracts with, institutions of postsecondary education (including combinations of such institutions) and other public and private educational institutions and agencies (except that no grant shall be made to an educational institution or agency other than a nonprofit institution or agency) to improve postsecondary educational opportunities by providing assistance to such educational institutions and agencies for * * * (Pub. L. 92-318; 20 U.S.C. 1221D).
5. Voluntary/Obligatory Nature of Response: Voluntary.
6. How Information Collected Will be Used: To determine how grants will be awarded.
7. Data Acquisition Plan: a. Method of Collection: Mail; b. time of Collection: January; c. Frequency: Annual.
8. Respondents: a. Type: Postsecondary education institutions; b. Number: 2000; c. Estimated Average Man-hours Per Respondent: 11.
9. Information to be Collected: Institution name and address and type; contact person address and phone; Federal identification number; type and number of clients benefiting from program; Proposal title and abstract; Federal funds requested; Duration of project; Budget detail on salaries and wages, benefits, consultants, travel, materials and supplies, equipment, production, and other expenses.

DESCRIPTION OF A PROPOSED COLLECTION OF INFORMATION AND DATA ACQUISITION ACTIVITY

1. Title of Proposed Activity: Survy of Teacher Demand and Shortage (1978-79).
2. Agency/Bureau/Office: The National Center for Education Statistics.
3. Agency Form Number: NCES-2406.
4. Legislative Authority for This Activity: "The Education Amendments of 1976, Title IV, section 401(a) * * * (5) conduct a continuing survey of institutions of higher education and local educational agencies to determine the demand for, and the availability of, qualified teachers and administrative personnel, especially in critical areas within education which are developing or are likely to develop, * * *" (Pub. L. 94-482:20 U.S.C. 1221e-1).
5. Voluntary/Obligatory Nature of Response: Voluntary.
6. How Information Collected Will Be Used: The information to be obtained by NCES will be reported to the Congress to be used in considering new legislation or in modifying existing legislation, as well as in considering funding levels for related educational programs. Such information is required by the Congress to help determine whether programs should be redirected toward critical teacher shortage areas and whether incentives should be provided to encourage students to enter teaching shortage areas or discourage them from entering surplus fields.
7. Data Acquisition Plan: a. Method of Collection: Mail; b. Time of Collection: January-February 1979; c. Frequency: Biennially.
8. Respondents: a. Type: Local Education Agencies/State-operated schools; b. Number: 2000-2500; c. Estimated Average Man-hours Per Respondent: 30 minutes.
9. Information To Be Collected: Total full-time teachers, number of new hires this school year, number of new hires who are newly qualified and number who had been qualified prior to this school year, and number of openings for which teachers have been sought unsuccessfully, all by instructional field and level; principal emerging fields and declining fields; and, the total number of part-time teachers in the LEA, the number of those who were newly hired this school year, and the number of teachers laid off since 1977-78 school year as a result of budget reductions.

DESCRIPTION OF A PROPOSED COLLECTION OF INFORMATION AND DATA ACQUISITION ACTIVITY

1. Title of Proposed Activity: Fall 1979 Vocational Education Civil Rights Survey.
2. Agency/Bureau/Office: Department of Health, Education, and Welfare/Office of the Secretary/Office for Civil Rights.
3. Agency Form Number: CR-203.
4. Legislative Authority for This Activity: This survey is mandated by Order of the United States District Court in *Kenneth Adams, et al v. Joseph A. Califano, Jr.*, Civil No. 3095-70 (D.D.C. filed December 29, 1977), and § 42.406 of the Justice Department's Title VI Coordinating Regulations (42 CFR 42).

The following are the relevant legislative authorities; *Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d et seq.):* * * * Each recipient shall keep records and submit to the responsible Department official or his/her designee timely, complete and accurate compliance reports at such times, and in such form and containing such information, as the responsible Department official or his/her designee may determine to be necessary to enable him to ascertain whether the recepient has complied or is complying with this part * * * (45 CFR 80.6(b)) (Pub. L. 88-352); *Title IX of the Education Amendments of 1972 (20 U.S.C. 1681 et seq.):* The procedural regulation applicable to Title VI of the Civil Rights Act of 1964 are adopted and incorporated by reference. These procedures may be found at 45 CFR 80.6-80.11 and 45 CFR Part 81. (45 CFR 86.71) (Pub. L. 92-318); *Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794.):* The procedural provisions applicable to Title VI of the Civil Rights Act of 1964 are adopted and incorporated by reference. The procedures are found at 45 CFR 80.6-80.10 and 45 CFR Part 81. (Pub. L. 93-112).

5. Voluntary/Obligatory Nature of Response: Obligatory.
6. How Information to be Collected Will Be Used: The purpose of the survey will be to help determine which vocational education institutions will be reviewed under Title VI of the Civil Rights Act of 1964, which prohibits discrimination on the basis of race, color, or national orgin by recipients of federal financial assistance; Title IX of the Education Amendments of 1972 which prohibits discrimination on the basis of sex in federally assisted education programs; and section 504 of the Rehabilitation Act of 1973, which prohibits discrimination based on handicapping conditions by recipients of Federal finanical assistance. OCR is authorized to monitor recipient institutions and investigate allegations or indications of discrimination prohibited by these statues. The primary plan for analysis of compliance with the statutes is dependent on statistics shown: (a) In the enrollment of students in the institution as compared with the representation of minorities, females, and handicapped persons in the service area of the institution and (b) In the enrollment of students by sex, race/ethnicity, and handicap among the programs and services offered by the institution.
7. Data Acquisition Plan: a. Method of Collection: Mail; b. Time of Collection: Fall 1979; c. Frequency: One time only.
8. Respondent: a. Type: Comprehensive High Schools, Vocational High Schools, Vocational Centers, Area Vocational Schools, Technical Institutes, Junior or Community Colleges; b. Number: 9,200; c. Estimated Average Person hours Per Respondent: 7 hours.
9. Information To Be Collected: Each school will provide enrollment data by sex, race/ethnicity, handicap, and limited English-speaking ability for each vocational program offered. For schools offering adult programs, the total enrollment, only, is required by sex, race/ethnicity, limited English-speaking ability, and handicap. The instructional setting must be provided by each type of handicapping condition. Enrollments in Apprentice Training, Cooperative Training, and Work Study, are required by sex, race/ethnicity, and handicap. Composition of the staff, (Administrative, Instructional and non-Instructional) is requested by sex, race/ethnicity, and handicap.

Office of the Assistant Secretary for Health

ADVISORY COMMITTEES

Reestablishments

Pursuant to the Federal Advisory Committee Act, Pub. L. 92-463 (5 U.S.C. Appendix I), the Office of the Assistant Secretary for Health announces the reestablishment by the Secretary, HEW, with concurrence by the General Services Administration, of the following advisory committees:

Designation: Health Care Technology Study Section.
Purpose: The Study Section shall advise the Secretary and make recommendations to the Director, National Center for Health Services Research, on research grant and contract applications in the information sciences (computer science, communications technology) and decision sciences (operations research, industrial engineering, health-care administration) bioengineering and related fields as applied to community health services, hospital medicine, and patient care. The members of this Study Section shall survey, as scientific leaders, the status of research in their field.

* * * * *

Designation: Health Services Research Study Section.
Purpose: The Study shall advise the Secretary and make recommendations to the Director, National Center for Health Services Research, on research grant or contract applications relating to the delivery and acceptance of health services.

* * * * *

Designation: Health Services Developmental Grants Study Section.
Purpose: The Study Section shall advise the Secretary and make recommendations to the Director, National Center for Health Services Research, concerning scientific and technical merit of health services developmental grant and contract applications reviewed.

Authority for these Committees will expire on December 6, 1978, unless the Secretary, HEW, with the concurrence of the General Services Administration, formally determines that continuance is in the public interest.

Dated: October 17, 1978.

WAYNE RICHEY, Jr.,
Associate Director for Management, Office of Health Policy Research and Statistics.

Public Health Service

CENTER FOR DISEASE CONTROL

Statement of Organization, Functions, and Delegations of Authority

Part H, Chapter HC (Center for Disease Control) of the Statement of Organization, Functions, and Delegations of Authority for the Department of Health, Education, and Welfare (39 FR 1461-68, January 9, 1974, as amended in pertinent part at 42 FR 30434 dated June 14, 1977, and most recently at 43 FR 26139 dated June 16, 1978) is amended to reflect the following:

(1) The consolidation of the General Services Office (HCA54) and the Management Analysis Office (HCA56) into one office to be named the Management Analysis and Services Office (HCA59); and (2) the transfer of the manpower management activities (including productivity measurement) from the Management Analysis Office (HCA56) to the Financial Management Office.

Sec. HC-B *Organization and Functions* is amended, as follows: Under the *Office of Administrative Management (HCA5)*, under *Financial Management Office (HCA53)*, after item (6) add the following new item (7) and change the numbering of items (7) through (12) to items (8) through (13), respectively: "(7) conducts Centerwide manpower management (including productivity measurement) activities;"

Delete in their entirety the statements for *General Services Office (HCA54)* and *Management Analysis Office (HCA56)* and substitute the following after *Procurement and Grants Office (HCA58):*

Management Analysis and Services Office (HCA59): (1) Plans, coordinates, and provides Centerwide administrative, technical, and management services in the following areas: Committee management, communications, correspondence, delegations of authorities, distribution, forms, Freedom of Information Act Index, issuances, mail, organization and functions, personnel and physical security, policy and procedures, printing and reproduction (including operation of the printing plant and copy centers), Privacy Act, public inquiries, real property and space management, records (including microfilm), regulations, reports (including congressional reports), studies and surveys, and word processing; (2) develops and implements policies and procedures in these areas; (3) maintains liaison with HEW, PHS, GSA, the Government Printing Office, and other Government and private agencies.

Dated: October 13, 1978.

LEONARD D. SCHAEFFER,
Assistant Secretary for Management and Budget.

IGC PRODUCTION CO.

R/W Application for Pipeline

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920 (41 Stat. 449), as amended (30 U.S.C. 185), IGC Production Co., 555 South Cole Road, Boise, Idaho 83707, has applied for an amendment to right-of-way for a 2" underground natural gas pipeline approximately 728.95 feet long, (0.14 mile) across the following Public Lands:

SIXTH PRINCIPAL MERIDIAN, RIO BLANCO COUNTY, COLO.

T. 2 N., R. 101 W.
Sec. 30: Lot 4

The facilities will enable the applicant to meet customer demand for increased natural gas supply in the applicant's service area. The purposes for this notice are: (1) To inform the public that the Bureau of Land Management is proceeding with the preparation of environmental and other analytic reports necessary for determining whether or not the application should be approved and if approved, under what terms and conditions; (2) to give all interested parties the opportunity to comment on the application; (3) to allow any party asserting a claim to the lands involved or having bona fide objections to the proposed natural gas gathering system to file its claim or objections in the Colorado State Office. Any party so filing must include evidence that a copy thereof

Fish and Wildlife Service

MIGRATORY BIRD HUNTING AND CONSERVATION STAMP CONTEST

Judging

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of judging.

SUMMARY: This notice announces the date and location of the Migratory Bird Hunting and Conservation Stamp Contest to select the design for the 1979-80 Migratory Bird Hunting and Conservation Stamp. This event is open to the public.

DATES: The entries will be on display at 12 noon, November 9, 1978, and will be judged at 1 p.m. that day.

ADDRESS: The contest will take place in the Main Auditorium, Department of the Interior, 18th and C Streets NW., Washington, D.C. 20240.

FOR FURTHER INFORMATION CONTACT:

Bob Hines, Chief, Office of Audio Visual, U.S. Fish and Wildlife Service, Washington, D.C. 20240, 202-343-5611.

SUPPLEMENTARY INFORMATION: The Migratory Bird Hunting Stamp was authorized and required by the Migratory Bird Hunting Stamp Act of 1934, as amended (16 U.S.C. 718a). The name was changed to the Migratory Bird Hunting and Conservation Stamp by the Wetlands Loan Extension Act of 1976.

The annual contest regularly held by the Service to select the stamp design is the only art contest sponsored by the Federal Government. These colorful stamps constitute the longest running annually issued series of stamps in revenue or postage stamp history. Popularly known as the "Duck Stamp," they are sold through post offices and must be carried by every migratory waterfowl hunter 16 years of age or older. All of the stamp revenue beyond printing and handling costs is used for the acquisition of refuge land for migratory birds. Rules for the contest are published in 50 CFR Part 91.

The primary author of this document is also Bob Hines.

LYNN A. GREENWALT,
Director, U.S. Fish
and Wildlife Service.

National Park Service

Intention To Negotiate Concession Contract

Pursuant to the provisions of section 5 of the act of October 9, 1965 (79 Stat. 969; 16 U.S.C. 20), public notice is hereby given that thirty (30) days after the date of publication of this notice (November 22, 1978) the Department of the Interior, through the Director of the National Park Service, proposes to negotiate a concession contract with Harbor Carriers, Inc., authorizing it to continue to provide concession facilities and services for the public at Golden Gate National Recreation Area for a period of five (5) years from January 1, 1979, through December 31, 1984.

An assessment of the environmental impact of this proposed action has been made and it has been determined that it will not significantly affect the quality of the environment, and that it is not a major Federal action having a significant impact on the environment under the National Environmental Policy Act of 1969. The environmental assessment may be reviewed in the Office of the Superintendent, Golden Gate National Recreation Area, Fort Mason, San Francisco, Calif. 94123.

The foregoing concessioner has performed its obligations to the satisfaction of the Secretary under an existing contract which expires by limitation of time on December 31, 1978, and therefore, pursuant to the act of October 9, 1965, as cited above, is entitled to be given preference in the renewal of the contract and in the negotiation of a new contract. This provision, in effect, grants Harbor Carriers, Inc., as the present satisfactory concessioner, the right to meet the terms of responsive offers for the proposed new contract and a preference in the award of the contract, if thereafter, the offer of Harbor Carriers, Inc., is substantially equal to others received. The Secretary is also required to consider and evaluate all proposals received as a result of this notice. Any proposal to be considered and evaluated must be submitted within thirty (30) days after the publication date of this notice (November 22, 1978).

Interested parties should contact the Assistant Director, Special Services, National Park Service, Washington, D.C. 20240, for information as to the requirements of the proposed contract.

Dated: October 16, 1978.

ROBERT STANTON,
Acting Associate Director,
National Park Service.

SLEEPING BEAR DUNES NATIONAL LAKESHORE ADVISORY COMMISSION

Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the Sleeping Bear Dunes National Lakeshore Advisory Commission will be held at 1:30 p.m. (e.s.t.), November 10, 1978, at Innisfree Port Oneida Road, near Glen Arbor, Mich.

The Commission was established by Pub. L. 91-479 to meet and consult with the Secretary of the Interior on matters related to the administration and development of the Sleeping Bear Dunes National Lakeshore.

The members of the Commission are as follows:

Mr. Charles H. Yeates (Chairman)
Mr. Noble D. Travis
Mr. William B Bolton
Mr. John B. Daugherty
Mr. Samuel F. Eberly
Mr. John D. Stanz
Mr. Carl T. Johnson
Mrs. Charles R. Williams
Mr. Walter B. Hart
Mr. John A. Stahlin

The agenda for the meeting will include discussions of the proposed wilderness recommendations for the national lakeshore and transportation facilities for the Manitou Islands.

The meeting will be open to the public. Any member of the public may file with the Commission a written statement concerning the matters to be discussed. Persons wishing further information concerning the meeting or who wish to submit written statements, may contact the Superintendent, Sleeping Bear Dunes National Lakeshore, Frankfort, Mich. 49635, telephone 616-352-9611. Minutes of the meeting will be available for public inspection 4 weeks after the meeting in the office of the Superintendent, Sleeping Bear Dunes National Lakeshore, Frankfort, Mich. 49635, telephone 616-352-9611.

Dated: October 13, 1978.

MERRILL D. BEAL,
Regional Director,
Midwest Region.

INTERNATIONAL JOINT COMMISSION

POLLUTION OF THE GREAT LAKES BY LAND USE ACTIVITIES

Public Hearings

The International Joint Commission will conduct public hearings at the times and places noted below to obtain the public's views on the report of the Pollution From Land Use Activities Reference Group. This group (PLUARG) was created in 1972 by the International Joint Commission and charged with three basic questions—Are the Great Lakes being polluted from land use sources? If so, what land use activities are contributing what types of pollutants? And, how can they be dealt with and what will the cost be?

PLUARG submitted its final report after 5 years of intensive study throughout the Great Lakes Basin and selected river sub-basins. The report urges that the Commission recommend a wide-ranging program of reduction of pollution from nonpoint sources, employing educational, grant and possibly regulatory programs affecting farmers and others. The Commission wishes to receive the public's views before preparing its own report to the Governments of Canada and the United States.

Copies of the report may be obtained without charge from the IJC Regional Office, 100 Ouellette Avenue, 8th Floor, Windsor, Ontario. Many libraries throughout the basin also have copies for reading.

The hearings are international in nature and citizens of the United States and Canada may attend and participate at any of the locations listed below. Time allotted to each witness may be limited. If a written statement will take longer than 10 minutes to present, a summary statement should be given and the full statement submitted for the record. When a written statement is presented, 30 copies should be provided, if possible, for distribution to the news media and for Commission purposes.

NASA ADVISORY COUNCIL (NAC) SPACE SYSTEMS AND TECHNOLOGY ADVISORY COMMITTEE

Meeting

The Informal Ad Hoc Advisory Subcommittee on OAST Space Technology Mission Model of the NAC Space Systems and Technology Advisory Committee will meet on November 9, 1978, in Room 647, NASA Headquarters, 600 Independence Avenue SW., Washington, D.C. The meeting will be open to the public up to the seating capacity of the room (about 15 persons including subcommittee members and participants).

The subcommittee was established to review and critique the space technology mission model utilized by OAST to identify future technology needs and requirements. The Chairman is Mr. Ray F. Larson, and there are six additional members of the subcommittee.

For further information contact Mr. Stanley R. Sadin, Executive Secretary of the Informal Ad Hoc Advisory Subcommittee on OAST Space Technology Mission Model of the NAC Space Systems and Technology Advisory Committee, Code RX-4, NASA Headquarters, Washington, D.C. 20546, 202-755-3256.

AGENDA

NOVEMBER 9, 1978

9 a.m.—Introductory remarks.
10 a.m.—Presentation of the draft OAST Space Technology Model: (1) Missions Selection and Choice of Performance Descriptors, (2) Technology Trends and Forecasts with Mission Readiness Requirements.
1 p.m.—Committee discussion.
5 p.m.—Adjourn.

ARNOLD W. FRUTKIN,
Acting Associate Administrator

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-368]

ARKANSAS POWER & LIGHT CO., ARKANSAS NUCLEAR ONE, UNIT 2

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 3 to Facility Operating License No. NPF-6 to Arkansas Power & Light Co. for operation of Arkansas Nuclear One, Unit 2 (the facility) located at the licensee's site in Pope County, Ark. The amendment is effective as of the date of its issuance.

This amendment revises Technical Specification 4.6.4.3.b to specify that the flow rate for each of the containment recirculation fans will be at least equal to 4,500 cubic feet per minute.

The amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations. The Commission has made appropriate findings as required by the Act and the Commission's regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action see (1) the licensee's application for amendment dated September 7, 1978, (2) Amendment No. 3 to License No. NPF-6, and (3) the Commission's related Safety Evaluation supporting Amendment No. 3 to License No. NPF-6. All of these items are available for public inspection at the Commission's Public Document room at 1717 H Street NW., Washington, D.C. 20555 and the Arkansas Polytechnic College, Russellville, Ark. 72801.

Dated at Bethesda, Md., this 4th day of October 1978.

For the Nuclear Regulatory Commission.

JOHN F. STOLZ,
Chief, Light Water Reactors Branch No. 1, Division of Project Management.

[Docket No. 50-368]

ARKANSAS POWER & LIGHT CO.

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 4 to Facility Operating License No. NPF-6, issued to Arkansas Power & Light Co. which revised technical specifications for operation of the Arkansas Nuclear One, Unit 2 plant located in Pope County, Ark. The amendment is effective as of its date of issuance.

The amendment corrects a typographical error in the Appendix B Technical Specifications.

Issuance of the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see Amendment No. 4 to License No. NPF-6 which is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the Arkansas Polytechnic College, Russellville, Ark. A copy of the amendment may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Site Safety and Environmental Analysis.

Dated at Bethesda, Md., this 17th day of October 1978.

For the Nuclear Regulatory Commission.

WM. H. REEGAN, Jr.,
Chief, Environmental Projects Branch 2, Division of Site Safety and Environmental Analysis.

[7590-01-M]

[Docket No. 50-213]

CONNECTICUT YANKEE ATOMIC POWER CO.

Issuance of Amendment To Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 28 to Facility Operating License No. DPR-61 issued to Connecticut Yankee Atomic Power Co. which amended the license and its appended Technical Specifications for operation of the Haddam Neck Plant located in Middlesex County, Conn. The amendment is effective as of the date of its issuance.

This amendment adds license conditions relating to the completion of facility modifications for fire protection and the implementation of administrative controls, and modifies the Technical Specifications to require additional spray and/or sprinkler systems and fire hose stations to be operable in the turbine building.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement, or negative delcaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated September 5, 1978, (2) the licensee's submittals dated February 22, 1977, April 3, and 12, June 23, July 11, August 1 and 29, 1978, (3) Amendment No. 28 to License No. DPR-61, including the Commission's letter of transmittal, and (4) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Russell Library, 119 Broad Street, Middletown, Conn. 16457. A copy of items (3) and (4) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

[Docket No. 50-366]

GEORGIA POWER CO., ET AL.

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 2 Facility Operating License No. NPF-5 issued to Georgia Power Co., Oglethorpe Electric Membership Corp., Municipal Electric Association of Georgia and City of Dalton, Ga., which revised technical specifications for operation of the Edwin I. Hatch Nuclear Plant, Unit No. 2, located in Appling County, Ga. The amendment is effective as of its date of issuance.

This amendment modifies the Technical Specifications to provide for a one-time, temporary revision which would delete the Limiting Condition for Operation (LCO) on Primary Containment Internal Pressure to permit conduct of a test as part of the HNP-2 initial startup test program.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with the issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated October 4, 1978, (2) Amendment No. 2 to License No. NPF-5, and (3) the Commission's related safety evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Appling County Public Library, Parker Street, Baxley, Ga. 31513. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Md., this 13th day of October 1978.

[Docket No. 50-331]

IOWA ELECTRIC LIGHT & POWER CO., CENTRAL IOWA POWER COOPERATIVE, AND CORN BELT POWER COOPERATIVE

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 46 to Facility Operating License No. DPR-49, issued to Iowa Electric Light & Power Co., Central Iowa Power Cooperative, and Corn Belt Power Cooperative (the licensee), which revises the technical specifications for operation of the Duane Arnold Energy Center (the facility), located in Linn County, Iowa. The amendment is effective as of its date of issuance.

The amendment revises the technical specifications to incorporate requirements for establishing and maintaining the drywell to suppression chamber differential pressure and suppression chamber water level, to maintain the margins of safety established in the NRC staff's, "Mark I Containment Short Term Program Safety Evaluation", NUREG-0408. Operation in accordance with the conditions specified in NUREG-0408 has been previously authorized in 43 FR 13108 dated March 29, 1978.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4), an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment, dated November 3, 1976 as supplemented April 14, 1977, (2)

Amendment No. 46 to License No. DPR-49, and (3) the Commission's related safety evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Cedar Rapids Public Library, 500 First Street SE., Cedar Rapids, Iowa 52401. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

TOLEDO EDISON CO. AND CLEVELAND ELECTRIC ILLUMINATING CO.

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 31 to Facility Operating License No. NPF-3 issued to Toledo Edison Co. and Cleveland Electric Illuminating Co. which revised technical specifications for operation of the Davis-Besse Nuclear Power Station, Unit 1 (the facility) located in Ottawa County, Ohio. The amendment is effective as of its date of issuance.

The amendment revises the Technical Specifications to change the Reactor Coolant System pressure-temperature limits, the Low Temperature Overpressure Protection System setpoints, and the Reactor Coolant System heatup and cooldown rates.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated August 31, 1978, (2) Amendment No. 31 to License No. NPF-3, and (3) the Commission's related safety evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the University of Toledo, William Carlson Library, 2801 West Bancroft Street, Toledo, Ohio 43606. PHILADELPHIA ELECTRIC CO., ET AL.

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 48 to Facility Operating License No. DPR-44 issued to Philadelphia Electric Co., Public Service Electric & Gas Co., Delmarva Power & Light Co., and Atlantic City Electric Co., which revised technical specifications for operation of the Peach Bottom Atomic Power Station, Unit No. 2. The amendment is effective as of its date of issuance.

The changes permit operation of Peach Bottom Unit No. 2 with a new type reload fuel (8x8R) for Cycle 4.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Notice of Proposed Issuance of Amendment to Facility Operating License in connection with this action was published in the FEDERAL REGISTER on September 7, 1978 (43 FR 39869). No request for a hearing or petition for leave to intervene was filed following notice of the proposed action.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement, negative declaration or environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated July 28, 1978, as supplemented September 5, 26, and October 4, 1978, (2) Amendment No. 48 to License No. DPR-44, and (3) the Commission's related safety evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the Government Publications Section, State Library of Pennsylvania, Education Building, Commonwealth and Walnut Streets, Harrisburg, Pa. 17126. [Docket No. 50-271]

VERMONT YANKEE NUCLEAR POWER CORP.

Issuance of Amendment to Facility Operating License and Negative Declaration

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 48 to Facility Operating License No. DPR-28, issued to Vermont Yankee Nuclear Power Corp. which revised technical specifications for operation of the Vermont Yankee Nuclear Power Station (the facility) located near Vernon, Vt. The amendment is effective as of its date of issuance.

The amendment revises the technical specifications to allow operation during October 15, 1978 through May 15, 1979, in modes other than closed-cycle, provided certain discharge temperature restrictions were met.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has prepared an environmental impact appraisal for this amendment and has concluded that an environmental impact statement for this particular action is not warranted because there will be no environmental impact attributable to this action other than that which has already been predicted and described in the Commission's final environmental statement for the facility dated July 1972.

For further details with respect to this action, see (1) the application for amendment dated August 16, 1978, (2) Amendment No. 48 to License No. DPR-28, and (3) the Commission's related Environmental Impact Appraisal. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the Brooks Memorial Library, 224 Main Street, Brattleboro, Vt.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Md. this 13th day of October, 1978.

For the Nuclear Regulatory Commission.

[7590-01-M]

[Docket No. 50-29]

YANKEE ATOMIC ELECTRIC CO.

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 51 to Facility Operating License No. DPR-3, issued to Yankee Atomic Electric Co. (the licensee), which revised the Technical Specifications for operation of the Yankee Nuclear Power Station (Yankee-Rowe) (the facility) located at Rowe, Franklin County, Mass. The amendment is effective as of its date of issuance.

The amendment revises the provisions of the technical specifications for the facility to permit movement of temporary support brackets and a shielded work platform over the spent fuel pit for performing limited work related to the licensee's planned modifications of the spent fuel pit.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

The Commission's "Notice of Proposed Issuance of Amendment to Operating License" in connection with the licensee's request to expand the spent fuel storage capacity from 391 fuel assemblies to 721 assemblies was published in the FEDERAL REGISTER on September 21, 1978 (43 FR 42825). As indicated in this Notice, the Commission's staff has determined that the modifications approved by the amendment have a utility independent of the proposed increase in spent fuel storage capacity. Therefore, based on the above considerations, the Commission's staff has (1) approved the modifications described above, separately from consideration of the proposed increase in spent fuel storage capacity and (2) determined that prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4), an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated July 13, 1978 (Supplement No. 2 to Proposed Change No. 158) and supplements thereto dated September 15 and 25, 1978, (2) Amendment No. 51 to License No. DPR-3, (3) the Commission's related Safety Evaluation, and (4) Notice of Proposed Issuance of Amendment to Operating License, dated September 11, 1978 (43 FR 42825, September 21, 1978). All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street N.W., Washington, D.C., and at the Greenfield Community College, 1 College Drive, Greenfield, Mass. 01301. A copy of items (2), (3), and (4) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Md., this 6th day of October 1978.

For the Nuclear Regulatory Commission.

DENNIS L. ZIEMANN,
Chief, Operating Reactors Branch No. 2, Division of Operating Reactors.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-15229; File No. SR-BSE-76-13]

BOSTON STOCK EXCHANGE, INC.

Self-Regulatory Organizations: Proposed Rule Change

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1) (the "Act"), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on April 13, 1977, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

BSE'S STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

The Boston Stock Exchange, Inc. ("BSE") rule as amended would: (1) Require member-organizations to maintain certain net capital and subordinated cash borrowing and secured demand note requirements; (2) require dealer-specialists to maintain certain net capital and liquidating equity requirements; (3) require alternate-specialists to maintain certain liquidating equity requirements; (4) define "net liquid assets" for purposes of the proposed rule; (5) prescribe procedures to be followed in the event a member organization ceases to be in compliance with Rule 15c3-1; (6) require certain monthly financial statements to be filed by member organizations under specified circumstances of noncompliance; (7) provide for extraordinary field examinations of certain member organizations as shall be necessary; (8) place the responsibility of computation of net capital requirements on member organizations; and (9) provide that, under certain circumstances relating to the financial condition of member organizations, BSE restrict the operations of member organizations.

BSE'S STATEMENT OF PURPOSE

The purpose of the proposed rule change is to conform the rules of the Exchange with Rule 15c3-1, the Uniform Net Capital Rule under the Act.

BSE'S STATEMENT OF STATUTORY BASIS

The Exchange looks to Section 19 of the Act as providing the statutory basis for this proposal.

COMMENTS RECEIVED FROM MEMBERS, PARTICIPANTS OR OTHERS ON PROPOSED RULE CHANGE

BSE states that no comments were solicited or received.

BURDEN ON COMPETITION

BSE has determined that no burden on competition will be created by adoption of the proposed rule change.

On or before November 27, 1978, or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before November 13, 1978.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

OCTOBER 12, 1978.

[Release No. 10430; 812-4359]

FUNDEX, INC. ET AL.

Filing of Application for an Order Exempting a Proposed Transaction and Exception

OCTOBER 11, 1978.

Notice is hereby given that Fundex, Inc. ("Fundex"), Liberty Fund, Inc. ("Liberty"), Manhattan Fund, Inc. ("Manhattan"), New Manhattan Fund, Inc. ("New Manhattan"), Schuster Fund, Inc. ("Schuster"), and CNA Management Corp. ("CNA") (collectively referred to as "Applicants"), 127 John Street, New York, N.Y. 10028, filed an application on August 30, 1978, and amendments thereto on September 28, 1978, and October 5, 1978, pursuant to section 17(b) of the Investment Company Act of 1940 (the "Act") for an order exempting the proposed merger of Fundex and Manhattan into New Manhattan from the provisions of section 17(a) of the Act and pursuant to section 6(c) of the Act for an order of exemption from sections 11(a), 14(a)(1), and 22(d) of the Act and Rules 22c-1 and 22d-1 thereunder in connection with the proposed merger. Applicants, except for Schuster and CNA, are open-end, diversified management investment companies registered under the Act. Schuster is an open-end, nondiversified management investment company registered under the Act, and CNA is the investment adviser of each of the other Applicants. All interested persons are referred to the application on file with the Commission for a statement of the matters contained therein, which are summarized below.

Applicants represent that on June 30, 1978, the total net assets of Fundex were $430,040, and those of Manhattan were $46,663,241. Applicants state that New Manhattan was incorporated on August 28, 1978, and that on August 29, 1978, the total net assets of New Manhattan were $1,000. They state that the sole investment objective of each of Fundex, Manhattan, and New Manhattan is to seek capital appreciation and that any income received from portfolio securities is entirely incidental to this objective. The application states that the investment objective of Liberty is to obtain liberal current income consistent with reasonable safety of capital and that the investment objective of Schuster is to seek appreciation of capital.

According to the application, Fundex, Manhattan, and New Manhattan, in accordance with the approval of their Boards of Directors, will enter into a Plan of Reorganization and Agreement of Merger (the "Plan") under which Manhattan and Fundex will merge into New Manhattan. Except as described below, the outstanding shares of capital stock of Manhattan held of record by each shareholder of Manhattan on the day prior to the effective date of the merger ("Effective Date") shall become the same number of full and fractional shares of common stock of New Manhattan. The outstanding shares of capital stock of Fundex held of record by each shareholder of Fundex on the day prior to the effective date shall become the full and fractional shares of common stock of New Manhattan which has an equivalent net asset value. The application states that each shareholder of Manhattan or Fundex who held less than 60 shares of Manhattan (or less than the equivalent value of shares of Fundex) on the record date for the meetings of shareholders for approval of the Plan, would have his shares converted into cash based upon their net asset value as of the Effective Date. However, no shareholder of Manhattan who makes additional investments, which would bring his holdings up to 60 shares before the effective date, will be subject to automatic conversion. The application also states that any shareholder of Manhattan or Fundex who resides in the State or other jurisdiction where shares of New Manhattan will be permitted to be sold on or prior to March 30, 1979, who undertakes in writing to make investments in New Manhattan which would bring the value of his investment in New Manhattan as of March 30, 1979, up to the value of 60 shares of Manhattan as of the record date, and who complies with such undertaking, will not have his holdings converted into cash as of the effective date. If the shareholder does not

V 4 3 / 2 0 5 0 C 2 3 7 8

comply with his undertaking, his holdings will be automatically converted into cash as of March 30, 1979.

The Applicants state that a shareholder of Manhattan or Fundex who held less than 60 shares of Manhattan (or less than the equivalent value of shares of Fundex) on the record date and who resides in a State or other jurisdiction where share of New Manhattan will not be permitted to be sold on or prior to March 30, 1979, will have his holdings converted into cash as of the Effective Date but will be entitled, on or before March 30, 1979, to exchange his shares of Manhattan or Fundex on a no-load basis for shares of Schuster or Liberty, provided that the aggregate value of shares exchanged and an additional investment equals the value of 60 shares of Manhattan as of the record date. This exchange privilege will be permitted notwithstanding the fact that those funds normally require an initial investment of $500 and shareholders of Fundex paid a lower initial sales load than those of Liberty or Schuster. Such additional investments will be permitted on a no-load basis even though Liberty and Schuster normally impose a sales charge.

Applicants represent that Fundex and Manhattan have capital loss carryforwards for Federal income tax purposes at December 31, 1977, of approximately $603,000 and $162,111,000, respectively. At June 30, 1978, Manhattan had net unrealized depreciation of approximately $3,489,823.00, while at the same date Fundex had net unrealized appreciation of approximately $32,496. Applicants assert that since there is no assurance that capital gains will be realized against which the capital loss carryforwards may be offset or that unrealized depreciation or appreciation may be realized, no adjustments will be made in the aggregate net asset values of Fundex, Manhattan, or New Manhattan to compensate shareholders for any potential Federal income tax impact which may result from the differences between the Applicants.

Applicants state that it is proposed to call special meetings of shareholders of Fundex, Manhattan, and New Manhattan on November 29, 1978, to consider the Plan. The adoption of the Plan requires the affirmative vote of a majority of the outstanding shares of each of Fundex and New Manhattan and a two-thirds majority of the outstanding shares of Manhattan. Applicants represent that because of the uncertainty of obtaining the two-thirds shareholder approval required of Manhattan, it may be necessary to adjourn the meeting of shareholders until December 28, 1978. In that event, the Effective Date of the merger would be December 29, 1978, but if sufficient votes to approve the merger are present at the shareholders meetings scheduled for November 29, 1978, the management of Applicants will have to decide whether to make the Effective Date November 30, 1978 or December 29, 1978. The application states that shareholders of Fundex or Manhattan will be permitted to redeem their shares through the close of business on the last business day prior to the Effective Date, after which such requests will be deemed to be redemption requests for shares of New Manhattan.

The proposed merger is also contingent upon the receipt of a ruling from the Internal Revenue Service, or in lieu thereof, an opinion of counsel, to the effect that the Plan will constitute a tax-free reorganization. Each of Fundex and Manhattan will, prior to the Effective Date, distribute to its respective shareholders any material amount of undistributed net taxable investment income or net taxable short-term gains and shall make such other distributions as may be required for such companies to qualify as regulated investment companies under the Internal Revenue Code of 1954 if the Board of Directors of the corporation involved determines that it is in the best interest of the corporation to do so.

Section 17(a) of the Act provides, in pertinent part, that it shall be unlawful for any affiliated person or a registered investment company, or any affiliated person of such person, knowingly to sell to such registered investment company any security or property. Section 2(a)(3) of the Act provides, in part, that an affiliated person of another person means any person directly or indirectly controlling, controlled by, or under common control with, such other person. Applicants state that Fundex, Manhattan, New Manhattan, and CNA may be deemed to be affiliated persons of one another because the Boards of Directors and officers of Fundex, Manhattan, and New Manhattan are identical and CNA provides investment advice to each other applicant and owns all of the outstanding capital stock of New Manhattan. Section 17(b) of the Act provides, in pertinent part, that the Commission upon application, shall exempt a proposed transaction from the provisions of section 17(a) if evidence establishes that the terms of the proposed transaction, including the consideration to be paid or received, are fair and reasonable and do not involve overreaching on the part of any person concerned, and that the proposed transaction is consistent with the policy of each registered investment company concerned and with the general purposes of the Act.

Applicants submit that the terms of the proposed transaction are reasonable and fair and do not involve overreaching on the part of any person concerned. Applicants state that the aggregate expenses of consummating the reorganization are estimated to be $100,000. Under the agreement, such expenses are the obligation of new Manhattan in the even that the merger is effected and of Manhattan and Fundex in proportion to their respective net asset values as of the record date in the event that the merger is not effected. No brokerage commission or other fees (other than nominal transfer taxes) will result from the transfer of assets from Manhattan and Fundex to New Manhattan pursuant to the merger. Applicants submit that the proposed transaction is consistent with the investment policies of Fundex, Manhattan, and New Manhattan and with the general purposes and policies of the Act.

Applicants assert that the reasons for the reorganization are largely economic. In the case of Manhattan, the application states that the reorganization will result in a lower expense ratio and will thereby help Manhattan become a more viable economic entity. It is asserted that Manhattan's expense ratio problem stems from the cost of servicing an inordinately large number of small shareholder accounts for a mutual fund of its size. At July 24, 1978, Manhattan had 91,768 shareholder accounts, of which approximately 3 percent hold shares having a value less than the annual cost of servicing the account. In effect, it is contended, the large shareholder accounts bear the burden of servicing the small accounts. The application states that it is estimated that, as a result of the reorganization, approximately 30 percent of the Manhattan accounts (aproximately 28,000 accounts) would be eliminated, which would substantially reduce the operating expenses of New Manhattan but, as of July 24, 1978, would only have reduced Manhattan assets by $1,846,306, or 4 percent. For the year ended December 31, 1977, Manhattan incurred $591,023 in transfer agent, proxy solicitations, shareholder reports and dividend disbursement expenses. If the reorganization had occurred on January 1, 1977 and, as a consequence, Manhattan had 28,000 fewer shareholder accounts in fiscal 1977, Manhattan would have save a substantial portion of the $165,000 which it spent to maintain such accounts. Applicants estimate that the ratio of operating expenses to average net assets of New Manhattan for its first full year of operation would be approximately 1.5 percent, assuming net assets average approximately $47,000,000. This ratio compares with a 1.9 percent ratio for Manhattan for the year ended December 31, 1977. Applicants submit that the reorganization promotes the valid business purpose of Manhattan in becoming a more economically viable entity.

The application states that, in the case of Fundex, the primary reason for the reorganization is to merge that small, uneconomic fund into a viable entity. For the year ended December 31, 1977, Fundex's ratio of operating expenses to average net assets was 4.89 percent even though Fundex paid no management fee that year. In the opinion of the management of Fundex, its combination with Manhattan in New Manhattan will resut in certain economies. The application states that such items as fees of attorneys, auditors, and custodians, expenses of preparation of shareholder reports, franchise taxes and possibly brokerage commissions, which are now paid by Fundex and Manhattan, will constitute a lower percentage of income of New Manhattan after the reorganization, than of Fundex separately. In addition, at July 24, 1978, Fundex had 584 shareholder accounts, of which 156 or 27 percent would be eliminated in the reorganization. This will contribute somewhat to the reduced operating expenses of New Manhattan but, as of July 24, 1978, would only reduce Fundex's assets by $10,448.90 or 2.25 percent. The application states that CNA has informed management of the funds that, if the reorganization is effected, certain of its clerical and administrative expenses in rendering services to the funds may be reduced.

Section 14(a)(1) of the Act provides that no registered investment company shall make a public offering of securities of which such company is the issuer unless such company has a net worth of at least $100,000. Applicants state that the shares of common stock of New Manhattan to be offered and sold to existing shareholders of Fundex and Manhattan will be publicly offered to such shareholders through prospectuses included as part of the registration statement of New Manhattan. Applicants state that as of the time of the initial public offering of shares of New Manhattan to existing shareholders of Fundex and Manhattan, New Manhattan will have a net worth of only $1,000 and not $100,000 as required by section 14(a)(1) of the Act.

Applicants submit that section 14(a)(1) of the Act was designed to assure that registered investment companies do not engage in public offerings without sufficient net worth to meet their expenses and otherwise operate as viable economic entities. Applicants state that the exemption is sought only with regard to the public offering of shares of New Manhattan in the reorganization, and that once the reorganization is consummated, New Manhattan will have a net worth well in excess of $100,000. Applicants represent that it would be only when the reorganization is effected with regard to either Manhattan or Fundex, that New Manhattan would make a public offering to the general public. Applicants submit that the requested exemption from section 14(a)(1) of the Act is necessary and appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Rule 22c-1 promulgated under section 22(c) of the Act provides, in pertinent part, that no registered investment company issuing any redeemable security, no person designated in such issuer's prospectus as authorized to consummate transactions in any such security, and no principal underwriter of, or dealer in, any such security shall sell, redeem, or repurchase any such security except at a price based on the current net asset value of such security which is next computed after receipt of a tender of such security for redemption or of an order to purchase or sell such security.

Applicants state that the requirements of Rule 22c-1 may not be met by the proposed transaction if such rule is deemed to apply to shares issued in the reorganization because the net asset values per share of Fundex, Manhattan, and New Manhattan for purposes of the exchange are to be determined as of the close of trading on the New York Stock Exchange on the last day such Exchange is open for unrestricted trading prior to the Effective Date. Applicants also represent that under Maryland General Corporation law shareholders of Manhattan who perfect appraisal rights are entitled to receive the "fair value" of their shares at the close of business on the date of the vote approving the agreement of merger.

If the Effective Date is on Friday, December 29, because of the need for an adjourned meeting to solicit further proxies, the respective net asset values of Fundex and Manhattan would be determined as of the close of business on Thursday, December 28 and shareholders of Manhattan who assert and perfect appraisal rights and those who do not would all receive the same price for their shares. In the event that sufficient votes to approve the Plan are present at the meetings of Fundex and Manhattan scheduled for November 29 the management of the funds would have to decide whether to make the effective date November 30, 1978, and thereby avoid the Rule 22c-1 problems or face those problems and have the Effective Date December 29, 1978. If management chooses the later alternative, it would probably adopt the SEC's position that Rule 22c-1 would preempt the Maryland appraisal procedures, notwithstanding the fact that this position might not be binding upon Maryland courts. See Investment Company Act Release No. 8752 (April 10, 1975).

Applicants submit that among the purposes for adoption of Rule 22c-1 was the prevention of speculative trading which the then existing "backward pricing" practices were believed to permit. They assert that computation of net asset value on the day prior to the Effective Date will prevent speculative trading by objecting shareholders of Manhattan who would have the option to elect to pursue the appraisal remedy based on the voting date or accept the exchange price based on the Effective Date. Applicants assert then that the requested exemption is designed to implement the basic purposes of the Rule and that the exemption is necessary and appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Section 11(a) provides, in part, that it shall be unlawful for any registered open-end company or any principal underwriter for such a company to make cause to be made an offer to the holder of a security of such company or any other open-end investment company to exchange his security for a security in the same or another such company on any other basis other than relative net asset values of the securities to be exchanged, unless the terms of the offer have first been submitted to and approved by the Commission. Section 22(d) of the Act and Rule 22d-1 thereunder provide, in pertinent part, that no registered investment company or principal underwriter thereof shall sell any redeemable security issued by such company to any person except at a current offering price described in the prospectus.

The application states that since shareholders of Fundex, who will be permitted to exchange their shares for shares of Schuster or Liberty without sales charge or other fee and without complying with the usual minimum investment of $500, paid a lower initial sales charge than the shareholders of Schuster or Liberty, such exchanges by Fundex shareholders might be deemed to be on a basis other than net asset value of the respective securities to be exchanged, and hence not in compliance with section 11(a) of the Act.

Applicants submit that section 11(a) of the Act was designed to assure that the net asset value of one investment company is not diluted through an ex-

V 4

change and that the shareholders of each company are treated fairly. Applicants assert that it is not unfair to

quest, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the

Bowen and Branch steam plants located, respectively, in Bartow and Putnam Counties, as hereinafter de-

Each Trust Indenture will provide that the Revenue Bonds issued thereunder will be redeemable (i) at any

demand the mandatory redemption of the Collateral Bonds then held by it as collateral at a redemption price equal

It is stated that the fees, commissions, and expenses to be paid or in-

V 43/205 0 C 23 78

change and that the shareholders of each company are treated fairly. Applicants assert that it is not unfair to the shareholders of Schuster and Liberty to increase the assets of these companies through a one-time exchange by a specific and limited number of Fundex shareholders who purchased their shares a decade ago. The application asserts that there will be no dilution of net asset value for Liberty and Schuster, because the Fundex shareholders will be providing full net asset value for their shares, and that the requested exemption from section 11(a) of the Act is necessary and appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

The application states that the shares of Schuster and Liberty are sold by CNA as principal underwriter at a public offering price which includes a sales load. Applicants state that certain shareholders of Fundex and Manhattan will be able to exchange their shares and make additional investments in Schuster or Liberty at no load and without compliance with the usual exchange privilege minimum of $500.

Applicants state that section 22(d) of the Act and Rule 22d-1 thereunder were designed to assure that purchasers of shares of a registered investment company are treated similarly. Applicants assert that the shareholders of Fundex and Manhattan, who would be covered by the exemption, are a specific and limited class and that the exemption would be in effect for only a limited period of time. Applicants submit, therefore, that the requested exemption from the provisions of section 22(d) and rule 22d-1 thereunder is necessary and appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Section 6(c) of the Act provides, in part, that the Commission, by order upon application, may conditionally or unconditionally exempt any person, security, or transaction, or any class of persons, securities, or transactions from any provision or provisions of the Act and the rules promulgated thereunder, if and to the extent such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than November 3, 1978, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicant(s) at the address(es) stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the rules and regulation, promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Release No. 20731; 70-6211]

GEORGIA POWER CO.

Proposed Transactions Related to Financing of Pollution Control Facilities and Exception From Competitive Bidding

OCTOBER 12, 1978.

Notice is hereby given that Georgia Power Co. ("Georgia"), 270 Peachtree Street NW., Atlanta, Ga. 30302, an electric utility subsidiary company of the Southern Co., a registered holding company, has filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating section 6(b) of the act and rule 50(a)(5) promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the application, which is summarized below, for a complete statement of the proposed transactions.

Georgia states that in order to comply with prescribed environmental standards of the State of Georgia with respect to air and water quality, it has been and will be necessary for the company to construct certain pollution control facilities solely for this purpose. The present application relates to Georgia's proposal for its financing of the pollution control facilities for use in connection with its Bowen and Branch steam plants located, respectively, in Bartow and Putnam Counties, as hereinafter described. Each transaction will be substantially similar. It is intended that a Development Authority of each such county ("Authority") will issue its pollution control revenue bonds ("Revenue Bonds") for the purpose of making loans to Georgia to pay the costs of the acquisition, construction, installation, and equipping of the pollution control facilities at the plant located in its county referred to above ("Project"). The Authorities are authorized by the Development Authorities Law of the State of Georgia ("Statute") to issue their respective Revenue Bonds for such purpose. While the actual amount of Revenue Bonds to be issued by each Authority has not yet been determined, such amount will be based upon the cost of the Project located in its county. It is presently estimated that the aggregate principal amount of Revenue Bonds to be issued by both Authorities will not exceed $80,000,000.

Georgia proposes to enter into a separate Loan Agreement with each Authority ("Agreement"). Under each Agreement, the Authority will loan to Georgia the proceeds of the sale of the Authority's Revenue Bonds, and Georgia will issue a nonnegotiable promissory note therefor ("Note"). Such proceeds will be deposited with a Trustee ("Trustee") under an indenture to be entered into between the Authority and such Trustee ("Trust Indenture"), pursuant to which such Revenue Bonds are to be issued and secured, and will be applied by Georgia to payment of the Cost of Construction (as defined in the Agreement) of the related Project. Each Note will provide for payments thereon to be made at times and in amounts which shall correspond to the payments with respect to the principal of, premium, if any, and interest on the Revenue Bonds whenever and in whatever manner the same shall become due, whether at stated maturity, upon redemption or declaration, or otherwise.

Each agreement will provide for the assignment to the Trustee of the Authority's interest in, and of the moneys receivable by the Authority under, the Agreement and the Note. Each Agreement will also obligate Georgia to pay the fees and charges of the Trustee and will provide that Georgia may at any time, so long as it is not in default thereunder, prepay the amount due under the Note, including interest thereon, in whole or in part, such payment to be sufficient to redeem or purchase the outstanding Revenue Bonds in the manner and to the extent provided in the Trust Indenture.

Each Trust Indenture will provide that the Revenue Bonds issued thereunder will be redeemable (i) at any time on or after 10 years from the date of issuance, in whole or in part, at the option of Georgia, initially with a premium of 3 percent of the principal amount and declining by one-half of 1 percent annually thereafter, and (ii) in whole, at the option of Georgia, in certain other cases of undue burdens or excessive liabilities imposed with respect to the related Project, its desgtruction or damage beyond practicable or desirable repairability, or condemnation or taking by eminent domain, or if operation of the related plant is enjoined and Georgia determines to discontinue operation thereof, such redemption of all such outstanding Revenue Bonds to be at the principal amount plus accrued interest, but without premium. It is intended that the Revenue Bonds will mature 30 years from the first day of the month in which they are initially issued and that such Revenue Bonds will be entitled to the benefit of mandatory redemption sinking funds calculated to retire not less than 25 percent of the aggregate principal amount of the issue prior to maturity.

In order to obtain the benefit of ratings for the Revenue Bonds equivalent to the rating enjoyed by the first mortgage bonds outstanding under its Indenture dated as of March 1, 1941, between Georgia and Chemical Bank, as Trustee ("Indenture Trustee"), as supplemented and amended ("Mortgage"), which ratings Georgia has been advised may be thus attained, Georgia proposes to secure its obligations under each Note by delivering to the Trustee, to be held as collateral, a series of its first mortgage bonds ("Collateral Bonds") in principal amount equal to the principal amount of the Revenue Bonds. Each series of Collateral Bonds will be issued under an indenture supplemental to the Mortgage ("Supplemental Indenture") to be dated as of the first day of the month in which the Collateral Bonds are to be issued and delivered, will bear interest at a rate equal to the interest rate to be borne by the related Revenue Bonds, will mature on the maturity date of such Bonds, and will be nontransferable by the Trustee.

The Supplemental Indenture will provide, however, that the obligation of Georgia to make payment with respect to the Collateral Bonds will be satisfied to the extent that payments are made under the Note sufficient to meet payments when due in respect of the related Revenue Bonds. The Supplemental Indenture will provide that, upon acceleration by the Trustee of the principal amount of all related outstanding Revenue Bonds under the Trust Indenture, the Trustee may demand the mandatory redemption of the Collateral Bonds then held by it as collateral at a redemption price equal to the principal amount thereof plus accrued interest, if any, to the date fixed for redemption. The Supplemental Indenture will also provide that, upon the optional redemption of the Revenue Bonds, in whole or in part, at any time after they have been outstanding for 10 years, an equal principal amount of the Collateral Bonds will be redeemed at an initial premium of 3 percent declining by 0.5 percent every year. It is stated that because interest accrues in respect of the Collateral Bonds until satisfied by payments under the Note, "annual interest charges" in respect of the Collateral Bonds will be included in computing the "interest earnings requirement" of the Mortgage which restrict the amount of first mortgage Bonds which may be issued and sold to the public in relation to Georgia's net earnings. The Collateral bonds will be issued on the basis of unfunded net property additions. The Trust Indenture will further provide that, upon deposit with the Trustee of funds sufficient to pay or redeem all or any part of the related Revenue Bonds, or upon direction to the Trustee by Georgia to so apply funds available therefor, or upon delivery of such outstanding Revenue Bonds to the Trustee by or for the account of Georgia, the the Trustee will be obligated to deliver to Georgia, or for the account of Georgia, Collateral Bonds then held as collateral in an aggregate principal amount equal to the aggregate principal amount of such Revenue Bonds for the payment or redemption of which such funds have been deposited or applied or which shall have been so delivered.

It is contemplated that the Revenue Bonds will be sold by the Authorities pursuant to arrangements with one or more underwriters. In accordance with the laws of the State of Georgia, the interest rate to be borne by the Revenue Bonds will be fixed by the Boards of Directors of the Authorities. While Georgia will not be party to the underwriting arrangements for the Revenue Bonds, such arrangements will provide that the terms of the Revenue Bonds and their sale by the Authorities shall be satisfactory to Georgia. Bond counsel will issue an opinion that interest on the Revenue Bonds will be exempt from Federal income taxation. Georgia has been advised that the interest rates on obligations, interest on which is so tax exempt, historically have been, and can be expected at the time of issue of the Revenue Bonds to be, 1½ percent to 2½ percent lower than the rates on obligations of like tenor and comparable quality, interest on which is fully subject to Federal income taxation.

It is stated that the fees, commissions, and expenses to be paid or incurred, directly or indirectly, in connection with the proposed issuance of the Notes and Collateral Bonds (as distinguished from and excluding fees, commissions, and expenses incurred or to be incurred in connection with the sale of the Revenue Bonds by the Authorities payable out of the proceeds of such sales and in connection with the determination of the tax status of the Revenue Bonds) will be filed by amendment. It is further stated that the issuance of the Collateral Bonds, the borrowings under the Agreements, and the issuance of the Notes in respect thereof will have been expressly authorized by the Georgia Public Service Commission and that no Federal commission, other than this Commission, has jurisdiction over the proposed transactions. Georgia has requested a finding of the Commission that competitive bidding is inappropriate under the circumstances inasmuch as the Notes and Collateral Bonds are to be issued and pledged solely to evidence and secure Georgia's obligations to the Authorities and no public offering by Georgia of the notes and Collateral Bonds is to be made.

Notice is further given that any interested person may, not later than November 6, 1978, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the filing which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as filed or as it may be amended, may be granted as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices or orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

[Rel. No. 10435; 812-4362]

NEW YORK MUNICIPAL TRUST, SERIES 1 (AND SUBSEQUENT SERIES) AND BEAR, STEARNS & CO.

Filing of Application Requesting an Order Granting Exemption

OCTOBER 12, 1978.

Notice is hereby given that New York Municipal Trust, Series 1 (and Subsequent Series) ("Trust"), a unit investment trust registered under the Investment Company Act of 1940 ("Act"), and its sponsor, Bear, Stearns & Co. ("Sponsor") (collectively, "Applicants"), 55 Water Street, New York, N.Y., 10041, have filed an application on August 31, 1978, and an amendment thereto on October 11, 1978, requesting an order, pursuant to section 6(c) of the Act, exempting Series 1 of the Trust, and subsequent series thereof, from the provisions of sections 14(a) and 22(d) of the Act and Rules 19b-1 and 22c-1 thereunder. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

According to the application, the various series of the Trust will be created under the laws of New York pursuant to a separate trust Agreement for each such series, under which the Bradford Trust Co. shall act as Trustee, the Sponsor shall act as such, and Standard and Poors Corp. shall act as evaluator. Each Agreement will contain standard terms and conditions of trust common to Series 1 and all subsequent series (collectively "Series"), and each Agreement will be executed and delivered on or before the time the registration statement filed pursuant to the Securities Act of 1933 becomes effective for each Series.

The application states that, pursuant to each Agreement, the Sponsor will deposit with the Trustee Debt Obligations which the Sponsor shall have accumulated for such purpose, in a principal amount at least equal to the aggregate offering price of the units ("Units") of the Series to be offered. Simultaneously with such deposit, the Trustee will deliver to the Sponsor registered certificates for the Units, which will represent the entire ownership of the Series. The Sponsor will then offer the Units for sale to the public. Series 1 will consist of debt obligations in a principal amount of at least $10,000,000, which will be deposited with the Trustee in exchange for 10,000 Units of Series 1.

According to the Applicants, the Debt Obligations will not be pledged or in any manner subjected to any debt at any time after the Debt Obligations are deposited in the Trust, with the exception of the lien of the Trustee as security for certain liabilities as set forth in the Agreement. The Applicants state that the Debt Obligations will be long-term, interest-bearing debt obligations, the interest on which will be exempt from Federal income taxation. The application further states that each Series will consist of Debt Obligations, such Debt Obligations as may have been acquired in exchange or substitution for Debt Obligations upon certain refunding, accrued and undistributed interest and undistributed cash. Certain of the Debt Obligations may from time to time be sold under the special circumstances set forth in the Agreement, or may be redeemed or may mature in accordance with their terms. Under certain circumstances, according to the application, where the Sponsor believes that the retention of certain Debt Obligations may be detrimental to any Series, such as a default in the payment of principal or interest, the Sponsor may direct the Trustee to dispose of such Debt Obligation. In such cases, the proceeds therefrom will be distributed to the Unitholders and may not be reinvested.

According to the Application, each Unit of a Series will represent a fractional undivided interest in such Series. Units will remain outstanding until redeemed or until the termination of the Agreement. The application states that the Agreement, with respect to any particular Series, may be terminated (1) by agreement of 100 percent of the holders of the then outstanding Units of such Series, or (2) if the value of the Debt Obligations in a particular Series falls below 40 percent of the aggregate principal amount of the Debt Obligations orginally deposited in such Series, upon direction of the Sponsor to the Trustee: Provided, however, that in no event shall a Series continue beyond the earlier of the disposition of the last Debt Obligation in the Series or the end of the calendar year preceeding the 50th anniversary of the Series.

The Applicants assert that following the deposit of Debt Obligations in the Series by the Sponsor with the Trustee, and following the effectiveness of a Series' registration statement under the Securities Act of 1933 and clearance by the securities authorities of the various states, the Sponsor intends to offer the Units to the public at the public offering price set forth in the prospectus for such Series, plus a sales charge of 4½ percent. The Applicants further state that, during the initial offering period of each Series, a purchaser of 100 or more Units will be entitled to a discount of $5 per Unit from the public offering price. According to the application, the Sponsor, while under no obligation to do so, intends to maintain a market for the Units and continuously to offer to purchase such Units at prices in excess of the redemption price as set forth in the Agreement. Applicants assert that, absent such a market, Unitholders may be able to dispose of their Units only by redemption to the Trustee.

SECTION 14(a)

Section 14(a) of the act provides, in part, that no registered investment company and no principal underwriter for such company, shall make a public offering of securities of which such company is the issuer, unless (1) the company has a net worth of at least $100,000; (2) such company has previously made a public offering of its securities, and at the time of such offering had a net worth of at least $100,000; or (3) provision is made in connection with registration of such securities under the Securities Act of 1933 that such company will obtain a net worth of at least $100,000 from not more than 25 responsible persons within 90 days of the effective date of such registration, and that, otherwise, the entire proceeds received by such company shall be refunded to any subscriber, including any sales load, on demand and without any deduction.

Applicants request an order, pursuant to section 6(c) of the Act, exempting each Series from compliance with the provisions of section 14(a) of the Act. In support of the requested exemption, Applicants represent that the Sponsor agrees to: (1) Refund the sales load to purchasers of Units in any Series if, within 90 days of the effective date of the registration under the Securities Act of 1933, the net worth of such Series is reduced to less than $100,000 or if such Series is terminated; (2) instruct the Trustee, on the date of deposit of the Debt Obligations in any Series, that if such Series shall at any time have a net worth of less than 40 percent of the aggregate principal amount of the Debt Obligations originally deposited in such Series as a result of Sponsor redemption of unsold Units of such Series the Trustee shall terminate such Series in the manner provided in the Agreement with respect to such Series and distribute any Debt Obligations or other assets deposited with the Trustee pursuant to such Agreement as provided therein; and (3) in event of termination for the reasons described in (2) above, to refund any sales load to

any purchaser of Units purchased from the Sponsor. Such refund shall be made directly by the Sponsor or any underwriter of the Units, without deduction to each Unitholder at his address appearing in the Trustee's registration books.

SECTION 22(d)

The Applicants propose to afford Unitholders of each Series the option automatically to reinvest income and principal distributions into Units of Series to be issued in the future ("Future Series") or, if no Future Series is available, into Units of a previously formed Series which have been purchased by the Sponsor in the secondary market and with respect to which the Sponsor has a currently effective registration statement ("Secondary Series") (Future Series and Secondary Series referred to, collectively, as "Available Series"), such reinvestment to be made at a reduced sales charge. Applicants propose to offer such option ("Plan") to only those Unitholders who elect to receive semi-annual distributions of principal and interest. Under Applicants' proposal, a Unitholder will be able to join the Plan at any time by delivering an authorization form to the Trustee; a participant may withdraw from the Plan at any time upon written notice to the Trustee. Once delivered to the Trustee, the authorization form will constitute a valid election to participate in the Plan with respect to all Units purchased in the Series (and with respect to Plan Units purchased with the distributions from the Units purchased in such Series) for each distribution as long as the Unitholder continues to participate in the Plan.

According to the application, each Plan participant will have his interest and principal distributions reinvested on each semi-annual Payment Date in Units of the other currently Available Series. Applicants state that the Sponsor intends that an Available Series will be offered on or about each semi-annual Record Date, which shall be June 1 and December 1 of each year. If (a) the Sponsor does not have a currently effective Available Series on any Payment Date or (b) the Available Series materially differs from the Trust in the opinion of the Sponsor, then the Sponsor intends to suspend the Plan and distribute to each participant his regular semi-annual distribution. If the Plan is so suspended, it will resume with the next semi-annual Payment Date. The application further states that, on or about each semi-annual Record Date, a current Prospectus relating to the Available Series will be mailed to each Plan participant along with a letter reminding each participant that Plan Units are being purchased for him unless he notifies the Trustee by the Payment Date that he no longer wishes to participate in the Plan or the transaction. Applicants state that if a Future Series has not been declared effective in sufficient time to distribute final prospectuses, and a then currently effective Secondary Series is not available, the Plan will be suspended with respect to that Payment Date and recommenced with the next Payment Date. In such case the participant would receive his normal cash distribution. The application further states that both the Sponsor and the Trustee reserve the right to suspend, modify or terminate the Plan at any time and that notice of such action will be given to each participant.

Applicants state that, under the Plan, fractional Units will be purchased from the Sponsor at a price equal to the aggregate offering price per Unit of the Debt Obligations in the Available Series portfolio divided by 100, plus a sales charge equal to 3.627 percent of the offering side evaluation of such Debt Obligations (or 3½ percent of the offering price per Plan Unit), plus accrued interest, rather than the 4½ percent sales load which is applied to all primary and secondary sales of Units in each Series.

Section 22(d) of the Act provides, in pertinent part, that no registered investment company shall sell any redeemable security issued by it to any person except either to or through a principal underwriter for distribution or at a current public offering price described in the prospectus, and, if such class of security is being currently offered to the public by or through an underwriter, no principal underwriter of such security and no dealer shall sell any such security to any person except a dealer, a principal underwriter, or to the issuer except at a current public offering price described in the prospectus.

Applicants request an order pursuant to section 6(c) of the Act exempting the Plan offered with respect to each Series from the provisions of section 22(d) of the Act. In support of their request, Applicants assert that applying a sales charge for Plan purchases at less than the customary 4½ percent charge is both beneficial to Plan participants and warranted in light of the related cost savings. Applicants state that approximately 3 percent of the customary 4½ sales charge is attributable to the efforts of the initial soliciting broker. Since each Available Series will be substantially similar to the Series initially purchased by the participant, except for the exact make-up of the bond portfolio, selling and counselling effort is reduced. The Applicants assert that the participant may seek professional advice from his broker with respect to participation in any particular Available Series. They also assert that a charge of 1½ percent of the price per Plan Unit is a reasonable and justifiable expense to be allocated by the Sponsor to the soliciting broker for his professional assistance to a participant in connection with each Available Series. For this purpose, a participant may designate the broker entitled to receive such commission. If no broker is so designated, the Sponsor will retain the commission. Applicants further assert that implementation and continuation of the Plan will create special out-of-pocket costs which should be borne by the Plan participants, and that the sponsor believes that such out-of-pocket expenses will amount to 1 percent of the price per Plan Unit. Applicants further state that prior experience indicated that the out-of-pocket costs of establishing each Series will represent approximately 1 percent of the public offering price of the Units of the Available Series. Applicants represent that all such costs will be covered in the proposed 3½ percent sales charge. Thus, Applicants conclude that the proposed 3½ percent sales charge for Plan purchases not only passes through certain cost savings to Plan participants but also charges such persons for reasonable expenses related to the creation of the Plan, and for fees relating to periodic, professional financial advice.

RULE 19b-1

Rule 19b-1(a) promulgated under the Act provides, in pertinent part, that no registered investment company which is a "regulated investment company" as defined in section 851 of the Internal Revenue Code of 1954 shall distribute more that one capital gain distribution per taxable year. Rule 19b-1(b) contains a similar prohibition for a company not a "regulated investment company", but permits a unit investment trust to distribute capital gain dividends received from a "regulated investment company" within a reasonable time after such receipt.

According to the application, distributions of interest to Unitholders of the various Series will be either monthly or semiannually, depending on the distribution Plan selected by the participant. Distributions of principal, if any, will be made semiannually. Applicants state that distributions of principal containing capital gains may occur in two instances: (1) When an issuer calls or redeems an issue in the portfolio, and (2) when Units are redeemed by the Trustee and Debt Obligations are sold to provide the funds necessary for redemption. In such instances, the Applicants assert that a Unitholder may receive funds

acts as the investment adviser to the Fund, it is an affiliated person of the Fund as defined in section 2(a)(3)(E)

thereupon dissolve. The Agreement provides that the Fund and EDEV rec-ognize and agree that the Fund share-

V 43/205 OCT 23 78

constituting capital gains, since, in some cases, the Debt Obligations sold may have appreciated since their initial deposit in the Series. Applicants anticipate that no capital gains will arise from the sale of Debt Obligations which may occur upon default on payment of principal or interest, or the occurrence of other factors which in the opinion of the Sponsor would make the retention of such Debt Obligations detrimental to the Series.

Applicants request an order, pursuant to section 6(c) of the Act, exempting the Series from the provisions of Rule 19b-1 under the Act. In support of their request, Applicants assert that the purpose, in part, of Rule 19b-1(b) is to avoid forcing unit investment trusts to accumulate valid distributions throughout the year and distribute them only at year end, and that the operations of the Trust are squarely within the purpose of such provisions. Applicants further assert that the dangers against which Rule 19b-1 was intended to guard do not exist in the situation at hand since neither the Sponsor nor the Trustee can directly control the events which might trigger capital gains. In addition, Applicants state that the amounts involved in a normal distribution of principal are relatively small in comparison to the normal interest distribution, and the nature of such distributions are clearly indicated in accompanying reports to Unitholders.

RULE 22c-1

Rule 22c-1 under the Act provides, in pertinent part, that no registered investment company issuing any redeemable security shall sell, redeem, or repurchase any such security except at a price based on the current net asset value of such security which is next computed after receipt of a tender of such security for redemption or receipt of an order to purchase or sell such security.

The Applicants state that following the initial offering period, the Sponsor intends to offer to purchase and sell Units in the secondary market at prices based on the offering side evaluation of the Debt Obligations in each Series, determined on the last business day of each week, effective for all purchases and sales made during the following week. Applicants assert that the pricing by the Sponsor in the secondary market will in no way affect any Series' assets, and the public Unitholders will benefit from such pricing procedure by receiving a normally higher repurchase price for their Units without the cost of daily evaluation of the Units' redemption value. In addition, Applicants state that the Sponsor has undertaken to adopt a procedure whereby the Evaluator, without a formal evaluation, will provide estimated evaluations on trading days based on both the offer and bid prices of the Debt Obligations. In the case of a repurchase, if the Evaluator cannot state that the previous Friday's offering price is at least equal to the current bid price, the Sponsor will order a full evaluation. The Applicants further assert that, in order to protect itself against a decline in the current offering prices of the Debt Obligations, the Sponsor may, in its sole discretion, order a full evaluation in the event the previous Friday's offering price is higher than the current offering price. The Sponsor further agrees, in the case of a resale of Units in the secondary market, that if the Evaluator cannot state that the previous Friday's offering price is not more than one-half point ($5 on a Unit representing $1,000 principal amount of underlying Debt Obligations) greater than the current offering price, a full evaluation will be ordered. The application further states that each Series will bear the costs of its weekly evaluation, that the Sponsor will bear the costs of each full evaluation ordered pursuant to the conditions set forth in this paragraph.

Applicants request, pursuant to section 6(c) of the Act, an order exempting them from the provisions of Rule 22c-1 to the extent it might otherwise apply to the aforedescribed secondary market activities of the Sponsor. In support thereof, the Applicants contend that Rule 22c-1 has two purposes: (1) To eliminate or reduce any dilution of the value of outstanding redeemable securities of registered investment companies which might occur through the sale, redemption, or repurchase of such securities at prices other than their current net asset values, and (2) to minimize speculation in the securities of registered investment companies. The Applicants state that the secondary market activities of the Sponsor and the manner for the acquisition by investors of Units in the secondary market may be deemed to violate Rule 22c-1 because of the absence of daily pricing. Applicants contend, however, that the purposes of Rule 22c-1 will not be offended by the Sponsor's secondary market activities. According to the Applicants, only those investors who purchase Units in the secondary market at a price which is higher than the current offering price by one-half point or less may be deemed to suffer any detriment from the lack of daily pricing. However, Applicants assert that such detriment would be offset by the lower cost burden to each Series of having evaluations made on a weekly, rather than daily, basis. Applicants assert that the pricing of Units by the Sponsor in the secondary market will in no way dilute the assets of a Series and that Unitholders will benefit from the Sponsor's pricing procedure in the secondary market since they will normally receive a higher repurchase price for their Units than they could by redeeming their Units at the current net asset value. According to the Applicants, this will be accomplished without the cost burden to the Series of daily price evaluations of the Unit redemption price. In addition, the Applicants contend that speculation in the Units of any Series is unlikely in that weekly price changes are limited in the type of Debt Obligations which will be held in the Trust.

Applicants finally assert that in order to avoid the Sponsor's receiving more than the specified sales charge on the resale of Units, the Sponsor undertakes not to resell any Units (including resales to the Plan) which it may repurchase at a price below the offering side evaluation of the Debt Obligations in any Series.

Section 6(c) of the Act, in pertinent part, provides that the Commission, by order upon application, may conditionally or unconditionally exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions, from any provision or provisions of the Act or from any rule or regulation thereunder, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than November 3, 1978, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicants at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including

the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Release No. 10429; 812-4350]

NUVEEN MUNICIPAL BOND FUND, INC. AND NUVEEN ADVISORY CORP.

Filing of an Application for an Order Exempting a Proposed Exchange of Shares

OCTOBER 10, 1978.

Notice is hereby given that Nuveen Municipal Bond Fund, Inc. (the "Fund"), registered under the Investment Company Act of 1940 ("Act") as an open-end, diversified management investment company, and Nuveen Advisory Corp. ("Nuveen"), 230 W. Monroe Street, Chicago, Illinois 60606, investment adviser to the Fund (collectively referred to as "Applicants"), filed an application on August 17, 1978, and amendments thereto on September 1, 1978, September 21, 1978, and October 6, 1978, for an order of the Commission pursuant to section 6(c) of the Act exempting from the provisions of section 22(c), Rule 22c-1 thereunder, and section 22(d) of the Act, a proposed exchange of Fund shares at net asset value without a sales charge and at a price other than the price next determined after receipt of a purchase order for substantially all the assets of EDEV Corporation ("EDEV"), a personal holding company; and for an order pursuant to section 17(d) of the Act and Rule 17d-1 thereunder permitting an agreement between the Fund and Nuveen calling for the Fund and Nuveen each to bear one-half of the Fund's out-of-pocket expenses related to the proposed exchange, up to a maximum of $10,000, and for all additional out-of-pocket expenses of the Fund and all other expenses connected with the exchange to be borne by Nuveen. All interested persons are referred to the application on file with the Commission for statement of the representations contained therein, which are summarized below.

The Fund's shares are currently being offered by John Nuveen & Co. Inc. ("John Nuveen & Co."), its principal underwriter, for sale to dealers who in turn resell them to the public at public offering prices consisting of the net asset value per share plus varying sales charges described in the Fund's current prospectus. Nuveen is an investment adviser registered with the Commission under the Investment Advisers Act of 1940. Since Nuveen acts as the investment adviser to the Fund, it is an affiliated person of the Fund as defined in section 2(a)(3)(E) of the Act.

Based upon representations made by or for EDEV, the Applicants represent that EDEV is a corporation organized and existing under the laws of Delaware. Its common stock, which is its only class of securities outstanding, is held of record by one individual. The Fund represents that there is no connection between it and EDEV, no affiliated person of EDEV is an affiliated person of the Fund, and no affiliated person of the Fund is an affiliated person of EDEV.

The Applicants state that the Fund and EDEV have entered into an Agreement and Plan of Reorganization (the "Agreement") which provides for the transfer of substantially all of the securities owned by EDEV (which securities had a market value of $1,314,828 on July 31, 1978) to the Fund in exchange for shares of common stock of the Fund. The shares of the Fund are to be acquired at net asset value without a sales charge. Pursuant to the Agreement, Fund shares having an aggregate net asset value equal to the value of EDEV's assets to be acquired shall be issued in exchange therefor (the number of shares to be determined by dividing the aggregate value of EDEV's net assets to be acquired by the net asset value per share of the Fund). The net asset value per share of the Fund and the value of the net assets of EDEV to acquired by the Fund will be determined as of the close of business on the business day next preceding the Closing Date. The actual exchange of EDEV's assets for shares of the Fund will take place on the Closing Date. If the valuation under the Agreement had taken place at the close of business on July 31, 1978, approximately 148,209 shares having a net asset value of $9.31 each of the Fund would have been issued for substantially all of the assets of EDEV having an aggregate value of $1,379,828 as of that date. The Fund currently expects to sell approximately $335,000 (about 24 percent) of the securities proposed to be acquired from EDEV within a relatively short period after their acquisition.

The Agreement also provides for the retention by EDEV of an amount of cash and/or securities not to exceed 10 percent of its net assets as of the Closing Date to cover its expneses related to the above proposed transaction and any liabilities it may have outstanding. The Agreement further provides that, to the extent these expenses and liabilities are less than the amount of cash and/or securities so withheld, EDEV will distribute all of its remaining assets to its sole stockholder in full and complete liquidation and shall thereupon dissolve. The Agreement provides that the Fund and EDEV recognize and agree that the Fund shares received by EDEV will be distributed to the stockholder as part of such complete liquidation. Under the terms of the Agreement, John Nuveen & Co., has agreed to pay a finder's fee to a third party, and EDEV is paying a financial consultant fee to said party, for services rendered in connection with the proposed transaction. Applicants assert that to their knowledge neither the Fund, John Nuveen & Co., or EDEV is affiliated with the party receiving such compensation or any affiliated person thereof. No portion of the fees for such services will be paid by the Applicants either directly or indirectly.

It is a condition to the obligations of the Fund and EDEV under the Agreement that, prior to the exchange of EDEV assets for Fund shares, EDEV shall have received a written ruling from the Internal Revenue Service satisfactory to counsel for EDEV in form and substance or an opinion from EDEV's counsel to the effect that the transfer of the assets of EDEV in exchange for Fund shares will constitute a reorganization within the meaning of section 368(a)(1)(C) of the Internal Revenue Code, and no gain or loss will be recognized to EDEV or its stockholder as a consequence of such reorganization. This condition may, however, be waived by EDEV's Board of Directors. The application states that as of May 31, 1978, the Federal tax cost basis of the EDEV securities which are proposed to be transferred was $1,485,649, and their market value was $1,381,000. On that date Federal tax cost basis and market value of the Fund's portfolio were $53,757,059 and $51,875,340, respectively.

The proposed transaction will be accounted for as a purchase transaction and the Fund will record the market value of EDEV's securities as its basis for cost, and thus will not recognize any unrealized appreciation or depreciation on the transaction. The proportion of unrealized appreciation of the assets of the Fund is greater than such appreciation of the EDEV assets to be transferred. In addition, the Fund states that it will not recognize a material capital loss carryforward from the transaction, since under the Internal Revenue Code, EDEV's approximately $10,000 of capital loss carryforward will be reduced by 5 percent for each percentage point that the EDEV assets is less than 20 percent of the combined Fund-EDEV assets. Accordingly, the Directors of the Fund have determined that no adjustment to the EDEV assets need be made to protect the Fund's shareholders against possible tax liability resulting

V 43/205 OCT 23 78

from the eventual disposition by the Fund of EDEV's assets, and that a net asset value exchange is appropriate

purposes fairly intended by the policy and provisions of the Act, and that the proposed acquisition will be beneficial

Because this Agreement may be deemed to be a joint and several transaction between the Fund and an affili-

Nuveen, it is more advantageous than Nuveen's participation because any expenses in excess of $10,000 will be

craft from wake vortices. The National Aviation System needs to regain this

V 4 3 / 2 0 5 0 C 2 3 7 8

from the eventual disposition by the Fund of EDEV's assets, and that a net asset value exchange is appropriate under the circumstances.

For the above reasons, it is anticipated that the transaction will have no adverse impact on the Fund.

Section 22(c) of the Act and Rule 22c-1 thereunder taken together provide, in pertinent part, that a registered investment company may not issue its redeemable securities except at a price based on the current net asset value of such security which is next computed as of the close of trading on the New York Stock Exchange next following receipt of an order to purchase such security.

Section 22(d) of the Act provides, in pertinent part, that a registered investment company may sell redeemable securities issued by such company only at the current public offering price described in the prospectus. The current public offering price of shares of the Fund as described in its prospectus is net asset value plus a sales charge.

The Applicants further state that without an exemption from section 22(c), Rule 22c-1 thereunder, and section 22(d) of the Act, the Fund would be prohibited from: (a) Exchanging its shares at net asset value without a sales charge for substantially all of the assets of EDEV, and (b) effecting the proposed exchange transaction on the Closing Date based on the market value of the assets of EDEV to be transferred and net asset value per share of the Fund, both determined as of the valuation time which is the close of business on the last business day immediately preceding the Closing Date. Because the Closing Date and the Valuation Date will be fixed in advance, and in view of the short time span involved, the Applicants assert that the possible abuses at which Rule 22c-1 is directed will not exist.

Section 6(c) of the Act provides, in pertinent part, that the Commission, by order upon application, may conditionally or unconditionally exempt any person or transaction from any provision of the Act or of any rule or regulation thereunder, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

The Applicants represent that they consider the proposed exchange of shares to be at a fair price, arrived at by arms-length bargaining, and believe that granting of the requested exemption from the provisions of section 22(c), Rule 22c-1 thereunder and section 22(d) of the Act is appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act, and that the proposed acquisition will be beneficial to the shareholders of the Fund for the following reasons:

(1) Those expenses of the Fund which do not rise proportionately with an increase in portfolio size will be spread over a larger number of shares, and therefore will be a smaller amount per share to the existing shareholders;

(2) The proposed exchange of shares will enable the Fund to acquire at one time additional securities for its existing portfolio without affecting the market in such securities; and

(3) Even after offsetting transaction costs involved in disposition of securities which the Fund does not expect to retain for any significant period after completion of the proposed exchange of shares, the transfer of portfolio securities to be retained pursuant to the proposed acquisition will cause the Fund less expense than the purchase of securities of the same issuers in the open market.

The Applicants have also agreed to a proposal calling for the fund's out-of-pocket expenses related to the above proposed exchange of shares to be borne, up to a maximum of $10,000, one-half by the Fund and one-half by Nuveen, and for all additional out-of-pocket expenses of the Fund and all other expenses connected with the exchange to be borne by Nuveen. For purposes of this proposal, the Fund's out-of-pocket expenses shall include legal and accounting fees and the filing fees associated with this application, but shall not include State and Federal registration fees applicable to shares of the Fund to be issued pursuant to the Agreement. Under the Agreement, the Fund would bear $5,000 of these out-of-pocket expenses and Nuveen would bear the balance. The Fund further notes that although such expenses are properly allocable to it and that the Fund will, therefore, bear such costs directly, the expenses will, in effect, be borne by Nuveen. This result arises from the fact that Nuveen has agreed to waive, at least until May 1, 1979, its management fee and assume certain expenses of the Fund, so as to limit until that time the ratio of expenses incurred by the Fund (including the management fee) to average net assets to an annual rate of .75 of 1 percent. Since the Fund's expenses are currently in excess of a level which would produce the agreed upon ratio, Nuveen is assuming such expenses in order to limit the ratio to the agreed upon level. Thus, although the Fund will bear such costs directly, they will ultimately be assumed by Nuveen pursuant to the terms of the above expense limitation agreement between the Fund and Nuveen.

Because this Agreement may be deemed to be a joint and several transaction between the Fund and an affiliated person thereof, the Applicants state that an order pursuant to the provisions of Rule 17d-1 under the Act approving the terms of the Agreement may be necessary.

As noted above, the Applicants have determined that the Fund will benefit from the proposed exchange of shares both from a spreading of fixed expenses over a broader asset base and because of the opportunity to obtain portfolio securities at reduced acquisition costs. On this basis, the directors of the Fund (including a majority of the disinterested directors) concluded that the Fund could properly bear all of the expenses related to the proposed exchange of shares. This being the case, the directors of the Fund (including a majority of the disinterested directors) concluded that an arrangement whereby the Fund would bear only part of such expenses, with a maximum exposure of $5,000, was entirely appropriate.

Rule 17d-1, adopted by the Commission pursuant to section 17(d) of the Act, provides in pertinent part, that no affiliated person of any registered investment company and no affiliated person of such a person, acting as principal, shall participate in, or effect any transaction in connection with any joint enterprise or other joint arrangement in which such registered company is a participant unless an application regarding such joint enterprise or arrangement has been filed with the Commission and has been granted by an order. A joint enterprise or other joint arrangement as used in this Rule is any written or oral plan, contract, authorization or arrangement, or any practice or understanding concerning an enterprise or undertaking whereby a registered investment company, or any affiliated person of such a person, have a joint or a joint and several participation, or share in the profits of such enterprise or undertaking. In passing upon such application, the Commission will consider whether the participation of such registered investment company in such joint enterprise or joint arrangement on the basis proposed is consistent with the provisions, policies, and purposes of the Act, and the extent to which such participation is on a basis different from or less advantageous than that of other participants.

The Fund represents that its management believes that granting of the application and the issuance of the requested section 17 order would be consistent with the provisions, policies, and purposes of the Act and that, to the extent that the participation of the Fund is different from that of

Nuveen, it is more advantageous than Nuveen's participation because any expenses in excess of $10,000 will be borne by Nuveen.

Notice is further given that any interested person may, not later than November 6, 1978, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the application, accompanied by a statement as to the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon the Applicants at the address stated above. Proof of such service (by affidavit, or in the case of an attorney at law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

FAA/NASA WORKSHOP ON WAKE VORTEX ALLEVIATION AND AVOIDANCE

Joint FAA/NASA Conference

The purpose of this notice is to announce a joint Federal Aviation Administration (FAA)/National Aeronautics and Space Administration (NASA) workshop on Wake Vortex Alleviation and Avoidance to be hosted by the Department of Transportation's Transportation Systems Center. This 2-day conference will commence at 9 a.m. on November 28, 1978, at the Transportation Systems Center, 55 Broadway, Cambridge, Mass. The meeting will be open to the public and no advance registration is required.

Capacity restrictions have resulted from the increased longitudinal spacing required for safely separating aircraft from wake vortices. The National Aviation System needs to regain this lost capacity, as well as to further increase its capacity, by decreasing separation standards below those required today. The highest priority program for pursuing this type of capacity increase is the alleviation and avoidance of wake vortices in the terminal area. The purpose of this conference is (1) to make clear that significant system payoff potential exists for reducing longitudinal separation in the terminal area and to describe various methods being considered to accomplish this, (2) to insure that the aviation community is made aware of all wake vortex efforts that are planned or underway, (3) to thoroughly discuss the operational, safety, and economic implications of wake vortex alleviation and avoidance, and (4) to gain advice from the using community as to the emphasis and priority of the program and solicit further ideas for solving the wake vortex problem. Participants will receive government and industry briefings, and then participate in workshops. The objective of the workshops will be to deliver reports to the conference co-chairman prior to the end of the second day with program recommendations coming in three areas; (1) wake vortex alleviation at the source, (2) development of wake vortex avoidance systems on the ground, and (3) operational and safety procedures and regulations. It is not expected that full response will be provided at the conference. Workshop participants will have the opportunity to subsequently submit detailed comments to NASA and FAA within 2 months after the conference for inclusion in the final report.

Requests for the conference agenda or to receive other information should be sent to: Transportation Systems Center, Office of Air and Marine Systems, attention: DTS-521, 55 Broadway, Cambridge, Mass. 02142; or by telephoning: 617-494-2181.

Issued in Washington, D.C., on October 13, 1978.

A. P. ALBRECHT,
Acting Associate Administrator for Engineering and Development.

RADIO TECHNICAL COMMISSION FOR AERONAUTICS (RTCA) EXECUTIVE COMMITTEE

Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. App. 1) notice is hereby given of a meeting of the RTCA Executive Committee to be held November 15, 1978, Sheraton National Motor Hotel South Ballroom, Arlington, Va., commencing at 2 p.m.

The Agenda for this meeting is as follows; (1) Chairman's introductory remarks; (2) summary report of special committee activities for the past year; (3) review of initiatives related to international cooperation; (4) informal exchange of views on RTCA standards and their use in regulations, and (5) other business.

Attendance is open to the interested public but limited to space available. With the approval of the Chairman, members of the public may present oral statements at the meeting. Persons wishing to present oral statements or obtain information should contact the RTCA Secretariat, 1717 H Street NW., Washington, D.C. 20006; 202-296-0484. Any member of the public may present a written statement to the Committee at any time.

Issued in Washington, D.C., on October 16, 1978.

KARL F. BIERACH,
Designated Officer.

National Highway Traffic Safety Administration

[Docket No. EX78-4; Notice 2]

MARATHON ELECTRIC VEHICLES, INC.

Temporary Exemption From Federal Motor Vehicle Safety Standards

This notice grants the petition by Marathon Electric Vehicles, Inc. of the District of Columbia for a temporary exemption from compliance with several Federal motor vehicle safety standards on the basis that an exemption would facilitate the development and field evaluation of a low-emmission vehicle.

Notice of receipt of this petition was published on June 26, 1978, and an opportunity afforded for comment. (43 FR 27630)

Petitioner is the recently established American Subsidiary of Marathon Electric Co. Ltd. of Montreal, Canada. The parent company was formed in 1969 to manufacture and sell electric golf carts. The company has under development the C-300 electric utility vehicle, and tested five prototypes in 1976 and 1977. In 1978 it intends to produce for delivery 25 C-300's which "will help create the base for the testing and marketing effort in coming years." Marathon believes that the primary market for its vehicles is in both off and on road applications that do not require a high speed, high cost internal combustion engine.

Marathon asked for exemption from the following standards for the reasons given: Standard No. 205, *Glazing Materials.* The rear window is composed of a plastic material that is less resistant to abrasion than materials that comply with test Nos. 16, 22, and 23 or 24 of ANS Z26. materials that meet Standard No. 205 are said to be in short supply but the company expects the shortage to end before expiration of the exemption. Standard No. 208, *Occupant Crash Protection.* The company requires an exemption from S7.3a, the requirement for a seat belt warning system, though "efforts are currently underway to design an electrical system incorporating such a warning system * * *." Standard No. 219, *Windshield Zone Intrusion.* The company is uncertain whether it meets the requirements of the standard. However, since the hood does not reach to the windshield, "it would not penetrate the windshield safety zone as defined by the regulation so long as the hinges didn't disintegrate." Standard No. 301-75, *Fuel System Integrity.* The C-300 is equipped with a gasoline heater as optional equipment, and the company has not conducted barrier impact tests on any of the five vehicles it has produced to date to determine conformance status.

The company argued that an exemption would not unduly degrade the safety of the vehicle. Visibility through the rear window "is not appreciably worse than through a window of the conforming material." The C-300 has a canvas top and the rear window can be unzipped. Much of the vehicle's operation will be off-road and at low speeds.

The C-300 "possesses significant electrical and mechanical innovations which set it apart from all other electric-powered vehicles," basically in the efficiency and economy with which the electric power from the batteries is utilized. To evaluate its unique transmission and other components, Marathon believes that it must test its vehicles in a variety of physical and work environments. Therefore, in the company's view, an exemption would facilitate the development and field evaluation of this vehicle.

No comments were received on the petition.

The statutory requirements for an exemption granted pursuant to 15 U.S.C. 1410 (a)(1)(C) and (a)(2), is that it would facilitate the development and field evaluation of a low-emission motor vehicle and would not unreasonably degrade its safety, and that it would be consistent with the public interest and the objectives of the National Traffic and Motor Vehicle Safety Act. It appears to NHTSA from its production figures that the Marathon is still in a prototype stage with respect to its electrical and mechanical innovations, and that an exemption would allow field evaluation of it and facilitate its further development.

NHTSA understands that the vehicle is under study by the U.S. Park Service; for that reason, and the national policy of exploring alternatives to the internal combustion engine as well, NHTSA has decided that an exemption is in the public interest. Because of Marathon's low volume of production and its apparent general conformance with the Federal safety standards, NHTSA also finds that an exemption is consistent with the agency's mission to reduce traffic injuries and deaths.

With respect to the finding that an exemption would not unduly degrade the safety of the vehicle, it is apparent that the intent of Congress in providing in providing this exemption authority was to balance the need for vehicle safety against another social benefit, the necessity to encourage vehicle propulsion systems producing minimal pollutants, and to conclude that some degradation of safety was allowable as long as it was not, in the agency's judgment, unreasonable. With respect to Standard Nos. 219 *Windshield Zone Intrusion* and 301-75 *Fuel System Intergrity* the agency has concluded that a 2-year exemption would be reasonable, and would afford the time to conduct tests and make the changes necessary for conformance. With respect to Standard No. 205 *Glazing Materials,* the supply problem appears temporary, and a 1-year exemption will encourage the company to improve rear visibility at an early date. Because of the emphasis that the agency places on passenger restraint systems, it also believes that a 1-year exemption from Standard No. 208 *Occupant Crash Protection* will encourage Marathon to incorporate a seatbelt warning system in the relatively near future.

In consideration of the foregoing Marathon Electric Vehicles, Inc. is hereby granted NHTSA Exemption No. 78-4 from 49 CFR 571.205 motor Vehicle Safety Standard No. 205 and S7.3a of 49 CFR 571.208 Motor Vehicle Safety Standard No. 208, expiring September 1, 1979, and from 49 CFR 571.219 Motor Vehicle Safety Standard No. 219, and 49 CFR 571.301-375 Motor Vehicle Safety Standard No. 301-75, expiring September 1, 1980.

(Sec. 3, Pub. L. 92-548, 86 Stat. 1159 (15 U.S.C. 1410): delegation of authority at 49 CFR 1.50.)

Issued on October 16, 1978.

JOAN CLAYBROOK,
Administrator.

[FR Doc. 78-29603 Filed 10-20-78; 8:45 am]

NATIONAL HIGHWAY SAFETY ADVISORY COMMITTEE

Public Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463, 5 U.S.C. app. I), notice is hereby given of a meeting of the National Highway Safety Advisory Committee's Safe Utilization of Commercial Vehicles Task Force. This meeting will be held on November 8 and 9, 1978, at the California Highway Patrol Police Academy, 3500 Reed Avenue, Bryte, Calif.

The task force will be discussing issues related to the safe utilization of commercial vehicles.

Attendance is open to the interested public but limited to the space available. Since these meetings will be taking place at a restricted facility, the public will be required to sign in and receive a pass and instructions to the appropriate classroom. All meetings will start at 9 a.m. With the approval of the chairperson, members of the public may present oral statements at the meeting. Any member of the public may present a written statement to the committee at any time.

This meeting is subject to the approval of the appropriate DOT officials. Additional information may be obtained from the NHTSA Executive Secretary, Room 5215, 400 Seventh Street SW., Washington, D.C., 20590, telephone 202-426-2872.

Issued in Washington, D.C., on October 16, 1978.

WM. H. MARSH,
Executive Secretary.

National Highway Traffic Safety Administration

[Docket No. IP77-17; Notice 2]

AMERICAN HONDA MOTOR CO., INC.

Grant of Petition for Exemption From Notice and Remedy for Inconsequential Noncompliance

This notice grants the petition by American Honda Motor Co., Inc., of Gardena, Calif., to be exempted from the notification and remedy requirements of the National Traffic and Motor Vehicle Safety Act for a noncompliance with 49 CFR 571.101, Motor Vehicle Safety Standard No. 101, *Control Location, Identification, and Illumination.* The basis of the petition was that the noncompliance is inconsequential as it relates to motor vehicle safety.

Notice of the petition was published on December 1, 1977 (42 FR 61106) and an opportunity afforded for comment.

Paragraph S4.2.1 of Standard No. 101 requires that the hazard warning switch control be identified by the word "Hazard," and may, in addition, be identified by a symbol shown in table 1 of the standard. Honda identified the control with the symbol only, failing to use the word "Hazard" on approximately 82,000 Accords manufactured in model years 1976 and 1977. The company stated that it has had no owner complaints about the noncompliance, and that the control was identified in the owner's manual. Finally, in further support of its petition, Honda cited the agency's determination that an identical noncompliance by Toyota had an inconsequential relationship to motor vehicle safety (Docket IP75-2, 42 FR 5173).

One comment was received on the petition which supported it. The commenter, a Honda owner, stated that he and his wife knew the purpose of the switch "immediately" and that he would probably not subject himself to the inconvenience of taking his car in for modification.

Since notice of Honda's petition was published, NHTSA has amended Standard No. 101 to allow the hazard warning signal control, among others, to be identified by symbol alone if the manufacturer so choses (32 FR 27541, June 28, 1978). In addition, as Honda noted, the agency has previously granted the Toyota petition regarding an identical noncompliance. Accordingly, it has been determined that Honda's failure to label the hazard warning system control with the word "Hazard" is inconsequential as it relates to motor vehicle safety.

(Sec. 102, Pub. L. 93-492, 88 Stat. 1470 (15 U.S.C. 1417); delegations of authority at 49 CFR 1.50 and 49 CFR 501.8.)

Issued on October 17, 1978.

MICHAEL M. FINKELSTEIN,
Associate Administrator for Rulemaking.

[FR Doc. 78-29771 Filed 10-20-78; 8:45 am]

[4910-59-M]

[Docket No. IP77-18; Notice 2]

BUDD CO.

Denial of Petition for Inconsequential Noncompliance

This notice denies the petition by the Budd Co. of Troy, Mich., to be exempted from the notification and remedy requirements of the National Traffic and Motor Vehicle Safety Act for a noncompliance with 49 CFR 571.108, Motor Vehicle Safety Standard No. 108, *Lamps, Reflective Devices, and Associated Equipment.* The basis of the petition was that the noncom-

pliance is inconsequential as it relates to motor vehicle safety.

Notice of the petition was published

Issued on October 17, 1978.

MICHAEL M. FINKELSTEIN,
Acting Associate Administrator

and side marker lamps are not of a size required by the standard.

No. 206 *Door Locks and Door Reten-*

CFR 571.108, Motor Vehicle Safety Standard No. 108, *Lamps, Reflective Devices, and Associated Equipment,* (exclusive of requirements for number

areas, representatives of DOT and DOE will be holding a number of meetings with representatives of in-

V 4 3 / 2 0 5 0 C 2 3 7 8

pliance is inconsequential as it relates to motor vehicle safety.

Notice of the petition was published on March 2, 1978, and an opportunity afforded for comment (43 FR 8607).

Budd has informed NHTSA that it manufactured 80 semitrailer vans, produced for a single customer in 1975 and 1976, with the identification lamp cluster "located between the turn signals on the rear cross member * * *" Standard No. 108 requires, instead, that these lamps be located as close to the top of the vehicle as is practicable. Petitioner argued that the noncompliance is inconsequential because the cross member location is used in many instances in which higher mounting is impracticable, e.g., open top trailers, dump trucks. It also argues that lower mounted lights are much easier to keep clean and in operating order, thus enhancing motor vehicle safety.

Four comments were received on the petition. It was supported by Truck Safety Equipment Institute (TSEI), Ohio Body Manufacturing Co., and Strick Corp. Alloy Trailers, Inc., opposed it. TSEI argued that no significant safety advantage would be served by requiring the recall of only 80 semitrailer vans. Ohio Body urged the agency to consider a lower mounting height for identification lamps. Strick commented that a lower mounting location would be more practicable. Alloy based its opposition on the necessity that all manufacturers comply with regulations, and to find that an illegal mounting height is inconsequential would imply that the requirement itself might be erroneous.

The NHTSA has decided to deny Budd's petition. Although the cross member location is used on such vehicles as dump trucks and open top trailers, this practice is followed only when a higher location is impracticable; the lower mounting of identification lamps on such vehicles therefore complies with Standard No. 108. The desired mounting height is "as close to the top of the vehicle as practicable" for the cue that these lights afford to drivers, at night and under other conditions of reduced visibility, that large and frequently slow moving vehicles are in the roadway ahead. The presence of lower mounted lamps does not, in the agency's view, contribute to motor vehicle safety and the number of vehicles affected is considered irrelevant in this instance.

Accordingly petitioner has not met its burden of persuasion that its noncompliance with Standard No. 108 is inconsequential as it relates to motor vehicle safety, and its petition is hereby denied.

(Sec. 102, Pub. L. 93-492, 88 Stat. 1470 (15 U.S.C. 1417); delegations of authority at 49 CFR 1.50 and 49 CFR 501.8.)

Issued on October 17, 1978.

MICHAEL M. FINKELSTEIN,
Acting Associate Administrator for Rulemaking.

[4910-59-M]

[Docket No. EX76-1; Notice 4]

JET INDUSTRIES, INC.

Petition for Temporary Exemption From Motor Vehicle Safety Standards

This notice grants the petition by Jet Industries, Inc., of Austin, Tex., for an extension of NHTSA Exemption No. 76-1, from compliance with certain safety standards. The basis of the extension is that a further exemption would continue to facilitate the development and field evaluation of a low-emission motor vehicle.

Notice of the petition was published on February 13, 1978 (43 FR 6192), and an opportunity afforded for comment.

Since 1975 Jet has imported the Subaru 360 van, manufactured by Fuji Heavy Industries of Japan. The vehicle is not marketed in the United States and therefore is not certified as conforming to the Federal motor vehicle safety standards. Upon arrival in the United States these vehicles have had their gasoline-powered engines removed and electric motors substituted. They have been marketed as trucks under the name "Electra Van." Jet asked for a 2-year extension of the exemption originally granted it in 1976 and will not import more than 2,500 vehicles during any 12-month period that the exemption is in effect. Thus far 56 vehicles have been sold under the previous exemption. The following is a list of Federal standards or portions thereof for which continued exemption was requested:

No. 101 *Control Location, Identification and Illumination.* § 4.3-Control identification for headlamps, hazard warning, and windshield wiper switches is not directly illuminated. Ambient light is provided by light from adjoining gauges.

No. 103 *Windshield Defrosting and Defogging Systems.* Vehicle is furnished with systems but petitioner is unsure if performance requirements are met. Field experience in British Columbia and Connecticut indicates that "the system provides ice and fog free windshields within the limits of the existing standards".

No. 104 *Windshield Wiping and Washing Systems.* Wiping system has one speed only, with a frequency of 50 cycles per minute.

No. 108 *Lamps, Reflective Devices, and Associated Equipment.* Petitioner believes that stop, tail, turn signal, and side marker lamps are not of a size required by the standard.

No. 206 *Door Locks and Door Retention Components.* "Only limited tests as prescribed have been made at this time," but the company believes that this vehicle in all probability complies.

The company sought no extension of its exemption from Standard Nos. 119 and 207 as compliance has been achieved. The company essentially argued that exemption would not degrade the safety of the vehicle as experience under the previous exemption and the vehicle's intended use had shown no safety problems.

Jet has been selected by the former Energy Research and Development Administration to participate in the Department of Energy's electric and hybrid vehicle development program and will incorporate the knowledge gained from its recent research and experience in developing and supplying the vehicles under this grant.

No comments were received on the petition.

Pursuant to section 123(a)(1)(C) of the National Traffic and Motor Vehicle Safety Act an exemption may be granted if it would facilitate the development or field evaluation of a low-emission motor vehicle and would not unreasonably degrade the vehicle's safety, and if the exemption is consistent with public interest and objectives of traffic safety.

As a selected participant in the electric and hybrid vehicle program of the Department of Energy, the petitioner has demonstrated that continued experimentation, testing, and field evaluation of its vehicles is in the public interest. An exemption will also be consistent with traffic safety objectives as petitioner has pointed out that possible hazards presented by internal combustion propelled vehicles are lacking. These are the danger of fire in a collision and of carbon monoxide poisoning from exhaust fumes. The scope of the exemptions requested may be characterized as minimal and it has been concluded that they would not unreasonably degrade the safety of the vehicle.

However, to encourage compliance with those standards where compliance problems appear minimal, a shorter exemption is being provided with respect to Standards Nos. 108 and 206. The exemption from Standard No. 103 is being terminated. Petitioner certifies its vehicles as "multipurpose passenger vehicles". The sole requirement established by Standard No. 103 for such vehicles is that they be equipped with defroster/defogger systems, a requirement Jet already meets. Performance requirements apply only to passenger car systems.

In consideration of the foregoing NHTSA Exemption No. 76-1, from 49

CFR 571.108, Motor Vehicle Safety Standard No. 108, *Lamps, Reflective Devices, and Associated Equipment,* (exclusive of requirements for number of lamps, etc., and their location) and 49 CFR 571.206, Motor Vehicle Safety Standard No. 206, *Door Locks and Door Retention Components,* is hereby extended to expire July 1, 1979. NHTSA Exemption No. 76-1, from S4.3 of 49 CFR 571.101, Motor Vehicle Safety Standard No. 101, *Control Location, Identification, and Illumination,* and 49 CFR 571.104, Motor Vehicle Safety Standard No. 104, *Windshield Wiping and Washing Systems,* is hereby extended to expire January 1, 1980. NHTSA Exemption No. 76-1 from 49 CFR 571.103, Motor Vehicle Safety Standard No. 103, *Windshield Defrosting and Defogging Systems,* is hereby terminated effective the date of publication of this notice.

(Sec. 3, Pub. L. 92-548, 86 Stat. 1159 (15 U.S.C. 1410); delegation of authority at 49 CFR 1.50.)

Issued on October 16, 1978.

JOAN CLAYBROOK,
Administrator.

Office of the Secretary

DEPARTMENT OF ENERGY

Office of the Secretary

[OST File No. 61; Notice 78-15]

NATIONAL ENERGY TRANSPORTATION STUDY

Public Meetings With Industry

AGENCIES: Department of Transportation (DOT) and Department of Energy (DOE).

ACTION: Notice of public meetings with industry.

SUMMARY: As part of the President's national energy plan, DOT and DOE are conducting a joint study to determine if the Nation's transportation system is adequate to accommodate the future energy needs of the United States. Meetings among representatives of DOT, DOE, and the railroad industry, and among representatives of DOT, DOE, and the natural gas pipeline industry, will be held to discuss the capability of each of these industries to transport the energy materials that will be needed in the period 1985-2000. The public is invited to both meetings.

DATES: Railroad industry: Thursday, October 26, 1978, 10 a.m. to 12 noon, eastern time; natural gas pipeline industry: Tuesday, October 31, 1978, 3 p.m. to 5 p.m., eastern time. Both will be held in the Management Information Center (room 10214), DOT Headquarters (Nassif) Building, 400 Seventh Street SW., Washington, D.C.

FOR FURTHER INFORMATION CONTACT:

Thomas E. Marchessault, Staff Member, National Energy Transportation Study (NETS), Office of Intermodal Transportation, DOT (202-426-4168). Since available space for the public is limited, those wishing to attend should contact Mr. Marchessault not later than the day before the meeting.

SUPPLEMENTARY INFORMATION: By 1985 and beyond it appears likely that the Nation will experience numerous changes in the historical patterns of energy supply and demand, which in turn will require changes in the way energy is transported. The changing energy patterns include dwindling domestic oil and natural gas production, regional shifts in supply and demand, and shifts in national and regional fuel use, including new energy sources.

The joint DOT-DOE study team will look at important aspects of the movement of coal, crude oil and petroleum products, natural gas, nuclear fuel, and electrical power to 1985 and beyond. This will be done to determine what adjustments are needed in the present transportation network.

In the first phase of the study, DOE is to select alternative national energy scenarios based on different assumptions about future energy supply and demand. These scenarios will be broken down into 173 geographical regions for the fuels listed above.

In the second phase of the study, DOT is to determine how energy would be moved from supply areas to energy-consuming areas by all modes of the transportation network. DOT will use the assistance of a computer model to compare the present capacity with future needs and identify potential bottlenecks.

In the third phase of the study, the joint study team is to examine a number of issues that may affect the transportation of energy. While the major emphasis of the study is transportation needs in 1985, the study team will also look at 1990 and 2000.

The final report is expected to identify constraints on the efficient transportation of energy and to recommend any Federal actions that may be necessary.

To gain the widest possible range of information and opinion concerning this undertaking, DOT and DOE have established an "open file" for the submission of comments from interested groups and individuals. (See 43 FR 38795, August 30, 1978.) To provide more detailed information in certain areas, representatives of DOT and DOE will be holding a number of meetings with representatives of industries affected by the study. The one with railroad industry representatives will be held from 10 a.m. to 12 noon, eastern time, Thursday, October 26, 1978, and the one with the natural gas pipeline industry will be held from 3 p.m. to 5 p.m., eastern time, Tuesday, October 31, 1978. Both will be in the Management Information Center (room 10214), DOT Headquarters (Nassif) Building, 400 Seventh Street SW., Washington, D.C.

The topics for discussion at the railroad industry meeting will include the capability of the railroads to transport increased amounts of coal; the impact on grade crossings of increased unit train traffic; problems associated with the rail transport of nuclear wastes; and related railroad energy transportation issues.

The topics for discussion at the natural gas pipeline industry meeting will include future pipeline capacity vis-a-vis supply; the expected imports of liquefied natural gas; transportation impacts of new offshore natural gas production; the potential likelihood of importing Mexican natural gas; and related natural gas transportation issues.

These meetings will be open to the public on a space available basis. Anyone who wishes to attend should contact the NETS staff member identified above. There will be an opportunity at the conclusion of each meeting for the public to make comments. Minutes of each meeting will be available for public inspection and copying in the NETS open file in the office of the Assistant General Counsel for Regulation and Enforcement, room 10421, Department of Transportation Headquarters (Nassif) Building, 400 Seventh Street SW., Washington, D.C. 20590, 202-426-4723, from 9 a.m. to 5:30 p.m., eastern time, Monday through Friday, except Federal holidays.

Issued in Washington, D.C., on October 17, 1978.

RAYMOND A. YOUNG III,
Acting Chairman, NETS, Acting Assistant Secretary for Policy and International Affairs, Department of Transportation.

ALVIN ALM,
Deputy Chairman, NETS, Assistant Secretary for Policy and Evaluation, Department of Energy.

DEPARTMENT OF THE TREASURY

Office of the Secretary

[Dept. Circular Public Debt Series—No. 24-78]

TREASURY NOTES OF OCTOBER 31, 1980

Series U-1980

OCTOBER 18, 1978.

1. INVITATION FOR TENDERS

1.1. The Secretary of the Treasury, under the authority of the Second Liberty Bond Act, as amended, invites tenders for approximately $3,250,000,000 of the United States securities, designated Treasury Notes of October 31, 1980, Series U-1980 (CUSIP No. 912827 JC 7). The securities will be sold at auction with bidding on the basis of yield. Payment will be required at the price equivalent of the bid yield of each accepted tender. The interest rate on the securities and the price equivalent of each accepted bid will be determined in the manner described below. Additional amounts of these securities may be issued to Government accounts and Federal Reseve Banks for their own account in exchange for maturing Treasury securities. Additional amounts may also be issued for cash to Federal Reserve Banks as agents of foreign and international monetary authorities.

2. DESCRIPTION OF SECURITIES

2.1. The securities will be dated October 31, 1978, and will bear interest from that date, payable on a semiannual basis on April 30, 1979, and each subsequent 6 months on October 31 and April 30, until the principal becomes payable. They will mature October 31,1980, and will not be subject to call for redemption prior to maturity.

2.2. The income derived from the securities is subject to all taxes imposed under the Internal Revenue Code of 1954. The securities are subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, any possession of the United States, or any local taxing authority.

2.3. The securities will be acceptable to secure deposits of public monies. They will not be acceptable in payment of taxes.

2.4. Bearer securities with interest coupons attached, and securities registered as to principal and interest, will be issued in denominations of $5,000, $10,000, $100,000, and $1,000,000. Book-entry securities will be available to eligible bidders in multiples of those amounts. Interchanges of securities of different denominations and of coupon, registered and book-entry securities, and the transfer of registered securities will be permitted.

2.5. The Department of the Treasury's general regulations governing United States securities apply to the securities offered in this circular. These general regulations include those currently in effect, as well as those that may be issued at a later date.

3. SALE PROCEDURES

3.1. Tenders will be received at Federal Reserve Banks and Branches and at the Bureau of the Public Debt, Washington, D.C. 20226, up to 1:30 p.m., Eastern Daylight Saving time, Tuesday, October 24, 1978. Noncompetitive tenders as defined below will be considered timely if postmarked no later than Monday, October 23, 1978.

3.2. Each tender must state the face amount of securities bid for. The minimum bid is $5,000 and larger bids must be in multiples of that amount. Competitive tenders must also show the yield desired, expressed in terms of an annual yield with two decimals, e.g., 7.11 percent. Common fractions may not be used. Noncompetitive tenders must show the term "noncompetitive" on the tender form in lieu of a specified yield. No bidder may submit more than one noncompetitive tender and the amount may not exceed $1,000,000.

3.3. All bidders must certify that they have not made and will not make any agreements for the sale or purchase of any securities of this issue prior to the deadline established in Section 3.1 for receipt of tenders. Those authorized to submit tenders for the account of customers will be required to certify that such tenders are submitted under the same conditions, agreements, and certifications as tenders submitted directly by bidders for their own account.

3.4. Commerical banks, which for this purpose are defined as banks accepting demand deposits, and primary dealers, which for this purpose are defined as dealers who make primary markets in Government securities and report daily to the Federal Reserve bank of New York their positions in and borrowings on such securities, may submit tenders for account of customers if the names of the customers and the amount for each customer are furnished. Others are only permitted to submit tenders for their own account.

3.5. Tenders will be received without deposit for their own account from commercial banks and other banking institutions; primary dealers, as defined above; Federally-insured savings and loan associations; States, and their political subdivisions or instrumentalities; public pension and retirement and other public funds; international organizations in which the United States holds membership; foreign central banks and foreign states; Federal Reserve Banks; and Government accounts. Tenders from others must be accompanied by a deposit of 5 percent of the face amount of securities applied for (in the form of cash, maturing Treasury securities or readily collectible checks), or by a guarantee of such deposit by a commercial bank or a primary dealer.

3.6. Immediately after the closing hour, tenders will be opened, followed by a public announcement of the amount and yield range of accepted bids. Subject to the reservations expressed in Section 4, noncompetitive tenders will be accepted in full, and then competitive tenders will be accepted, starting with those at the lowest yields, through successively higher yields to the extent required to attain the amount offered. Tenders at the highest accepted yield will be prorated if necessary. After the determination is made as to which tenders are accepted, a coupon rate will be established, on the basis of a ⅛ of one percent increment, which results in an equivalent average accepted price close to 100.000 and a lowest accepted price above the original issue discount limit of 99.500. That rate of interest will be paid on all of the securities. Based on such interest rate, the price on each competitive tender allotted will be determined and each successful competitive bidder will be required to pay the price equivalent to the yield bid. Those submitting noncompetitive tenders will pay the price equivalent to the weighted average yield of accepted competitive tenders. Price calculations will be carried to three decimal places on the basis of price per hundred, e.g., 99.923, and the determinations of the Secretary of the Treasury shall be final. If the amount of noncompetitive tenders received would absorb all or most of the offering, competitive tenders will be accepted in an amount sufficient to provide a fair determination of the yield. Tenders received from Government accounts and Federal Reserve Banks will be accepted at the price equivalent to the weighted average yield of accepted competitive tenders.

3.7. competitive bidders will be advised of the acceptance or rejection of their tenders. Those submitting noncompetitive tenders will only be notified if the tender is not accepted in full, or when the price is over par.

4. RESERVATIONS

4.1. The Secretary of the Treasury expressly reserves the right to accept or reject any or all tenders in whole or in part, to allot more or less than the amount of securities specified in section 1, and to make different percentage allotments to various classes of applicants when the Secretary considers it in the public interest. The Secretary's action under this Section is final.

5. PAYMENT AND DELIVERY

5.1. Settlement for allotted securities must be made or completed on or before Tuesday, October 31, 1978, at the Federal Reserve Bank or Branch or at the bureau of the Public Debt, wherever the tender was submitted. Payment must be in cash; in other funds immediately available to the Treasury; in Treasury bills, notes or bonds (with all coupons detached) maturing on or before the settlement date but which are not overdue as defined in the general regulations governing United States securities; or by check drawn to the order of the institution to which the tender was submitted, which must be received at such institution no later than:

(a) Friday, October 27, 1978, if the check is drawn on a bank in the Federal Reserve District of the institution to which the check is submitted (the Fifth Federal Reserve District in case of the Bureau of the Public Debt), or

(b) Thursday, October 26, 1978, if the check is drawn on a bank in another Federal Reserve District.

Checks received after the dates set forth in the preceding sentence will not be accepted unless they are payable at the applicable Federal Reserve Bank. Payment will not be considered complete where registered securities are requested if the appropriate identifying number as required on tax returns and other documents submitted to the Internal Revenue Service (an individual's social security number or an employer identification number) is not furnished. When payment is made in securities, a cash adjustment will be made to or required of the bidder for any difference between the face amount of securities presented and the amount payable on the securities allotted.

5.2. In every case where full payment is not completed on time, the deposit submitted with the tender, up to 5 percent of the face amount of securities allotted, shall, at the discretion of the Secretary of the Treasury, be forfeited to the United States.

5.3. Registered securities tendered as deposits and in payment for allotted securities are not required to be assigned if the new securities are to be registered in the same names and forms as appear in the registrations or assignments of the securities surrendered. When the new securities are to be registered in names and forms different from those in the inscriptions or assignments of the securities presented, the assignment should be to "The Secretary of the Treasury for (securities offered by this circular) in the name of (name and taxpayer identifying number)." If new securities in coupon form are desired, the assignment should be to "The Secretary of the Treasury for coupon (securities offered by this circular) to be delivered to (name and address)." Specific instructions for the issuance and delivery of the new securities, signed by the owner or authorized representative, must accompany the securities presented. Securities tendered in payment should be surrendered to the Federal Reserve Bank or Branch or to the Bureau of the Public Debt, Washington, D.C. 20226. The securities must be delivered at the expense and risk of the holder.

5.4. If bearer securities are not ready for delivery on the settlement date, purchasers may elect to receive interim certificates. These certificates shall be issued in bearer form and shall be exchangeable for definitive securities of this issue, when such securities are available, at any Federal Reserve Bank or Branch or at the Bureau of the Public Debt, Washington, D.C. 20226. The interim certificates must be returned at the risk and expense of the holder.

5.5. Delivery of securities in registered form will be made after the requested form of registration has been validated, the registered interest account has been established, and the securities have been inscribed.

6. GENERAL PROVISIONS

6.1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive tenders, to make allotments as directed by the Secretary of the Treasury, to issue such notices as may be necessary, to receive payment for and make delivery of securities on full-paid allotments, and to issue interim certificates pending delivery of the definitive securities.

6.2. The Secretary of the Treasury may at any time issue supplemental or amendatory rules and regulations governing the offering. Public announcement of such changes will be promptly provided.

PAUL H. TAYLOR,
Fiscal Assistant Secretary.

INTERSTATE COMMERCE COMMISSION

[Notice No. 732]

ASSIGNMENT OF HEARINGS

OCTOBER 18, 1978.

Cases assigned for hearing, postponement cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after the date of this publication.

MC 120181 (Sub-8), Main Line Hauling Co., Inc., now assigned for hearing on November 6, 1978, at Jefferson City, MO, will be held in Room 201, Governor's Hotel.

MC 2202 (Sub-556F), Roadway Express, Inc., now assigned for hearing on November 13, 1978, at Texarkana, TX, will be

held at the Ramada Inn, Interstate Highway 30 East, State Line Avenue.

MC 107012 (Sub-258), North American Van Lines, Inc., now being assigned for hearing on January 15, 1979 (3 days), at Seattle, WA, will be held in Room 2068, Federal Building, 915 Second Avenue.

MC 115841 (Sub-624F), Colonial Refrigerated Transportation, Inc., now being assigned for hearing on January 15, 1979 (3 days), at Seattle, WA, will be held in Room 2068, Federal Building, 915 Second Avenue.

MC 138018 (Sub-41F), Refrigerated Foods, Inc., now assigned for hearing on December 11, 1978, at Seattle, WA, will be held

named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the

[Notice No. 197]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

OCTOBER 11, 1978.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official

named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC Field Office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

MC 24379 (Sub-47TA), filed August 3, 1978. Applicant: LONG TRANSPORTATION CO., 14510 West Eight Mile Road, Oak Park, MI 48237. Representative: David A. Turano, George, Greek, King, McMahon & McConnaughey, 100 East Broad Street, Columbus, OH 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Automotive engines*, from the plantsites and manufacturing facilities of Ford Motor Co. at or near Cleveland, OH, to the plant and warehouse facilities of Ford Motor Co. located at or near Norfolk, VA; and (2) *Empty returned racks, and rejected engines*, from the plant and warehouse facilities of Ford Motor Co. at or near Norfolk, VA, to the plantsite and manufacturing facilities of Ford Motor Co. at or near Cleveland, OH, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Ford Motor Co., One Parklane Boulevard, Parklane Towers-East, Suite 200, Dearborn, MI 48126. Send protests to: Timothy S. Quinn, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 604 Federal Building and U.S. Courthouse, 231 West Lafayette Boulevard, Detroit, MI 48226.

MC 25798 (Sub-332TA), filed August 28, 1978. Applicant: CLAY HYDER TRUCKING LINES, INC., P.O. Box 1186, Auburndale, FL 33823. Representative: Tony G. Russell, P.O. Box 1186, Auburndale, FL 33823. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Containers, scouring pads, sodium hypochlorite, and cleaning, scouring, and washing compounds*, between the facilities of the Purex Corp. at Auburndale and Tampa, FL, on the one hand, and on the other, Atlanta, GA, restricted to traffic originating or terminating at the facilities of the Purex Corp., for 180 days. There is no environmental impact involved in this application. Supporting shipper: Purex Corp., P.O. Box 6200, Carson, CA 90749. Send protests to: Donna M. Jones, Transportation Assistant, Interstate Commerce Commission, Monterey Building, Suite 101, 8410 Northwest 53d Terrace, Miami, FL 33166.

MC 26396 (Sub-196TA) filed August 28, 1978. Applicant: POPELKA TRUCKING CO., d.b.a. THE WAGGONERS, P.O. Box 990, Livingston, MT 59047. Representative: Bradford E. Kistler, P.O. Box 82028, Lincoln, NE 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic pipe*, from Winnebago, MN, to points in the states of WY, MT, ID, UT, ND, SD, CO, NE, IL, IA, WI, MO, KS, OK, AR, TX, WA, OR, and CA, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Marvin Nilson, Winnebago Drainage Systems, Inc., Winnebago, MN 56098. Send protests to: Paul J. Labane, District Supervisor, Interstate Commerce Commission, 2602 First Avenue North, Billings, MT 59101.

MC 26396 (Sub-197TA) filed August 28, 1978. Applicant: POPELKA TRUCKING CO., d.b.a. THE WAGGONERS, P.O. Box 990, Livingston, MT 59047. Representative: Bradford E. Kistler, P.O. Box 82028, Lincoln, NE 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cement*, from the ports of entry on the International Boundary line between the United States and Canada located in ID, MT, and ND, to points in the states of MT, WY, ID, CO, ND, SD, NE, KS, MN, IA, AR, and NM, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Norman G. Patterson, Cascade Imperial Mills, Ltd., 1205 Richards Street, Vancouver, BC, Canada. Send protests to: Paul J. Labane, District Supervisor, 2602 First Avenue North, Billings, MT 59101.

MC 42261 (Sub-139TA) filed August 28, 1978. Applicant: LANGER TRANSPORT CORP., Box 305, Jersey City, NJ 07303. Representative: W. C. Mitchell, 370 Lexington Avenue, New York, NY 10017. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum oil*, (in bulk, in tank vehicles), from the facilities of the Rolfite Co. at or near Elizabeth, NJ, to points in AL, AR, LA, MS, and TN, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: The Rolfite Co., 300 Broad Street, Stamford, CT 06901. Send protests to: Robert E. Johnston, District Supervisor, Interstate Commerce Commission, 9 Clinton Street, Newark, NJ 07102.

MC 61825 (Sub-79TA) filed August 24, 1978. Applicant: ROY STONE TRANSFER CORP., P.O. Box 385, Collinsville, VA 24078. Representative: John D. Stone, Roy Stone Transfer Corp. P.O. Box 385, Collinsville, VA 24078. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass containers and container accessories, and materials, equipment, and supplies used in the manufacture and distribution of glass containers and container accessories*, between the facilities of Brockway Glass Co., Inc., in Jefferson and Clearfield Counties, PA, on the one hand, and, on the other, Richmond, Danville, Norfolk, Suffolk, and Williamsburg, VA, and Reidsville and Eden, NC, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Brockway Glass Co., Inc., Brockway, PA. Send protests to: Interstate Commerce Commission, Bureau of Operations, P.O. Box 210, Roanoke, VA 24011.

MC 78400 (Sub-63TA) filed August 23, 1978. Applicant: BEAUFORT TRANSFER CO., P.O. Box 151, Gerald, MO 63037. Representative: Ernest A. Brooks II, 1201 Ambassador Building, St. Louis, MO 63101. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), between Linn, MO, and its commercial zone, and Kansas City, KS, and its commercial zone serving the intermediate points of California, Tipton, Syracuse, Otterville, and Smithton, MO, and their commercial zones, and between the facilities of E-Z Manufacturing Co., at or near Latham, MO, and Kansas City, KS, and its commercial zone. [Notice No. 198]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the Federal Register publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the Federal Register. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC Field Office to which protests are to be transmitted.

Motor Carriers of Property

MC 2368 (Sub-80TA), filed August 23, 1978. Applicant: BRALLEY-WILLETT TANK LINES, INC., 2212 Deepwater Terminal Road, Richmond, VA 23204. Representative: William T. Marshburn, P.O. Box 495, Richmond, VA 23204. INTERSTATE COMMERCE COMMISSION

[Notice No. 120]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

The following publications include motor carrier, water carrier, broker, and freight forwarder transfer applications filed under sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act.

Each application (except as otherwise specifically noted) contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application.

Protests against approval of the application, which may include a request for oral hearing, must be filed with the Commission on or before November 22, 1978. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest must be served upon applicants' representative(s), or applicants (if no such representative is named), and the protestant must certify that such service has been made.

Unless otherwise specified, the signed original and six copies of the protest shall be filed with the Commission. All protests must specify with particularity the factual basis, and the section of the Act, or the applicable rule governing the proposed transfer which protestant believes would preclude approval of the application. If the protest contains a request for oral hearing, the request shall be supported by an explanation as to why the evidence sought to be presented cannot reasonably be submitted through the use of affidavits.

The operating rights set forth below are in synopses form, but are deemed sufficient to place interested persons on notice of the proposed transfer.

MC-FC-77731, filed June 27, 1978. Transferee: EMERALDA HORSE TRANSPORT, INC., Route 2, Box 444, Sanford, FL 32771. Transferor:

V 43/205 OCT 23 78

Fox Hollow, Inc., 155 N. Eucla, San Dimas, CA 91773. Representative: Alvin Altman, c/o Brodsky, Linett, Altman & Schechter, 888 Seventh Avenue, New York, NY 10019. Authority sought for purchase by transferee of the operating rights of transferor as set forth in Certificates No. MC 18944 and MC 18944 Sub-3 issued October 4, 1965 and December 31, 1968 respectively, as follows: Prize animals, livestock, horses, ponies, mascots, food, supplies, equipment, and paraphernalia incidental to the transportation, care and exhibition of such animals, and the household goods and personal effects of attendants, trainers, exhibitors and owners, over irregular routes, between points in ME, NH, VT, MA, RI, CT, NY, NJ, DE, PA, MD, VA, WV, NC, SC, KY, OH, IN, IL, MI, MO, TN, FL, AR, LA, TN, AZ, CA, CO, ID, KS, MT, NE, NV, NM, ND, OK, OR, SD, TX, UT, WA, WY, and DC. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under section 210(b).

MC-FC-77778, filed July 25, 1978. Transferee: WILLARD E. TEADTKE AND JACK J. L. SINCLAIR, d.b.a. T. & S. Trucking, Bristow, NE 68719. Transferor: Emil Prokop, d.b.a. Emil Prokop Trucking, Bristow, NE. Representative: Jack J. L. Sinclair, T. & S. Trucking, Bristow, NE 68719. Authority sought for purchase by transferee of the operating rights of transferor as set forth in Certificate No. MC 92936 issued June 7, 1941 as follows: *Livestock*, over regular routes, between Bristow, NE and Sioux City, IA; from Bristow over NE Hwy 12 to junction NE Hwy 15, then over NE Hwy 15 to junction U.S. Hwy 20, and then over U.S. Hwy 20 to Sioux City; and *Livestock, agricultural implements and parts, and feeds*, from Sioux City over the above-specified routes to Bristow. Service is authorized to and from intermediate and off-route points within 10 miles of Bristow. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under section 210a(b).

MC-FC-77813, filed August 11, 1978. Transferee: BILL H. SEVERNS and DENISE B. SEVERNS, d.b.a. RAVALLI MOTOR FREIGHT, 250 Corvallis Road, Corvallis, MT 59828. Transferor: Charles D. Shupe and Sibyl Shupe, d.b.a. Ravalli Motor Freight, Route 2, Box 2381, Hamilton, MT 59840. Representative: Gail H. Goheen, Attorney at Law, 345 West Main Street, Hamilton, MT 59840. Authority sought for purchase by transferee of the operating rights of transferor as set forth in Certificate of Registration MC 121623 issued September 13, 1978, as follows: Commercial freight between Victor, Corvallis, Grantsdale, Stevensville, Thrifty Grocery Store, Casey's Store, and Wayside Grocery Store, Hamilton and Darby on the one hand, and Butte and Anaconda on the other hand, over a specified regular route. Transferee presently holds no authority from this Commission. Application has been filed for temporary authority under section 210a(b).

MC-FC-77859, filed September 27, 1978. Transferee: ANN E. PRITCHETT, d.b.a. PRINCE TRUCKING, 5865 Smithway, City of Industry, CA 90040. Transferor: Robert J. Pritchett, (Ann E. Pritchett, Heir at law) d.b.a. Prince Trucking, 5865 Smithway, City of Industry, CA 90040. Representative: Theodore Moraitis, Esq., Attorney, 1200 North Main Street, Suite 440, Santa Ana, CA 92701. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Permit MC 139333 (Sub-1), issued June 20, 1975, as follows: *New office furniture*, from the facilities of the carrier located at or near City of Commerce, CA to points in Los Angeles, Orange, San Diego, San Bernardino, Riverside, Santa Barbara, Ventura, and Kern Counties, CA. Transferee presently holds o authority from this Commission. Application has not been filed for temporary authority under section 210a(b).

MC-FC-77874, filed October 3, 1978. Transferee: PATRICK J. ENNIS & DOUGLAS J. BRADLEY, a Partnership, Popejoy, IA 50227. Transferor: Sioux City Bulk Feed Service, Inc., Highway 75 North, Sioux City, IA 51108. Representative: Richard D. Howe, Attorney at Law, 600 Hubbell Building, Des Moines, IA 50309. Searla Jacobsma, Box 2766, Highway 75 North, Sioux City, IA. Authority sought for purchase by transferee of a portion of the operating rights of transferor, as set forth in Certificate MC 136803 (Sub-2), issued May 21, 1976, as follows: *Dry animal and poultry feeds, dry animal and poultry feed ingredients*, and *animal poultry health aids* (except in bulk, in tank vehicles), from the facilities of Ralston Purina at or near Iowa Falls, IA, to points in IL and WI, (2) *Dry animal and poultry feeds*, and *dry animal and poultry feed ingredients*, in bulk, (except in tank vehicles), from the facilities of Ralston Purina, at or near Iowa Falls, IA, to points in MN and NE. Transferee presently holds no authority from this Commission. Application has been filed for temporary authority under section 210a(b).

[7035-01-M]

[Finance Docket No. 28870]

ILLINOIS TERMINAL RAILROAD CO.

Construction and Operation of a Line of Railroad at Wood River, Madison County, IL

Illinois Terminal Railroad Co., P.O. Box 7282, 710 North 12th Boulevard, St. Louis, MO 63177, represented by Steven J. Anthony, Secretary and General Counsel, Illinois Terminal Railroad Co., P.O. Box 7282, St. Louis, MO 63177, hereby give notice that on the 29th day of September 1978, it filed with the Interstate Commerce Commission at Washington, DC, an application under section 1(18) of the Interstate Commerce Act for a decision approving and authorizing the construction of and operation over one segment of railroad being 803 feet long, connecting the line of applicant with track of the Illinois Central Gulf Railroad Co. (ICG) at Wood River, Madison County, IL.

Applicant proposes to construct a new line of railroad, 803 feet to be constructed from a line of railroad owned by the applicant to a line of railroad owned by the ICG over which applicant proposes to acquire trackage rights. The new line of railroad will be located in Madison County, IL. The section of track at Wood River, IL, will have a total length of 803 feet between main line tacks of the ICG beginning at Valuation Station 1347+70 and continuing 803 feet southwardly to the main line of the Illinois Terminal, all located in the southwestern part of Wood River, IL.

By related application docketed Finance Docket No. 28868, Illinois Terminal seek trackage rights on a line of railroad owned by the Illinois Central Gulf between Wood River, IL, and Springfield, IL, a total distance of approximately 77.08 miles.

This application is also made in conjunction with a separate application, docketed AB-84 (Sub-2F), in which applicant seeks authority to abandon trackage rights over ICG from Mont to Springfield in Madison, Macoupin, Montgomery, and Sangamon Counties, IL, a distance of approximately 81.24 miles.

In the opinion of the applicant, the granting of the authority sought will not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969. In accordance with the Commission's regulations (49 CFR 1108.8) in Ex Parte No. 55 (Sub-4), *Implementation—National Environmental Policy Act, 1969*, 352 ICC 451(1976), any protests may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of the human environment. If any such effect is alleged to be present, the statement shall indicate with specific data the exact nature and degree of the anticipated impact. See *Implementation—National Environmental Policy Act, 1969, supra* at p. 487.

Pursuant to the provisions of the Interstate Commerce Act, as amended, the proceeding will be handled without public hearings unless comments in support or opposition on such application are filed with the Secretary, Interstate Commerce Commission, 12th and Constitution Avenue NW., Washington, DC 20423, and the aforementioned counsel for applicant, within 30 days after date of first publication in a newspaper of general circulation. Any interested person is entitled to recommend to the Commission that it approve, disapprove, or take any other specified action with respect to such application.

H. G. HOME, Jr.,
Acting Secretary.

[7035-01-M]

[Finance Docket No. 28868]

ILLINOIS TERMINAL RAILROAD CO.

Trackage Rights—Over Illinois Central Gulf Railroad Co. Between Springfield and Wood River, IL

Illinois Terminal Railroad Co., P.O. Box 7282, 710 North Twelfth Boulevard, St. Louis, Mo. 63177, represented by Steven J. Anthony, Illinois Terminal Railroad Co., P.O. Box 7282, St. Louis, Mo. 63177, hereby give notice that on the 29th day of September, 1978, it filed with the Interstate Commerce Commission at Washington, DC, an application under section 5(2) of the Interstate Commerce Act for a decision approving and authorizing the trackage rights by Illinois Terminal over trackage of the Illinois Central Gulf Railroad Co. between Wood River and Springfield, IL, a total distance of 77.08 miles.

Under the trackage rights requested, the Illinois Terminal will not serve any station along the line of the Illinois Central Gulf (ICG) nor would Illinois Terminal have the right to pick up or set out along the line. The proposed transaction will not adversely affect shippers, receivers, or employees of this carrier. This transaction is proposed as a substitute for a line which Illinois Terminal presently operates over between Mont and Springfield, IL, a distance of 81.24 miles, pursuant to authority granted in Finance Docket No. 25615. ICG has filed for abandonment in AB-43 (Sub-30) of a substantial segment of that line. These trackage rights will enable the carrier to continue operations between the St. Louis area and all points northerly.

By related application docketed Finance Docket No. 28870, applicant seeks approval and authorization for the construction of and operation over one segment of railroad being 803 feet long, connecting its line with track of the ICG at Wood River, Madison County, IL.

This application is also made in conjunction with a separate application, docketed AB-84 (Sub-2F), in which applicant seeks authority to abandon trackage rights over ICG from Mont to Springfield in Madison, Macoupin, Montgomery, and Sangamon Counties, IL, a distance of approximately 81.24 miles.

In the opinion of the applicant, the granting of the authority sought will not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969. In accordance with the Commission's regulations (49 CFR 1108.8) in Ex Parte No. 55 (Sub-4), *Implementation—National Environmental Policy Act, 1969*, 352 ICC 451 (1976), any protests may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of the human environment. If any such effect is alleged to be present, the statement shall indicate with specific data the exact nature and degree of the anticipated impact. See *Implementation—National Environmental Policy Act, 1969, supra*, at p. 487.

Interested persons may participate formally in a proceeding by submitting written comments regarding the application. Such submissions shall indicate the proceeding designation Finance Docket No. 28868 and the original and two copies thereof shall be filed with the Secretary, Interstate Commerce Commission, Washington, DC 20423, on or before December 7, 1978. Such written comments shall include the following: The person's position, e.g., party protestant or party in support, regarding the proposed transaction; specific reasons why approval would or would not be in the public interest; and a request for oral hearing if one is desired. Additionally, interested persons who do not intend to formally participate in a proceeding but who desire to comment thereon, may file such statements and information as they may desire, subject to the filing and service requirements specified herein. Persons submitting written comments to the Commission shall, at the same time, serve copies of such written comments upon the applicant, the Secretary of Transportation and the Attorney General.

H. G. HOMME, Jr.,
Acting Secretary.

[FR Doc. 78-29816 Filed 10-20-78; 8:45 am]

[7035-01-M]

CODIFICATION OF THE INTERSTATE COMMERCE ACT

Pub. L. 95-473, an Act to "revise, codify and enact without substantive change the Interstate Commerce Act," was signed by President Carter on October 17, 1978. The new law constitutes a substantial revision and reorganization of the laws administered by the Interstate Commerce Commission. It repeals the Interstate Commerce Act (49 U.S.C. 1 et seq., 301 et seq., 901 et seq., and 1001 et seq.) and certain related statutes. These laws have now been replaced by a new subtitle IV of title 49 of the United States Code, 49 U.S.C. 10101 through 11916.

Copies of Pub. L. 95-473 may be ordered from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Information concerning the price and availability of the public law may be obtained by calling the Government Printing Office "Order Desk" on 202-783-3238.

The Interstate Commerce Commission is not able to supply copies of the new subtitle to members of the public. However, copies are being made available for public reference in the public docket room (room 1221) at the Commission's office at 12th Street and Constitution Avenue NW., Washington, D.C. and at each of the Commission's field offices. A revised edition of

V 43/205 OCT 23 78

the laws administered by the Commission, and related sections of other acts, replacing the 1973 revision of the Interstate Commerce Act, is being prepared and will be published as soon as possible.

The Commission recognizes that not all parties to its proceedings will be able to obtain copies of the new subtitle promptly. We also recognize that persons familiar with the former Interstate Commerce Act may find it difficult at first to refer to and cite the new law. During a transition period of 6 months from the date of this notice, the Commission will accept pleadings and other documents containing citations to the old act. Parties are, however, requested to cite the new subtitle if possible, and it is suggested that, during the 6-month transition period, pleadings contain citations to both the old and the new laws (for example, 49 U.S.C. 10726; section 4 of the former Interstate Commerce Act).

Dated: October 18, 1978.

By the Commission.

H. GORDON HOMME, Jr.,
Acting Secretary.

VISUAL DISTRESS SIGNALS ON BOATS

Correction

AGENCY: Coast Guard, DOT.

ACTION: Correction.

SUMMARY: In FR Doc. 78-9470 appearing at page 15118 in the FEDERAL REGISTER of April 10, 1978, in § 175.110(a) on page 15122, the applicability was incorrectly stated as applying to any boat "carrying passengers," instead of "carrying six or less passengers". Section 175.110(a) is corrected to read as follows:

§ 175.110 Visual distress signals required.

(a) No person may use a boat 16 feet or more in length or any boat carrying six or less passengers unless visual distress signals suitable for day and night use as listed in § 175.130 or § 175.135, in the number required, are on board.

EQUIPMENT AND MATERIAL SPECIFICATIONS

Proposed Approval Procedures, Production Inspection and Test Requirements, and Independent Laboratory Standards

AGENCY: Coast Guard, DOT.

ACTION: Proposed rules.

SUMMARY: This document propopses a new part containing approval procedures, production inspection and test procedures, and standards for accepting independent laboratories for testing certain equipment and materials requiring Coast Guard approval. This new part would establish the procedures that would eventually replace the Coast Guard factory inspection requirements in many specification regulations. The factory inspections required by those specifications divert the Coast Guard's field personnel from other duties. This proposed part in conjunction with changes to the specification regulations would place the responsibility for quality control on the manufacturer of the equipment or material. This would free some of the Coast Guard's limited field personnel for other duties with no change in the quality of the approved equipment or material.

This proposal should be considered in conjunction with Coast Guard document 76-048(b), Distress Signals, Signal Pistols, and Line-Throwing Appliances appearing at page 49350 of this issue of the FEDERAL REGISTER.

DATES: Comments must be received on or before December 22, 1978.

ADDRESSES: Comments should be submitted to Commandant (G-CMC/81), (CGD 76-048), U.S. Coast Guard, Washington, D.C. 20590. Comments will be available for examination at the Marine Safety Council (G-CMC/81), Room 8117, Department of Transportation, Nassif Building, 400 Seventh Street, SW, Washington, D.C. 20590.

FOR FURTHER INFORMATION CONTACT:

Mr. Robert L. Markle, Office of Merchant Marine Safety (G-MMT-3/83), Room 8301, Department of Transportation, Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590, 202-426-1444.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in this proposed rulemaking by submitting written views, data, or arguments. Persons submitting comments should include their names and addresses, identify this notice (CGD 76-048) and the specific section of the proposal to which each comment applies, and give reasons for the comment. All comments received before the expiration of the comment period will be considered before final action is taken on this proposal. No public hearing is planned but one may be held at a time and place to be set in a later notice in the FEDERAL REGISTER if requested in writing by an interested person raising a genuine issue and desiring to comment orally at a public hearing.

DRAFTING INFORMATION

The principal persons involved in drafting this proposal are: Frank K. Thompson and Robert L. Markle, Project Managers, Office of Merchant Marine Safety, and Stanley M. Colby, Project Attorney, Office of the Chief Counsel.

BACKGROUND

The Coast Guard is planning to amend the approval requirements in many specification regulations to permit equipment and material under those regulations to be inspected and tested by an independent laboratory or, if the equipment or material requires little inspection or testing, by the manufacturer of that equipment or material. The goal of this plan is to reduce Coast Guard involvement in routine approval and production testing and place responsibility for product quality control on the manufacturer where feasible.

Over the years, the Coast Guard's marine inspection responsibilities increased while the number of personnel available to perform these inspections has not increased at a comparable rate. Among the many demands on Coast Guard marine inspection personnel are tests and inspections for approval of equipment and materials and production inspection and testing of approved equipment and materials. While the number of man-hours devoted to each individual test and inspection is not great, these approval and production tests and inspections, taken as a whole, create a significant drain on the Coast Guard's limited personnel resources.

The Coast Guard is reviewing the need for continued Government testing and inspection of certain equipment or material required to be carried on vessels. Private industry has the capability of conducting the tests and inspections involved and there are independent laboratories that are regularly engaged in this type of activity. In many cases there appears to be no need for continued Government involvement in the tests and inspections in order to maintain the desired level of quality control. The Coast Guard currently requires independent laboratory inspection of buoyant vests and other personal flotation devices, portable fire extinguishers, and marine sanitation devices. Under the program now being considered, the Coast Guard would extend similar requirements to other types of equipment, such as distress signals, line-throwing appliances, foam buoyant materials, and similar equipment. Certain other equipment would be approved on the basis of plans, samples, and data submitted by the manufacturer with the application for approval.

Production inspections and tests, under this program, would in many instances be performed by the manufacturer; however some types of equipment and material would also have to be inspected or tested periodically by an independent laboratory. The Coast Guard would monitor production tests from reports submitted annually by the manufacturer.

The procedures under this program would eventually affect all the lifesaving equipment specifications in part 160 except those for lifeboats, including disengaging apparatus and hand-propelling gear, inflatable liferafts, winches, and davits, which may be considered by the Coast Guard at a later date. The planned procedures would also affect certain lifeboat equipment specifications in part 161, the fire-extinguishing equipment specifications in part 162, and the specifications for materials in part 164. Because of the number of subparts to be amended, the Coast Guard intends to carry out this proposal in increments. Proposed amendments to the approval procedures and tests for distress signals, signal pistols, and line-throwing appliances, are in another document (CGD 76-048b) that appears at page 49350 of this issue of the FEDERAL REGISTER. Proposed amendments to other equipment and material specifications will appear in future issues of the FEDERAL REGISTER.

This proposal has been reviewed under the Department of Transportation's "Policies and Procedures for Simplification, Analysis, and Review of Regulations" (43 FR 9582, Mar. 8, 1978). A draft evaluation has been prepared and placed in the public docket.

DISCUSSION OF PROPOSAL

Because the proposed approval requirements and procedures are essentially the same for all types of affected equipment and materials, proposed part 159 would contain the approval requirements and procedures for all the affected specifications. This proposed part sets forth:

a. The procedures by which the Coast Guard would approve each type of equipment and material affected by these proposed amendments.

b. The procedures for production inspection and testing by the manufacturer and by an independent laboratory.

c. The standards and the procedures under which the Coast Guard would accept or recognize an independent laboratory for performing or supervising inspections and tests.

In consideration of the foregoing, the Coast Guard proposes to amend chapter I of title 46, Code of Federal Regulations, as follows:

PART 2—VESSEL INSPECTIONS

1. In § 2.75-10, the words "Parts 160 to 164, inclusive" in paragraph (a), are changed to "Parts 159 through 164". Paragraph (b) is revised to reflect current procedures and addresses. as amended § 2.75-10 reads as follows:

§ 2.75-10 Procedures for obtaining approvals.

(a) The requirements for obtaining approvals of items covered by specifications and bearing offical Coast Guard approval numbers are set forth in parts 159 through 164 of this chapter. For other items, the requirements are described in the regulations governing such items.

(b) Unless otherwise specified, correspondence concerning approvals should be addressed to the Commandant (G-MMT-3/83), U.S. Coast Guard, Washington, D.C. 20590. When plans, drawings, test data, etc., are required to be submitted by the manufacturer, the material being transmitted with the application should be clearly identified.

2. In the first sentence of § 2.75-17(a), the words "33 CFR Parts 140 through 146 (artificial islands and fixed structures on the Outer Continental Shelf)" are changed to "33 CFR Chapter I". As amended, § 2.75-17(a) reads as follows:

§ 2.75-17 General policy regarding acceptance and use of industry specifications, standards, and codes.

(a) Certain equipment, materials, and installations required by various provisions of the navigation and vessel inspection laws and regulations in this chapter and in 33 CFR Chapter I have to be approved by the Commandant, U.S. Coast Guard, prior to their use. For many items of equipment, materials, and installations, the normal manufacturing practices are based on the use of certain industrial or Federal specifications, standards, and codes. However, it is realized that certain provisions are based on conditions normally found "ashore," rather than in the marine environment which may be experienced onboard vessels or on artificial islands and fixed structures. Industry specifications, standards, and codes are adopted and shall form a part of the regulations of this chapter to the extent specified in this subpart and in the more detailed regulations in parts 160 through 164 (Subchapter Q—Equipment Construction and Materials: Specifications and Approval) of this chapter. Unless specifically stated otherwise in the regulations, the current issue of the specifications, standards, or codes, including addenda or changes, described in the regulations shall be used. The current issue is that issue, including any addenda or changes, in effect on the date the work is contracted for, or, if no contract exists, the date fabrication is begun. The Commandant may authorize the use of an issue of an earlier or later date when circumstances warrant such action.

* * * * *

SUBCHAPTER Q—EQUIPMENT, CONSTRUCTION, AND MATERIALS: SPECIFICATIONS AND APPROVAL

3. By changing the title of subchapter Q to "Equipment, Construction, and Materials: Specifications and Approval" as set forth above and by adding a new part 159 to read as follows:

PART 159—APPROVAL OF EQUIPMENT ND MATERIALS

Subpart 159.001—General

Sec.
159.001-1 Purpose.
159.001-3 Definitions.
159.001-5 Correspondence and applications.
159.001-7 Substituted procedures.

Subpart 159.005—Approval Procedures

159.005-1 Purpose.
159.005-3 Application for preapproval review.
159.005-5 Preapproval review: Contents of application.
159.005-7 Preapproval review: Coast Guard action.
159.005-9 Approval inspections and tests.
159.005-11 Approval inspection or test report: Contents.
159.005-12 Plans.
159.005-13 Equipment or material: Approval.
159.005-15 Approval of equipment or material: Suspensions, withdrawals, and terminations.

Subpart 159.007—Independent Laboratory: Production Inspections and Tests

159.007-1 Purpose.
159.007-3 Production inspections and tests: Independent laboratory's procedures.
159.007-5 Production inspections and tests: Application for acceptance.
159.007-7 Application for acceptance for production inspections and tests: Coast Guard action.
159.007-9 Production inspections and tests.
159.007-11 Production inspections and tests: Yearly report.
159.007-13 Production inspections and tests: Records.

Subpart 159.010—Independent Laboratory: Acceptance, Listing, and Termination

159.010-1 Purpose.
159.010-3 Independent laboratory: Standards for acceptance.
159.010-5 Independent laboratory: Application for acceptance.
159.010-7 Independent laboratory: Standards for listing.
159.010-9 Independent laboratory: Application for listing.
159.010-11 Independent laboratory: Listing in subpart.
159.010-15 Contracting inspections and tests or transferals to another laboratory or person.
159.010-17 Application and test plans: Changes.

159.010-19 Termination of acceptance or listing of a independent laboratory.
159.010-21 Termination of acceptance or

§ 159.005-3 Application for preapproval review.

(1) The trade name and a brief description of the equipment or material inspected or tested.

under this subpart, the Commandant determines that the equipment or material meets the applicable requirements and tests has been accepted by the Commandant;

V 43 / 205 OCT 23 78

159.010-19 Termination of acceptance or listing of a independent laboratory.
159.010-21 Termination of acceptance or listing: Procedure.

AUTHORITY: Sec. 1, 73 Stat. 475 (46 U.S.C. 481); sec. 201, 86 Stat 427, as amended (46 U.S.C. 391a); sec. 6(b)(1), 80 Stat 937 (49 U.S.C. 1655(b)(1)); 49 CFR 1.46 (b) and (n)(4).

Subpart 159.001—General

§ 159.001-1 Purpose.

(a) This part contains the procedures for the approval of equipment and materials when that equipment or material is inspected or tested by an independent laboratory or by the manufacturer of the equipment or material.

§ 159.001-3 Definitions.

(a) As used in this part:

(1) "Applicable subpart" means a subpart under which equipment or material is approved, or under which an independent laboratory is listed.

(2) "Listed laboratory" means an independent laboratory that has been listed in an applicable subpart under the provisions of § 159.010-11.

(3) "Test plan" means a description of the procedures by which an independent laboratory meets or exceeds the inspection and test requirements of an applicable subpart.

§ 159.001-5 Correspondence and applications.

(a) Unless otherwise specified, all correspondence and applications in connection with the approval and testing of equipment and materials shall be addressed to: Commandant (G-MMT-3/83), U.S. Coast Guard, Washington, D.C. 20590.

§ 159.001-7 Substituted procedures.

(a) The Commandant may substitute the procedures in this part for the procedures in any other part of this subchapter. Each person known to be affected by the substitution shall be informed that the procedures in this part apply.

Subpart 159.005—Approval Procedures

§ 159.005-1 Purpose.

(a) This subpart contains the procedures by which the Coast Guard approves equipment and materials under other subparts of this subchapter that require—

(1) Preapproval inspections and tests by an independent laboratory;

(2) Preapproval inspections and tests by the manufacturer; or

(3) No preapproval inspections or tests.

§ 159.005-3 Application for preapproval review.

(a) Each manufacturer of equipment or material who seeks Coast Guard approval under an applicable subpart must submit an application that meets § 159.005-5 to the Commandant unless—

(1) The subpart contains a list of independent laboratories;

(2) The subpart does not require Coast Guard review prior to testing; and

(3) The manufacturer meets the requirements of paragraph (b) of this section.

(b) If the applicable subpart contains a list of independent laboratories and does not specifically require Coast Guard review prior to testing, the manufacturer may have the tests performed by a listed laboratory and submit the report required by § 159.005-11 to the Commandant.

§ 159.005-5 Preapproval review: Contents of application.

(a) Each application must contain the following:

(1) The name and address of the manufacturer and the factory where the equipment or material is produced.

(2) One or more of the following as required by the applicable subpart:

(i) Two sets of general plans of the equipment or material.

(ii) Two sets of specifications of the equipment or material.

(iii) A sample of the equipment or material accompanied by a written description of its components.

(b) If the equipment or material is required by the subpart to be inspected and tested by an independent laboratory, the application must contain the following additional information:

(1) The name and address of a laboratory that meets § 159.010-3(a) and that is selected by the manufacturer to perform or supervise the inspections and tests.

(2) If the laboratory has not been accepted previously for inspecting and testing the manufacturer's equipment or material under the applicable subpart, the completed application under § 159.010-5(a).

§ 159.005-7 Preapproval review: Coast Guard action.

(a) If approval inspections and tests are required under the applicable subpart, the Commandant takes the following action:

(1) If the Commandant determines from the application that the equipment or material appears to meet the design requirements of an applicable subpart or appears to have equivalent performance characteristics, and that the laboratory meets § 159.010-3(a), the Commandant informs the manufacturer that the required approval inspections and tests may be conducted.

(2) If the Commandant determines from the application for approval that the equipment or material does not appear to meet the design requirements of an applicable subpart or does not appear to have equivalent performance characteristics, or that the laboratory does not meet § 159.010-3(a), the Commandant informs the manufacturer of the reason why the equipment or material is not acceptable for approval inspections and tests or why the laboratory is not accepted.

(b) If no approval inspections or tests are required under the applicable subpart, the Commandant—

(1) Takes action in accordance with § 159.005-13; or

(2) Informs the manufacturer of additional information required before action under § 159.005-13 can be taken.

§ 159.005-9 Approval inspections and tests.

(a) Each manufacturer of equipment or material that is required to be subjected to approval inspections and tests must—

(1) If the applicable subpart requires the equipment or material to be inspected or tested, have the approval inspections or tests performed;

(2) If the applicable subpart requires the equipment or material to be inspected or tested by an independent laboratory, insure that a laboratory accepted by the Commandant performs or supervises the approval inspections or tests;

(3) Bear all costs of the approval inspections and tests;

(4) If requested, advise the Commandant of the time, date, and place of each approval inspection or test, or both, before the inspection or test is performed; and

(5) After completion of the approval inspections and tests, submit to the Commandant—

(i) A test report that meets § 159.005-11;

(ii) At least two sets of specifications of the material as inspected or tested or at least two sets of plans of the equipment as inspected or tested that meet § 159.005-12; and

(iii) A description of the quality control procedures that will be in effect during the production of the equipment or material.

§ 159.005-11 Approval inspection or test report: Contents.

(a) Each inspection or test report must contain the following:

(1) The name of the manufacturer.

(2) If the inspections or tests are performed or supervised by an independent laboratory, the name and address of the laboratory.

(3) The trade name and a brief description of the equipment or material inspected or tested.

(4) The time, date, and place of each approval inspection and test.

(5) The name and title of each person performing, supervising, and witnessing the approval inspections or tests.

(6) The performance data for each test required in the applicable subpart, including a description of each failure.

(7) A description or photographs of the procedures and apparatus used in the inspections or tests.

(8) At least one photograph that shows an overall view of the equipment or material submitted for approval and other photographs that show—

(i) Design details; and

(ii) Each occurance of damage or deformation to the equipment or material that occurred during the approval tests.

(b) Each inspection or test report must bear an attestation that the inspections or tests were conducted as required by the applicable subpart and that the report contains no known errors, omissions, or false statements. The attestation must be signed by:

(1) The manufacturer or manufacturer's representative, if the inspection or tests are conducted by the manufacturer; or

(2) The chief officer of the laboratory, or the chief officer's representative, if the inspection or tests were conducted by an independent laboratory.

NOTE.—A false representation on a report is a ground for suspension or withdrawal of approval of the equipment or material. A false representation is also punishable as a crime under 18 U.S.C. 1001.

§ 159.005-12 Plans.

(a) Each set of plans under § 159.005-9(a)(5)(ii) for equipment must include the following:

(1) An assembly drawing or general arrangement drawing.

(2) A description of each component of the equipment that includes the name, the manufacturer, and the part identification of each component in—

(i) A detail drawing;

(ii) A bill of material or parts list; or

(iii) A specification for that component.

(3) A list of the drawings and specifications in the set of plans, including each revision, and the date of that list.

(4) If a manufacturer's instructions or manual is required in the applicable subpart, a copy of the instructions or manual.

§ 159.005-13 Equipment or material: Approval.

(a) If from analysis of the material and data required to be submitted under this subpart, the Commandant determines that the equipment or material meets the applicable subpart, the Commandant—

(1) Approves the equipment or material;

(2) Issues a certificate of approval to the manufacturer under § 2.75-5 of this chapter;

(3) Retains one set of approved plans and returns all others to the manufacturer; and

(4) Publishes a notice of the approval in the FEDERAL REGISTER.

(b) If from analysis of the material and data submitted the Commandant determines that the equipment or material does not meet the applicable subpart, the Commandant informs the manufacturer of the reason why that equipment or material does not meet the subpart.

§ 159.005-15 Approval of equipment or material: Suspensions, withdrawals, and terminations.

(a) The Commandant suspends an approval issued under this subchapter in accordance with § 2.75-40 of this chapter, withdraws an approval issued under this subchapter in accordance with § 2.75-50(a) of this chapter, and terminates an approval issued under this subchapter in accordance with § 2.75-50(b) of this chapter.

Subpart 159.007—Independent Laboratory: Production Inspection and Tests

§ 159.007-1 Purpose.

(a) This subpart contains the procedures under which production inspections and tests of approved equipment or materials are to be performed under this subchapter.

§ 159.007-3 Production inspections and tests: Independent laboratory's procedures.

(a) The manufacturer may follow an independent laboratory's procedures for production inspections and tests if those procedures—

(1) Meet or exceed the production inspection and test requirements of the applicable subpart or are equivalent to those inspections and tests;

(2) Include labeling or marking the equipment or material when the equipment or material meets the inspection and test procedures of the laboratory; and

(3) Are accepted by the Commandant under § 159.007-7(b).

§ 159.007-5 Production inspections and tests: Application for acceptance.

(a) If the applicable subpart requires production inspections and tests by an independent laboratory, the manufacturer must insure that the laboratory selected for production inspections and tests has been accepted by the Commandant;

(b) The manufacturer must submit an application for acceptance that meets § 159.010-5(a) unless the laboratory—

(1) Is listed in the subpart; or

(2) Is accepted by the Commandant for approval inspections and tests of the equipment or material under § 159.005-7(a)(1).

(c) If the manufacturer wants to follow the laboratory's procedures for production inspections and tests instead of meeting the Coast Guard procedures under this subchapter, the application must contain a description of those procedures.

§ 159.007-7 Application for acceptance for production inspections and tests: Coast Guard action.

(a) From the information submitted with the application, the Commandant determines whether or not the laboratory is accepted for production inspections and tests. The Commandant informs the manufacturer of the results of this determination, if the Commandant does not accept a laboratory, the reason for the disapproval will be given.

(b) From the description of the laboratory's procedures for production inspections and tests, the Commandant determines whether or not those procedures are accepted. The Commandant informs the manufacturer of the results of this determination. If the Commandant does not accept the laboratory's procedures, the reasons why they are not accepted will be given.

§ 159.007-9 Production inspections and tests.

(a) If the applicable subpart requires the production inspections and tests to be performed or supervised by an independent laboratory, the manufacturer shall insure that all required production inspections and tests are performed or supervised by an independent laboratory accepted by the Commandant.

(b) If the applicable subpart does not require an independent laboratory to perform the production inspections and tests, the manufacturer shall have those inspections and tests performed.

(c) Unless alternative procedures have been accepted by the Commandant under § 159.007-3 each production inspection and test must be performed or supervised in accordance with the applicable subpart.

§ 159.007-11 Production inspections and tests: Yearly report.

(a) When the manufacturer uses the production inspection and test procedures in an applicable subpart he must submit a yearly report. The report is not required when inspection and test

V 43/205 0 C 2 3 7 8

procedures approved under § 159.007-3 are used.

(b) The report must include the following:

(1) A list of all inspections and test performed;

(2) A summary of the results of each group of inspections or tests:

(3) A detailed description of any test failures; and

(4) A statement whether or not all required tests were performed.

§ 159.007-13 Production inspections and tests: records.

(a) The manufacturer must have a completed record with the information under § 159.005-11 (a)(4) through (a)(7) for each production inspection and test.

(b) The manufacturer must retain each record under this section for at least 60 months after the month in which the inspection or test was conducted.

(c) The records must be made available for examination by the Commandant upon request.

Subpart 159.010—Independent Laboratory: Acceptance, Listing, and Termination

§ 159.010-1 Purpose.

(a) This subpart contains the following:

(1) The standards under which the Coast Guard accepts an independent laboratory that a manufacturer proposes to use.

(2) The standards and procedures under which a laboratory is listed in applicable subparts for tests required by that subpart.

(3) The circumstances under which the acceptance or listing of a laboratory is terminated.

§ 159.010-3 Independent laboratory: Standards for acceptance.

(a) To be accepted by the Coast Guard as an independent laboratory, a laboratory must—

(1) Be engaged, as a regular part of its business, in inspecting and testing equipment or material that is the same as or is similar to the equipment or material to be inspected and tested under the applicable subpart;

(2) Have the apparatus, facilities, personnel, and calibrated instruments that are necessary to inspect and test the equipment or material under the applicable subpart;

(3) Not be owned or controlled by—

(i) The manufacturer of the equipment or material to be inspected or tested under this subchapter or any manufacturer of similar equipment or material;

(ii) A vendor of the equipment or material to be inspected or tested under this subchapter or a vendor of similar equipment or material; or

(iii) A supplier of materials to the manufacturer;

(4) Not be dependent on Coast Guard acceptance under this subchapter to remain in business; and

(5) Not advertise or promote the manufacturer's equipment or material that the laboratory inspects and tests under this subchapter.

§ 159.010-5 Independent laboratory: Application for acceptance.

(a) Each application for acceptance of a laboratory must contain the following:

(1) The name and address of the laboratory, its subsidiaries, and its divisions.

(2) The name, title, address, and principal business activity of each of the laboratory's officers and directors, and the name, address, and principal business activity of each person, company, or corporation that owns at least 3-percent interest in the laboratory or in a company or corporation that controls the laboratory.

(3) A list of the equipment or material that the laboratory would inspect or test, or both, under this subchapter.

(4) A description of the laboratory's experience and its qualifications for conducting the inspections and tests required in the applicable subpart.

(5) A description of the apparatus and facilities available to the laboratory for conducting those inspections and tests.

(6) The qualifications of personnel who are to perform, supervise, or witness those inspections and tests.

(7) A description of the laboratory's instrument calibration program.

(8) A statement, signed by the chief officer of the laboratory or the chief officer's representative, that an official representative of the Coast Guard is allowed access to the facility to verify the information submitted in the application or to witness tests.

§ 159.010-7 Independent laboratory: Standards for listing.

(a) To be listed as an independent laboratory under an applicable subpart, a laboratory must—

(1) Meet § 159.010-3;

(2) Have a test plan that is accepted by the Commandant under § 159.010-11(a); and

(3) Agree to perform or supervise approval or production inspections or tests under that subpart upon request from a manufacturer, however a laboratory may limit the area it serves.

§ 159.010-9 Independent laboratory: Application for listing.

(a) A laboratory that wants to be listed in one or more applicable subparts must submit to the Commandant an application that contains the information required by § 159.010-5, and that includes—

(1) The subparts under which it wants to be listed;

(2) Its test plans; and

(3) A statement of any limitations on the availability of the laboratory' service.

§ 159.010-11 Independent laboratory: Listing in subpart.

(a) From the application, the Commandant determines whether or not the laboratory meets § 159.010-7. If it meets these standards, the laboratory is added to the list in the applicable subpart. If it does not meet these standards, the Commandant informs the laboratory of the reasons why it is not added to the list.

§ 159.010-15 Contracting inspections and tests or transferals to another laboratory or person.

(a) No independent laboratory may contract or transfer to another person or laboratory the performance or supervision of inspections or tests, or both, required under an applicable subpart for which it is accepted or listed unless—

(1) A request in writing regarding the contract or transfer is submitted to the Commandant before the contract is executed or the transfer is completed; and

(2) The Commandant notifies the laboratory in writing that the contract or the transfer is allowed.

§ 159.010-17 Application and test plans: Changes.

(a) If any of the information submitted under § 159.010-5(a) or § 159.010-9(a) changes, a notification in writing of each change must be submitted to the Commandant within 30 days after the change has occurred.

(b) If an independent laboratory wants to change its test plan, the proposed changes must be submitted to the Commandant. The Commandant notifies the laboratory if the changed test plan is accepted. If the changed test plan is not accepted, the Commandant informs the laboratory of the reasons why the change test plan is not accepted.

§ 159.010-19 Termination of acceptance or listing of a independent laboratory.

(a) The acceptance or listing of a laboratory terminates if the laboratory—

(1) Requests termination; or

(2) Is no longer in business.

(b) The acceptance of a laboratory may be terminated by the Commandant if the laboratory—

(1) Fails to perform or supervise an inspection or test, or both, as required in an applicable subpart;

(2) Changes its test plan without Coast Guard acceptance;

(3) Attests to the lack of errors, omissions, or false statements of an approval test report that contains errors, omissions, or false statements;

(4) Does not meet § 159.010-3(a); or

(5) Unless allowed by the Commandant, contracts or transfers the performance or supervision of required inspections or tests, or both, to another laboratory or person.

(c) A laboratory is removed from the list published in an applicable subpart if the laboratory—

(1) Is no longer accepted by the Commandant; or

(2) Unreasonably refuses a request from a manufacture to perform or supervise an approval or production inspection or test.

§ 159.010-21 Termination of acceptance or listing: Procedure.

(a) Whenever evidence is received that there exists a basis for termination of acceptance or listing of an independent laboratory under § 159.010-19 (b) or (c), the Commandant notifies the laboratory of the specific reasons for considering termination. If the deficiency could materially effect the validity of the approval issued under an applicable subpart, the Commandant may immediately suspend the acceptance of the laboratory and may direct the holder of the certificate of approval to cease claiming that the items tested or inspected by the laboratory are Coast Guard approved, pending a final decision in the matter. The Commandant may direct an investigation into the matter.

(b) Within 30 days after receipt of notice of the basis for considering termination, the laboratory may provide the Commandant evidence or arguments why acceptance or listing should continue. After consideration of all available material on the matter, the Commandant informs the laboratory, in writing, of this decision. Any person holding a certificate of approval affected by the decision is also notified of the decision.

(Sec. 1, 73 Stat. 475 (46 U.S.C. 481); sec. 201, 86 Stat. 427, as amended (46 U.S.C. 391a); sec. 6(b)(1), 80 Stat. 937 (49 U.S.C. 1655(b)(1)); 49 CFR 1.46 (b) and (n)(4).)

NOTE.—The Coast Guard has determined that this document does not contain a major proposal requiring the preparation of an economic impact statement under Executive Order 11821, as amended, and OMB Circular A-107.

Dated: October 11, 1978.

J. B. HAYES,
Admiral, U.S. Coast Guard
Commandant.

[CGD 76-048a]

DISTRESS SIGNALS, SIGNAL PISTOLS, AND LINE-THROWING APPLIANCES

Proposed Specification and Tests

AGENCY: Coast Guard, DOT.

ACTION: Proposed rules.

SUMMARY: The Coast Guard is considering amending the specifications for pyrotechnic distress signals, signal pistols for flare-type distress signals, and line-throwing appliances by adding a new technical test to measure flare fire exposure, amending the marking and labeling requirements, changing certain technical specifications relating to signal pistol chamber diameter, line diameter and strength, to specify dimensions in SI metric units, and adding a new requirement to label pyrotechnic distress signals with an expiration date. The amendments are necessary to update the requirements to reflect current standards, to change marking to reflect changes in USCG inspection procedures, to inform the user of the service life of pyrotechnic signals and to include a new fire test necessitated by use of distress flare signals on recreational boats. This proposal should be considered in conjunction with the proposed visual distress signals for boats (CGD 76-183a) contained in the notice appearing on page 49354 of this issue of the FEDERAL REGISTER.

DATES: Comments must be received on or before December 22, 1978.

ADDRESSES: Comments should be submitted to Commandant (G-CMC/81) (CGD 76-048a), U.S. Coast Guard, Washington, D.C. 20590. Comments will be available for examination at the Marine Safety Council (G-CMC/81), Room 8117, Department of Transportation, Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590.

FOR FURTHER INFORMATION CONTACT:

Mr. Robert Markle, Office of Merchant Marine Safety (G-MMT/83), Room 8301, Department of Transportation, Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590, 202-426-1444.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in this proposed rulemaking by submitting written views, data, or arguments. Persons submitting comments should include their name and address, identify this notice (CGD 76-048a) and the specific section of the proposal to which the comment applies, and give the reasons for the comment. The proposal may be changed in light of comments received. All comments received before the expiration of the comment period will be considered before final action is taken on this proposal. No public hearing is planned but one may be held at a time and place to be set in a later notice in the FEDERAL REGISTER if requested in writing by an interested person raising a genuine issue and desiring to comment orally at a public hearing.

DRAFTING INFORMATION

The principal persons involved in drafting this proposal are: Robert L. Markle, Project Manager, Office of Merchant Marine Safety, and Stanley M. Colby, Project Attorney, Office of the Chief Counsel.

DISCUSSION OF PROPOSAL

The regulations that would be amended as a result of this proposal are:

46 CFR Subpart 160.021—Signals, Distress, Hand Red Flare, for Merchant Vessels.

46 CFR Subpart 160.022—Signals, Distress, Floating Orange Smoke (5 Minutes), for Merchant Vessels.

46 CFR Subpart 160.023—Signals, Distress, Combination Flare and Smoke, Hand, for Merchant Vessels.

46 CFR Subpart 160.024—Signals, Distress, Pistol-Projected Parachute Red Flare, for Merchant Vessels.

46 CFR Subpart 160.028—Signal Pistols for Parachute Red Flare Distress Signals for Merchant Vessels.

46 CFR Subpart 160.031—Line-Throwing Appliance, Shoulder Gun Type (and Equipment), for Merchant Vessels.

46 CFR Subpart 160.036—Signals, Distress, Hand-Held Rocket-Propelled Parachute Red Flare, for Merchant Vessels.

46 CFR Subpart 160.037—Signals, Distress, Hand, Orange Smoke, for Merchant Vessels.

46 CFR Subpart 160.040—Line-Throwing Appliance, Impulse-Projected Rocket Type (and Equipment), for Merchant Vessels.

46 CFR Subpart 160.057—Signals, Distress, Floating Orange Smoke (15 Minutes), for Merchant Vessels.

Proposed changes to the regulations in these subparts are discussed in detail below.

A new technical test would be added to the hand-held flare specification subpart 160.021 to determine the tendency of the hot slag that drips from a burning flare to start a fire. The problem of introducing flares on recreational boats introduces the problem of fire exposure. To minimize this po-

tential, passing a slag ignition test would be required before signal apparatus could be produced. Each manufacture unless the production lot is stored in accordance with certain controlled stowage conditions which

age that does not meet the requirements in paragraph (d) of this section, the expiration date must be 3 years

9. By revising the first sentence of § 160.040-4(c) to read as follows:

DATES: Comments must be received on or before December 22, 1978

Type (and Equipment), for Merchant Vessels.

V 43/205 0 C 23 78

tential, passing a slag ignition test would be required before signal approval.

Changes would be made to labeling and marking requirements of the above subparts to require that each distress signal be marked with the replacement date. This would be the date on which the service life of the signal, discussed below, expires. At present, the purchaser of a distress signal has to be aware that the signal must be replaced after 3 years. Under this proposal, the replacement date would be clearly shown. Also marking would indicate that floating orange smoke distress signals are approved for daytime use only.

The Coast Guard intends to include a note in the text of the final regulation to remind manufacturers of the need to comply with the Consumer Product Safety Commission marking requirements as follows:

NOTE.—See 16 CFR 1500.3(b)(14)(i) for the information required and 16 CFR 1500.14(b)(7)(vii) for the form prescribed for fireworks device labels.

In accordance with the policy established by the Metric Conversion Act of 1975 (89 Stat. 1007), all measurements in the subparts would be converted to SI (metric) units. English units would follow in parentheses for reference.

The marking requirements in each subpart for the line-throwing appliances would be revised to delete the requirements that the launcher must be marked with the Marine Inspection Office identification letters and the letters "USCG."

Signal pistols would no longer be limited for use with parachute distress signals on merchant vessels. The existing chamber and bore dimensions currently specified in subpart 160.028 would apply only to signal pistols intended to launch parachute distress signals that meet subpart 160.024. For signal pistols intended to launch other aerial flares, the chamber and bore dimsensions of the pistol would be discretionary. Additionally a provision would be added to require that the pistol be designed to fire only a distress signal and not a conventional round of ammunition.

The requirement that the line diameter for rocket-type line-throwing appliances of the specification must be 7/32 to 9/32 inch would be revised. This requirement has been outdated by advances in rope-fiber technology. As amended, the specification would require that the breaking strength of line must be at least 2,250 N (500 lb). To provide an adequate handhold, the minimum diameter would be 4 mm (5/32 fraction in).

A provision would be added to require distress signals to be marked with an expiration date. This service life would be 3 years from the date of manufacture unless the production lot is stored in accordance with certain controlled stowage conditions which are included in the proposal. For pyrotechnic signals so stored, the expiration date would be 3 years from the date they are removed from storage, but not more than 4 years from the date of manufacture.

This proposal has been reviewed under the Department of Transportation's "Policies and Procedures for Simplification, Analysis and Review of Regulations" (43 FR 9582, Mar. 8, 1978). A draft evaluation has been prepared and placed in the public docket.

In consideration of the preceding, subchapter Q of Title 46, Code of Federal Regulations, would be amended as follows:

1. By adding paragraph (p) to § 160.021-4 to read as follows:

§160.021-4 Sampling, inspections, conditioning, and tests.

* * * * * *

(p) *Hot slag test.* The following procedure must be followed for each hot slag test:

(1) Ten layers of clean standard newsprint paper must be laid out on a clean, dry, flat surface covering an area at least 110 cm (43 in) by 140 cm (55 in). Each paper must have a moisture content between 5 percent and 8 percent but paper that is neither dry and brittle nor damp and limp is allowed.

(2) The top layer of the paper must have a grid drawn on it of at least 616 squares, each of which must be 5 cm by 5 cm (2 in x 2 in).

(3) A flare must be ignited and held, with the flame projecting upward at an angle of approximately 45°, 1.2 m (4 ft) directly above the geometric center of the grid.

(4) The flare must burn completely and if the top sheet of paper is consumed by hot slag or flame anywhere within the boundaries of 308 or more of the individual squares in the grid, the flare fails the test.

2. By adding in the list of marking requirements contained in §§ 160.021(5)(a), 160.022(5)(b), 160.023(5)(a), 160.024(5)(b), 160.036(5)(b), 160.037(5)(b), and 160.057(5)(b) the following words: "service life expiration date (date to be inserted by manufacturer.)"

3. By adding a new section in subparts 160.021, 160.022, 160.023, 160.024, 160.036, 160.037, and 160.057 to read as follows:

§ 160. Marking of expiration date.

(a) Each approved signal must have an expiration date marked on it.

(b) For each signal shipped directly from the production line or from storage that does not meet the requirements in paragraph (d) of this section, the expiration date must be 3 years from the date of manufacture.

(c) For each signal stored before shipment under conditions specified in paragraph (d) of this section, the expiration date must be—

(1) Not more than 3 years after removal from storage; and

(2) Not more than 4 years after the date of manufacture.

(d) The following conditions must be met to qualify for determining the expiration date under paragraph (c) of this section:

(1) The relative humidity of the storage place must not exceed 50 percent.

(2) The temperature of the storage place must be maintained between 10° C (50° F) and 30° C (86° F).

(3) The temperature and humidity of the storage place must be recorded daily.

(4) The signal must be from a lot that is stored separately from other lots.

(5) The lot number, the date of shipment, the date the lot is placed in storage, the number of signals shipped, and the consignee of the shipment must be recorded and the manufacturer must retain this record for at least 5 years after the date of shipment.

§§ 160.022(5)(a) and 160.057(5)(a) [Amended]

4. By amending the first sentence in §§ 160.022(5)(a) and 160.057(5)(a) adding the words, "approved for daytime use only."

Subpart 160.028—Signal Pistols for Red Flare Distress Signals

5. By revising the title of subpart 160.028 to read as set forth above.

§ 160.031-6 [Amended]

6. By amending § 160.031-6 by deleting the words "the Marine Inspection Office identification letters, and the letters 'USCG.'"

§ 160.040-5 [Amended]

7. By amending § 160.040-5 by revoking and reserving paragraph (d).

8. By revising § 160.028-2 to read as follows:

§ 160.028-2 Type.

(a) Each signal pistol for launching a parachute distress signal that meets subpart 160.024 of this part must be of the center-firing type having chamber and bore dimensions within the limits indicated by drawing No. 160.028-2(A).

(b) A signal pistol for launching an aerial flare not under paragraph (a) of this section may have any chamber and bore dimensons if they are not the dimensions for a conventional round of ammunition.

9. By revising the first sentence of § 160.040-4(c) to read as follows:

§ 160.040-4 Equipment for impulse projected rocket type line-throwing appliance.

* * * * * *

(c) Four service lines, each 4 mm (5/32 in) minimum diameter with a minimum breaking strength of at least 2,250 N (500 lb), and in one continual length not less than that specified in the approval of the appliance carried, without splice, knot, or other retarding or weakening features. * * *

* * * * * *

(Sec. 1, 73 Stat. 475 (46 U.S.C. 481); sec. 6(b)(1), 80 Stat. 937 (49 U.S.C. 1655(b)(1); 49 CFR 1.46(b)).)

NOTE.—The Coast Guard has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821, as amended, and OMB Circular A-107.

J. B. HAYES,
Admiral, U.S. Coast Guard
Commandant.

[CGD 76-048b]

DISTRESS SIGNALS, SIGNAL PISTOLS, AND LINE-THROWING APPLIANCES

Proposed Inspection and Approval Procedures

AGENCY: Coast Guard, DOT.

ACTION: Proposed rules.

SUMMARY: The Coast Guard is considering amending the specifications for pyrotechnic distress signals, signal pistols for flare-type distress signals, and line-throwing appliances to allow the approval of these devices to be based on inspection and testing by independent laboratories. The purpose of these amendments is to place responsibility for factory inspection on the manufacturer. This would free some of the Coast Guard's field personnel for other duties while still providing necessary inspection without any changes in the quality of the product. This proposal should be considered in conjunction with the proposed general approval and test procedures (subpt. 159) CGD 76-048) contained in the notice appearing on page——of this issue of the FEDERAL REGISTER.

DATES: Comments must be received on or before December 22, 1978

ADDRESSES: Comments should be submitted to Commandant (G-CMC/81), room 8117, Department of Transportation, Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590.

FOR FURTHER INFORMATION, CONTACT:

Mr. Robert Markle, Office of Merchant Marine Safety (G-MMT/83), Room 8301, Department of Transportation, Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590, 202-426-1444.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in this proposed rulemaking by submitting written views, data, or arguments. Persons submitting comments should include their name and address, identify this notice (CGD 76-048b) and the specific section of the proposal to which the comment applies, and give the reasons for the comment. The proposal may be changed in light of comments received. All comments received before the expiration of the comment period will be considered before final action is taken on this proposal. Copies of all written comments received will be available for examination by interested persons. No public hearing is planned but one may be held at a time and place to be set in a later notice in the FEDERAL REGISTER if requested in writing by an interested person raising a genuine issue and desiring to comment orally at a public hearing.

DRAFTING INFORMATION

The principal persons involved in drafting this proposal are: Robert Markle, Project Manager, Office of Merchant Marine Safety, and Stanley M. Colby, Project Attorney, Office of the Chief Counsel.

DISCUSSION OF PROPOSAL

The regulations that would be amended as a result of this proposal are:

46 CFR Subpart 160.021—Signals, Distress, Hand Red Flare, for Merchant Vessels.

46 CFR Subpart 160.022—Signals, Distress, Floating Orange Smoke (5 Minutes), for Merchant Vessels.

46 CFR Subpart 160.023—Signals, Distress, Combination Flare and Smoke, Hand, for Merchant Vessels.

46 CFR Subpart 160.024—Signals, Distress, Pistol-Projected Parachute Red Flare, for Merchant Vessels.

46 CFR Subpart 160.028—Signal Pistols for Parachute Red Flare Distress Signals for Merchant Vessels.

46 CFR Subpart 160.031—Line-Throwing Appliance, Shoulder Gun Type (and Equipment), for Merchant Vessels.

46 CFR Subpart 160.036—Signals, Distress, Hand-held Rocket-Propelled Parachute Red Flare, for Merchant Vessels.

46 CFR Subpart 160.037—Signals, Distress, Hand, Orange Smoke, for Merchant Vessels.

46 CFR Subpart 160.040—Line-Throwing Appliance, Impulse-Projected Rocket Type (and Equipment), for Merchant Vessels.

46 CFR Subpart 160.057—Signals, Distress, Floating Orange Smoke (15 Minutes), for Merchant Vessels.

This proposal has been reviewed under the Department of Transportation's "Policies and Procedures for Simplification, Analysis and Review of Regulations" (43 FR 9582, Mar. 8, 1978). A draft evaluation has been prepared and placed in the public docket.

Proposed changes to the regulations in those subparts are discussed in detail below.

DISTRESS SIGNALS

Subparts 160.021, 160.022, 160.023, 160.024, 160.036, 160.037, and 160.057 would be amended as follows:

(1) Each section entitled "*Procedure for approval*" would be revised as follows:

(a) The procedures by which a manufacturer applies for approval and the Commandant approves a distress signal would be replaced by a reference to proposed subpart 159.005.

(b) The requirements for submission of plans and specifications would be deleted. Approval testing by recognized independent laboratories would be required. Requirements for conducting and reporting tests, including submission of plans and specifications would be those specified in proposed §§ 159.005-9 and 159.005-11.

(c) The paragraph entitled "*Preapproval sample*" would be deleted. Sample selection would be as specified in a proposed sample plan which is discussed below.

(2) Each section entitled "*Sampling, inspections, conditioning and tests*" would be replaced by two new sections entitled "*Approval tests*" and "*Production tests*". The nature of the tests required would not change, however, some of the present "operational" tests would be made "technical" tests. Tests would be required to be conducted by a recognized independent laboratory, or under the supervision of such a laboratory. A list of recognized laboratories, as provided for under proposed § 159.010-11, would be added to each subpart.

(3) Under the proposed "*Approval tests.*"

(a) For each of the following subparts, the operational tests would be a

combination of the present requirements as indicated:

since approval of the signal or submission of the previous report would have

(d) The production check tests that are now performed at a Government

[4910-14-C]

combination of the present requirements as indicated:

(i) Subpart 160.021—§ 160.021-4 (b)(1), (e), (f), and (h).

(ii) Subpart 160.022—§ 160.022-4 (b)(1), (e), and (f).

(iii) Subpart 160.024—§ 160.024-4 (b)(1), (e), (f), (g), and (h).

(iv) Subpart 160.036—§ 160.036-4 (b)(1), (e), (f), (g), and (h).

(v) Subpart 160.037—§ 160.037-4 (b)(1), (e), (f), and (h).

(vi) Subpart 160.057—§ 160.057-4 (b)(1), (e), and (f).

The existing operational tests not listed would be added to the technical tests.

(b) In subpart 160.023, the combination flare and smoke signal would continue to be tested as prescribed by MIL-S-18655.

(c) The proposed operational tests for subparts 160.021, 160.022, 160.024, 160.036, and 160.037 would be conducted in accordance with the sampling plan in table 1. The operational tests for subpart 160.057 would be conducted in accordance with the sampling plan in table 2. These sampling plans are based on MIL-STD-105, a widely used standard for quality control testing. Statistically, under the proposed sampling plans, the test results would be more more valid than the present test results. These sampling plans are discussed in further detail below.

(d) For each technical test in subparts 160.021, 160.022, 160.024, 160.036, and 160.037, three signals would have to be tested. Two of the three signals tested would have to pass for the signal model to be approved. For each technical test in subpart 160.057, one signal would be tested. Each signal tested would have to pass for the signal model to be approved. The reason for the different approach in subpart 160.057 is discussed in the explanation of the sampling plan.

(e) A report summarizing all production tests performed by the manufacturer and the independent laboratory since approval of the signal or submission of the previous report would have to be submitted to the Commandant as provided in proposed § 159.007-11. This summary would include the date of each test, the production lot number of the signals tested, and a complete test report on any lot that was rejected.

(f) The manufacturer would have to retain the records of each test performed by the manufacturer and by the recognized independent laboratory as required under the proposed § 159.007-13.

(4) Under the proposed *"Production tests"*:

(a) The operational and technical tests would be the same as those described above in paragraph (3), "Approval tests." The operational tests would have to be conducted for each lot produced and would use the same sampling plan as prescribed for "Approval tests." This sampling plan would allow larger lots than are now allowed, so that manufacturers could increase lot sizes over those presently produced and thereby reduce the frequency of the operational tests. The sampling plan would assure that the quality of the lot is maintained regardless of its size.

(b) The manufacturer or laboratory would select the required number of signals from each production lot and perform the tests that are now performed by the Coast Guard marine inspector as production checks at the place of manufacture.

(c) A recognized independent laboratory would have to perform or supervise the production tests periodically. The frequency of these tests would be determined by the laboratory, but would not be less often than four times a year, unless the number of lots of signals produced in a year is less than four. If less than four lots are produced, each lot would have to be tested by the laboratory.

(d) The production check tests that are now performed at a Government laboratory would be performed by the recognized independent laboratory at a location determined by agreement between the laboratory and the manufacturer.

(5) The existing provisions for determining the number of samples for operational tests and the accept/reject criteria would be replaced by a sampling plan as follows:

(a) Under the sampling plans in tables 1 and 2, a sample consisting of a specified number of distress signals is selected from a production lot. The sample size depends on the lot size. Each unit in the sample is tested as prescribed in the operational tests. Each signal that has a defect listed in the table of defects in each subpart is assigned a score (failure percent) in accordance with that table. If the sum of all the failure percents (cumulative failure percent) for the number of units in the sample is less than or equal to the accept criterion, the lot is accepted. If this sum is equal to or more than the reject criterion the lot is rejected. If the cumulative failure percent falls between the accept and reject criteria, another sample is selected from the production lot and the operational tests are repeated. The cumulative failure percent of each sample tested is added to that of the previous samples to obtain the cumulative failure percent for all the signals tested (cumulative sample size). Additional samples are tested and the tests repeated until either the accept or reject criterion for the cumulative sample size is met. If any signal in the sample explodes when fired or ignites in a way that could burn or otherwise injure the person firing it, the lot is rejected without further testing. The steps in the operational test procedure are diagrammed in figure 1.

[4910-14-C]

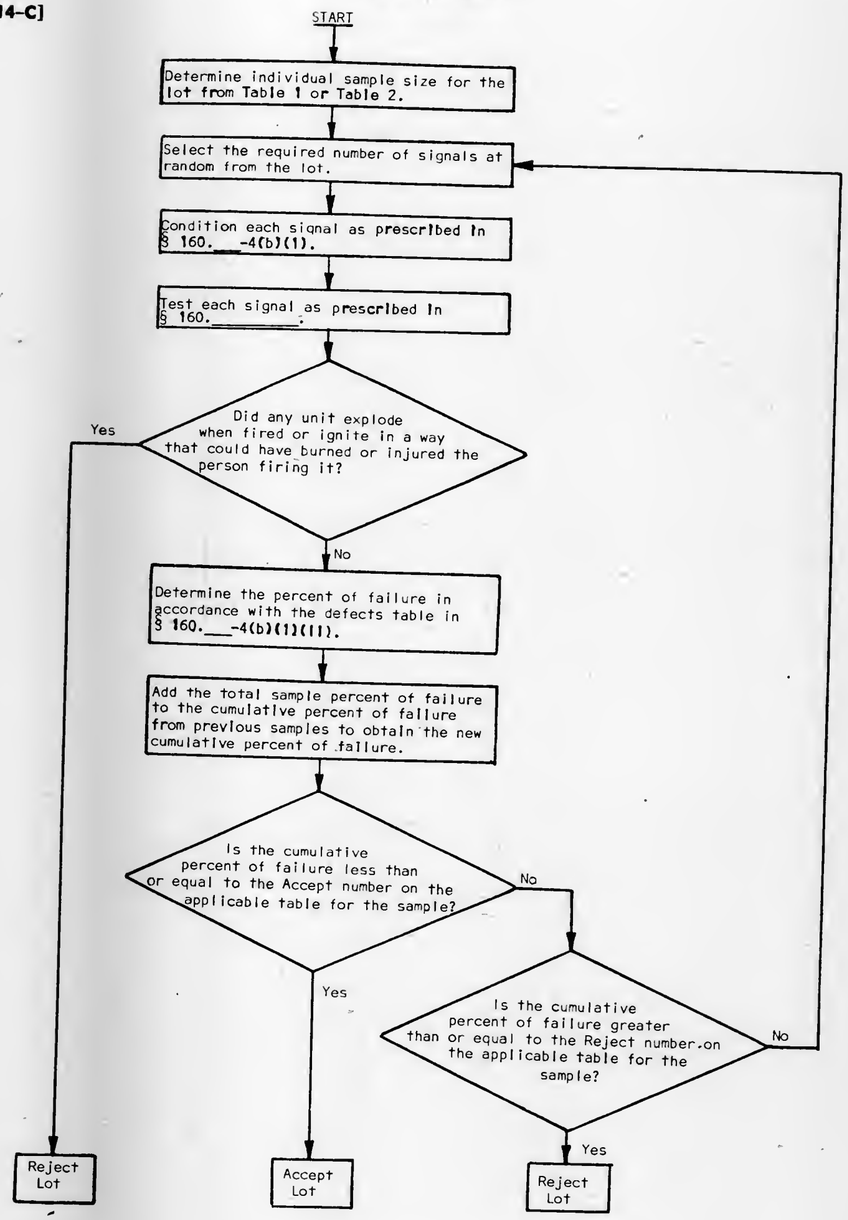

Figure 1. Operational test procedure.

		Fifth	25	300	600
		Sixth	30	400	600
		Seventh	35	699	700

[1] Cumulative failure percent.
[2] Lot may not be accepted. Next sample must be tested.

(b) Under the sampling plan in table 2, the sample size for subpart 160.057 (Orange Smoke Signals) would be smaller than those of the other subparts. The risk to the manufacturer that a satisfactory lot of signals might be rejected and the risk to the consumer that an unsatisfactory lot of signals might be accepted would be greater under subpart 160.057 than under the other subparts. The proposed increased risks are believed to be acceptable. The smoke signal approved under subpart 160.057 is known to be produced in much smaller quantities than the other signals and to cost much more than the other signals. Adopting the same sampling plan that is used for the other signals would result in testing that is prohibitively expensive.

SIGNAL PISTOLS AND LINE-THROWING APPLIANCES

Subparts 160.028, 160.031, and 160.040 would be amended as follows:

(6) In each subpart, the section entitled "*Procedure for approval*" would be amended as proposed in paragraph (1) of this document "*Distress Signals.*"

(7) Section 160.028-4 and 160.031-5, "*Inspections and tests*", and §160.040-5, "*Inspections, sampling, and tests*", would each be replaced by two new sections entitled "*Approval tests*" and "*Production tests.*" The test requirements, however, would remain in the same.

(8) Under the proposed "*Approval tests*":

(a) The tests would be performed by a recognized independent laboratory listed as provided in proposed § 159.010-11 or by the manufacturer under the supervision of such a laboratory.

(b) The requirements for conducting and reporting the results of the approval test would be as prescribed in proposed §§ 159.005-9 and 159.005-11.

(9) Under the proposed "*Production tests*":

(a) The manufacturer would continue to proof-test each signal pistol and line-throwing device, except that in § 160.040-5 the requirement that this be done in the presence of a marine inspector would be deleted.

(b) A recognized independent laboratory would have to perform or supervise the production tests periodically, at a frequency to be determined by the laboratory, but not less than once in any year in which signal pistols, appliances, or rockets are manufactured.

(c) A report summarizing all production tests would have to be submitted to the Commandant as provided in proposed § 159.007-11. The summary would have to include the serial number of each signal pistol or line-throwing appliance tested and the date of each test.

(d) The manufacturer would have to retain records of each test performed by the manufacturer and by the independent laboratory as required under the proposed § 159.007-13.

(Sec. 1, 73 Stat. 475 (46 U.S.C. 481); sec. 6(b)(1), 80 Stat. 937 (49 U.S.C. 1655(b)(1)); 49 CFR 1.46(b).)

NOTE.—The Coast Guard has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821, as amended, and OMB Circular A—107.

Dated: October 11, 1978.

J. B. HAYES,
Admiral,
U.S. Coast Guard Commandant.

SPECIFICATIONS: VISUAL DISTRESS SIGNALS FOR BOATS

Proposed Rules

AGENCY: U.S. Coast Guard, DOT.

ACTION: Proposed rule.

SUMMARY: The Coast Guard is proposing that specifications for three new distress signals be added to the regulations describing Coast Guard approved equipment. The three signals are red aerial pyrotechnic flares, electric distress lights, and distress flags. These three signals are included in the proposed rule that would require some recreational boats to carry distress signals, CGD 183, published on April 10, 1978 in the FEDERAL REGISTER (43 FR 15118). This proposal will insure that devices produced to meet the carriage requirement will not vary in performance specifications from one manufacturer to another, and the boater will be assured of both reliable and safe distress signals.

DATES: Comments must be received on or before December 22, 1978.

ADDRESSES: Comments should be submitted to Commandant (G-CMC/81), U.S. Coast Guard, Washington, D.C. 20590. Comments will be available for examination at the Marine Safety Council (G-CMC/81), Room 8117, Department of Transportation, Nassif Building, 400 Seventh Street, SW., Washington, D.C. 20590. Copies of studies referenced in this document are available for examination at the above address. A copy of the economic evaluation from which the economic summary in this document is taken is also available for examination at this address.

FOR FURTHER INFORMATION CONTACT:

Mr. David R. Gauthier Office of Boating Safety (G-BLC), Room 4308, Department of Transportation, Trans Point Building, 2100 Second Street SW., Washington, D.C. 20590, 202-426-4176.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in this rulemaking by submitting written data, views, or arguments. Written comments should include the docket number (CGD 76-183a), the name and address of the person submitting the comments and the specific section of the proposal to which each comment is addressed. The proposal may be changed in light of comments received before the expiration of the comment period. No hearing is contemplated, but one may be held at a time and place set out in a later notice in the FEDERAL REGISTER, if requested by a person or organization desiring to comment orally at a public hearing and raising a genuine issue.

DRAFTING INFORMATION

The principal persons involved in the drafting of this rulemaking are: Mr. D. R. Gauthier, Project Manager, Office of Boating Safety; Lieutenant G. Stephen Karavitis, Project Attorney, Office of the Chief Counsel.

DISCUSSION OF THE PROPOSED REGULATIONS

The purpose of this proposed rule is to include in Subchapter Q, specifications, three new distress signals designed for use by operators of boats as defined in the Federal Boat Safety Act of 1971 (46 U.S.C. 1452) in complying with the proposed carriage requirement published in the FEDERAL REGISTER on April 10, 1978 (43 FR 15118). The three signals are: (1) Aerial red pyrotechnic flares, both self-contained or pistol launched, and both parachute assisted and nonparachute assisted (meteors); (2) electric distress lights, both automatic and manually keyed; and (3) distress flags. Including these specifications in subchapter Q will insure that devices produced to meet the carriage requirement will not vary in performance specifications from one manufacturer to another, and the boater will be assured of both reliable and safe distress signals if he or she chooses to carry one of these types of signals.

All these signals have been manufactured in this country for several years. However, specifications for distress signals for boats are new. They are

being included in subchapter Q along with specifications for distress signals required on merchant vessels. Distress

The red aerial pyrotechnic distress signal specifications were drawn in part from existing Coast Guard speci-

function in a manner which would cause burns or injury to an unprotect-

being included in subchapter Q along with specifications for distress signals required on merchant vessels. Distress signals required on merchant vessels are designed for more extreme signaling needs than are normally encountered by boats. The proposed carriage requirement for signals on boats will be found in title 33. To require boats to carry the same devices as merchant ships would impose higher costs on the boater than is necessary.

On September 27, 1976, the Coast Guard published an advanced notice of proposed rulemaking for visual distress signals on boats (41 FR 42218). Its purpose was to solicit public input on the question of visual distress signals on boats. Over 150 comments were received, the largest group being from private individuals who own or operate boats. The following is a statistical breakdown of respondents:

	Percent
Private individuals	44
Industry	17
Organized groups	13
State boating law administrators	13
Other Government bodies	3
Media	1
Other	8

A large number of devises were suggested by respondents. Many of the suggestions in those comments have been incorporated in this proposed rule.

Several specific considerations influenced these specifications. The Coast Guard has conducted numerous tests during the past few years in attempting to define necessary characteristics for distress signals on boats. A detailed description of these tests is included in CGD 76-183, published in the FEDERAL REGISTER of April 10, 1976 (43 FR 15118), since they influenced which signals would meet the proposed carriage requirement. However, it is appropriate that they be included in summary form here as well. First, the signal must serve both an alerting and a locator function. The alerting function tells a potential observer that the boat displaying the signal needs help. The locator function aids potential rescuers in identifying which boat out of several is the one in distress. Second, it must serve both these functions at a range of 1 mile for daytime signals and 3 miles for nighttime signals. These distances were determined by analysis of both search and rescue (SAR) data and other boating surveys. Third, these signals must be visible to other boats, since they are the most likely source of assistance. Signals designed primarily for recognition from search aircraft are not acceptable. Finally, the signals should be consistent with the 1972 Convention on the International Regulations for Preventing Collisions at Sea, the 72 COL REGS.

The red aerial pyrotechnic distress signal specifications were drawn in part from existing Coast Guard specifications for other aerial pyrotechnics. There are several differences, however. First, this specification allows nonparachute assisted signals (meteors). It also allows smallers pistol-projected signals. Previous specifications required pistol projected distress signals to be 37 mm. This ruled out the smaller 25 mm and 12 gage signals that have been carried by boaters for many years. These signals will now be included. An amendment to the existing pistol specification is contained in CGD 76-048a, also in this issue of the FEDERAL REGISTER, which deletes the bore specifications for signal pistols. This amendment will allow pistols to be producted that can fire these smaller signals.

Included in the specification are some construction standards. These standards require that signals produced under this specification either be self-contained or designed for use in an approved pistol. Signals must be constructed in lots, with a new lot started whenever: (1) Any change in construction details or raw materials occurs; (2) a new product line is started; or (3) a lot exceeds 10,000 signals. Signals must have a main propulsion charge consisting of a self-oxidizing fuel containing no black powder. However, a manufacturer may use black powder in other components of the signal, such as during the candle-ejection sequence for parachute assisted signals. A final construction standard require that self-contained signals have an interior chamber containing the main propulsion charge and the pyrotechnic candle which is a single, continuous, unbroken cylinder constructed so that it is capable of withstanding the forces generated by ignition without rupture, crack, or deformation of any kind.

Performance requirements for the signal are relatively simple. The signal must burn for a minimum of 6 seconds, with a luminous intensity of at least 10,000 candela. It must burn out completely before it falls back to the level of launch. It must burn a total of at least 1,000 candle-minutes, with a candle-minute equal to the product of the intensity of the signal expressed in candela times the total burning time in minutes of the pyrotechnic candle or candles. The signal must meet these performance requirements after immersion in water for 24 hours, and must also meet these performance requirements after being subjected to an elevated temperature, humidity and storage test.

In addition, there are two performance requirements for the signal which relate to the person-device interface. A signal cannot normally function in a manner which would cause burns or injury to an unprotected person when fired in accordance with the manufacturer's instructions. The Coast Guard will not approve signals which pose hazards to prudent individuals who use signals as they were intended. We recognize that some signals do pose hazards to people when they are used for purposes other than distress signaling, or when people use them without reading or heeding the instructions the manufacturer must include. The Coast Guard does not feel that it is reasonable to require the manufacturer of the signal to try and prevent, through design and production, misuse of distress signals. The Coast Guard does feel, however, that the manufacturer has a responsibility to produce a signal that does not burn or injure an unprotected person using it properly. The accompanying performance requirement is that a signal cannot malfunction in a manner that would cause burns or injury to an unprotected person when it is fired. This is essentially a "fail-safe" provision in the specifications. Several signals currently produced already appear to meet the spirit of this proposed requirement. The key to this requirement is that, in the unlikely event that a signal did malfunction, the user would have some margin of safety in disposing of the signal promptly without the possibility, for example, of having the signal explode in one's hand.

The Coast Guard does not intend at the present time to intentionally induce signal malfunction to evaluate how the manufacturer meets this performance requirement. Evaluation of compliance with this provision would be on a design level, when the signal is submitted for approval. However, provisions are included in the production testing requirements that would automatically fail a lot where a signal malfunctioned in a manner that would cause burns or injury to an unprotected person. A further source of information would be reports from users where signals did not meet this requirement. The Coast Guard could then use such reports to reevaluate an approval certificated issued under this specification to a manufacturer. The Coast Guard invites comments from manufacturers and potential users of signals on both these related performance requirements.

Performance requirements do not vary between parachute flares and meteors. Conceivably a manufacturer could produce a parachute flare that only burns for 6 seconds. However, this probability seems unlikely, given the fact that current parachute flares of the 25 mm size have a burning time of 20 to 25 seconds, and present consumers of this device would be unlikely to purchase one with a shorter duration, choosing instead a signal with longer duration that costs about what they are presently paying. Two additional factors in the performance requirements will preclude malfunctioning parachute flares from being approved as meteors. Parachute flares whose parachutes fail to deploy will not meet either the 6-second burning requirement or the requirement to burn out before falling back to the level of launch. The reason for distinguishing between meteors and parachutes flares, and the consequent labeling differences, has to do with the fact that the carriage requirement for these signals on boats, CGD 76-183, allows the parachute flares to meet both the day and night signal requirements, while the meteor is acceptable only in meeting the night signal requirement.

There are specific labeling requirements for the manufacturer. Devices must be labeled with the manufacturer's name, color, and burning time of the pyrotechnic candle or candles, the size signal pistol if one is required, the lot number, Coast Guard approval number, operation and storage instructions, date of expiration, and identification as either parachute assisted or meteor. Some of this information can be printed on a separate piece of paper packed with each signalor in the smallest container in which several signals are packed. Compliance with these labeling requirements in no way relieves the manufacturer of any obligation to comply with other labeling requirements, specifically those of the Federal Hazardous Substances Act, 15 U.S.C. 1263.

One change from previous pyrotechnic specifications is the shift from printing the date of manufacture on the signal to printing the date of expiration. This was done so consumers of the signals will know when the time has come to replace them. Date of expiration will normally be 3 years from the date of manufacture. The manufacturer can extend the date of expiration up to 1 additional year by storing the signals in a controlled environment until they are shipped from the plant. To do this, the manufacturer must store the signals in an area where the temperature remains between 10° C (50° F) and 30° C (85° F) and the relative humidity does not exceed 50 percent. A number of records must also be kept when the manufacturer choose to exercise this option.

All signals produced under this specification must be approved by the Coast Guard. The manufacturer applies to the Coast Guard for this approval. An application must include plans and diagrams of the device, as well as results of the operational and technical tests required by this specification. The tests must be conducted by an independent laboratory that has been accepted by the Coast Guard as capable of performing the required tests and as independent from the manufacturer of the signals. The Coast Guard will furnish a list of such laboratories on request from a manufacturer. Laboratories that seek to be listed by the Coast Guard for conducting these tests must apply to the Commandant (G-MMT), U.S. Coast Guard. Procedures covering this program are proposed in a separate document, CGD 76-048, which is also published in this issue of the FEDERAL REGISTER. Manufacturers must produce a lot of at least 100 signals for use in these tests. The U.S. Coast Guard will consider all the data submitted, and either accept or reject the application for approval. If accepted, the manufacturer will receive an approval certificate. If rejected, the manufacturer will be notified as to why the device was not approved.

Approval certificates will automatically expire 5 years from the date of issuance. The Coast Guard may withdraw an approval certificate before that time if the manufacturer produces signals that do not meet these specifications, or if the manufacturer does not conduct the production testing that is required by these proposed rules.

The specification includes two types of tests. Operational tests are designed to insure that the signals meet the performance requirements of the specifications. Samples for these tests are selected using a sample plan based on military standard 105D, which assures random sample selection, and adjusts the number of samples required to the size of lot produced. Technical tests are designed to insure that the intensity, color, and storage characteristics of the signals produced meet the requirements of the proposed specification. The number of samples required for the technical tests is constant, regardless of the size of the lot, since these characteristics do not normally vary among the signals produced within one lot.

Production testing for these signals will be the responsibility of the manufacturer and the listed independent laboratory that performs the tests for the application for approval. Operational tests must be conducted for each lot produced. The laboratory must conduct or directly supervise the operational tests for at least four lots during the course of each year. The lots thus selected may be at irregular intervals, but if there is production in a quarterly period, the laboratory must conduct or directly supervise the operational tests for at least one lot during that quarterly period. All other operational tests are the responsibility of the manufacturer. The technical tests do not have to be conducted for every lot. They must be conducted at least once every year, or every 10 lots, whichever happens first. All technical tests must be performed or directly supervised by the laboratory. The manufacturer must provide a yearly report of the production tests, both operational and technical, to the Coast Guard.

The specifications for the distress flag are new, but are related to those established by Canada and recognized internationally as a distress signal. The flag must be either a square or a rectangle, at least 3 feet on a side. It must be indian orange in color, and have a black square and disc superimposed on the central horizontal axis of the flag. The sizes of the square and disc are proportional to the total size of the flag, but the square must have a side that is at least 1 foot long. The disc must have a diameter of at least 1 foot. If the flag is a rectangle, the shorter side must be at least ⅔ the length of the longer side. The flag must have reinforced corners, and have a grommet in each corner. It must also be packed with four pieces of line that can be used to secure it to a pole or mast. The line must have a tensile strength of at least 25 pounds, and each piece must be at least 12 inches long.

The choice of international orange as the color for the flag was to insure a high contrast color in the marine environment. The color specified is indian orange, Cable No. 70072, Standard Color Card of America, issued by the Textile Color Asssociation of the United States, Inc., 200 Madison Avenue, New York, N.Y., and is the color required for Coast Guard approved life preservers. It is possible that other, more desirable colors have been developed. The Coast Guard is interested and welcomes suggestions for alternative colors for the distress flag.

Distress flags produced under this specification will not require approval from the Coast Guard. The manufacturer will however, have to certify that flags will have to be labeled accordingly, so that potential consumers will be able to indentify flags that meet the proposed carriage requirement.

Flags will not have to undergo any type of testing. However, the specification does require that the material used in the flag must be capable of passing an accelerated weathering test. The accelerated weathering test is comprised of a salt spray in combination with an air blast, and conducted under ultraviolet light. This is similar to tests currently required for plastic materials on lifeboats. The Coast

Guard solicits suggestions from flag manufacturers on this test, and spe-

there must be at least one point where the intensity is at least 5,000 candela.

justing the cost data drawn from existing approval systems. In addition, it

(2) Not more than 4 years after the date of manufacture.

(d) The following conditions must be

V 43/205 0C 23 78

Guard solicits suggestions from flag manufacturers on this test, and specifically on ultraviolet light specifications appropriate for flag materials.

The manufacturer, by certifying the flag, must consequently insure that the material used will meet this test, either through agreements with the supplier of the material or through his own production system. The manufacturer must submit to the Commandant (B-BBT), U.S. Coast Guard, a notice that he is producing flags under this specification. The Coast Guard will maintain a copy of this notice for 5 years. This will allow the Coast Guard to list the manufacturer in CG-190, Equipment Lists, as a potential supplier of flags produced under this specification.

The specifications for the distress light represent the greatest departure from existing specifications. The Coast Guard presently approves flashlights used on lifeboats and strobe lights used as man-overboard lights. Through tests conducted and discussed in document CGD 76-183 (43 FR 15118), the conclusion was reached that these lights are not satisfactory for use on boats as distress signals. The flashlights do not have sufficient intensity, and the strobe lights do not necessarily indicate distress to an observer. This is because flashing lights, such as strobe lights, are common in the marine environment, and are used as aids to navigation lights, collision avoidance lights, and personal flotation device lights for people in the water.

The proposed specification will allow two types of distress lights. A light must either be programed to automatically flash an S-O-S signal, or be equipped with a switch that allows a similar S-O-S signal to be produced manually. Lights may either employ a parabolic beam, or emit light visible over a horizontal arc of 360 degrees. Irrespective of the type of light or beam, the light must have certain characteristics. It must be waterproof, corrosion resistant, float with the lens up, and contain an independent power source that will power the light for at least 8 hours of continuous use. If the power source requires external water to form an electrolyte, then it must operate in both sea water and fresh water.

The intensity of the light is dependent on whether it is a parabolic beam or emits light visible over a horizontal arc of 360 degrees. Parabolic beam lights must produce a light that, measured 10 feet from the outer lens surface, illuminates an area that is at least 18 inches in diameter measured perpendicular to the beam. Within this illuminated area, which will commonly be a circle, no point can have an intensity less than 50 candela, and there must be at least one point where the intensity is at least 5,000 candela.

Lights visible over a horizontal arc of 360 degrees must produce a beam that has its focal plane at the horizon. The area illuminated by a light of this type will most commonly be a band of light. At a distance of 10 feet from the outer lens surface, the intensity of this band of light must be at least 350 candela. In addition, perpendicular to this point on the focal plane at a distance of 9 inches above and below it, the measured intensity must be at least 50 candela.

The purpose in specifying beam width for both types of lights is to insure that the light will be able to transmit the S-O-S signal to an observer, and the observer will be able to recognize the signal, even if the boat in distress is rocking up and down in a seaway. If the beam width is too narrow, the light will only be seen as a blinking light, and thus will not be considered a distress signal by an observer.

Lights that produce an automatic S-O-S must produce the signal at the rate of between 3 and 5 times each minute. Our field tests have shown that a faster rate blurs the signal together at a range of 3 miles, and a slower rate is difficult to perceive as a distress signal. Lights that rely on a manual switch must be engineered in such a way that a person can produce an S-O-S signal manually that is the same as the signal produced by automatic lights. The Coast Guard considers this more a matter of switch design than any other factor, but will allow manufacturers design latitude in this area.

Lights produced under this specification will not require approval by the Coast Guard. The manufacturer must certify that the light meets Coast Guard specifications if it is sold as a distress signal. Labeling and certification statements will reflect this fact. The manufacturer will be required to test a prototype light to insure that it meets all the requirement of this specification before it can be sold as certified. In addition, he must submit to the Commandant (G-BBT), U.S. Coast Guard, a notification of the test results for each type of light that is certified under this specification. The Coast Guard will maintain a copy of this notice for 5 years. This will allow the Coast Guard to list the manufacturer in CG-190, Equipment Lists, as a potential supplier of lights produced under this specification.

The Coast Guard has evaluated this proposal under the Department of Transportation policies for improving Government regulations published on March 8, 1978 (43 FR 9582). The proposed approval system for aerial pyrotechnic distress signals requires adjusting the cost data drawn from existing approval systems. In addition, it should be noted that this proposal would increase the limits on lot size from 3,000 signals to 10,000 signals, which should lower the cost per signal. The Coast Guard estimates that the cost incident to approval will not be more than $1.50 to $2 for each signal. While this represents a relatively high percentage of the total cost of some types of pyrotechnic distress signals, the Coast Guard feels that it is reasonable in view of the necessity of insuring reliable and safe signals. Comments on the anticipated costs of the proposed approval system from persons having experience in this area are particularly desired.

Costs associated with certification of lights and flags will be primarily labeling costs. These are anticipated to range below $0.50 for each device.

The Coast Guard estimated in the proposed carriage requirement (43 FR 15118) that it will apply to about 1.9 million boats. However, it is difficult to project how many of these boats will choose to carry the three signals included in this proposed rule, especially since five other types of signals will be acceptable in meeting the proposed carriage requirement. In addition, boats not required to carry signals will be encouraged to do so through the Coast Guard's boating safety program. Considering that there are an estimated 3 million boats on the coastal waters of the United States, many boaters, who would otherwise not carry signals, might select one of these three signals to improve their margin of safety. Without knowing how many of these devices will be produced and sold to the boating public, the total cost of this proposed rule cannot be determined.

In consideration of the foregoing, it is proposed to amend Title 46, Code of Federal Regulations, Subchapter Q, by adding subparts 160.066, 160.072, and 161.013, to read as follows:

Subpart 160.066—Distress Signal for Boats, Red Aerial Pyrotechnic Flare

Sec.

160.066-1 Type.
160.066-5 Design, construction, and manufacturing requirements.
160.066-7 Performance requirements.
160.066-9 Labeling.
160.066-10 Expiration date.
160.066-11 Approval procedures.
160.066-12 Operational tests.
160.066-13 Technical tests.
160.066-14 Production testing.
160.066-18 Listed Independent Laboratories.

AUTHORITY: Sec. 5, 85 Stat. 215 (46 U.S.C. 1454); 49 CFR 1.46(n)(1).

Subpart 160.066—Distress Signal for Boats, Red Aerial Pyrotechnic Flare

§ 160.066-1 Type.

(a) Red aerial pyrotechnic distress signals specified by this subpart must be either self-contained or pistol launched, and either meteor or parachute type.

§ 160.066-5 Design, construction, and manufacturing requirements.

(a) Each signal must be either:

(1) A self-contained unit, with all necessary components for firing the signal, or

(2) A cartridge intended for firing from a signal pistol that is approved under subpart 160.028 of this chapter.

(b) Each signal must have a main propulsion charge consisting of a self-oxidizing solid fuel containing no black powder.

(c) Each self-contained unit must have an interior chamber containing the main propulsion charge and the pyrotechnic candle which is a single, continuous, unbroken cylinder constructed so that it is capable of withstanding the forces generated by ignition without rupture, crack, or deformation of any kind.

(d) Signals must be constructed in lots numbered serially by the manufacturer. A new lot must be started when:

(1) Any change in construction details or raw materials occurs;

(2) Production is started on a new production line or on a previously discontinued production line; or

(3) A lot exceeds 10,000 units.

§ 160.066-7 Performance requirements.

(a) Each signal must:

(1) Burn "vivid red" as specified in 46 CFR 160.021-4(n) for at least 6 seconds.

(2) Have a luminous intensity of at least 10,000 candela.

(3) Burn out completely before falling back to the level of launch.

(4) Function in a manner that would not cause burns or injury to an unprotected person firing the signal in accordance with the manufacturer's instructions.

(5) Not malfunction in a manner that would cause burns or injury to an unprotected person.

(6) Burn a total of not less than 1,000 candle-minutes using the formula $I \times T = Cm$ where:

I = the average luminous intensity in candela;
T = the total burn time of the device in minutes; and
Cm = the candle-minute rating of the device.

(b) Each signal must meet the requirements of paragraph (a) of this section after:

(1) Submersion in water for 24 hours, or

(2) If protected by a sealed container, submersion in water for 24 hours inside the sealed container immediately followed by submersion for 10 minutes without the container, and

(3) Being exposed to the elevated temperature, humidity, and storage test in § 160.066-14(b).

§ 160.066-9 Labeling.

(a) Each signal must be legibly and indelibly marked with the following information:

(1) The manufacturer's name,

(2) The color and burning time of the pyrotechnic candle(s),

(3) The specific signal pistol for which the signal is designed, if any,

(4) The lot number,

(5) The Coast Guard approval number,

(6) Operation and storage instructions,

(7) The month and year of expiration determined by § 160.066-10, and

(8) If the signal's descent is parachute controlled, the following words:

Parachute Flare. Acceptable as a Day and Night Visual Distress Signal for boats as required by 33 CFR 175.110, For Emergency Use Only.

or

(9) If the signal's descent is not parachute controlled, the following words: "Meteor Flare. Acceptable as a Night Only Visual Distress Signal for boats as required by 33 CFR 175.110. For Emergency Use Only".

(b) If the signal is too small to contain all of the information required by paragraph (a) of this section and any labeling which may be required by paragraph (c) of this section, the information required by paragraphs (a) (2), (6), (8), and (9) of this section may be printed on a separate piece of paper packed with each signal or with the smallest container in which several signals are packed.

(c) Compliance with the labeling requirements of this section does not relieve the manufacturer of the responsibility of complying with the label requirements of 15 U.S.C. 1263, the Federal Hazardous Substances Act.

§ 160.066-10 Expiration date.

(a) Each approved signal must have an expiration date marked on it.

(b) For each signal shipped directly from the production line or from storage that does not meet the requirements in paragraph (d) of this section, the expiration date must be 3 years from the date of manufacture.

(c) For each signal stored before shipment under conditions specified in paragraph (d) of this section, the expiration date must be—

(1) Not more than 3 years after removal from storage; and

(2) Not more than 4 years after the date of manufacture.

(d) The following conditions must be met to qualify for determining the expiration date under paragraph (c) of this section:

(1) The relative humidity of the storage place must not exceed 50 percent.

(2) The temperature of the storage place must be maintained between 10° C (50° F) and 30° C (86° F).

(3) The temperature and humidity of the storage place must be recorded daily.

(4) The signal must be from a lot that is stored separately from other lots.

(5) The lot number, the date of shipment, the date the lot is placed in storage, the number of signals shipped, and the consignee of the shipment must be recorded and the manufacturer must retain this record for at least 5 years after the date of shipment.

§ 160.066-11 Approval procedures.

(a) Red aerial pyrotechnic flare distress signals are approved under the procedures of subpart 159.005 of this chapter.

(b) The manufacturer must produce a lot of at least 100 signals from which samples for preapproval testing must be drawn. Preapproval testing must be conducted in accordance with the operational test in § 160.066-13 and the technical tests in § 160.066-14. In order for the signal to be approved, the samples must pass the operational tests and must not fail the technical tests.

(c) The preapproval tests must be performed by an independent laboratory accepted by the Commandant under § 159.010 of this chapter. A list of independent laboratories accepted by the Commandant is in § 160.066-18.

§ 160.066-12 Operational tests.

(a) The procedure for conducting operational tests is described in figure (1).

(1) An "accept lot" decision must be reached in order to pass the operational tests.

(2) If a "reject lot" decision is reached, the entire lot is rejected and must not be sold as Coast Guard approved.

(3) If a lot is produced with the Coast Guard approval number printed on the signals, and a "reject lot" decision is reached, the signals must be destroyed or the Coast Guard approval number obliterated.

(b) Each signal selected for the operational tests must be conditioned by:

(1) Being submerged under at least 25 mm (1 in) of water for 24 hours without any protection other than its waterproofing; or

(2) If waterproofing is provided by a sealed plastic bag or other waterproof packaging, submersion under 25 mm (1

(2) The pyrotechnic candle fails to ignite,

(3) The signal is any color other

TABLE 1.—*Accept and Reject Criteria for Operational Test Lots*

Lot size	Individual	Sample	Cumulative	Accept	Reject

(iii) Every 2 seconds during the burning of the candle beginning one second after the candle (not including

(2) If waterproofing is provided by a sealed plastic bag or other waterproof packaging, submersion under 25 mm (1 in) of water for 24 hours in the packaging, followed immediately by submersion for 10 minutes with the signal removed from the packaging.

(c) After each signal selected has undergone the conditioning required by paragraph (b) of this section it must be fired as described by the manufacturer's operating instructions. The following data must be recorded for each signal:

(1) Burning time of the pyrotechnic candle;

(2) Color;

(3) Whether the pyrotechnic candle burns out above, at, or below the level of launch.

(d) A signal fails the operational tests if:

(1) It fails to fire;

(2) The pyrotechnic candle fails to ignite,

(3) The signal is any color other than vivid red,

(4) The burning time with a vivid red color is less than 6 seconds,

(5) The pyrotechnic candle continues to burn after if falls back to the level of launch, or

(6) The pyrotechnic candle burns less than 1,000 candle-minutes as calculated in § 160.066-7(a)(6), using the time observed from paragraph (c)(1) of this section and the rated intensity from the most recent technical test conducted under § 160.066-13.

(e) A lot is rejected if:

(1) A "reject lot" decision is reached using figure (1) and table 1 after completion of the operational tests; or

(2) Any signal in the sample malfunctions in a manner that would cause burns or injury to an unprotected person firing the signal.

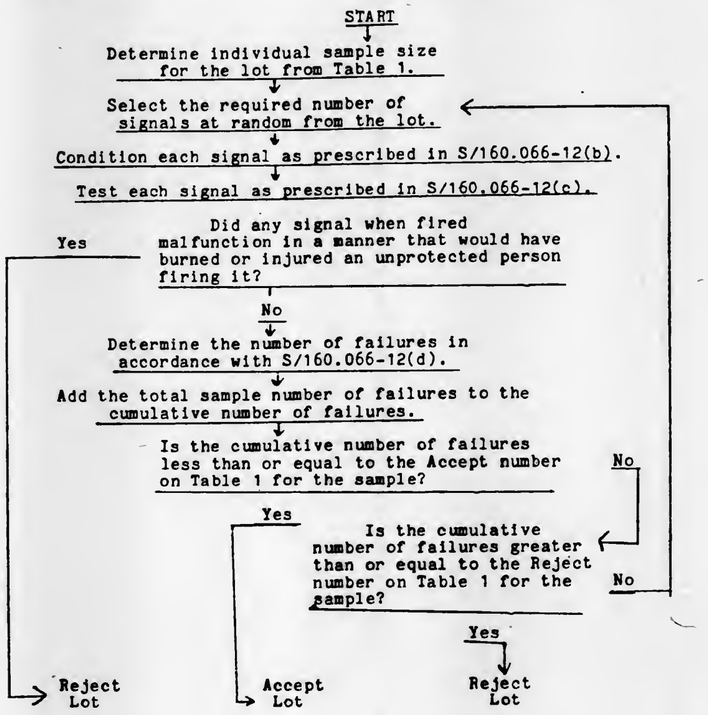

Figure 1. Operational Test Procedure.

TABLE 1.—*Accept and Reject Criteria for Operational Test Lots*

Lot size	Individual sample size	Sample	Cumulative sample size	Accept [1]	Reject [1]
280 or less	8	First	8	*	4
		Second	16	1	5
		Third	24	2	6
		Fourth	32	3	7
		Fifth	40	5	8
		Sixth	48	7	9
		Seventh	56	9	10
281 to 500	13	First	13	*	4
		Second	26	1	6
		Third	39	3	8
		Fourth	52	5	10
		Fifth	65	7	11
		Sixth	78	10	12
		Seventh	91	13	14
501 to 1,200	20	First	20	*	5
		Second	40	3	8
		Third	60	6	10
		Fourth	80	8	13
		Fifth	100	11	15
		Sixth	120	14	17
		Seventh	140	18	19
1,201 to 3,200	32	First	32	1	7
		Second	64	4	10
		Third	96	8	13
		Fourth	128	12	17
		Fifth	160	17	20

		Seventh	224	25	28
3,201 to 10,000	50	First	50	2	9
		Second	100	7	14
		Third	150	13	19
		Fourth	200	19	25
		Fifth	250	25	29
		Sixth	300	31	33
		Seventh	350	37	38

[1] Cumulative number of failures.
*Lot may not be accepted. Next sample must be tested.

§ 160.066-13 Technical tests.

(a) The following conditions apply to technical tests as described in this section:

(1) A total of nine signals must be selected at random from one lot for the tests;

(2) If the signals are protected by sealed packaging, then the technical tests must be conducted with the signal in the sealed packaging;

(3) If the test sample fails to pass one of the technical tests, the entire lot is rejected and must not be sold as Coast Guard Approved;

(4) If a lot is produced with the Coast Guard Approval Number on the signals, and the test sample fails one of the technical tests the signals must be destroyed or the approval number obliterated.

(b) The Elevated Temperature, Humidity, and Storage Test must be conducted in the following manner:

(1) Select three signals;

(2) Place each signal in a thermostatically controlled even-temperature oven held at 60 Degrees C (140 degrees F), and at not less than 90 percent relative humidity, for at least 72 hours;

(3) Remove each signal from the oven identified in (2), and immediately store each signal for 10 days in a chamber held at—

(i) A temperature of at least 20 degrees C (68 degrees F) but not more than 25 degrees C (77 degrees F), and

(ii) At not less than 65% relative humidity.

(4) Then remove each signal from any sealed packaging and fire it;

(5) The signals fail the test if:

(i) Any signal ignites or decomposes before firing,

(ii) Any signal when fired malfunctions in a manner that would cause burns or injury to an unprotected person firing the signal, or;

(iii) Two or more of the signals fail to project and ignite the pyrotechnic candle.

(c) The Spontaneous Combustion Test must be performed in the following manner:

(1) Select three signals,

(2) Place each signal in a thermostatically controlled oven for 48 hours at a temperature of 75 degrees C (167 degrees F),

(3) Remove the signals,

(4) The signals fail the test if any signal ignites or decomposes during the test.

(d) The Luminous Intensity and Chromaticity Test must be performed in the following manner:

(1) Remove the pyrotechnic candle from the remaining three signals,

(2) Ignite, measure, and record the intensity of the burning candle with a visual photometer or equivalent photometric device—

(i) While the specimen is supported in a horizontal position and the photometer is at right angles to the axis of the specimen,

(ii) At a distance of at least 3 m (10 ft.),

(iii) Every 2 seconds during the burning of the candle beginning one second after the candle (not including any primer, initiator, or delay) is ignited;

(3) Calculate the intensity of the candle as the arithmetic average of the readings taken;

(4) Measure and record the chromaticity of the burning candle as specified in 46 CFR 160.021-4(n);

(5) The signals fail the test if more than one signal has a luminous intensity of less than 10,000 candela, or more than one signal is not "vivid red".

§ 160.066-14 Production testing.

(a) Production tests must be performed under the procedures in Subpart 159.007 of this chapter.

(b) The operational tests in § 160.066-12 must be performed for every lot of signals produced.

(c) The technical tests in § 160.066-13 must be performed at least once every 12 months, or at least once every 10 lots, whichever occurs first.

(d) If a lot is rejected on the basis of the technical tests, then each subsequent lot produced must be tested according to the technical tests until samples from a lot pass these tests.

(e) The independent laboratory must perform or directly supervise—

(1) Each technical tests; and

(2) All operational tests for at least four lots in a 12-month period, unless fewer than four lots are produced in a 12-month period. If less than four lots are produced in a 12-month period, each operational tests must be performed or directly supervised by the independent laboratory.

(f) If a lot selected by the independent laboratory for an operational test is rejected, then the operational tests for each subsequent lot must be performed or directly supervised by the independent laboratory, until samples from a lot pass these tests;

(g) The independent laboratory selects the lots upon which technical tests are performed.

(h) If the manufacturer produces more than four lots within a 12-month period, the independent laboratory selects the lots for which it performs or directly supervises the operational tests.

(i) The operational test performed or directly supervised by the independent laboratory must be done at least once during each quarterly period, unless no lots are produced during that period.

(j) The independent laboratory, when it performs or directly supervises the technical tests required by paragraph (c) or (d) of this section, must inspect the signals selected for testing and compare them with the approved plans. Each signal inspected must conform to the plans.

§ 160.066-18 Listed independent laboratories.

(a) The following are independent

visible signs of fading or rot over more than 3 percent of the flag surface;

(5) Have reinforced corners, each with a grommet, capable of withstand-

§ 160.066–18 **Listed independent laboratories.**

(a) The following are independent laboratories acceptable to the Commandant for approval and production testing under this subpart:

(Independent laboratories will be listed in this section as they are accepted by the Commandant.)

Subpart 160.072—Distress Signals for Boats, Orange Flag

Sec.
160.072-1 Applicability.
160.072-3 General performance requirements.
160.072-5 Accelerated weathering test.
160.072-7 Labeling.
160.072-9 Manufacturer certification.
160.072-10 Manufacturer notification.

AUTHORITY: Sec. 5, 85 Stat. 215; (46 U.S.C. 1454); 49 CFR 1.46(n)(1).

Subpart 160.072—Distress Signals for Boats, Orange Flag

§ 160.072–1 **Applicability.**

(a) This subpart establishes standards for distress flags for boats.

§ 160.072–3 **General performance requirements.**

(a) Each flag must:

(1) Be a square or rectangle at least 90 cm (36 inches) wide and at least 90 cm (36 inches) long. If the flag is a rectangle, the shorter side cannot be less than ⅔ the length of the longer side;

(2) Have no less than 70 percent of the total area colored Indian orange as specified in § 160.002-3(b);

(3) Display a black disc and a black square on the orange background arranged as follows:

(i) The diameter of the disc and the length of one side of the square shall be equal, and shall each be ⅓ of the length of the longest side of the flag, or 30 cm (12 inches), whichever is greater;

(ii) The disc and square must be centered on one axis of the flag parallel to the longest side of the flag as shown in Figure 160.072-3. If the flag is a square, the axis may be parallel to any side.

(iii) The disc and square shall be separated by a distance of ⅙ the length of the longest side of the flag or 15 cm (6 inches), whichever is greater;

Figure 160.072-3

(4) Be constructed of material capable of withstanding the accelerated weathering test in § 160.072-5 without visible signs of fading or rot over more than 3 percent of the flag surface;

(5) Have reinforced corners, each with a grommet, capable of withstanding the accelerated weathering test in § 160.072-5 without visible signs of corrosion; and

(6) Have four pieces of line—

(i) Each at least 30 cm (12 inches) long with a minimum diameter of 10 mm,

(ii) With a tensile strength of at least 115N (25 lbs.),

(iii) Capable of passing through the grommets freely, and,

(iv) Capable of withstanding the accelerated weathering test in § 160.072-5 with no more than a 5-percent decrease in tensile strength.

§ 160.072–5 **Accelerated weathering test.**

(a) Under ultraviolet light, subject the material to alternate 3-minute cycles of 20-percent salt spray at 55 degrees C and an air blast of 40 knots at 55 degrees C without interruption for a period of 200 hours. Metallic parts shall be free of paint or other finish during this test.

§ 160.072–7 **Labeling.**

(a) Each distress flag must be legibly and indelibly marked with:

(1) The manufacturer's name; and

(2) The following words and symbols—

"Day Visual Distress Signal for Boats. Complies with U.S. Coast Guard Requirements. For Emergency Use Only".

§ 160.072–9 **Manufacturer Certification.**

(a) Each distress flag intended as a Day Visual Distress Signal required by 33 CFR Part 175 must be certified by the manufacturer as complying with the requirements of this subpart.

(b) Each distress flag must be accompanied by a certification statement containing:

(1) The manufacturer's name, and address, and;

(2) The following words—

"This flag complies with the requirements of 46 CFR Subpart 160.072. Acceptable as a Day Visual Distress Signal for Boats required by 33 CFR 175.110".

§ 160.072–10 **Manufacturer notification.**

(a) Each manufacturer certifying flags in accordance with the specifications of this subpart must send written notice to the Commandant (G-BBT), U.S. Coast Guard, Washington, D.C. 20590 within 30 days after first certifying them, and send a new notice every five years thereafter as long as it certifies flags.

Subpart 161.013—Electric Distress Light for Boats

Sec.
161.013-1 Applicability.
161.013-3 General performance requirements.
161.013-5 Intensity requirements.
